MAGELLAN GOLD CORPORATION

(An Exploration Stage Company)

NOTES TO CONDENSED FINANCIAL STATEMENTS

NINE MONTHS ENDED SEPTEMBER 30, 2011

(UNAUDITED)

We use the terms Magellan, we, our, and us to refer to Magellan Gold Corporation.

Note 1 Nature and Continuance of Operations:

We were incorporated on September 28, 2010, in Nevada. We are an exploration stage company and our principal business is the acquisition and exploration of mineral resources. We have not presently determined whether the properties to which we have mining rights contain mineral reserves that are economically recoverable.

We have only recently begun operations and we rely upon the sale of our securities and borrowings from significant shareholders to fund our operations as we have not generated any revenue. We have a going concern uncertainty as of the date of our most recent financial statements.

Going Concern

Our financial statements have been prepared on a going concern basis which assumes that we will be able to meet our obligations and continue our operations during the next twelve months. Asset realization values may be significantly different from carrying values as shown on our financial statements and do not give effect to adjustments that would be necessary to the carrying values of assets and liabilities should we be unable to continue as a going concern. At September 30, 2011, we had not yet achieved profitable operations and we have accumulated losses of \$104,941 since our inception. We expect to incur further losses in the development of our business, all of which casts substantial doubt about our ability to continue as a going concern. Our ability to continue as a going concern depends on our ability to generate future profits and/or to obtain the necessary financing to meet our obligations arising from normal business operations when they come due. We anticipate that additional funding will be in the form of equity financing from the sale of our common stock and loans from officers, directors or significant shareholders. Currently, there are no arrangements in place for equity funding or loans.

Note 2 Summary of Significant Accounting Policies:

Interim Reporting

We prepare our financial statements in accordance with accounting principles generally accepted in the United States (GAAP). The accompanying unaudited interim condensed financial statements have been prepared in accordance with GAAP for interim financial information in accordance with Article 8 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In our opinion, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included.

Operating results for the three and nine month periods ended September 30, 2011, are not necessarily indicative of the results for the full year. While we believe that the disclosures presented herein are adequate and not misleading, these interim condensed financial statements should be read in conjunction with the audited financial statements and the footnotes thereto for the period ended December 31, 2010, contained in our Form S-1, as amended, filed on July 25, 2011.

Reclassifications

We reclassified cash flows applicable to advances to / from related parties from investing activities and financing activities to operating activities in our condensed statements of cash flows to more properly reflect the day-to-day nature of these transactions. There was no impact to our net loss or financial position as a result of these reclassifications.

Recently Adopted Accounting Standards

We do not expect the adoption of recently issued accounting pronouncements to have a significant impact on our results of operations, financial position or cash flows.

Note 3 Mineral Rights:

As of September 30, 2011 and December 31, 2010, our mineral rights consist of the following:

	September 3	September 30, 2011		December 31, 2010	
Secret Canyon Claims	\$	69,729	\$	33,722	
Randall Claims		8,307		1,798	
Pony Express Claims		4,471		3,701	
Total Mining Rights	\$	82,507	\$	39,221	
Secret Canyon Claims					

On March 15, 2011, we purchased a six month Option to explore a group of nine patented claims in Washoe County, Nevada, included as part of our Secret Canyon Claims, along with the right to renew the Option for an additional six months. The Option also granted us the right to enter into a Mining Lease during the Option period.

The following is a summary of the material provisions of the Option:

The Option commenced March 15, 2011, and had an initial term of six months for a payment of \$5,000 and a work commitment of \$25,000.

The Option could be extended for an additional six months for a payment of \$10,000 and an additional work commitment of \$25,000.

During the Option term we have the right to enter into a 10 year Mining Lease.

_

13

•

Lease payments are due in advance on the date the Option to Lease is exercised and on the second anniversary of the

.

We are responsible for any reclamation costs applicable to areas disturbed during our exploration, development and mining activities.

.

We have the right to terminate the Lease at any time.

•

We have the right to extend the Lease term for an additional 10 years.

On September 15, 2011, we extended the Option until March 15, 2012, by paying the lessor \$10,000. This payment was capitalized as an increase to mineral rights in our condensed balance sheets. The lessor also agreed to waive the \$25,000 work commitment during the first six months of the Option term and agreed to modify the work commitment from \$25,000 to \$50,000 during the second six months of the Option term.

On September 28, 2010, we entered into a mining lease (the Secret Canyon Claims Lease) which granted us a 10 year lease giving us the right to explore, develop and conduct mining operations on a group of unpatented lode mining claims, included as part of our Secret Canyon Claims, situated in Washoe County, Nevada. Under the terms of the lease, the lessor will receive a production royalty of up to three percent of net smelter returns. The lease requires us to make annual advance minimum royalty payments to the lessor ranging from \$20,000 to \$50,000 per year over the life of the lease. We have the right to extend the lease term for an additional 10 years.

On September 30, 2011, we entered into the First Amendment to the Secret Canyon Claims Lease which allows us to pay our 2011 advance minimum royalty payment in two installments of \$10,000 each on September 30, 2011, and December 31, 2011. The first installment of \$10,000 was capitalized as an increase to mineral rights in our condensed balance sheets.

Randall Claims

On October 2, 2010, we were assigned a mining lease from John C. Power our President and director, which granted us the remaining term of a 10 year lease executed on August 18, 2010, giving us the right to explore, develop and conduct mining operations on a group of unpatented lode mining claims (the Randall Claims) situated in Churchill County, Nevada. Under the terms of the lease, the lessor will receive a production royalty of up to three percent of net smelter returns. The lease requires us to make annual advance minimum royalty payments to the lessor ranging from \$10,000 to \$50,000 per year over the life of the lease. We have the right to extend the lease term for an additional 10 years.

On September 30, 2011, we entered into the Second Amendment to the Randall Claims Lease which allows us to pay our 2011 advance minimum royalty payment in two installments of \$5,000 each on September 30, 2011, and December 31, 2011. The first installment of \$5,000 was capitalized as an increase to mineral rights in our condensed balance sheets.

Pony Express Claims

On November 18, 2010, we filed two unpatented lode mining claims (the	Pony Express Claims) giving us the right to
explore, develop and conduct mining operations on these claims located in	n Churchill County, Nevada.

Note 4 Notes Payable Related Parties:

Effective August 23, 2011, we entered into an unsecured loan from Mr. Power, evidenced by a \$20,000 promissory note. The promissory note bears interest at 6% per annum and the principal plus all accrued interest are due on January 1, 2013.

Effective August 23, 2011, we entered into an unsecured loan from John D. Gibbs, a significant investor, evidenced by a \$40,000 promissory note. The promissory note bears interest at 6% per annum and the principal plus all accrued interest are due on January 1, 2013.

Note 5 Related Party Transactions:

Conflicts of Interests

Athena Silver Corporation is a company under common control. Mr. Power is also a director and CEO of Athena. Mr. Gibbs is a significant investor in both Magellan and Athena. Magellan and Athena are both exploration stage companies involved in the business of acquisition and exploration of mineral resources.

Silver Saddle Resources, LLC is also a company under common control. Mr. Power and Mr. Gibbs are significant investors and managing members of Silver Saddle. Magellan and Silver Saddle are both exploration stage companies involved in the business of acquisition and exploration of mineral resources.

The existence of common ownership and common management could result in significantly different operating results or financial position from those that could have resulted had Magellan, Athena and Silver Saddle been autonomous. . In addition, the common ownership could result in significant conflicts of interest both in terms of the allocation of working capital as well as under the doctrine of corporate opportunity, inasmuch as all three entities are engaged in mineral exploration in the United States. To address the potential of these conflicts of interest, Messrs. Power and Gibbs have adopted the following policies: opportunities to acquire potential resource will first be analyzed by Silver Saddle which may undertake claim acquisition and/or staking and grass roots evaluation. If a property is deemed viable, it will be offered to Magellan if its primary resource is gold, and will be offered to Athena if its primary resource is silver. In each instance, a determination will be made if Magellan or Athena, as the case may be, has or can reasonably expect to acquire sufficient capital to undertake the exploration and development of the property. If an opportunity is assigned to Magellan or Athena, the terms of assignment will be (i) the amount expended by Silver Saddle on the property, including all acquisition and exploration costs, plus (ii) a 2% net smelter return royalty on all future production. If it is determined that neither Athena nor Magellan has the capital to undertake a new acquisition, Silver Saddle will either abandon the claims or undertake further exploration itself or it will attempt to identify another buyer.

While the foregoing will mitigate the conflicts of interest inherent in the interlocking interests, it will not eliminate all potential future conflicts. Investors in Magellan should be cognizant that the interests of Magellan may, in the future, be in conflict with the other activities of Magellan s control persons.

Management Fees

On January 1, 2011, we entered into a month-to-month management agreement with Mr. Power requiring a monthly payment, in advance, of \$2,500 as consideration for the day-to-day management of Magellan. During the three and nine months ended September 30, 2011, we incurred \$7,500 and \$22,500,

respectively, of management fees to Mr. Power and these costs are included in general and administrative expenses in our condensed statement of operations.

Due to Related Parties

Accounts payable, accrued interest payable and unsecured, non-interest bearing advances from related parties are included in due to related parties in our condensed balance sheets as follows:

	September 30	December 31, 2010		
Accounts payable Mr. Power	\$	2,237	\$	
Accrued interest payable related parties		385		
Advances payable Mr. Power		500		
Due to related parties - total	\$	3,122	\$	

Due from Related Parties

During February and March 2011 we made non-interest bearing advances to related parties and received repayments during the same period as follows:

	Advan	ices	Repayments	
Athena Silver Corporation Mr. Power	\$	10,000 6,000	\$	10,000 6,000
	\$	16,000	\$	16,000

MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

We use the terms Magellan, we, our, and us to refer to Magellan Gold Corporation.

The following discussion should be read in conjunction with our condensed financial statements, including the notes thereto, appearing elsewhere in this Quarterly Report on Form 10-Q. The discussion of results, causes and trends should not be construed to imply any conclusion that these results or trends will necessarily continue into the future.

Forward-Looking Statements

Some of the information presented in this Form 10-Q constitutes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements include, but are not limited to, statements that include terms such as may, will, intend, anticipate, estimate, expect, continue, like, as well as all statements that are not historical facts. Forward-looking statements are inherently subject to risks and uncertainties that could cause actual results to differ materially from current expectations. Although we believe our expectations are based on reasonable assumptions within the bounds of our knowledge of our business and operations, there can be no assurance that actual results will not differ materially from expectations.

All forward-looking statements speak only as of the date on which they are made. We undertake no obligation to update such statements to reflect events that occur or circumstances that exist after the date on which they are made.

Overview

We were incorporated on September 28, 2010, in Nevada. We are an exploration stage company and our principal business is the acquisition and exploration of mineral resources. We have not presently determined whether the properties to which we have mining rights contain mineral reserves that are economically recoverable.

We have only recently begun operations and we rely upon the sale of our securities and borrowings from significant investors to fund our operations as we have not generated any revenue.

During 2011 we began pre-exploration work on our Secret Canyon Claims including soil sampling and the development of an assay grid on our patented claims under the Option.

Our primary focus during the next twelve months will be to acquire, explore, and if warranted and feasible, permit and develop our mineral properties.

Results of Operations

The following discussion should be read in conjunction with our financial statements, including the notes thereto, appearing in Part I. Item 1 of this report.

believe

Results of Operations for the Three Months Ended September 30, 2011, and for the Period from our Inception, September 28, 2010, through September 30, 2010:

Operating expenses

During the three months ended September 30, 2011, our total operating expenses were \$38,165 as compared to \$1,623 during the period from our inception through September 30, 2010.

Operating expenses during the third quarter 2011 included \$1,300 of exploration costs and \$36,865 of general and administrative expenses. General and administrative expenses included professional fees, comprised of legal, accounting and audit fees, totaling \$15,586, management fees to John C. Power, our President and director, totaling \$7,500 and other general and administrative expenses of \$13,780.

Operating expenses during the period from our inception through September 30, 2010, were comprised of \$1,623 of legal fees and travel-related expenses during the period.

Net loss

Our net loss for the three months ended September 30, 2011, was \$38,550 as compared to a net loss of \$1,623 during the period from our inception through September 30, 2010.

Results of Operations for the Nine Months Ended September 30, 2011, and for the Period from our Inception, September 28, 2010, through September 30, 2010:

Operating expenses

During the nine months ended September 30, 2011, our total operating expenses were \$95,650 as compared to \$1,623 during the period from our inception through September 30, 2010.

Operating expenses during the nine months ended September 30, 2011, included \$8,379 of exploration costs and \$87,271 of general and administrative expenses. General and administrative expenses included professional fees, comprised of legal, accounting and audit fees, totaling \$50,263, management fees to Mr. Power totaling \$22,500 and other general and administrative expenses of \$14,508.

Operating expenses during the period from our inception through September 30, 2010, were comprised of \$1,623 of legal fees and travel-related expenses during.

Net loss

Our net loss for the nine months ended September 30, 2011 was \$90,035 as compared to a net loss of \$1,623 during the period from our inception through September 30, 2010.

Liquidity and Capital Resources:

We intend to meet our cash requirements for the next 12 months through a combination of debt and equity financing by way of private placements. We currently do not have any arrangements in place to complete private placement financings and there is no assurance that we will be successful in completing any such financings on terms that will be

acceptable to us.

Our primary priority is to retain our reporting status with the SEC which means that we will first ensure that we have sufficient capital to cover our legal and accounting expenses. Once these costs are accounted for, in accordance with how much financing we are able to secure, we will focus on exploration and development of our mineral properties. We will likely not expend funds on the remainder of our planned activities unless we have the required capital.

Cash Flows

A summary of our cash provided by and used in operating, investing and financing activities is as follows:

	Nine Months Ended September 30, 2011	Inception of l Stage (Septem through Septer	ber 28, 2010)
Net cash used in (provided by) operating activities Net cash used in investing activities Net cash provided by financing activities	\$ (72,749) (28,286) 60,000	\$	31,579 (31,579)
Net decrease in cash Cash and cash equivalents, beginning of period Cash and cash equivalents, end of period Nine months ended September 30, 2011	\$ (41,035) 41,814 779	\$	

As of September 30, 2011, we had \$779 in cash and \$44,948 negative working capital. During the nine months ended September 30, 2011, we experienced a \$41,035 net decrease in cash.

Net cash used in operating activities during the nine months ended September 30, 2011, was \$72,749 and was comprised of our \$96,035 net loss during the period offset by a \$20,164 increase in accounts payable applicable to operating activities and a \$3,122 increase in amounts due to related parties.

We used \$28,286 of cash in investing activities during the period comprised of: \$5,000 to acquire an option to explore and lease claims in Washoe County, Nevada; \$10,000 to renew this option for an additional six months; \$12,818 for state and county filing and recording fees; and \$468 in legal fees.

Borrowings from Mr. Power and Mr. Gibbs in August 2011 provided \$60,000 of cash from financing activities during the nine months ended September 30, 2011.

Period from inception (September 28, 2010) to September 30, 2010

We did not have any cash flows during the three-day period from our inception on September 28, 2010 to September 30, 2010.

Off Balance Sheet Arr	angements
-----------------------	-----------

We do not have and have never had any off-balance sheet arrangements.

Recent Accounting Pronouncements:

Recently issued Financial Accounting Standards Board Accounting Standards Codification guidance has either been implemented or is not significant to us.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable.

ITEM 4. CONTROLS AND PROCEDURES

Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures:

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission s (SEC) rules and forms, and that such information is accumulated and communicated to management, including John C. Power, our Chief Executive Officer who is also our Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. Management necessarily applied its judgment in assessing the costs and benefits of such controls and procedures, which, by their nature, can provide only reasonable assurance regarding management s control objectives.

Our management, including Mr. Power, evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this report. Based on this evaluation, Mr. Power concluded that the design and operation of our disclosure controls and procedures were effective as of such date to provide assurance that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission, and that such information is accumulated and communicated to management as appropriate, to allow

timely decisions regarding disclosures.

The SEC, as required by Section 404 of the Sarbanes-Oxley Act, adopted rules requiring every company that files reports with the SEC to include a management report on the effectiveness of disclosure controls and procedures in its periodic reports and an annual assessment of the effectiveness of its internal control over financial reporting in its annual report. Neither this report or our first Annual Report on Form 10-K for the fiscal year ending December 31, 2011, will include a report of management's assessment regarding internal control over financial reporting due to a transition period established by SEC rules applicable to new public companies. Management will be required to provide an assessment of the effectiveness of our internal control over financial reporting as of December 31, 2012, in our Annual Report on Form 10-K for the year ended December 31, 2012.

PART II. OTHER INFORMATION
ITEM 1. LEGAL PROCEEDINGS
None.
ITEM 1A. RISK FACTORS
There have been no material changes from the risk factors disclosed in our Prospectus filed on Form S-1, as amended, on July 25, 2011, except as follows:
Our principal shareholders and control persons are also principal shareholders and control persons of Athena and Silver Saddle, which could result in conflicts with the interests of minority stockholders.
Messrs. Gibbs and Power are control persons and principal shareholders of Magellan, Athena and Silver Saddle. Magellan, Athena and Silver Saddle are engaged in mineral exploration activities, although in different geographical regions. While the geographical focus of the two companies is different, numerous conflicts could arise in the future. For example, Messrs. Gibbs and Power have provided the majority of working capital for all three companies to date,

Our principal executive officer, Mr. Power, intends to devote only a limited amount of his time and attention to the business of the Company.

and in the likely event that these companies require additional capital in the future, their resources may be inadequate to finance the activities of all. In addition, if new prospects become available, a conflict may exist with respect to which company to offer those opportunities. While Messrs. Gibbs and Power have developed a conflict of interest policy to mitigate the potential adverse effects of these conflicts, these conflicts represent a significant risk to the shareholders of the Company. Conflicts for access to limited resources and opportunities cannot be eliminated

completely, and investors should be aware of their potential.

Mr. Power is the President and CEO of both Magellan and Athena. He anticipates that he will only devote approximately 25% of his time and attention to the business of the Company. This limited focus could result in significant delays in the Company s exploration activities and ability to generate revenues and profits, if any, in the future.
ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS
None.
ITEM 3. DEFAULTS UPON SENIOR SECURITIES
None.
ITEM 4. REMOVED AND RESERVED
ITEM 5. OTHER INFORMATION
None.
