QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934

For the quarterly period ended DECEMBER 31, 2016
OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE
SECURITIES
EXCHANGE ACT OF 1934

For the transition period from _____ to _____
Commission File Number 1-2299

APPLIED INDUSTRIAL TECHNOLOGIES, INC.
(Exact name of registrant as specified in its charter)

Ohio 34-0117420
(State or other jurisdiction of (I.R.S. Employer
incorporation or organization) Identification Number)

One Applied Plaza, Cleveland, Ohio 44115
(Address of principal executive offices) (Zip Code)
Registrant's telephone number, including area code: (216) 426-4000
(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
Yes No

There were 38,988,343 (no par value) shares of common stock outstanding on January 13, 2017.

APPLIED INDUSTRIAL TECHNOLOGIES, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands, except per share amounts) (Unaudited)

1. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of the financial position of Applied Industrial Technologies, Inc. (the “Company”, or “Applied”) as of December 31, 2016, and the results of its operations for the three and six month periods ended December 31, 2016 and 2015 and its cash flows for the six month periods ended December 31, 2016 and 2015, have been included. The condensed consolidated balance sheet as of June 30, 2016 has been derived from the audited consolidated financial statements at that date. This Quarterly Report on Form 10-Q should be read in conjunction with the Company’s Annual Report on Form 10-K for the year ended June 30, 2016.

Operating results for the three and six month periods ended December 31, 2016 are not necessarily indicative of the results that may be expected for the remainder of the fiscal year ending June 30, 2017.

Change in Accounting Principle - Share-based Payment Awards

In March 2016, the FASB issued its final standard on simplifying the accounting for share-based payment awards. This standard, issued as ASU 2016-09, simplifies several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification on the statement of cash flows, and accounting for forfeitures. This update is effective for annual and interim financial statement periods beginning after December 15, 2016, with early adoption permitted. The Company early adopted ASU 2016-09 in the first quarter of fiscal 2017.

The new standard requires prospective recognition of excess tax benefits and deficiencies resulting from stock-based compensation awards vesting and exercises be recognized in the income statement. Previously, these amounts were recognized in additional paid-in capital. Net excess tax benefits of \$575 and \$718 for the three and six months ending December 31, 2016, respectively, were recognized as a reduction of income tax expense. In addition, ASU 2016-09 requires excess tax benefits and deficiencies to be prospectively excluded from the assumed future proceeds in the calculation of diluted shares, resulting in an insignificant increase in diluted weighted average shares outstanding for the six months ending December 31, 2016, which did not have a material impact on earnings per share.

The Company has elected to continue to estimate the number of stock-based awards expected to vest, as permitted by ASU 2016-09, rather than electing to account for forfeitures as they occur.

The standard requires that excess tax benefits from share based compensation awards be reported as operating activities in the consolidated statements of cash flows. Previously, these cash flows were included in financing activities. We have elected to apply this change on a prospective basis, resulting in an increase in net cash provided by operating activities and net cash used in financing activities of \$575 and \$718 for the three and six months ending December 31, 2016, respectively.

ASU 2016-09 requires that employee taxes paid when an employer withholds shares for tax-withholding purposes be reported as financing activities in the consolidated statements of cash flows. Previously, these cash flows were included in operating activities. This change was required to be applied on a retrospective basis. As such, the

consolidated statements of cash flows for the prior periods were revised. This change resulted in an increase in net cash provided by operating activities and in net cash used in financing activities of \$903 for the six months ending December 31, 2015.

Change in Accounting Principle - Debt Issue Costs

In April 2015, the FASB issued its final standard on simplifying the presentation of debt issue costs. This standard, issued as ASU 2015-03, requires that all costs incurred to issue debt be presented in the balance sheet as a direct reduction from the carrying value of the debt, rather than as an asset. This update is effective for annual financial statement periods beginning after December 15, 2015, and interim periods within those fiscal years. As required, the Company adopted ASU 2015-03 in the first quarter of fiscal 2017 and has applied the new standard retrospectively.

Table of Contents

APPLIED INDUSTRIAL TECHNOLOGIES, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands, except per share amounts) (Unaudited)

The retrospective adoption of ASU 2015-03 resulted in the reclassification as of June 30, 2016 of unamortized debt issue costs of \$105 from other current assets to a reduction of current portion of long-term debt and \$399 from other assets to a reduction of long-term debt on the Company's condensed consolidated balance sheets.

Change in Accounting Principle - Measurement-period Adjustments for Business Combinations

In September 2015, the FASB issued its final standard on simplifying the accounting for measurement-period adjustments for business combinations. This standard, issued as ASU 2015-16, requires that an entity that is the acquirer in a business combination that identifies adjustments to provisional amounts during the measurement period to recognize those adjustments in the reporting period in which the amounts are determined. This update further requires that the acquirer record, in the same period's financial statements, the effect on earnings of changes in depreciation, amortization, or other income effects, if any, as a result of the change to the provisional amounts, calculated as if the accounting had been completed at the acquisition date. The update is effective for annual and interim financial statement periods beginning after December 15, 2015, and is applied prospectively to adjustments to provisional amounts that occur after the effective date of this update, with early adoption permitted. The Company adopted ASU 2015-16 in the first quarter of fiscal 2017. The adoption of this update did not have a material impact on the financial statements of the Company.

Inventory

The Company uses the last-in, first-out (LIFO) method of valuing U.S. inventories. An actual valuation of inventory under the LIFO method can be made only at the end of each year based on the inventory levels and costs at that time. Accordingly, interim LIFO calculations are based on management's estimates of expected year-end inventory levels and costs and are subject to the final year-end LIFO inventory determination.

Recently Issued Accounting Guidance

In May 2014, the FASB issued its final standard on the recognition of revenue from contracts with customers. The standard, issued as ASU 2014-09, outlines a single comprehensive model for entities to use in the accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry specific guidance. The core principle of this model is that "an entity recognizes revenue to depict the transfer of promised goods or services to a customer in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services." In August 2015, the FASB issued ASU 2015-14 to delay the effective date of ASU 2014-09 by one year. In accordance with the delay, the update is effective for annual and interim financial statement periods beginning after December 15, 2017. Early adoption is permitted, but not before financial statement periods beginning after December 15, 2016. In March 2016 the FASB issued ASU 2016-08 and ASU 2016-10, and in May 2016 the FASB issued ASU 2016-12, which clarify the guidance in ASU 2014-09 but do not change the core principle of the revenue recognition model. The Company has not determined the collective impact of these pronouncements on its financial statements and related disclosures or the method of adoption.

In July 2015, the FASB issued its final standard on simplifying the measurement of inventory. This standard, issued as ASU 2015-11, specifies that an entity should measure inventory at the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation. The new standard does not apply to inventory that is measured using LIFO; therefore, it is not applicable to the Company's U.S. inventory values, but does apply to the Company's foreign inventories which are valued using the average cost method. The update is effective for annual and interim financial statement periods beginning after December 15, 2016, with earlier application permitted. The Company has not yet

determined the impact of this pronouncement on its financial statements and related disclosures.

In February 2016, the FASB issued its final standard on accounting for leases. This standard, issued as ASU 2016-02, requires that an entity that is a lessee recognize lease assets and lease liabilities on the balance sheet for all leases and disclose key information about leasing arrangements. The core principle of this update is that a "lessee should recognize the assets and liabilities that arise from leases." This update is effective for annual and interim financial statement periods beginning after December 15, 2018, with earlier application permitted. The Company has not yet determined the impact of this pronouncement on its financial statements and related disclosures.

Table of Contents

APPLIED INDUSTRIAL TECHNOLOGIES, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands, except per share amounts) (Unaudited)

In June 2016, the FASB issued its final standard on measurement of credit losses on financial instruments. This standard, issued as ASU 2016-13, requires that an entity measure impairment of certain financial instruments, including trade receivables, based on expected losses rather than incurred losses. This update is effective for annual and interim financial statement periods beginning after December 15, 2019, with early adoption permitted for financial statement periods beginning after December 15, 2018. The Company has not yet determined the impact of this pronouncement on its financial statements and related disclosures.

In August 2016, the FASB issued its final standard on the classification of certain cash receipts and cash payments within the statement of cash flows. This standard, issued as ASU 2016-15, makes a number of changes meant to add or clarify guidance on the classification of certain cash receipts and payments in the statement of cash flows. This update is effective for annual and interim financial statement periods beginning after December 15, 2018, with early adoption permitted. The Company has not yet determined the impact of this pronouncement on its financial statements and related disclosures.

In October 2016, the FASB issued its final standard on the income tax consequences of intra-entity transfers of assets other than inventory. This standard, issued as ASU 2016-16, requires that an entity recognize the income tax consequences of an intra-entity transfer of an asset other than inventory when the transfer occurs and eliminates the exception for an intra-entity transfer of an asset other than inventory. This update is effective for annual and interim financial statement periods beginning after December 15, 2017, with early adoption permitted. The Company has not yet determined the impact of this pronouncement on its financial statements and related disclosures.

2. BUSINESS COMBINATIONS

The operating results of all acquired entities are included within the consolidated operating results of the Company from the date of each respective acquisition.

Fiscal 2016 Acquisitions

On June 14, 2016, the Company acquired 100% of the outstanding stock of Seals Unlimited ("Seals"), a distributor of sealing, fastener, and hose products located in Burlington, Ontario. On January 4, 2016, the Company acquired substantially all of the net assets of HUB Industrial Supply ("HUB"), a distributor of consumable industrial products operating from three locations - Lake City, FL, Indianapolis, IN, and Las Vegas, NV. On August 3, 2015, the Company acquired substantially all of the net assets of Atlantic Fasteners Co., Inc. ("Atlantic Fasteners"), a distributor of C-Class consumables including industrial fasteners and related industrial supplies located in Agawam, MA. Seals, HUB, and Atlantic Fasteners are all included in the Service Center Based Distribution segment. On October 1, 2015, the Company acquired substantially all of the net assets of S.G. Morris Co. ("SGM"). SGM, headquartered in Cleveland, OH, is a distributor of hydraulic components throughout Ohio, Western Pennsylvania and West Virginia and is included in the Fluid Power Businesses Segment. The total combined consideration for these acquisitions was approximately \$65,900, net tangible assets acquired were \$22,700, and intangibles including goodwill were \$43,200 based upon estimated fair values at the acquisition dates. The estimated fair values related to Seals are preliminary and subject to adjustment. The total combined consideration includes \$3,300 of acquisition holdback payments, of which \$625 was paid during the first quarter of fiscal 2017. The remaining balance of \$2,675 is included in other current liabilities and other liabilities on the condensed consolidated balance sheets, which will be paid plus interest at various times through October 2018. The Company funded the amounts paid for the acquisitions at closing using available cash and borrowings under the revolving credit facility at variable interest rates. The acquisition prices and the results of operations for the acquired entities are not material in relation to the Company's condensed consolidated financial statements.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands, except per share amounts) (Unaudited)

3. GOODWILL AND INTANGIBLES

The changes in the carrying amount of goodwill for both the Service Center Based Distribution segment and the Fluid Power Businesses segment for the fiscal year ended June 30, 2016 and the six month period ended December 31, 2016 are as follows:

	Service Centers	Fluid Power	Total
Balance at July 1, 2015	\$253,477	\$929	\$254,406
Goodwill acquired during the period	18,683	3,285	21,968
Impairment	(64,794)	—	(64,794)
Other, primarily currency translation	(8,880)	—	(8,880)
Balance at June 30, 2016	\$198,486	\$4,214	\$202,700
Goodwill added during the period	3,220	—	3,220
Other, primarily currency translation	(1,513)	(444)	(1,957)
Balance at December 31, 2016	\$200,193	\$3,770	\$203,963

On July 1, 2016, the Company enacted a change in its management reporting structure which changed the composition of the Canada service center reporting unit. This triggering event required the Company to perform an interim goodwill impairment test for the Canada service center reporting unit. The Company performed step one of the goodwill impairment test for the Canada service center reporting unit as of July 1, 2016 and determined that the reporting unit had excess fair value of approximately \$8,000 or 5% when compared to its carrying amount of approximately \$163,000. The fair value of the reporting unit in accordance with step one of the goodwill impairment test was determined using the Income and Market approaches. The Income approach employs the discounted cash flow method reflecting projected cash flows expected to be generated by market participants and then adjusted for time value of money factors. The Market approach utilized an analysis of comparable publicly traded companies.

The techniques used in the Company's impairment test incorporated a number of assumptions that the Company believes to be reasonable and to reflect known market conditions at the measurement date. Assumptions in estimating future cash flows are subject to a degree of judgment. The Company makes all efforts to forecast future cash flows as accurately as possible with the information available at the measurement date. The Company evaluates the appropriateness of its assumptions and overall forecasts by comparing projected results of upcoming years with actual results of preceding years. Key Level 3 based assumptions relate to pricing trends, inventory costs, customer demand, and revenue growth. A number of benchmarks from independent industry and other economic publications were also used. Changes in future results, assumptions, and estimates after the measurement date may lead to an outcome where impairment charges would be required in future periods. Specifically, actual results may vary from the Company's forecasts and such variations may be material and unfavorable, thereby triggering the need for future impairment tests where the conclusions may differ in reflection of prevailing market conditions. Further, continued adverse market conditions could result in the recognition of additional impairment if the Company determines that the fair values of its reporting units have fallen below their carrying values.

In conjunction with this management change, \$2,628 of goodwill was reallocated from the Canada service center reporting unit to the U.S. service center reporting unit based on the relative fair value as of July 1, 2016.

At December 31, 2016 and June 30, 2016, accumulated goodwill impairment losses, subsequent to fiscal year 2002, totaled \$36,605 related to the Fluid Power Businesses segment and totaled \$64,794 related to the Service Center Based Distribution segment.

During the six months ended December 31, 2016, the Company recorded an adjustment to the preliminary estimated fair value of intangible assets related to the HUB acquisition. The fair values of the customer relationships and trade names intangible assets were decreased by \$2,636 and \$584, respectively, with a corresponding total increase to goodwill of \$3,220. The changes to the preliminary estimated fair values resulted in a decrease to amortization expense of \$156 during the six months ended December 31, 2016, which is recorded in selling, distribution and administrative expense on the condensed statements of consolidated income.

Total Identifiable Intangibles	\$293,718	\$ 120,258	\$173,460

June 30, 2016	Amount	Accumulated Amortization	Net Book Value
Finite-Lived Identifiable Intangibles:			
Customer relationships	\$239,132	\$ 84,566	\$154,566
Trade names	44,430	16,099	28,331
Vendor relationships	14,042	8,003	6,039
Non-competition agreements	4,700	2,396	2,304
Total Identifiable Intangibles	\$302,304	\$ 111,064	\$191,240

Amounts include the impact of foreign currency translation. Fully amortized amounts are written off.

Due to continued softness in the upstream oil and gas industry, management also assessed long-lived intangible assets related to the Reliance asset group for impairment during the first quarter of fiscal 2017. The sum of the undiscounted cash flows exceeded the carrying value of the asset group of \$100,664 by 8%, therefore, no impairment was recognized. Changes in future results, assumptions, and estimates after the measurement date may lead to an outcome where impairment charges would be required in future periods. Specifically, actual results may vary from the Company's forecasts and such variations may be material and unfavorable, thereby triggering the need for future impairment tests where the conclusions may differ in reflection of prevailing market conditions. Further, continued adverse market conditions could result in the recognition of additional impairment if the Company determines that the fair values of its intangible assets have fallen below their carrying values.

Estimated future amortization expense by fiscal year (based on the Company's identifiable intangible assets as of December 31, 2016) for the next five years is as follows: \$12,200 for the remainder of 2017, \$22,200 for 2018, \$20,500 for 2019, \$18,700 for 2020, \$17,200 for 2021 and \$14,900 for 2022.

4. DEBT

Revolving Credit Facility & Term Loan

In December 2015, the Company entered into a five-year credit facility with a group of banks expiring in December 2020. This agreement provides for a \$125,000 unsecured term loan and a \$250,000 unsecured revolving credit facility. Fees on this facility range from 0.09% to 0.175% per year based upon the Company's leverage ratio at each quarter end. Borrowings under this agreement carry variable interest rates tied to either LIBOR or prime at the Company's discretion. At December 31, 2016 and June 30, 2016, the Company had \$121,875 and \$123,438, respectively, outstanding under the term loan, and \$34,000 and \$33,000, respectively, outstanding under the revolver. Unused lines under this facility, net of outstanding letters of credit of \$2,704 and \$2,707 to secure certain insurance obligations,

totaled \$213,296 and \$214,293 at December 31, 2016 and June 30, 2016, respectively, and are available to fund future acquisitions or other capital and operating requirements. The interest rate on the term loan was 1.81% as of December 31, 2016 and 1.50% as of June 30, 2016. The weighted average interest rate on the revolving credit facility outstanding was 2.28% as of December 31, 2016 and 1.44% as of June 30, 2016.

Table of Contents

APPLIED INDUSTRIAL TECHNOLOGIES, INC. AND SUBSIDIARIES
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands, except per share amounts) (Unaudited)

Additionally, the Company had letters of credit outstanding with a separate bank, not associated with the revolving credit agreement, in the amount of \$2,698 as of December 31, 2016 and June 30, 2016, in order to secure certain insurance obligations.

Other Long-Term Borrowings

In April 2014, the Company assumed \$2,359 of debt as a part of the headquarters facility acquisition. The 1.5% fixed interest rate note is held by the State of Ohio Development Services Agency, maturing in May 2024. At December 31, 2016 and June 30, 2016, \$1,764 and \$1,896 was outstanding, respectively.

At December 31, 2016 and June 30, 2016, the Company had borrowings outstanding under its unsecured shelf facility agreement with Prudential Investment Management of \$170,000. The "Series C" notes have a principal amount of \$120,000 and carry a fixed interest rate of 3.19%, and are due in equal principal payments in July 2020, 2021 and 2022. The "Series D" notes have a principal amount of \$50,000 and carry a fixed interest rate of 3.21%, and are due in equal principal payments in October 2019 and 2023. As of December 31, 2016, \$50,000 in additional financing was available under this facility.

Unamortized debt issue costs of \$105 are included as a reduction of current portion of long-term debt on the condensed consolidated balance sheets as of December 31, 2016 and June 30, 2016. Unamortized debt issue costs of \$347 and \$399 are included as a reduction of long-term debt on the condensed consolidated balance sheets as of December 31, 2016 and June 30, 2016, respectively.

5. FAIR VALUE MEASUREMENTS

Marketable securities measured at fair value at December 31, 2016 and June 30, 2016 totaled \$9,888 and \$9,097, respectively. These marketable securities are held in a rabbi trust for a non-qualified deferred compensation plan. The marketable securities are included in other assets on the accompanying condensed consolidated balance sheets and their fair values are based upon quoted market prices in an active market (Level 1 in the fair value hierarchy).

The fair value of the debt outstanding under the shelf facility agreement with Prudential Investment Management approximates carrying value at December 31, 2016 (Level 2 in the fair value hierarchy).

The revolving credit facility and the term loan contain variable interest rates and their carrying values approximated fair value at both December 31, 2016 and June 30, 2016 (Level 2 in the fair value hierarchy).

7. BENEFIT PLANS

The following table provides summary disclosures of the net periodic postemployment costs recognized for the Company's postemployment benefit plans:

	Pension Benefits		Retiree Health Care Benefits	
	2016	2015	2016	2015
Three Months Ended December 31,				
Components of net periodic cost:				
Service cost	\$32	\$23	\$ 7	\$ 6
Interest cost	173	216	16	19
Expected return on plan assets	(115)	(123)	—	—
Recognized net actuarial loss (gain)	218	229	(46)	(53)
Amortization of prior service cost	21	21	(67)	(68)
Net periodic cost	\$329	\$366	\$ (90)	\$ (96)

	Pension Benefits		Retiree Health Care Benefits	
	2016	2015	2016	2015
Six Months Ended December 31,				
Components of net periodic cost:				
Service cost	\$63	\$46	\$ 14	\$ 12
Interest cost	346	432	32	38
Expected return on plan assets	(230)	(246)	—	—
Recognized net actuarial loss (gain)	436	457	(91)	(106)
Amortization of prior service cost	43	43	(135)	(136)
Net periodic cost	\$658	\$732	\$ (180)	\$ (192)

The Company contributed \$400 to its pension benefit plans and \$90 to its retiree health care plans in the six months ended December 31, 2016. Expected contributions for the remainder of fiscal 2017 are \$350 for the pension benefit plans to fund scheduled retirement payments and \$90 for retiree health care plans.

10. SUBSEQUENT EVENTS

We have evaluated events and transactions occurring subsequent to December 31, 2016 through the date the financial statements were issued.

APPLIED INDUSTRIAL TECHNOLOGIES, INC. AND SUBSIDIARIES
REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The accompanying condensed consolidated financial statements of the Company have been reviewed by the Company's independent registered public accounting firm, Deloitte & Touche LLP, whose report covering their reviews of the condensed consolidated financial statements follows.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of
Applied Industrial Technologies, Inc.
Cleveland, Ohio

We have reviewed the accompanying condensed consolidated balance sheet of Applied Industrial Technologies, Inc. and subsidiaries (the "Company") as of December 31, 2016, and the related condensed statements of consolidated income and consolidated comprehensive income for the three-month and six-month periods ended December 31, 2016 and 2015, and consolidated cash flows for the six-month periods ended December 31, 2016 and 2015. These interim financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to such condensed consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of the Company as of June 30, 2016, and the related statements of consolidated income, comprehensive income, shareholders' equity, and cash flows for the year then ended (not presented herein); and in our report dated August 24, 2016, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of June 30, 2016 is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

APPLIED INDUSTRIAL TECHNOLOGIES, INC. AND SUBSIDIARIES
 ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
 AND RESULTS OF OPERATIONS

With more than 5,500 employees across North America, Australia and New Zealand, Applied Industrial Technologies (“Applied,” the “Company,” “We,” “Us” or “Our”) is a leading industrial distributor serving MRO (Maintenance, Repair & Operations) and OEM (Original Equipment Manufacturer) customers in virtually every industry. In addition, Applied provides engineering, design and systems integration for industrial and fluid power applications, as well as customized mechanical, fabricated rubber and fluid power shop services. We have a long tradition of growth dating back to 1923, the year our business was founded in Cleveland, Ohio. During the second quarter of fiscal 2017, business was conducted in the United States, Canada, Mexico, Puerto Rico, Australia and New Zealand from 554 facilities.

The following is Management's Discussion and Analysis of significant factors which have affected our financial condition, results of operations and cash flows during the periods included in the accompanying condensed consolidated balance sheets, statements of consolidated income, consolidated comprehensive income and consolidated cash flows. When reviewing the discussion and analysis set forth below, please note that the majority of SKUs (Stock Keeping Units) we sell in any given period were not necessarily sold in the comparable period of the prior year, resulting in the inability to quantify certain commonly used comparative metrics analyzing sales, such as changes in product mix and volume.

Overview

Consolidated sales for the quarter ended December 31, 2016 decreased \$2.2 million or 0.4% compared to the prior year quarter, with acquisitions increasing sales by \$7.8 million or 1.3% and unfavorable foreign currency translation of \$3.3 million decreasing sales by 0.5%. Operating margin of 6.2% of sales was down from 6.3% for the same quarter in the prior year. Net income of \$24.1 million increased 0.6% compared to the prior year quarter. Shareholders' equity was \$681.4 million at December 31, 2016, up from the June 30, 2016 level of \$657.9 million. The current ratio was 3.3 to 1 at December 31, 2016 and 2.8 to 1 at June 30, 2016.

Applied monitors several economic indices that have been key indicators for industrial economic activity in the United States. These include the Industrial Production (IP) and Manufacturing Capacity Utilization (MCU) indices published by the Federal Reserve Board and the Purchasing Managers Index (PMI) published by the Institute for Supply Management (ISM). Historically, our performance correlates well with the MCU, which measures productivity and calculates a ratio of actual manufacturing output versus potential full capacity output. When manufacturing plants are running at a high rate of capacity, they tend to wear out machinery and require replacement parts.

The MCU (total industry) and IP indices have generally remained stable since June 2016. The MCU for December 2016 was 75.5, which is up slightly from the September 2016 revised reading of 75.3. The ISM PMI registered 54.7 in December; up from the September 2016 reading of 51.5, and remaining above 50 (its expansionary threshold). The indices for the months during the current quarter were as follows:

	Index Reading		
Month	MCU	PMI	IP
October	75.4	51.9	103.2
November	74.9	53.2	103.0
December	75.5	54.7	103.2

The number of Company employees was 5,525 at December 31, 2016, 5,569 at June 30, 2016, and 5,716 at December 31, 2015. The number of operating facilities totaled 554 at December 31, 2016, 559 at June 30, 2016, and 564 at December 31, 2015.

Table of ContentsAPPLIED INDUSTRIAL TECHNOLOGIES, INC. AND SUBSIDIARIES
ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

Results of Operations

Three months Ended December 31, 2016 and 2015

The following table is included to aid in review of Applied's condensed statements of consolidated income.

	Three Months Ended December 31, As a Percent of Net Sales		Change in \$'s Versus Prior Period - % Increase	
	2016	2015		
Net Sales	100.0%	100.0%	(0.4)	%
Gross Profit	28.4 %	28.4 %	(0.4)	%
Selling, Distribution & Administrative	22.2 %	22.1 %	—	%
Operating Income	6.2 %	6.3 %	(1.8)	%
Net Income	4.0 %	3.9 %	0.6	%

During the quarter ended December 31, 2016, sales decreased \$2.2 million or 0.4% compared to the prior year quarter, with unfavorable foreign currency translation accounting for \$3.3 million or 0.5%, offset by sales from acquisitions of \$7.8 million or 1.3%. There were 61 selling days in the quarter ended December 31, 2016 and 62 selling days in the quarter ended December 31, 2015. Excluding the impact of businesses acquired and prior to the impact of currency translation, sales were down \$6.7 million or 1.2% during the quarter, driven by a decrease of 1.6% due to one less sales day. The traditional core operations had an increase of 0.8% offset by a 0.4% decrease in the upstream oil and gas-focused subsidiaries.

Sales from our Service Center Based Distribution segment, which operates primarily in MRO markets, decreased \$5.9 million or 1.2%. Acquisitions within this segment increased sales by \$7.8 million or 1.5%, while unfavorable foreign currency translation decreased sales by \$2.7 million or 0.5%. Excluding the impact of businesses acquired and the impact of unfavorable currency translation, sales decreased \$11.0 million or 2.2%, of which 1.6% is due to one less sales day, 0.5% is from our upstream oil and gas-focused subsidiaries, and 0.1% is within our traditional core operations.

Sales from our Fluid Power Businesses segment, which operates primarily in OEM markets, increased \$3.7 million or 3.6% during the quarter from the same period in the prior year. Unfavorable foreign currency translation decreased sales by \$0.6 million or 0.6%. Excluding the impact of unfavorable currency translation, sales increased \$4.3 million or 4.2% due to an increase from operations of 5.8% offset by a decrease of 1.6% due to the impact of one less sales day.

Sales in our U.S. operations were up \$1.7 million or 0.3% as acquisitions added \$6.5 million or 1.3%. Excluding the impact of businesses acquired, U.S. sales were down \$4.8 million or 1.0%, driven by a decrease of 1.6% due to one less sales day. The traditional core operations had an increase of 0.8% offset by a decrease 0.2% from the upstream oil and gas-focused subsidiaries. Sales from our Canadian operations decreased \$5.4 million or 8.0%, while acquisitions added \$1.3 million or 1.9%. Foreign currency translation did not have a material impact on Canadian sales during the period. Excluding the impact of businesses acquired, Canadian sales were down \$6.7 million or 9.9%, of which 5.3%

is within our traditional core operations, 3.0% is from our upstream oil and gas-focused subsidiaries and 1.6% is due to one less sales day. Consolidated sales from our other country operations, which include Mexico, Australia and New Zealand, increased \$1.5 million or 4.6% compared to the same quarter in the prior year. Unfavorable foreign currency translation decreased other country sales by \$3.3 million or 10.0%. Prior to the impact of currency translation, other country sales were up \$4.8 million or 14.6% compared to the same quarter in the prior year driven by an increase from operations of 16.3% offset by a decrease of 1.7% due to the impact of one less sales day.

During the quarter ended December 31, 2016, industrial products and fluid power products accounted for 73.1% and 26.9%, respectively, of sales as compared to 73.7% and 26.3%, respectively, for the same period in the prior year.

Our gross profit margin was 28.4% for the quarters ended December 31, 2016 and December 31, 2015.

Selling, distribution and administrative expense (SD&A) consists of associate compensation, benefits and other expenses associated with selling, purchasing, warehousing, supply chain management and providing marketing and distribution of the

Table of Contents

APPLIED INDUSTRIAL TECHNOLOGIES, INC. AND SUBSIDIARIES
ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

Company's products, as well as costs associated with a variety of administrative functions such as human resources, information technology, treasury, accounting, legal, and facility related expenses. SD&A was 22.2% of sales in the quarter ended December 31, 2016 increasing compared to 22.1% in the prior year quarter. SD&A remained flat compared to the prior year quarter. Changes in foreign currency exchange rates had the effect of decreasing SD&A during the quarter ended December 31, 2016 by \$0.4 million or 0.3% compared to the prior year quarter. Additional SD&A from businesses acquired added \$2.2 million or 1.6% of SD&A expenses including \$0.5 million associated with intangibles amortization. Excluding the impact of businesses acquired and the favorable currency translation impact, SD&A declined \$1.8 million or 1.3% during the quarter ended December 31, 2016 compared to the prior year quarter as a result of continuous efforts to minimize such expenses. These efforts to minimize expense were led by efforts to control headcount. Excluding the effect of acquisitions, overall headcount is down by approximately 264 associates from December 2015 to December 2016. Excluding the impact of acquisitions, total salaries and wages were down \$1.0 million for the quarter ended December 31, 2016 compared to the prior year quarter. Further, the Company recorded a gain of \$0.6 million in the quarter ended December 31, 2016 related to the sale of three buildings during the period. All other expenses within SD&A were down \$0.2 million.

Operating income decreased \$0.7 million or 1.8%, and as a percent of sales decreased to 6.2% from 6.3% during the same quarter in the prior year.

Operating income as a percentage of sales for the Service Center Based Distribution segment decreased to 4.2% in the current year quarter from 5.6% in the prior year quarter. This decrease is primarily attributable to a decline in sales and gross profit margin levels, without a commensurate decline in the business segment's SD&A expenses.

Operating income as a percentage of sales for the Fluid Power Business segment increased to 10.0% in the current year quarter from 8.5% in the prior year quarter. This increase is due to the increase in sales, primarily from our U.S. operations in this segment.

Other income was \$0.2 million in the quarter which included unrealized gains on investments held by non-qualified deferred compensation trusts of \$0.1 million and \$0.2 million net favorable foreign currency transaction gains, offset by \$0.1 million of expense from other items. During the prior year quarter, other expense was \$0.1 million which included unrealized gains on investments held by non-qualified deferred compensation trusts of \$0.3 million, offset by \$0.1 million net unfavorable foreign currency transaction losses as well as \$0.2 million of expense from other items.

The effective income tax rate was 32.7% for the quarter ended December 31, 2016 compared to 33.8% for the quarter ended December 31, 2015. This decrease in the effective tax rate is primarily due to the adoption of ASU 2016-09 in the first quarter of fiscal 2017, which requires excess tax benefits and deficiencies resulting from stock-based compensation awards vesting and exercises to be recognized in the income statement. During the quarter ended December 31, 2016, \$0.6 million of net excess tax benefits were recognized as a reduction of income tax expense, which decreased the effective tax rate for the quarter ended December 31, 2016 by 1.6%. This decrease was partially offset by the mix of lower foreign income negatively impacting the rate. Because the Company's adoption of the new standard has had a positive impact on the effective income tax rate, we now expect our full year tax rate for fiscal 2017 to be in the 33.5% to 34.5% range.

As a result of the factors discussed above, net income increased \$0.1 million or 0.6% compared to the prior year quarter. Net income was \$0.61 per share for the quarters ended December 31, 2016 and December 31, 2015.

Table of ContentsAPPLIED INDUSTRIAL TECHNOLOGIES, INC. AND SUBSIDIARIES
ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

Six months Ended December 31, 2016 and 2015

The following table is included to aid in review of Applied's condensed statements of consolidated income.

	Six Months Ended December 31, As a Percent of Net Sales		Change in \$'s Versus Prior Period - %		Increase
	2016	2015			
Net Sales	100.0%	100.0%	(1.5)	%	
Gross Profit	28.5 %	28.3 %	(1.0)	%	
Selling, Distribution & Administrative	21.9 %	21.9 %	(1.8)	%	
Operating Income	6.6 %	6.3 %	1.9	%	
Net Income	4.2 %	3.9 %	6.7	%	

During the six months ended December 31, 2016, sales decreased \$19.3 million or 1.5% compared to the same period in the prior year, with unfavorable foreign currency translation accounting for \$5.5 million or 0.4%, offset by sales from acquisitions of \$23.2 million or 1.9%. There were 125 selling days in the six months ended December 31, 2016 and 126 selling days in the six months ended December 31, 2015. Excluding the impact of businesses acquired and prior to the impact of currency translation, sales were down \$37.0 million or 3.0% during the period, of which 1.7% is from our upstream oil and gas-focused subsidiaries, 0.5% is within our traditional core operations, and 0.8% is due to one less sales day.

Sales from our Service Center Based Distribution segment, which operates primarily in MRO markets, decreased \$23.9 million or 2.3% during the six months ended December 31, 2016 from the same period in the prior year. Acquisitions within this segment increased sales by \$16.7 million or 1.6%, while unfavorable foreign currency translation decreased sales by \$4.5 million or 0.4%. Excluding the impact of businesses acquired and prior to the unfavorable currency translation impact, sales decreased \$36.1 million or 3.5%, of which 2.0% is from our upstream oil and gas-focused subsidiaries, 0.7% is within our traditional core operations, and 0.8% is due to one less sales day.

Sales from our Fluid Power Businesses segment, which operates primarily in OEM markets, increased \$4.6 million or 2.2% during the six months ended December 31, 2016 from the same period in the prior year. Acquisitions within this segment increased sales by \$6.5 million or 3.1%, while unfavorable foreign currency translation decreased sales by \$1.0 million or 0.5%. Excluding the impact of businesses acquired and prior to the unfavorable currency translation impact, sales decreased \$0.9 million or 0.4%, driven by a decrease of 0.8% due to one less sales day, offset by a 0.4% increase from operations.

During the six months ended December 31, 2016, sales in our U.S. operations were down \$11.2 million or 1.1%, while acquisitions added \$20.3 million or 1.9%. Excluding the impact of businesses acquired, U.S. sales were down \$31.5 million or 3.0%, of which 1.1% is from our upstream oil and gas-focused subsidiaries, 1.1% is within our traditional core operations and 0.8% is due to one less sales day. Sales from our Canadian operations decreased \$9.1 million or 6.8%, while acquisitions added \$2.9 million or 2.1% and favorable foreign currency translation increased Canadian sales by \$0.1 million or 0.1%. Excluding the impact of businesses acquired and prior to the impact of foreign currency translation, Canadian sales were down \$12.1 million or 9.0%, of which 6.9% is related to the

upstream oil and gas-focused subsidiaries, 1.3% is within the traditional core operations, and 0.8% is due to one less sales day. Consolidated sales from our other country operations, which include Mexico, Australia and New Zealand, increased \$1.0 million or 1.4% compared to the same period in the prior year. Unfavorable foreign currency translation decreased other country sales by \$5.6 million or 8.0%. Prior to the impact of currency translation, other country sales were up \$6.6 million or 9.4% during the period, driven by an increase from operations of 10.5% offset by a decrease of 1.1% due to the impact of one less sales day.

During the six months ended December 31, 2016, industrial products and fluid power products accounted for 72.8% and 27.2%, respectively, of sales as compared to 73.2% and 26.8% respectively, for the same period in the prior year.

Our gross profit margin for the period was 28.5%, increasing compared to the prior year period's of 28.3%. The increase in gross profit margin is primarily attributable to the impact of acquisitions in the six months ended December 31, 2016.

Selling, distribution and administrative expense (SD&A) consists of associate compensation, benefits and other expenses associated with selling, purchasing, warehousing, supply chain management and providing marketing and distribution of the

Table of Contents

APPLIED INDUSTRIAL TECHNOLOGIES, INC. AND SUBSIDIARIES
ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

Company's products, as well as costs associated with a variety of administrative functions such as human resources, information technology, treasury, accounting, legal, and facility related expenses. SD&A was 21.9% of sales for the six months ended December 31, 2016, which was the same as the prior year period. SD&A decreased \$4.9 million or 1.8% compared to the prior year period. Changes in foreign currency exchange rates had the effect of decreasing SD&A during the six months ended December 31, 2016 by \$0.7 million or 0.3% compared to the prior year period. Additional SD&A from businesses acquired in the current year added \$6.2 million or 2.3% of SD&A expenses, including \$0.9 million associated with intangibles amortization. Excluding the impact of businesses acquired and the favorable currency translation impact, SD&A declined \$10.4 million or 3.8% during the six months ended December 31, 2016 compared to the same period in the prior year as a result of continuous efforts to minimize such expenses. These efforts to minimize expense were led by efforts to control headcount. Excluding the effect of acquisitions, overall headcount is down by approximately 264 associates from December 2015 to December 2016. Excluding the impact of acquisitions, total salaries and wages were down \$4.2 million for the six months ended December 31, 2016 compared to the prior year period. Also, excluding the impact of acquisitions, bad debt expense decreased \$1.1 million for the six months ended December 31, 2016 compared to the prior year period, due to improvement in aged receivables. Further, the Company recorded a gain of \$1.6 million in the six months ended December 31, 2016 related to the sale of five buildings during the period. All other expenses within SD&A were down \$3.5 million.

Operating income increased \$1.5 million or 1.9%, and as a percent of sales increased to 6.6% from 6.3% in the prior year period.

Operating income as a percentage of sales for the Service Center Based Distribution segment decreased to 4.6% in the current year period from 5.5% in the prior year period. This decrease is primarily attributable to a decline in sales and gross profit margin levels, without a commensurate decline in the business segment's SD&A expenses.

Operating income as a percentage of sales for the Fluid Power Business segment increased to 10.4% in the current year period from 9.0% in the prior year period. This increase is due to the increase in sales, primarily from our U.S. operations in this segment.

Other income was \$0.6 million in the six months ended December 31, 2016 which included net favorable foreign currency transaction gains of \$0.3 million and unrealized gains on investments held by non-qualified deferred compensation trusts of \$0.4 million, offset by \$0.1 million of expense from other items. During the prior year period, other expense was \$1.1 million, which included net unfavorable foreign currency transaction losses of \$0.7 million, unrealized losses on investments held by non-qualified deferred compensation trusts of \$0.2 million, and \$0.2 million of expense from other items.

The effective income tax rate was 33.4% for the six months ended December 31, 2016 compared to 34.8% for the prior year period ended December 31, 2015. This decrease in the effective tax rate is primarily due to the adoption of ASU 2016-09 in the first quarter of fiscal 2017, which requires excess tax benefits and deficiencies resulting from stock-based compensation awards vesting and exercises to be recognized in the income statement. During the six months ended December 31, 2016, \$0.7 million of net excess tax benefits were recognized as a reduction of income tax expense, which decreased the effective income tax rate for the quarter ended December 31, 2016 by 0.9%. Further, \$0.4 million of discrete tax items in the six month period ended December 31, 2015 negatively impacted the rate by 0.5% in the prior period. Because the Company's adoption of the new standard has had a positive impact on the effective income tax rate, we now expect our full year tax rate for fiscal 2017 to be in the 33.5% to 34.5% range.

As a result of the factors addressed above, net income increased \$3.2 million or 6.7% compared to the prior year period. Net income per share was \$1.31 per share for the six months ended December 31, 2016, compared to \$1.22 in the prior year period, an increase of 7.4%. Net income per share was favorably impacted due to lower weighted average common shares outstanding as a result of our share repurchase program.

Table of ContentsAPPLIED INDUSTRIAL TECHNOLOGIES, INC. AND SUBSIDIARIES
ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

Liquidity and Capital Resources

Our primary source of capital is cash flow from operations, supplemented as necessary by bank borrowings or other sources of debt. At December 31, 2016, we had \$327.6 million in outstanding borrowings. At June 30, 2016, we had \$328.3 million in outstanding borrowings. Management expects that our existing cash, cash equivalents, funds available under the revolving credit facility, cash provided from operations, and the use of operating leases will be sufficient to finance normal working capital needs, payment of dividends, acquisitions, investments in properties, facilities and equipment, and the purchase of additional Company common stock. Management also believes that additional long-term debt and line of credit financing could be obtained based on the Company's credit standing and financial strength.

The Company holds, from time to time, relatively significant cash and cash equivalent balances in tax jurisdictions outside of the United States. The following table shows the Company's total cash as of December 31, 2016 by tax jurisdiction.

Country	Amount
United States	\$29,168
Canada	22,035
Other countries	11,654
Total	\$62,857

To the extent cash in foreign countries is distributed to the U.S., it could become subject to U.S. income taxes. Foreign tax credits may be available to offset all or a portion of such taxes. At December 31, 2016, all foreign earnings are considered permanently reinvested.

The Company's working capital at December 31, 2016 was \$545.2 million, compared to \$507.2 million at June 30, 2016. The current ratio was 3.3 to 1 at December 31, 2016 and 2.8 to 1 at June 30, 2016.

Net Cash Flows

The following table is included to aid in review of Applied's condensed statements of consolidated cash flows; all amounts are in thousands.

	Six Months Ended	
	December 31,	
Net Cash Provided by (Used in):	2016	2015
Operating Activities	\$45,658	\$33,846
Investing Activities	(4,062)	(28,793)
Financing Activities	(37,021)	(14,346)
Exchange Rate Effect	(1,579)	(4,543)
Decrease in Cash and Cash Equivalents	\$2,996	\$(13,836)

Net cash provided by operating activities was \$45.7 million for the six months ended December 31, 2016 as compared to \$33.8 million provided by operating activities in the prior period. The increase in cash provided by operating activities during the six months ended December 31, 2016 is due primarily to improved working capital results as compared to the prior period.

Net cash used in investing activities during the six months ended December 31, 2016 is less than the prior period as there were no acquisitions in the current period.

Net cash used by financing activities was \$37.0 million for the six months ended December 31, 2016 versus \$14.3 million in the prior period. Lower borrowing needs, primarily due to fewer dollars spent on acquisitions and lower working capital needs, contributed to the increase in cash used in financing activities. We had \$0.7 million of net debt payments in the current period compared to \$46.0 million of net borrowings in the prior year period. Also, cash was used in the current period for the purchase of treasury shares in the amount of \$5.5 million and dividends paid in the amount of \$21.9 million. In the prior period, \$27.8 million of cash was used for the purchase of treasury shares and \$21.4 million of cash was used for the payment of dividends. Further, \$7.1 million of cash was used in the current period to make acquisition holdback payments, while \$10.6 million was used in the prior year period.

Table of Contents

APPLIED INDUSTRIAL TECHNOLOGIES, INC. AND SUBSIDIARIES
ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

Share Repurchases

The Board of Directors has authorized the repurchase of shares of the Company's common stock. These purchases may be made in open market and negotiated transactions, from time to time, depending upon market conditions. We acquired 52,500 shares of treasury stock on the open market in the three months ended December 31, 2016 for \$2.4 million. During the six months ended December 31, 2016 we acquired 117,500 shares of treasury stock for \$5.5 million. At December 31, 2016, we had authorization to repurchase an additional 1,495,000 shares. During the six months ended December 31, 2015, we acquired 701,100 shares of treasury stock on the open market for \$27.8 million.

Borrowing Arrangements

In December 2015, the Company entered into a five-year credit facility with a group of banks expiring in December 2020. This agreement provides for a \$125.0 million unsecured term loan and a \$250.0 million unsecured revolving credit facility. Fees on this facility range from 0.09% to 0.175% per year based upon the Company's leverage ratio at each quarter end. Borrowings under this agreement carry variable interest rates tied to either LIBOR or prime at the Company's discretion. At December 31, 2016 and June 30, 2016, the Company had \$121.9 million and \$123.4 million, respectively, outstanding under the term loan, and \$34.0 million and \$33.0 million, respectively, outstanding under the revolver. Unused lines under this facility, net of outstanding letters of credit of \$2.7 million and \$2.7 million to secure certain insurance obligations, totaled \$213.3 million and \$214.3 million at December 31, 2016 and June 30, 2016, respectively, and are available to fund future acquisitions or other capital and operating requirements. The interest rate on the term loan was 1.81% as of December 31, 2016 and 1.50% as of June 30, 2016. The weighted average interest rate on the revolving credit facility outstanding was 2.28% as of December 31, 2016 and 1.44% as of June 30, 2016.

Additionally, the Company had letters of credit outstanding with a separate bank, not associated with the revolving credit agreement, in the amount of \$2.7 million as of December 31, 2016 and June 30, 2016, in order to secure certain insurance obligations.

In April 2014, the Company assumed \$2.4 million of debt as a part of the headquarters facility acquisition. The 1.5% fixed interest rate note is held by the State of Ohio Development Services Agency, maturing in May 2024. At December 31, 2016 and June 30, 2016, \$1.8 million and \$1.9 million was outstanding, respectively.

At December 31, 2016 and June 30, 2016, the Company had borrowings outstanding under its unsecured shelf facility agreement with Prudential Investment Management of \$170.0 million. The "Series C" notes have a principal amount of \$120.0 million and carry a fixed interest rate of 3.19%, and are due in equal principal payments in July 2020, 2021 and 2022. The "Series D" notes have a principal amount of \$50.0 million and carry a fixed interest rate of 3.21%, and are due in equal principal payments in October 2019 and 2023. As of December 31, 2016, \$50.0 million in additional financing was available under this facility.

The revolving credit facility and unsecured shelf facility contain restrictive covenants regarding liquidity, net worth, financial ratios, and other covenants. At December 31, 2016, the most restrictive of these covenants required that the Company have net indebtedness less than 3.25 times consolidated income before interest, taxes, depreciation and amortization. At December 31, 2016, the Company's indebtedness was less than two times consolidated income before interest, taxes, depreciation and amortization. The Company was in compliance with all covenants at December 31, 2016.

Table of ContentsAPPLIED INDUSTRIAL TECHNOLOGIES, INC. AND SUBSIDIARIES
ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

Accounts Receivable Analysis

The following tables are included to aid in analysis of accounts receivable and the associated provision for losses on accounts receivable:

	December 31, 2016	June 30, 2016		
Accounts receivable, gross	\$347,299	\$358,891		
Allowance for doubtful accounts	10,583	11,034		
Accounts receivable, net	\$336,716	\$347,857		
Allowance for doubtful accounts, % of gross receivables	3.0	% 3.1	%	
	Three Months Ended December 31, 2016	December 31, 2015	Six Months Ended December 31, 2016	December 31, 2015
Provision for losses on accounts receivable	\$529	\$701	\$1,391	\$2,448
Provision as a % of net sales	0.09 %	0.11 %	0.11 %	0.20 %

Accounts receivable are reported at net realizable value and consist of trade receivables from customers. Management monitors accounts receivable by reviewing Days Sales Outstanding (DSO) and the aging of receivables for each of the Company's locations.

On a consolidated basis, DSO was 49.8 at December 31, 2016 versus 49.4 at June 30, 2016. Accounts receivable decreased 3.2% this year, compared to a 1.5% decrease in sales in the six months ended December 31, 2016.

Approximately 2.7% of our accounts receivable balances are more than 90 days past due at December 31, 2016 and at June 30, 2016. On an overall basis, our provision for losses from uncollected receivables represents 0.11% of our sales in the six months ended December 31, 2016. Historically, this percentage is around 0.10% to 0.15%, and the provision for losses from uncollected receivables represents 0.09% of sales for the three months ended December 31, 2016. The decrease in the provision as a percentage of sales for the six months ended December 31, 2016 relates to reserves required in the prior year period for our subsidiaries focused on upstream oil and gas customers due to the downturn in the energy markets. Management believes the overall receivables aging and provision for losses on uncollected receivables are at reasonable levels, and that past due balances will decline in the remainder of fiscal 2017.

Inventory Analysis

Inventories are valued at the average cost method, using the last-in, first-out (LIFO) method for U.S. inventories and the average cost method for foreign inventories. Management uses an inventory turnover ratio to monitor and evaluate inventory. Management calculates this ratio on an annual as well as a quarterly basis, and believes that using average costs to determine the inventory turnover ratio instead of LIFO costs provides a more useful analysis. The annualized inventory turnover based on average costs for the period ended December 31, 2016 and June 30, 2016 was 3.6. We believe our inventory turnover ratio at the end of the year will be similar or slightly better than the ratio at December 31, 2016.

AND RESULTS OF OPERATIONS

Cautionary Statement Under Private Securities Litigation Reform Act

Management's Discussion and Analysis contains statements that are forward-looking based on management's current expectations about the future. Forward-looking statements are often identified by qualifiers, such as "guidance", "expect", "believe", "plan", "intend", "will", "should", "could", "would", "anticipate", "estimate", "forecast", "may", "optimistic" and similar words or expressions. Similarly, descriptions of objectives, strategies, plans, or goals are also forward-looking statements. These statements may discuss, among other things, expected growth, future sales, future cash flows, future capital expenditures, future performance, and the anticipation and expectations of the Company and its management as to future occurrences and trends. The Company intends that the forward-looking statements be subject to the safe harbors established in the Private Securities Litigation Reform Act of 1995 and by the Securities and Exchange Commission in its rules, regulations and releases.

Readers are cautioned not to place undue reliance on any forward-looking statements. All forward-looking statements are based on current expectations regarding important risk factors, many of which are outside the Company's control. Accordingly, actual results may differ materially from those expressed in the forward-looking statements, and the making of those statements should not be regarded as a representation by the Company or any other person that the results expressed in the statements will be achieved. In addition, the Company assumes no obligation publicly to update or revise any forward-looking statements, whether because of new information or events, or otherwise, except as may be required by law.

Important risk factors include, but are not limited to, the following: risks relating to the operations levels of our customers and the economic factors that affect them; changes in the prices for products and services relative to the cost of providing them; reduction in supplier inventory purchase incentives; loss of key supplier authorizations, lack of product availability, or changes in supplier distribution programs; the cost of products and energy and other operating costs; changes in customer preferences for products and services of the nature and brands sold by us; changes in customer procurement policies and practices; competitive pressures; our reliance on information systems and risks relating to the security of those systems and the data stored in or transmitted through them; the impact of economic conditions on the collectability of trade receivables; reduced demand for our products in targeted markets due to reasons including consolidation in customer industries; our ability to retain and attract qualified sales and customer service personnel and other skilled executives, managers and professionals; our ability to identify and complete acquisitions, integrate them effectively, and realize their anticipated benefits; the variability, timing and nature of new business opportunities including acquisitions, alliances, customer relationships, and supplier authorizations; the incurrence of debt and contingent liabilities in connection with acquisitions; our ability to access capital markets as needed on reasonable terms; disruption of operations at our headquarters or distribution centers; risks and uncertainties associated with our foreign operations, including volatile economic conditions, political instability, cultural and legal differences, and currency exchange fluctuations; the potential for goodwill and intangible asset impairment; changes in accounting policies and practices; our ability to maintain effective internal control over financial reporting; organizational changes within the Company; the volatility of our stock price and the resulting impact on our consolidated financial statements; risks related to legal proceedings to which we are a party; adverse regulation and legislation, both enacted and under consideration, including with respect to federal tax policy (e.g., affecting the use of the LIFO inventory accounting method and the taxation of foreign-sourced income); and the occurrence of extraordinary events (including prolonged labor disputes, power outages, telecommunication outages, terrorist acts, earthquakes, extreme weather events, other natural disasters, fires, floods, and accidents). Other factors and unanticipated events could also adversely affect our business, financial condition or results of operations.

We discuss certain of these matters and other risk factors more fully throughout this Form 10-Q as well as other of our filings with the Securities and Exchange Commission, including our Annual Report on Form 10-K for the year ended June 30, 2016.

ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For quantitative and qualitative disclosures about market risk, see Item 7A "Quantitative and Qualitative Disclosures About Market Risk" in our Annual Report on Form 10-K for the year ended June 30, 2016.

APPLIED INDUSTRIAL TECHNOLOGIES, INC. AND SUBSIDIARIES
ITEM 4: CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company's management, under the supervision and with the participation of the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), evaluated the effectiveness of the Company's disclosure controls and procedures, as defined in Exchange Act Rule 13a-15(e), as of the end of the period covered by this report. Based on that evaluation, the CEO and CFO have concluded that the Company's disclosure controls and procedures are effective.

Changes in Internal Control Over Financial Reporting

There have not been any changes in internal control over financial reporting during the six months ended December 31, 2016 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. Legal Proceedings

The Company is a party to pending legal proceedings with respect to various product liability, commercial, and other matters. Although it is not possible to predict the outcome of these proceedings or the range of reasonably possible loss, the Company believes, based on circumstances currently known, that the likelihood is remote that the ultimate resolution of any of these proceedings will have, either individually or in the aggregate, a material adverse effect on the Company's consolidated financial position, results of operations, or cash flows.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

Repurchases of common stock in the quarter ended December 31, 2016 were as follows:

Period	(a) Total Number of Shares (1)	(b) Average Price Paid per Share (\$)	(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs (2)
October 1, 2016 to October 31, 2016	52,500	46.28	52,500	1,495,000
November 1, 2016 to November 30, 2016	0	0	0	1,495,000
December 1, 2016 to December 31, 2016	0	0	0	1,495,000
Total	52,500	46.28	52,500	1,495,000

(1) During the quarter the Company did not purchase any shares in connection with the Deferred Compensation Plan.

On April 28, 2015, the Board of Directors authorized the repurchase of up to 1.5 million shares of the Company's (2) common stock. We publicly announced the authorization on April 30, 2015. Purchases could be made in the open market or in privately negotiated transactions.

On October 24, 2016, the Board of Directors authorized the repurchase of up to 1.5 million shares of the Company's common stock, replacing the prior authorization. We publicly announced the new authorization on October 26, 2016. Purchases can be made in the open market or in privately negotiated transactions. The authorization is in effect until all shares are purchased, or the Board revokes or amends the authorization. Of the 52,500 shares purchased during the period October 1, 2016 to October 31, 2016, only 5,000 were purchased subsequent to this new authorization.
