**WILLDAN GROUP, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**July 3, 2009
(Unaudited)**

1. BASIS OF PRESENTATION, ORGANIZATION AND OPERATIONS OF THE COMPANY

Basis of Presentation

The accompanying unaudited interim condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) and pursuant to the rules and regulations of the Securities and Exchange Commission and reflect all adjustments, which consist of only normal recurring adjustments, which are, in the opinion of management, necessary for a fair presentation of the consolidated results for the interim periods presented. Results for the interim period are not necessarily indicative of results for the full year. Certain information and footnote disclosures normally included in annual consolidated financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations. The consolidated financial statements should be read in conjunction with Willdan Group, Inc.'s 2008 Annual Report on Form 10-K filed on April 2, 2009. For the period ended July 3, 2009, the Company evaluated the need to disclose subsequent events through August 13, 2009, the date the financial statements were issued.

Nature of Business

Willdan Group, Inc. and its subsidiaries (Willdan Group or the Company) are providers of outsourced and consulting services to small and mid-sized public agencies in California and other western states. Outsourcing enables these agencies to provide a wide range of specialized services without having to incur and maintain the overhead necessary to develop staffing in-house. The Company provides a broad range of services to public agencies and, to a lesser extent, private industry and public utilities, including civil engineering, building and safety services, geotechnical engineering, financial and economic consulting, energy efficiency, water conservation, renewable energy, disaster preparedness and homeland security. Clients primarily consist of cities, counties, redevelopment agencies, water districts, school districts and universities, state agencies, federal agencies, a variety of other special districts and agencies, and tribal governments.

Principles of Consolidation

The consolidated financial statements include the accounts of Willdan Group Inc. and its wholly owned subsidiaries, Willdan Engineering, Willdan Financial Services, Willdan Geotechnical, Willdan Homeland Solutions, Willdan Energy Solutions, Willdan Resource Solutions and Public Agency Resources. Willdan Energy Solutions is included as of the date of acquisition. All significant intercompany balances and transactions have been eliminated in consolidation.

Accounting for Contracts

The Company enters into contracts with its clients that contain three principal types of pricing provisions: fixed fee, time-and-materials, and unit-based. Revenue on fixed fee contracts is recognized on the percentage-of-completion method based generally on the ratio of direct costs incurred to date to estimated total direct costs at completion. Revenue on time-and-materials and unit-based contracts is recognized as the work is performed in accordance with specific terms of the contract. Revenue for amounts that have been billed but not earned is deferred and such deferred revenue is referred to as billings in excess of costs and estimated earnings on uncompleted contracts in the accompanying consolidated balance sheets.

Adjustments to contract cost estimates are made in the periods in which the facts requiring such revisions become known. When the revised estimate indicates a loss, such loss is provided for currently in its entirety. Claims revenue is recognized only upon resolution of the claim. Change orders in dispute are evaluated as claims. Costs related to unpriced change orders are expensed when incurred and recognition of the related contract revenue is based on an evaluation of the probability of recovery of the costs. Estimated profit is recognized for unpriced change orders if realization of the expected price of the change order is assured beyond a reasonable doubt.

Table of Contents

Applying the percentage-of-completion method of recognizing revenue requires the Company to estimate the indicated outcome of its long-term contracts. The Company forecasts such outcomes to the best of its knowledge and belief of current and expected conditions and its expected course of action. Differences between the Company's estimates and actual results often occur resulting in changes to reported revenue and earnings. Such changes could have a material effect on future consolidated financial statements.

Direct costs of contract revenue consist primarily of that portion of technical and nontechnical salaries and wages that has been incurred in connection with revenue producing projects. Direct costs of contract revenue also include production expenses, subconsultant services and other expenses that are incurred in connection with revenue producing projects.

Direct costs of contract revenue exclude that portion of technical and nontechnical salaries and wages related to marketing efforts, vacations, holidays and other time not spent directly generating revenue under existing contracts. Such costs are included in general and administrative expenses. Additionally, payroll taxes, bonuses and employee benefit costs for all Company personnel are included in general and administrative expenses in the accompanying consolidated statements of operations since no allocation of these costs is made to direct costs of contract revenue. No allocation of facilities costs is made to direct costs of contract revenue nor is depreciation and amortization allocated to direct costs. Other companies may classify as direct costs of contract revenue some of the costs that the Company classifies as general and administrative costs. The Company expenses direct costs of contract revenue when incurred.

Accounts receivable are carried at original invoice amount less an estimate made for doubtful accounts based upon a review of all outstanding amounts on a monthly basis. Management determines the allowance for doubtful accounts by identifying troubled accounts and by using historical experience applied to an aging of accounts. Credit risk is minimal with governmental entities. Accounts receivables are written off when deemed uncollectible. Recoveries of accounts receivables previously written off are recorded when received.

The value of retainage is included in accounts receivable in the accompanying consolidated financial statements. Retainage represents the billed amount that is retained by the customer, in accordance with the terms of the contract, generally until performance is substantially complete. At July 3, 2009 and January 2, 2009, the Company had retained accounts receivable of approximately \$22,000 and \$17,000, respectively.

Fair Value of Financial Instruments

The Company's financial instruments consist primarily of cash and cash equivalents, accounts receivable, income tax receivable, excess of outstanding checks over bank balance, accounts payable, accrued liabilities, notes payable and purchase price payable. Pursuant to Statement of Financial Accounting Standards (SFAS) No. 157, *Fair Value Measurements*, the fair value of the Company's cash equivalents is determined based on Level 1 inputs, which consist of quoted prices in active markets for identical assets. We believe that the recorded values of all of our other financial instruments approximate their current values because of their nature and respective durations.

Use of Estimates

Edgar Filing: Willdan Group, Inc. - Form 10-Q

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements. Estimates also affect the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Table of Contents**2. RECENT ACCOUNTING PRONOUNCEMENTS**

In December 2007, the Financial Accounting Standards Board (FASB) issued SFAS No. 141 (revised 2007), *Business Combinations* (SFAS 141R). SFAS 141R establishes the principles and requirements for how an acquirer: (i) recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree; (ii) recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase, and (iii) determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. SFAS 141R makes significant changes to existing accounting practices for acquisitions. SFAS 141R is to be applied prospectively to business combinations consummated on or after the beginning of the first annual reporting period on or after December 15, 2008. The Company adopted the new standard effective January 3, 2009 and the adoption did not have any effect on its financial statements and disclosures.

In April 2008, the FASB issued FSP 142-3, *Determination of the Useful Life of Intangible Assets* (FSP 142-3). FSP 142-3 amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under SFAS No. 142, *Goodwill and Other Intangible Assets*. FSP 142-3 will be effective for fiscal years beginning after December 15, 2008. The Company adopted FSP 142-3 on January 3, 2009 and this had no effect on its financial statements.

In May 2009, the FASB issued SFAS No. 165, *Subsequent Events* (SFAS 165). SFAS 165 requires disclosure of the date through which a company evaluated the need to disclose events that occurred subsequent to the balance sheet date and whether that date represents the date the financial statements were issued or were available to be issued. The Company adopted SFAS 165 for the period ended July 3, 2009 and the adoption of SFAS 165 did not have any effect on its consolidated financial position, results of operations or cash flows.

3. BUSINESS COMBINATION

On June 9, 2008, the Company acquired all of the outstanding stock of Willdan Energy Solutions, formerly known as Intergy Corporation, a California-based consulting company that assists companies, institutions and agencies with planning and implementing their energy efficiency, water conservation and renewable energy strategies. The acquisition cost recorded by the Company as of July 3, 2009 was \$13.0 million, consisting of \$9.9 million in cash paid at closing, a \$0.2 million net asset value adjustment, a guaranteed payment of \$1.0 million in cash paid in June 2009, an accrued earnout payment of \$1.3 million and \$0.6 million of transaction costs. The acquisition cost may increase by up to \$6.2 million if Willdan Energy Solutions achieves certain financial targets in the first three years following the acquisition. The Company has finalized its estimates of fair values of the assets acquired and the liabilities assumed and the acquisition cost was allocated as follows:

Current assets	\$	3,242,000
Equipment		49,000
Backlog		920,000
Other assets		8,000
Current liabilities		(1,502,000)
Goodwill		10,330,000
Total	\$	13,047,000

Edgar Filing: Willdan Group, Inc. - Form 10-Q

Unaudited pro forma consolidated statements of operations for the three and six months ended June 27, 2008 as though Willdan Energy Solutions had been acquired as of the first day of the period presented is as follows:

	Three Months Ended June 27, 2008	Six Months Ended June 27, 2008
Contract revenue	\$ 20,353,000	\$ 40,224,000
Income from operations	306,000	592,000
Net income	164,000	350,000
Basic and diluted earnings per share	\$ 0.02	\$ 0.05

Table of Contents**4. GOODWILL AND OTHER INTANGIBLE ASSETS**

The changes in the carrying value of goodwill by reporting unit for the six months ended July 3, 2009 were as follows:

	January 2, 2009	Goodwill Additions	Change in Estimate	July 3, 2009
Reporting Unit:				
Energy Solutions	\$ 8,382,000	\$ 1,332,000	\$ 616,000	\$ 10,330,000
Financial Services	2,763,000			2,763,000
	\$ 11,145,000	\$ 1,332,000	\$ 616,000	\$ 13,093,000

The change in estimate to the carrying value of goodwill for Energy Solutions was a result of the final determination of the fair value of the acquired intangible assets of Willdan Energy Solutions whereby goodwill was increased by \$616,000 and the estimated fair value of other acquired intangibles was reduced by the same amount. The accrual of \$1,323,000 of additional purchase price payable as a result of Willdan Energy Solutions achieving certain financial targets through July 3, 2009, the end of the first earnout period, also resulted in an increase to goodwill. The acquisition cost may increase an additional \$4.9 million by the end of the Company's second fiscal quarter of 2011 if the financial targets specified in the purchase agreement are achieved by Willdan Energy Solutions.

The gross amounts and accumulated amortization of the Company's acquired identifiable intangible assets with finite useful lives as of July 3, 2009 and January 2, 2009, included in Intangible assets, net in the accompanying Consolidated Balance Sheets, were as follows:

	July 3, 2009		January 2, 2009		Amortization Period (yrs)
	Gross Amount	Accumulated Amortization	Gross Amount	Accumulated Amortization	
Backlog	\$ 920,000	\$ 920,000	\$ 1,264,000	\$ 355,000	1
Customer relationships			272,000	22,000	7
Training materials/courses	282,000	107,000	282,000	80,000	5
Non-compete agreements	30,000	29,000	30,000	24,000	3
	\$ 1,232,000	\$ 1,056,000	\$ 1,848,000	\$ 481,000	

At the time of acquisition, the Company estimated the fair value of the acquired identifiable intangible assets based upon the facts and circumstances related to the particular intangible asset. Inherent in such estimates are judgments and estimates of future revenue, profitability, cash flows and appropriate discount rates for any present value calculations. The Company preliminarily estimated the value of the acquired identifiable intangible assets and then finalized the estimated fair values during the purchase allocation period, which did not extend beyond 12 months from the date of acquisition. During the fiscal three months ended July 3, 2009, the final purchase allocation for Willdan Energy Solutions, formerly known as Intergy Corporation, was finalized.

For the fiscal three and six months ended July 3, 2009, the Company's amortization expense for acquired identifiable intangible assets with finite useful lives was \$392,000 and \$575,000, respectively, compared to \$54,000 and \$61,000 for the fiscal three and six months ended June 27, 2008, respectively. Estimated amortization expense for acquired identifiable intangible assets for the remainder of fiscal 2009 and the

succeeding years is as follows:

Fiscal year:		
2009	\$	27,000
2010		54,000
2011		46,000
2012		37,000
2013		12,000
	\$	176,000

Table of Contents**5. EQUIPMENT AND LEASEHOLD IMPROVEMENTS**

Equipment and leasehold improvements consist of the following:

	July 3, 2009	January 2, 2009
Furniture and fixtures	\$ 4,520,000	\$ 4,680,000
Computer hardware and software	4,655,000	4,921,000
Leasehold improvements	772,000	772,000
Equipment under capital leases	790,000	790,000
Automobiles, trucks, and field equipment	408,000	419,000
	11,145,000	11,582,000
Accumulated depreciation and amortization	(9,359,000)	(9,205,000)
Equipment and leasehold improvements, net	\$ 1,786,000	\$ 2,377,000

6. ACCRUED LIABILITIES

Accrued liabilities consist of the following:

	July 3, 2009	January 2, 2009
Accrued bonuses	\$ 227,000	\$ 155,000
Paid leave bank	1,496,000	1,449,000
Compensation and payroll taxes	641,000	719,000
Accrued legal	56,000	54,000
Accrued workers compensation insurance	1,000	18,000
Litigation accrual		110,000
Accrued interest	3,000	4,000
Accrued rent	379,000	562,000
Employee withholdings	150,000	265,000
Client deposits	808,000	790,000
Other	1,054,000	1,127,000
Total accrued liabilities	\$ 4,815,000	\$ 5,253,000

7. LINE OF CREDIT

Under the terms of the Company's credit agreement with Wells Fargo Bank, National Association (Wells Fargo), the Company can borrow up to \$5.0 million from time to time (as may be limited by the covenants in the credit agreement as discussed below) up to and until January 1, 2010. Loans made under the revolving line of credit will accrue interest at either (i) the floating rate equal to the prime rate in effect from time to time or (ii) the fixed rate of 1.75% above LIBOR, at the Company's election. For prime rate loans, the interest rate will be adjusted when each prime rate change by the bank is announced and becomes effective. There were no outstanding borrowings under this agreement as of July 3, 2009, nor have there been any borrowings under the credit agreement since the inception of the agreement in December 2007. Prior to the maturity of this

Edgar Filing: Willdan Group, Inc. - Form 10-Q

credit agreement, the Company intends to renew the agreement under its existing terms for another one year term. However, no assurances can be made that the Company will be able to successfully extend this agreement.

Borrowings under the credit agreement are secured by all of the Company's accounts receivable and other rights to payment, general intangibles, inventory and equipment, including those of the Company's subsidiaries. In addition, borrowings under the credit agreement are secured by investments held in a securities account at Wells Fargo that must at all times have a collateral value of at least \$5.0 million. Each of the Company's subsidiaries (except Public Agency Resources and Willdan Resource Solutions) has signed an unconditional guaranty of the Company's obligations under the agreements.

The credit agreement contains customary representations and affirmative covenants, including a covenant to maintain a tangible net worth of at least \$18.0 million at all times. Tangible net worth is defined in the credit agreement as stockholders' equity less intangible assets and loans or advances to, or investments in, any related entities or individuals. As of July 3, 2009, the Company's tangible net worth as defined under the Company's credit agreement was met.

Table of Contents

The credit agreement also includes customary negative covenants, including a covenant that prohibits the incurrence of additional indebtedness by the Company or the Company's subsidiaries other than purchase money indebtedness not to exceed \$2.0 million and indebtedness existing on the date of the credit agreement, and a covenant that prohibits payment of dividends on the Company's stock and redemptions, repurchases or other acquisitions of the Company's stock; provided that the Company can repurchase stock with an aggregate fair market value up to \$5.0 million in any calendar year. In addition, the credit agreement includes customary events of default for a credit facility. Upon a default, the interest rate will be increased by a default rate margin of 4.0%. Upon the occurrence of an event of default under the credit agreement, including a breach of any of the covenants discussed above, Wells Fargo has the option to make any loans then outstanding under the credit agreement immediately due and payable and is no longer obligated to extend further credit to the Company under the credit agreement.

8. COMMITMENTS

Leases

The Company is obligated under capital leases for certain furniture and office equipment that expire at various dates through the year 2012.

The Company also leases certain office facilities under noncancelable operating leases that expire at various dates through the year 2014 and is committed under noncancelable operating leases for the lease of computer equipment and automobiles through the year 2011.

Employee Benefit Plans

The Company has a qualified profit sharing plan (the Plan) pursuant to Code Section 401(a) and qualified cash or deferred arrangement pursuant to Code Section 401(k) covering substantially all employees. Employees may elect to contribute up to 50% of compensation or, if a lesser amount, the amount allowed by tax laws. Company contributions are made solely at the discretion of the Company's board of directors.

The Company has a discretionary bonus plan for regional managers, division managers and others as determined by the Company president. Bonuses are awarded if certain financial goals are achieved. The financial goals are not stated in the plan; rather they are judgmentally determined each year by executive management. In addition, the board of directors may declare discretionary bonuses to key employees and all employees are eligible for what the Company refers to as the "hot hand" bonus program, which pays awards for outstanding performance.

Post employment health benefits

In May 2006, the Company's board of directors approved providing lifetime health insurance coverage for Win Westfall, the Company's former chief executive officer and current chairman of the board of directors, and his spouse, and for Linda Heil, the widow of the Company's former chief executive officer, Dan Heil. Mrs. Heil is also a member of the Company's board of directors. Additionally, the board approved health

insurance coverage for Mrs. Heil's two dependents until they no longer qualify for dependent coverage under the Company's health insurance policy.

Additional Purchase Price Payable related to the Willdan Energy Solutions Acquisition

As discussed in note 4, if certain financial targets are achieved by Willdan Energy Solutions over the two year period ending as of the last day of the Company's second fiscal quarter of 2011, additional purchase price payments will be paid. The payments, which are payable in two installments based on financial targets for the first twelve months and then the second twelve months may not exceed \$4.9 million, which is the \$6.2 million maximum per the purchase agreement, reduced by the earnout amount accrued as of July 3, 2009.

9. INCOME TAXES

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the financial reporting basis and tax basis of the Company's assets and liabilities. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Table of Contents**10. SEGMENT INFORMATION**

The Company has three segments: Engineering Services, Public Finance Services and Homeland Security Services. The Engineering Services segment includes Willdan Engineering, Willdan Geotechnical, Public Agency Resources, Willdan Resource Solutions and Willdan Energy Solutions. The Engineering Services segment performs services for a broad range of public agency clients and, to a lesser extent, private industry and public utilities, and offers a full complement of civil and geotechnical engineering, building and safety, energy efficiency, sustainability, water conservation, construction management, and municipal planning services to clients throughout the western United States. The Public Finance Services segment, which consists of Willdan Financial Services, provides expertise and support for the various financing techniques employed by public agencies to finance their operations and infrastructure along with the mandated reporting and other requirements associated with these financings. The Homeland Security Services segment, which consists of Willdan Homeland Solutions, provides homeland security, management consulting and public safety consulting services to cities, counties and related municipal service agencies.

The accounting policies applied to determine the segment information are the same as those described in the summary of significant accounting policies, included in the Company's 2008 Annual Report on Form 10-K filed on April 3, 2009. There were no intersegment sales during the fiscal three or six months ended July 3, 2009 and June 27, 2008. Management evaluates the performance of each segment based upon income or loss before year-end bonuses and income taxes. Certain segment asset information including expenditures for long-lived assets has not been presented as it is not reported to or reviewed by the chief operating decision maker. In addition, enterprise-wide service line contract revenue is not included as it is impracticable to report this information for each group of similar services.

Financial information with respect to the reportable segments for the fiscal three and six months ended July 3, 2009 and the fiscal three and six months ended June 27, 2008 follows:

	Engineering Services	Public Finance Services	Homeland Security Services	Unallocated Corporate	Intersegment	Consolidated Total
Fiscal Three Months Ended July 3, 2009						
Contract revenue	\$ 11,617,000	\$ 3,100,000	\$ 767,000	\$	\$	\$ 15,484,000
Segment (loss) profit before income taxes	(1,710,000)	269,000	10,000	(3,000)		(1,434,000)

Table of Contents

11. CONTINGENCIES

Claims and Lawsuits

The Company is subject from time to time to various claims and lawsuits, including those alleging professional errors or omissions that arise in the ordinary course of business against firms that operate in the engineering and consulting professions. The Company carries professional liability insurance, subject to certain deductibles and policy limits, for such claims as they arise and may from time to time establish reserves for litigation that is considered probable of loss.

County of San Diego v. Willdan, Superior Court of California, Riverside County

A complaint was filed against the Company on February 28, 2008 relating to a project for the reconstruction of a portion of Valley Center Road located in an unincorporated area of San Diego County. The Company completed the design and a contract was awarded to a construction contractor for construction of the improvements. The construction was originally scheduled for completion in December 2008; however completion has been delayed until fall 2009. The lawsuit alleges that the delays in construction were caused by errors and omissions in the Company's preparation of reports and design and engineering of the project, resulting in additional design and construction costs, in an amount to be determined but believed to be in excess of \$5.0 million. The Company denies the allegations asserted in the lawsuit and will vigorously defend against the claims. At July 3, 2009, the Company did not have a liability recorded on its balance sheet related to this complaint.

Topaz v. City of Laguna Beach, Superior Court of California, Orange County

This suit concerns a project by the City of Laguna Beach to reconstruct a retaining wall supporting a city road. The Company served as the construction observer for this project and designed the retaining wall. Subsequent to completion of the project, a slope below the retaining wall failed damaging the plaintiffs' residence. The retaining wall did not fail. The construction work was performed from February to March 2005 and the slope failure occurred in June 2005. The plaintiffs were not injured in the incident. The plaintiffs allege that the City of Laguna Beach violated its own ordinances by not obtaining appropriate geotechnical data during the design stage and by allowing the work to be constructed during the rainy season. The lawsuit names Merit Engineering, the project designer, Peterson-Chase Engineering, the general contractor and the Company, the construction observer, as defendants. The Company was named as a defendant in the first amended complaint filed on October 17, 2007. The plaintiffs filed a mediation brief on April 25, 2008 indicating damages to real and personal property in the amount of \$0.8 million and general damages between \$1.6 million and \$4.7 million. A cross-complaint has been filed in the action by Peterson-Chase Engineering against the Company seeking equitable apportionment. The Company denies the allegations asserted in the lawsuit and cross-complaint and will vigorously defend against the claims. At July 3, 2009, the Company did not have a liability recorded on its balance sheet related to this complaint.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the financial statements included elsewhere in this Quarterly Report and the audited financial statements for the year ended January 2, 2009, included in our Annual Report on Form 10-K (File No. 001-33076). This Quarterly Report contains, in addition to historical information, forward-looking statements, which involve risk and uncertainties. The words believe, expect, estimate, may, will, could, plan, or continue and similar expressions are intended to identify forward-looking statements. Our actual results could differ significantly from the results discussed in such forward-looking statements.

Overview

We are a provider of outsourced and consulting services to small and mid-sized public agencies in California and other western states. Outsourcing enables these agencies to provide a wide range of specialized services, without having to incur and maintain the overhead necessary to develop staffing in-house. We provide a broad range of services to public agencies and to a lesser extent, private industry and public utilities, including:

- Civil Engineering;

- Building and Safety Services;

- Geotechnical Engineering;

- Energy Efficiency Consulting;

- Financial and Economic Consulting; and

- Disaster Preparedness and Homeland Security.

We operate our business through a network of offices located throughout California and other western states and had a staff of 487 as of July 3, 2009 that includes licensed engineers and other professionals. Our core clients are public agencies in communities with populations ranging from 10,000 to 300,000 people. We believe communities of this size are underserved by large outsourcing companies that tend to focus on

Edgar Filing: Willdan Group, Inc. - Form 10-Q

securing large federal and state projects, as well as projects for the private sector. We seek to establish close working relationships with our public agency clients and, over time, to expand the breadth and depth of the services we provide to them.

While we currently serve communities throughout the country, our business is concentrated in California and neighboring states. We provide services to approximately 60% of the 480 cities and over 60% of the 58 counties in California. We also serve special districts, school districts, a range of public agencies, and to a lesser extent, private industry and public utilities.

Willdan Group, Inc. is a Delaware corporation formed in 2006 for the purpose of effecting the reincorporation of The Willdan Group of Companies, a California corporation formed in 2001 to serve as our holding company. The reincorporation was completed effective June 30, 2006. We were founded over 40 years ago, and today consist of a family of wholly owned companies that operate within the following segments for financial reporting purposes:

Engineering Services. Our Engineering Services segment includes the operations of our subsidiaries, Willdan Engineering, Willdan Geotechnical, Willdan Energy Solutions, Willdan Resource Solutions and Public Agency Resources (PARs). These businesses collectively provide a full complement of civil and geotechnical engineering, building and safety services, energy efficiency, sustainability, water conservation, construction management, and municipal planning services to public agencies and, to a lesser extent, private industry and public utilities. Additionally, PARs primarily provides staffing to Willdan Engineering. Willdan Engineering is our largest subsidiary. Contract revenue for the Engineering Services segment represented 76.3% and 78.8% of our consolidated contract revenue for the six months ended July 3, 2009 and June 27, 2008, respectively.

Table of Contents

Public Finance Services. Our Public Finance Services segment consists of the business of our subsidiary, Willdan Financial Services, which offers financial and economic consulting services to public agencies. Contract revenue for the Public Finance Services segment represented 18.7% and 18.8% of our consolidated contract revenue for the six months ended July 3, 2009 and June 27, 2008, respectively.

Homeland Security Services. Our Homeland Security Services segment consists of the business of our subsidiary, Willdan Homeland Solutions, which offers homeland security, management consulting and public safety consulting services. Contract revenue for our Homeland Security Services segment represented 5.0% and 2.4% of our consolidated contract revenue for the six months ended July 3, 2009 and June 27, 2008, respectively.

Recent Developments

General economic conditions have declined over the past 18 months due to a number of factors including slower economic activity, a lack of available credit, decreased consumer confidence and reduced corporate profits and capital spending. These conditions have led to a slowdown in construction, particularly residential housing construction, in the western United States. As a result of this slowdown, our engineering services segment has suffered declines in revenue and we have made several workforce reductions in order to align resources, primarily human capital, to workload. We believe that the reductions in workforce achieved through July 3, 2009 will be sufficient to align resources with future demand for our services. However, should the economic slowdown continue to worsen, we will need to evaluate further reductions in headcount and facilities in geographic areas that are underperforming. We will also continue to focus on reducing discretionary expenditures and the efficient procurement of necessary services.

Declining revenue resulting from the economic conditions discussed above also contributed to us violating certain covenants that used to be in our revolving credit agreement with Wells Fargo Bank, National Association (Wells Fargo). Wells Fargo agreed to waive these defaults and eliminate or modify certain financial covenants in exchange for our agreement to reduce the aggregate revolving loan commitment from \$10.0 million to \$5.0 million, cash collateralize the commitment and increase pricing. The terms of our amended credit agreement are discussed in more detail below under Liquidity and Capital Resources Outstanding Indebtedness. While we believe that our cash on hand, cash generated by operating activities and funds available under our amended credit facility with Wells Fargo will be sufficient to finance our operating activities for the next 12 months, if we do experience a cash flow shortage or violate the current terms of our credit agreement, we may have difficulty obtaining additional funds on favorable terms, if at all, in the current credit market.

In the second quarter of fiscal year 2009, there were changes to our board of directors. On April 14, 2009, the board of directors agreed to increase the size of the board from seven directors to nine directors effective June 5, 2009. The board of directors, based on the recommendations of the Nominating and Corporate Governance Committee, nominated Raymond W. Holdsworth, Jr. and Douglas J. McEachern to serve as directors of the Company. These nominations, along with the nominations of the incumbent board members, were subject to a vote of the stockholders at the annual meeting of the stockholders on June 5, 2009. Each nominee was confirmed as a director by a vote of stockholders on June 5, 2009. Mr. Holdsworth was appointed to the Nominating and Corporate Governance and Investment, Finance and Strategy Committees while Mr. McEachern was appointed to the Audit and Compensation Committees.

Components of Income and Expense

Contract Revenue

We enter into contracts with our clients that contain three principal types of pricing provisions: fixed price, time-and-materials and unit-based. Contract revenue on our fixed price contracts is determined on the percentage-of-completion method based generally on the ratio of direct costs incurred to date to estimated total direct costs at completion. Many of our fixed price contracts are relatively short in duration, thereby lowering the risks of not properly estimating the percent complete. Revenue on our time-and-materials and unit-based contracts are recognized as the work is performed in accordance with specific terms of the contract. Approximately half of our contracts are based on contractual rates per hour plus costs incurred. Some of these contracts include maximum contract prices, but the majority of these contracts are not expected to exceed the maximum.

Table of Contents

Adjustments to contract cost estimates are made in the periods in which the facts requiring such revisions become known. When the revised estimate indicates a loss, such loss is provided for currently in its entirety. Claims revenue is recognized only upon resolution of the claim. Change orders in dispute are evaluated as claims. Costs related to unpriced change orders are expensed when incurred and recognition of the related contract revenue is based on an evaluation of the probability of recovery of the costs. Estimated profit is recognized for unpriced change orders if realization of the expected price of the change order is assured beyond a reasonable doubt.

Direct Costs of Contract Revenue

Direct costs of contract revenue consist primarily of that portion of technical and nontechnical salaries and wages that has been incurred in connection with revenue producing projects. Direct costs of contract revenue also include production expenses, subconsultant services and other expenses that are incurred in connection with revenue producing projects. Direct costs of contract revenue exclude depreciation and amortization, that portion of technical and nontechnical salaries and wages related to marketing efforts, vacations, holidays and other time not spent directly generating revenue under existing contracts. Such costs are included in general and administrative expenses. Additionally, payroll taxes, bonuses and employee benefit costs for all of our personnel are included in general and administrative expenses since no allocation of these costs is made to direct costs of contract revenue. No allocation of facilities costs is made to direct costs of contract revenue nor is depreciation and amortization allocated to direct costs. We expense direct costs of contract revenue when incurred.

As a firm that provides multiple and diverse outsourced services, we do not believe gross margin is a consistent or appropriate indicator of our performance and therefore we do not use this measure as construction contractors and other types of consulting firms may. Other companies may classify as direct costs of contract revenue some of the costs that we classify as general and administrative expenses. As a result, our direct costs of contract revenue may not be comparable to direct costs for other companies, either as a line item expense or as a percentage of contract revenue.

General and Administrative Expenses

General and administrative expenses include the costs of the marketing and support staffs, other marketing expenses, management and administrative personnel costs, payroll taxes, bonuses and employee benefits for all of our employees and the portion of salaries and wages not allocated to direct costs of contract revenue for those employees who provide our services. General and administrative expenses also include facility costs, depreciation and amortization, professional services, legal and accounting fees and administrative operating costs. Within general and administrative expenses, Other includes expenses such as professional services, legal and accounting, computer costs, travel and entertainment and marketing costs. We expense general and administrative costs when incurred.

Critical Accounting Policies

This discussion and analysis of financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with generally accepted accounting principles in the U.S., or GAAP. To prepare these financial statements in conformity with GAAP, we must make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amount of revenue and expenses in the reporting period. Our actual results may differ from these estimates. We have provided a summary of our significant accounting policies in Note 2 to our consolidated financial statements included in our Annual

Edgar Filing: Willdan Group, Inc. - Form 10-Q

Report on Form 10-K for the year ended January 2, 2009. We describe below those accounting policies that require material subjective or complex judgments and that have the most significant impact on our financial condition and results of operations. Our management evaluates these estimates on an ongoing basis, based upon information currently available and on various assumptions management believes are reasonable as of the date of this report. The uncertainty inherent in such estimates and assumptions has been increased as a result of the general economic conditions discussed above in Recent Developments.

Table of Contents

Contract Accounting

Applying the percentage-of-completion method of recognizing revenue requires us to estimate the indicated outcome of our long-term contracts. We forecast such outcomes to the best of our knowledge and belief of current and expected conditions and our expected course of action. Differences between our estimates and actual results often occur resulting in changes to reported revenue and earnings. Such changes could have a material effect on our future consolidated financial statements.

Accounts receivable are carried at original invoice amount less an estimate made for doubtful accounts based upon our review of all outstanding amounts on a monthly basis. We determine the allowance for doubtful accounts by identifying troubled accounts and by using historical experience applied to an aging of accounts. Account receivables are written off when deemed uncollectible. Recoveries of accounts receivable previously written off are recorded when received.

For further information on the types of contracts under which we perform our services, see Management's Discussion and Analysis of Financial Condition and Results of Operations Components of Income and Expense Contract Revenue elsewhere in this report.

Goodwill Impairment Valuation

The Statement of Financial Accounting Standards No. 142, *Goodwill and Other Intangible Assets* (SFAS No. 142) requires that we test goodwill, at least annually, for possible impairment. Accordingly, we complete our annual testing of goodwill as of the last day of the first month of our fourth fiscal quarter each year to determine whether there is impairment. In addition to our annual test, we regularly evaluate whether events and circumstances have occurred that may indicate a potential impairment of goodwill. We did not recognize any impairment charges for the six months ended July 3, 2009.

We test our goodwill for impairment at the level of our reporting units, which are components of our operating segments. The reporting units that have material amounts of goodwill are Willdan Energy Solutions, which is part of our engineering services segment, and Willdan Financial Services, which constitutes our public finance services segment. We recognized impairment charges for fiscal year 2008 related to our Homeland Security Services reporting unit. Our Homeland Security Services reporting unit had no remaining goodwill following this impairment charge. The process of testing goodwill for impairment involves the determination of the fair value of the applicable reporting units. To estimate the fair value of our reporting units, we have historically used an income approach based on a multiple of historical cash flows, management's estimates of future cash flows and other market data. In fiscal year 2008, we expanded our methodology to include a market approach based upon multiples of EBITDA earned by similar public companies. For our fiscal year 2008 annual impairment test, we weighted the income approach and the market approach at 80% and 20%, respectively. The income approach was given a higher weight because it has a more direct correlation to the specific economics of the reporting units than the market approach, which is based on multiples of companies that, although comparable, may not provide the same mix of services as our reporting units.

Once the fair value is determined, we then compare the fair value of the reporting unit to its carrying value, including goodwill. If the fair value of the reporting unit is determined to be less than the carrying value, we perform an additional assessment to determine the extent of the impairment based on the implied fair value of goodwill compared with the carrying amount of the goodwill. In the event that the current implied fair value of the goodwill is less than the carrying value, an impairment charge is recognized.

Inherent in such fair value determinations are significant judgments and estimates, including but not limited to assumptions about our future revenue, profitability and cash flows, our operational plans and our interpretation of current economic indicators and market valuations. To the extent these assumptions are incorrect or economic conditions that would impact the future operations of our reporting units change, our goodwill may be deemed to be impaired, and an impairment charge could result in a material adverse effect on our financial position or results of operation. For example, if we experienced a 10% decrease in the fair value of each of our reporting units that have goodwill from that determined during our 2008 annual impairment testing, we would require an impairment charge of approximately \$0.3 million.

Table of Contents*Accounting for Claims Against the Company*

We record liabilities to claimants for probable and estimable claims on our consolidated balance sheet in accrued liabilities, and record a corresponding receivable, which we include in other receivables, from our insurance company for the portion of the claim that will likely be covered by insurance. The estimated claim amount net of the amount estimated to be recoverable from the insurance company is included in our general and administrative expenses. Determining probability and estimating claim amounts is highly judgmental. Initial accruals and any subsequent changes in our estimates could have a material effect on our consolidated financial statements.

Results of Operations

The following table sets forth, for the periods indicated, certain information derived from our consolidated statements of operations expressed as a percentage of contract revenue.

Statement of Operations Data	Fiscal Three Months Ended		Fiscal Six Months Ended	
	July 3, 2009	June 27, 2008	July 3, 2009	June 27, 2008
Contract revenue	100.0%	100.0%	100.0%	100.0%
Direct costs of contract revenue (exclusive of depreciation and amortization shown separately below):				
Salaries and wages	29.0	31.1	28.4	31.1

Three Months Ended July 3, 2009 Compared to Three Months Ended June 27, 2008

Edgar Filing: Willdan Group, Inc. - Form 10-Q

Contract revenue. Our contract revenue was \$15.5 million for the three months ended July 3, 2009, with \$11.6 million attributable to the Engineering Services segment and \$3.1 million attributable to the Public Finance Services segment. Our Homeland Security Services segment generated \$0.8 million during this period. Consolidated contract revenue decreased \$2.3 million, or 13%, to \$15.5 million for the three months ended July 3, 2009, from \$17.8 million for the three months ended June 27, 2008. This was due primarily to a decrease of \$2.2 million, or 15.9%, in contract revenue for the Engineering Services segment primarily as a result of the continuing decline in our building and safety projects which is directly and indirectly affected by the residential housing market. Contract revenue in the Public Finance Services segment decreased \$0.4 million, or 11.4%, from \$3.5 million to \$3.1 million for the three months ended July 3, 2009 as compared to the three months ended June 27, 2008. Contract revenue for our Homeland Security Services segment increased \$0.2 million, or 33.3%, from \$0.6 million to \$0.8 million in the three months ended July 3, 2009 as compared to the three months ended June 27, 2008.

Table of Contents

Contract revenue for the Engineering Services segment has been significantly impacted by the decline in the California residential housing market and state and local government budget cuts. A source of revenue in our Engineering Services segment is fees assessed for building permits. Since the second half of fiscal 2007, we have experienced increasing reductions in revenue from these fees because of the continuing slowdown in residential construction in the western United States. Contract revenue for the Engineering Services segment also decreased because of the lower demand for our staff augmentation, plan check and other building and safety services resulting from the decline in the residential housing market. The \$2.2 million decrease in contract revenue for the Engineering Services segment is net of an increase of \$2.1 million of revenue recognized by Willdan Energy Solutions in the second quarter of fiscal 2009. Revenue in the Public Finance Services segment decreased primarily due to lower levels of activity in the financial consulting business as a result of the general downturn in macro-economic conditions. Revenue in the Homeland Security Services segment has increased due to an increase in our emergency planning and exercises, particularly in California and Arizona. Additionally, our Homeland Security Services segment has expanded its client base beyond traditional municipal governments to include the transit industry, schools and healthcare agencies.

Direct costs of contract revenue. Direct costs of contract revenue were \$7.4 million for the three months ended July 3, 2009, with \$6.1 million attributable to the Engineering Services segment and \$0.9 million attributable to the Public Finance Services segment. The additional \$0.4 million is attributable to direct costs of contract revenue for our Homeland Security Services segment. Direct costs of contract revenue for the Engineering Services segment for the three months ended July 3, 2009 includes \$1.8 million relating to Willdan Energy Solutions. Overall, direct costs decreased by \$0.2 million, or 2.6%, to \$7.4 million for the three months ended July 3, 2009, from \$7.6 million for the three months ended June 27, 2008. This net decrease is attributable to a decrease in direct costs within our Engineering Services segment of \$0.3 million, offset by an increase of \$0.1 million within our Homeland Security Services segment. Direct costs within the Public Finance Services segment remained flat.

Direct costs decreased as a result of a decrease in salaries and wages of \$1.0 million, partially offset by increases in subconsultant services and other direct costs of \$0.6 million and \$0.2 million, respectively. Within direct costs of contract revenue, salaries and wages decreased to 29.0% of contract revenue for the three months ended July 3, 2009 from 31.1% for the three months ended June 27, 2008. Comparing those same periods, subconsultant services increased to 14.1% of contract revenue from 8.6% of contract revenue. Subconsultant costs increased primarily due to our acquisition of Willdan Energy Solutions in June 2008. Willdan Energy Solutions utilizes a higher percentage of subconsultants and other direct costs than our other subsidiaries. Excluding subconsultant services and other direct costs, direct salaries and wages decreased by \$1.0 million, or 18.2% to \$4.5 million for the three months ended July 3, 2009 from \$5.5 million for the three months ended June 27, 2008.

General and administrative expenses. General and administrative expenses decreased by \$0.8 million, or 7.8%, to \$9.5 million for the three months ended July 3, 2009 from \$10.3 million for the three months ended June 27, 2008. This was due primarily to a decrease of \$0.6 million in general and administrative expenses of the Engineering Services segment, which is net of the increase in general and administrative expenses incurred due to our acquisition of Willdan Energy Solutions in June 2008. General and administrative expenses decreased by \$0.1 million for our Homeland Security Services segment and remained flat for our Public Finance Services segment. Our unallocated corporate expenses decreased by \$0.1 million. General and administrative expenses as a percentage of contract revenue increased to 61.3% for the three months ended July 3, 2009 from 58.1% for the three months ended June 27, 2008.

The \$0.8 million decrease in general and administrative expenses primarily relates to decreases in salaries and wages, payroll taxes and employee benefits, facilities and facility related expenses and other general and administrative expenses, partially offset by an increase in depreciation and amortization expenses. The reduction in employee related costs primarily resulted from reductions in headcount and cost control measures. As discussed above under Components of Income and Expense Direct Costs of Contract Revenue, we do not allocate that portion of salaries and wages not related to time spent directly generating revenue to direct costs of contract revenue. The reduction in facility and facility related expenses primarily resulted from office closures in fiscal 2008 and the first six months of fiscal 2009. The net reduction in other general and administrative expenses is primarily due to cost control measures and reductions in marketing, insurance and auto expenses, partially offset by increases in professional services related to process improvements to our fully integrated accounting system and related systems and a reserve for potential bad debt for a receivable from a private industry client in bankruptcy proceedings. The increase in

Edgar Filing: Willdan Group, Inc. - Form 10-Q

depreciation and amortization expense primarily resulted from the increase in the amortization of intangible assets related to the acquisition of Willdan Energy Solutions in June 2008.

Table of Contents

Loss from operations. As a result of the above factors, our operating loss was \$1.4 million for the three months ended July 3, 2009 as compared to an operating loss of \$0.1 million for the three months ended June 27, 2008. Loss from operations as a percentage of contract revenue was 9.3% for the three months ended July 3, 2009, as compared to 0.7% in the prior year period.

Other income (expense). Other income (expense), net was \$(1,000) for the three months ended July 3, 2009, as compared to \$0.1 million for the three months ended June 27, 2008. The decrease is primarily the result of reduced interest income due primarily to lower average balances as a result of the cash required for the Willdan Energy Solutions acquisition on June 9, 2008.

Income tax (benefit) expense. Income tax benefit was \$0.5 million for the three months ended July 3, 2009, compared to income tax expense of \$16,000 for the prior year period. The income tax benefit resulted from the loss incurred during the three months ended July 3, 2009. The Company believes that it is more likely than not that a tax benefit resulting from these losses will be realized.

Net loss. As a result of the above factors, our net loss was \$0.9 million for the three months ended July 3, 2009 compared to a net loss of \$0.1 million for the three months ended June 27, 2008.

Six Months Ended July 3, 2009 Compared to Six Months Ended June 27, 2008

Contract revenue. Our contract revenue was \$32.7 million for the six months ended July 3, 2009, with \$25.0 million attributable to the Engineering Services segment and \$6.1 million attributable to the Public Finance Services segment. Our Homeland Security Services segment generated \$1.6 million during this period. Consolidated contract revenue decreased \$2.9 million, or 8.1%, to \$32.7 million for the six months ended July 3, 2009, from \$35.6 million for the six months ended June 27, 2008. This was due primarily to a decrease of \$3.1 million, or 11.1%, in contract revenue for the Engineering Services segment primarily as a result of the continuing decline in our building and safety projects which is directly and indirectly affected by the residential housing market. Contract revenue in the Public Finance Services segment decreased \$0.6 million, or 9.0%, from \$6.7 million to \$6.1 million for the six months ended July 3, 2009 as compared to the six months ended June 27, 2008. Contract revenue for our Homeland Security Services segment increased \$0.7 million, or 77.8%, from \$0.9 million to \$1.6 million for the six months ended July 3, 2009 as compared to the six months ended June 27, 2008.

Contract revenue for the Engineering Services segment has been significantly impacted by the decline in the California residential housing market and state and local government budget cuts. A source of revenue in our Engineering Services segment is fees assessed for building permits. Since the second half of fiscal 2007, we have experienced reductions in revenue from these fees because of the continuing slowdown in residential construction in the western United States. Contract revenue for the Engineering Services segment also decreased because of the lower demand for our staff augmentation, plan check and other building and safety services resulting from the decline in the residential housing market. The \$3.1 million decrease in contract revenue for the Engineering Services segment is net of an increase of \$5.7 million of revenue recognized by Willdan Energy Solutions in the first six months of fiscal 2009. Revenue in the Public Finance Services segment decreased primarily due to lower levels of activity in the financial consulting business as a result of the general downturn in macro-economic conditions. Revenue in the Homeland Security Services segment has increased due to an increase in our emergency planning and exercises, particularly in California and Arizona. Additionally, our Homeland Security Services segment has expanded its client base beyond its traditional municipal governments to include the transit industry, schools and healthcare agencies.

Edgar Filing: Willdan Group, Inc. - Form 10-Q

Direct costs of contract revenue. Direct costs of contract revenue were \$15.7 million for the six months ended July 3, 2009, with \$13.2 million attributable to the Engineering Services segment and \$1.7 million attributable to the Public Finance Services segment. The additional \$0.8 million is attributable to direct costs of contract revenue for our Homeland Security Services segment. Direct costs of contract revenue for the Engineering Services segment for the six months ended July 3, 2009 includes \$4.4 million relating to Willdan Energy Solutions. Overall, direct costs increased by \$1.0 million, or 6.8%, to \$15.7 million for the six months ended July 3, 2009, from \$14.7 million for the six months ended June 27, 2008. This increase is attributable to increases in direct costs within our Engineering Services and Homeland Security Services segments of \$0.6 million and \$0.4 million, respectively. Direct costs within the Public Finance Services segment remained flat.

Table of Contents

Direct costs increased as a result of increases in subconsultant services and other direct costs of \$1.8 million and \$1.0 million, respectively, partially offset by a decrease in salaries and wages of \$1.8 million. Within direct costs of contract revenue, salaries and wages decreased to 28.4% of contract revenue for the six months ended July 3, 2009 from 31.1% for the six months ended June 27, 2008. Comparing those same periods, subconsultant services increased to 14.1% of contract revenue from 7.9% of contract revenue. Subconsultant costs increased primarily due to our acquisition of Willdan Energy Solutions in June 2008. Willdan Energy Solutions utilizes a higher percentage of subconsultants and other direct costs than our other subsidiaries. Excluding subconsultant services and other direct costs, direct salaries and wages decreased by \$1.8 million, or 16.2% to \$9.3 million for the six months ended July 3, 2009 from \$11.1 million for the six months ended June 27, 2008.

General and administrative expenses. General and administrative expenses decreased by \$1.8 million, or 9.4%, to \$19.1 million for the six months ended July 3, 2009 from \$20.9 million for the six months ended June 27, 2008. This was due primarily to a decrease of \$1.7 million in general and administrative expenses of the Engineering Services segment, net of the increase in general and administrative expenses incurred due to our acquisition of Willdan Energy Solutions in June 2008. General and administrative expenses decreased by \$0.1 million for our Homeland Security Services segment and increased by \$0.1 million for our Public Finance Services segment. The remaining \$0.2 million decrease is attributable to unallocated corporate expenses. General and administrative expenses as a percentage of contract revenue decreased to 58.4% for the six months ended July 3, 2009 from 58.8% for the six months ended June 27, 2008.

The \$1.8 million decrease in general and administrative expenses primarily relates to decreases in salaries and wages, payroll taxes and employee benefits, facilities and facility related expenses and other general and administrative expenses, partially offset by an increase in depreciation and amortization expenses. The reduction in employee related costs primarily resulted from reductions in headcount and cost control measures. The reduction in facility and facility related expenses primarily resulted from office closures in fiscal 2008 and the first six months of fiscal 2009. As discussed above under Components of Income and Expense Direct Costs of Contract Revenue, we do not allocate that portion of salaries and wages not related to time spent directly generating revenue to direct costs of contract revenue. The net reduction in other general and administrative expenses primarily related to cost control measures and reductions in marketing, insurance and auto expenses, partially offset by increases in professional services related to process improvements to our fully integrated accounting system and related systems and a reserve for potential bad debt for a receivable from a private industry client in bankruptcy proceedings. The increase in depreciation and amortization expense primarily resulted from the increase in the amortization of intangible assets related to the acquisition of Willdan Energy Solutions in June 2008.

Loss from operations. As a result of the above factors, our operating loss was \$2.1 million for the six months ended July 3, 2009, as compared to an operating loss of \$0.1 million for the six months ended June 27, 2008. Loss from operations as a percentage of contract revenue was 6.5% for the six months ended July 3, 2009, as compared to 0.2% in the prior year period.

Other income (expense). Other income (expense), net was \$0 for the six months ended July 3, 2009, as compared to \$0.3 million of income for the six months ended June 27, 2008. The decrease is primarily the result of reduced interest income due primarily to the lower average balances as a result of the cash required for the Willdan Energy Solutions acquisition on June 9, 2008.

Income tax (benefit) expense. Income tax benefit was \$0.8 million for the six months ended July 3, 2009, compared to income tax expense of \$0.1 million for the prior year period. The income tax benefit resulted from the loss incurred during the six months ended July 3, 2009. The Company believes that it is more likely than not that a tax benefit resulting from these losses will be realized.

Net (loss) income. As a result of the above factors, our net loss was \$1.4 million for the six months ended July 3, 2009 compared to net income of \$0.1 million for the six months ended June 27, 2008.

Table of Contents

Liquidity and Capital Resources

As of July 3, 2009, we had \$8.7 million of cash and cash equivalents. Our primary sources of liquidity are cash generated from operations and funds available under our revolving line of credit. We believe that our cash and cash equivalents on hand, cash generated by operating activities and funds available under our credit facility will be sufficient to finance our operating activities for at least the next 12 months.

Cash flows from operating activities

Cash flows provided by operating activities were \$1.3 million for the six months ended July 3, 2009 compared to \$1.9 million for the six months ended June 27, 2008. The cash flows provided by operating activities in the six months ended July 3, 2009 were comparatively lower than in the six months ended June 27, 2008 due primarily to the decline in the Company's volume of business as a result of the unfavorable economic conditions which was partially offset by a reduction in our accounts receivable.

Cash flows from investing activities

Cash flows used in investing activities were \$1.1 million for the six months ended July 3, 2009 compared to \$10.2 million for the six months ended June 27, 2008. Cash flows used in investing activities for the six months ended July 3, 2009 were comparatively lower than in the six months ended June 27, 2008 primarily due to a decrease of \$8.8 million in payments, net of cash acquired, related to the acquisition of Intergy Corporation in the six months ended June 27, 2008. We also used \$0.3 million less on purchases of equipment and leasehold improvements and liquid investments in the six months ended July 3, 2009 as compared to the six months ended June 27, 2008.

Cash flows from financing activities

Cash flows provided by financing activities were \$0.4 million for the six months ended July 3, 2009 compared to \$1.0 million used in financing activities for the six months ended June 27, 2008. This net change of \$1.4 million resulted primarily from a \$0.6 million increase in the change in excess of outstanding checks over bank balance and a \$0.8 million reduction in payments on notes payable.

Outstanding indebtedness

We currently have a revolving line of credit with Wells Fargo Bank, National Association (Wells Fargo), which was amended on March 30, 2009. We have also financed, from time to time, insurance premiums by entering into unsecured notes payable with insurance companies. During our annual insurance renewals in the fourth quarter of our fiscal year ended January 2, 2009, we elected not to finance our insurance premiums for the upcoming fiscal year.

Under the terms of our credit agreement with Wells Fargo, we can borrow up to \$5.0 million from time to time (as may be limited by the covenants in the credit agreement as discussed below) up to and until January 1, 2010. Loans made under the revolving line of credit will accrue interest at either (i) the floating rate equal to the prime rate in effect from time to time or (ii) the fixed rate of 1.75% above LIBOR, at our election. For prime rate loans, the interest rate will be adjusted when each prime rate change by the bank is announced and becomes effective. There were no outstanding borrowings under this agreement as of July 3, 2009, nor have there been any borrowings under the credit agreement since the inception of the agreement in December 2007. Prior to the maturity of this credit agreement, we intend to renew the agreement under its existing terms for another one year term. However, no assurances can be made that we will be able to successfully extend this agreement.

Borrowings under the credit agreement are secured by all of our accounts receivable and other rights to payment, general intangibles, inventory and equipment, including those of our subsidiaries. In addition, borrowings under the credit agreement are secured by investments we hold in a securities account at Wells Fargo that must at all times have a collateral value of at least \$5.0 million. Each of our subsidiaries (except Public Agency Resources and Willdan Resource Solutions) has signed an unconditional guaranty of our obligations under the agreements.

Table of Contents

The credit agreement contains customary representations and affirmative covenants, including a covenant to maintain a tangible net worth of at least \$18.0 million at all times. Tangible net worth is defined in the credit agreement as stockholders' equity less intangible assets and loans or advances to, or investments in, any related entities or individuals. As of July 3, 2009, our tangible net worth as defined under our credit agreement was \$19.9 million⁽¹⁾.

The credit agreement also includes customary negative covenants, including a covenant that prohibits the incurrence of additional indebtedness by us or our subsidiaries other than purchase money indebtedness not to exceed \$2.0 million and indebtedness existing on the date of the credit agreement, and a covenant that prohibits payment of dividends on our stock and redemptions, repurchases or other acquisitions of our stock; provided that we can repurchase stock with an aggregate fair market value up to \$5.0 million in any calendar year. In addition, the credit agreement includes customary events of default for a credit facility. Upon a default, the interest rate will be increased by a default rate margin of 4.0%. Upon the occurrence of an event of default under the credit agreement, including a breach of any of the covenants discussed above, Wells Fargo has the option to make any loans then outstanding under the credit agreement immediately due and payable and is no longer obligated to extend further credit to us under the credit agreement.

Contractual obligations

We had no material changes in commitments for long-term debt obligations, operating lease obligations or capital lease obligations as of July 3, 2009, as compared to those disclosed in our table of contractual obligations included in our Annual Report on Form 10-K for the year ended January 2, 2009.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

(1) Tangible net worth is a supplemental measure used in our credit agreement. If we do not maintain tangible net worth of at least \$18.0 million, Wells Fargo could choose to accelerate any loans then outstanding under the facility or refuse to make additional loans to us under the facility. Management therefore believes that presentation of tangible net worth as defined in the credit agreement is useful to investors because it helps them understand how our tangible net worth compares to the financial covenant contained in our credit agreement and whether we are close to violating such covenant. Management also reviews tangible net worth to ensure it will continue to have access to its financing sources. Tangible net worth is defined in the credit agreement as the aggregate of total stockholders' equity less any intangible assets and less any loans or advances to, or investments in, any related entities or individuals. This definition of tangible net worth may differ from those of many companies reporting similarly named measures. This measure should be considered in addition to, and not as a substitute for or superior to, other measures of financial performance prepared in accordance with U.S. generally accepted accounting principles, or GAAP, such as stockholders' equity. Tangible net worth is not a recognized term under GAAP and does not purport to be an alternative to stockholders' equity as an indicator of net worth or any other GAAP measure.

The following is a reconciliation of stockholders' equity to tangible net worth:

Edgar Filing: Willdan Group, Inc. - Form 10-Q

July 3, 2009

Stockholders' equity	\$	33,172,000
Goodwill and other intangibles, net		(13,269,000)
Related party loans, advances or investments		
Tangible net worth	\$	19,903,000

Table of Contents

Recent Accounting Pronouncements

In December 2007, the Financial Accounting Standards Board (FASB) issued SFAS No. 141 (revised 2007), *Business Combinations* (SFAS 141R). SFAS 141R establishes the principles and requirements for how an acquirer: (i) recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree; (ii) recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase, and (iii) determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. SFAS 141R makes significant changes to existing accounting practices for acquisitions. Under SFAS 141R, adjustments to the acquired entity's deferred tax assets and uncertain tax position balances occurring outside the measurement period are recorded as a component of the income tax expense, rather than goodwill, which nullifies EITF 93-7, *Uncertainties Related to Income Taxes in a Purchase Business Combination*, (EITF 93-7). This requirement applies to all business combinations regardless of consummation date. SFAS 141R applies prospectively to business combinations, for which the acquisition date is on or after the beginning of the first annual reporting period on or after December 15, 2008, except for the transition provisions of EITF 93-7. We adopted SFAS 141R on January 3, 2009 and this had no effect on our financial statements.

In April 2008, the FASB issued FSP 142-3, *Determination of the Useful Life of Intangible Assets* (FSP 142-3). FSP 142-3 amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under SFAS No. 142, *Goodwill and Other Intangible Assets*. FSP 142-3 will be effective for fiscal years beginning after December 15, 2008. We adopted FSP 142-3 on January 3, 2009 and this had no effect on our financial statements.

In May 2009, the FASB issued SFAS No. 165, *Subsequent Events* (SFAS 165). SFAS 165 requires disclosure of the date through which a company evaluated the need to disclose events that occurred subsequent to the balance sheet date and whether that date represents the date the financial statements were issued or were available to be issued. We adopted SFAS 165 for the period ended July 3, 2009 and the adoption of SFAS 165 did not have any effect on its consolidated financial position, results of operations or cash flows.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION

In addition to current and historical information, this report contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements relate to our future operations, prospects, potential products, services, developments and business strategies. These statements can, in some cases, be identified by the use of words like may, will, should, could, would, intend, plan, anticipate, believe, estimate, predict, project, potential, or continue or the negative of such terms or other comparable terminology. This report includes, among others, forward-looking statements regarding our:

- expectations about positive cash flow generation and existing cash and investments being sufficient to meet normal operating requirements;
- expectations about our access to capital markets;
- expectations about future customers;
- expectations about expanded service offerings;
- expectations about our ability to cross-sell additional services to existing clients;

- expectations about our intended geographical expansion;
- expectations about our ability to attract executive officers and key employees; and
- evaluation of the materiality of our current legal proceedings.

Table of Contents

These statements involve certain known and unknown risks and uncertainties that could cause our actual results to differ materially from those expressed or implied in our forward-looking statements. The forward-looking statements in this report, as well as subsequent written and oral forward-looking statements attributable to us or persons acting on our behalf, are hereby expressly qualified in their entirety by the cautionary statements in this report, including the risk factors in our Form 10-K for the year ended January 2, 2009. We do not intend, and undertake no obligation, to update any of our forward-looking statements after the date of this report to reflect actual results or future events or circumstances.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market risk is the risk of loss to future earnings, to fair values or to future cash flows that may result from changes in the price of a financial instrument. The value of a financial instrument may change as a result of changes in interest rates, exchange rates, commodity prices, equity prices and other market changes. Market risk is attributed to all market risk sensitive financial instruments, including long-term debt.

We had cash and cash equivalents of \$8.7 million as of July 3, 2009. This amount includes \$0.2 million invested in the Wells Fargo Stage Coach Sweep Investment Account, \$5.3 million invested in the Wells Fargo Money Market Mutual Fund and \$2.5 million invested in the Wells Fargo Advantage Heritage Fund. The balance of \$0.7 million represents cash on hand in business checking accounts. Although these investments are subject to variable interest rates, we do not believe we are subject to significant market risk for these short-term investments.

We do not engage in trading activities and do not participate in foreign currency transactions or utilize derivative financial instruments. Additionally, as of July 3, 2009, we did not have any outstanding debt under our revolving credit facility that bears interest at variable or fixed rates.

Item 4. Controls and Procedures

We maintain disclosure controls and procedures defined in Rule 13a-15(e) under the Exchange Act, as controls and other procedures that are designed to ensure that information required to be disclosed by the issuer in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in the reports that we file or submit under the Securities Exchange Act is accumulated and communicated to our management, including our President and Chief Executive Officer, Thomas Brisbin, and our Chief Financial Officer, Kimberly Gant, as appropriate to allow timely decisions regarding required disclosure.

Our management, including our Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the effectiveness of our disclosure controls and procedures as of July 3, 2009. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective, at a reasonable assurance level, as of July 3, 2009. No change in our internal control over financial reporting occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

We are subject to claims and lawsuits from time to time, including those alleging professional errors or omissions that arise in the ordinary course of business against firms, like ours, that operate in the engineering and consulting professions. We carry professional liability insurance, subject to certain deductibles and policy limits, for such claims as they arise and may from time to time establish reserves for litigation that is considered probable of a loss. We may incur substantial expenses in defending against third party claims. In the event of a determination adverse to us, we may incur substantial monetary liability and be required to change our business practices. Either of these results could have a material adverse effect on our financial position, results of operations or cash flows.

Other than as described below, we are not currently involved in any material litigation nor, to our knowledge, is any material litigation currently threatened against us, other than routine litigation arising in the ordinary course of business, most of which is expected to be covered by liability insurance.

County of San Diego v. Willdan, Superior Court of California, Riverside County

A complaint was filed against us on February 28, 2008 relating to a project for the reconstruction of a portion of Valley Center Road located in an unincorporated area of San Diego County. The design was completed by us and a contract was awarded to a construction contractor for construction of the improvements. The construction was originally scheduled for completion in December 2008; however completion has been delayed until fall 2009. The lawsuit alleges that the delays in construction were caused by errors and omissions in our preparation of reports and design and engineering of the project, resulting in additional design and construction costs, in an amount to be determined but believed to be in excess of \$5.0 million. We deny the allegations asserted in the lawsuit and will vigorously defend against the claims.

Topaz v. City of Laguna Beach, Superior Court of California, Orange County

This suit concerns a project by the City of Laguna Beach to reconstruct a retaining wall supporting a city road. We served as the construction observer for this project and designed the retaining wall. Subsequent to completion of the project, a slope below the retaining wall failed damaging the plaintiffs' residence. The retaining wall did not fail. The construction work was performed from February to March 2005 and the slope failure occurred in June 2005. The plaintiffs were not injured in the incident. The plaintiffs allege that the City of Laguna Beach violated its own ordinances by not obtaining appropriate geotechnical data during the design stage and by allowing the work to be constructed during the rainy season. The lawsuit names Merit Engineering, the project designer, Peterson-Chase Engineering, the general contractor and us, the construction observer, as defendants. We were named as a defendant in the first amended complaint filed on October 17, 2007. The plaintiffs filed a mediation brief on April 25, 2008 indicating damages to real and personal property in the amount of \$0.8 million and general damages between \$1.6 million and \$4.7 million. A cross-complaint has been filed in the action by Peterson-Chase against us seeking equitable apportionment. We deny the allegations asserted in the lawsuit and cross-complaint and will vigorously defend against the claims.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults upon Senior Securities

Item 4. Submission of Matters to a Vote of Security Holders

Our annual meeting of stockholders (the Annual Meeting) was held on June 5, 2009. Of the 7,188,251 common shares outstanding on April 13, 2009, a total of 5,480,647 shares were represented in person or by proxy at the Annual Meeting. Results of votes with respect to proposals submitted at the Annual Meeting are set forth below.

(a) To elect nine members of the Board of Directors, each to serve for a one-year term and until his or her successor is duly elected and qualified. Votes recorded, by nominee, were as follows:

Nominee	For	Withheld
Win Westfall	5,420,224	60,423
Thomas D. Brisbin	5,223,717	256,930
Linda L. Heil	5,361,957	118,690
Raymond W. Holdsworth	5,065,831	414,816
W. Tracy Lenocker	5,420,521	60,126
Douglas J. McEachern	5,066,131	414,516
Keith W. Renken	5,414,821	65,826
Wayne Shelton	5,414,821	65,826
John M. Toups	5,414,521	66,126

(b) To consider and vote upon the ratification of the appointment of KPMG LLP as the independent registered public accounting firm for our Company for the year ending January 1, 2010:

For	Against	Abstain
5,462,174	17,273	1,200

Item 5. Other Information

On August 12, 2009, our Board of Directors amended and restated our bylaws (as amended and restated, the Amended Bylaws), which became effective immediately. The principal changes effected by the adoption of the Amended Bylaws are described below. The Amended Bylaws also include certain changes to (i) clarify language, (ii) comply or be consistent with Delaware law, and (iii) make various technical corrections and non-substantive changes.

Advance Notice of Stockholder Business and Director Nominations

Prior to this amendment, our bylaws did not contain advance notice provisions governing stockholder proposals or director nominations. Section 3.04 of the Amended Bylaws sets forth clear procedures and deadlines that a stockholder must follow if it intends to bring business

Edgar Filing: Willdan Group, Inc. - Form 10-Q

proposals or nominate directors, as applicable, before a meeting of the stockholders. These provisions include:

- For an annual meeting of the stockholders, written notice of a stockholder's intention to bring business proposals or nominate persons for election to the Board of Directors must be delivered to us not later than the ninetieth (90th) day or earlier than the one hundred twentieth (120th) day prior to the first anniversary of the preceding year's annual meeting. If an annual meeting of stockholders is held more than thirty (30) days before or more than sixty (60) days after the first anniversary of the preceding year's annual meeting, notice by the stockholder must be delivered not earlier than the one hundred twentieth (120th) day prior to such annual meeting and not later than the later of the ninetieth (90th) day prior to such annual meeting or the tenth (10th) day following our first public announcement of the date of the annual meeting.
- If the Board of Directors has determined that directors will be elected at a special meeting of the stockholders, written notice of a stockholder's intention to nominate persons for election to the Board of Directors before such special meeting must be delivered to us not earlier than the one hundred twentieth (120th) day prior to the special meeting and not later than the later of the ninetieth (90th) day prior to such special meeting or the tenth (10th) day following our first public announcement of the date of the special meeting.

Table of Contents

- Providing specifications for the contents of the stockholder notice, including a brief description of the business to be brought before the meeting and any material interest in such business of such shareholder and the beneficial owner, if any, on whose behalf the proposal is made, information relating to the stockholder's beneficial ownership of shares of our capital stock and any derivative security or other arrangement in our securities, and statements on whether the stockholder intends to deliver a proxy statement to holders of our outstanding capital stock or solicit proxies in support of its proposal or nomination.

Special Stockholder Meetings

The Amended Bylaws were revised to allow that only our Board of Directors (or a duly authorized committee of the Board of Directors) or our President may call special meetings of the stockholders.

Indemnification of Directors, Officers, Employees and Other Agents

The Amended Bylaws clarify certain provisions in Article IX of the prior bylaws relating to the indemnification of our directors, officers, employees and other agents in connection with any proceeding arising out of or in connection with their service to us.

The foregoing description of the Amended Bylaws contained in this report does not purport to be complete and is qualified in its entirety by reference to the full text of the Amended Bylaws, a copy of which is attached hereto as Exhibit 3.2 and incorporated herein by reference.
