This document is in two parts. The first part is this prospectus supplement, which describes the specific terms of the offering and also adds to and updates information contained in the accompanying prospectus and the documents incorporated by reference herein and therein. The second part is the accompanying prospectus, which gives more general information, some of which may not apply to this offering. It is important for you to read and consider all information contained in this prospectus supplement and the accompanying prospectus in making your investment decision. To fully understand this offering, you should also read all of these documents, including those referred to under the caption "*Where You Can Find More Information*" and "*Incorporation by Reference*" in this prospectus supplement. Investors should carefully review the risk factors relating to us in the section captioned "*Risk Factors*" herein, in Item 3 of our Annual Report on Form 20-F for the year ended December 31, 2016, filed with the SEC on March 20, 2017. To the extent there is a conflict between the information contained or incorporated by reference in this prospectus supplement, on the one hand, and the information contained in the accompanying prospectus, on the other hand, the information contained or incorporated by reference in this prospectus supplement shall control. As used in this prospectus supplement and the accompanying prospectus, unless otherwise stated or the context otherwise requires, references to "AerCap," "we," "us," "our" and "the Company" include AerCap Holdings N.V. and its subsidiaries as a combined entity.

This prospectus supplement has not been prepared in accordance with and is not a "prospectus" or a "supplement" for the purposes of Directive 2003/71/EC (as amended by Directive 2010/73/EU) (the "Prospectus Directive") and has not been reviewed or approved by the Central Bank of Ireland or any other competent authority for the purposes of the Prospectus Directive and is referred to as a "prospectus supplement" because this is the terminology used for such an offer document in the United States.

This prospectus supplement has been prepared on the basis that any offer of Notes in any Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "Relevant Member State") will be made pursuant to an exemption under the Prospectus Directive from the requirement to publish a prospectus for offers of Notes. Accordingly any person making or intending to make an offer in that Relevant Member State of Notes which are the subject of the offering contemplated in this prospectus supplement may only do so in circumstances in which no obligation arises for the Issuers, the Guarantors or the underwriters to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer. None of the Issuers, the Guarantors or the underwriters has authorized, nor do they authorize, the making of any offer of Notes in circumstances in which an obligation arises for the Issuers, the Guarantors or the underwriters to publish or supplement a prospectus for such offer. In this paragraph, the expression "Prospectus Directive" means Directive 2003/71/EC (and amendments thereto, including Directive 2010/73/EU).

Except as otherwise noted, all dollar amounts in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein and therein are in U.S. dollars. The consolidated financial statements of the Company and of International Lease Finance Corporation ("ILFC") incorporated by reference herein have been prepared in accordance with U.S. generally accepted accounting principles ("GAAP").

FORWARD LOOKING STATEMENTS

This prospectus supplement, the accompanying prospectus and the documents incorporated by reference into this prospectus supplement and the accompanying prospectus include "forward looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. We have based these forward looking statements on our current beliefs and projections about future events and financial trends affecting our business. Many important factors, in addition to those discussed in this prospectus supplement, could cause our actual results to differ substantially from those anticipated in our forward looking statements, including, among other things:

the availability of capital to us and to our customers and changes in interest rates,

the ability of our lessees and potential lessees to make operating lease payments to us,

our ability to successfully negotiate aircraft purchases, sales and leases, to collect outstanding amounts due and to repossess aircraft under defaulted leases, and to control costs and expenses,

changes in the overall demand for commercial aircraft leasing and aircraft management services,

the effects of terrorist attacks on the aviation industry and on our operations,

the economic condition of the global airline and cargo industry and the economic and political conditions,

developments of increased government regulation, including regulation of trade and the imposition of import and export controls, tariffs and other trade barriers,

competitive pressures within the industry,

the negotiation of aircraft management services contracts,

regulatory changes affecting commercial aircraft operators, aircraft maintenance, engine standards, accounting standards and taxes, and

the risks described or referred to in "*Risk Factors*" in this prospectus, any prospectus supplement and in our Annual Report on Form 20-F for the year ended December 31, 2016.

The words "believe", "may", "aim", "estimate", "continue", "anticipate", "intend", "expect" and similar words are intended to identify forward looking statements. Forward looking statements include information concerning our possible or assumed future results of operations, business strategies, financing plans, competitive position, industry environment, potential growth opportunities, the effects of future regulation and the effects of competition. Forward looking statements speak only as of the date they were made and we undertake no obligation to update publicly or to revise any forward looking statements because of new information, future events or other factors. In light of the risks and uncertainties described above, the forward looking events and circumstances described in this prospectus supplement and the accompanying prospectus might not occur and are not guarantees of future performance. The factors described above should not be construed as exhaustive and should be read in conjunction with the other cautionary statements and the risk factors that are included under "*Risk Factors*" herein and in our Annual Report on Form 20-F for the year ended December 31, 2016. Except as required by applicable law, we do not undertake any obligation to publicly update or review any forward looking statement, whether as a result of new information, future developments or otherwise.

PROSPECTUS SUMMARY

This summary highlights the information contained elsewhere in or incorporated by reference into this prospectus supplement. Because this is only a summary, it does not contain all of the information that may be important to you. You should read this entire prospectus supplement carefully together with the information incorporated by reference herein, including "Risk Factors" and the financial statements, and notes related thereto, incorporated by reference in this prospectus supplement, before making an investment decision.

Our Business

We are the world's largest independent aircraft leasing company. We focus on acquiring in-demand aircraft at attractive prices, funding them efficiently, hedging interest rate risk conservatively and using our platform to deploy these assets with the objective of delivering superior risk adjusted returns. We believe that by applying our expertise, we will be able to identify and execute on a broad range of market opportunities that we expect will generate attractive returns for our shareholders. We are an independent aircraft lessor, and, as such, we are not affiliated with any airframe or engine manufacturer. This independence provides us with purchasing flexibility to acquire aircraft or engine models regardless of the manufacturer.

We operate our business on a global basis, leasing aircraft to customers in every major geographical region. As of December 31, 2016, we owned 1,022 aircraft. In addition, we managed 95 aircraft and AerDragon, a non-consolidated joint venture, owned another 29 aircraft. As of December 31, 2016, we also had 420 new aircraft on order, including 204 Airbus A320neo Family aircraft, 109 Boeing 737MAX aircraft, 50 Embraer E-Jets E2 aircraft, 38 Boeing 787 aircraft and 19 Airbus A350 aircraft. As of December 31, 2016, the average age of our 1,022 owned aircraft fleet, weighted by net book value, was 7.4 years and as of December 31, 2015, the average age of our 1,109 owned aircraft fleet, weighted by net book value, was 7.7 years.

We lease most of our aircraft to airlines under operating leases. Under an operating lease, the lessee is responsible for the maintenance and servicing of the equipment during the lease term and the lessor receives the benefit, and assumes the risk, of the residual value of the equipment at the end of the lease. As of December 31, 2016, our owned and managed aircraft were leased to approximately 200 customers in approximately 80 countries.

We have the infrastructure, expertise and resources to execute a large number of diverse aircraft transactions in a variety of market conditions. During the year ended December 31, 2016, we executed 458 aircraft transactions. Our teams of dedicated marketing and asset trading professionals have been successful in leasing and managing our aircraft portfolio. During the year ended December 31, 2016, our weighted average owned aircraft utilization rate was 99.5%, calculated based on the number of days each aircraft was on lease during the year, weighted by the net book value of the aircraft.

Recent Developments

On June 19, 2017, we and Boeing announced an order for 30 Boeing 787-9 Dreamliners, which brought our total Boeing 787 delivery backlog including sale leasebacks to 67 Boeing 787s, in addition to 55 Boeing 787s already delivered as of such date.

RISK FACTORS

In addition to the other information included or incorporated by reference in this prospectus supplement or the accompanying prospectus, including in the section captioned "Risk Factors" in Item 3 of our Annual Report on Form 20-F for the year ended December 31, 2016 and the matters addressed under "Forward Looking Statements" in the accompanying prospectus, you should carefully consider the following risks before making any investment decisions with respect to the Notes.

Our substantial debt could adversely affect our cash flow and prevent us from fulfilling our obligations under our existing indebtedness and the Notes.

As of March 31, 2017, the principal amount of our outstanding indebtedness, which excludes fair value adjustments of \$0.5 billion and debt issuance costs and debt discounts of \$0.2 billion, was approximately \$27.2 billion (approximately 66% of our total assets as of that date), and for the three months ended March 31, 2017 our interest expense was \$0.3 billion. Due to the capital intensive nature of our business, we expect that we will incur additional indebtedness in the future and continue to maintain substantial levels of indebtedness. As of March 31, 2017, our fixed rate debt of \$18.8 billion represented approximately 69% of our principal amount of outstanding indebtedness. Our level of indebtedness:

requires a substantial portion of our cash flows from operations to be dedicated to interest and principal payments and therefore not available to fund our operations, working capital, capital expenditures, expansion, acquisitions or general corporate or other purposes;

may make it more difficult for us to satisfy our obligations with respect to the Notes;

restricts the ability of some of our subsidiaries and joint ventures to make distributions to us;

may impair our ability to obtain additional financing on favorable terms or at all in the future;

may limit our flexibility in planning for, or reacting to, changes in our business and industry;

may place us at a disadvantage compared to other less leveraged competitors; and

may make us more vulnerable to downturns in our business, our industry or the economy in general.

Despite our substantial debt, we may still be able to incur significantly more debt, including secured debt, which would increase the risks described herein.

Despite our current indebtedness levels, we expect to incur additional debt in the future to finance our operations, including purchasing aircraft and meeting our contractual obligations. The agreements relating to our debt, including our indentures, term loan facilities, ECA guaranteed financings, revolving credit facilities, securitizations, subordinated joint venture agreements and other financings, limit but do not prohibit our ability to incur additional debt. If we increase our total indebtedness, our debt service obligations will increase. We will become more exposed to the risks arising from our substantial level of indebtedness as described above as we become more leveraged. As of March 31, 2017, we had approximately \$7.2 billion of undrawn lines of credit available under our credit and term loan facilities, subject to certain conditions, including compliance with certain financial covenants. We regularly consider market conditions and our ability to incur indebtedness to either refinance existing indebtedness or for working capital. If additional debt is added to our current debt levels, the related risks we face could increase.

Table of Contents

The Irish Issuer, the Parent Guarantor and the other guarantors of the Notes are primarily holding companies with very limited operations and may not have access to sufficient cash to make payments on the Notes.

The Irish Issuer, the Parent Guarantor and the other guarantors of the Notes are primarily holding companies with very limited operations. Their only significant assets are the equity interests of their directly held subsidiaries. As a result, the Irish Issuer, the Parent Guarantor and the other guarantors of the Notes are dependent primarily upon dividends and other payments from their subsidiaries to generate the funds necessary to meet their outstanding debt service and other obligations, and such dividends may be restricted by law or the instruments governing their subsidiaries' indebtedness. Their subsidiaries may not generate sufficient cash from operations to enable the Issuers or the guarantors to make principal and interest payments on their indebtedness, including the Notes. In addition, their subsidiaries are separate and distinct legal entities and any payments of dividends, distributions, loans or advances to the Issuers or the guarantors by their subsidiaries could be subject to legal and contractual restrictions on dividends. In addition, payments to the Issuers or the guarantors by their subsidiaries will be contingent upon their subsidiaries' earnings. Additionally, we may be limited in our ability to cause any existing or future joint ventures to distribute their earnings to us. We cannot assure you that agreements governing the current and future indebtedness of our subsidiaries will permit those subsidiaries to provide the Issuers or the guarantors with sufficient cash to fund payments of principal, premiums, if any, and interest on the Notes when due. In the event that the Issuers or the guarantors do not receive distributions or other payments from their subsidiaries, they may be unable to make required payments on the Notes.

The Notes and the guarantees are effectively subordinated to our and the guarantors' existing and future secured indebtedness.

The Notes and the guarantees are unsecured obligations of the Issuers and each guarantor, respectively, and are effectively subordinated to all of the Issuers' and each guarantor's existing and future secured indebtedness and other secured obligations to the extent of the value of the assets securing such indebtedness and other obligations. As a result, in the event of any liquidation, insolvency, dissolution, reorganization or similar proceeding relating to us or our property, holders of any secured indebtedness of ours will have claims that are prior to the claims of any noteholder with respect to the assets securing such secured indebtedness. As of March 31, 2017, the Issuers and the guarantors had approximately \$16.6 billion of indebtedness outstanding (excluding fair value adjustments, debt issuance costs and debt discounts) of which approximately \$1.3 billion was secured.

If we defaulted on our obligations under any of our secured debt, our secured lenders would be entitled to foreclose on our assets securing that indebtedness and liquidate those assets. If any secured indebtedness were to be accelerated, we cannot assure you that our assets would be sufficient to repay in full that indebtedness and our other indebtedness, including amounts due on the Notes. In addition, upon any distribution of assets pursuant to any liquidation, insolvency, dissolution, reorganization or similar proceeding, the holders of our secured indebtedness will be entitled to receive payment in full from the proceeds of the collateral securing such secured indebtedness before the holders of the Notes will be entitled to receive any payment with respect thereto. As a result, the holders of the Notes may recover disproportionately less than the holders of secured indebtedness, and it is possible that there will be no assets from which claims of holders of the Notes can be satisfied or, if any assets remain, that the remaining assets will be insufficient to satisfy those claims in full.

The Indenture contains a covenant that provides that, subject to certain exceptions, we must secure the Notes equally and ratably with certain secured indebtedness that we or our restricted subsidiaries issue, assume or guarantee in the event that the amount of such secured indebtedness exceeds 20% of our consolidated net tangible assets, as defined in the Indenture, as shown on or derived from our most recent quarterly or annual consolidated balance sheet. If this covenant is triggered, we would be

obligated to secure the Notes equally and ratably with such other secured indebtedness. As equally and ratably secured parties, holders of the Notes would no longer be effectively subordinated to the other equally and ratably secured indebtedness. The value of the collateral securing our obligations to the holders of the Notes and to the other secured holders, however, could be insufficient to repay the holders of the Notes and the other secured holders in full. To the extent of any insufficiency in the value of such collateral, holders of the Notes would have unsecured claims ranking equally and ratably with unsecured creditors.

We may be able to obtain secured financing without regard to the foregoing limit under the Indenture by doing so through unrestricted subsidiaries. Our indentures provide us with significant flexibility to designate our subsidiaries (other than the Issuers and ILFC) as unrestricted and to invest in those unrestricted subsidiaries. We cannot predict, however, whether we would be able to obtain any required consents so as to incur additional secured debt under our other bank credit facilities and indentures, which also limit our ability to incur secured indebtedness. See "*Description of Notes Certain Covenants Restrictions on Liens.*"

The Notes and the guarantees are structurally subordinated to all of the existing and future liabilities, including trade payables, of our subsidiaries that are not, or do not become, guarantors of the Notes.

The Notes are not guaranteed by all of our subsidiaries. The Notes are guaranteed, jointly and severally, on a senior unsecured basis, by the Parent Guarantor, AerCap Aviation Solutions B.V., AerCap Ireland Limited, ILFC and AerCap U.S. Global Aviation LLC. In the future, other restricted subsidiaries of the Parent Guarantor may be required to guarantee the Notes. See "*Description of Notes Certain Covenants Future Subsidiary Guarantors.*" Our subsidiaries that do not guarantee the Notes, including any subsidiaries that we designate as unrestricted, have no obligation, contingent or otherwise, to pay amounts due under the Notes or to make any funds available to pay those amounts, whether by dividend, distribution, loan or other payment. Claims of holders of the Notes will therefore be structurally subordinated to all of the existing and future liabilities, including trade payables, of any non-guarantor subsidiary such that, in the event of an insolvency, liquidation, reorganization, dissolution or other winding-up of any subsidiary that is not a guarantor, all of that subsidiary's creditors (including trade creditors) would be entitled to payment in full out of that subsidiary's assets before the holders of the Notes would be entitled to any payment.

In addition, our subsidiaries that provide, or will provide, guarantees of the Notes will be automatically released from those guarantees upon the occurrence of certain events, including the designation of that subsidiary guarantor as an unrestricted subsidiary in accordance with the terms of the Indenture. The Indenture provides us with significant flexibility to designate our subsidiaries (other than the Issuers and ILFC) as unrestricted subsidiaries. If any subsidiary guarantee is released, no holder of the Notes will have a claim as a creditor against that subsidiary, and the indebtedness and other liabilities, including trade payables, of that subsidiary will be structurally senior to the claim of any holders of the Notes. See "*Description of Notes Guarantees.*"

As of March 31, 2017, our subsidiaries that are not guarantors of the Notes (other than the Issuers) had total liabilities, including trade payables (but excluding intercompany liabilities), of \$13.2 billion and total assets (excluding intercompany receivables) of \$22.0 billion. In addition, for the three months ended March 31, 2017, our subsidiaries that are not guarantors of the Notes (other than the Issuers) generated \$172.9 million, or approximately 66%, of our consolidated net income, and \$697.2 million, or approximately 56%, of our total revenues and other income.

The agreements governing our debt contain various covenants that impose restrictions on us that may affect our ability to operate our business and to make payments on the Notes.

Our indentures, term loan facilities, ECA guaranteed financings, revolving credit facilities, securitizations, other commercial bank financings and other agreements governing our debt impose operating and financial restrictions on our activities that limit or prohibit our ability to, among other things:

- incur additional indebtedness;
- create liens on assets;
- sell certain assets;
- make certain investments, loans, guarantees or advances;
- declare or pay certain dividends and distributions;
- make certain acquisitions;
- consolidate, amalgamate, merge, sell or otherwise dispose of all or substantially all of our assets;
- enter into transactions with our affiliates;
- change the business conducted by the borrowers and their respective subsidiaries;
- enter into a securitization transaction unless certain conditions are met; and
- access cash in restricted bank accounts.

The agreements governing certain of our indebtedness also contain financial covenants, such as requirements that we comply with certain loan-to-value, interest coverage and leverage ratios. These restrictions could impede our ability to operate our business by, among other things, limiting our ability to take advantage of financing, merger and acquisition and other corporate opportunities.

Various risks, uncertainties and events beyond our control could affect our ability to comply with these covenants and maintain these financial tests and ratios. Failure to comply with any of the covenants in our existing or future financing agreements would result in a default under those agreements and under other agreements containing cross-default provisions. Under these circumstances, we may have insufficient funds or other resources to satisfy all our obligations, including our obligations under the Notes.

Unrestricted subsidiaries will not be subject to the covenant in the Indenture limiting the Parent Guarantor's and its restricted subsidiaries' (including the Issuers') ability to secure indebtedness with liens on its or their assets.

Subject to compliance with the restrictive covenants contained in the Indenture, the Issuers will be permitted to designate any of the Parent Guarantor's subsidiaries (other than the Issuers and ILFC) as unrestricted subsidiaries. Any such subsidiaries would not be subject to the covenant in the Indenture limiting the Parent Guarantor's and its subsidiaries' ability to secure indebtedness with liens on its or their assets. Accordingly, we may secure indebtedness with the assets of any subsidiary we designate as unrestricted, which could reduce the amount of our

assets that would be available to satisfy your claims should we default on the Notes.

If an active trading market for the Notes develops, changes in our credit ratings or the debt markets could adversely affect the market prices of the Notes.

If an active trading market for the Notes develops, the market price for the Notes will depend on many factors, including:

our credit ratings with major credit rating agencies;

the number of potential buyers and level of liquidity of the Notes;

the prevailing interest rates being paid by other companies similar to us;

our results of operations, financial condition, liquidity and future prospects;

the time remaining until the Notes mature; and

the overall condition of the economy and the financial markets and the industry in which we operate.

The condition of the financial markets and prevailing interest rates have fluctuated in the past and are likely to fluctuate in the future. Fluctuations could have an adverse effect on the market prices of the Notes.

Credit rating agencies also continually review their ratings for debt securities of companies that they follow, including us. Negative changes in our ratings, or in our outlook, would likely have an adverse effect on the market prices of the Notes. One of the effects of any credit rating downgrade would be to increase our costs of borrowing in the future. In addition, if any credit rating initially assigned to the Notes is subsequently lowered or withdrawn for any reason, you may not be able to resell your notes without a substantial discount or at all.

Because your right to require repurchase of the Notes is limited, the trading price of the Notes may decline if we enter into a transaction that is not a change of control under the Indenture.

The term "Change of Control Triggering Event" under the Indenture is limited and does not include every event that might cause the trading price of the Notes to decline. The right of the holders of the Notes to require the Issuers to repurchase the Notes upon a Change of Control Triggering Event may not preserve the value of the Notes in the event of a highly leveraged transaction, reorganization, merger or similar transaction. We could engage in many types of transactions, such as acquisitions, refinancings or recapitalizations, any of which could substantially affect our capital structure and the value of the Notes but may not constitute a Change of Control Triggering Event that permits holders to require the Issuers to repurchase their Notes. See "*Description of Notes Repurchase Upon a Change of Control Triggering Event.*"

The Issuers may not be able to repurchase the Notes upon a change of control triggering event.

Upon the occurrence of a Change of Control Triggering Event, as defined in the Indenture, each holder of Notes has the right to require the Issuers to repurchase all or any part of such holder's Notes at a price equal to 101% of their principal amount, plus accrued and unpaid interest, if any, to, but not including, the date of repurchase. If we experience a Change of Control Triggering Event, we cannot assure you that the Issuers would have sufficient financial resources available to satisfy their obligations to repurchase the Notes. The Issuers' failure to repurchase the Notes as required under the Indenture would result in a default under the Indenture, which could result in defaults under the instruments governing our other indebtedness, including the acceleration of the payment of any borrowings thereunder, and have material adverse consequences for us and the holders of the Notes. See "*Description of Notes Repurchase Upon a Change of Control Triggering Event.*"

Table of Contents

Holders of the Notes may not be able to determine when a change of control giving rise to their right to have the Notes repurchased has occurred following a sale of "substantially all" of our assets.

A Change of Control Triggering Event, as defined in the Indenture, gives each holder of Notes the right to require the Issuers to make an offer to repurchase all or any part of such holder's Notes. One of the circumstances under which a change of control, which is a condition to a Change of Control Triggering Event, may occur is upon the sale or disposition of "all or substantially all" of our and our restricted subsidiaries' assets. There is no precise established definition of the phrase "substantially all" under applicable law and the interpretation of that phrase will likely depend upon particular facts and circumstances. Accordingly, the ability of a holder of Notes to require the Issuers to repurchase its Notes as a result of a sale of less than all of our assets to another person is uncertain.

Credit ratings on the Notes may not reflect all risks.

Any credit ratings assigned to the Notes may not reflect the potential impact of all risks related to structure, market, additional factors discussed above or incorporated by reference herein and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised, suspended or withdrawn by the rating agency at any time.

Federal and state fraudulent transfer laws may permit a court to void the Notes and any of the guarantees, subordinate claims in respect of the Notes and require noteholders to return payments received from us or the guarantors and, if that occurs, you may not receive any payments on the Notes.

Federal and state fraudulent transfer and conveyance statutes may apply to the issuance of the Notes. Under federal bankruptcy law and comparable provisions of state fraudulent transfer or conveyance laws, which may vary from state to state, the Notes could be voided as a fraudulent transfer or conveyance if (1) we issued the Notes with the intent of hindering, delaying or defrauding creditors or (2) we received less than reasonably equivalent value or fair consideration in return for issuing the Notes and, in the case of (2) only, one of the following is also true at the time thereof:

the applicable Issuer or the applicable guarantor were insolvent or rendered insolvent by reason of the issuance of the Notes;

the issuance of the Notes left the applicable Issuer or the applicable guarantor with an unreasonably small amount of capital to carry on business; or

the applicable Issuer or the applicable guarantor intended to, or believed that the applicable Issuer or the applicable guarantor would, incur debts beyond their ability to pay such debts as they mature.

Claims described under subparagraph (1) above are generally described as intentional fraudulent conveyances, while those under subparagraph (2) above are constructive fraudulent conveyances. A court would likely find that an Issuer did not receive reasonably equivalent value or fair consideration for the Notes if that Issuer did not substantially benefit directly or indirectly from the issuance of the Notes. As a general matter, value is given for a transfer or an obligation if, in exchange for the transfer or obligation, property is transferred or antecedent debt is secured or satisfied. To the extent that the fraudulent conveyance analysis turns on insolvency, as with a constructive fraudulent conveyance, the insolvency determination is an intensely factual one, which is supposed to be conducted based on current conditions rather than with the benefit of hindsight. Generally, an entity would be considered insolvent if, at the time it incurred indebtedness, insolvency was present based on one of three alternative tests described above. For purposes of evaluating solvency under the first of these tests, a court would evaluate whether the sum of an entity's debts, including contingent liabilities in light of the probabilities of their incurrence, was greater than the fair saleable value of all its assets.

Table of Contents

If a court were to find that the issuance of the Notes was a fraudulent transfer or conveyance, the court could void the payment obligations under the Notes or subordinate the Notes to presently existing and future indebtedness of ours, or require the holders of the Notes to repay any amounts received with respect to such Notes. In the event of a finding that a fraudulent transfer or conveyance occurred, you may not receive any repayment on the Notes.

Insolvency laws of Ireland, the Netherlands or other local insolvency laws may preclude holders of the Notes from recovering payments due on the Notes and may not be as favorable to you as those of another jurisdiction with which you may be familiar.

The Irish Issuer and AerCap Ireland Limited, a guarantor, are incorporated, have their registered offices and conduct the administration of their business in Ireland and are likely to have their center of main interests (within the meaning of article 3 of Council Regulation (EC) No. 1346/2000 on Insolvency Proceedings or Regulation 2015/848 of 20 May 2015 on Insolvency Proceedings, as may be in force from time to time ("the EU Insolvency Regulation")) in Ireland. Consequently, the main insolvency proceedings against the Irish Issuer and AerCap Ireland Limited are likely to be commenced in Ireland and based on Irish insolvency laws. The Parent Guarantor is incorporated under the laws of the Netherlands, has its statutory seat (*statutaire zetel*) in the Netherlands, conducts the administration of its business in Ireland and is likely to have its centre of main interests (within the meaning of the EU Insolvency Regulation) in Ireland. Consequently, the main insolvency proceedings against the Parent Guarantor are likely to be commenced in Ireland and based on Irish insolvency laws. AerCap Aviation Solutions B.V. is incorporated under the laws of the Netherlands and has its statutory seat (*statutaire zetel*) in the Netherlands, and is likely to have its centre of main interests (within the meaning of the EU Insolvency Regulation) in the Netherlands. Consequently, the main insolvency proceedings against AerCap Aviation Solutions B.V. would likely be initiated in the Netherlands. Secondary proceedings could be initiated in one or more EU jurisdictions (with the exception of Denmark) in which the Issuers, the Parent Guarantor, AerCap Aviation Solutions B.V. or any other guarantor, as the case may be, have an establishment.
