FORWARD-LOOKING STATEMENTS

The information included in this quarterly report on Form 10-Q contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements may relate to the financial condition, results of operations, plans, objectives, future performance and business of OFG Bancorp (“we,” “our,” “us” or “Oriental”), including, but not limited to, statements with respect to the adequacy of the allowance for loan losses, delinquency trends, market risk and the impact of interest rate changes, capital markets conditions, capital adequacy and liquidity, and the effect of legal proceedings and new accounting standards on the Oriental’s financial condition and results of operations. All statements contained herein that are not clearly historical in nature are forward-looking, and the words “anticipate,” “believe,” “continues,” “expect,” “estimate,” “intend,” “project” and similar expressions and future or conditional verbs such as “will,” “would,” “should,” “could,” “might,” “can,” “may,” or similar expressions are generally intended to identify forward-looking statements.

These statements are not guarantees of future performance and involve certain risks, uncertainties, estimates and assumptions by management that are difficult to predict. Various factors, some of which by their nature are beyond Oriental’s control, could cause actual results to differ materially from those expressed in, or implied by, such forward-looking statements. Factors that might cause such a difference include, but are not limited to:

- the rate of growth in the economy and employment levels, as well as general business and economic conditions;
- changes in interest rates, as well as the magnitude of such changes;
- the credit default by the municipalities of the government of Puerto Rico;
- amendments to the fiscal plan approved by the Financial Oversight and Management Board for Puerto Rico;
- determinations in the court-supervised debt-restructuring process under Title III of PROMESA for the Puerto Rico government and all of its agencies, including some of its public corporations;
- the impact of property, credit and other losses in Puerto Rico as a result of hurricanes, earthquakes and other natural disasters;
- the amount of government, private and philanthropic financial assistance for the reconstruction of Puerto Rico’s critical infrastructure, which suffered catastrophic damages caused by hurricane Maria;
- the pace and magnitude of Puerto Rico’s economic recovery;
- the fiscal and monetary policies of the federal government and its agencies;
- changes in federal bank regulatory and supervisory policies, including required levels of capital;
- the relative strength or weakness of the commercial and consumer credit sectors and the real estate market in Puerto Rico;

- the performance of the stock and bond markets;
- competition in the financial services industry; and
- possible legislative, tax or regulatory changes.

Other possible events or factors that could cause results or performance to differ materially from those expressed in these forward-looking statements include the following: negative economic conditions that adversely affect the general economy, housing prices, the job market, consumer confidence and spending habits which may affect, among other things, the level of non-performing assets, charge-offs and provision expense; changes in interest rates and market liquidity which may reduce interest margins, impact funding sources and affect the ability to originate and distribute financial products in the primary and secondary markets; adverse movements and volatility in debt and equity capital markets; changes in market rates and prices which may adversely impact the value of financial assets and liabilities; liabilities resulting from litigation and regulatory investigations; changes in accounting standards, rules and interpretations; increased competition; Oriental's ability to grow its core businesses; decisions to downsize, sell or close units or otherwise change Oriental's business mix; and management's ability to identify and manage these and other risks.

All forward-looking statements included in this quarterly report on Form 10-Q are based upon information available to Oriental as of the date of this report, and other than as required by law, including the requirements of applicable securities laws, Oriental assumes no obligation to update or revise any such forward-looking statements to reflect occurrences or unanticipated events or circumstances after the date of such statements.

UNAUDITED CONSOLIDATED STATEMENTS OF CASH FLOWS

FOR THE NINE-MONTH PERIODS ENDED SEPTEMBER 30, 2018 AND 2017 (CONTINUED)

OFG BANCORP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 – ORGANIZATION, CONSOLIDATION AND BASIS OF PRESENTATION

Nature of Operations

OFG Bancorp (“Oriental”) is a publicly-owned financial holding company incorporated under the laws of the Commonwealth of Puerto Rico. Oriental operates through various subsidiaries including, a commercial bank, Oriental Bank (the “Bank”), a securities broker-dealer, Oriental Financial Services Corp. (“Oriental Financial Services”), an insurance agency, Oriental Insurance LLC. (“Oriental Insurance”), a retirement plan administrator, Oriental Pension Consultants, Inc. (“OPC”), and two operating subsidiaries of the Bank, OFG USA LLC (“OFG USA”) and Oriental International Bank Inc. (“OIB”). Through these subsidiaries and their respective divisions, Oriental provides a wide range of banking and financial services such as commercial, consumer and mortgage lending, auto loans, financial planning, insurance sales, money management and investment banking and brokerage services, as well as corporate and individual trust services.

On April 30, 2010, the Bank acquired certain assets and assumed certain deposits and other liabilities of Eurobank, a Puerto Rico commercial bank, in an FDIC-assisted acquisition. On February 6, 2017, the Bank and the FDIC agreed to terminate the shared-loss agreements related to the Eurobank Acquisition. On December 18, 2012, Oriental acquired a group of Puerto Rico-based entities that included Banco Bilbao Vizcaya Argentaria Puerto Rico (“BBVAPR”), a Puerto Rico commercial bank, as well as a securities broker-dealer and an insurance agency, which is referred to herein as the “BBVAPR Acquisition.” These acquired businesses have been integrated with Oriental’s existing business.

New Accounting Updates Not Yet Adopted

Intangibles—Goodwill and Other—Internal-Use Software (Subtopic 350-40): Customer’s Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract (a consensus of the FASB Emerging Issues Task Force). In August 2018, the FASB issued Accounting Standards Update (“ASU”) 2018-15, which aligns the requirements for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software (and hosting arrangements that include an internal-use software license). Accordingly, ASU 2018-15 requires an entity (customer) in a hosting arrangement that is a service contract to follow the guidance in Subtopic 350-40 to determine which implementation costs to capitalize as an asset related to the service contract and which costs to expense. The ASU also requires the entity (customer) to expense the capitalized implementation costs of a hosting arrangement that is a

service contract over the term of the hosting arrangement, which includes reasonably certain renewals. This ASU is the final version of Proposed Accounting Standards Update 2018-230—Intangibles—Goodwill and Other—Internal-Use Software (Subtopic 350-40): Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract, which has been deleted. This ASU will be applied prospectively for annual and interim periods in fiscal years beginning after December 15, 2019. Early adoption is permitted. We will assess the impact that the adoption of ASU 2018-15 will have on our consolidated financial statements and related disclosures during the year 2019.

Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement. In August 2018, the FASB issued ASU 2018-13, which improves the effectiveness of fair value measurement disclosures. ASU 2018-13 modifies the disclosure requirements on fair value measurements in Topic 820, Fair Value Measurement, based on the concepts in FASB Concepts Statement, Conceptual Framework for Financial Reporting—Chapter 8: Notes to Financial Statements, including the consideration of costs and benefits. This ASU is the final version of Proposed Accounting Standards Update 2015-350—Fair Value Measurement (Topic 820)—Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurements, which has been deleted. This ASU will be applied prospectively for annual and interim periods in fiscal years beginning after December 15, 2019. We will assess the impact that the adoption of ASU 2018-13 will have on our consolidated financial statements and related disclosures during the year 2019.

Codification Improvements. In July 2018, the FASB issued ASU 2018-9, which represents changes to clarify the FASB Accounting Standards Codification (the “Codification”), correct unintended application of guidance, or make minor improvements to the Codification that are not expected to have a significant effect on current accounting practice or create a significant administrative cost to most entities. Some of the amendments make the Codification easier to understand and easier to apply by eliminating inconsistencies, providing needed clarifications, and improving the presentation of guidance in the Codification. The transition and effective date guidance is based on the facts and circumstances of each amendment. Some of the amendments in this ASU do not require transition guidance and will be effective upon issuance of this ASU. However, many of the amendments in this ASU do have transition guidance with effective dates for annual periods beginning after December 15, 2018, for public business entities.

OFG BANCORP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Premium Amortization on Purchased Callable Debt Securities Receivables. In March 2017, the FASB issued ASU No. 2017-08, which requires the amortization of the premium on callable debt securities to the earliest call date. The amortization period for callable debt securities purchased at a discount would not be impacted by the ASU. This ASU will be applied prospectively for annual and interim periods in fiscal years beginning after December 15, 2018. The ASU is not expected to have a material impact on Oriental's consolidated financial position or results of operations. At September 30, 2018, Oriental does not have callable debt securities.

Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting (a consensus of the Emerging Issues Task Force). In February 2017, the FASB issued ASU No. 2017-06, which intended to reduce diversity and improve the usefulness of information provided by employee benefit plans that hold interests in master trusts. This ASU will be applied prospectively for annual and interim periods in fiscal years beginning after December 15, 2018. The ASU is not expected to have a material impact on Oriental's consolidated financial position or results of operations.

Simplifying the Test for Goodwill Impairment. In January 2017, the FASB issued ASU No. 2017-04, which simplifies the measurement of goodwill impairment. An entity will no longer perform a hypothetical purchase price allocation to measure goodwill impairment. Instead, impairment will be measured using the difference between the carrying amount and the fair value of the reporting unit. This ASU will be applied prospectively for annual and interim periods in fiscal years beginning after December 15, 2019. We will assess the impact that the adoption of ASU 2017-04 will have on our consolidated financial statements and related disclosures during the year 2019.

Measurement of Credit Losses on Financial Instruments. In June 2016, the FASB issued ASU No. 2016-13, which includes an impairment model (known as the current expected credit loss (CECL) model) that is based on expected losses rather than incurred losses. Under the new guidance, an entity recognizes as an allowance its estimate of expected credit losses. ASU No. 2016-13 is effective for fiscal years, and interim periods, beginning after December 15, 2019. Oriental will implement ASU No. 2016-13 on January 1, 2020. While we continue to assess the impact of ASU No. 2016-13, we have developed a roadmap with time schedules in place from 2016 to implementation date. Oriental's cross-functional implementation team has developed a project plan to ensure we comply with all updates from this ASU at the time of adoption. We recently have selected the software and are in the process of assessing the methodology to be used in order to develop an acceptable model to estimate the expected credit losses. After the model has been developed, reviewed and validated in accordance with our governance policies, Oriental will keep disclosing relevant information of concerning implementation process and impact of ASU No. 2016-13, as well as the updating of policies, procedures and internal controls. Although Oriental expects the allowance for credit losses to increase upon adoption with a corresponding adjustment to retained earnings, the ultimate amount of the increase will depend on the portfolio composition, credit quality, economic conditions and reasonable and supportable forecasts at that time.

Leases. In February 2016, the FASB issued ASU No. 2016-02, the FASB issued ASU No. 2016-02, which requires lessees to recognize a right-of-use (ROU) asset and related lease liability for leases classified as operating leases at the commencement date that have lease terms of more than 12 months. The standard, effective January 1, 2019, with early adoption permitted, would have caused us to recognize virtually all leases on the Consolidated Balance Sheets upon adoption and in the comparative period. However, in July 2018, the FASB issued an update to its guidance providing companies with the option to adopt the provisions of the standard prospectively without adjusting comparative periods; we will elect this option and adopt the standard on January 1, 2019. The new standard provides a number of optional practical expedients in transition. We expect to elect the ‘package of practical expedients’, which permits us not to reassess under the new standard our prior conclusions about lease identification, lease classification and initial direct costs. We currently expect to elect the short-term lease recognition exemption for all leases that qualify. This means, for those leases that qualify, we will not recognize ROU assets or lease liabilities, and this includes not recognizing ROU assets or lease liabilities for existing short-term leases of those assets in transition. Oriental’s leases primarily consist of leased office space. At September 30, 2018, Oriental had \$27.7 million of minimum lease commitments from these operating leases (refer to Note 20). While we continue to assess the potential impacts upon adoption, we do not expect a material impact on our financial position, results of operations, cash flows or regulatory risk-based capital. Preliminarily we expect that the amounts to be recognized as right-of-use assets and lease liabilities will be less than 1% of our total assets.

New Accounting Updates Adopted During the Nine-month Period Ended September 30, 2018

Restricted Cash. In November 2016, the FASB issued ASU No. 2016-18, which amends Topic 230 (Statement of Cash Flows) and requires that a statement of cash flows explain the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. ASU No. 2016-18 is intended to reduce diversity in practice in how restricted cash or restricted cash equivalents are presented and classified in the statement of cash flows. ASU No. 2016-18 is

OFG BANCORP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

effective for fiscal years, and interim periods, beginning after December 15, 2017. The standard requires application using a retrospective transition method. The adoption of ASU No. 2016-18 on January 1, 2018, changed the presentation and classification of restricted cash and restricted cash equivalents in our consolidated statements of cash flows.

Revenue from Contracts with Customers. In May 2014, the FASB issued ASU No. 2014-09, which supersedes the revenue recognition requirements Topic 605 (Revenue Recognition), and most industry-specific guidance. ASU No. 2014-09 is based on the principle that revenue is recognized to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. ASU No. 2014-09 also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to obtain or fulfill a contract. ASU No. 2014-09 permits two methods of adoption: retrospectively to each prior reporting period presented (full retrospective method), or retrospectively with the cumulative effect of initially applying the guidance recognized at the date of initial application (modified retrospective method). In August 2015, the FASB issued ASU No. 2015-14 to defer the effective date of ASU No. 2014-09 by one year to fiscal years beginning after December 15, 2017. Oriental has adopted this ASU on January 1, 2018 using the modified retrospective method. Oriental's implementation efforts included the identification of revenue streams that are within the scope of the new guidance and the review of related contracts with customers to determine their effect on certain non-interest income items presented in our consolidated statements of operations and the additional presentation disclosures required (refer to note 22). We concluded that substantially all of Oriental's revenues are generated from activities that are outside the scope of this ASU, and the adoption did not have a material impact on our consolidated financial statements. Therefore, there was no cumulative effect adjustment recorded.

NOTE 2 – SIGNIFICANT EVENTS

Hurricanes Irma and Maria

During 2017, Oriental was impacted by hurricanes Irma and Maria, which struck the Island on September 7, 2017 and September 20, 2017, respectively. Hurricane Maria caused catastrophic damages throughout Puerto Rico, including homes, businesses, roads, bridges, power lines, commercial establishments, and public facilities. It caused an unprecedented crisis when it ravaged the Island's electric power grid less than two weeks after hurricane Irma left over a million Puerto Rico residents without power. For several months after the hurricanes, a large part of Puerto Rico was without electricity, many businesses were unable to operate, and government authorities struggled to deliver emergency supplies and clean drinking water to many communities outside the San Juan metropolitan area. Further, payment and delivery systems, including the U.S. Post Office, were unable to operate for weeks after hurricane Maria.

Almost all of Oriental's operations and clients are located in Puerto Rico. Although Oriental's business operations were disrupted by major damages to Puerto Rico's critical infrastructure, including its electric power grid and telecommunications network, Oriental's digital channels, core banking and electronic funds transfer systems continued to function uninterrupted during and after the hurricanes. Within days after hurricane Maria, and upon securing a continuing supply of diesel fuel for its electric power generators, Oriental was able to open its main offices and many of its branches and ATMs in addition to its digital and phone trade channels.

As a result of this event, and based on current assessments of information available for the impact of the hurricanes on our credit portfolio, 2017 third and fourth quarter results included an additional loan loss provision of \$27.0 million and \$5.4 million, respectively.

Oriental implemented its disaster response plan as these storms approached its service areas. To operate in disaster response mode, Oriental incurred expenses for, among other things, buying diesel and generators for electric power, debris removal, security measures, property damages, and emergency communication with customers regarding the status of its banking operations. The estimated total non-credit operating costs as of December 31, 2017 amounted to \$6.6 million. No additional losses have been incurred at September 30, 2018.

Oriental maintains insurance for casualty losses as well as for disaster response costs and certain revenue lost through business interruption. Management believes that recovery of \$2.2 million incurred costs as of December 31, 2017 is probable. Oriental received a \$1.0 million partial payment from the insurance company during the quarter ended December 2017 and a \$0.7 million payment during the nine-month period ended September 30, 2018. Accordingly, a receivable of \$0.5 million and \$1.2 million was included in other assets at September 30, 2018 and December 31, 2017, respectively, for the expected recovery.

OFG BANCORP**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)****NOTE 3 – RESTRICTED CASH**

The following table includes the composition of Oriental's restricted cash:

	September 30, 2018	December 31, 2017
	(In thousands)	
Cash pledged as collateral to other financial institutions to secure:		
Derivatives	\$ 1,980	\$ 1,980
Obligations under agreement of loans sold with recourse	1,050	1,050
	\$ 3,030	\$ 3,030

At both September 30, 2018 and December 31, 2017, the Bank's international banking entities, OIB and Oriental Overseas, a division of the Bank, held an unencumbered certificate of deposit and other short-term highly liquid securities in the amount of \$300 thousand and \$325 thousand, respectively, as the legal reserve required for international banking entities under Puerto Rico law. These instruments cannot be withdrawn or transferred by OIB or Oriental Overseas without prior written approval of the Office of the Commissioner of Financial Institutions of Puerto Rico (the "OCFI").

As part of its derivative activities, Oriental has entered into collateral agreements with certain financial counterparties. At both September 30, 2018 and December 31, 2017, Oriental had delivered approximately \$2.0 million of cash as collateral for such derivatives activities.

Oriental has a contract with FNMA which requires collateral to guarantee the repurchase, if necessary, of loans sold with recourse. At both September 30, 2018 and December 31, 2017, Oriental delivered as collateral cash amounting to approximately \$1.1 million.

The Bank is required by Puerto Rico law to maintain average weekly reserve balances to cover demand deposits. The amount of those minimum average reserve balances for the week that covered September 30, 2018 was \$212.7 million (December 31, 2017 - \$189.2 million). At September 30, 2018 and December 31, 2017, the Bank complied with this requirement. Cash and due from bank as well as other short-term, highly liquid securities, are used to cover the required average reserve balances.

OFG BANCORP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

NOTE 4 – INVESTMENT SECURITIES

Money Market Investments

Oriental considers as cash equivalents all money market instruments that are not pledged and that have maturities of three months or less at the date of acquisition. At September 30, 2018 and December 31, 2017, money market instruments included as part of cash and cash equivalents amounted to \$5.8 million and \$7.0 million, respectively.

Investment Securities

The amortized cost, gross unrealized gains and losses, fair value, and weighted average yield of the securities owned by Oriental at September 30, 2018 and December 31, 2017 were as follows:

			September 30, 2018

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

During the nine month-period ended September 30, 2018, Oriental sold \$14.7 million of available-for-sale Government National Mortgage Association (“GNMA”) certificates from its recurring mortgage loan origination and securitization activities. These sales did not realize any gains or losses during such period. During the nine-month period ended September 30, 2017, Oriental sold \$166.0 million of mortgage-backed securities and \$84.1 million of US Treasury securities, and recorded a net gain on sale of securities of \$6.9 million.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Oriental performs valuations of the investment securities on a monthly basis. Moreover, Oriental conducts quarterly reviews to identify and evaluate each investment in an unrealized loss position for other-than-temporary impairment. Any portion of a decline in value associated with credit loss is recognized in the statements of operations with the remaining noncredit-related component recognized in other comprehensive income (loss). A credit loss is determined by assessing whether the amortized cost basis of the security will be recovered by comparing the present value of cash flows expected to be collected from the security, discounted at the rate equal to the yield used to accrete current and prospective beneficial interest for the security. The shortfall of the present value of the cash flows expected to be collected in relation to the amortized cost basis is considered to be the "credit loss." Other-than-temporary impairment analysis is based on estimates that depend on market conditions and are subject to further change over time. In addition, while Oriental believes that the methodology used to value these exposures is reasonable, the methodology is subject to continuing improvement, including those made as a result of market developments. Consequently, it is reasonably possible that changes in estimates or conditions could result in the need to recognize additional other-than-temporary impairment charges in the future.

All of the investments (\$1.2 billion, amortized cost) with an unrealized loss position at September 30, 2018 consist of securities issued or guaranteed by the U.S. Treasury or U.S. government-sponsored agencies, all of which are highly liquid securities that have a large and efficient secondary market. Their aggregate losses and their variability from period to period are the result of changes in market conditions, and not due to the repayment capacity or creditworthiness of the issuers or guarantors of such securities.

NOTE 5 - LOANS

Oriental's loan portfolio is composed of two segments, loans initially accounted for under the amortized cost method (referred to as "originated and other" loans) and loans acquired (referred to as "acquired" loans). Acquired loans are further segregated between acquired BBVAPR loans and acquired Eurobank loans.

The composition of Oriental's loan portfolio at September 30, 2018 and December 31, 2017 was as follows:

OFG BANCORP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

As a result of the devastation caused by hurricanes Irma and Maria, Oriental offered an automatic three-month moratorium for the payment due on certain loans. The level of delinquencies for mortgage and auto loans as of December 31, 2017 was impacted by the loan moratorium. Aging of current and early delinquent loans in moratorium were frozen at September 30, 2017, throughout the moratorium period. In addition, although the repayment schedule was modified as part of the moratorium, certain borrowers continued to make payments shortly after the moratorium, having an impact on the respective delinquency status at December 31, 2017. At September 30, 2018, all of the loan moratoriums have expired, and total delinquency levels have returned to pre-hurricane levels with some improvements.

Originated and Other Loans and Leases Held for Investment

Oriental's originated and other loans held for investment are encompassed within four portfolio segments: mortgage, commercial, consumer, and auto and leasing.

The tables below present the aging of the recorded investment in gross originated and other loans held for investment at September 30, 2018 and December 31, 2017, by class of loans. Mortgage loans past due include delinquent loans in the GNMA buy-back option program. Servicers of loans underlying GNMA mortgage-backed securities must report as their own assets the defaulted loans that they have the option (but not the obligation) to repurchase, even when they elect not to exercise that option.

At September 30, 2018 and December 31, 2017, Oriental had a carrying balance of \$91.4 million and \$94.9 million, respectively, in originated and other loans held for investment granted to the Puerto Rico government, including its instrumentalities, public corporations and municipalities as part of the institutional commercial loan segment. All originated and other loans granted to the Puerto Rico government are general obligations of municipalities secured by ad valorem taxation, without limitation as to rate or amount, on all taxable property within the issuing municipalities. The good faith, credit and unlimited taxing power of each issuing municipality are pledged for the payment of its general obligations.

Acquired Loans

Acquired loans were initially measured at fair value and subsequently accounted for under either ASC 310-30 or ASC 310-20 (Non-refundable fees and Other Costs). We have acquired loans in the acquisitions of BBVAPR and Eurobank.

Acquired BBVAPR Loans

Accounted for under ASC 310-20 (Loans with revolving feature and/or acquired at a premium)

Credit cards, retail and commercial revolving lines of credits, floor plans and performing auto loans with FICO scores over 660 acquired at a premium are accounted for under the guidance of ASC 310-20, which requires that any contractually required loan payment receivable in excess of Oriental's initial investment in the loans be accreted into interest income on a level-yield basis over the life of the loan. Loans accounted for under ASC 310-20 are placed on non-accrual status when past due in accordance with Oriental's non-accrual policy, and any accretion of discount or amortization of premium is discontinued. Acquired BBVAPR loans that were accounted for under the provisions of ASC 310-20 are removed from the acquired loan category at the end of the reporting period upon refinancing, renewal or normal re-underwriting.

OFG BANCORP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

The following tables present the aging of the recorded investment in gross acquired BBVAPR loans accounted for under ASC 310-20 as of September 30, 2018 and December 31, 2017, by class of loans:

Acquired BBVAPR loans, except for credit cards, retail and commercial revolving lines of credits, floor plans and performing auto loans with FICO scores over 660 acquired at a premium, are accounted for by Oriental in accordance with ASC 310-30.

Edgar Filing: OFG BANCORP - Form 10-Q

The carrying amount corresponding to acquired BBVAPR loans with deteriorated credit quality, including those accounted under ASC 310-30 by analogy, in the statements of financial condition at September 30, 2018 and December 31, 2017 is as follows:

		September 30, 2018		December 31, 2017
			(In thousands)	
Contractual required payments receivable:	\$	1,340,064	\$	1,481,616
Less: Non-accretable discount		347,173		352,431
Cash expected to be collected		992,891		1,129,185
Less: Accretable yield		278,394		308,913
Carrying amount, gross		714,497		820,272
Less: allowance for loan and lease losses		43,875		45,755
Carrying amount, net	\$	670,622	\$	774,517

OFG BANCORP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

At September 30, 2018 and December 31, 2017, Oriental had \$44.0 million and \$50.3 million, respectively, in loans granted to Puerto Rico municipalities as part of its acquired BBVAPR loans accounted for under ASC 310-30. These loans are primarily secured municipal general obligations.

The following tables describe the accretable yield and non-accretable discount activity of acquired BBVAPR loans accounted for under ASC 310-30 for the quarters and nine-month periods ended September 30, 2018 and 2017:

	Quarter Ended September 30, 2018

Credit cards	443	1,310
Personal loans	58	45
	501	1,355
Auto	202	179
Total non-accrual acquired BBVAPR loans accounted for under ASC 310-20	1,683	2,804
Total non-accrual loans	\$ 120,789	\$ 99,714

Loans accounted for under ASC 310-30 are excluded from the above table as they are considered to be performing due to the application of the accretion method, in which these loans will accrete interest income over the remaining life of the loans using estimated cash flow analyses or are accounted under the cost recovery method.

Delinquent residential mortgage loans insured or guaranteed under applicable FHA and VA programs are classified as non-performing loans when they become 90 days or more past due, but are not placed in non-accrual status until they become 12 months or more past due, since they are insured loans. Therefore, these loans are included as non-performing loans but excluded from non-accrual loans. In addition, these loans are excluded from the impairment analysis.

At September 30, 2018 and December 31, 2017, loans whose terms have been extended and which are classified as troubled-debt restructurings that are not included in non-accrual loans amounted to \$97.7 million and \$109.2 million, respectively, as they are performing under their new terms.

At September 30, 2018 and December 31, 2017, loans that are current in their monthly payments, but placed in non-accrual due to credit deterioration amounted to \$23.6 million and \$20.1 million, respectively.

OFG BANCORP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Impaired Loans

Oriental evaluates all loans, some individually and others as homogeneous groups, for purposes of determining impairment. The total investment in impaired commercial loans that were individually evaluated for impairment was \$69.6 million and \$72.3 million at September 30, 2018 and December 31, 2017, respectively. The impairments on these commercial loans were measured based on the fair value of collateral or the present value of cash flows, including those identified as troubled-debt restructurings. The allowance for loan and lease losses for these impaired commercial loans amounted to \$7.6 million and \$10.6 million at September 30, 2018 and December 31, 2017, respectively. The total investment in impaired mortgage loans that were individually evaluated for impairment was \$85.1 million and \$85.4 million at September 30, 2018 and December 31, 2017, respectively. Impairment on mortgage loans assessed as troubled-debt restructurings was measured using the present value of cash flows. The allowance for loan losses for these impaired mortgage loans amounted to \$10.6 million and \$9.1 million at September 30, 2018 and December 31, 2017, respectively.

Originated and Other Loans and Leases Held for Investment

Oriental's recorded investment in commercial and mortgage loans categorized as originated and other loans and leases held for investment that were individually evaluated for impairment and the related allowance for loan and lease losses at September 30, 2018 and 2017 are as follows:

	Unpaid Principal	September 30, 2018 Recorded Investment (In thousands)		Related Allowance	Coverage
Impaired loans with specific allowance:

Credit Quality Indicators

Oriental categorizes originated and other loans and acquired loans accounted for under ASC 310-20 into risk categories based on relevant information about the ability of borrowers to service their debt, such as economic conditions, portfolio risk characteristics, prior loss experience, and the results of periodic credit reviews of individual loans.

Oriental uses the following definitions for risk ratings:

Pass: Loans classified as “pass” have a well-defined primary source of repayment very likely to be sufficient, with no apparent risk, strong financial position, minimal operating risk, profitability, liquidity and capitalization better than industry standards.

Special Mention: Loans classified as “special mention” have a potential weakness that deserves management’s close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or of the institution’s credit position at some future date.

Substandard: Loans classified as “substandard” are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected.

Doubtful: Loans classified as “doubtful” have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, questionable and improbable.

Loss: Loans classified as “loss” are considered uncollectible and of such little value that their continuance as bankable assets is not warranted. This classification does not mean that the asset has absolutely no recovery or salvage value, but rather that it is not practical or desirable to defer writing off this worthless loan even though partial recovery may be effected in the future.

Loans not meeting the criteria above that are analyzed individually as part of the above described process are considered to be pass rated loans.

NOTE 6 – ALLOWANCE FOR LOAN AND LEASE LOSSES

The composition of Oriental's allowance for loan and lease losses at September 30, 2018 and December 31, 2017 was as follows:

	September 30, 2018	December 31, 2017
	(In thousands)	
Allowance for loans and lease losses:		
Originated and other loans and leases held for investment:		
Mortgage	\$ 19,545	\$ 20,439
Commercial	32,491	30,258
Consumer	15,715	16,454
Auto and leasing	27,485	25,567
Total allowance for originated and other loans and lease losses	95,236	92,718
Acquired BBVAPR loans:		
Accounted for under ASC 310-20 (Loans with revolving feature and/or acquired at a premium)		
Commercial	17	42
Consumer	2,140	3,225
Auto	193	595
	2,350	3,862
Accounted for under ASC 310-30 (Loans acquired with deteriorated credit quality, including those by analogy)		
Mortgage	15,258	14,085
Commercial	22,256	23,691
Consumer	18	18
Auto	6,343	7,961
	43,875	45,755
Total allowance for acquired BBVAPR loans and lease losses	46,225	49,617
Acquired Eurobank loans:		
Loans secured by 1-4 family residential properties	15,155	15,187
Commercial	9,122	9,983
Consumer	4	4
Total allowance for acquired Eurobank loan and lease losses	24,281	25,174
Total allowance for loan and lease losses	\$ 165,742	\$ 167,509

Oriental maintains an allowance for loan and lease losses at a level that management considers adequate to provide for probable losses based upon an evaluation of known and inherent risks. Oriental's allowance for loan and lease losses policy provides for a detailed quarterly analysis of probable losses. The analysis includes a review of historical loan loss experience, value of underlying collateral, current economic conditions, financial condition of borrowers and other pertinent factors. While management uses available information in estimating probable loan losses, future additions to the allowance may be required based on factors beyond Oriental's control. We also maintain an allowance for loan losses on acquired loans when: (i) for loans accounted for under ASC 310-30, there is deterioration in credit quality subsequent to acquisition, and (ii) for loans accounted for under ASC 310-20, the inherent losses in the loans exceed the remaining credit discount recorded at the time of acquisition.

OFG BANCORP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

As discussed in Note 2, during 2017, hurricanes Irma and Maria caused catastrophic damages throughout Puerto Rico. Management performed an evaluation of the loan portfolios to assess the impact on repayment sources and underlying collateral that could result in additional losses.

For the commercial portfolio, the framework for the analysis was based on our current ALLL methodology with additional considerations according to the estimated impact categorized as low, medium or high. From this impact assessment, additional reserve levels were estimated by increasing default probabilities (“PD”) and loss given default expectations (“LGD”) of each allowance segment.

As part of the process, Oriental contacted its clients to evaluate the impact of the hurricanes on their business operations and collateral. The impact was then categorized as follows: (i) low risk, for clients that had no business impact or relatively insignificant impact; (ii) medium risk, for clients that had a business impact on their primary or secondary sources of repayment, but still had adequate cash flow to cover operations and to satisfy their obligations; or (iii) high risk, for clients that had potentially significant problems that affected primary, secondary and tertiary (collateral) sources of repayment. This criterion was used to model adjusted PDs and LGDs considering internal and external sources of information available to support our estimation process and output.

During the fourth quarter of 2017, Oriental performed an update of the initial estimate, taking into consideration the most recent available information gathered through additional visits and interviews with clients and the economic environment in Puerto Rico.

For the retail portfolios, mortgage, consumer and auto, the assumptions established in the initial estimate were based on the historical losses of each ALLL segment and then further adjusted based on parameters used as key risk indicators, such as the industry of employment for all portfolios and the location of the collateral for mortgage loans. During the fourth quarter of 2017, Oriental performed additional procedures to evaluate the reasonability of the initial estimate based on the payment experience percentage of borrowers for which the deferral period expired. The analysis took into consideration historical payment behavior and loss experience of borrowers (PDs and LGDs) of each portfolio segment to develop a range of estimated potential losses. Management understands that this approach is reasonable given the lack of historical information related to the behavior of local borrowers in such an unprecedented event. The amount used in the analysis represents the average of potential outcomes of expected losses.

During the first quarter of 2018, Oriental updated the previous performed analysis to estimate probable losses related to the hurricanes. Analyses were based on the payment experience percentage of borrowers for which the deferral period expired in retail portfolios. For commercial portfolio, no changes in the level of impact assessed were identified based on communications with credit officers. During the second and third quarter of 2018, Oriental continued its

monitoring process of the performance of those affected borrowers. As information became available, it was incorporated into the allowance framework.

At September 30, 2018 and December 31, 2017, Oriental's allowance for loan and lease losses incorporated all risks associated to our loan portfolio, including the impact of hurricanes Irma and Maria.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

Loans Accounted for under ASC 310-30 (including those accounted for under ASC 310-30 by analogy)

For loans accounted for under ASC 310-30, as part of the evaluation of actual versus expected cash flows, Oriental assesses on a quarterly basis the credit quality of these loans based on delinquency, severity factors and risk ratings, among other assumptions. Migration and credit quality trends are assessed at the pool level, by comparing information from the latest evaluation period through the end of the reporting period.

The following tables present the activity in our allowance for loan losses and related recorded investment of the acquired BBVAPR loan portfolio accounted for under ASC 310-30 for the periods indicated:

		Quarter Ended September 30, 2018
