EXPLANATORY NOTE

This report combines the quarterly reports on Form 10-Q for the period ended March 31, 2014 of Kilroy Realty Corporation and Kilroy Realty, L.P. Unless stated otherwise or the context otherwise requires, references to “Kilroy Realty Corporation” or the “Company,” “we,” “our,” and “us” mean Kilroy Realty Corporation, a Maryland corporation, and its controlled and consolidated subsidiaries, and references to “Kilroy Realty, L.P.” or the “Operating Partnership” mean Kilroy Realty, L.P., a Delaware limited partnership, and its controlled and consolidated subsidiaries.

The Company is a real estate investment trust, or REIT, and the general partner of the Operating Partnership. As of March 31, 2014, the Company owned an approximate 97.9% common general partnership interest in the Operating Partnership. The remaining approximate 2.1% common limited partnership interests are owned by non-affiliated investors and certain directors and officers of the Company. As the sole general partner of the Operating Partnership, the Company exercises exclusive and complete discretion over the Operating Partnership’s day-to-day management and control and can cause it to enter into certain major transactions, including acquisitions, dispositions and refinancings and cause changes in its line of business, capital structure and distribution policies.

There are a few differences between the Company and the Operating Partnership that are reflected in the disclosures in this Form 10-Q. We believe it is important to understand the differences between the Company and the Operating Partnership in the context of how the Company and the Operating Partnership operate as an interrelated, consolidated company. The Company is a REIT, the only material asset of which is the partnership interests it holds in the Operating Partnership. As a result, the Company does not conduct business itself, other than acting as the sole general partner of the Operating Partnership, issuing equity from time to time and guaranteeing certain debt of the Operating Partnership. The Company itself is not directly obligated under any indebtedness, but guarantees some of the debt of the Operating Partnership. The Operating Partnership owns substantially all of the assets of the Company either directly or through its subsidiaries, conducts the operations of the Company’s business and is structured as a limited partnership with no publicly traded equity. Except for net proceeds from equity issuances by the Company, which the Company is required to contribute to the Operating Partnership in exchange for units of partnership interest, the Operating Partnership generates the capital required by the Company’s business through the Operating Partnership’s operations, by the Operating Partnership’s incurrence of indebtedness or through the issuance of units of partnership interest.

Noncontrolling interests and stockholders’ equity and partners’ capital are the main areas of difference between the consolidated financial statements of the Company and those of the Operating Partnership. The common limited partnership interests in the Operating Partnership are accounted for as partners’ capital in the Operating Partnership’s financial statements and, to the extent not held by the Company, as noncontrolling interests in the Company’s financial statements. The Operating Partnership’s financial statements reflect the noncontrolling interest in Kilroy Realty Finance Partnership, L.P., a Delaware limited partnership (the “Finance Partnership”). This noncontrolling interest represents the Company’s 1% indirect general partnership interest in the Finance Partnership, which is directly held by Kilroy Realty Finance, Inc., a wholly owned subsidiary of the Company. The differences between stockholders’ equity, partners’ capital and noncontrolling interests result from the differences in the equity issued by the Company and the Operating Partnership, and in the Operating Partnership’s noncontrolling interest in the Finance Partnership.

We believe combining the quarterly reports on Form 10-Q of the Company and the Operating Partnership into this single report results in the following benefits:

- Combined reports better reflect how management and the analyst community view the business as a single operating unit;
- Combined reports enhance investors’ understanding of the Company and the Operating Partnership by enabling them to view the business as a whole and in the same manner as management;
- Combined reports are more efficient for the Company and the Operating Partnership and result in savings in time, effort and expense; and
- Combined reports are more efficient for investors by reducing duplicative disclosure and providing a single document for their review.

To help investors understand the significant differences between the Company and the Operating Partnership, this report presents the following separate sections for each of the Company and the Operating Partnership:

- consolidated financial statements;

the following notes to the consolidated financial statements:

Note 5, Secured and Unsecured Debt of the Operating Partnership;

Note 6, Noncontrolling Interests on the Company's Consolidated Financial Statements;

i

Note 7, Stockholders' Equity of the Company;

Note 8, Partners' Capital of the Operating Partnership;

Note 14, Net Income (Loss) Available to Common Stockholders Per Share of the Company; and

Note 15, Net Income (Loss) Available to Common Unitholders Per Unit of the Operating Partnership;

•Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

—Liquidity and Capital Resources of the Company;" and

—Liquidity and Capital Resources of the Operating Partnership."

This report also includes separate sections under Part I, Item 4. Controls and Procedures and separate Exhibit 31 and Exhibit 32 certifications for each of the Company and the Operating Partnership to establish that the Chief Executive Officer and the Chief Financial Officer of each entity have made the requisite certifications and that the Company and Operating Partnership are compliant with Rule 13a-15 or Rule 15d-15 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and 18 U.S.C. §1350.

KILROY REALTY CORPORATION AND KILROY REALTY, L.P.
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 Three Months Ended March 31, 2014 and 2013
 (unaudited)

1. Organization and Basis of Presentation

Organization

Kilroy Realty Corporation (the “Company”) is a self-administered real estate investment trust (“REIT”) active in premier office submarkets along the West Coast. We own, develop, acquire and manage real estate assets, consisting primarily of Class A properties in the coastal regions of Los Angeles, Orange County, San Diego County, the San Francisco Bay Area and greater Seattle, which we believe have strategic advantages and strong barriers to entry. Class A real estate encompasses attractive and efficient buildings of high quality that are attractive to tenants, are well-designed and constructed with above-average material, workmanship and finishes and are well-maintained and managed. We qualify as a REIT under the Internal Revenue Code of 1986, as amended (the “Code”). The Company’s common stock is publicly traded on the New York Stock Exchange (“NYSE”) under the ticker symbol “KRC.”

We own our interests in all of our real estate assets through Kilroy Realty, L.P. (the “Operating Partnership”) and Kilroy Realty Finance Partnership, L.P. (the “Finance Partnership”). We conduct substantially all of our operations through the Operating Partnership. Unless stated otherwise or the context indicates otherwise, the terms “Kilroy Realty Corporation” or the “Company,” “we,” “our,” and “us” refer to Kilroy Realty Corporation and its consolidated subsidiaries and the term “Operating Partnership” refers to Kilroy Realty, L.P. and its consolidated subsidiaries. The descriptions of our business, employees, and properties apply to both the Company and the Operating Partnership.

Our stabilized portfolio of operating properties was comprised of the following office properties at March 31, 2014:

	Number of Buildings	Rentable Square Feet	Number of Tenants	Percentage Occupied	
Stabilized Office Properties	107	13,305,145	527	92.4	%

Our stabilized portfolio includes all of our properties with the exception of real estate assets held for sale, undeveloped land, development and redevelopment properties currently under construction or committed for construction, and “lease-up” properties. We define redevelopment properties as those properties for which we expect to spend significant development and construction costs on the existing or acquired buildings pursuant to a formal plan, the intended result of which is a higher economic return on the property. We define “lease-up” properties as properties we recently developed or redeveloped that have not yet reached 95% occupancy and are within one year following cessation of major construction activities. During the first quarter of 2014, we stabilized a redevelopment property in San Francisco, California. As a result, this property is included in our stabilized portfolio as of March 31, 2014.

As of March 31, 2014, the following properties were excluded from our stabilized portfolio:

	Number of Properties	Estimated Rentable Square Feet
Development properties under construction ⁽¹⁾	6	2,538,000

(1) Estimated rentable square feet upon completion.

As of March 31, 2014, all of our properties and development and redevelopment projects and all of our business was conducted in the state of California with the exception of thirteen office properties located in the state of Washington.

All of our properties and development and redevelopment projects are 100% owned, excluding a development project owned by Redwood City Partners, LLC, a consolidated subsidiary (see Note 6) and certain properties held in connection with potential like-kind exchanges pursuant to Section 1031 of the Code (“Section 1031 Exchanges”) to defer taxable gains on dispositions for federal and state income tax purposes that have been consolidated for financial reporting purposes.

KILROY REALTY CORPORATION AND KILROY REALTY, L.P.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

As of March 31, 2014, the Company owned a 97.9% common general partnership interest in the Operating Partnership. The remaining 2.1% common limited partnership interest in the Operating Partnership as of March 31, 2014 was owned by non-affiliated investors and certain of our executive officers and directors (see Note 6). Both the general and limited common partnership interests in the Operating Partnership are denominated in common units. The number of common units held by the Company is at all times equivalent to the number of outstanding shares of the Company's common stock, and the rights of all the common units to quarterly distributions and payments in liquidation mirror those of the Company's common stockholders. The common limited partners have certain redemption rights as provided in the Operating Partnership's Seventh Amended and Restated Agreement of Limited Partnership, as amended, the "Partnership Agreement") (see Note 6).

Kilroy Realty Finance, Inc., which is a wholly owned subsidiary of the Company, is the sole general partner of the Finance Partnership and owns a 1.0% common general partnership interest in the Finance Partnership. The Operating Partnership owns the remaining 99.0% common limited partnership interest. Kilroy Services, LLC ("KSLLC"), which is a wholly owned subsidiary of the Operating Partnership, is the entity through which we conduct substantially all of our development activities. With the exception of the Operating Partnership and Redwood City Partners, LLC, all of our subsidiaries are wholly owned.

Basis of Presentation

The consolidated financial statements of the Company include the consolidated financial position and results of operations of the Company, the Operating Partnership, the Finance Partnership, KSLLC, Redwood City Partners, LLC and all of our wholly owned and controlled subsidiaries. The consolidated financial statements of the Operating Partnership include the consolidated financial position and results of operations of the Operating Partnership, the Finance Partnership, KSLLC, Redwood City Partners, LLC and all wholly-owned and controlled subsidiaries of the Operating Partnership. All intercompany balances and transactions have been eliminated in the consolidated financial statements.

The accompanying interim financial statements have been prepared by management in accordance with accounting principles generally accepted in the United States of America ("GAAP") and in conjunction with the rules and regulations of the Securities and Exchange Commission ("SEC"). Certain information and footnote disclosures required for annual financial statements have been condensed or excluded pursuant to SEC rules and regulations. Accordingly, the interim financial statements do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, the accompanying interim financial statements reflect all adjustments of a normal and recurring nature that are considered necessary for a fair presentation of the results for the interim periods presented. However, the results of operations for the interim periods are not necessarily indicative of the results that may be expected for the year ending December 31, 2014. The interim financial statements for the Company and the Operating Partnership should be read in conjunction with the audited consolidated financial statements and notes thereto included in our annual report on Form 10-K for the year ended December 31, 2013.

Certain amounts in the consolidated statements of operations for prior periods have been reclassified to reflect the activity of discontinued operations.

Variable Interest Entities

At March 31, 2014, the consolidated financial statements of the Company and the Operating Partnership included one variable interest entity ("VIE"), Redwood City Partners, LLC, in which we were deemed to be the primary beneficiary.

This VIE was established in the second quarter of 2013 in connection with an undeveloped land acquisition. The impact of consolidating the VIE increased the Company's total assets, liabilities and noncontrolling interests by approximately \$61.6 million (of which \$60.6 million related to real estate held for investment on our consolidated balance sheet), approximately \$6.8 million and approximately \$4.9 million, respectively, as of March 31, 2014. As of December 31, 2013, the consolidated financial statements of the Company and the Operating Partnership included four VIEs, in which we were deemed to be the primary beneficiary. One of the VIEs was Redwood City Partners, LLC and the remaining three VIEs were established during the third and fourth quarter of 2013 to facilitate a potential Section 1031 Exchange. During the three months ended March 31, 2014, the Section 1031 Exchanges were successfully completed and the three VIEs were terminated. As a result, \$32.2 million of our restricted cash balance at December 31, 2013, which related to prior period disposition proceeds that were set aside to facilitate the Section 1031 Exchanges, was released from escrow. The impact of consolidating the VIEs increased the Company's total assets, liabilities and noncontrolling interests by approximately \$251.8 million (of which \$234.5 million related to real estate held for investment on our consolidated balance sheet), approximately \$12.1 million and approximately \$4.9 million, respectively, as of December 31, 2013.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Recent Accounting Pronouncements

On April 10, 2014, the Financial Accounting Standards Board issued final guidance to change the criteria for reporting discontinued operations while enhancing disclosures in this area (Accounting Standards Update (“ASU”) No. 2014-08). Under the new guidance, only disposals representing a strategic shift, such as a major line of business, a major geographical area or a major equity investment, should be presented as discontinued operations. The guidance will be applied prospectively to new disposals and new classifications of disposal groups as held for sale after the effective date. The guidance is effective for annual financial statements with fiscal years beginning on or after December 15, 2014 with early adoption permitted for disposals or classifications as held for sale which have not been reported in financial statements previously issued or available for issuance. The Company will adopt the guidance effective January 1, 2015 and the guidance is not anticipated to have a material impact on our consolidated financial statements and notes to our consolidated financial statements.

On March 13, 2014, the Emerging Issues Task Force (the “Task Force”) reached a final consensus to amend the accounting guidance for stock compensation tied to performance targets (Issue No. 13-D). The objective of this guidance is to clarify the accounting treatment of certain types of performance conditions in stock-based compensation awards, more specifically, when performance targets can be achieved after the requisite service period. The Task Force concluded that performance criteria subsequent to a service period vesting requirement should be treated as vesting conditions, and as a result, this type of performance condition may delay expense recognition until achievement of the performance target is probable. Issue No. 13-D will be effective for all entities for reporting periods (including interim periods) beginning after December 15, 2015, and early adoption is permitted. The adoption of this guidance is not anticipated to have a material impact on our consolidated financial statements or notes to our consolidated financial statements.

2. Acquisitions

Operating Properties

During the three months ended March 31, 2014, we acquired the one operating office property, listed below, from an unrelated third party. The acquisition was funded with proceeds from the 2013 and 2014 dispositions (see Note 13).

(1) All interest rates presented are fixed-rate interest rates.

(2) This represents the rate at which interest expense is recorded for financial reporting purposes, which reflects the amortization of discounts/premiums, excluding debt issuance costs.

(3) Amounts reported include the amounts of unamortized debt premiums and discounts for the periods presented.

(4) The secured debt and the related properties that secure the debt are held in a special purpose entity and the properties are not available to satisfy the debts and other obligations of the Company or the Operating Partnership.

Although our mortgage loans are secured and non-recourse to the Company and the Operating Partnership, the Company provides limited customary secured debt guarantees for items such as voluntary bankruptcy, fraud, misapplication of payments and environmental liabilities.

4.25% Exchangeable Senior Notes

The table below summarizes the balance and significant terms of the Company's 4.25% Exchangeable Notes due November 2014 (the "4.25% Exchangeable Notes") outstanding as of March 31, 2014 and December 31, 2013.

KILROY REALTY CORPORATION AND KILROY REALTY, L.P.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

The 4.25% Exchangeable Notes are exchangeable for shares of the Company's common stock prior to maturity only upon the occurrence of certain events. During the three months ended March 31, 2014, the closing sale price per share of the common stock of the Company was more than 130% of the exchange price per share of the Company's common stock for at least 20 trading days in the specified period. As a result, for the three month period ended March 31, 2014, the 4.25% Exchangeable Notes are exchangeable at the exchange rate stated above and may be exchangeable thereafter, if one or more of the events were again to occur during future measurement periods.

For the three months ended March 31, 2014 and 2013, the per share average trading price of the Company's common stock on the NYSE was higher than the \$35.93 exchange price for the 4.25% Exchangeable Notes, as presented below:

	Three Months Ended March 31,	
	2014	2013
Per share average trading price of the Company's common stock	\$55.18	\$51.14

The 4.25% Exchangeable Notes were exchangeable as of March 31, 2014 and March 31, 2013. If the Exchangeable Notes were exchanged, the approximate fair value of the shares upon exchange at March 31, 2014 and 2013, using the per share average trading price presented in the table above, would have been as follows:

	Three Months Ended March 31,	
	2014	2013
	(in thousands)	
Approximate fair value of shares upon exchange	\$270,602	\$247,300
Principal amount of the 4.25% Exchangeable Notes	172,500	172,500
Approximate fair value in excess amount of principal amount	\$98,102	\$74,800

See Notes 14 and 15 for a discussion of the impact of the 4.25% Exchangeable Notes on our diluted earnings per share and unit calculations for the periods presented.

Interest Expense for the Exchangeable Notes

The unamortized discount on the 4.25% Exchangeable Notes is accreted as additional interest expense from the date of issuance through the maturity date of the applicable Exchangeable Notes. The following table summarizes the total interest expense attributable to the 4.25% Exchangeable Notes based on the respective effective interest rates, before the effect of capitalized interest, for the three months ended March 31, 2014 and 2013:

	Three Months Ended March 31,

The capped calls are expected to terminate upon the earlier of the maturity date of the 4.25% Exchangeable Notes or upon the date upon which the 4.25% Exchangeable Notes are no longer outstanding resulting from an exchange or repurchase by us. The initial cost of capped calls were recorded as a reduction to additional paid-in capital.

(1) This represents the rate at which interest expense is recorded for financial reporting purposes, which reflects the amortization of initial issuance discounts, excluding debt issuance costs.

(2) Interest on the 3.800% unsecured senior notes is payable semi-annually in arrears on January 15th and July 15th of each year.

(3) Interest on the 4.800% unsecured senior notes is payable semi-annually in arrears on January 15th and July 15th of each year.

(4) Interest on the 6.625% unsecured senior notes is payable semi-annually in arrears on June 1st and December 1st of each year.

(5) Interest on the 5.000% unsecured senior notes is payable semi-annually in arrears on May 3rd and November 3rd of each year.

In addition to the registered unsecured senior note issuances listed above, we also had outstanding Series B unsecured senior notes with an aggregate principal balance of \$83.0 million and effective interest rate of 6.45% as of March 31, 2014 and December 31, 2013, that mature in August 2014. The Series B notes require semi-annual interest

payment each February 4th and August 4th of each year based on a fixed annual interest rate of 6.45%.

Term Loan Facility

The Company's outstanding borrowings under the term loan facility were \$150.0 million as of March 31, 2014 and December 31, 2013. The term loan facility bears interest at an annual rate of LIBOR plus 1.750%, which can vary depending on the Operating Partnership's credit rating, and is scheduled to mature on March 29, 2016. Under the terms of the term loan facility, we may exercise an option to extend the maturity date by one year. We may elect to borrow up to an additional \$100.0 million under an accordion option, subject to bank approval and obtaining commitments for any additional borrowing capacity.

Unsecured Revolving Credit Facility

The following table summarizes the balance and terms of our revolving credit facility as of March 31, 2014 and December 31, 2013:

	March 31, 2014 (in thousands)	December 31, 2013	
Outstanding borrowings	\$—	\$45,000	
Remaining borrowing capacity	500,000	455,000	
Total borrowing capacity ⁽¹⁾	\$500,000	\$500,000	
Interest rate ⁽²⁾	—	% 1.62	%
Facility fee-annual rate ⁽³⁾	0.300%		
Maturity date ⁽⁴⁾	April 2017		

We may elect to borrow, subject to bank approval and obtaining commitments for any additional borrowing capacity, up to an additional \$200.0 million under an accordion feature under the terms of the revolving credit facility.

(2) The revolving credit facility interest rate was calculated based on an annual rate of LIBOR plus 1.450% as of both March 31, 2014 and December 31, 2013.

The facility fee is paid on a quarterly basis and is calculated based on the total borrowing capacity. In addition to the facility fee, from 2010 to 2012 we incurred debt origination and legal costs of which, as of March 31, 2014, approximately \$4.5 million remains to be amortized through the maturity date of the revolving credit facility.

(4) Under the terms of the revolving credit facility, we may exercise an option to extend the maturity date by one year.

The Company intends to borrow amounts under the revolving credit facility from time to time for general corporate purposes, to fund potential acquisitions, to finance development and redevelopment expenditures and to potentially repay long-term debt.

Debt Covenants and Restrictions

The revolving credit facility, the term loan facility, the unsecured senior notes, and certain other secured debt arrangements contain covenants and restrictions requiring us to meet certain financial ratios and reporting requirements. Some of the more restrictive financial covenants include a maximum ratio of total debt to total asset value, a minimum fixed-charge coverage ratio, a minimum unsecured debt ratio and a minimum unencumbered asset pool debt service coverage ratio. Noncompliance with one or more of the covenants and restrictions could result in the full or partial principal balance of the associated debt becoming immediately due and payable. We believe we were in compliance with all of our debt covenants as of March 31, 2014.

Debt Maturities

The following table summarizes the stated debt maturities and scheduled amortization payments, excluding debt discounts and premiums, as of March 31, 2014:

6. Noncontrolling Interests on the Company's Consolidated Financial Statements

Common Units of the Operating Partnership

The Company owned a 97.9%, 97.8% and 97.6% common general partnership interest in the Operating Partnership as of March 31, 2014, December 31, 2013 and March 31, 2013, respectively. The remaining 2.1%, 2.2% and 2.4% common limited partnership interest as of March 31, 2014, December 31, 2013 and March 31, 2013, respectively, was owned by non-affiliate investors and certain of our executive officers and directors in the form of noncontrolling common units. There were 1,804,200, 1,805,200 and 1,826,503 common units outstanding held by these investors, executive officers and directors as of March 31, 2014, December 31, 2013 and March 31, 2013, respectively.

The noncontrolling common units may be redeemed by unitholders for cash. Except under certain circumstances, we, at our option, may satisfy the cash redemption obligation with shares of the Company's common stock on a one-for-one basis. If satisfied in cash, the value for each noncontrolling common unit upon redemption is the amount equal to the average of the closing quoted price per share of the Company's common stock, par value \$.01 per share, as reported on the NYSE for the ten trading days immediately preceding the applicable redemption date. The aggregate value upon redemption of the then-outstanding noncontrolling common units was \$105.4 million and \$90.8 million as of March 31, 2014 and December 31, 2013, respectively. This redemption value does not necessarily represent the amount that would be distributed with respect to each noncontrolling common unit in the event of our termination or liquidation. In the event of our termination or liquidation, it is expected in most cases that each common unit would be entitled to a liquidating distribution equal to the liquidating distribution payable in respect of each share of the Company's common stock.

Noncontrolling Interest in Consolidated Variable Interest Entity

The noncontrolling interest in consolidated subsidiary represents the third party equity interest in Redwood City Partners, LLC, a consolidated VIE. This noncontrolling interest was \$4.9 million at March 31, 2014 and December 31, 2013.

7. Stockholders' Equity of the Company

At-The-Market Stock Offering Program

Under our at-the-market stock offering program, which commenced in July 2011, we may offer and sell shares of our common stock having an aggregate gross sales price of up to \$200.0 million from time to time in “at-the-market” offerings. Since commencement of the program, we have sold 2,183,261 shares of common stock having an aggregate gross sales price of \$105.3 million. As of March 31, 2014, shares of common stock having an aggregate gross sales price of up to \$94.7 million remain available to be sold under this program. Actual future sales will depend upon a variety of factors, including but not limited to market conditions, the trading price of the Company’s common stock and our capital needs. We have no obligation to sell the remaining shares available for sale under this program. There were no sales of our common stock under our at-the-market offering program for the three months ended March 31, 2014.

8. Partners' Capital of the Operating Partnership

Common Units Outstanding

The following table sets forth the number of common units held by the Company and the number of common units held by non-affiliate investors and certain of our executive officers and directors in the form of noncontrolling common units as well as the ownership interest held on each respective date:

	March 31, 2014	December 31, 2013	March 31, 2013		
Company owned common units in the Operating Partnership	82,218,332	82,153,944	75,349,705		
Company owned general partnership interest	97.9	% 97.8	% 97.6	%	
Noncontrolling common units of the Operating Partnership	1,804,200	1,805,200	1,826,503

For a further discussion of the noncontrolling common units as of March 31, 2014 and December 31, 2013, refer to Note 6.

9. Share-Based Compensation

Stockholder Approved Equity Compensation Plans

As of March 31, 2014, we maintained one share-based incentive compensation plan, the Kilroy Realty 2006 Incentive Award Plan as amended (the "2006 Plan"). As of March 31, 2014, no shares were available for grant under the 2006 Plan. Under applicable NYSE listing rules, we may not increase the 2006 Plan share limit without stockholder approval. At our Annual Meeting of Stockholders, on May 22, 2014, stockholders will be asked to approve an amendment and restatement of the 2006 Plan which includes an increase in the share limit to 7,120,000 shares.

2014 Share-Based Compensation Grants

On January 29, 2014, the Executive Compensation Committee of the Company's Board of Directors granted to certain officers of the Company under the 2006 Plan 236,604 restricted stock units ("RSUs"), 119,098 RSUs that are subject to market and performance-based vesting requirements (the "2014 Performance-Based RSU Grant") and 117,506 RSUs that are subject to time-based vesting requirements (the "2014 Time-Based RSU Grant").

2014 Performance-Based RSU Grant

The 2014 Performance-Based RSUs are scheduled to vest at the end of a three year period based upon the achievement of pre-established levels of FFO per share (the "performance condition") for the year ended December 31, 2014 and also based upon the average annual relative stockholder return targets (the "market condition") for the three year period ending December 31, 2016. The 2014 Performance-Based RSUs are also subject to a three-year service vesting provision and will cliff vest at the end of the three-year period. The number of 2014 Performance-Based RSUs ultimately earned could fluctuate based upon the levels of achievement for both the FFO and relative stockholder return metrics. Compensation expense for the 2014 Performance-Based RSU Grant will be recorded on a straight-line basis over the three year period.

Each 2014 Performance-Based RSU represents the right to receive one share of our common stock in the future. However, in the event that our stockholders do not approve an increase to the share limit under our 2006 Plan, as discussed above, then the 2014 Performance-Based RSUs may be cash settled based on the fair market value of our common stock on the applicable vesting date. As a result, until a sufficient amount of shares are authorized by our stockholders for issuance under the 2006 Plan to cover the payment of these awards, we are required to re-measure the fair value of the 2014 Performance-Based RSU Grant at each reporting date and record compensation expense based on the fair value at each reporting date for the cumulative portion of the performance period that has elapsed. The total fair value of the 2014 Performance-Based RSU Grant was \$7.1 million at March 31, 2014 and was calculated using a Monte Carlo simulation pricing model based on the assumptions in the table below. The determination of the fair value of the 2014 Performance-Based RSU Grant takes into consideration the likelihood of achievement of both the performance condition and the market condition discussed above. For the three months ended March 31, 2014, we recorded compensation expense based upon the \$63.44 fair value at March 31, 2014 because we did not have shares authorized for issuance by our stockholders under the 2006 Plan. The following table summarizes the assumptions utilized in the Monte Carlo simulation pricing model:

KILROY REALTY CORPORATION AND KILROY REALTY, L.P.
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

	Fair Value Assumptions as of March 31, 2014
Fair value per share at March 31, 2014	\$63.44
Expected share price volatility	32.00%
Risk-free interest rate	0.79%
Remaining expected life	2.75 years

The computation of expected volatility is based on a blend of the historical volatility of our shares of common stock over approximately six years as that is expected to be most consistent with future volatility and equates to a time period twice as long as the approximate three year performance period of the RSUs and implied volatility data based on the observed pricing of six month publicly-traded options on our shares of common stock. The risk-free interest rate is based on the yield curve on zero-coupon U.S. Treasury STRIP securities in effect at March 31, 2014. The expected dividend yield is estimated by examining the average of the historical dividend yield levels over the remaining 2.75 year term of the RSUs and our current annualized dividend yield as of March 31, 2014. The expected life of the RSUs is equal to the remaining 2.75 year vesting period at March 31, 2014.

2014 Time-Based RSU Grant

The 2014 Time-Based RSUs are scheduled to vest in four equal installments beginning on January 5, 2015 through January 5, 2018. Compensation expense for the 2014 Time-Based RSUs will be recognized on a straight-line basis over the four year service vesting period. Each 2014 Time-Based RSUs represents the right to receive one share of our common stock in the future. However, in the event that our stockholders do not approve an increase to the share limit under our 2006 Plan, as discussed above, then the 2014 Time-Based RSUs may be cash settled, based on the fair market value of our common stock on the applicable payment date. As a result, unless and until a sufficient amount of shares are authorized by our stockholders for issuance under the 2006 Plan to cover the payment of these awards, we are required to re-measure the fair value of the 2014 Time-Based RSUs at each reporting date and record compensation expense based on the fair value at each reporting date for the cumulative portion of the performance period that has elapsed. The total grant date fair value was \$6.1 million, which was based on the \$51.64 closing share price of the Company's common stock on the NYSE on the grant date. At March 31, 2014, we recorded compensation expense based upon the \$58.58 closing share price of the Company's common stock on that date because we did not have shares authorized for issuance by our stockholders under the 2006 Plan.

Share-Based Compensation Cost Recorded During the Period

The total compensation cost for all share-based compensation programs was \$2.9 million and \$2.4 million for the three months ended March 31, 2014 and 2013, respectively. Of the total share-based compensation costs, \$0.4 million and \$0.2 million was capitalized as part of real estate assets for the three months ended March 31, 2014 and 2013, respectively. As of March 31, 2014, there was approximately \$36.9 million of total unrecognized compensation cost related to nonvested incentive awards granted under share-based compensation arrangements that is expected to be recognized over a weighted-average period of 2.6 years. \$13.6 million of the total unrecognized compensation cost as of March 31, 2014 relates to the 2014 Performance-Based and Time-Based RSU grants which require fair value re-measurement at each reporting period as discussed above. The remaining compensation cost related to these nonvested incentive awards had been recognized in periods prior to March 31, 2014.

10. Commitments and Contingencies

General

As of March 31, 2014, we had commitments of approximately \$733.6 million, excluding our ground lease commitments, for contracts and executed leases directly related to our operating and redevelopment properties.

Environmental Matters

We follow the policy of monitoring our properties for the presence of hazardous or toxic substances. While there can be no assurance that a material environmental liability does not exist, we are not currently aware of any environmental liability with respect to the properties that would have a material adverse effect on our financial condition, results of operations and cash flow. Further, we are not aware of any environmental liability or any unasserted claim or assessment with respect to an environmental liability that we believe would require additional disclosure or the recording of a loss contingency.

11. Fair Value Measurements and Disclosures

Assets and Liabilities Reported at Fair Value

The only assets we record at fair value on a recurring basis on our consolidated financial statements are the marketable securities related to our deferred compensation plan. The following table sets forth the fair value of our marketable securities as of March 31, 2014 and December 31, 2013:

Description	Fair Value (Level 1) ⁽¹⁾	
	March 31, 2014	December 31, 2013
	(in thousands)	
Marketable securities ⁽²⁾	\$ 11,001	\$ 10,008

(1) Based on quoted prices in active markets for identical securities.

(2) The marketable securities are held in a limited rabbi trust.

We report the change in the fair value of the marketable securities at the end of each accounting period in interest income and other net investment gains in the consolidated statements of operations. We adjust the related deferred compensation plan liability to fair value at the end of each accounting period based on the performance of the benchmark funds selected by each participant, which results in a corresponding increase or decrease to compensation cost for the period.

The following table sets forth the net gain on marketable securities recorded during the three months ended March 31, 2014 and 2013:

Description	Three Months Ended March 31,	
	2014	2013
	(in thousands)	
Net gain on marketable securities	\$ 154	\$ 356

Financial Instruments Disclosed at Fair Value

The following table sets forth the carrying value and the fair value of our other financial instruments as of March 31, 2014 and December 31, 2013:

Fair value calculated using Level II inputs which are based on model-derived valuations in which significant inputs and significant value drivers are observable in active markets.

Fair value calculated using Level I and Level II inputs. Level I inputs are based on quoted prices for identical instruments in active markets. The carrying value and fair value of the Level I instruments was \$873.5 million and \$921.2 million, respectively, as of March 31, 2014. The carrying value and fair value of the Level I instruments as of December 31, 2013, was \$873.5 million and \$929.3 million, respectively. The carrying value and fair value of the Level II instruments was \$557.7 million and \$585.6 million, respectively, as of March 31, 2014. The carrying value and fair value of the Level II instruments as of December 31, 2013, was \$557.7 million and \$593.7 million, respectively.

12. Other Significant Events

In January 2014, a tenant at one of our San Diego, California operating properties exercised an early lease termination clause as permitted under the terms of their lease. As a result, the lease which encompasses approximately 79,000 rentable square feet and was scheduled to expire in February 2020, will terminate during the third quarter of 2014. The total lease termination fee of \$5.7 million, of which the Company recorded \$1.7 million during the three months ended March 31, 2014, will be recorded as other property income on a straight line basis through the early lease termination date. During the three months ended March 31, 2014, the Company also recognized approximately \$0.4 million as a reduction to rental income due to the accelerated amortization of the deferred rent receivable and above market lease for this tenant.

San Diego Properties, San Diego, CA (1)(2)	I-15 Corridor/Sorrento Mesa	Office	January	12	1,049,035

The San Diego Properties included the following: 10020 Pacific Mesa Boulevard, 6055 Lusk Avenue, 5010 and (1) 5005 Wateridge Vista Drive, 15435 and 15445 Innovation Drive, and 15051, 15073, 15231, 15253, 15333 and 15378 Avenue of Science.

(2) These properties were held for sale as of December 31, 2013.

At March 31, 2014 and December 31, 2013, approximately \$15.3 million and \$32.2 million, respectively, of net proceeds related to the buildings disposed of during the three months ended March 31, 2014 and the year ended December 31, 2013 were temporarily being held at a qualified intermediary, at our direction, for the purpose of facilitating Section 1031 Exchanges. The cash proceeds are included in restricted cash on the consolidated balance sheets at March 31, 2014 and December 31, 2013. In February 2014, we successfully completed one of the Section 1031 Exchanges and the \$32.2 million cash proceeds were released from the qualified intermediary.

16. Subsequent Events

On April 9, 2014, the Company sold an undeveloped land parcel located at 10850 Via Frontera in the Rancho Bernardo submarket of San Diego, California that was held for sale at March 31, 2014 for a gross sales price of \$33.1 million.

On April 16, 2014, aggregate dividends, distributions and dividend equivalents of \$29.8 million were paid to common stockholders and common unitholders of record on March 31, 2014 and RSU holders of record on April 16, 2014.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion relates to our consolidated financial statements and should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this report. The results of operations discussion is combined for the Company and the Operating Partnership because there are no material differences in the results of operations between the two reporting entities.

Statements contained in this “Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations” that are not historical facts may be forward-looking statements. Forward-looking statements include, among other things, statements or information concerning projected future occupancy and rental rates, lease expirations, debt maturity, potential investments, strategies such as capital recycling, development and redevelopment activity, projected construction costs, dispositions, future incentive compensation, pending, potential or proposed acquisitions and other forward-looking financial data, as well as the discussion below under the captions “—Factors That May Influence Future Results of Operations,” “—Liquidity and Capital Resource of the Company,” and “—Liquidity and Capital Resources of the Operating Partnership.” Forward-looking statements can be identified by the use of words such as “believes,” “expects,” “projects,” “may,” “will,” “should,” “seeks,” “approximately,” “intends,” “plans,” “pro forma,” “anticipates” and the negative of these words and phrases and similar expressions that do not relate to historical matters. Forward-looking statements are based on our current expectations, beliefs and assumptions, and are not guarantees of future performance. Forward-looking statements are inherently subject to uncertainties, risks, changes in circumstances, trends and factors that are difficult to predict, many of which are outside of our control. Accordingly, actual performance, results and events may vary materially from those indicated in the forward-looking statements, and you should not rely on the forward-looking statements as predictions of future performance, results or events. Numerous factors could cause actual future performance, results and events to differ materially from those indicated in forward-looking statements. For a discussion of those risk factors, see the discussion below as well as “Item 1A. Risk Factors” and “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations” in the Company’s and the Operating Partnership’s annual report on Form 10-K for the year ended December 31, 2013 and their respective other filings with the SEC. All forward-looking statements are based on information that was available and speak only as of the date on which they are made. We assume no obligation to update any forward-looking statement that becomes untrue because of subsequent events, new information or otherwise, except to the extent we are required to do so in connection with our ongoing requirements under Federal securities laws.

Overview and Background

We are a self-administered REIT active in premier office submarkets along the West Coast. We own, develop, acquire and manage real estate assets, consisting primarily of Class A properties in the coastal regions of Los Angeles, Orange County, San Diego, the San Francisco Bay Area and greater Seattle, which we believe have strategic advantages and strong barriers to entry. We own our interests in all of our properties through the Operating Partnership and the Finance Partnership and conduct substantially all of our operations through the Operating Partnership. We owned a 97.9%, 97.8% and 97.6% general partnership interest in the Operating Partnership as of March 31, 2014, December 31, 2013 and March 31, 2013, respectively. All our properties are held in fee except for the 11 office buildings that are held subject to long-term ground leases for the land.

Factors That May Influence Future Results of Operations

Acquisitions. During the three months ended March 31, 2014, we acquired one office building in greater Seattle for a total purchase price of \$106.1 million. During 2013, we acquired two office buildings in greater Seattle and two office buildings in the Del Mar submarket of San Diego County for a total purchase price of approximately \$296.4 million. We generally finance our acquisitions through proceeds from the issuance of debt and equity securities, borrowings under our revolving credit facility, proceeds from our capital recycling program and the assumption of existing debt.

As a key component of our growth strategy, we continue to evaluate value-add acquisition opportunities (including undeveloped land, development and redevelopment opportunities and office properties). As a result, at any point in time we may have one or more potential acquisitions under consideration that are in varying stages of evaluation, negotiation or due diligence review, which may include potential acquisitions under contract. We remain a disciplined buyer of office properties and undeveloped land and continue to focus on value-add opportunities in West Coast markets populated by knowledge and creative based tenants in a variety of industries, including technology, media, healthcare, entertainment and professional services. We cannot provide assurance that we will complete additional future acquisitions. In the future, we may enter into agreements to acquire additional properties or undeveloped land, either as wholly owned properties or through joint ventures, and those agreements typically will be subject to the satisfaction of closing conditions. We cannot provide assurance that we will enter into any agreements to acquire properties or undeveloped land or that the potential acquisitions contemplated by any agreements

we may enter into in the future will be completed. Costs associated with acquisitions accounted for as business combinations are expensed as incurred, and we may be unable to complete an acquisition after making a nonrefundable deposit or incurring acquisition-related costs. In addition, acquisitions are subject to various other risks and uncertainties. During the three months ended March 31, 2014, we expensed approximately \$0.2 million of third-party acquisition costs, and we anticipate that we may incur additional third-party acquisition costs during the remainder of 2014. We expect that during 2014 we will continue to pursue value-add property acquisitions that either add immediate Net Operating Income to our portfolio or play a strategic role in our future growth.

Capital Recycling Program. We continuously evaluate opportunities for the potential disposition of properties and undeveloped land in our portfolio with the intent of recycling the proceeds generated from the disposition of non-strategic properties or lower return assets into capital used to fund new operating and development acquisitions, to finance development and redevelopment expenditures, to repay long-term debt and for other general corporate purposes. As part of this strategy, we attempt to enter into Section 1031 Exchanges, when possible, to defer some or all of the taxable gains on the sales, if any, for federal and state income tax purposes.

In connection with our capital recycling strategy, during 2013, we completed the sale of three office buildings to unaffiliated third parties in three separate transactions, with gross sales proceeds totaling approximately \$56.9 million. During 2014 we completed the sale of twelve properties located in San Diego, California, with gross sales proceeds totaling approximately \$294.7 million. Additionally, in April 2014, we completed the sale of an undeveloped land parcel located in San Diego, California, with gross sales proceeds of \$33.1 million. The timing of any potential future disposition transactions will depend on market conditions and other factors, including but not limited to our capital needs and our ability to defer some or all of the taxable gains on the sales. We cannot assure that we will dispose of any additional properties or that future acquisitions and/or dispositions, if any, will qualify as Section 1031 Exchanges.

Leasing Activity and Changes in Rental Rates. The amount of net rental income generated by our properties depends principally on our ability to maintain the occupancy rates of currently leased space and to lease currently available space, newly developed or redeveloped properties, newly acquired properties with vacant space, and space available from unscheduled lease terminations. The amount of rental income we generate also depends on our ability to maintain or increase rental rates in our submarkets. Negative trends in one or more of these factors could adversely affect our rental income in future periods. The following tables set forth certain information regarding leasing activity for our stabilized portfolio during the three months ended March 31, 2014.

First generation leasing includes space where we have made capital expenditures that result in additional revenue (1) generated when the space is re-leased. Second generation leasing includes space where we have made capital expenditures to maintain the current market revenue stream.

Represents leasing activity for leases that commenced or signed at properties in the stabilized portfolio during the (2) period, including first and second generation space, net of month-to-month leases. Excludes leasing on new construction.

(3) Amounts exclude tenant-funded tenant improvements.

Calculated as the change between GAAP rents for new/renewed leases and the expiring GAAP rents for the same (4) space. Excludes leases for which the space was vacant longer than one year or vacant when the property was acquired.

Excludes commenced and executed leases of approximately 61,000 and 122,000 rentable square feet, respectively, (5) for the three months ended March 31, 2014, for which the space was vacant longer than one year or being leased for the first time. Space vacant for more than one year is excluded from our change in rents calculations to provide a meaningful market comparison.

Calculated as the change between stated rents for new/renewed leases and the expiring stated rents for the same (6) space. Excludes leases for which the space was vacant longer than one year or vacant when the property was acquired.

(7) Calculated as the percentage of space either renewed or expanded into by existing tenants or subtenants at lease expiration.

(8) For the three months ended March 31, 2014, 20 new leases totaling 152,415 rentable square feet were signed but not commenced as of March 31, 2014.

As of March 31, 2014, we believe that the weighted average cash rental rates for our stabilized portfolio, including recently acquired operating properties are approximately 5% under the current average market rental rates, although individual properties within any particular submarket presently may be leased either above, below, or at the current market rates within that submarket, and the average rental rates for individual submarkets may be above, below, or at the average cash rental rate of our portfolio.

In general, market rental rates have continued to increase in the majority of our submarkets over the last several quarters. Our rental rates and occupancy are impacted by general economic conditions, including the pace of regional economic growth and access to capital. Therefore, we cannot give any assurance that leases will be renewed or that available space will be re-leased at rental rates equal to or above the current market rates. Additionally, decreased demand and other negative trends or unforeseeable events that impair our ability to timely renew or re-lease space could have further negative effects on our future financial condition, results of operations and cash flows.

Scheduled Lease Expirations. The following table sets forth certain information regarding our lease expirations for our stabilized portfolio for the remainder of 2014 and the next five years.

Lease Expirations ⁽¹⁾

Year of Lease Expiration	Number of Expiring Leases	Total Square Feet	% of Total Leased Sq. Ft.	Annualized Base Rent ⁽²⁾	% of Total Annualized Base Rent ⁽²⁾	Annualized Base Rent per Sq. Ft. ⁽²⁾

2017	101	1,800,739	14.9	% 59,379	14.3	% 32.97
2018	58	1,583,798	13.1	% 64,291	15.5	% 40.59
2019	55	1,275,029	10.6	% 48,158	11.6	% 37.77
Total	501	8,109,852	67.2	% \$269,662	65.0	% \$33.25

The information presented for all lease expiration activity reflects leasing activity through March 31, 2014 for our stabilized portfolio. For leases that have been renewed early or space that has been re-leased to a new tenant, the (1) expiration date and annualized base rent information presented takes into consideration the renewed or re-leased lease terms. Excludes space leased under month-to-month leases, intercompany leases, vacant space and lease renewal options not executed as of March 31, 2014.

Annualized base rent includes the impact of straight-lining rent escalations and the amortization of free rent periods and excludes the impact of the following: amortization of deferred revenue related tenant-funded tenant improvements, amortization of above/below market rents, amortization for lease incentives due under existing leases and expense reimbursement revenue. Additionally, the underlying leases contain various expense structures (2) including full service gross, modified gross and triple net. Percentages represent percentage of total portfolio annualized contractual base rental revenue. For additional information on tenant improvement and leasing commission costs incurred by the Company for the current reporting period, please see further discussion under the caption "Information on Leases Commenced and Executed."

In addition to the 1.0 million rentable square feet, or 7.6%, of currently available space in our stabilized portfolio, leases representing approximately 7.8% and 12.9% of the occupied square footage of our stabilized portfolio are scheduled to expire during 2014 and 2015, respectively. The leases scheduled to expire during the remainder of 2014 and in 2015 represent approximately 2.5 million rentable square feet or 17.4% of our total annualized base rental revenue. We believe that the weighted average cash rental rates are approximately 5% under the current average market rental rates for leases scheduled to expire during the remainder of 2014 and in 2015, although individual properties within any particular submarket presently may be leased either above, below, or at the current quoted market rates within that submarket, and the average rental rates for individual submarkets may be above, below, or at the average cash rental rate of our overall portfolio. Our ability to re-lease available space depends upon both general market conditions and the market conditions in the specific regions in which individual properties are located.

Redevelopment Projects

We believe that a portion of our potential long-term future growth will continue to come from redevelopment opportunities both through acquired properties and within our existing portfolio. Redevelopment opportunities are those projects in which we spend significant development and construction costs on existing or acquired buildings pursuant to a formal plan, the intended result of which is a higher economic return on the property. During the three months ended March 31, 2014, we stabilized the following redevelopment project:

360 Third Street, South of Market Area ("SOMA"), submarket of San Francisco, California on which we commenced redevelopment in the fourth quarter of 2011. This project, encompassing approximately 427,700 rentable square feet, had a total investment of approximately \$187.8 million at completion. As of March 31, 2014, the project was 96% leased and 90.1% occupied.

In-Process and Future Development Pipeline

We believe that a portion of our long-term future growth will also come from the completion of our under construction and in-process projects as well as executing on our future development pipeline, subject to market conditions. Over the past year, we increased our focus on value-add and highly accretive development opportunities and expanded our future development pipeline through targeted acquisitions of development opportunities on the West Coast.

We have a proactive planning process by which we continually evaluate the size, timing, costs and scope of our development program and, as necessary, scale activity to reflect the economic conditions and the real estate fundamentals that exist in our strategic submarkets. We expect to proceed in our development program with discipline and will be pursuing opportunities with attractive economic returns, in locations with transportation and retail amenities and in markets with strong fundamentals and visible demand. We plan to develop in phases as appropriate and we strongly favor starting projects that are pre-leased.

As of March 31, 2014, our in-process development pipeline consisted of the following six projects under construction.

690 E. Middlefield Road, Mountain View, California, which we acquired in May 2012. The development project, which is 100% pre-leased to Synopsys, Inc., has a total estimated investment of approximately \$196.0 million and is expected to encompass approximately 341,000 rentable square feet upon completion. Construction is currently in process and is expected to be completed in the first quarter of 2015.

350 Mission Street, SOMA, San Francisco, California, which we acquired in October 2012. The development project, which is 100% pre-leased to salesforce.com, inc., has a total estimated investment of \$276.9 million and is expected to encompass approximately 450,000 rentable square feet upon completion. In the fourth quarter of 2013, we obtained full entitlements to increase this project from a 27-story building to a 30-story building. The property is expected to be LEED platinum certified, the first ground up development property in the city expected to receive this designation. Construction is currently in process and is expected to be completed in the first quarter of 2015.

555-599 N. Mathilda Avenue, Sunnyvale, California, which we acquired in December 2012. The project, which is comprised of one operating property and a future development site, is 100% pre-leased. We are currently developing an approximately 587,000 square foot office complex for LinkedIn, Inc., the tenant in the current existing building. The development project has a total estimated investment of approximately \$314.7 million. Construction is currently in process and is expected to be completed in the third quarter of 2014.

Columbia Square, Hollywood, California, which we acquired in September 2012. The project is a historical media campus located in the heart of Hollywood, two blocks from the corner of Sunset Boulevard and Vine Street. During 2013, we commenced development on approximately 675,000 rentable square feet of a mixed-use project, which encompasses office, multi-family and retail components that we plan on completing in multiple phases. The project has a total estimated investment of approximately \$392.2 million. Our plan is to create a mixed-use campus that preserves the historical character while establishing a new center for entertainment and media companies. Construction is currently in process and is expected to be completed in three phases between the third quarter of 2014 and the second quarter of 2016.

In December 2013, we announced that we will be collaborating with the Kor Group, a Los Angeles-based development and management firm that specializes in high-end residential and hospitality projects, on the project programming, design and branding of the residential component of Columbia Square. This portion of the project will be a mix of high-end long-term rentals and extended stay apartment homes that will cater to traveling business, entertainment and creative professionals. It will be the first luxury extended stay property to be located in the heart of Hollywood. Completion of the construction of this component is expected for the spring of 2016.

333 Brannan Street, SOMA, San Francisco, California, which we acquired in July 2012. In January 2014, six weeks after our ground breaking in the fourth quarter of 2013, we signed a 182,000 square foot, twelve-year lease with Dropbox for the entirety of this project. Dropbox is expected to take occupancy of the LEED platinum ground up development property at the completion of construction in the third quarter of 2015. The project has a total estimated investment of approximately \$97.9 million. Construction is currently in process and is expected to be completed in the third quarter of 2015.

Crossing/900, Redwood City, California, which we entered into an agreement in June 2013 with a local partner. The project has a total estimated investment of approximately \$183.5 million and is expected to encompass approximately 300,000 rentable square feet upon completion. Construction on the building is currently in process and is expected to be completed in the third quarter of 2015.

In the future, we may also enter into agreements to acquire other development or redevelopment opportunities, either as wholly owned properties or through joint ventures and those agreements typically will be subject to the satisfaction

of closing conditions. In addition, as of March 31, 2014, we had additional undeveloped land holdings, excluding the undeveloped land held for sale, located primarily in various submarkets in San Diego County and Los Angeles with an aggregate cost basis of approximately \$334.2 million at which we believe we could currently develop approximately 2.4 million rentable square feet.

This increase in our development and redevelopment activities will continue to cause an increase in the average development asset balances qualifying for interest and other carry cost capitalization in future periods. During the three months ended March 31, 2014, we capitalized interest on in process development projects, redevelopment projects in lease-up, and development pipeline projects with an aggregate cost basis balance of approximately \$1.0 billion at March 31, 2014, as it was determined these projects qualified for interest and other carry cost capitalization under GAAP. For the three months ended March 31, 2014 and

2013, we capitalized \$10.8 million and \$7.7 million, respectively, of interest to our qualifying redevelopment and development projects. For the three months ended March 31, 2014 and 2013, we capitalized \$2.6 million and \$1.5 million, respectively, of internal costs to our qualifying redevelopment and development projects.

Incentive Compensation. Our Executive Compensation Committee determines compensation, including cash bonuses and equity incentives, for our executive officers. For 2014, the annual cash bonus program was structured to allow the Executive Compensation Committee to evaluate a variety of key quantitative and qualitative metrics at the end of the year and make a determination based on the Company's and management's overall performance. Our Executive Compensation Committee also grants equity incentive awards from time to time that include performance-based or market-measure based vesting requirements and/or time-based vesting requirements. As a result, accrued incentive compensation and compensation expense for future awards may be affected by our operating and development performance, financial results, stock price, performance against applicable performance-based vesting goals, market conditions and other factors. Consequently, we cannot predict the amounts that will be recorded in future periods related to such incentive compensation.

As of March 31, 2014, there was approximately \$36.9 million of total unrecognized compensation cost related to outstanding nonvested shares of restricted common stock, RSUs and stock options issued under share-based compensation arrangements. Those costs are expected to be recognized over a weighted-average period of 2.6 years. The \$36.9 million of unrecognized compensation cost does not reflect the future compensation cost for any potential share-based awards that may be issued. Share-based compensation expense for potential future awards could be affected by our operating and development performance, financial results, stock price, performance against applicable performance-based vesting goals, market conditions and other factors. In addition, our Executive Compensation Committee granted restricted stock units in January 2014, and, if our stockholders do not approve an increase to the share limit under our 2006 Plan, these awards may be cash settled and will be subject to liability accounting until a sufficient amount of shares are authorized for issuance under the 2006 Plan to cover the payment of these awards. Consequently, we cannot predict the amounts that will be recorded in future periods for such awards. See Note 9 to our consolidated financial statements for additional information regarding our share-based incentive compensation plan.

Stabilized Portfolio Information

As of March 31, 2014, our stabilized portfolio was comprised of 107 office properties encompassing an aggregate of approximately 13.3 million rentable square feet. Our stabilized portfolio includes all of our properties with the exception of undeveloped land, development and redevelopment properties currently under construction or committed for construction, "lease-up" properties and properties held-for-sale. We define lease-up properties as properties recently developed or redeveloped that have not yet reached 95% occupancy and are within one year following cessation of major construction activities. We define redevelopment properties as those properties for which we expect to spend significant development and construction costs on the existing or acquired buildings pursuant to a formal plan, the intended result of which is a higher economic return on the property. Our stabilized portfolio also excludes our future development pipeline, which is comprised of eight potential development sites, representing 99.9 gross acres of undeveloped land.

At March 31, 2014, our stabilized portfolio excluded six development properties currently under construction. There were no operating properties in "lease-up" and one undeveloped land parcel held for sale as of March 31, 2014.

The following table reconciles the changes in the rentable square feet in our stabilized portfolio of operating properties from March 31, 2013 to March 31, 2014:

In December 2013, Scan Group renewed and expanded their lease at Kilroy Airport Center in Long Beach, CA. As of March 31, 2014 revenue recognition had not commenced for the expansion premises. The annualized base rental revenue and rentable square feet presented in this table include the projected annualized base rental revenue of approximately \$1.5 million and rentable square feet of approximately 50,000 for the expansion premises.

Current Regional Information

We have generally seen rental rates stabilize and start to improve in many of our submarkets. We have also seen vacancy rates in many of our submarkets starting to decrease.

Los Angeles and Ventura Counties. Our Los Angeles and Ventura Counties stabilized portfolio of 3.5 million rentable square feet was 93.7% occupied with approximately 220,000 available rentable square feet as of March 31, 2014 compared to 93.7% occupied with approximately 219,000 available rentable square feet as of December 31, 2013.

As of March 31, 2014, leases representing an aggregate of approximately 240,000 and 309,000 rentable square feet are scheduled to expire during the remainder of 2014 and in 2015, respectively, in this region. The aggregate rentable square feet under the leases scheduled to expire in this region during the remainder of 2014 and in 2015 represents approximately 4.6% of our occupied rentable square feet and 4.2% of our annualized base rental revenues in our total stabilized portfolio as of March 31, 2014.

San Diego County. Our San Diego County stabilized portfolio of 4.4 million rentable square feet was 88.1% occupied with approximately 520,000 available rentable square feet as of March 31, 2014 compared to 90.8% occupied with approximately 401,000 available rentable square feet as of December 31, 2013.

As of March 31, 2014, leases representing an aggregate of approximately 445,000 and 455,000 rentable square feet are scheduled to expire during the remainder of 2014 and in 2015, respectively, in this region. The aggregate rentable square feet under leases scheduled to expire during the remainder of 2014 and in 2015 represents approximately 7.4% of our occupied rentable square feet and 5.6% of our annualized base rental revenues in our total stabilized portfolio as of March 31, 2014.

San Francisco Bay Area. As of March 31, 2014, our San Francisco Bay Area stabilized portfolio of 2.8 million rentable square feet was 94.1% occupied with approximately 166,000 available rentable square feet, compared to 94.8% occupied with approximately 124,000 available rentable square feet as of December 31, 2013.

As of March 31, 2014, leases representing an aggregate of approximately 131,000 and 353,000 rentable square feet are scheduled to expire during the remainder of 2014 and in 2015, respectively, in this region. The aggregate rentable square feet under leases scheduled to expire during the remainder of 2014 and in 2015 represents approximately 4.0% of our occupied rentable square feet and 4.3% of our annualized base rental revenues in our total stabilized portfolio as of March 31, 2014.

Greater Seattle. As of March 31, 2014, our greater Seattle stabilized portfolio of 2.2 million rentable square feet was 96.9% occupied with approximately 68,000 available rentable square feet, compared to 96.7% occupied with approximately 68,000 available rentable square feet as of December 31, 2013. The increase in occupancy was primarily attributable to the acquisition of one office building encompassing 140,605 rentable square feet that was 100.0% occupied as of March 31, 2014.

As of March 31, 2014, leases representing an aggregate of approximately 115,000 and 399,000 rentable square feet are scheduled to expire during the remainder of 2014 and in 2015, respectively, in this region. The aggregate rentable square feet under leases scheduled to expire during the remainder of 2014 and in 2015 represents approximately 4.3% of our occupied rentable square feet and 2.8% of our annualized base rental revenues in our total stabilized portfolio as of March 31, 2014.

Results of Operations

Net Operating Income

Management internally evaluates the operating performance and financial results of our stabilized portfolio based on Net Operating Income from continuing operations. We define “Net Operating Income” as operating revenues (rental income, tenant reimbursements, and other property income) less operating expenses (property expenses, real estate taxes, provision for bad debts, and ground leases).

Net Operating Income from continuing operations is considered by management to be an important and appropriate supplemental performance measure to net income (loss) because we believe it helps both investors and management to understand the core operations of our properties excluding corporate and financing-related costs and noncash depreciation and amortization. Net Operating Income is an unlevered operating performance metric of our properties and allows for a useful comparison of the operating performance of individual assets or groups of assets. This measure thereby provides an operating perspective not immediately apparent from GAAP income (loss) from operations or net income (loss). In addition, Net Operating Income is considered by many in the real estate industry to be a useful starting point for determining the value of a real estate asset or group of assets. Other real estate companies may use different methodologies for calculating Net Operating Income, and accordingly, our presentation of Net Operating Income may not be comparable to other real estate companies. Because of the exclusion of the items shown in the reconciliation below, Net Operating Income should only be used as a supplemental measure of our financial performance and not as an alternative to GAAP income (loss) from operations or net income (loss).

Management further evaluates Net Operating Income by evaluating the performance from the following property groups:

Same Store Properties – which includes the results of all of the office properties that were owned and included in our stabilized portfolio for two comparable reporting periods, i.e., owned and included in our stabilized portfolio as of January 1, 2013 and still owned and included in the stabilized portfolio as of March 31, 2014;

Acquisition Properties – which includes the results, from the dates of acquisition through the periods presented, for the four office buildings we acquired during 2013 and the one office building we acquired during the three months ended March 31, 2014;

Stabilized Development and Redevelopment Properties – which includes the results generated by two office redevelopment buildings and one office development building that were stabilized in 2013 and one redevelopment property that was stabilized in 2014 following its one year lease-up period; and

Other Properties – which includes the results of properties not included in our stabilized portfolio.

The following table sets forth certain information regarding the property groups within our stabilized portfolio as of March 31, 2014:

Net Operating Income increased \$11.2 million, or 14.4%, for the three months ended March 31, 2014 as compared to the three months ended March 31, 2013 primarily resulting from:

• An increase of \$3.4 million attributable to the Acquisition Properties;

• An increase of \$3.8 million attributable to the Same Store Properties primarily resulting from:

• An increase in rental income of \$2.6 million primarily due to increased occupancy, new leases at higher rates and increased parking income at a number of properties;

• An increase in tenant reimbursements of \$1.4 million primarily due to higher reimbursable property expenses and real estate taxes;

• An increase in other property income of \$1.9 million primarily due to lease termination revenue;

• A partially offsetting increase in property and related expenses of \$2.1 million primarily resulting from:

An increase of \$1.6 million in property expenses primarily resulting from an increase in certain recurring operating costs of approximately \$0.6 million related to utilities, property management expenses, janitorial, insurance, other service-related costs and \$1.0 million of non-recurring legal fees;

• An increase of \$0.6 million in real estate taxes primarily as a result of higher value assessments at several properties; and

• An increase of \$4.2 million attributable to the Stabilized Development and Redevelopment Properties.

Other Expenses and Income

General and Administrative Expenses

General and administrative expenses increased \$1.1 million, or 11.8%, for the three months ended March 31, 2014 compared to the three months ended March 31, 2013. The increase was primarily attributable to an increase in payroll and administrative costs and other professional service costs associated with the growth of the Company.

Depreciation and Amortization

Depreciation and amortization increased by \$1.5 million, or 3.1%, for the three months ended March 31, 2014 compared to the three months ended March 31, 2013, primarily related to the Acquisition Properties.

Interest Expense

The following table sets forth our gross interest expense, including debt discounts/premiums and loan cost amortization, net of capitalized interest, including capitalized debt discounts/premiums and loan cost amortization for the three months ended March 31, 2014 and 2013:

	Three Months Ended March 31,		Dollar Change	Percentage Change	
	2014	2013			
	(in thousands)				
Gross interest expense	\$28,034	\$27,466	\$568	2.1	%
Capitalized interest and loan fees	(10,782)	(7,732)	(3,050)	39.4	%
Interest expense	\$17,252	\$19,734	\$(2,482)	(12.6)	%

Capitalized interest and loan fees increased \$3.1 million, or 39.4%, for the three months ended March 31, 2014 compared to the three months ended March 31, 2013. The increase was primarily attributable to an increase in our development and redevelopment activity, which resulted in higher average asset balances qualifying for interest capitalization.

Liquidity and Capital Resources of the Company

In this “Liquidity and Capital Resources of the Company” section, the term the “Company” refers only to Kilroy Realty Corporation on an unconsolidated basis and excludes the Operating Partnership and all other subsidiaries.

The Company’s business is operated primarily through the Operating Partnership. Distributions from the Operating Partnership are the Company’s source of capital. The Company believes that the Operating Partnership’s sources of working capital, specifically its cash flow from operations and borrowings available under its revolving credit facility, are adequate for it to make its distribution payments to the Company and, in turn, for the Company to make its dividend payments to its preferred and common stockholders for the next twelve months. Cash flows from operating activities generated by the Operating Partnership for the three months ended March 31, 2014 were sufficient to cover the Company’s payment of cash dividends to its stockholders. However, there can be no assurance that the Operating Partnership’s sources of capital will continue to be available at all or in amounts sufficient to meet its needs, including its ability to make distributions to the Company. The unavailability of capital could adversely affect the Operating Partnership’s ability to make distributions to the Company, which would in turn, adversely affect the Company’s ability to pay cash dividends to its stockholders.

The Company is a well-known seasoned issuer and the Company and the Operating Partnership have an effective shelf registration statement that provides for the public offering and sale from time to time by the Company of its preferred stock, common stock, depositary shares, warrants and guarantees of debt securities and by the Operating Partnership of its debt securities, in each case in unlimited amounts. The Company evaluates the capital markets on an ongoing basis for opportunities to raise capital, and, as circumstances warrant, the Company and the Operating Partnership may issue securities of all of these types in one or more offerings at any time and from time to time on an opportunistic basis, depending upon, among other things, market conditions, available pricing and capital needs. When the Company receives proceeds from the sales of its preferred or common stock, it is required by the Operating Partnership’s partnership agreement to contribute the net proceeds from those sales to the Operating Partnership in exchange for corresponding preferred or common partnership units of the Operating Partnership. The Operating Partnership may use these proceeds and proceeds from the sale of its debt securities to repay debt, including borrowings under its revolving credit facility, to develop new or existing properties, to make acquisitions of properties or portfolios of properties, or for general corporate purposes.

As the sole general partner with control of the Operating Partnership, the Company consolidates the Operating Partnership for financial reporting purposes, and the Company does not have significant assets other than its investment in the Operating Partnership. Therefore, the assets and liabilities and the revenues and expenses of the Company and the Operating Partnership are substantially the same on their respective financial statements. The section entitled “Liquidity and Capital Resources of the Operating Partnership” should be read in conjunction with this section to understand the liquidity and capital resources of the Company on a consolidated basis and how the Company is operated as a whole.

Distribution Requirements

The Company is required to distribute 90% of its taxable income (subject to certain adjustments and excluding net capital gain) on an annual basis to maintain qualification as a REIT for federal income tax purposes and is required to pay income tax at regular corporate rates to the extent it distributes less than 100% of its taxable income (including capital gains). As a result of these distribution requirements, the Operating Partnership cannot rely on retained earnings to fund its on-going operations to the same extent as other companies whose parent companies are not REITs. In addition, the Company may be required to use borrowings under the Operating Partnership’s revolving credit facility, if necessary, to meet REIT distribution requirements and maintain its REIT status. The Company may also need to continue to raise capital in the equity markets to fund the Operating Partnership’s working capital needs, as well as potential developments of new or existing properties or acquisitions.

The Company intends to continue to make, but has not committed to make, regular quarterly cash distributions to common stockholders and common unitholders from cash flow from operating activities. All such distributions are at the discretion of the board of directors. The Company has historically distributed amounts in excess of its taxable income resulting in a return of capital to its stockholders and the Company currently believes it has the ability to maintain distributions at the 2014 levels to meet the REIT distribution requirements for 2014. In addition, to the extent that the Company cannot successfully complete Section 1031 Exchanges to defer some or all of the taxable gains related to completed or future property dispositions, the Company may choose to distribute a special dividend to avoid having to pay income taxes on such gains. The Company considers market factors and its performance in addition to REIT requirements in determining our distribution levels. Amounts accumulated for distribution to stockholders are invested primarily in interest-bearing accounts and short-term interest-bearing securities, which are consistent with the Company's intention to maintain its qualification as a REIT. Such investments may include, for example, obligations of

the Government National Mortgage Association, other governmental agency securities, certificates of deposit and interest-bearing bank deposits.

On February 13, 2014, the Board of Directors declared a regular quarterly cash dividend of \$0.35 per share of common stock payable on April 16, 2014 to stockholders of record on March 31, 2014 and caused a \$0.35 per Operating Partnership unit cash distribution to be paid in respect of the Operating Partnership's common limited partnership interests, including those owned by the Company. The total cash quarterly dividends and distributions paid on April 16, 2014 was \$29.4 million.

On February 13, 2014, the Board of Directors declared a dividend of \$0.42969 per share on the Series G Preferred Stock and \$0.39844 per share on the Series H Preferred Stock for the period commencing on and including February 18, 2014 and ending on and including May 14, 2014. The dividend will be payable on May 15, 2014 to Series G Preferred and Series H Preferred stockholders of record on April 30, 2014. The quarterly dividends payable on May 15, 2014 to Series G and Series H Preferred stockholders is expected to total \$3.3 million.

Debt Covenants

The covenants contained within the revolving credit facility and the term loan facility prohibit the Company from paying dividends in excess of 95% of FFO.

Capitalization

As of March 31, 2014, our total debt as a percentage of total market capitalization was 29.5% and our total debt and liquidation value of our preferred equity as a percentage of total market capitalization was 32.3%, which was calculated based on the closing price per share of the Company's common stock of \$58.58 on March 31, 2014 as shown in the following table:

Liquidity and Capital Resources of the Operating Partnership

In this “Liquidity and Capital Resources of the Operating Partnership” section, the terms “we,” “our,” and “us” refer to the Operating Partnership or the Operating Partnership and the Company together, as the context requires.

General

Our primary liquidity sources and uses are as follows:

Liquidity Sources

- Net cash flow from operations;
- Borrowings under the Operating Partnership’s revolving credit facility and term loan facility;
- Proceeds from additional secured or unsecured debt financings;
- Proceeds from public or private issuance of debt or equity securities; and
- Proceeds from the disposition of selective assets through our capital recycling program.

Liquidity Uses

- Property or undeveloped land acquisitions;
- Property operating and corporate expenses;
- Capital expenditures, tenant improvement and leasing costs;
- Debt service and principal payments, including debt maturities;
- Distributions to common and preferred security holders;
- Development and redevelopment costs; and
- Outstanding debt repurchases.

General Strategy

Our general strategy is to maintain a conservative balance sheet with a robust credit profile and to maintain a capital structure that allows for financial flexibility and diversification of capital resources. We manage our capital structure to reflect a long-term investment approach and utilize multiple sources of capital to meet our long-term capital requirements. We believe that our current projected liquidity requirements for the next twelve-month period, as set forth above under the caption “—Liquidity Uses,” will be satisfied using a combination of the liquidity sources listed above. We believe our conservative leverage and staggered debt maturities provide us with financial flexibility and enhances our ability to obtain additional sources of liquidity if necessary, and, therefore, we are well-positioned to refinance or repay maturing debt and to pursue our strategy of seeking attractive acquisition opportunities, which we may finance, as necessary, with future public and private issuances of debt and equity securities.

Liquidity Sources

Credit Facility

The following table summarizes the balance and terms of our revolving credit facility as of March 31, 2014 and December 31, 2013, respectively:

	March 31, 2014 (in thousands)	December 31, 2013
Outstanding borrowings	\$—	\$ 45,000
Remaining borrowing capacity	500,000	455,000
Total borrowing capacity ⁽¹⁾	\$500,000	\$ 500,000
Interest rate ⁽²⁾	—	% 1.62 %
Facility fee-annual rate ⁽³⁾	0.300%	
Maturity date ⁽⁴⁾	April 2017	

We may elect to borrow, subject to bank approval and obtaining commitments for any additional borrowing (1) capacity, up to an additional \$200.0 million under an accordion feature under the terms of the revolving credit facility.

The revolving credit facility interest rate was calculated based on an annual rate of LIBOR plus 1.450% as of both (2) March 31, 2014 and December 31, 2013. No interest rate is shown as of March 31, 2014 because no borrowings were outstanding.

The facility fee is paid on a quarterly basis and is calculated based on the total borrowing capacity. In addition to (3) the facility fee, from 2010 to 2012 we incurred debt origination and legal costs of which approximately, as of

March 31, 2014, \$4.5 million remains to be amortized through the maturity date of the revolving credit facility.

(4) Under the terms of the revolving credit facility, we may exercise an option to extend the maturity date by one year.

We intend to borrow under the revolving credit facility from time to time for general corporate purposes, to fund potential acquisitions, to finance development and redevelopment expenditures and to potentially repay long-term debt.

Capital Recycling Program

In connection with our capital recycling program, we continuously evaluate opportunities for the potential disposition of properties and undeveloped land in our portfolio with the intent of recycling the proceeds generated from the disposition of non-strategic properties or lower return assets into capital used to fund new operating and development acquisitions, to finance development and redevelopment expenditures, to repay long-term debt and for other general corporate purposes. As part of this strategy, we attempt to enter into Section 1031 Exchanges, when possible, to defer some or all of the taxable gains on the sales, if any, for federal and state income tax purposes.

In connection with this strategy, during 2014 we completed the sale of twelve properties located in San Diego, California, to an unaffiliated third party, with gross sales proceeds of \$294.7 million. During 2013, we completed the sale of three office building to unaffiliated third parties in three separate transactions, for gross sales proceeds of \$56.9 million. Additionally, in April 2014, we completed the sale of an undeveloped land parcel located in San Diego, California, with gross sales proceeds of \$33.1 million. The timing of any potential future disposition transactions will depend on market conditions and other factors, including, but not limited to, our capital needs and our ability to defer some or all of the taxable gains on the sales. We cannot assure that we will dispose of any additional properties or that future acquisitions and/or dispositions, if any, will qualify as Section 1031 Exchanges.

At-The-Market Stock Offering Program

Under our at-the-market stock offering program, which commenced in July 2011, we may offer and sell shares of our common stock having an aggregate gross sales price of up to \$200.0 million from time to time in “at-the-market” offerings. Since commencement of the program, we have sold 2,183,261 shares of common stock having an aggregate gross sales price of \$105.3 million. As of March 31, 2014, shares of common stock having an aggregate gross sales price of up to \$94.7 million remain available to be sold under this program. Actual future sales will depend upon a variety of factors, including but not limited to market conditions, the trading price of the Company’s common stock and our capital needs. We have no obligation to sell the remaining shares available for sale under this program. There were no sales of our common stock under our at-the-market offering program for the three months ended March 31, 2014.

Shelf Registration Statement

As discussed above under “—Liquidity and Capital Resources of the Company,” the Company is a well-known seasoned issuer and the Company and the Operating Partnership have an effective shelf registration statement that provides for the public offering and sale from time to time by the Company of its preferred stock, common stock, depository shares and guarantees of debt securities and by the Operating Partnership of its debt securities, in each case in unlimited amounts. The Company evaluates the capital markets on an ongoing basis for opportunities to raise capital, and, as circumstances warrant, the Company and the Operating Partnership may issue securities of all of these types in one or more offerings at any time and from time to time on an opportunistic basis, depending upon, among other things, market conditions, available pricing and capital needs. When the Company receives proceeds from the sales of its preferred or common stock, it is required by the Operating Partnership’s partnership agreement to contribute the net proceeds from those sales to the Operating Partnership in exchange for corresponding preferred or common partnership units of the Operating Partnership. The Operating Partnership may use these proceeds and proceeds from the sale of its debt securities to repay debt, including borrowings under its revolving credit facility, to develop new or existing properties, to make acquisitions of properties or portfolios of properties, or for general corporate purposes.

Exchangeable Notes, Unsecured Debt, and Secured Debt

The aggregate principal amount of our 4.25% Exchangeable Notes, unsecured debt, and secured debt of the Operating Partnership outstanding as of March 31, 2014 was as follows:

	Aggregate Principal Amount Outstanding (in thousands)
Unsecured Term Loan Facility due 2016	150,000
4.25% Exchangeable Notes due 2014 ⁽¹⁾	172,500

Represents gross aggregate principal amount before the effect of the unamortized discounts and premiums as of (1) March 31, 2014. The aggregate net unamortized premiums totaled approximately \$8.7 million as of March 31, 2014.

Debt Composition

The composition of the Operating Partnership’s aggregate debt balances between secured and unsecured and fixed-rate and variable-rate debt as of March 31, 2014 and December 31, 2013 was as follows:

	Percentage of Total Debt		Weighted Average Interest Rate		
	March 31, 2014	December 31, 2013	March 31, 2014	December 31, 2013

Contractual Obligations

The following table provides information with respect to our contractual obligations as of March 31, 2014. The table: (i) indicates the maturities and scheduled principal repayments of our secured debt, 4.25% Exchangeable Notes and unsecured debt; (ii) indicates the scheduled interest payments of our fixed-rate and variable-rate debt as of March 31, 2014; (iii) provides information about the minimum commitments due in connection with our ground lease obligations and other lease and contractual commitments; and (iv) provides estimated redevelopment and development commitments as of March 31, 2014. Note that the table does not reflect our available debt maturity extension options and reflects gross aggregate principal amounts before the effect of unamortized discounts/premiums.

(1) Represents gross aggregate principal amount before the effect of the unamortized premium of approximately \$13.5 million as of March 31, 2014.

(2) Represents gross aggregate principal amount before the effect of the unamortized discount of approximately \$3.0 million as of March 31, 2014.

(3) Represents gross aggregate principal amount before the effect of the unamortized discount of approximately \$1.8 million as of March 31, 2014.

As of March 31, 2014, 93.0% of our debt was contractually fixed. The information in the table above reflects our (4) projected interest rate obligations for these fixed-rate payments based on the contractual interest rates, interest payment dates and scheduled maturity dates.

As of March 31, 2014, 7.0% of our debt bore interest at variable rates which was incurred under the term loan facility. The variable interest rate payments are based on LIBOR plus a spread of 1.750% as of March 31, 2014.

(5) The information in the table above reflects our projected interest rate obligations for these variable-rate payments based on outstanding principal balances as of March 31, 2014, the scheduled interest payment dates and the contractual maturity dates.

(6) Reflects minimum lease payments through the contractual lease expiration date before the impact of extension options.

(7) Amounts represent commitments under signed leases and contracts for operating properties, excluding tenant-funded tenant improvements. The timing of these expenditures may fluctuate.

(8) Amounts represent commitments under signed leases for pre-leased development projects and contractual commitments for lease-up projects and projects under construction as of March 31, 2014. The timing of these

expenditures may fluctuate based on the ultimate progress of construction.

Other Liquidity Uses

Debt Maturities

As of March 31, 2014, our 4.25% Exchangeable Notes and Series B unsecured senior notes with principal balances of \$172.5 million and \$83.0 million, respectively, are scheduled to mature in November 2014 and August 2014, respectively. We believe our conservative leverage and staggered debt maturities provide us with financial flexibility and enhances our ability to obtain additional sources of liquidity if necessary, and, therefore, we believe we are well-positioned to refinance or repay maturing debt and to pursue our strategy of seeking attractive acquisition opportunities, which we may finance, as necessary, with future public and private issuances of debt and equity securities. Furthermore, as of the date of this report, we have full availability under our \$500 million bank line to refinance any short term maturities, including the two maturing debt noted above.

Potential Future Acquisitions

In 2014, we acquired one building for approximately \$106.1 million in cash. In 2013, we acquired four buildings and two undeveloped land sites for approximately \$305.5 million in cash. These transactions were funded through various capital raising activities and, in selected instances, the assumption of existing indebtedness. We expect to continue to monitor our target markets

and to pursue the acquisition of value add office properties and development and redevelopment opportunities that add immediate Net Operating Income to our portfolio or play a strategic role in our future growth.

Development and Redevelopment Opportunities

As of March 31, 2014, we had six development projects under construction. These projects have a total estimated investment of approximately \$1.5 billion, of which we have incurred approximately \$689.2 million and committed an additional \$648.0 million as of March 31, 2014. In addition, we currently have additional development projects that we may commence construction on in 2014. This total estimated investment is based on market conditions and our anticipation of project approvals. Actual costs could vary depending on changes in circumstances. Ultimate timing of these expenditures may fluctuate given the ultimate progress and leasing status of the projects.

Other Potential Future Liquidity Uses

We remain a disciplined buyer of office properties and continue to focus on value add opportunities in West Coast markets populated by knowledge and creative based tenants in a variety of industries, including technology, media, healthcare, entertainment and professional services. We expect that any material acquisitions or development activities will be funded with borrowings under the revolving credit facility, the public or private issuance of debt or equity securities, the disposition of assets under our capital recycling program or through the assumption of existing debt.

In addition, the amounts we are required to spend on tenant improvements and leasing costs we ultimately incur will depend on actual leasing activity. Tenant improvements and leasing costs generally fluctuate in any given period depending on factors such as the type of property, the term of the lease, the type of the lease, the involvement of external leasing agents and overall market conditions. Capital expenditures may fluctuate in any given period subject to the nature, extent and timing of improvements required to maintain or improve our properties.

Factors That May Influence Future Sources of Capital and Liquidity of the Company and the Operating Partnership

We continue to evaluate sources of financing for our business activities, including borrowings under the revolving credit facility, issuance of public and private equity securities, unsecured debt and fixed-rate secured mortgage financing and proceeds from the disposition of selective assets through our capital recycling program. However, our ability to obtain new financing or refinance existing borrowings on favorable terms could be impacted by various factors, including the state of economic conditions, the state of the credit and equity markets, significant tenant defaults, a decline in the demand for office properties, a decrease in market rental rates or market values of real estate assets in our submarkets and the amount of future borrowings. These events could result in the following:

• Decreases in our cash flows from operations, which could create further dependence on the revolving credit facility;

• An increase in the proportion of variable-rate debt, which could increase our sensitivity to interest rate fluctuations in the future; and

• A decrease in the value of our properties, which could have an adverse effect on the Operating Partnership's ability to incur additional debt, refinance existing debt at competitive rates or comply with its existing debt obligations.

In addition to the factors noted above, the Operating Partnership's credit ratings are subject to ongoing evaluation by credit rating agencies and may be changed or withdrawn by a rating agency in the future if, in its judgment, circumstances warrant. In the event that the Operating Partnership's credit ratings are downgraded, we may incur higher borrowing costs and may experience difficulty in obtaining additional financing or refinancing existing indebtedness.

Debt Covenants

The revolving credit facility, term loan facility, unsecured senior notes and certain other secured debt arrangements contain covenants and restrictions requiring us to meet certain financial ratios and reporting requirements. Key existing financial covenants and their covenant levels include:

Unsecured Credit Facility and Term Loan Facility (as defined in the applicable Credit Agreements):	Covenant Level	Actual Performance as of March 31, 2014
Total debt to total asset value	less than 60%	34%
Fixed charge coverage ratio	greater than 1.5x	2.4x
Unsecured debt ratio	greater than 1.67x	2.63x
Unencumbered asset pool debt service coverage	greater than 2.0x	3.3x

Unsecured Senior Notes due 2015, 2018, 2020 and 2023

(as defined in the applicable Indentures):

Total debt to total asset value	less than 60%	38%
Interest coverage	greater than 1.5x	4.4x
Secured debt to total asset value	less than 40%	10%
Unencumbered asset pool value to unsecured debt	greater than 150%	282%

The Operating Partnership was in compliance with all its debt covenants as of March 31, 2014. Our current expectation is that the Operating Partnership will continue to meet the requirements of its debt covenants in both the short and long term. However, in the event of a renewed economic slowdown or continued volatility in the credit markets, there is no certainty that the Operating Partnership will be able to continue to satisfy all of the covenant requirements.

Consolidated Historical Cash Flow Summary

The following summary discussion of our consolidated historical cash flow is based on the consolidated statements of cash flows in Item 1. “Financial Statements” and is not meant to be an all-inclusive discussion of the changes in our cash flow for the periods presented below. The cash flow amounts shown below include the activities of discontinued operations. Our historical cash flow activity for the three months ended March 31, 2014 as compared to the three months ended March 31, 2013 is as follows:

	Three Months Ended March 31,		Dollar	Percentage	
	2014	2013	Change	Change	
	(\$ in thousands)				
Net cash provided by operating activities	\$45,081	\$56,499	\$(11,418)	(20.2)	%
Net cash provided by investing activities	97,278	43,447	53,831	123.9	%
Net cash (used in) provided by financing activities	(82,202)	19,030	(101,232)	(532.0)	%

Operating Activities

Our cash flows from operating activities depend on numerous factors including the occupancy level of our portfolio, the rental rates achieved on our leases, the collectability of rent and recoveries from our tenants, the level of operating expenses, the impact of property acquisitions and related financing activities, and other general and administrative costs. Our net cash from operating activities decreased by \$11.4 million, or 20.2%, for the three months ended March 31, 2014 compared to the three months ended March 31, 2013 primarily as a result of timing differences of the payment of accounts payable, accrued expenses and other liabilities. See additional information under the caption “—Results of Operations”

Investing Activities

Our cash flows from investing activities is generally used to fund property, development and redevelopment acquisitions, recurring and nonrecurring capital expenditures for our operating properties, and development and redevelopment projects, net of proceeds received from property dispositions. Our net cash provided by investing activities increased by \$53.8 million, or 123.9%, for the three months ended March 31, 2014 compared to the three months ended March 31, 2013 primarily as a result of the disposition of twelve properties located in San Diego, California in the first quarter of 2014.

Financing Activities

Our net cash from financing activities is principally impacted by our capital raising activities, net of dividends and distributions paid to common and preferred security holders. Net cash from financing activities decreased by \$101.2 million, or 532.0%, for the three months ended March 31, 2014 compared to the three months ended March 31, 2013. This change was primarily due to the issuance of debt in 2013.

Off-Balance Sheet Arrangements

As of March 31, 2014 and as of the date this report was filed, we did not have any off-balance sheet transactions, arrangements or obligations, including contingent obligations.

Non-GAAP Supplemental Financial Measure: Funds From Operations

We calculate FFO in accordance with the White Paper on FFO approved by the Board of Governors of NAREIT. The White Paper defines FFO as net income or loss calculated in accordance with GAAP, excluding extraordinary items, as defined by GAAP, gains and losses from sales of depreciable real estate and impairment write-downs associated with depreciable real estate, plus real estate-related depreciation and amortization (excluding amortization of deferred financing costs and depreciation of non-real estate assets) and after adjustment for unconsolidated partnerships and joint ventures. Our calculation of FFO includes the amortization of deferred revenue related to tenant-funded tenant improvements and excludes the depreciation of the related tenant improvement assets.

We believe that FFO is a useful supplemental measure of our operating performance. The exclusion from FFO of gains and losses from the sale of operating real estate assets allows investors and analysts to readily identify the operating results of the assets that form the core of our activity and assists in comparing those operating results between periods. Also, because FFO is generally recognized as the industry standard for reporting the operations of REITs, it facilitates comparisons of operating performance to other REITs. However, other REITs may use different methodologies to calculate FFO, and accordingly, our FFO may not be comparable to all other REITs.

Implicit in historical cost accounting for real estate assets in accordance with GAAP is the assumption that the value of real estate assets diminishes predictably over time. Since real estate values have historically risen or fallen with market conditions, many industry investors and analysts have considered presentations of operating results for real estate companies using historical cost accounting alone to be insufficient. Because FFO excludes depreciation and amortization of real estate assets, we believe that FFO along with the required GAAP presentations provides a more complete measurement of our performance relative to our competitors and a more appropriate basis on which to make decisions involving operating, financing and investing activities than the required GAAP presentations alone would provide.

However, FFO should not be viewed as an alternative measure of our operating performance because it does not reflect either depreciation and amortization costs or the level of capital expenditures and leasing costs necessary to maintain the operating performance of our properties, which are significant economic costs and could materially impact our results from operations.

The following table presents our FFO for the three months ended March 31, 2014 and 2013:

	Three Months Ended March 31,	
	2014	2013
	(in thousands)	
Net income (loss) available to common stockholders	\$96,532	\$(903)
Adjustments:		
Net income (loss) attributable to noncontrolling common units of the Operating Partnership	2,087	(22)
Depreciation and amortization of real estate assets	48,717	50,011
Net gain on dispositions of discontinued operations	(90,115)	—
Funds From Operations ⁽¹⁾⁽²⁾	\$57,221	\$49,086

(1) Reported amounts are attributable to common stockholders and common unitholders.

(2) FFO includes amortization of deferred revenue related to tenant-funded tenant improvements of \$2.4 million and \$2.4 million for the three months ended March 31, 2014 and 2013, respectively.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Information about our market risk is disclosed in Part II, Item 7A, of our Annual Report on Form 10-K for the fiscal year ended December 31, 2013, and is incorporated herein by reference. There have been no material changes for the three months ended March 31, 2014, to the information provided in Part II, Item 7A, of our Annual Report on Form 10-K for the fiscal year ended December 31, 2013.

ITEM 4. CONTROLS AND PROCEDURES

Kilroy Realty Corporation

The Company maintains disclosure controls and procedures (as defined in Rule 13a-15(e) or Rule 15d-15(e) under the Exchange Act) that are designed to ensure that information required to be disclosed in the Company's reports under the Exchange Act is processed, recorded, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As required by SEC Rule 13a-15(b), the Company carried out an evaluation, under the supervision and with the participation of management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the disclosure controls and procedures as of March 31, 2014, the end of the period covered by this report. Based on the foregoing, the Company's Chief Executive Officer and Chief Financial Officer concluded, as of that time, that disclosure controls and procedures were effective at the reasonable assurance level.

There have been no significant changes that occurred during the quarter covered by this report in the Company's internal control over financial reporting identified in connection with the evaluation referenced above that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Kilroy Realty, L.P.

The Operating Partnership maintains disclosure controls and procedures (as defined in Rule 13a-15(e) or Rule 15d-15(e) under the Exchange Act) that are designed to ensure that information required to be disclosed in the Operating Partnership's reports under the Exchange Act is processed, recorded, summarized, and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As required by SEC Rule 13a-15(b), the Operating Partnership carried out an evaluation, under the supervision and with the participation of management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the disclosure controls and procedures as of March 31, 2014, the end of the period covered by this report. Based on the foregoing, the Operating Partnership's Chief Executive Officer and Chief Financial Officer concluded, as of that time, that disclosure controls and procedures were effective at the reasonable assurance level.

There have been no significant changes that occurred during the quarter covered by this report in the Operating Partnership's internal control over financial reporting identified in connection with the evaluation referenced above that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
