PROPOSAL NO. 1:

ELECTION OF DIRECTORS

GENERAL

Article III, paragraph number 2 of the Company's By-Laws provides that the number of directors of the Company shall be a minimum of three (3) and a maximum of ten (10). The members of the Board of Directors are each elected for a one-year term or until their successors are elected and qualify with a plurality of votes cast in favor of their election. The Board of Directors consisted of nine (9) persons during Fiscal 2003 and seven (7) nominees for the Board are put forth before the stockholders for the Annual Meeting. Four (4) of the nominees, Messrs. John A. Clendening, Bill L. Harbert, Peter E. Salas and Richard T. Williams are all presently directors of the Company who were elected at the Company's last annual meeting of stockholders held on June 27, 2003 and are up for re-election. One of the remaining three (3) nominees, Mr. Neal F. Harding, formerly served as a director of the Company and the other two (2) nominees, Messrs. Clarke H. Bailey and Carlos P. Salas are up for election as directors of the Company for the first time.

The directors will serve until the next annual meeting of stockholders and thereafter until their successors shall have been elected and qualified.

Unless authority is withheld, the proxies in the accompanying form will be voted in favor of the election of the nominees named above as directors. If any nominee should subsequently become unavailable for election, the persons voting the accompanying proxy may in their discretion vote for a substitute.

BOARD OF DIRECTORS

The Board of Directors has the responsibility for establishing broad corporate policies and for the overall performance of the Company. Although only one (1) member of the Board is involved in day-to-day operating details, the other members of the Board are kept informed of the Company's business by various reports and documents sent to them as well as by operating and financial reports made at Board meetings. The Board of Directors held thirteen (13) meetings in Fiscal 2003. All directors attended at least 75% of the aggregate number of meetings of the Board of Directors and of the committees on which such directors served during Fiscal 2003. Although it has no formal policy requiring attendance, the Company encourages all of its directors to attend the annual meeting of stockholders. All but one of the Company's directors (who had a prior

commitment for the date of the meeting) attended last year's annual meeting and it is anticipated that all of the director-nominees will attend this year's Annual Meeting.

Management believes that a majority of the seven director-nominees are independent directors in accordance with the definition of that term under the Rules of the American Stock Exchange.

There is no understanding or arrangement between any director or any other persons pursuant to which such individual was or is to be selected as a director or nominee of the Company.

Committees

The Company's Board has operating compensation, audit, and stock option committees. It does not presently have a nominating committee or a committee performing the functions of a nominating committee. The Company also does not presently have a nominating committee charter or other written document regarding either the qualifications required or the method of selecting nominees for the Board of Directors. The Company also presently has no policy with regard to the consideration of any director candidates recommended by security holders. However, the Company will consider director candidates recommended by security holders. The Company believes that it is appropriate not to have such a policy because any policy may render more difficult the already-difficult process of locating suitable nominees willing to serve in view of the Company's history of earnings and inability to pay for services as a director or, until recently, to fund by insurance or otherwise the Company's indemnity obligations owed to persons serving as a director of the Company. Any person recommended by a security holder to serve on the Board of Directors is considered by the Company upon the same terms as candidates recommended by any other party.

The specific minimum qualifications that the Company believes must be met by a recommended nominee for a position on the Company's Board of Directors include, but are not limited to the following: a background or experience in oil and gas exploration, production, transportation, geology, transportation, construction, finance or in another business, government service, or profession that would reasonably enable the nominee to provide seasoned and reputable service to the shareholders of the Company in the performance of the duties of a member of the Board of Directors. In addition to these qualifications, a nominee must be willing to serve without compensation for such service.

The Company has no existing process for identifying and evaluating nominees for director, including nominees recommended by security holders. The Company does consider whether a nominee meets the definition of an independent director under laws and regulations of the Securities Acts and the rules of the American Stock Exchange in

the process of identifying and evaluating nominees for director and anticipates that such consideration will continue to exist in the future. The Company does not pay any fee to any third party to identify or evaluate or assistance in identifying or evaluations of potential nominees.

The present directors of the Company who participated in the consideration of director-nominees included in this proxy statement included Peter E. Salas, Richard T. Williams, Jeffrey R. Bailey, John Clendening, and Bill Harbert. For each nominee for election to the Board of Directors listed on the proxy card other than nominees who are directors standing for re-election, the person was recommended by the following categories of persons:

Clarke H. Bailey recommended by a security holder/non-management director.

Neal F. Harding- recommended by the Company's Chief Executive Officer.

Carlos P. Salas recommended by a security holder/non-management director.

Prior to the end of the current fiscal year (2004), the Company intends to form a nominating committee of the Board of Directors consisting of independent directors and that such committee will adopt a nominating committee charter that will be in full compliance with laws and regulations of the Securities Act and the rules of the American Stock Exchange.

Compensation Committee

In Fiscal 2003, the members of the Compensation Committee were Stephen W. Akos, John A. Clendening and Charles M. Stivers with Mr. Clendening acting as Chairman. The Compensation Committee's functions, in conjunction with the Board of Directors, are to assist in the implementation of, and provide recommendations with respect to, general and specific compensation policies and practices of the Company for directors, officers and other employees of the Company. The Compensation Committee expects to periodically review the approach to executive compensation and to make changes as competitive conditions and other circumstances warrant and will seek to ensure the Company's compensation philosophy is consistent with the Company's best interests and is properly implemented. The Compensation Committee met one time in Fiscal 2003. Beginning in 2004, pursuant to the Rules of the American Stock Exchange the Compensation Committee will determine or recommend to the Board of Directors for determination the compensation of the Company's Chief Executive Officer and all of the Company's other officers. The Chief Executive Officer may not be present during the voting or deliberations with respect to his compensation.

*Compensation Committee Interlocking
And Insider Participation*

No interlocking relationship existed or exists between any member of the Company's Compensation Committee and any member of the compensation committee of any other company, nor has any such interlocking relationship existed in the past. No member or nominee of the Compensation Committee is an officer or an employee of the Company.

Audit Committee

The Audit Committee during Fiscal 2003 was comprised of Messrs. Stivers, Akos and Clendening. Mr. Stivers was the Chairman of the Committee and was also designated by the Company as the financial expert of the Committee. Each of the members of the Audit Committee met the independence and experience requirements of the applicable laws, regulations and stock market rules, including the Sarbanes-Oxley Act, regulations and rules promulgated by the Securities and Exchange Commission (SEC) and the American Stock Exchange. The Audit Committee adopted an Audit Committee Charter during fiscal 2001. The Board recently adopted an amended Audit Committee Charter, a copy of which is included in this proxy statement as Appendix A. The Audit Committee's functions are to review with management and the Company's independent auditors, the scope of the annual audit and quarterly statements, significant financial reporting issues and judgments made in connection with the preparation of the Company's financial statements; to review major changes to the Company's auditing and accounting principles and practices suggested by the independent auditors; to monitor the independent auditor's relationship with the Company; to advise and assist the Board of Directors in evaluating the independent auditor's examination; to supervise the Company's financial and accounting organization and financial reporting, and, to nominate, for approval of the Board of Directors, a firm of certified public accountants whose duty it is to audit the financial records of the Company for the fiscal year for which it is appointed. In addition, the Audit Committee has the responsibility to review and consider fee arrangements with, and fees charged by, the Company's independent auditors. The Audit Committee met four times in Fiscal 2003 with the Company's auditors, including to discuss the audit of the Company's year end financial statements for 2003. It is intended that if elected as a director, Clarke H. Bailey will serve as a member of the audit committee and will be designated as the financial expert of the committee in 2004. Mr. Bailey meets all of the requisites to qualify as such financial expert.

Audit Committee Report

The Audit Committee has:

- (a) Reviewed and discussed the Company's unaudited financial statements for the first three quarters of Fiscal 2003 and the Company's audited financial statements for the year ended December 31, 2003 with the management of the Company and the Company's independent auditors.

- (c) Received the written disclosures and the letter from the Company's independent auditors required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), as the same was in effect on the date of the Company's financial statements.

Dr. Richard T. Williams is 53 years old, and has been involved in geologic studies in the Appalachian Overthrust region for more than 25 years. He received a B.S.degree in Mathematics and Physics from Eastern Kentucky University in 1973. He earned his M.S. (1976) and Ph.D. (1979) degrees in Geophysics from Virginia Polytechnic Institute in 1979 for work done in Antarctica. He was a member of the Geology faculty at West

Virginia University from 1979 through 1982, where he worked on gas production from Devonian shales for the US Department of Energy. He was a member of the Geology faculty at the University of South Carolina from 1983 through 1986, and has been a member of the Earth and Planetary Science faculty at The University of Tennessee since 1987. In the central and southern Appalachian region he has used reflection seismology, gravity and magnetic methods to produce images of subsurface geologic structures from Ohio and Pennsylvania to Alabama and Georgia. He is registered as a Professional Geologist in Tennessee. He was elected to the Board of Directors of the Company in June 2002, and was elected Chief Executive Officer of the Company in February 2003.

Section 16(a) Beneficial Ownership Reporting Compliance

In fiscal 2003, Peter E. Salas, a director of the Company, failed to timely file one Form 4 Report involving one transaction. Charles M. Stivers, a director of the Company, and Robert M. Carter, President of the Company's wholly owned subsidiary, Tengasco Pipeline Corporation, each filed a Form 5 Report which indicated they each failed to file one Form 4 Report for fiscal 2003 involving six transactions and one transaction, respectively.

During 2003, Malcolm E. Ratliff, the Company's former Chief Executive Officer and Chairman, owned more than 10% of the Company's outstanding stock. During 2003, it is believed that Mr. Ratliff entered into transactions with respect to the acquisition and/or disposition of the Company's stock that he owned or controlled directly or indirectly. However, the Company is not aware of the exact nature of these transactions since Mr. Ratliff, to the Company's knowledge, neither filed any reports on Form 4 or Form 5 disclosing these transactions, nor communicated the nature or extent of such transactions to the Company. Thus, the Company is not able to specify the number of Forms 4 and 5 that Mr. Ratliff failed to file, timely or otherwise, or the number of transactions not reported.

Family and Other Relationships

There are no family relationships between any of the present directors or executive officers of the Company except that director-nominee Carlos P. Salas is the second cousin of Peter E. Salas, a director of the Company who is running for re-election. Mr. Carlos P. Salas is also one of seven members of Dolphin Advisors, LLC which serves as the managing general partner of Dolphin Direct Equity Partners, L.P., a private company investment fund that is not a shareholder of the Company. The majority owner of Dolphin Advisors, LLC is Dolphin Management, Inc, the sole shareholder of which is Peter E. Salas. Dolphin Management, Inc. is also the managing partner of Dolphin Offshore Partners, L.P. which directly owns 16,244,452 shares of the Company's common stock.

Peter E. Salas is the controlling person of Dolphin Offshore Partners, L.P. Although Carols P. Salas has no direct or indirect ownership interest in Dolphin Offshore Partners, L.P., he nonetheless may be deemed an affiliate of Dolphin Offshore Partners, L.P. and Peter E.Salas.

There is no family or other relationship between director-nominee Clarke H. Bailey and Jeffrey R. Bailey, the President and a director of the Company who is not running for re-election. Mr. Clarke H. Bailey owns an approximately 1.5% investment interest in Dolphin Offshore Partners, L.P. and in Dolphin Direct Equity Partners, L.P. Management believes that Mr. Bailey is not an affiliate of either of these entities as a result of his minor investment in those companies.

Involvement in Certain Legal Proceedings

- (2) Was convicted in a criminal proceeding or named the subject of a pending criminal proceeding (excluding traffic violations and other minor offenses);
- (3) Was the subject of any order, judgment or decree, not subsequently reversed, suspended or vacated, of any court of competent jurisdiction, permanently or temporarily enjoining him or her from or otherwise limiting his or her involvement in any type of business, commodities, securities or banking activities;
- (4) Was found by a court of competent jurisdiction in a civil action or by the SEC or the Commodity Futures Trading Commission (CFTC) to have violated any federal or state securities law or Federal commodities law, and the judgment in such civil action or finding by the SEC or CFTC has not been subsequently reversed, suspended, or vacated.

The Company's Board of Directors has adopted a Code of Ethics that applies to the Company's Chief Executive Officer, financial officers and executive officers, including its President and Chief Financial Officer. A copy of this Code of Ethics can be found at the Company's internet website at www.Tengasco.com. The Company intends to disclose any amendments to its Code of Ethics, and any waiver from a provision of the Code of Ethics granted to the Company's Chief Executive Officer, President, Chief Financial Officer, or persons performing similar functions, on the Company's Internet website within five business days following such amendment or waiver.

None of the Company's other executive officers in Fiscal 2003 earned compensation in excess of \$100,000 per annum for services rendered to the Company in any capacity.

The Company adopted an employee health insurance plan in August 2001. The Company does not presently have a pension or similar plan for its directors, executive officers or employees. In April 2004, the Company obtained directors and officers liability insurance to fund the Company's indemnity obligations to persons serving as directors and officers.

Repricing Of Options In Fiscal 2003

The Company did not adjust or amend the exercise price of any options previously granted to any of its Directors or Executive Officers during Fiscal 2003.

¹⁸ Unexercised options are in-the-money if the fair market value of the underlying securities exceeds the exercise price of the option. The fair market value of the common stock was \$0.75 per share on December 31, 2003, as reported by The American Stock Exchange. The exercise price of the unexercised option granted to Richard T. Williams, the Chief Executive Officer of the Company, in 2003 was \$0.50. Prior to his becoming Chief Executive Officer of the Company, Dr. Williams on August 5, 2002 was granted an option to purchase 13,125 shares of the Company's common stock at a price of \$2.69 per shares. That option expires on August 4, 2005. Since the exercise price of shares underlying that option had a negative value as of December 31, 2003 they are not included in this chart.

¹⁹ Value realized in dollars is based upon the difference between the fair market value of the underlying securities on the date of exercise, and the exercise price of the option. On June 18, 2003, Dr. Williams exercised his option to the extent of purchasing 10,000 shares of the Company's common stock at \$0.50 per share. The closing price of the Company's common stock on June 18, 2003 as reported on the American Stock Exchange was \$1.20 per share.

Compensation of Directors

The Board of Directors has resolved to compensate members of the Board of Directors for attendance at meetings at the rate of \$250 per day, together with direct out-of-pocket expenses incurred in attendance at the meetings, including travel. The Directors, however, have waived such fees due to them as of this date for prior meetings.

Members of the Board of Directors may also be requested to perform consulting or other professional services for the Company from time to time. The Board of Directors has reserved to itself the right to review all directors' claims for compensation on an ad hoc basis.

Directors who are on the Company's Audit, Compensation and Stock Option Committees (as will be the members of the Nominating Committee to be formed in 2004) are independent and therefore, do not receive any consulting, advisory or compensatory fees from the Company. However, such Board members may receive fees from the Company for their services on those committees. The Company intends to implement a plan for the payment of those committee members for their services on an annual basis.

Employment Contracts

The Company has entered into an employment contract with its Chief Executive Officer, Richard T. Williams, for a period of two years through December 31, 2004 at an annual salary of \$80,000. There are presently no other employment contracts relating to any member of management. However, depending upon the Company's operations and requirements, the Company may offer long term contracts to directors, executive officers or key employees in the future.

CERTAIN TRANSACTIONS

Transactions with Management and Others

Except as set forth hereafter, there have been no material transactions, series of similar transactions or currently proposed transactions during 2003, to which the Company or any of its subsidiaries was or is to be a party, in which the amount involved exceeds \$60,000 and in which any director or executive officer or any security holder who is known to the Company to own of record or beneficially more than 5% of the Company's common stock, or any member of the immediate family of any of the foregoing persons, had a material interest.

The Company's Board of Directors has not adopted any general policy with respect to these transactions, many of which were effected on behalf of the Company by senior management prior to consideration of the transaction by the Board of Directors in light of senior management's perceived urgency of the funding requirements, the availability of alternative sources and the terms of such transactions, which senior management viewed as at least as favorable to the Company as could have been obtained through arms-length negotiations with unaffiliated third parties. In each of the loans to the Company by Dolphin Offshore Partners, L.P. (Dolphin), which owns more than ten percent of the Company's outstanding common stock and whose controlling person, Peter E. Salas, is a director of the Company and up for re-election, Mr. Salas negotiated on behalf of Dolphin with senior management of the Company as to the terms thereof and did not participate in any Board action with respect thereto.

On January 8, 2003, Bill L. Harbert, who at the time owned more than ten percent of the Company's outstanding common stock and was a director of the Company and is now up for re-election, purchased 227,275 shares of the Company's common stock from the Company in a private placement at a price of \$1.10 per share. The proceeds from this sale were used by the Company to pay the principal and interest due to Bank One for January, 2003 and to provide working capital for the Company's operations. The market price of the Company's common stock as measured by the closing price on the American Stock Exchange on January 7, 2003, the date of the transaction, was \$1.20 per share. Management believes that this sale was made on terms at least as favorable to the Company as could have been obtained through arms-length negotiations with unaffiliated third parties.

On February 3, 2003 and February 28, 2003, Dolphin loaned the Company the sum of \$250,000 on each such date which the Company used to pay the principal and interest due to Bank One for February and March 2003 and for working capital. Each of these loans was evidenced by a separate promissory note each bearing interest at the rate of 12% per annum, with payments of interest only payable quarterly and the principal balance payable due on January 4, 2004. The obligations under these loans were secured by an undivided 10% interest in the Company's Tennessee and Kansas pipelines.

On May 20, 2003, Dolphin loaned the Company the sum of \$750,000 and Jeffrey R. Bailey, the President and a Director of the Company, loaned the Company \$84,000, which aggregate amount of \$834,000 was used to pay the principal and interest due to Bank One for June 2003 and for working capital. These loans were evidenced by separate promissory notes bearing interest at the rate of 12% per annum, with payments of interest only payable quarterly and the principal balance due on January 4, 2004. The obligations under the loans were secured by an undivided 30% and 3.36% interest, respectively, in the Company's Tennessee and Kansas pipelines.

On August 6, 2003, Dolphin loaned the Company the sum of \$150,000, which was

used for working capital. This loan was evidenced by a separate promissory note bearing interest at the rate of 12% per annum, with payments of interest only payable quarterly and the principal balance due on January 4, 2004. The obligations under the loan were secured by an undivided 6% interest in the Company's Tennessee and Kansas pipelines.

From December 2002 through December 9, 2003, Dolphin had acquired a total of an 85% undivided interest in the Company's Tennessee and Kansas pipelines as collateral for the series of seven loans it had made to the Company. In the first five of these transactions, Peter E. Salas, a Director and the controlling person of Dolphin, negotiated the terms of the loans directly with management, which terms were approved by management in view of the Company's immediate needs, financial condition and prospective alternatives and under circumstances in which Dolphin was not generally engaged in the business of lending money. These loans were made on terms that management believes were at least as favorable to the Company as it could have obtained through arms-length negotiations with unaffiliated third parties. The Company's Board approved the sixth and seventh loans on December 3 and 9, 2003, in the amounts of \$225,000 and \$250,000, respectively, with no participation by Mr. Salas in the meeting or the vote, which was unanimous by the seven other Directors present at the meeting. In addition, the Company had entered into a continuing security agreement, which was approved by the Board with no participation by Mr. Salas in the meeting or vote, which was unanimous by the seven other Directors present at the meeting, providing the terms of Dolphin's security interest collateralizing all of its loans.

On December 24, 2003, Dolphin loaned the Company the sum of \$1,000,000 which was used for working capital and to pay all interest and principal in full of the 1998 convertible loan to the Company referred to as the Lutheran note then being held by several persons. This loan is evidenced by a separate promissory note bearing interest at the rate of 12% per annum, with payments of interest only payable quarterly and the principal balance payable on April 4, 2004. The obligations under the loan are secured by an undivided interest in the Company's Tennessee and Kansas pipelines and the security agreement referred to above.

On February 2, 2004, Dolphin loaned the Company the sum of \$225,000 which was used for making payment of principal and interest to Bank One for February, 2004. This loan was evidenced by a separate promissory note bearing interest at the rate of 12% per annum, with payments of interest only payable quarterly and the principal balance payable on April 4, 2004. The obligations under the loan were secured by an undivided interest in the Company's Tennessee and Kansas pipelines and the security agreement referred to above.

All of the series of loans made by Dolphin to the Company were repaid by the Company from proceeds it received in March 2004 from the Rights Offering made by the Company. See, the discussion below of the Rights Offering.

From April 1 through June 30, 2003, the Company issued 10,363 shares of its common stock to holders of the Company's Series A 8% Cumulative Convertible Preferred Stock in lieu of cash quarterly interest payments due to those holders, with such shares valued at the market price thereof. Also during that period, certain members of the Company's Board of Directors exercised options granted to them pursuant to the Tengasco, Inc. Stock Incentive Plan and purchased the following number of shares of the Company's common stock at the exercise price of \$0.50 per share. Richard T. Williams 10,000 shares, Bill L. Harbert 24,000 shares and John A. Clendening 24,000 shares.

The Rights Offering

On October 17, 2003, the Company filed a Registration Statement on Form S-1 with the SEC for a rights offering of the Company's common stock (the Rights Offering). On December 29, 2003; February 11, 2004; and, February 13, 2004, the Company filed amendments to the Registration Statement. On February 13, 2004, the SEC deemed effective the Registration Statement on Form S-1 as amended.

The Rights Offering was a distribution to the holders of the Company's common stock outstanding at the record date, February 27, 2004, at no charge, of nontransferable subscription rights at the rate of one right to purchase three shares of the Company's common stock for each share of common stock owned at the subscription price of \$0.75 in the aggregate, or \$0.25 per each share purchased.

The record date for the Rights Offering was set as of February 27, 2004. The offering expired at 5:00 p.m., New York City time, on March 18, 2004.

Each subscription right in addition to the right to purchase three shares of common stock carried with it an over-subscription privilege. The over-subscription privilege provided stockholders that exercise all of their basic subscription privileges with the opportunity to purchase those shares that were not purchased by other stockholders through the exercise of their basic subscription privileges at the same subscription price per share. In no event could any subscriber purchase shares of the Company's common stock in the offering that, when aggregated with all of the shares of the Company's common stock otherwise owned by the subscriber and his, her or its affiliates, would immediately following the closing represent more than 50% of the Company's issued and outstanding shares.

The net proceeds of the Rights Offering were initially used to pay non-bank indebtedness in the aggregate amount of up to approximately \$6 million (including to satisfy all of the Company's outstanding loans to Dolphin in the principal amount of \$3,850,000 plus accrued interest) the balance of the net proceeds were used to repay bank indebtedness and for working capital purposes, including the drilling of additional wells.

At the time the Rights Offering closed on March 18, 2004 all 36.3 million shares offered had been subscribed for and, as a result the Company raised approximately \$9.1 million. The total number of shares subscribed for actually exceeded the 36.3 million shares available for issuance under the offering. Consequently, all shares subscribed for under the basic privilege were issued and the number of shares issued under the over- subscription privilege was proportionately reduced to equal the number of remaining shares. The allocation and issuance of the oversubscribed shares was made by Mellon Human Resources & Investor Solutions, the Company's subscription agent who also returned payments for those oversubscribed shares that were not available.

Pursuant to the Rights Offering, 7,029,604 rights were exercised pursuant to the basic subscription privilege, resulting in the purchase of 21,088,812 shares at \$0.25 per share for gross proceeds to the Company of \$5,272,203. A total of 15,211,188 shares were purchased pursuant to the oversubscription privilege, resulting in additional gross proceeds to the Company of \$3,802,797.

The following table sets forth the number of shares of common stock purchased in connection with the Rights Offering by the Company's directors, officers and owners of more than ten percent of the Company's outstanding common stock.

BOARD RECOMMENDATION AND VOTE REQUIRED

For Proposal No. 1 regarding the election of directors, votes may be cast in favor of all nominees, may be withheld with regard to all nominees or may be withheld only with regard to nominees specified by the stockholder. Directors will be elected by a plurality of the votes of the shares of the Company's common stock present in person or represented by proxy, and entitled to vote on the election of directors at a meeting at which a quorum is present. Abstentions are tabulated in determining the votes present at a meeting. Consequently, an abstention has the same effect as a vote against a director-nominee, as each abstention would be one less vote in favor of a director nominee. The Board of Directors recommends that stockholders vote **FOR** the nominees set forth above. Unless marked to the contrary, proxies received will be voted **FOR** the nominees set forth above.

PROPOSAL NO. 2

**APPROVAL OF AMENDMENT TO COMPANY S CHARTER
TO INCREASE THE NUMBER OF SHARES
OF AUTHORIZED COMMON STOCK**

GENERAL

The Company s Charter presently authorizes the issuance of 50,000,000 shares of common stock. As of June 28, 2004, the Company had 48,677,828 shares of common stock outstanding. On that date, there were also 342,028 shares of common stock subject to outstanding options and warrants and 1,134,629 shares subject to conversion of outstanding preferred stock. As a result, the aggregate number of shares issued and reserved for future issuance currently approaches, and may exceed, the maximum number of shares the Company is authorized to issue under its Charter.

The Board of Directors has adopted a resolution unanimously approving and recommending to the Company s stockholders for their approval an amendment to the Company s Charter to provide for an increase of the number of shares of common stock that the Company is authorized to issue from 50,000,000 to 100,000,000. The text of the proposed amendment to the Company s Charter is attached as Appendix B to this proxy statement.

If the proposal to amend the Charter is approved by the stockholders of the Company, the additional shares of common stock authorized would be part of the existing class of common stock and, if and when issued, would have the same rights and privileges as the shares of common stock currently issued and outstanding.

DESCRIPTION OF COMMON STOCK

The Company s common stock is a typical and customary form of common stock and is publicly traded on the American Stock Exchange under the symbol TGC. The holders of common stock are entitled to one vote per share on all matters to be voted upon by stockholders. The holders of common stock are not entitled to cumulate their votes in the election of directors. All shares of common stock rank equally as to voting and all other matters. Stockholders of the Company have no pre-emptive right to acquire additional shares of common stock which means that current stockholders do not have a right to purchase any new issue of shares of common stock in order to maintain their proportionate ownership interests in the Company. The common stock is not subject to redemption and carries no subscription or conversion rights. Subject to the prior rights of

holders of preferred stock, if any, the holders of the Company's common stock are entitled to receive such dividends as the Board of Directors may from time to time declare out of legally available funds for the payment of dividends and, in the event of liquidation, to share equally in corporate assets after the satisfaction of all liabilities.

PURPOSE OF THE AMENDMENT

The proposed increase in the Company's authorized common stock has been recommended by the Board of Directors to assure that an adequate supply of authorized, unissued shares is available for general corporate needs and to provide the Board of Directors with the necessary flexibility to issue shares of common stock for proper corporate purposes and to respond quickly to business opportunities requiring the issuance of shares which may be identified in the future without the expense and delay incident to obtaining stockholder approval of an amendment to the Company's Charter at the time of such action. The additional authorized shares of common stock may be used for such purposes as raising equity capital, financing of an acquisition or business combination, declaring stock splits or dividends, reserving additional shares for issuance under employee, executive and director benefit plans, paying indebtedness and satisfying outstanding convertible securities, such as preferred stock, by issuing such shares in exchange for such securities. The Company has no current plans, arrangements or understandings regarding the issuance of any of the additional shares of common stock for which authorization is sought and there are no negotiations pending with respect to the issuance of such shares for any purpose.

EFFECT OF THE AMENDMENT

If the proposal to increase the authorized number of shares of common stock is approved by the stockholders, some or all of the additional authorized shares may be issued at such time and on such terms and conditions as the Board of Directors may determine without further approval by the stockholders, except in situations where stockholder approval is required under provisions of state law or the rules of any securities exchange on which the Company's shares of common stock are then listed for trading.

The issuance of some or all of the additional authorized common stock would, among other things, have a dilutive effect on the earnings per share and on the equity and voting power of existing holders of the Company's common stock and may adversely affect the market price of the Company's common stock.

The authorized but unissued shares of common stock could be used by the Board of Directors to discourage, delay or make more difficult a change in the control of the
