**New Jersey Mining Company**

**Notes to Consolidated Financial Statements (Unaudited)**

**1.**

**The Company and Significant Accounting Policies:**

These unaudited interim consolidated financial statements have been prepared by the management of New Jersey Mining Company (the Company) in accordance with accounting principles generally accepted in the United States of America for interim financial information. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete consolidated financial statements. In the opinion of the Company's management, all adjustments (consisting of only normal recurring accruals) considered necessary for a fair presentation of the interim consolidated financial statements have been included.

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities known to exist as of the date the financial statements are published, and the reported amounts of revenues and expenses during the reporting period. Uncertainties with respect to such estimates and assumptions are inherent in the preparation of the Company's financial statements; accordingly, it is possible that the actual results could differ from these estimates and assumptions, which could have a material effect on the reported amounts of the Company's financial position and results of operations. Operating results for the three and six month periods ended June 30, 2017 are not necessarily indicative of the results that may be expected for the full year ending December 31, 2017.

For further information refer to the financial statements and footnotes thereto in the Company's audited financial statements for the year ended December 31, 2016 as filed with the Securities and Exchange Commission.

**Principles of Consolidation**

At June 30, 2017 and December 31, 2016, the consolidated balance sheet includes the accounts of the Company and its majority-owned subsidiary, the New Jersey Mill Joint Venture ( NJMJV ). The consolidated statements of operations and cash flows for the period ended June 30, 2017 includes the same companies. The consolidated statements of operations and cash flows for the period ended June 30, 2016 also includes the Company's majority-owned subsidiary, GF&H Company. The Company acquired the remaining outstanding shares of GF&H Company in the third quarter 2016 and subsequently dissolved the company.

Intercompany accounts and transactions are eliminated. The portion of entities owned by other investors is presented as non-controlling interests on the consolidated balance sheets and statements of operations.

**Revenue Recognition**

Revenue is recognized when title and risk of ownership of metals or metal bearing concentrate have passed and collection is reasonably assured. Revenue from the sale of metals may be subject to adjustment upon final settlement of estimated metal prices, weights and assays, and are recorded as adjustments to revenue in the period of final settlement of prices, weights and assays; such adjustments are typically not material in relation to the initial invoice amounts. Revenues from mill operations and custom milling are recognized in the period in which the milling is completed, concentrates are shipped, and collection of payment is deemed probable.

**Pre-Development Activities**

Pre-development activities involve cost incurred that may ultimately benefit production, such as underground ramp development, pumping, and open pit development, which are expensed due to the lack of evidence of economic development, which is necessary to demonstrate future recoverability of these expenses. These cost are charged to operations as incurred.

**Inventory**

Inventory is stated at the lower of full cost of production or estimated net realizable value based on current metal prices. Costs consist of mining, transportation, and milling costs including applicable overhead, depreciation, depletion and amortization relating to the operations. Costs are allocated based on the stage at which the ore is in the production process.

**Fair Value Measurements**

When required to measure assets or liabilities at fair value, the Company uses a fair value hierarchy based on the level of independent, objective evidence surrounding the inputs used. The Company determines the level within the fair value hierarchy in which the fair value measurements in their entirety fall. The categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Level 1 uses quoted prices in active markets for identical assets or liabilities, Level 2 uses significant other observable inputs, and Level 3 uses significant unobservable inputs. The amount of the total gains or losses for the period are included in earnings that are attributable to the change in unrealized gains or losses relating to those assets and liabilities still held at the reporting date.

At June 30, 2017 and December 31, 2016, the Company determined fair value on a recurring basis as follows:

	June 30, 2017	December 31, 2016	Fair Value Hierarchy
Forward gold contracts-liability (Note 11)	\$ 1,194,109	\$ 1,386,228	2

**Concentration**

During the fourth quarter 2016 and through the six months ended June 30, 2017, the Company has sold all of its gold production to a concentrate broker, H&H Metal.

**Reclassifications**

Certain prior period amounts have been reclassified to conform to the 2017 financial statement presentation. Reclassifications had no effect on net loss, stockholders' equity, or cash flows as previously reported.

**New Jersey Mining Company**

**Notes to Consolidated Financial Statements (Unaudited)**

**2.**

**Going Concern**

The Company's cash flow is directly related to revenues generated from production and milling activities. The Company has experienced operating losses and negative operating cash flows prior to and during the ramp up of production activities at the Golden Chest Mine. In addition to cash flow from operations, ongoing operations are dependent on the Company's ability to obtain public equity financing by the issuance of capital and to generate profitable operations in the future.

The Company is currently producing from the open-pit at the Golden Chest Mine and preparing to begin production underground, which is expected in the second half of 2017. In addition, during the first half of 2017, production has generated positive cash flow of \$10,623 and planned production for the next 18 months indicates the trend to improve. The Company has also been successful in raising required capital to commence production and fund ongoing operations, completing a forward gold sale of \$1.2 million in 2016 and closing private placements of \$1.4 million in the first quarter of 2017. A debt restructuring to longer term is also being considered for the mineral property note payable on which \$375,000 is payable in the next twelve months.

As a result of its planned production, equity sales and ability to restructure debt, management believes cash flows from operations and existing cash are sufficient to conduct planned operations and meet contractual obligations for the next 12 months.

**3.**

**Related Party Notes Payable**

At June 30, 2017 and December 31, 2016, the Company had the following notes and interest payable to related parties:

	June 30,	December 31,
--	----------	--------------

Edgar Filing: NEW JERSEY MINING CO - Form 10-Q

Long term portion	\$ 733,720	\$ 513,715

Related Party interest expense for the three and six month periods ending June 30, 2017 and 2016 is as follows:

June 30, 2017		June 30, 2016	
3 months	6 months	3 months	6 months
\$ 13,636	\$ 28,969	\$ 16,791	\$ 30,682

During the quarter ended March 31, 2017 in conjunction with a private placement (Note 9), the Company issued 1,000,000 units of its common stock and warrants with a value of \$100,000 in exchange for \$95,734 in principal and \$4,266 in accrued interest on a note payable due to John Swallow, the Company's president.

Subsequent to June 30, 2017, notes with Mr. Swallow were amended to extend the balloon payments on both notes to February 2019.

#### 4.

#### Joint Ventures

For joint ventures in which the Company holds more than 50% of the voting interest and has significant influence, the joint venture is consolidated with the presentation of non-controlling interest. For joint ventures in which the Company does not have joint control or significant influence, the cost method is used. For those joint ventures in which there is joint control between the parties, and the Company has significant influence, the equity method is utilized.

Edgar Filing: NEW JERSEY MINING CO - Form 10-Q

At June 30, 2017 and December 31, 2016, the Company's percentage ownership and method of accounting for each joint venture is as follows:

<b>Joint Venture</b>	<b>June 30, 2017</b>			<b>December 31, 2016</b>		
	<b>% Ownership</b>	<b>Significant Influence?</b>	<b>Accounting Method</b>	<b>% Ownership</b>	<b>Significant Influence?</b>	<b>Accounting Method</b>
New Jersey Mill Joint Venture( NJMJV )	65%	Yes	Consolidated	65%	Yes	Consolidated
Butte Highlands Joint Venture ( BHJV )	50%	No	Cost	50%	No	Cost

**New Jersey Mining Company****Notes to Consolidated Financial Statements (Unaudited)****New Jersey Mill Joint Venture Agreement**

At June 30, 2017 and December 31, 2016, an account receivable existed with Crescent for \$7,606 and \$2,888, respectively, for shared operating costs as defined in the JV agreement.

Crescent's non-controlling interest in the JV changed from December 31, 2016 to June 30, 2017 as follows:

Balance December 31, 2016	\$	3,142,312
Contribution from non-controlling interest		14,903
Net loss attributable to non-controlling interest		(27,307)
Balance June 30, 2017	\$	3,129,908

**Butte Highlands JV, LLC ( BHJV )**

On January 29, 2016, the Company purchased a 50% interest in Butte Highlands JV, LLC ( BHJV ) from Timberline Resources Corporation for \$225,000 in cash and 3,000,000 restricted shares of the Company's common stock valued at \$210,000 for a total consideration of \$435,000. Highland Mining, LLC ( Highland ) is the other 50% owner and manager of the joint venture. Under the agreement, Highland will fund all future project exploration and mine development costs. The agreement stipulates that Highland is manager of BHJV and will manage BHJV until such time as all mine development costs, less \$2 million are distributed to Highland out of the proceeds from future mine production. The Company has determined that because it does not currently have significant influence over the joint venture's activities, it accounts for its investment on a cost basis. The Company purchased the interest in the BHJV to provide additional opportunities for exploration and development and expand the Company's mineral property portfolio.

**5.****Earnings per Share**

For the six month period ending June 30, 2017 and the three month and six month periods ending June 30, 2016, all outstanding options and warrants were excluded from the computation of diluted loss per share, as net losses for those periods would cause their conversion and exercise to have no effect on the calculation of loss per share. For the three month period ended June 30, 2017, 3,250,000 options and 1,200,000 warrants are included in the calculation of diluted income per share.

**Forward Gold Contracts**

On July 13, 2016, the Company entered into a forward gold contract with Ophir Holdings LLC ("Ophir"), a company owned by three of the Company's officers, for net proceeds of \$467,500 to fund startup costs at the Golden Chest. The contract calls for the Company to deliver a total of 500 ounces of gold to the purchasers with quarterly payments equivalent to \$25,000 in ounces starting February 1, 2017 until all other investors in forward gold contracts are paid in full at which time the quarterly payments will increase to the equivalent of \$75,000 in ounces until the remaining balance is paid in full as gold is produced from the Golden Chest Mine and New Jersey Mill. During the first two quarters of 2017, the Company paid the equivalent of 40.5 gold ounces to Ophir. At June 30, 2017, future gold deliveries are 459.5 ounces due.

On July 29, 2016, the Company entered into forward gold contracts through GVC Capital LLC ( "GVC" ) for net proceeds of \$772,806 to fund startup costs at the Golden Chest. The agreement calls for the Company to deliver a total of 904 ounces of gold to the purchasers in quarterly payments starting December 1, 2016 for a period of two years as gold is produced from the Golden Chest Mine and New Jersey Mill. During the first two quarters of 2017, the Company paid the equivalent of 227.5 gold ounces to GVC. At June 30, 2017, future gold deliveries are 224.5 ounces due in the remainder of 2017 and 339 ounces due in 2018.

The gold to be delivered does not need to be produced from the Golden Chest property. In addition, the counterparties can request cash payment instead of gold ounces for each quarterly payment. The cash payments are based on average gold prices for the applicable quarter. The contracts are accounted for as derivatives requiring their value to be adjusted to fair value each period end. The change in balance for the forward gold contracts for the quarter ended June 30, 2017 is as follows:

Balance January 1, 2017	\$	1,386,228
Payments:		
In cash		(175,828)
In gold purchased by the Company		(157,887)
Change in fair value		141,596
Balance June 30, 2017		1,194,109
Current		629,035
Long term	\$	565,074

The fair value was calculated using the market approach with Level 2 inputs for forward gold contract rates and a discount rate of 10%.

### **Plan of Operation**

The Company is utilizing its business experience and operational capabilities to advance its diversified cash flow plan.

The Company's plan of operation is to generate cash flow primarily from current and future mine operations (as they are developed) with a view toward building an asset base focused on cash flow and/or production, thus reducing reliance on the capital markets. The Company has leveraged its property and mineral processing assets into joint ventures that brought exploration or development funding from partners. This strategy includes finding, evaluating, and developing potential mineral deposits of significant quality and quantity to justify investment in mining and/or mineral processing facilities, preferably following considerable prior investment and advancement (de-risking) by others. The Company's primary focus is on gold with silver and base metals of secondary emphasis.

The Company has a portfolio of mineral properties including: the Golden Chest Mine (placed in production in the 4<sup>th</sup> quarter of 2016), the Butte Highlands Mine (50% carried interest acquired during the first quarter of 2016), the New Jersey Mine (historic mine adjacent to the New Jersey Mill), and several exploration prospects including the McKinley, Eastern Star, and Toboggan projects. The Company is also the manager and majority-owner of the New Jersey Mill Joint Venture, which when in operation, is capable of processing both silver and gold ores through a 360 tonne per day (tpd) flotation plant. The New Jersey Mill is currently processing ore from the Golden Chest.

### **Highlights during the first half of 2017 include:**

Approximately 13,525 tonnes of ore from the open pit have been processed through the New Jersey Mill. Approximately 7,425 tonnes of ore from the open pit were processed in the second quarter at an average head grade of 5.29 grams per tonne (gpt) gold with average recoveries of 87.7%. 1,319 ounces were sold in the second quarter of 2017.

Dewatering of the underground mine and installation of permanent mining equipment and ventilation is complete.

Identified expansion potential of open pit are at the Golden Chest Mine.

Closed private placements of \$1.14 million with participation from management and strategic shareholders including the Company's concentrate broker H&H Metals Corp.

Total liabilities reduced \$726,491 as compared to December 31, 2016.

### **Results of Operations**

There was \$1,262,690 and \$1,952,008 in revenue in the three and six-month periods respectively ending June 30, 2017 compared to \$48,312 and \$92,277 for the comparable periods in 2016. The revenue in 2017 was from mining and milling of ore from the Golden Chest Mine whereas minimal activity occurred in the first half of 2016. The net income (loss) attributable to the Company of \$200,672 and (\$62,473) for the three and six month period ending June 30, 2017 compared to the net loss of (\$97,554) and (\$288,034) in the comparable period of 2016 are a result of operations at the Golden Chest property and New Jersey mill in the half of 2017. Net income (loss) for the six months ending June 30, 2017 also includes a charge of \$141,596 for the change in fair value of forward gold contracts that did not exist in the first half of 2016.

The Company began ramp up, production, and milling of ore from the Golden Chest property open pit in the fourth quarter of 2016 and continued production throughout the first half of 2017. The Company plans to expand the open pit and add production from the underground workings in the third quarter of 2017.

### ***Gold Sales***

Gold sales income increased in 2017 compared to 2016 as a result processing ore from the Golden Chest

### ***Milling Income***

Milling income decreased in 2017 compared to 2016 as a result of termination of the Skookum lease in September 2015.

***Production***

Production costs increased in 2017 compared to 2016 as a result of production at the Golden Chest and the associated milling.

***Predevelopment expenses***

Predevelopment expenses are a new item in 2017 related to pumping and other activities being done in preparation for underground mining which is to commence in the third quarter.

***Exploration***

Exploration cost decreased in 2017 compared to 2016 as a result the Company's focus on ramp up of production at the Golden Chest.

***Depreciation***

Depreciation increased in 2017 compared to 2016 as a result of units of production depreciation calculations as the mill and Golden Chest as production of ore proceeds in 2017.

***Management***

Management expenses were higher 2017 compared to the comparable period of 2016 as a result of 1,150,000 non cash stock option awards being granted to management in the later part of 2016 some of which are being expensed through 2017 as they become vested.

***Accounting and Legal Services***

Accounting and legal services expenses were higher in 2017 compared to the comparable period of 2017 as a result of increased activity including seeking a listing on the Canadian Stock Exchange and services related to collection of debt owed the company by Premium Exploration.

***General and Administrative Expenses***

General and administrative expenses were higher in 2017 compared to the comparable period of 2016 as a result of increased activity.

***Change in Fair Value of Forward Gold Contracts***

Change in fair value of forward gold contracts is a new item in 2017 compared to the first half of 2016 and is based upon the fair value of the gold ounces to be delivered to investors who participated in forward gold contracts with the Company in the third quarter of 2016.

**Financial Condition and Liquidity**

**For the Periods Ended**

**June 30**

Edgar Filing: NEW JERSEY MINING CO - Form 10-Q

Net cash provided (used) by:	<b>2017</b>	<b>2016</b>
Operating activities	\$ 10,623	\$ (65,023)
Investing activities	(117,720)	(346,923)
Financing activities	272,339	360,706
Net change in cash and cash equivalents	165,242	(51,240)
Cash and cash equivalents, beginning of period	154,833	62,275
Cash and cash equivalents, end of period	<b>\$ 320,075</b>	<b>\$ 11,035</b>

The Company's cash flow is directly related to revenues generated from production and milling activities. The Company has experienced operating losses and negative operating cash flows prior to and during the ramp up of production activities at the Golden Chest Mine. In addition to cash flow from operations, ongoing operations are dependent on the Company's ability to obtain public equity financing by the issuance of capital and to generate profitable operations in the future.

The Company is currently producing from the open-pit at the Golden Chest Mine and preparing to begin production underground, which is expected in the second half of 2017. In addition, during the first half of 2017, production has generated positive cash flow of \$10,623 and planned production for the next 18 months indicates the trend to improve. The Company has also been successful in raising required capital to commence production and fund ongoing operations, completing a forward gold sale of \$1.2 million in 2016 and closing private placements of \$1.4 million in the first quarter of 2017. A debt restructuring to longer term is also being considered for the mineral property note payable on which \$375,000 is payable in the next twelve months.

As a result of its planned production, equity sales and ability to restructure debt, management believes cash flows from operations and existing cash are sufficient to conduct planned operations and meet contractual obligations for the next 12 months.

### **Changes in Financial Condition**

The Company maintains an adequate cash balance by increasing or decreasing its discretionary expenditures as limited by availability of cash from operations or from financing activities. The cash balance at June 30, 2017 was \$320,075 compared to \$154,833 at the end of 2016.

### ***Cash and Cash Equivalents***

Cash and cash equivalents increased as of June 30, 2017 compared to December 31, 2016 as a result of cash flows from production as well as equity financing in the first quarter of 2017

### ***Gold Sales Receivable***

Gold sales receivable increased as of June 30, 2017 compared to December 31, 2016 as a result of an increase in gold sales.

***Reclamation Bond***

The reclamation bond balance increased as of June 30, 2017 compared to December 31, 2016 because an additional reclamation bond was posted with the Idaho Department of Lands for expansion of the Golden Chest open pit reclamation.

***Notes and Interest Payable Related Parties***

Notes and interest payable related parties have decreased overall as of June 30, 2017 compared to December 31, 2016 as scheduled payments have been made. Additionally, two notes have been amended resulting in reclassification of current debt to long term.

***Forward Gold Contracts***

Forward gold contracts have decreased overall as of June 30, 2017 compared to December 31, 2016 as scheduled payments have been made. Additionally, Ophir Holdings, a related party, has agreed to delay the delivery of gold ounces due to it resulting in reclassification some of the current portion of gold forward contracts to long term.

***Accounts Payable***

Cash outflows from accounts payable have leveled off as of June 30, 2017 compared to December 31, 2016 as a result of more consistent operating activity as the Company continues operations.

***Reclamation Bond***

The cash outflow for reclamation bond increased as of June 30, 2017 compared to December 31, 2016 because an additional reclamation bond was posted with the Idaho Department of Lands for the Golden Chest open pit reclamation. The reclamation bond purchase in 2016 occurred in the third quarter.

***Investment in Joint Venture***

Cash flow for purchase of investment in joint venture in the first quarter of 2016 were because of the acquisition of the 50% interest in the Butte Highlands JV.

***Sales of Common Stock and Warrants, Net of Issuance Costs***

The Company completed two private placements in the first quarter of 2017.

***Borrowings on Notes Payable, Related Parties***

In 2016 the Company received funding from related parties to fund the startup of the Golden Chest production.

***Borrowings under Line of Credit***

In 2016 the Company utilized an existing line of credit for short term cash requirements.

***Payments on Forward Gold Contracts in Cash and Gold Coins Purchased for Payments on Forward Gold Contracts***

Payments on forward gold contracts in cash and gold coins purchased for payments on forward gold contracts are new payments for the forward gold contracts entered into in the third quarter of 2016.

***Principal Payments on Notes Payable***

Cash outflow for principal payments on notes payable increased in 2017 compared to 2016 as a result of payments on a note payable for the Golden Chest.

***Principal Payments on Notes Payables Related Party***

Cash outflow for principal payments on notes payable related party increased in 2017 compared to 2016 as a result of payments on a note payables to the Company's related parties.
