agreement calls for Miles Investment Group, LLC to purchase 69,000,000 restricted common shares for \$6,900,000 on an installment basis over a 28 month period with the terms being \$100,000 as a down payment and \$250,000 per month beginning on September 1, 2005 and the first each month thereafter until the total of \$6,800,000 has been paid in full. The Company has deferred payments on the stock subscription agreement until January 31, 2006, in consideration for Miles Investment Group LLC bringing the coal reserves deal to the Company. All the shares are pledged as collateral for the promissory note and will be physically held by the Company. Additionally, Miles Investment Group, LLC will be issued warrants for 30,000,000 shares of restricted common stock that can be exercised for \$.01 per share on the following basis: (1) three million shares at any time after the Company's stock bid price on the OTCBB exchange has maintained a \$1.50 price for 10 consecutive trading days, (2) seven million shares at any time after the Company's stock bid price on the OTCBB exchange has maintained a \$3.00 price for 10 consecutive trading days, (3) ten million shares at any time after the Company's stock bid price on the OTCBB exchange has maintained a \$5.00 price for 10 consecutive trading days and (4) ten million shares at any time after the Company's stock bid price on the OTCBB exchange has maintained a \$6.00 price for 10 consecutive trading days.

On June 15, 2006, the board of directors voted to accept Miles Investment Group, LLC offer to convert the current balance beneficially owned restricted common stock shares of 67,000,000 to 100,000 shares of Preferred Stock, \$1 par value, which may continue to vote on an "as converted" basis. The Preferred Stock is convertible into restricted common shares on the basis of 45 restricted common shares for each share of Preferred Stock, or 45,000,000 shares. The Board also voted to continue to defer payments on the stock subscription agreement until August 15, 2006 from June 30, 2006, in consideration of the continued development of the coal reserves deal.

The impact of the action is to remove 67,000,000 shares from the authorized and issued \$.0001 common stock, to reduce that number issued and outstanding from 144,577,277 shares to 77,577,277 shares.

Item 8.01 Other Events.

Liquidity and Capital Resources --Urban Television Network Corporation (the "Company") is experiencing liquidity needs resulting from an inability to complete a structured financing with existing shareholders or new investors or a strategic investment on acceptable terms to the company.

Due to the lack of necessary capital resources, the Company is not able to pay for its satellite space and uplinking services which in turn results in the Company's affiliates not being able to air UATV programming. The Company has laid-off its master control employees while it seek financing.

The Company has made several concerted efforts to enlist support from its major shareholder groups. However, notwithstanding significant commitment, these efforts have been successful only in raising modest amounts to maintain marginal operations. The Company is continuing to work with certain investors to help meet immediate short-term liquidity needs estimated to be approximately \$500 thousand and the funds to execute on its plan of developing an affiliate base of predominately full power stations with associated Nielsen ratings which would lead to advertising revenue from major corporations. As of June 5, 2006, the Company had cash on hand of approximately \$9,000 and as of March 31, 2006, a net working capital deficit of \$2,359,873. The Company has loan Agreements with "certain lenders" totaling approximately \$500,000 secured by blanket liens upon the Company's assets that matured in April 2006, which are now callable at anytime and entitled the lenders upon default to foreclose on the Company's assets. The total outstanding indebtedness as of June 5, 2006 is approximately \$2,500,000 million. The Company's ability to continue its operations and execute on its business plan requires additional funds from various sources. If adequate funds are not available on acceptable terms our business future as a viable entity is in severe jeopardy.
