Report of Independent Registered Public Accounting Firm

Plan Administrator

Symmetry Medical Inc. 401(k) Plan

Warsaw, Indiana

We have audited the accompanying statements of net assets available for benefits of Symmetry Medical Inc. 401(k) Plan as of December 31, 2006 and 2005, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Symmetry Medical Inc. 401(k) Plan as of December 31, 2006, and 2005, and the changes in its net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying supplemental schedule is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Symmetry Medical Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2006 and 2005

Note 1: Description of the Plan

The following description of the Symmetry Medical Inc. 401(k) Plan (Plan) provides only general information. Participants should refer to the *Summary Plan Description* for a more complete description of the Plan's provisions which is available from the plan administrator.

General

The Plan is a defined contribution plan which provides retirement benefits for substantially all full-time employees of Symmetry Medical Inc. and certain subsidiaries (Company) who have at least three months of service and are age 21 or older and meet other eligibility requirements as defined by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may defer and contribute an amount up to 25% of their annual compensation, as defined by the Plan, not to exceed certain dollar limitations that are set by law. Participants age 50 or older may elect to defer and contribute additional amounts to the Plan up to a maximum that is set by law. Participants may also make rollover contributions of amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company may contribute a discretionary amount equal to a matching percentage of the participant's deferred contribution for each payroll period. Each year, the Company may make discretionary profit sharing contributions in addition to the matching contribution. The Company may designate as a qualified nonelective contribution to all or any portion of its profit sharing contribution. Participants must meet certain requirements as defined in the Plan to share in the discretionary matching and profit sharing contributions. These conditions do not apply in the year of a participant's death, disability or retirement or after normal retirement age.

Additionally, the Plan allows participants to change the amount of their contribution (salary deferral) on a periodic basis and to direct the investment of their funds and contributions on a daily basis. Currently, a participant may select from several diversified mutual funds offering different investment objectives. In March 2005, the Plan was amended to allow the common stock of the Company as an investment alternative under the Plan. Participants may not make an election to allocate more than 20% of their deferrals (contributions) nor to reallocate more than 20% of their account balances to the Company's stock.

During 2006 and 2005, the Company matched 50% of a participant's before-tax contributions up to a maximum set by each division. The Company may also, at its discretion, make additional profit sharing contributions to the Plan in an amount determined by the Company's Board of Directors. Discretionary contributions in 2006 and 2005 were \$0 and \$582,170, respectively (net of forfeitures of \$0 and \$7,109).

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and Plan earnings. Allocations are based on participant earnings or account balances, as defined. Forfeited balances of terminated participants' nonvested accounts are used to reduce future Company contributions. As of December 31, 2006 and 2005, forfeited, nonvested accounts totaled \$22,295 and \$7,109, respectively.

Participant Loans

Participants may borrow approved amounts from their fund accounts at no less than \$1,000 and no greater than (a) 50% of his or her account balance, or (b) \$50,000 reduced by the excess, if any, of a participant's highest outstanding balance of loans during the 12-month period ending on the day before the new loan is made over a participant's current balance of loans from the Plan and other qualified Plans on the day the new loan is made. The term of repayment of a loan other than a home loan must not be greater than five years. The term of repayment of a home loan must not be greater than 15 years. A loan is secured by the balance in the participant's vested account and bears interest at a rate commensurate with local prevailing rates as determined by the plan administrator, which is the prime rate as determined by the Plan's trustee or its affiliate plus 1% (3.0% to 10.5% at December 31, 2006). Principal and interest is paid ratably through payroll deductions. The maximum number of loans that a participant may have at any one time is two. Should the participant terminate as an employee of the Company, the balance of the outstanding loan (including any accrued interest) becomes due and the participant's vested account may be used to pay the balance of the outstanding loans.

Vesting

Participants are immediately vested in their contributions, including rollover contributions, and qualified nonelective contributions plus actual earnings thereon. Vesting in the Company's matching and profit sharing contribution portion of their accounts plus actual earnings thereon is based on years of continuous service as follows:

| Years of Service | Percentage Vested and Nonforfeitable |
|------------------|--------------------------------------|
| 1 | 25 % |
| 2 | 50 |
| 3 | 75 |
| 4 | 100 |

Payment of Benefits

Upon termination of service or death, disability or retirement, a participant with a vested account balance exceeding \$5,000 will receive a lump-sum distribution equal to the vested value of his or her account or periodic (monthly, quarterly or annual) installments over a period of not more than the participant's or participant and spouse's assumed life expectancy. Separated participants with vested account balances not exceeding \$1,000 that have not made an election within 60 days will receive lump-sum distributions as soon as administratively feasible. The Plan also provides for participant loans as described above and certain hardship withdrawals. Distributions of benefits are recorded as withdrawals from the Plan and reduction of net assets available for plan benefits in the period paid to the participant.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investments

The Plan's investments are stated at fair value. Shares of registered investment companies (mutual funds) are valued at quoted market prices, which represent the net asset value of the shares held by the Plan at year end. The participant loans are valued at their outstanding balances, which approximates fair value.

The investment in Symmetry Medical Inc. Common Stock has been unitized and is comprised of cash and Symmetry Medical Inc. Common Stock. The Plan holds a nominal amount of these units in cash in order to provide liquidity for timely distributions. At December 31, 2006 and 2005, these units are comprised of 13,098 and 8,450 shares of Symmetry Medical Inc. Common Stock and cash of \$7,589 and \$1,264.

Purchases and sales of securities are accounted for on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Administrative Expenses

Administrative, recordkeeping and trustee expenses for the Plan are charged to the Plan. All other administrative expenses are paid by the Company. Administrative expenses are recognized when incurred.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options that are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Plan Tax Status

The Plan operates under a standardized adoption agreement in connection with a prototype 401(k) profit-sharing plan and trust sponsored by Wells Fargo Bank, N.A. This prototype plan document has been filed with the appropriate agency and has obtained a determination letter from the Internal Revenue Service stating that the prototype constitutes a qualified plan under Section 401 of the Internal Revenue Code and that the related trust was tax exempt as of the financial statement date. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Note 4: Related Party Transactions

Certain Plan investment shares of mutual funds managed by Wells Fargo Bank, N.A. Wells Fargo Bank, N.A. is the trustee of the Plan. Transactions in such investments are considered to be party-in-interest investments. Fees paid to Wells Fargo Bank and affiliates for administrative, recordkeeping and trustee services were \$37,420 and \$18,628 for the years ended December 31, 2006 and 2005, respectively.

The Company provides certain accounting, recordkeeping and administrative services for which it receives no compensation.

Note 5: Employer Matching

During 2006, the Plan Administrator discovered that employer profit sharing contributions were only contributed to employees with dates of service greater than one year. The result was participants employed for more than 90 days, but that had not reached their one-year anniversary, were excluded from employer profit sharing contributions for the Plan years ending December 31, 2001 through 2005. The Plan Sponsor has estimated \$150,000 is due to the Plan for participants improperly excluded from the contributions. This amount is included in contributions receivable from Symmetry Medical Inc. and subsidiaries at December 31, 2006. On January 1, 2007, the Plan was amended to change the eligibility for employer profit sharing contributions to a minimum service requirement of one year.

Edgar Filing: Symmetry Medical Inc. - Form 11-K

Note 6: Plan Amendments

On January 1, 2006, the Plan was amended to no longer impose an allocation condition for the employer matching contributions. In addition, the plan was amended to allow in-service withdrawals for participants attaining the age of 59 ½.

Note 7: Plan Merger

On January 1, 2006, the Plan merged in total assets of \$9,094,243 from the Jet Engineering 401(k) Plan.

Note 8: Subsequent Events

On January 1, 2007, the Plan merged in the net assets of the Riley Medical and Everest Pension Plans of approximately \$830,000. Additionally, the Plan was amended effective January 1, 2007, to change the eligibility for employer profit sharing contributions to a minimum service requirement of one year.
