**NON-GAAP FINANCIAL MEASURES**

The SEC has adopted rules to regulate the use in filings with the Securities and Exchange Commission (the "SEC") and in public disclosures of "non-GAAP financial measures." These measures are derived on the basis of methodologies other than in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

We present pretax core earnings (loss), as described under "Summary Summary Consolidated Financial Data," as a non-GAAP financial measure in this prospectus supplement and accompanying prospectus. Pretax core earnings (loss) is a key performance measure used by management in evaluating the performance of our Core Consumer Operations. Pretax core earnings (loss) represents our income (loss) before provision for (benefit from) income taxes on a historical accounting basis, and excludes results of operations from our Real Estate segment and other non-core, non-originating legacy operations, restructuring expenses related to Consumer and Insurance segments, gains (losses) associated with accelerated long-term debt repayment and repurchases of long-term debt, and impact from change in accounting estimate. Pretax core earnings (loss) is a non-GAAP measure and should be considered in addition to, but not as a substitute for or superior to, operating income, net income, operating cash flow and other measures of financial performance prepared in accordance with U.S. GAAP. Under "Summary Summary Consolidated Financial Data" herein, we include a quantitative reconciliation from income (loss) before provision for (benefit from) income taxes on a historical accounting basis to pretax core earnings (loss).

We also present our segment financial information on a historical accounting basis (a non-GAAP measure using the same accounting basis that we employed prior to the Fortress Acquisition (as defined below)). This presentation provides us and other interested third parties a consistent basis to better understand our operating results. This presentation is not in accordance with, or a substitute for, U.S. GAAP and may be different from, or inconsistent with, non-GAAP financial measures used by other companies. See Note 22 of the Notes to Consolidated Financial Statements in SHI's Annual Report on Form 10-K for the year ended December 31, 2013, Note 16 of the Notes to Condensed Consolidated Financial Statements in SHI's Quarterly Report on Form 10-Q for the quarter ended September 30, 2014, Note 23 of the Notes to Consolidated Financial Statements in SFC's Annual Report on Form 10-K for the year ended December 31, 2013 and Note 16 of the Notes to Condensed Consolidated Financial Statements in SFC's Quarterly Report on Form 10-Q for the quarter ended September 30, 2014, which are incorporated by reference herein, for reconciliations of segment information on a historical accounting basis to consolidated financial statement amounts.

**INDUSTRY AND MARKET DATA**

We obtained the market and competitive position data used throughout this prospectus supplement and accompanying prospectus from our own research, surveys or studies conducted by third parties and industry or general publications. Industry publications and surveys generally state that they have obtained information from sources believed to be reliable, but do not guarantee the accuracy and completeness of such information. While we believe that each of these studies and publications is reliable, neither we nor the underwriters have independently verified such data and neither we nor the underwriters make any representation as to the accuracy of such information. Similarly, we believe our internal research is reliable, but it has not been verified by any independent sources.

**FORWARD-LOOKING STATEMENTS**

This prospectus supplement and the accompanying prospectus and the documents incorporated by reference herein and therein contain or incorporate by reference certain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 that reflect our current views with respect to, among other things, future events and financial performance. You can identify these forward-looking statements by the use of forward-looking words such as "outlook," "believes," "expects," "potential," "continues," "may," "will," "should," "could," "seeks," "approximately," "predicts," "intends," "plans," "estimates," "anticipates," "target," "projects," "contemplates" or the negative version of those words or other comparable words. Any forward-looking statements contained or incorporated by reference in this prospectus supplement and the accompanying prospectus and the documents incorporated by reference herein and therein are based upon our historical performance and on our current plans, estimates and expectations in light of information currently available to us. Such forward-looking statements are subject to various risks and uncertainties and assumptions relating to our operations, financial results, financial condition, business, prospects, growth strategy and liquidity. Accordingly, there are or will be important factors that could cause our actual results to differ materially from those indicated in these statements. As set forth more fully under "Part I, Item 1A. Risk Factors" in SHI's most recent Annual Report on Form 10-K and SFC's most recent Annual Report on Form 10-K, which are incorporated by reference herein, factors that could have a material adverse effect on our operations and future prospects include, but are not limited to:

changes in general economic conditions, including the interest rate environment in which we conduct business and the financial markets through which we can access capital and also invest cash flows from our insurance segment;

levels of unemployment and personal bankruptcies;

natural or accidental events such as earthquakes, hurricanes, tornadoes, fires, or floods affecting our customers, collateral, or branches or other operating facilities;

war, acts of terrorism, riots, civil disruption, pandemics, or other events disrupting business or commerce;

the effect of future sales of our remaining portfolio of real estate loans and the transfer of servicing for these loans;

changes in the rate at which we can collect or potentially sell our finance receivables portfolio;

the effectiveness of our credit risk scoring models in assessing the risk of customer unwillingness or lack of capacity to repay;

changes in our ability to attract and retain employees or key executives to support our businesses;

changes in the competitive environment in which we operate, including the demand for our products, customer responsiveness to our distribution channels, and the strength and ability of our competitors to operate independently or to enter into business combinations that result in a more attractive range of customer products or provide greater financial resources;

shifts in collateral values, delinquencies, or credit losses;

changes in federal, state and local laws, regulations, or regulatory policies and practices, including the Dodd-Frank Wall Street Reform and Consumer Protection Act (which, among other things, established the Consumer Financial Protection Bureau, which has broad authority to regulate and examine financial institutions), that affect our ability to conduct

business or the manner in which we conduct business, such as licensing requirements, pricing limitations or restrictions on the method of offering products, as well as changes that may result from increased regulatory scrutiny of the sub-prime lending industry;

potential liability relating to real estate and personal loans which we have sold or may sell in the future, or relating to securitized loans, if it is determined that there was a non-curable breach of a warranty made in connection with such transactions;

the costs and effects of any litigation or governmental inquiries or investigations involving us, particularly those that are determined adversely to us;

our continued ability to access the capital markets or the sufficiency of our current sources of funds to satisfy our cash flow requirements;

our ability to comply with our debt covenants;

our ability to generate sufficient cash to service all of our indebtedness;

our substantial indebtedness, which could prevent us from meeting our obligations under our debt instruments and limit our ability to react to changes in the economy or our industry, or our ability to incur additional borrowings;

the potential for downgrade of our debt by rating agencies, which would have a negative impact on our cost of, and access to, capital;

the impacts of our securitizations and borrowings;

our ability to maintain sufficient capital levels in our regulated and unregulated subsidiaries;

the material weakness that we have identified in our internal control over financial reporting; and

changes in accounting standards or tax policies and practices and the application of such new policies and practices to the manner in which we conduct business.

The forward-looking statements made or incorporated by reference in this prospectus supplement and the accompanying prospectus and the documents incorporated by reference herein and therein relate only to events as of the date on which the statements are made. We do not undertake any obligation to publicly update or review any forward-looking statement except as required by law, whether as a result of new information, future developments or otherwise.

If one or more of these or other risks or uncertainties materialize, or if our underlying assumptions prove to be incorrect, our actual results may vary materially from what we may have expressed or implied by these forward-looking statements. We caution that you should not place undue reliance on any of our forward-looking statements. You should specifically consider the factors identified in this prospectus that could cause actual results to differ before making an investment decision to purchase our securities. Furthermore, new risks and uncertainties arise from time to time, and it is impossible for us to predict those events or how they may affect us.

We are a leading consumer finance company providing responsible loan products to customers through our branch network. We have a nearly 100-year track record of high quality origination, underwriting and servicing of personal loans, primarily to non-prime consumers. Our deep understanding of local markets and customers, together with our proprietary underwriting process and data analytics, allow us to price, manage and monitor risk effectively through changing economic conditions. With an experienced management team, a strong balance sheet, proven access to the capital markets and strong demand for consumer credit, we believe we are well positioned for future growth.

We staff each of our branch offices with local, well-trained personnel who have significant experience in the industry and with Springleaf. Our business model revolves around an effective origination, underwriting, and servicing process that leverages each branch office's local presence in these communities along with the personal relationships developed with our customers. Credit quality is also driven by our long-standing underwriting philosophy, which takes into account each prospective customer's household budget, and his or her willingness and capacity to repay the loan.

In connection with our personal loan business, our two insurance subsidiaries offer our customers credit and non-credit insurance policies covering our customers and the property pledged as collateral for our personal loans.

As of September 30, 2014, we had \$6.4 billion of net finance receivables due from over 1.3 million customer accounts.

**Our Corporate History and Corporate Information**

In November 2010, an affiliate of Fortress Investment Group LLC ("Fortress") indirectly acquired (the "Fortress Acquisition") an 80% economic interest in SFI, a financial services holding company, from an affiliate of American International Group, Inc. ("AIG"). Following the Fortress Acquisition, AIG indirectly retained a 20% economic interest in SFI. All of the common stock of SFC is owned by SFI. Following a restructuring completed in connection with the initial public offering of SHI, all of the common stock of SFI is owned by SHI.

SFC was incorporated in Indiana in 1927 as successor to a business started in 1920. SFI was incorporated in Indiana in 1974. SHI was incorporated in Delaware in 2013. In October 2013, SHI completed an initial public offering of its common stock. As of the date of this prospectus, Springleaf Financial Holdings, LLC (the "Initial Stockholder") owns approximately 75.0% of SHI's common stock. The Initial Stockholder is owned primarily by a private equity fund managed by an affiliate of Fortress, a leading global investment manager that offers alternative and traditional investment products, and AIG Capital Corporation, a subsidiary of AIG.

**Potential Acquisitions**

We regularly consider strategic acquisitions and have been involved in transactions of various magnitudes involving a variety of forms of consideration and financing. Currently, we are evaluating a number of strategic acquisition opportunities, including one opportunity we are currently pursuing which, if consummated, would be the most significant acquisition transaction undertaken by the Company to date. Affiliates of the underwriters may provide advisory services to us or the sellers in connection with any such acquisition and may provide financing for any such acquisition. The purchase price for possible acquisitions could be financed through debt securities (which may be secured), bank borrowings, securitizations, the issuance of equity and/or a combination thereof, the effect of which may adversely affect the trading value of the notes offered hereby. We cannot predict if any such acquisitions will be consummated, the timing of any such acquisitions or, if consummated, whether they will result in a financial or other benefit to the Company. See the discussion under the heading "Risk Factors" There are risks associated with the acquisition of large loan portfolios, such as the SpringCastle Portfolio, including the possibility of increased delinquencies and losses, difficulties with integrating the loans into our servicing platform and disruption to our ongoing business, which could have a material adverse effect on our results of operations, financial condition and liquidity" in our Annual Report on Form 10-K for the year ended December 31, 2013 filed with the SEC for additional information.

Provision for finance receivable losses consists of the allowance for finance receivable losses adjustments and net charge-offs quantified in the table below. Allowance for finance receivable losses adjustments reflects the net difference between our allowance adjustment requirements calculated under our historical accounting basis, net of adjustments required under push-down accounting basis. Net charge-offs reflects the net charge-off of loans at a higher carrying value under historical accounting basis versus the discounted basis to their fair value at date of the Fortress Acquisition under push-down accounting basis.

- (e) Fair value adjustments on debt reflect differences between historical accounting basis and push-down accounting basis relating to fair value adjustments to long-term debt associated with securitizations that were issued at a discount or revalued at a discount based on its fair value at the time of the Fortress Acquisition.
- (f) Sales of finance receivables held for sale originated as held for investment adjustments reflect the reversal of the remaining unaccreted push-down accounting basis for net finance receivables, less allowance for finance receivable losses established at the date of the Fortress Acquisition that were sold in the 2014 period.
- (g) Amortization of other intangible assets reflects the amortization over the remaining estimated life of intangible assets established at the date of the Fortress Acquisition as a result of the application of push-down accounting.
- (h) "Other" items reflects less significant differences between historical accounting basis and push-down accounting basis relating to various items such as the elimination of deferred charges, adjustments to the basis of other real estate assets, fair value adjustments to fixed assets, adjustments to insurance claims and policyholder liabilities, and various other differences all as of the date of the Fortress Acquisition.

At September 30, 2014 and December 31, 2013, the remaining un-accreted push-down basis totaled \$5.3 million and \$631.3 million, respectively, for net finance receivables, less allowance for finance receivable losses and \$616.1 million and \$733.9 million, respectively, for long-term debt.

#### **Reconciliation of Income (Loss) before Provision for (Benefit from) Income Taxes on Historical Accounting Basis to Pretax Core Earnings**

Pretax core earnings is a key performance measure used by management in evaluating the performance of our Core Consumer Operations. Pretax core earnings represents our income (loss) before benefit from income taxes on a historical accounting basis and excludes results of operations from our non-core portfolio (Real Estate) and other non-originating legacy operations, restructuring expenses related to Consumer and Insurance, gains (losses) resulting from accelerated long-term debt repayment and repurchases of long-term debt related to Consumer, gains (losses) on fair value adjustments on debt related to Core Consumer Operations (attributable to SHI), and results of operations attributable to non-controlling interests. Pretax core earnings provide us with a key measure of our Core Consumer Operations' performance as it assists us in comparing its performance on a consistent basis. Management believes pretax core earnings is useful in assessing the profitability of our core business and uses pretax core earnings in evaluating our operating performance. Pretax core earnings is a non-GAAP measure and should be considered in addition to, but not as a substitute for

**RISK FACTORS**

*In addition to the other information included or incorporated by reference in this prospectus supplement and the accompanying prospectus, including the matters addressed under "Forward-Looking Statements," you should carefully consider the following risks before investing in the notes. You should also read the risk factors and other cautionary statements, including those described under the sections entitled "Risk Factors" in SHI's most recent Annual Report on Form 10-K and Quarterly Reports on Form 10-Q and SFC's most recent Annual Report on Form 10-K and Quarterly Reports on Form 10-Q, which are incorporated by reference in this prospectus supplement and the accompanying prospectus.*

*We are subject to certain risks and hazards due to the nature of the business activities we conduct. The risks discussed below and incorporated by reference in this prospectus supplement and the accompanying prospectus, any of which could materially and adversely affect our business, financial condition, liquidity, results of operations and prospects, are not the only risks we face. We may experience additional risks and uncertainties not currently known to us or, as a result of developments occurring in the future, conditions that we currently deem to be immaterial may also materially and adversely affect our business, financial condition, liquidity, results of operations and prospects.*

**RISKS RELATED TO THE NOTES**

***If current market conditions deteriorate and our financial performance does not improve, we may not be able to generate sufficient cash to service all of our indebtedness, including the notes offered hereby, and we may be forced to take other actions to satisfy our obligations under our indebtedness, which may not be successful.***

Our ability to make scheduled payments or to refinance our debt obligations, including the notes offered hereby, depends on our financial and operating performance, which is subject to prevailing economic and competitive conditions and to certain financial, business, and other factors beyond our control.

Continued challenging economic conditions have negatively affected our financial condition and results of operations. Current economic conditions have negatively affected the markets in which we conduct our business and the capital markets on which we depend to finance our operation. If current market conditions deteriorate and our financial performance does not improve, we may not be able to generate sufficient cash to service our debt. At September 30, 2014, we had \$2.0 billion of cash and cash equivalents and during the nine months ended September 30, 2014 we generated net income of \$551.5 million and net cash inflow from operating and investing activities of \$3.1 billion. At September 30, 2014, our remaining principal and interest payments for 2014 on our existing debt (excluding securitizations) totaled \$483.8 million. As of September 30, 2014, we had unpaid principal balances of \$1.9 billion of unencumbered personal loans and \$713.2 million of unencumbered real estate loans. We intend to support our liquidity position by pursuing additional debt financings (including new securitizations and new debt issuances, debt refinancing transactions and standby funding facilities), or a combination of the foregoing.

We cannot give any assurance that we would be able to take any of these actions, that these actions would be successful even if undertaken, that these actions would permit us to meet our scheduled debt obligations, or that these actions would be permitted under the terms of our existing or future debt agreements. In the absence of sufficient cash resources, we could face substantial liquidity problems and might be required to dispose of material assets or operations to meet our debt and other obligations.

Further, our ability to refinance our debt on attractive terms or at all, as well as the timing of any refinancings, depends upon a number of factors over which we have little or no control, including general economic conditions, such as unemployment levels, housing markets and interest rates, disruptions in the financial markets, the market's view of the quality, value, and liquidity of our assets,

Table of Contents

our current and potential future earnings and cash flows, and our credit ratings. In addition, any financing, particularly any securitization, that is reviewed by a rating agency is subject to the rating agency's view of the quality and value of any assets supporting such financing, our processes to generate cash flows from, and monitor the status of, such assets, and changes in the methodology used by the rating agencies to review and rate the applicable financing. This process may require significant time and effort to complete and may not result in a favorable rating or any rating at all, which could reduce the effectiveness of such financing or render it unexecutable.

If we cannot make scheduled payments on our debt, we will be in default and, as a result our debt holders could declare all outstanding principal and interest to be due and payable, which could also result in an event of default and declaration of acceleration under certain of our other debt agreements.

***Our indebtedness is significant, which could affect our ability to meet our obligations under our debt instruments and could materially and adversely affect our business and our ability to react to changes in the economy or our industry.***

We currently have a significant amount of indebtedness. As of September 30, 2014, after giving effect to the offering of the notes and the repurchase transactions, we would have had \$8.8 billion of indebtedness outstanding (including securitizations and secured indebtedness). Interest expense on our indebtedness was \$576.9 million for the nine months ended September 30, 2014. There can be no assurance that we will be able to repay or refinance our debt in the future.

The amount of indebtedness could have important consequences, including the following:

it may require us to dedicate a significant portion of our cash flow from operations to the payment of the principal of, and interest on, our indebtedness, which reduces the funds available for other purposes, including finance receivable originations;

it could limit our ability to withstand competitive pressures and reduce our flexibility in responding to changing regulatory, business and economic conditions;

it may limit our ability to incur additional borrowings or securitizations for working capital, capital expenditures, business development, debt service requirements, acquisitions or general corporate or other purposes, or to refinance our indebtedness;

it may require us to seek to change the maturity, interest rate and other terms of our existing debt;

it may cause a further downgrade of our debt and long-term corporate ratings; and

it may cause us to be more vulnerable to periods of negative or slow growth in the general economy or in our business.

In addition, meeting our anticipated liquidity requirements is contingent upon our continued compliance with our existing debt agreements. An event of default or declaration of acceleration under one of our existing debt agreements could also result in an event of default and declaration of acceleration under certain of our other existing debt agreements. Such an acceleration of our debt would have a material adverse effect on our liquidity and our ability to continue as a going concern.

Furthermore, our existing debt agreements do not restrict us from incurring significant additional indebtedness. If our debt obligations increase, whether due to the increased cost of existing indebtedness or the incurrence of additional indebtedness, the consequences described above could be magnified.

Table of Contents

***The limited covenants applicable to the notes may not provide protection against some events or developments that may affect our ability to repay the notes or the trading prices for the notes.***

The indenture governing the notes, among other things, does not:

require us to maintain any financial ratios or specific levels of net worth, revenues, income, cash flow or liquidity and, accordingly, does not protect holders of the notes in the event that we experience significant adverse changes in our financial condition or results of operations;

limit our ability to incur indebtedness, including secured indebtedness (subject to compliance with the lien covenant);

limit our ability to sell assets (except as described below) or restrict the use of proceeds from such sale;

limit SFC's subsidiaries' ability to incur indebtedness, which would be structurally senior to the notes;

restrict our ability to repurchase or prepay our securities;

restrict our ability to enter into transactions with our affiliates;

restrict our ability to make investments or to repurchase or pay dividends or make other payments in respect of our common stock or other securities; or

restrict our ability to engage in any acquisition or other transaction, other than our ability to merge or consolidate with, or sell all or substantially all of our assets to, another person without the surviving or transferring person (if other than SFC) assuming the obligations under the notes.

Furthermore, we are subject to periodic review by independent credit rating agencies. An increase in the level of our outstanding indebtedness, or other events that could have an adverse impact on our business, properties, financial condition, results of operations or prospects, may cause the rating agencies to downgrade our debt credit rating generally, and the ratings on the notes, which could adversely impact the trading prices for, or the liquidity of, the notes. Any such downgrade could also adversely affect our cost of borrowing, limit our access to the capital markets or result in more restrictive covenants in future debt agreements.

***Redemption may adversely affect your return on the notes.***

We have the right to redeem some or all of the notes prior to maturity, as described under "Description of the Notes - Optional Redemption." We may redeem the notes at times when prevailing interest rates may be relatively low. Accordingly, you may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the notes.

***Our credit ratings may not reflect all risks of an investment in the notes.***

The credit ratings assigned to the notes may not reflect the potential impact of all risks related to trading markets, if any, for, or trading value of, your notes. In addition, real or anticipated changes in our credit ratings will generally affect any trading market, if any, for, or trading value of, your notes. Accordingly, you should consult your own financial and legal advisors as to the risks entailed by an investment in the notes and the suitability of investing in the notes in light of your particular circumstances.

Table of Contents

***Claims of noteholders will be structurally subordinated to the existing and future obligations of SFC's subsidiaries because they will not guarantee the notes.***

The notes will not be guaranteed by any of SFC's subsidiaries. Accordingly, claims of holders of the notes will be structurally subordinated to the existing and future obligations of SFC's subsidiaries. All obligations of SFC's subsidiaries will have to be satisfied before any of the assets of such subsidiaries would be available for distribution, upon a liquidation or otherwise, to SFC.

SFC's subsidiaries accounted for substantially all of its revenues and assets as of and for the year ended December 31, 2013 and the nine months ended September 30, 2014.

***The notes are unsecured, and consequently the notes will be effectively subordinated to any existing and future secured indebtedness.***

The notes are unsecured and will be effectively junior to all of SFC's senior secured indebtedness, as well as any future secured indebtedness SFC may incur, to the extent of the value of the assets securing such indebtedness. In addition, the guarantee from SHI is unsecured and will be effectively junior to any existing or future secured indebtedness of SHI to the extent of the value of the assets securing such indebtedness. We may also incur additional secured indebtedness in the future. Upon any distribution to our creditors in a bankruptcy, liquidation or reorganization or similar proceeding relating to us or our property, the holders of our secured debt will be entitled to exercise the remedies available to a secured lender under applicable law and pursuant to the instruments governing such debt and to be paid in full from the assets securing that secured debt before any payment may be made with respect to the notes. In that event, because the notes will not be secured by any of our assets, it is possible that there will be no assets from which claims of holders of the notes can be satisfied or, if any assets remain, that the remaining assets will be insufficient to satisfy those claims in full or at all. If the value of such remaining assets is less than the aggregate outstanding principal amount of the notes and all other debt ranking *pari passu* with the notes, we may be unable to satisfy our obligations under the notes. In addition, if we fail to meet our payment or other obligations under any secured debt we have or may incur, the holders of such secured debt would be entitled to foreclose on our assets securing that secured debt and liquidate those assets. Accordingly, we may not have sufficient funds to pay amounts due on the notes. As a result, you may lose a portion of or the entire value of your investment in the notes.

***SFC is a holding company and is dependent on dividends and other distributions from its subsidiaries.***

SFC is a holding company with no direct operations. Its principal assets are the equity interests that it holds in its operating subsidiaries. As a result, it is dependent on dividends and other distributions or loans or advances from those subsidiaries to generate the funds necessary to meet its financial obligations, including the payment of principal and interest on the notes offered hereby. SFC's subsidiaries may not generate sufficient cash from operations to enable SFC to make principal and interest payments on its indebtedness, including the notes offered hereby. Furthermore, SFC's insurance subsidiaries are subject to policy holder protection regulations that may limit their ability to pay dividends or make loans or advances to SFC. Moreover, payments to SFC by its subsidiaries will be contingent upon its subsidiaries' earnings. SFC's subsidiaries are permitted under the terms of SFC's indebtedness, including the notes offered hereby, to incur additional indebtedness that may restrict payments from those subsidiaries to SFC. We cannot assure you that agreements governing current and future indebtedness of SFC's subsidiaries will permit those subsidiaries to provide SFC with sufficient cash to fund its debt service payments.

SFC's subsidiaries are legally distinct from it and have no obligation, contingent or otherwise, to pay amounts due on SFC's debt or to make funds available to SFC for such payment.

***Fortress is our controlling stockholder and there can be no assurance that Fortress will act in our best interests as opposed to their own best interests.***

Because of its position as our ultimate controlling stockholder, Fortress is able to exercise control over decisions affecting us, including:

our direction and policies, including the appointment and removal of officers;

mergers or other business combinations and opportunities involving us;

further issuance of capital stock or other equity or debt securities by us;

payment of dividends; and

approval of our business plans and general business development.

As of the date hereof, Fortress indirectly beneficially owns a 64% economic interest in us. The concentration of ownership held by Fortress could delay, defer or prevent a change of control of us or impede a merger, takeover or other business combination that may be otherwise favorable to us or to holders of notes offered hereby. In addition, Fortress and entities affiliated with Fortress may conduct business with any business that is competitive or in the same line of business as us, do business with any of our clients, customers or vendors, make investments in the kind of property in which we may make investments or acquire the same or similar types of assets that we may seek to acquire. Fortress is in the business of making or advising on investments in companies and may hold, and may from time to time in the future acquire, interests in or provide advice to businesses that directly or indirectly compete with certain portions of our business or are suppliers or customers of ours. Fortress may also pursue acquisitions that may be complementary to our business, and, as a result, those acquisition opportunities may not be available to us. So long as Fortress continues to beneficially own, indirectly or otherwise, a significant amount of our equity, even if such amount is less than 50%, Fortress will continue to be able to strongly influence or effectively control our decisions. As described above under "Risks Related to the Notes The limited covenants applicable to the notes may not provide protection against some events or developments that may affect our ability to repay the notes or the trading prices for the notes," we are not restricted under the indenture from entering into transactions with our affiliates. As such, Fortress will generally not be prohibited under the indenture from entering into transactions with us that may not be favorable to us or the holders of the notes offered hereby.

***Your ability to transfer the notes may be limited by the absence of an active trading market and restrictions on transfer under applicable securities laws, and there is no assurance that any active trading market will develop for the notes or that you will be able to transfer or resell notes without registration under applicable securities laws.***

The notes are a new issue of securities for which there is no established public market. The underwriters have advised us that they presently intend to make a market in the notes after completion of the offering, as permitted by applicable laws and regulations. However, the underwriters are not obligated to make a market in the notes, and may discontinue their market-making activities at any time without notice. Therefore, we cannot assure you that an active market for the notes will develop or, if developed, that it will continue. If an active trading market for the notes does not develop, the market price and liquidity of such notes may be adversely affected. The liquidity of any trading market in the notes, and the market price quoted for the notes, may be adversely affected by changes in the overall market for these types of securities and by changes in our financial performance or prospects or in the prospects for companies in our industry generally. In addition, as result of the repurchase transactions, ownership of the notes will be highly concentrated following the offering which could also adversely affect the liquidity of the notes.

Table of Contents

Historically, the market for non-investment grade debt, such as the notes, has been subject to disruptions that have caused substantial volatility in the prices of securities similar to the notes. We cannot assure you that the market, if any, for the notes will be free from similar disruptions, and any such disruptions may adversely affect the prices at which you may sell your notes. In addition, subsequent to their initial issuance, the notes may trade at a discount from its initial offering price depending upon prevailing interest rates, the market for similar notes, our performance or other factors.

**USE OF PROCEEDS**

We estimate that our net proceeds from the sale of the notes offered pursuant to this prospectus supplement will be approximately \$690.8 million, after deducting the estimated fees and expenses of this offering. We intend to use a portion of the net proceeds from this offering to repurchase approximately \$370 million principal amount of our outstanding 2017 notes at a premium to principal amount from certain beneficial owners of 2017 notes. Certain beneficial owners of 2017 notes have agreed to purchase notes in this offering in an aggregate principal amount of approximately \$441 million. We intend to use the remaining net proceeds for general corporate purposes, which may include further debt repurchases and possible acquisitions. See "Summary Repurchase Transactions." *1999 Indenture*

As of September 30, 2014, there was \$3.9 billion aggregate principal amount of notes issued and outstanding under the senior indenture (the "1999 Indenture"), by and between SFC and Citibank, N.A., as trustee, including the 2017 Notes. The rate of interest of the notes issued and outstanding under the 1999 Indenture ranged from 5.40% to 7.50% as of September 30, 2014, and the maturity of such outstanding notes ranged from 2015 to 2017. On December 30, 2013, SHI entered into a guaranty agreement whereby it agreed to fully and unconditionally guarantee the payment of principal of, premium (if any), and interest on all of the notes outstanding under the 1999 Indenture. The notes outstanding under the 1999 Indenture are unsecured and rank equally with all of SFC's other unsubordinated indebtedness. The covenants and events of default in the 1999 Indenture are substantially the same as those in the indenture under which the notes will be issued. See "Description of the Notes."

**Junior Subordinated Indenture**

As of September 30, 2014, SFC had \$350 million aggregate principal amount of 60-year junior subordinated debentures (the "debentures") outstanding under an indenture dated January 22, 2007 (the "Junior Subordinated Indenture"), by and between SFC and Deutsche Bank Trust Company, as trustee. The debentures bear interest at 6.00% per year. SFC can redeem the debentures at par beginning in January 2017. On December 30, 2013, SHI entered into a guaranty agreement whereby it agreed to fully and unconditionally guarantee, on a junior subordinated basis, the payment of principal of, premium (if any), and interest on all of the notes outstanding under the Junior Subordinated Indenture.

The Junior Subordinated Indenture restricts SFC's ability to sell or convey all or substantially all of its assets, unless the transferee assumes SFC's obligations and covenants under the Junior Subordinated Indenture. The Junior Subordinated Indenture provides for customary events of default, including: payment defaults; bankruptcy and insolvency; and upon admission by SFC in writing of its inability to pay its debts generally as they become due or that it has taken corporate action with regard to the commencement of voluntary bankruptcy or insolvency proceedings. In the case of an event of default arising from certain events of bankruptcy or insolvency, all outstanding debentures will become due and payable immediately without further action or notice. If any other event of default occurs and is continuing, the trustee or the holders of at least 25% in aggregate principal amount of the then outstanding debentures may declare all the debentures to be due and payable immediately.

Pursuant to the terms of the Junior Subordinated Indenture, SFC, upon the occurrence of a mandatory trigger event, is required to defer interest payments to the holders of the debentures (and not make dividend payments to SFI) unless SFC obtains non-debt capital funding in an amount equal to all accrued and unpaid interest on the debentures otherwise payable on the next interest payment date and pays such amount to the holders of the debentures. A mandatory trigger event occurs if SFC's (1) tangible equity to tangible managed assets is less than 5.5% or (2) average fixed charge ratio is not more than 1.10x for the trailing four quarters (where the fixed charge ratio equals earnings excluding income taxes, interest expense, extraordinary items, goodwill impairment, and any amounts related to discontinued operations, divided by the sum of interest expense and any preferred dividends).

Based upon SFC's financial results for the twelve months ended September 30, 2014, a mandatory trigger event did not occur under the Junior Subordinated Indenture with respect to the semi-annual interest payment due in January 2015 as the tangible equity to tangible managed assets ratio was 22.4% and the average fixed charge ratio was 1.11x.

**DESCRIPTION OF THE NOTES**

**General**

We will issue the notes under the indenture (the "base indenture") referred to in the accompanying prospectus, between us, Springleaf Holdings, Inc. and Wilmington Trust, National Association, as trustee (the "Trustee"), and a supplemental indenture thereto establishing the terms of the notes (the "supplemental indenture"). The following description of particular terms of the notes supplements the more general description of the debt securities contained in the accompanying prospectus. If there are any inconsistencies between the information in this section and the information in the accompanying prospectus, the information in this section controls. You should read this section together with the section entitled "Description of Debt Securities" in the accompanying prospectus.

Together with the "Description of Debt Securities" in the accompanying prospectus, the following description provides a summary of the material provisions of the notes and the indenture, as supplemented by the supplemental indenture, and does not purport to be complete. This summary is subject to and is qualified by reference to all the provisions of the notes and the indenture, as supplemented by the supplemental indenture, including the definitions of certain terms used therein. You may request a copy of the indenture and the supplemental indenture from us as set forth in "Where You Can Find More Information." We urge you to read the indenture, as supplemented by the supplemental indenture (including the form of note contained therein), because it, and not this description, defines your rights as a holder of the notes.

In this section, references to the "Company," "we," "us," and "our" include only Springleaf Finance Corporation, and not its Subsidiaries and references to SHI include only Springleaf Holdings, Inc., and not its subsidiaries and references to the "indenture" mean to the base indenture together with the supplemental indenture.

We have summarized selected terms and provisions of the indenture. We urge you to read the indenture because it, and not this description, defines your rights. The terms of the notes include those stated in the indenture and those made part of the indenture by reference to the Trust Indenture Act of 1939, as amended (the "TIA"). The following summary of the material provisions of the indenture and the notes is not complete and is subject to, and is qualified in its entirety by reference to, all provisions of the indenture. If you would like more information on any of these provisions, you should read the relevant sections of the indenture.

The notes will be issued only in fully registered book-entry form without coupons only in minimum denominations of \$2,000 principal amount and integral multiples of \$1,000 above that amount. The notes will be issued in the form of global notes. Global notes will be registered in the name of a nominee of DTC, New York, New York, as described under "Book-Entry Settlement and Clearance."

**Principal Amount; Maturity and Interest**

The Company will issue the notes in an initial aggregate principal amount of \$700 million. Additional notes ("Additional Notes") may be issued from time to time. The notes and any Additional Notes subsequently issued will be treated as a single class for all purposes under the indenture, in each case including, without limitation, waivers, amendments and redemptions. The notes and any Additional Notes will be substantially identical other than the issuance dates and the dates from which interest will accrue. Unless the context otherwise requires, for all purposes of the indenture and this "Description of the Notes," references to notes include any Additional Notes actually issued. Because any Additional Notes may not be fungible with the notes for federal income tax purposes, Additional Notes may have a different CUSIP number or numbers than other notes and may be represented by a different global note or global notes. The notes will mature on December 15, 2019.

Table of Contents

The notes will be denominated in U.S. dollars and all payments of principal and interest thereon will be paid in U.S. dollars.

The notes will bear interest at a rate of 5.25% per year and interest with respect to the notes will be payable semi-annually, in cash in arrears, on June 15 and December 15 of each year, beginning on June 15, 2015, to the persons in whose name the notes are registered at the close of business on the June 1 and December 1 immediately preceding such interest payment date. Interest on the notes will be computed on the basis of a 360-day year of twelve 30-day months.

Interest on the notes will accrue from and including the date the notes are issued (the "issue date") or from and including the most recent interest payment date (whether or not such interest payment date was a business day) for which interest has been paid or provided for to but excluding the relevant interest payment date.

If an interest payment date falls on a day that is not a business day, the interest payment will be postponed to the next succeeding business day, with the same force and effect as if made on the date such payment was due, and no interest will accrue as a result of such delay.

**Methods of Receiving Payments on the Notes**

If a holder has given wire transfer instructions to the Company, the Company will make all principal, premium, if any, and interest payments on such holder's notes in accordance with those instructions. All other payments on these notes will be made at the office or agency of the paying agent and registrar unless the Company elects to make interest payments by check mailed to the holders at their address set forth in the register of holders.

**Paying Agent and Registrar for the Notes**

The Trustee will initially act as paying agent and registrar. The Company may change the paying agent or registrar without prior notice to the holders.

**Transfer and Exchange**

A holder may transfer or exchange notes in accordance with the indenture. The registrar and the Trustee may require a holder, among other things, to furnish appropriate endorsements and transfer documents and the Company may require a holder to pay any taxes and fees required by law or permitted by the indenture.

The registered holder of a note will be treated as the owner of it for all purposes.

**Parent Guaranty**

SHI will fully and unconditionally guarantee the payment of principal of, premium (if any), and interest the notes on a senior unsecured basis (the "Parent Guaranty").

The Parent Guaranty will be a continuing guaranty with respect to the notes and shall:

- (1) remain in full force and effect until payment in full of all the guaranteed obligations;
- (2) subject to the next succeeding paragraph, be binding upon SHI and its successors; and
- (3) inure to the benefit of and be enforceable by the Trustee, the holders of the notes and their successors, transferees and assigns.

Table of Contents

The Parent Guaranty will be automatically released upon any of:

- (a) the Company ceasing to be a wholly-owned subsidiary of SHI;
- (b) the Company's transfer of all or substantially all of its assets to, or merger with, an entity that is not a wholly-owned subsidiary of SHI in accordance with Article V of the indenture and such transferee entity assumes the Company's obligations under the Indenture; or
- (c) the Company exercising its Legal Defeasance option or Covenant Defeasance options described below.

**Ranking**

The notes will be the Company's senior unsecured obligations and will rank equally in right of payment with all of the Company's other existing and future unsubordinated indebtedness from time to time outstanding.

The notes will be effectively subordinated to all of the Company's secured obligations to the extent of the value of the assets securing such obligations and structurally subordinated to any existing and future obligations of the Company's subsidiaries with respect to claims against the assets of such subsidiaries. As of September 30, 2014, the Company did not have any secured indebtedness outstanding. As of September 30, 2014, after giving effect to the offering of the notes and the repurchase transactions, the Company's subsidiaries would have had approximately \$3.8 billion of liabilities (including securitizations, but excluding payables and other obligations to the Company of approximately \$2.4 billion) to which the notes would have been structurally subordinated.

As of September 30, 2014, after giving effect to the offering of the notes and the repurchase transactions, the aggregate amount of unsubordinated indebtedness outstanding with which the notes would have ranked equally would have been approximately \$4.3 billion.

The Parent Guaranty will be SHI's senior unsecured obligation and will rank equally in right of payment with all of SHI's other existing and future unsubordinated indebtedness from time to time outstanding. The Parent Guaranty will be effectively subordinated to all of SHI's secured obligations to the extent of the value of the assets securing such obligations and structurally subordinated to any existing and future obligations of SHI's subsidiaries (other than the Company) with respect to claims against the assets of such subsidiaries. As of September 30, 2014, after giving effect to the offering of the notes and the repurchase transactions, SHI's subsidiaries had approximately \$3.8 billion of liabilities (including securitizations, but excluding payables and other obligations to SHI of approximately \$237.1 million) to which the notes would have been structurally subordinated. As of September 30, 2014, after giving effect to the offering of the notes and the repurchase transactions, the aggregate amount of unsubordinated indebtedness outstanding with which the Parent Guaranty would have ranked equally would have been approximately \$4.3 billion.

**Optional Redemption**

Other than as set forth in the next succeeding paragraph, the notes are not subject to redemption prior to maturity, and there is no sinking fund for the notes.

At any time and from time to time prior to the Stated Maturity of the notes, the Company may redeem, at its option, all or part of the notes upon not less than 30 nor more than 60 days' prior notice (with a copy to the Trustee) at a redemption price equal to the sum of (i) 100% of the principal amount thereof, plus (ii) the Applicable Premium as of the date of redemption, plus (iii) accrued and unpaid interest to the date of redemption (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date).

The Company has also agreed to notify the Trustee when and as the notes become admitted to trading on any national securities exchange.

**Limitations on Liens**

- (a) The Company shall not at any time, directly or indirectly, create, assume or suffer to exist, and shall not cause, suffer or permit any Subsidiary to create, assume or suffer to exist, any Mortgage of or upon any of its or their properties or assets, real or personal, whether owned at the issue date or thereafter acquired, or of or upon any income or profit therefrom, without making effective provision, and the Company covenants that in any such case it will make or cause to be made effective provision, whereby the notes shall be secured by such Mortgage equally and ratably with or prior to any and all other obligations and indebtedness to be secured thereby, so long as any such other obligations and indebtedness shall be so secured.

- (i) any Mortgage on any properties or assets of the Company or any Subsidiary existing on the issue date;
  - (ii) any Mortgage on any properties or assets of the Company or any Subsidiary, in addition to those otherwise permitted by this subsection (b) of this covenant, securing Indebtedness of the Company or any Subsidiary and refundings or extensions of any such Mortgage and the Indebtedness secured thereby for amounts not exceeding the principal amount of the Indebtedness so refunded or extended at the time of the refunding or extension thereof and covering only the same property theretofore securing the same; provided that at the time such Indebtedness was initially incurred, the aggregate amount of secured Indebtedness permitted by this paragraph (ii), after

similar purposes, or zoning or other restrictions as to the use of real properties, which encumbrances, easements, reservations, rights and restrictions do not in the aggregate materially detract from the value of said properties or materially impair their use in the operation of the business of the Company or of the Subsidiary owning the same;

(xi)

other liens, charges and encumbrances incidental to the conduct of its business or the ownership of its property and assets which were not incurred in connection with the borrowing of money or the obtaining of advances or credit, and which do not in the aggregate materially detract from the value of its property and assets or materially impair the use thereof in the operation of its business; and

(xii)

any Mortgage created by the Company or any Subsidiary in connection with a transaction intended by the Company or such Subsidiary to be one or more sales of properties or assets of the Company or such Subsidiary; provided that such Mortgage shall only apply to the properties or assets involved in such sale or sales, the income from such properties or assets and/or the proceeds of such properties or assets.

If at any time the Company or any Subsidiary shall create or assume any Mortgage not permitted by subsection (b) of this covenant, to which the covenant in subsection (a) of this covenant is applicable, the Company shall promptly deliver to the Trustee (1) an officers' certificate stating that the covenant of the Company contained in subsection (a) of this covenant has been complied with; and (2) an Opinion of Counsel to the effect that such covenant has been complied with, and that any instruments executed by the Company in the performance of such covenant comply with the requirements of such covenant.

(d)

In the event that the Company shall hereafter secure the notes equally and ratably with (or prior to) any other obligation or indebtedness pursuant to the provisions of this covenant, the Trustee is hereby authorized to enter into an indenture or agreement supplemental hereto and to take such action, if any, as the Company may deem advisable to enable the Trustee to enforce effectively the rights of the holders of the notes so secured equally and ratably with (or prior to) such other obligation or indebtedness.

**Events of Default, Notice and Waiver**

If an Event of Default with respect to the notes occurs and is continuing, the Trustee or the holders of at least 25% in aggregate principal amount of the outstanding notes may declare, by notice as provided in the indenture, the principal amount of all the notes due and payable immediately. However, in the case of an Event of Default involving certain events in bankruptcy, insolvency or reorganization, acceleration will occur automatically. If all Events of Default with respect to the notes have been cured or waived, and all amounts due otherwise than because of the acceleration have been paid or deposited with the Trustee, the holders of a majority in aggregate principal amount of the outstanding notes may rescind the acceleration and its consequences.

The holders of a majority in aggregate principal amount of the notes may waive any past Default with respect to such notes, and any Event of Default arising from a past default, except in the case of (i) a Default in the payment of the principal of, or any premium or interest on, any note; or (ii) a Default in respect of a covenant or provision that cannot be amended or modified without the consent of the holder of each outstanding note.

"Event of Default" means the occurrence and continuance of any of the following events with respect to the notes:

(1)

default in the payment of any interest payable in respect of any note, when such interest becomes due and payable, and continuance of such default for a period of 30 days;

Table of Contents

- (2) default in the payment of the principal of and any premium on any note when it becomes due and payable at its Maturity;
- (3) default in the performance, or breach, of any covenant or warranty of the Company in the indenture or the notes, and continuance of such default or breach for a period of 90 days;
- (4) an event of default, as defined in any mortgage, indenture or instrument under which there may be issued, or by which there may be secured or evidenced, any Indebtedness for money borrowed of the Company, whether such Indebtedness now exists or shall hereafter be created, shall happen and shall result in a principal amount in excess of \$25,000,000 of Indebtedness becoming or being declared due and payable prior to the date on which it would otherwise have become due and payable, and such acceleration shall not have been rescinded or annulled, or such Indebtedness shall not have been discharged, within a period of 15 days; and
- (5) certain events in bankruptcy, insolvency or reorganization of the Company.

A Default under clause (3) or (4) is not an Event of Default until the Trustee or the holders of at least 25% in aggregate principal amount of the outstanding notes notify the Company in writing of the Default, and the Company does not cure the Default within the time specified in such clause after receipt of such notice.

When a Default under clause (3) or (4) is cured or remedied within the specified period, it ceases to exist.

If an Event of Default (other than an Event of Default with respect to the Company specified in clause (5) above) occurs and is continuing, the Trustee, by written notice to the Company, or the holders of at least 25% in aggregate principal amount of the outstanding notes, by written notice to the Company and the Trustee, may declare all unpaid principal of and accrued interest on the notes then outstanding to be due and payable (the "Default Amount"). Upon a declaration of acceleration, such amount shall be due and payable immediately.

If an Event of Default with respect to the Company specified in clause (5) above occurs, the Default Amount shall *ipso facto* become and be immediately due and payable without any declaration or other act on the part of the Trustee or any holder.

Under certain circumstances, the holders of a majority in aggregate principal amount of the notes then outstanding may rescind an acceleration with respect to such notes and its consequences.

In case an Event of Default occurs and is continuing, the Trustee will be under no obligation to exercise any of the rights or powers under the indenture at the request or direction of any of the holders unless such holders have offered to the Trustee indemnity or security satisfactory to it against any loss, liability or expense. Except to enforce the right to receive payment of principal, premium (if any) or interest (if any) when due, no holder may pursue any remedy with respect to the indenture or the notes unless (i) such holder has previously given the Trustee notice that an Event of Default is continuing, (ii) holders of at least 25% in principal amount of the outstanding notes requested the Trustee to pursue the remedy, (iii) such holders have offered the Trustee security or indemnity satisfactory to it against any loss, liability or expense, (iv) the Trustee has not complied with such request within 60 days after the receipt of the request and the offer of security or indemnity and (v) the holders of a majority in principal amount of the outstanding notes have not given the Trustee a direction inconsistent with such request within such 60-day period. Subject to certain restrictions, the holders of a majority in principal amount of the outstanding notes are given the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or of exercising any trust or power conferred on the Trustee. The Trustee, however, may refuse to follow any

Table of Contents

direction that conflicts with law or the indenture or that the Trustee determines is unduly prejudicial to the rights of any other holder or that would involve the Trustee in personal liability.

The indenture will provide that, if a Default occurs and is continuing and is known to the Trustee, the Trustee must mail to each holder notice of the Default within 90 days after it occurs. Except in the case of a Default in the payment of principal of or interest on any note, the Trustee may withhold notice if and so long as a committee of its trust officers in good faith determines that withholding notice is in the interests of the holders. In addition, the Company is required to deliver to the Trustee, within 120 days after the end of each fiscal year, a certificate indicating whether the signers thereof know of any Default that occurred during the previous year. The Company also is required to deliver to the Trustee, within 10 days after the occurrence thereof, written notice of any event which would constitute a Default.

**No Personal Liability of Directors, Officers, Employees and Stockholders**

No director, officer, employee, incorporator or stockholder, member or limited partner of the Company or its parent companies shall have any liability for any obligations of the Company under the notes or the indenture or for any claim based on, in respect of, or by reason of such obligations or their creation. Each holder by accepting notes waives and releases all such liability. The waiver and release are part of the consideration for issuance of the notes.

**Merger and Consolidation**

The Company may consolidate with, merge with or into, or sell or convey all or substantially all of our assets to, any other corporation or entity if:

- (a)
  - (i) in the case of a merger, the Company is the surviving entity in such merger, or (ii) in the case of a merger in which the Company is not the surviving entity or in the case of a consolidation or a sale or conveyance of assets, the entity into which the Company is merged or the entity which is formed by such consolidation or which acquires by sale or conveyance all or substantially all of the assets of the Company shall be a corporation, association, company or business trust organized and existing under the laws of the United States of America or a State thereof and such successor entity shall expressly assume the due and punctual payment of the principal of and any premium and interest on all the notes, according to their tenor, and the due and punctual performance and observance of all of the covenants of the indenture and the notes to be performed or observed by the Company by a supplemental indenture in form satisfactory to the Trustee, executed and delivered to the Trustee by such entity; and
- (b) the Company or such successor entity, as the case maybe, shall not, immediately after such merger or consolidation, or such sale or conveyance, be in default in the performance or observance of any such covenant and shall not immediately thereafter have outstanding (or otherwise be liable for) any indebtedness secured by a Mortgage not expressly permitted by the provisions of the indenture or shall have secured the notes hereunder equally and ratably with (or prior to) any Indebtedness secured by any Mortgage not so permitted.

**Modification and Waiver**

The indenture may be modified or amended in respect of the notes with the consent of the holders of a majority in aggregate principal amount of the outstanding notes. However, unless each holder to be affected by the proposed change consents, no modification or amendment may:

- (i) change the Stated Maturity of the principal of, or any installment of principal of, or interest on, any note;
- (ii) reduce the principal amount of, or the rate or amount of interest on, or any premium payable with respect to, any note;
- (iii) change the places or currency of payment of the principal of, or any premium or interest on, any note;
- (iv) impair the right to sue for the enforcement of any payment of principal of, or any premium or interest on, any note on or after the date the payment is due;
- (v) reduce the percentage in aggregate principal amount of outstanding notes necessary to:
  - (A) modify or amend the indenture,
  - (B) waive any past default or compliance with certain restrictive provisions, or
  - (C) constitute a quorum or take action at a meeting; or
- (vi) otherwise modify the provisions of the indenture concerning modification or amendment or concerning waiver of compliance with certain provisions of, or certain defaults and their consequences under, the indenture, except to:
  - (A) increase the percentage of outstanding notes necessary to modify or amend the indenture or to give the waiver, or
  - (B) provide that certain other provisions of the indenture cannot be modified or waived without the consent of the holder of each outstanding note affected by the modification or waiver.

The holders of a majority in aggregate principal amount of the outstanding notes may waive our obligation to comply with certain restrictive provisions applicable to such notes.

The indenture may be modified or amended without the consent of any holder of outstanding notes for any of the following purposes:

- (i) to evidence that another entity is our successor and has assumed our obligations with respect to the notes;
- (ii) to add to our covenants or to add guarantees of any Person for the benefit of the holders of the notes or to surrender any of our rights or powers under the indenture;
- (iii) to add any Events of Default;
- (iv)

- (vii) to provide for the discharge of the indenture with respect to the notes by the deposit in trust of money and/or Government Obligations in accordance with the provisions described under " Satisfaction and Discharge";
- (viii) to make certain changes to the indenture to provide for the issuance of Additional Notes;
- (ix) to cure any ambiguity, defect or inconsistency in the indenture or to make any other provisions with respect to matters or questions arising under the indenture, so long as the action does not adversely affect the interests of the holders of the notes in any material respect; or
- (x) to conform the text of the indenture or the notes to any provision of this "Description of the Notes."

**Satisfaction and Discharge**

The indenture will be discharged and will cease to be of further effect as to all notes issued thereunder (other than the Company's obligations to register the transfer or exchange of notes; to replace stolen, lost or mutilated notes; to maintain paying agencies; and to hold money for payment in trust), when:

- (i) either
  - (a) all notes that have been authenticated, except lost, stolen or destroyed notes that have been replaced or paid and notes for whose payment money has been deposited in trust and thereafter repaid to the Company, have been delivered to the Trustee for cancellation; or
  - (b) all notes that have not been delivered to the Trustee for cancellation have become due and payable by reason of the mailing of a notice of redemption or otherwise or will become due and payable within one year or are to be called for redemption within one year under arrangements satisfactory to the Trustee for the giving of notice of redemption by the Trustee in the name, and at the expense of the Company, and the Company has irrevocably deposited or caused to be deposited with the trustee as trust funds in trust solely for the benefit of the holders, cash in U.S. dollars, Government Obligations, or a combination of cash in U.S. dollars and Government Obligations, in such amounts as will be sufficient without consideration of any reinvestment of interest, to pay and discharge the entire indebtedness on the notes not delivered to the trustee for cancellation for principal, premium, if any, and accrued interest to the date of maturity or redemption;
- (ii) the Company has paid or caused to be paid all sums payable by it under the indenture in respect of the notes; and
- (iii) in the event of a deposit as provided in clause (i)(b) above, the Company has delivered irrevocable instructions to the trustee under the indenture to apply the deposited money toward the payment of the notes at maturity or the redemption date, as the case may be.

In addition, the Company must deliver an officers' certificate and an opinion of counsel to the trustee stating that all conditions precedent to satisfaction and discharge have been satisfied.

**Defeasance of Certain Covenants**

The Company at any time may terminate all its obligations under the notes and the indenture with respect to the notes except for certain obligations, including those respecting the Defeasance Trust (as defined below) and obligations to register the transfer or exchange of the notes, to replace mutilated, destroyed, lost or stolen notes and to maintain a registrar and paying agent in respect of the notes. This is known as "Legal Defeasance." The Company at any time may terminate its obligations under the covenants described under " Limitations on Liens" above and the operation of clause (3) or (4) described under " Events of Default" above. This is known as "Covenant Defeasance."

The Company may exercise its Legal Defeasance option notwithstanding its prior exercise of its Covenant Defeasance option. If the Company exercises its Legal Defeasance option, payment of the notes may not be accelerated because of an Event of Default with respect thereto. If the Company exercises its Covenant Defeasance option, payment of the notes may not be accelerated because of an Event of Default specified in clause (3) or (4) described under " Events of Default" above.

In order to exercise either defeasance option, the Company must irrevocably deposit in trust (the "Defeasance Trust") with the Trustee money or Government Obligations for the payment of principal and interest (if any) on the notes to redemption or maturity, as the case may be, and must comply with certain other conditions, including (unless the notes will mature or be redeemed within 30 days) delivering to the Trustee an opinion of counsel to the effect that holders will not recognize income, gain or loss for federal income tax purposes as a result of such deposit and defeasance and will be subject to federal income tax on the same amount and in the same manner and at the same times as would have been in the case if such deposit and defeasance had not occurred, and, in the case of Legal Defeasance only, such opinion of counsel must be based on a ruling of the Internal Revenue Service or other change in applicable federal income tax law.

**The Trustee under the Indenture**

We and certain of our affiliates maintain banking relations with Wilmington Trust, National Association and its affiliates.

Unless we are in default, the Trustee is required to perform only those duties specifically set out in the indenture. After an Event of Default, the Trustee is required to exercise the same degree of care as a prudent individual would exercise in the conduct of his or her own affairs. The Trustee is under no obligation to exercise any of its rights or powers under the indenture at the request of any holder of notes, unless the holder offers the Trustee indemnity satisfactory to it against the costs, expenses and liabilities that might be incurred in connection with the Trustee's exercise of these rights or powers. The Trustee is not required to spend or risk its own funds or otherwise incur financial liability in performing its duties if the Trustee reasonably believes that repayment or adequate indemnity is not reasonably assured to it. The indenture contains other provisions limiting the responsibilities and liabilities of the Trustee.

**Governing Law**

The indenture and the notes will be governed by and will be construed in accordance with the laws of the State of New York.

**Certain Definitions**

"Applicable Premium" means with respect to any note on any date of redemption, as determined by the Company, the excess, if any, of:

- (a) the sum of the present values of the remaining scheduled payments of principal and interest on the note (excluding accrued but unpaid interest to the date of redemption),

Table of Contents

discounted to the date of redemption on a semi-annual basis using a discount rate equal to the Treasury Rate as of such date of redemption plus 50 basis points; over

(b) the principal amount of the note.

The Company shall calculate the Applicable Premium and the Trustee shall have no responsibility to verify such amount.

"Consolidated Net Tangible Assets" means the total amount of assets (less depreciation and valuation reserves and other reserves and items deductible from the gross book value of specific asset amounts under generally accepted accounting principles) which under generally accepted accounting principles would be included on a balance sheet of the Company and its Subsidiaries, after deducting therefrom (i) all liability items except indebtedness (whether incurred, assumed or guaranteed) for borrowed money maturing by its terms more than one year from the date of creation thereof or which is extendible or renewable at the sole option of the obligor in such manner that it may become payable more than one year from the date of creation thereof, shareholder's equity and reserves for deferred income taxes and (ii) all good will, trade names, trademarks, patents, unamortized debt discount and expense and other like intangibles, which in each case would be so included on such balance sheet.

"Default" means any event which is, or after notice or passage of time or both would be, an Event of Default.

"Government Obligations," with respect to any note, means (i) direct obligations of the United States of America where the timely payment or payments thereunder are supported by the full faith and credit of the United State of America or (ii) obligations of a Person controlled or supervised by and acting as an agency or instrumentality of the United States of America where the timely payment or payments thereunder are unconditionally guaranteed as a full faith and credit obligation by the United States of America, and which, in the case of (i) or (ii), are not callable or redeemable at the option of the issuer or issuers thereof, and shall also include a depository receipt issued by a bank or trust company as custodian with respect to any such Government Obligation or a specific payment of interest on or principal of or other amount with respect to any such Government Obligation held by such custodian for the account of the holder of a depository receipt; provided, however that (except as required by law) such custodian is not authorized to make any deduction from the amount payable to the holder of such depository receipt from any amount received by the custodian in respect of the Government Obligation or the specific payment of interest on or principal of or other amount with respect to the Government Obligation evidenced by such depository receipt.

"Indebtedness" means all obligations which in accordance with generally accepted accounting principles would be classified upon a balance sheet as liabilities, including without limitation by the enumeration thereof, obligations arising through direct or indirect guarantees (including agreements, contingent or otherwise, to purchase Indebtedness or to purchase property or services for the primary purpose of enabling the payment of Indebtedness or assuring the owner of Indebtedness against loss) or through agreements, contingent or otherwise, to supply or advance funds for the payment or purchase of Indebtedness of others; provided, however, that in determining Indebtedness of any Person, there shall not be included rental obligations under any lease of such Person, whether or not such rental obligations would, under generally accepted accounting principles, be required to be shown on the balance sheet of such Person as a liability item.

"Maturity," when used with respect to any note, means the date on which the principal of such note becomes due and payable as provided in the notes and the indenture, whether at the Stated Maturity or by declaration of acceleration, notice of redemption, notice of option to elect repayment or otherwise and includes any redemption date.

"Mortgage" means any mortgage, pledge, lien, security interest, conditional sale or other title retention agreement or other similar encumbrance.

Table of Contents

"Person" means any individual, corporation, limited liability company, partnership, joint venture, joint-stock company, trust, unincorporated organization or government or any agency or political subdivision thereof.

"Stated Maturity," when used with respect to any note or any installment of principal thereof or any premium or interest thereon, means the fixed date on which the principal of such note or such installment of principal or premium or interest is due and payable.

"Subsidiary" means any corporation of which at the time of determination the Company and/or one or more Subsidiaries owns or controls directly or indirectly more than 50% of the total voting power of shares of stock or other equity interests having general voting power under ordinary circumstances (without regard to the occurrence of any contingency) and entitled to vote in the election of directors, managers or trustees of such corporation.

"Treasury Rate" means, as of any redemption date, the yield to maturity as of such redemption date of United States Treasury securities with a constant maturity (as compiled and published in the most recent Federal Reserve Statistical Release H.15 (519) that has become publicly available at least two business days prior to the redemption date (or, if such Statistical Release is no longer published, any publicly available source of similar market data)) most nearly equal to the period from the redemption date to the Stated Maturity of the notes; provided, however, that if the period from the redemption date to the Stated Maturity of such notes is less than one year, the weekly average yield on actively traded United States Treasury securities adjusted to a constant maturity of one year will be used.

"Wholly-owned," when used with reference to a Subsidiary, means a Subsidiary of which all of the outstanding capital stock (except directors' qualifying shares) is owned by the Company and/or one or more wholly-owned Subsidiaries.

**BOOK-ENTRY SETTLEMENT AND CLEARANCE**

Except as set forth below, notes will be issued in registered, global form in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof (the "Global Notes"). The Global Notes will be deposited upon issuance with the trustee, as custodian for DTC, and registered in the name of DTC or its nominee, in each case for credit to an account of a direct or indirect participant in DTC as described below.

Except as set forth below, the Global Notes may be transferred, in whole and not in part, only to another nominee of DTC or to a successor of DTC or its nominee. Beneficial interests in the Global Notes may not be exchanged for notes in certificated form except in the limited circumstances described below. See "Certificated Securities." Except in the limited circumstances described below, owners of beneficial interests in the Global Notes will not be entitled to receive physical delivery of Certificated Notes (as defined below).

**Global Notes**

SFC expects that, pursuant to procedures established by DTC, (i) upon the issuance of the Global Notes, DTC or its custodian will credit, on its internal system, the principal amount at maturity of the individual beneficial interests represented by such Global Notes to the respective accounts of persons who have accounts with such depository ("participants") and (ii) ownership of beneficial interests in the Global Notes will be shown on, and the transfer of such ownership will be effected only through, records maintained by DTC or its nominee (with respect to interests of participants) and the records of participants (with respect to interests of persons other than participants). Such accounts initially will be designated by or on behalf of the underwriters and ownership of beneficial interests in the Global Notes will be limited to participants or persons who hold interests through participants. Holders may hold their interests in the Global Notes directly through DTC if they are participants in such system, or indirectly through organizations which are participants in such system.

So long as DTC or its nominee is the registered owner or holder of the notes, DTC or such nominee, as the case may be, will be considered the sole owner or holder of the notes represented by such Global Notes for all purposes under the indenture. No beneficial owner of an interest in the Global Notes will be able to transfer that interest except in accordance with DTC's procedures, in addition to those provided for under the indenture with respect to the notes.

Payments of the principal of, and premium (if any) and interest (including additional interest, if any) on, the Global Notes will be made to DTC or its nominee, as the case may be, as the registered owner thereof. Neither SFC, the trustee nor any paying agent will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in the Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interest.

SFC expects that DTC or its nominee, upon receipt of any payment of principal of, and premium (if any) and interest (including additional interest, if any) on the Global Notes, will credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of the Global Notes as shown on the records of DTC or its nominee. SFC also expects that payments by participants to owners of beneficial interests in the Global Notes held through such participants will be governed by standing instructions and customary practice, as is now the case with securities held for the accounts of customers, registered in the names of nominees for such customers. Such payments will be the responsibility of such participants.

Transfers between participants in DTC will be effected in the ordinary way through DTC's same-day funds system in accordance with DTC rules and will be settled in same-day funds. If a holder requires physical delivery of a Certificated Security for any reason, including to sell notes to persons in

Table of Contents

states that require physical delivery of the notes, or to pledge such securities, such holder must transfer its interest in a Global Notes, in accordance with the normal procedures of DTC and with the procedures set forth in the indenture.

DTC has advised SFC that it will take any action permitted to be taken by a holder of notes (including the presentation of notes for exchange as described below) only at the direction of one or more participants to whose account the DTC interests in the Global Notes are credited and only in respect of such portion of the aggregate principal amount of notes as to which such participant or participants has or have given such direction. However, if there is an event of default under the indenture, DTC has advised SFC that it will exchange the applicable Global Notes for Certificated Securities, which it will distribute to its participants.

DTC has advised SFC as follows: DTC is a limited-purpose trust company organized under New York banking law, a "banking organization" within the meaning of the New York banking law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code and a "clearing agency" registered pursuant to the provisions of Section 17A of the Exchange Act. DTC holds and provides asset servicing for issues of U.S. and non-U.S. equity, corporate and municipal debt issues that participants deposit with DTC. DTC also facilitates the post-trade settlement among participants of sales and other securities transactions in deposited securities through electronic computerized book-entry transfers and pledges between participants' accounts. This eliminates the need for physical movement of securities certificates. Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. Access to the DTC system is also available to indirect participants such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies and clearing corporations that clear through or maintain a custodial relationship with a participant, either directly or indirectly.

Although DTC has agreed to the foregoing procedures in order to facilitate transfers of interests in the Global Notes among participants of DTC, it is under no obligation to perform such procedures, and such procedures may be discontinued at any time. Neither SFC nor the trustee will have any responsibility for the performance by DTC or their respective participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

**Certificated Securities**

A Global Note is exchangeable for Certificated Securities in fully registered form without interest coupons only in the following limited circumstances:

DTC notifies the Company that it is unwilling or unable to continue as depository for the Global Notes and the Company fails to appoint a successor depository within 90 days of such notice, or

there shall have occurred and be continuing an Event of Default with respect to the notes.

Certificated Securities may not be exchanged for beneficial interests in any Global Notes unless the transferor first delivers to the trustee a written certificate (in the form provided in the indenture) to the effect that such transfer will comply with the appropriate transfer restrictions applicable to such notes. See "Notice to Investors."

The laws of some states require that certain persons take physical delivery in definitive form of securities that they own. Consequently, the ability to transfer the notes will be limited to such extent.

**U.S. FEDERAL INCOME TAX CONSIDERATIONS TO NON-U.S. HOLDERS**

The following discussion is a summary of U.S. federal income tax considerations generally applicable to the acquisition, ownership and disposition of notes to non-U.S. holders (as defined below) that acquire the notes for cash at their original issue price pursuant to this offering. The summary is based on the Internal Revenue Code of 1986, as amended (the "Code"), U.S. Treasury Regulations, judicial decisions, published positions of the Internal Revenue Service (the "IRS") and other applicable authorities, all as in effect as of the date hereof and all of which are subject to change or differing interpretations (possibly with retroactive effect). The discussion does not address all of the tax consequences that may be relevant to a particular person or to persons subject to special treatment under U.S. federal income tax laws (such as broker-dealers, insurance companies, U.S. expatriates, tax-exempt entities, traders in securities that elect to use a mark-to-market method of accounting, persons subject to alternative minimum tax, or persons that are, or hold their notes through, partnerships or other pass-through entities) or to persons that hold notes as part of a straddle, hedge, conversion, synthetic security or constructive sale transaction for U.S. federal income tax purposes, all of whom may be subject to tax rules that differ from those summarized below. Moreover, this discussion does not address any foreign, state or local tax consequences or any U.S. federal tax consequences other than U.S. federal income tax consequences. This summary deals only with persons who hold the notes as capital assets within the meaning of the Code (generally, property held for investment) and does not apply to banks and other financial institutions. No assurance can be given that the IRS would not assert, or that a court would not sustain, a position contrary to any of those set forth below.

**Potential investors should consult their tax advisors as to the particular U.S. federal income tax consequences to them of acquiring, owning and disposing of the notes, as well as the effects of other U.S. federal tax laws or state, local and non-U.S. tax laws.**

A "non-U.S. holder" means any beneficial owner of a note (as determined for U.S. federal income tax purposes), that is, for U.S. federal income tax purposes, an individual, corporation, estate or trust and that is not a "U.S. holder." For purposes of this discussion, a "U.S. holder" means a beneficial owner of a note (as determined for U.S. federal income tax purposes) that, for U.S. federal income tax purposes is, or is treated as, a citizen or individual resident of the United States, a corporation created or organized under the laws of the United States, any state thereof or the District of Columbia, an estate the income of which is subject to U.S. federal income taxation regardless of its source, or a trust if (i) a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust or (ii) the trust has a valid election in effect under applicable United States Treasury Regulations to be treated as a U.S. person.

If any entity or arrangement treated as a partnership for U.S. federal income tax purposes is a holder of a note, the U.S. federal income tax treatment of a partner in the partnership will generally depend on the status of the partner and the activities of the partnership. Partners and partnerships should consult their tax advisors as to the particular U.S. federal income tax consequences applicable to them.

*Stated Interest.* A non-U.S. holder generally will not be subject to U.S. federal income or withholding tax on interest paid or accrued on a note if: (1) the interest is not effectively connected with a U.S. trade or business; and (2) the non-U.S. holder satisfies the following requirements:

- (1) the non-U.S. holder does not actually or constructively own 10% or more of our voting stock;
- (2) the non-U.S. holder is not a controlled foreign corporation that is related to us (directly or indirectly) through stock ownership; and

Table of Contents

(3) the non-U.S. holder certifies to its non-U.S. status on IRS Form W-8BEN or W-8BEN-E (or other applicable form).

Alternatively, a non-U.S. holder that cannot satisfy the above requirements generally will be exempt from U.S. federal withholding tax with respect to interest paid on the notes if the holder establishes that such interest is not subject to withholding tax because it is effectively connected with the non-U.S. holder's conduct of a trade or business in the United States (generally, by providing an IRS Form W-8ECI). However, to the extent that such interest is effectively connected with the non-U.S. holder's conduct of a U.S. trade or business (and, in the case of certain tax treaties, is attributable to a permanent establishment or fixed base within the United States), the non-U.S. holder will be subject to U.S. federal income tax on a net basis in generally the same manner as a U.S. holder and, if it is a foreign corporation, may be subject to a 30% U.S. branch profits tax (or lower applicable treaty rate) on its effectively connected earnings and profits (subject to adjustments).

If a non-U.S. holder does not satisfy the requirements described above, and does not establish that the interest is effectively connected with the non-U.S. holder's conduct of a U.S. trade or business, the non-U.S. holder generally will be subject to U.S. withholding tax on payments of stated interest, currently imposed at 30%. Under certain income tax treaties, the U.S. withholding rate on payments of interest may be reduced or eliminated, provided the non-U.S. holder complies with the applicable certification requirements (generally, by providing a properly completed IRS Form W-8BEN or W-8BEN-E, as applicable).

*Disposition.* A non-U.S. holder generally will not be subject to U.S. federal income taxation with respect to any gain realized on a sale, exchange, redemption or other disposition of a note, unless:

(1) the gain is effectively connected with the non-U.S. holder's conduct of a U.S. trade or business (and, in the case of certain tax treaties, the gain is attributable to a permanent establishment or fixed base within the United States); or

(2) in the case of an individual, such individual is present in the United States for 183 days or more during the taxable year in which gain is realized and certain other conditions are met.

If the first exception applies, the non-U.S. holder generally will be subject to U.S. federal income tax on a net basis in generally the same manner as a U.S. holder and, if it is a foreign corporation, may be subject to a 30% U.S. branch profits tax (or lower applicable treaty rate) on its effectively connected earnings and profits (subject to adjustments). If the second exception applies, the non-U.S. holder generally will be subject to U.S. federal income tax at a rate of 30% (or at a reduced rate under an applicable income tax treaty) on the amount by which capital gains allocable to U.S. sources (including gains from the sale, exchange, retirement or other disposition of the notes) exceed capital losses allocable to U.S. sources.

*Certain Withholding Rules.* Withholding at a rate of 30% generally will be required on interest payments in respect of, and, after December 31, 2016, gross proceeds from the sale or other disposition of, notes held by or through certain foreign financial institutions (including investment funds), unless such institution (i) enters into, and complies with, an agreement with the IRS to report, on an annual basis, information with respect to interests in, and accounts maintained by, the institution that are owned by certain U.S. persons and by certain non-U.S. entities that are wholly or partially owned by U.S. persons and to withhold on certain payments, or (ii) if required under an intergovernmental agreement between the United States and an applicable foreign country, reports such information to its local tax authority, which will exchange such information with the U.S. authorities. Accordingly, the entity through which the notes are held will affect the determination of whether such withholding is required. Similarly interest payments in respect of, and, after December 31, 2016, gross proceeds from a sale or other disposition of, notes held by or through an entity that is a non-financial foreign entity

Table of Contents

that does not qualify under certain exemptions generally will be subject to withholding at a rate of 30%, unless such entity either (i) certifies that such entity does not have any "substantial United States owners" or (ii) provides certain information regarding the entity's "substantial United States owners," which we will in turn provide to the Internal Revenue Service. An intergovernmental agreement between the United States and an applicable foreign country may modify the foregoing requirements. We will not pay any additional amounts to non-U.S. holders in respect of any amounts withheld. Prospective investors should consult their tax advisors regarding the possible implications of these rules on their investment in the notes.

Table of Contents**UNDERWRITING**

Merrill Lynch, Pierce, Fenner & Smith Incorporated and Citigroup Global Markets Inc. are acting as representatives of each of the underwriters named below. Subject to the terms and conditions set forth in a firm commitment underwriting agreement among us and the underwriters, we have agreed to sell to the underwriters, and each of the underwriters has agreed, severally and not jointly, to purchase from us, the principal amount of notes set forth opposite its name below.

<u>Underwriter</u>	<u>Principal Amount of Notes</u>
Merrill Lynch, Pierce, Fenner & Smith Incorporated	\$ 258,125,000
Citigroup Global Markets Inc.	258,125,000
Barclays Capital Inc.	52,500,000
Credit Suisse Securities (USA) LLC	52,500,000
Morgan Stanley & Co. LLC	52,500,000
Jefferies LLC	26,250,000
<b>Total</b>	<b>\$ 700,000,000</b>

Subject to the terms and conditions set forth in the underwriting agreement, the underwriters have agreed, severally and not jointly, to purchase all of the notes sold under the underwriting agreement if any of these notes are purchased. If an underwriter defaults, the underwriting agreement provides that the purchase commitments of the nondefaulting underwriters may be increased or the underwriting agreement may be terminated.

We have agreed to indemnify the underwriters and their controlling persons against certain liabilities in connection with this offering, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make in respect of those liabilities.

The underwriters are offering the notes, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the notes, and other conditions contained in the underwriting agreement, such as the receipt by the underwriters of officer's certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

**Commissions and Discounts**

The representatives have advised us that the underwriters propose initially to offer the notes to the public at the public offering price set forth on the cover page of this prospectus supplement. After the initial offering, the public offering price, concession or any other term of the offering may be changed.

The expenses of the offering, not including the underwriting discount, are estimated at \$2.3 million and are payable by us.

**New Issue of Notes**

The notes are a new issue of securities with no established trading market. We do not intend to apply for listing of the notes on any national securities exchange or for inclusion of the notes on any automated dealer quotation system. We have been advised by the underwriters that they presently intend to make a market in the notes after completion of the offering. However, they are under no obligation to do so and may discontinue any market-making activities at any time without any notice. We cannot assure the liquidity of the trading market for the notes or that an active public market for the notes will develop. If an active public trading market for the notes does not develop, the market

Table of Contents

price and liquidity of the notes may be adversely affected. If the notes are traded, they may trade at a discount from their initial offering price, depending on prevailing interest rates, the market for similar securities, our operating performance and financial condition, general economic conditions and other factors.

**No Sales of Similar Securities**

We have agreed that we will not, for a period of 60 days after the date of this offering memorandum, without first obtaining the prior written consent of Merrill Lynch, Pierce, Fenner & Smith Incorporated and Citigroup Global Markets Inc., directly or indirectly, issue, sell, offer to contract or grant any option to sell, pledge, transfer or otherwise dispose of, any debt securities or securities exchangeable for or convertible into debt securities, except for the notes sold to the underwriters pursuant to the underwriting agreement.

**Short Positions**

In connection with the offering, the underwriters may purchase and sell the notes in the open market. These transactions may include short sales and purchases on the open market to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater principal amount of notes than they are required to purchase in the offering. The underwriters must close out any short position by purchasing notes in the open market. A short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the notes in the open market after pricing that could adversely affect investors who purchase in the offering.

Similar to other purchase transactions, the underwriters' purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of the notes or preventing or retarding a decline in the market price of the notes. As a result, the price of the notes may be higher than the price that might otherwise exist in the open market.

Neither we nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the notes. In addition, neither we nor any of the underwriters make any representation that the representatives will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

**Other Relationships**

Some of the underwriters and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us or our affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions. Affiliates of the underwriters may provide advisory services to us or the sellers in connection with, and may provide financing for, the potential acquisitions discussed under "Summary Potential Acquisitions."

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. Certain of the underwriters or their affiliates that have a lending relationship with us routinely hedge their credit exposure to us consistent with their customary risk management policies. Typically, such underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such short positions could adversely affect future trading prices of the notes offered hereby. The underwriters and

Table of Contents

their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

**Extended Settlement**

We expect delivery of the notes will be made against payment therefor on December 3, 2014, which is the fifth business day following the date of pricing of the notes (such settlement being referred to as "T+5"). Under Rule 15c6-1 of the Exchange Act, trades in the secondary market generally are required to settle in three business days unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade notes on the day of pricing or the next succeeding business day will be required, by virtue of the fact that the notes initially settle in T+5, to specify an alternative settlement arrangement at the time of any such trade to prevent a failed settlement. Purchasers of the notes who wish to trade the notes prior to their date of delivery hereunder should consult their advisors.

**CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS**

This prospectus contains or incorporates by reference certain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 that reflect our current views with respect to, among other things, future events and financial performance. You can identify these forward-looking statements by the use of forward-looking words such as "outlook," "believes," "expects," "potential," "continues," "may," "will," "should," "could," "seeks," "approximately," "predicts," "intends," "plans," "estimates," "anticipates," "target," "projects," "contemplates" or the negative version of those words or other comparable words. Any forward-looking statements contained or incorporated by reference in this prospectus are based upon our historical performance and on our current plans, estimates and expectations in light of information currently available to us. Such forward-looking statements are subject to various risks and uncertainties and assumptions relating to our operations, financial results, financial condition, business, prospects, growth strategy and liquidity. Accordingly, there are or will be important factors that could cause our actual results to differ materially from those indicated in these statements. As set forth more fully under "Part I, Item 1A. Risk Factors" in SHI's most recent Annual Report on Form 10-K and SFC's most recent Annual Report on Form 10-K, which are incorporated by reference herein, factors that could have a material adverse effect on our operations and future prospects include, but are not limited to:

changes in general economic conditions, including the interest rate environment in which we conduct business and the financial markets through which we can access capital and also invest cash flows from our insurance segment;

levels of unemployment and personal bankruptcies;

natural or accidental events such as earthquakes, hurricanes, tornadoes, fires, or floods affecting our customers, collateral, or branches or other operating facilities;

war, acts of terrorism, riots, civil disruption, pandemics, or other events disrupting business or commerce;

the effect of future sales of our remaining portfolio of real estate loans and the transfer of servicing for these loans;

changes in the rate at which we can collect or potentially sell our finance receivables portfolio;

the effectiveness of our credit risk scoring models in assessing the risk of customer unwillingness or lack of capacity to repay;

changes in our ability to attract and retain employees or key executives to support our businesses;

changes in the competitive environment in which we operate, including the demand for our products, customer responsiveness to our distribution channels, and the strength and ability of our competitors to operate independently or to enter into business combinations that result in a more attractive range of customer products or provide greater financial resources;

shifts in collateral values, delinquencies, or credit losses;

changes in federal, state and local laws, regulations, or regulatory policies and practices, including the Dodd-Frank Wall Street Reform and Consumer Protection Act (which, among other things, established the Consumer Financial Protection Bureau, which has broad authority to regulate and examine financial institutions), that affect our ability to conduct business

or the manner in which we conduct business, such as licensing requirements, pricing limitations or restrictions on the method of offering products, as well as changes that may result from increased regulatory scrutiny of the sub-prime lending industry;

Table of Contents

potential liability relating to real estate and personal loans which we have sold or may sell in the future, or relating to securitized loans, if it is determined that there was a non-curable breach of a warranty made in connection with such transactions;

the costs and effects of any litigation or governmental inquiries or investigations involving us, particularly those that are determined adversely to us;

our continued ability to access the capital markets or the sufficiency of our current sources of funds to satisfy our cash flow requirements;

our ability to comply with our debt covenants;

our ability to generate sufficient cash to service all of our indebtedness;

our substantial indebtedness, which could prevent us from meeting our obligations under our debt instruments and limit our ability to react to changes in the economy or our industry, or our ability to incur additional borrowings;

the potential for downgrade of our debt by rating agencies, which would have a negative impact on our cost of, and access to, capital;

the impacts of our securitizations and borrowings;

our ability to maintain sufficient capital levels in our regulated and unregulated subsidiaries;

the material weakness that we have identified in our internal control over financial reporting; and

changes in accounting standards or tax policies and practices and the application of such new policies and practices to the manner in which we conduct business.

The forward-looking statements made or incorporated by reference in this prospectus relate only to events as of the date on which the statements are made. We do not undertake any obligation to publicly update or review any forward-looking statement except as required by law, whether as a result of new information, future developments or otherwise.

If one or more of these or other risks or uncertainties materialize, or if our underlying assumptions prove to be incorrect, our actual results may vary materially from what we may have expressed or implied by these forward-looking statements. We caution that you should not place undue reliance on any of our forward-looking statements. You should specifically consider the factors identified in this prospectus that could cause actual results to differ before making an investment decision to purchase our securities. Furthermore, new risks and uncertainties arise from time to time, and it is impossible for us to predict those events or how they may affect us.

**OUR COMPANY**

We are a leading consumer finance company providing responsible loan products to customers through our branch network and through our internet lending business, known as our iLoan division. We have a nearly 100-year track record of high quality origination, underwriting and servicing of personal loans, primarily to non-prime consumers. Our deep understanding of local markets and customers, together with our proprietary underwriting process and data analytics, allow us to price, manage and monitor risk effectively through changing economic conditions. With an experienced management team, a strong balance sheet, proven access to the capital markets and strong demand for consumer credit, we believe we are well positioned for future growth.

We staff each of our branch offices with local, well-trained personnel who have significant experience in the industry and with Springleaf. Our business model revolves around an effective origination, underwriting, and servicing process that leverages each branch office's local presence in these communities along with the personal relationships developed with our customers. Credit quality is also driven by our long-standing underwriting philosophy, which takes into account each prospective customer's household budget, and his or her willingness and capacity to repay the loan. Our extensive network of branches and expert personnel is complemented by our iLoan division. Formed at the beginning of 2013, our iLoan division allows us to reach customers located outside our branch footprint and to more effectively process applications from customers within our branch footprint who prefer the convenience of online transactions.

In connection with our personal loan business, our two insurance subsidiaries offer our customers credit and non-credit insurance policies covering our customers and the property pledged as collateral for our personal loans.

In addition, we pursue strategic acquisitions of loan portfolios through our loan portfolio acquisitions business, known as our Springleaf Acquisitions division, which we service through our centralized servicing operation. As part of this strategy, on April 1, 2013, we acquired the SpringCastle Portfolio through a joint venture in which we own a 47% equity interest. See "Core Consumer Operations Acquisitions and Servicing" in SHI's Annual Report on Form 10-K for the fiscal year ended December 31, 2013 for further information on the SpringCastle Portfolio. Through the acquisition of the SpringCastle Portfolio and other similar acquisitions, we expect to achieve a meaningful return on our investment as well as receive servicing fee income.

We also intend to pursue fee-based opportunities in servicing loans for others through Springleaf Servicing Solutions, our centralized servicing division. See "Centralized Support Springleaf Servicing Solutions" in SHI's Annual Report on Form 10-K for the fiscal year ended December 31, 2013 for further information on our centralized servicing centers.

As of September 30, 2014, we had \$6.4 billion of net finance receivables due from over 1.3 million customer accounts.

SHI is a financial services holding company whose principal subsidiary is Springleaf Finance, Inc. ("SFI"). SFI's principal subsidiary is SFC, a financial services holding company with subsidiaries engaged in the consumer finance and credit insurance businesses. As of the date of this prospectus, Springleaf Financial Holdings, LLC (the "Initial Stockholder"), an entity controlled by a private equity fund managed by Fortress Investment Group LLC ("Fortress"), owns approximately 75% of SHI's outstanding common stock.
