NOTES TO FINANCIAL STATEMENTS

March 31, 2006 AND 2005

The information presented herein as of March 31, 2006, and for the three-months ended March 31, 2006, is unaudited.

(1) Organization:

Advanced 3D Ultrasound Services, Inc. was incorporated on September 23, 1997. Advanced 3D Ultrasound Services, Inc. merged with World Energy Solutions, Inc. (WESI) effective August 17, 2005. Advanced 3D Ultrasound Services, Inc. remained as the surviving entity as the legal acquiror, while WESI was the accounting acquiror.

On November 7, 2005, Advanced 3D Ultrasound Services, Inc. changed its name to World Energy Solutions, Inc. Additionally, the Company agreed to increase its authorized common shares to 100,000,000 shares.

On November 7, 2005, WESI merged with Professional Technical Systems, Inc. (PTS). WESI remained as the surviving entity as the legal acquiror, while PTS was the accounting acquirer.

(2) Basis of Presentation:

The accompanying financial statements of WESI (the Company) have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB and Item 310(b) of Regulation S-B. Accordingly, they do not include all the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal required adjustments) considered necessary for a fair presentation have been included.

Operating results for the three-month period ended March 31, 2006, are not necessarily indicative of the results that may be expected for the year ending December 31, 2006. For further information, refer to the financial statements and footnotes included in the Company's annual report of Form 10-KSB for the year ended December 31, 2005.

Net loss per common share is computed in accordance with the requirements of Statement of Financial Accounting Standards No. 128 (SFAS 128). SFAS 128

Edgar Filing: WORLD ENERGY SOLUTIONS, INC. - Form 10QSB

requires net loss per share information to be computed using a simple weighted average of common shares outstanding during the periods presented.

(3) Stock Transactions:

On January 31, 2006, the Company entered into employment agreements with its CEO/CFO and President. The agreements call for annual salaries of \$156,000 and 600,000 shares of Company common stock. The common stock was valued at \$1.50 per share based on the recent trading price for the Company's common stock. The total value of the shares issued (\$1,800,000) was included in salaries expense during the first quarter of 2006. The employment agreements contain a noncompete agreement and provide for severance pay equal to one year base salary.

On January 31, 2006, the Company entered into six consulting agreements for various services including marketing, business development, product design engineering and product development, real estate acquisition and business planning. These agreements provide as compensation the issuance of 925,000 shares of common stock. The stock was valued at \$1.50 per share based on the recent trading price for the Company's common stock. Three of the agreements are for terms ranging from 12 months to 26 months. The value of those agreements (\$337,500) has been capitalized as prepaid expenses and is being recognized as consulting expense over the life of the agreement. The value of the common stock issued related to the remaining agreements (\$1,050,000) has been expensed during the first quarter of 2006. Additionally, the agreements include total cash compensation of \$3,050 per week and reimbursement of expenses. Lastly, two of the agreements allow for additional compensation to be determined between the Company and the consultant for specific services.

F-5

WORLD ENERGY SOLUTIONS, INC.
(FORMERLY ADVANCED 3D ULTRASOUND SERVICES, INC.)

NOTES TO FINANCIAL STATEMENTS

March 31, 2006 AND 2005

(3) Stock Transactions: (Continued)

On February 4, 2006, the Company entered into a media campaign agreement for nationally syndicated newspaper and/or radio features in exchange for restricted common stock valued at \$1,000,000 to be satisfied in two payments. On February 28, 2006, the Company made the first payment with the issuance of 326,797 shares of restricted common stock. The value of these shares (\$550,000) has been expensed during the first quarter of 2006.

(4) Subsequent Events:

On April 3, 2006, the Company entered into a financial and strategic consulting agreement with a consultant for investor introductions leading to qualified equity financing up to \$10 million and project financing up to \$100 million. Additionally the consultant will provide financial consulting services including the development of financial projections, presentation materials and customized proposals. For these services the consultant received 6,309,000 unregistered shares of common stock on April 3, 2006. The value of the shares issued will be capitalized as deferred offering costs in anticipation of equity financing to be received.

Edgar Filing: WORLD ENERGY SOLUTIONS, INC. - Form 10QSB

Item 2. Management's Discussion and Analysis or Plan of Operation.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Introduction

World Energy Solutions, Inc. (referred to as the "Company", "WESI," "New WESI," or in the first person notations of "we," "us," and "our") began operations in 1984 under the corporate name of Professional Technical Systems, Inc. (PTS). PTS merged with WESI in November 2005 (the "November 2005 Merger") with WESI being the legal acquiror but PTS being the accounting acquiror. Therefore the financial statements presented herein are those of WESI (formerly known as PTS) as the surviving entity of the November 2005 Merger.

In August 2005, a Florida corporation named World Engery Solutions, Inc. ("Old WESI") merged with Advanced 3D Ultrasound, Inc. (ADVU) with ADVU being the legal acquiror but Old WESI being the accounting acquiror (the "August 2005 Merger"). ADVU was the surviving entity of the August 2005 Merger and subsequently changed its name to WESI.

ADVU, Old WESI, and New WESI, prior to merging with PTS, had no revenues and minimal assets and activity. PTS has been the operating manufacturer before and after the merger.

WESI manufactures and sells transient voltage surge suppressors and related products and commercial and residential energy-saving equipment and applications to distributors and customers throughout the United States. Although this activity is expected to continue, the Company plans to implement a new business model to market a multi-product package to commercial, industrial and residential facilities in order to lower their overall cost of electric, gas and water. The Company plans to market its package both by direct sales as well as a Shared Revenue Program (SRP) where the Company pays for the entire installation in return for a percentage of the realized savings. This new business model is expected to increase revenues and profits for the Company.

Liquidity and Capital Resources

Our cash remained stable at approximately \$283,000 as of March 31, 2006 compared to \$240,000 as of December 31, 2005. This is due mostly to proceeds from the sale of common stock since we are using cash for operating activities.

The cash used in operations in 2006 exceeded the cash used in operations in 2005 by approximately \$18,000. Although gross profit from sales remained virtually unchanged, general and administrative expenses increased approximately \$3,572,000. This increase is attributable to increased salaries and consulting fees. However, approximately \$3,400,000 of salaries and consulting fees were funded through the issuance of common stock during the first quarter of 2006. These agreements are for future services but were funded almost entirely in the first quarter of 2006.

We do not believe our working capital is sufficient to implement the full spectrum of our planned, new energy-saving business model. Operations in 2006 and most of 2005 have been funded in large part through the sale of common stock and such funding will need to continue in order to allow us to implement our new business model. The Company has been successful in acquiring certain services through consulting agreements that are funded in large part through the issuance of common stock as noted above. However, the Company currently is offering its stock through a private placement memorandum. The Company plans to raise up to \$10,000,000 through this sale of common stock. The proceeds from the sale will

Edgar Filing: WORLD ENERGY SOLUTIONS, INC. - Form 10QSB

be used to fund research and development, consulting and professional fees, new job installs, other expenses and for working capital.

On January 31, 2006, the Company entered into employment agreements with its CEO/CFO and President. The agreements call for annual salaries of \$156,000 and 600,000 shares of Company common stock. The employment agreements contain noncompete agreements and provide for severance pay equal to one year base salary.

On January 31, 2006, the Company entered into six consulting agreements for various services including marketing, business development, product design engineering and product development, real estate acquisition and business planning. These agreements provide as compensation the issuance of 925,000 shares of common stock. Additionally, the agreements include total cash compensation of \$3,050 per week and reimbursement of expenses. Lastly, two of the agreements allow for additional compensation to be determined between the Company and the consultant for specific services.

On February 24, 2006, the Company entered into a media campaign agreement for nationally syndicated newspaper and/or radio features in exchange for restricted common stock valued at \$1,000,000 to be satisfied in two payments. On February 28, 2006, the Company made the first payment with the issuance of 326,797 shares of restricted common stock. This media campaign will be utilized to gain national attention for the Company and its business model of energy saving contracts.

On April 3, 2006, the Company entered into a financial and strategic consulting agreement with a consultant for investor introductions leading to qualified equity financing up to \$10 million and project financing up to \$100 million. Additionally the consultant will provide financial consulting services including the development of financial projections, presentation materials and customized proposals. For these services the consultant received 6,309,000 unregistered shares of common stock on April 3, 2006.

Currently the Company has debt financing either from its officers, or guaranteed by its officers. Debt financing is not expected to be a funding resource.

Results of Operations and Critical Accounting Policies and Estimates

The results of operations are based on preparation of financial statements in conformity with accounting principles generally accepted in the United States. The preparation of financial statements requires management to select accounting policies for critical accounting areas as well as estimates and assumptions that affect the amounts reported in the financial statements. The Company's accounting policies are more fully described in Note 1 of Notes to Financial Statements found in the Company's annual financial statements filed with Form 10-KSB. We have identified the following accounting policy and related judgment as critical to understanding the results of our operations.

Valuation Allowance on Deferred Tax Assets

SFAS No. 109, "Accounting for Income Taxes" requires that deferred tax assets be evaluated for future realization and reduced by a valuation allowance to the extent we believe a portion will not be realized. We consider many factors when assessing the likelihood of future realization of our deferred tax assets including our recent cumulative earnings experience, expectations of future taxable income, the carry-forward periods available to us for tax reporting purposes and other relevant factors. At December 31, 2005, our net deferred tax assets are \$3,949,000, comprised principally of net operating loss carry forwards (NOLs). Classification of deferred tax assets between current and

Edgar Filing: WORLD ENERGY SOLUTIONS, INC. - Form 10QSB

long-term categories is based on the expected timing of realization, and the valuation allowance is allocated on a prorata basis.

We have reflected a valuation allowance of 100%, which resulted in an income tax benefit of zero. The range of possible judgments relating to the valuation of our deferred tax asset is very wide. If we had concluded that the weight of available evidence supported a decision that substantially all of our deferred tax assets may be realized, we would have a substantial income tax benefit in our statement of operations. Significant judgment is required in making this assessment, and it is very difficult to predict when, if ever, our assessment may conclude our deferred tax assets is realizable.

2006 Compared to 2005

Total product sales for 2006 were \$104,000 compared to 2005 sales of \$105,000.

Gross profit on sales decreased from 44% in 2005 to 42% in 2006.

Our general and administrative expenses increased to \$3,734,000 in 2006 from \$162,000 in 2005. The Company incurred consulting fees of \$1,125,000 in 2006 and none in 2005 related to its proposed business model. Lastly, salaries increased approximately \$1,932,000 due to increased salaries, additional personnel and the employment agreements with the Company's president and its CEO/CFO as noted above.

We expect significant increases in future consulting, salary and research and development expenses as a result of the implementation of our new business model.

Forward-looking Statement

All statements other than statements of historical fact in this report are "forward-looking statements" as defined in the Private Securities Litigation Reform Act of 1995, and are based on management's current expectations of the Company's near term results, based on current information available and pertaining to the Company. The Company assumes no obligation to publicly update any forward-looking statements. Actual results may differ materially from those projected in the forward-looking statements.

Item 3. Controls and Procedures.

(a) Evaluation of disclosure controls and procedures

The Company's management, recognizes its responsibility for establishing and maintaining internal control over financial reporting for the Company. After evaluating the effectiveness of our "disclosure controls and procedures" (as defined in the Securities Exchange Act of 1934 Rules 13a-15(e) and 15d-15(e)) as of March 31, 2006 (the "Evaluation Date"), the Company's management has concluded, as of the Evaluation Date, the Company's disclosure controls and procedures were adequate and designed to ensure the information required to be disclosed in the reports filed or submitted by us under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported with in the requisite time periods.

(b) Effectiveness of Internal Control

The Company's management is reviewing the Company's internal controls over financial reporting to determine the most suitable recognized control framework. The Company will give great weight and deference to the product of the discussions of the SEC's Advisory Committee on Smaller Public Companies (the "Advisory Committee") and the Committee of Sponsoring Organizations' task force

Edgar Filing: WORLD ENERGY SOLUTIONS, INC. - Form 10QSB

entitled Implementing the COSO Control Framework in Smaller Businesses (the "Task Force"). Both the Advisory Committee and the Task Force are expected to provide practical, needed guidance regarding the applicability of Section 404 of the Sarbanes-Oxley Act to small business issuers. The Company's management intends to perform the evaluation required by Section 404 of the Sarbanes-Oxley Act at such time as a framework is adopted by the Company. At such time the Company adopts and implements a framework and as required by the SEC's reporting requirements, the Company's registered accounting firm will issue an "attestation report" on the Company management's assessment of internal controls.

(c) Changes in Internal Controls

After evaluation by the Company's management, the Company's management has determined there were no significant changes in the Company's internal controls or in other factors that could significantly affect the Company's internal controls subsequent to the Evaluation Date.

Part II. Other Information

(b) REPORTS ON FORM 8-K:

Form 8-K Filed on April 5, 2006.

Item 1.01 on Form 8-K: Entry into a Material Definitive Agreement.

On April 3, 2006 World Energy Solutions, Inc. ("WESI" or the "Company") entered into a Financial and Strategic Consulting Agreement (the "Agreement") with Gray Capital Partners, Inc. ("Gray Capital") of Atlanta, Georgia. Pursuant to the Agreement, Gray Capital will introduce the Company to prospective capital sources and actively assist the Company with negotiations regarding terms and structuring of equity capital financing, senior or sub-debt, convertible debt instruments and/or commercial credit lines. The purpose of securing the equity investments and debt financing is for use by WESI in the execution of its business plan and acquisitions on a best efforts basis. The term of the Agreement is for a period of one year.

The Agreement provides Gray Capital will assist the Company with acquiring equity capital financing in amounts of up to ten million dollars (\$10,000,000.00). The Agreement also provides Gray Capital will assist the Company in acquiring project financing through, among other things, secured senior debt in an amount of up to one hundred million dollars (\$100,000,000.00). The security to be provided by the Company for said debt financing is undetermined as of the date of the Agreement and will be ascertained as debt financing arrangements are negotiated.

Finally, Gray Capital will assist the Company in identifying merger and acquisition targets, as well as venture capital funds, hedge funds, underwriters and market makers and further provide consulting services toward the strategic development and deployment of the Company's unique energy conservation services business model.

In exchange for the services to be rendered under the Agreement, the Company has issued to Gray Capital, six million, three hundred nine thousand (6,309,000) shares of the Company's restricted common stock.

Item 3.02 on Form 8-K: Unregistered Sales of Equity Securities.

Pursuant to the Agreement identified in Item 1.01 above, the Company issued 6,309,000 shares of its restricted common stock to Gray Capital Partners, Inc. on April 4, 2006.

As consideration for its receipt of the Company's restricted common stock, Gray Capital has agreed to assist the Company with acquiring equity capital financing in amounts of up to ten million dollars (\$10,000,000.00). The Agreement also provides that Gray Capital will assist the Company in acquiring project financing through, among other things, secured senior debt in an amount of up to one hundred million dollars (\$100,000,000.00). Finally, Gray Capital will assist the Company in identifying merger and acquisition targets, as well as venture capital funds, hedge funds, underwriters and market makers and further provide consulting services toward the strategic development and deployment of the Company's unique energy conservation services business model.

Form 8-K Filed on May 2, 2006.

Item 1.01 on Form 8-K: Entry Into a Material Definitive Agreement.

On April 27, 2006 World Energy Solutions, Inc. ("WESI") entered into a Subcontract Agreement (the "Agreement") with Fort Berthold Development Corporation, Inc. ("FBDC") to participate as a subcontractor on construction projects where FBDC will be the General Contractor for the United States Department of the Interior ("DOI"). The term of the Agreement is two years. FBDC is identified as the General Contractor under an existing contract with the DOI.

Under the Agreement, WESI will provide all management, supervision, estimating, labor, material, tools, and equipment necessary for the performance of minor construction, rehabilitation, alterations and new construction for various DOI locations and installations within the Washington D.C. metropolitan area and nationwide as requested by FBDC in various task orders submitted to WESI. The Company's entry into the Agreement follows its earlier execution of a Teaming Agreement with FBDC to pursue procurement of contracts with the United States Government in response to its dissemination of requests for proposals to obtain goods and services. The Agreement furthers the business plan of FBDC and WESI to jointly cooperate in the submission of proposals to and procurement of contracts with the United States Government regarding comprehensive energy savings and construction solutions for government facilities.

Form 8-K/A Filed on May 2, 2006.

Form 8-K Filed on May 10, 2006.

Item 8.01 on Form 8-K: Other Events.

On May 8, 2006, World Energy Solutions, Inc. ("WESI" or the "Company") entered into a Memorandum of Understanding (the "Memorandum") with Chickasaw Nation Industries, Inc. ("CNI") to facilitate the Company's participation as a sub-consultant/subcontractor regarding construction projects pursued by the parties with CNI as the Lead Party/Prime Contractor. The purpose of the Memorandum is to provide a basic funding outline to facilitate the Company's participation in projects with CNI. Pursuant to the Memorandum, CNI may

Edgar Filing: WORLD ENERGY SOLUTIONS, INC. - Form 10QSB

initially commit up to \$1,000,000.00 to various construction projects mutually agreed upon and ultimately approved by CNI, such as hospitals, schools, federal facilities and/or hotels. Each agreed upon project will be subject to a proposed performance contract containing terms and conditions that are mutually agreeable to WESI and CNI.

The Memorandum follows the Teaming Agreement between WESI and CNI dated December 20, 2005. Under the one-year Teaming Agreement CNI and WESI plan to jointly cooperate to bid on and make proposals for contracts to offer governmental entities/agencies and private customers comprehensive energy savings and construction solutions for government, commercial, industrial and residential facilities.
