**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the Participants and Administrative Committee of

East West Bank Employees 401(k) Savings Plan

Pasadena, California

We have audited the accompanying statement of net assets available for benefits of the East West Bank Employees 401(k) Savings Plan as of December 31, 2011, and the related statement of changes in net assets available for benefits for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2011, and the changes in net assets available for benefits for the year ended December 31, 2011 in conformity with U.S. generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule H, Line 4i Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic 2011 financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic 2011 financial statements taken as a whole.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the Participants and Administrative Committee of

East West Bank Employees 401(k) Savings Plan

Pasadena, California

We have audited the accompanying statements of net assets available for benefits of the East West Bank Employees 401(k) Savings Plan (the Plan ) as of December 31, 2010 and the related statement of changes in net assets available for benefits for the year then ended. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2010 and the changes in net assets available for benefits for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

**EAST WEST BANK EMPLOYEES 401(k) SAVINGS PLAN**

**NOTES TO FINANCIAL STATEMENTS**

**1. DESCRIPTION OF THE PLAN**

The following description of the East West Bank Employees 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the plan document for more complete information.

**General** The Plan is a defined contribution plan designed to provide retirement benefits financed by participants' tax deferred contributions and contributions from East West Bancorp, Inc. (the Company or Employer), the Plan's sponsor (the Bank or the Plan Sponsor). The Plan is administered by an administrative committee appointed by the Board of Directors of East West Bancorp, Inc. Prudential Trust Company (the Trustee) serves as the trustee for the Plan. The Plan became effective January 1, 1986. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA). Effective June 11, 2010, the Company acquired certain assets and assumed certain liabilities of Washington First International Bank (WFIB) from the Federal Deposit Insurance Corporation (the FDIC) as receiver for Washington First International Bank, pursuant to the terms of a purchase and assumption agreement entered into by the Company and the FDIC on June 11, 2010 (the Purchase and Assumption Agreement). The net assets available for benefits of WFIB's Employees 401(k) Savings Plan at June 11, 2010 were held by the FDIC and not transferred to the Plan.

Employees of the former WFIB that were eligible under the WFIB Employees 401(k) Savings Plan were eligible to join the Plan and contribute to the Plan as early as July 1, 2010.

**Eligibility** Under the terms of the Plan, employees of the Company become eligible to participate in the Plan as of the first day of the first calendar month beginning after the date the employee attains the age of 18 years and completes three months of service with the Company. Effective February 1, 2011, eligible employees are automatically enrolled in the Plan at a 3% contribution rate unless the participant elects another rate, including 0%. All deferred compensation of automatically enrolled employees will be invested in an age appropriate Goal Maker Age Migration Fund until such time as the participant changes their investment election. In addition, a Roth 401(k) investment option was available to participants as of June 1, 2011.

**Contributions** Eligible employees may elect to defer up to 80% of their compensation before taxes (limited to \$16,500 in 2011 and 2010). The Bank reinstated the match contributions as of February 1, 2010. Beginning February 1, 2010, the Bank matches 50% of the first 6% of a participant's deferred compensation. Plan participants age 50 or older may also contribute an additional \$5,500 to the Plan in both 2011 and 2010. Participants may also contribute amounts representing rollover eligible distributions from other tax-qualified plans into the Plan.

**Investments** Participants direct the investments of their contributions and match into various investment options offered by the Plan.

Table of Contents

**Vesting, Benefits, and Benefits Payable** Participants are fully vested in the portion of their accounts which resulted from their contributions and earnings on their voluntary contributions. Participants become vested in the matching contributions received from the Plan Sponsor at the rate of 20% per year for each full year of service after the first year so that the participants become 100% vested after five years of credited service.

Benefits are recorded when paid. On termination of service for any reason, a participant may elect to (1) receive a lump-sum distribution in an amount equal to the value of the participant's vested interest in his or her account, or (2) elect a rollover distribution to an eligible retirement plan or eligible individual retirement account (IRA) in an amount equal to the value of the participant's vested interest in his or her account. If a participant's account is less than \$1,000 and an election is not made, the Trustee will distribute the vested interest in the participant's account to the participant in the form of a lump-sum payment. If a participant with an account balance greater than \$1,000 and not exceeding \$5,000, does not elect either to receive or to rollover the distribution, then the participant's vested interest in the account will be rolled over to an IRA. At December 31, 2011 and 2010, no amounts were owed to terminated participants who had elected to withdraw their benefits.

**Forfeited Accounts** At December 31, 2011 and 2010, forfeited nonvested accounts totaled \$12,727 and \$7,461 respectively. These accounts will be used to reduce future employer contributions, pay some plan expenses and, at the discretion of the Plan Administrator, be allocated to participants. During the years ended December 31, 2011 and 2010, employer contributions were reduced by \$130,968 and \$151,936, respectively from forfeited nonvested accounts. During the years ended December 31, 2011 and 2010, plan expenses of \$2,729 and \$24,264 were paid with funds from forfeited nonvested accounts. During the year ended December 31, 2010, a discretionary allocation of \$197,234 of funds from forfeited nonvested accounts went to the remaining eligible participants' accounts. No discretionary allocations were made during the year ended December 31, 2011.

**Participant Accounts** Each participant's account is credited with the participant's contribution, the Bank's contribution, the Plan's earnings or losses, and if applicable, rollovers from plans of prior employers. Allocations of earnings or losses are based on participant account balances as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

**Notes Receivable from Participants** Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan transactions are treated as transfers to (from) the investment fund from (to) the participant loan fund. Loan terms range from one to five years or up to 20 years for the purchase of a primary residence. The loans are secured by the vested balances in the participants' accounts and bear interest at rates commensurate with local prevailing rates as determined by the plan administrator at the time the loan is approved. At December 31, 2011, interest rates on outstanding loans to participants ranged from 4.25% to 9.25% and mature through 2031. Principal and interest are paid ratably through bimonthly payroll deductions.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

**Basis of Accounting** The accompanying financial statements have been prepared using the accrual basis in accordance with accounting principles generally accepted in the United States of America.

Table of Contents

**Fair Value Disclosures** In January 2010, the FASB issued Accounting Standards Update ( ASU ) 2010-06, *Improving Disclosures About Fair Value Measurements*, which expanded the required disclosures about fair value measurements. In particular, this guidance requires (i) separate disclosure of the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements along with the reasons for such transfers, (ii) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements, (iii) fair value measurement disclosures for each class of assets and liabilities and (iv) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for fair value measurements that fall in either Level 2 or Level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009, except for (ii) above which is effective for fiscal years beginning after December 15, 2010. The adoption of this guidance resulted in additional financial statement disclosures.

**Valuation of Investments** The Plan's investments are stated at their fair value. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Common stock is valued at quoted market prices. Investment in the collective trust fund is stated at fair value, based on the net asset value, after adjustments to reflect all fund investments at fair value, as reported in the audited financial statements of the fund. Investment in the guaranteed income fund is valued based on the Plan's investment contract with Prudential Retirement Insurance and Annuity Company (PRIAC) which is reported at contract value. Contract value is the value determined by the insurance company in accordance with the terms of the contract.

**Fully Benefit Responsive Investment Contracts** Fully benefit responsive investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because the contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan's Stable Value Fund invests in investment contracts through participation in the Wells Fargo Stable Return Fund ( Stable Return Fund ), a collective trust. Investments in the accompanying Statements of Net Assets Available for Benefits presents the fair value of the Plan's investment in Wells Fargo's Stable Value Fund, as well as the adjustment from fair value to contract value of the Plan's investment in this stable value collective trust. The Plans guaranteed income fund invests in an investment contract through PRIAC, an unallocated investment contract. Investments in the accompanying Statements of Net Assets Available for Benefits presents the fair value of the Plan's investment in investment contract, which approximates contract value.

**Use of Estimates** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and disclosures of contingent assets and liabilities. Actual results could materially differ from those estimates.

Table of Contents

**Risk Management** The Plan utilizes various investment instruments, including mutual funds that invest in the securities of foreign countries. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. In addition, investments that include securities of foreign companies involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices may be more volatile than those of securities of comparable U.S. companies. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the financial statements.

**Administrative Expenses** Investment transaction expenses are offset against the related investment income. Management fees incurred by the collective trust of the Plan are borne by the Plan participants through the Wells Fargo Stable Value Fund and are included in the net appreciation in fair value of investments on the Statement of Changes in Net Assets Available for Benefits. The investment managers of the Wells Fargo Stable Value Fund charge asset-based management fees, which amount to, on an annualized basis, 65 basis points of the dollar value of the Plan's investments in the Wells Fargo Stable Value Fund. Certain loan fees are deducted directly from participant's account. Other administrative and non-investment expenses of the Plan are paid by the Plan Sponsor which is a party-in-interest. These expenses, which are not reflected in the accompanying financial statements, constitute exempt party-in-interest transactions under ERISA.

**Investment Income** The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net appreciation in the fair value of investments, which consists of realized gains or losses and unrealized appreciation or depreciation on those investments. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

**Notes Receivable from Participants** Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

### 3. FAIR VALUE MEASUREMENTS

ASC 820 defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required to be recorded at fair value, the Plan considers the principal or most advantageous market in which it would transact and considers assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions, and risk of nonperformance.

Table of Contents

ASC 820 also establishes a fair value hierarchy that requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. ASC 820 establishes three levels of inputs that may be used to measure fair value:

- Level 1: quoted prices in active markets for identical assets or liabilities;
- Level 2: inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or
- Level 3: unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Investments measured at fair value on a recurring basis consisted of the following types of instruments as of December 31, 2011 and 2010:

	Assets (Liabilities) Measured at Fair Value on a Recurring Basis as of December 31, 2011

Table of Contents

*Common Stock*

East West Bancorp, Inc. common stock held in participant directed brokerage accounts are stated at fair value as quoted on a recognized securities exchange and are valued at the last reported sales price on the last business day of the Plan year and are classified as Level 1 investments.

*Mutual Funds*

The mutual funds are stated at fair value as quoted on a recognized securities exchange and are valued at the last reported sales price on the last business day of the Plan year, and are classified as Level 1 investments.

*Collective Trust Fund*

The fair values of participation units in the stable value collective trust are based upon the net asset values of such fund, after adjustments to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported in the audited financial statements of the fund. The stable value fund is classified as a Level 2 investment.

The fund invests in conventional and synthetic investment contracts issued by life insurance companies, banks, and other financial institutions, and a synthetic stable value fund, with the objective of providing a higher rate of return than shorter maturity investments, such as money market funds or certificates of deposit. The fund generally provides for daily redemptions by the Plan at reported net asset value per share, with written redemption instructions, and redemption proceeds will generally be paid to the account within one business day after receipt of the request, and in all cases, within six business days after such receipt. Withdrawals needed for benefit payments and loan advances of participating employee benefit plans are generally permitted daily.

In the fourth quarter of 2011, management made the decision to liquidate the stable value fund and transfer assets into a guaranteed income fund. No fees are associated with this transaction. All participants were given a written notice of the transaction, as any plan sponsor initiated withdrawal from the fund requires a 12 month written notice of intent to withdraw assets from the fund. During this period, no restrictions are set on the participants.

*Unallocated Investment Contracts*

In December 2011, the Plan invested in a guaranteed income fund offered by the Trustee. The fair values of the Plan's investment contracts have been determined to approximate contract values, as the terms of the contracts prohibit transfer or assignment of rights under the contracts and provide for all distributions at contract value, frequent re-setting of contractual interest rates based upon market conditions, no significant

liquidity restrictions and no defined maturities. Generally, there are no events that could limit the ability of the plan to transact at contract value and there are no events that allow the issuer to terminate the contract and which require the Plan to settle at an amount different than contract value. In addition, management has determined that no adjustment from contract values is required for credit quality considerations.

Table of Contents

Contract value represents contributions made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. The average yield earned by the Plan, based on actual earnings, was 2.85% as of December 31, 2011. The average yield earned, based on the interest rate credited to participants, was 2.85% as of December 31, 2011. No adjustment is required to mediate between the average earnings credited to the Plan and the average earnings credited to the participants. The same crediting interest rate is applied to the entire contract value and is reviewed on a semi-annual basis for resetting. The factors considered in establishing the crediting interest rate include, current economic and market conditions, the general interest rate environment and both actual and expected experience of a reference portfolio within the general account. The guaranteed minimum interest rate is 1.50%. The guaranteed income fund is classified as a Level 3 investment given the unobservable inputs used to determine contract value.

The valuation methodologies described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair values of certain financial instruments could result in a different fair value measurement at the reporting date.

**4. INVESTMENTS**

The following presents the Plan's investments, as of December 31, 2011 and 2010 that represent 5% or more of the Plan's net assets available for benefits:

**2011**

Collective trust fund	295,451	120,633
Unallocated investment contract		
Total	\$ (1,823,517)	\$ 7,627,797

**5. PARTY-IN-INTEREST TRANSACTIONS**

A party-in-interest is defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Plan held a stable value fund and invests in a guaranteed investment contract managed by a custodian, and, therefore, these transactions and the Plan's payment of custodian fees qualify as party-in-interest transactions. Notes receivable from participants also reflect party-in-interest transactions. Fees paid by the Bank for administrative expenses amounted to \$63,726 and \$65,201 for the years ended December 31, 2011 and 2010, respectively. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

At December 31, 2011 and 2010, the Plan held 844,112 and 795,728 shares, respectively, of common stock of East West Bancorp, Inc., the parent company of the Plan Sponsor, with a fair value of \$16,671,216 and \$15,556,480 respectively. All common stock held by the Plan is common stock of East West Bancorp, Inc. During the years ended December 31, 2011 and 2010, the Plan recorded dividend income from the plan's investment in East West Bancorp's common stock of \$132,973 and \$30,735, respectively.

For risks and uncertainties regarding investment in East West Bancorp, Inc. common stock, participants should refer to the East West Bancorp, Inc. Annual Report on Form 10-K for the year ended December 31, 2011 and Quarterly Report on Form 10-Q for the quarter ended March 31, 2012.

**6. EXCESS CONTRIBUTIONS PAYABLE**

Excess contributions payable represents amounts owed to participants who made excess contributions based on the compliance testing performed by the Plan's record keeper.

**7. PLAN TERMINATION**

## Edgar Filing: EAST WEST BANCORP INC - Form 11-K

Although it has not expressed any intent to do so, the Bank has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, all participant accounts will become 100% vested and will be distributable to participants in accordance with the Plan.

Table of Contents

**8. FEDERAL INCOME TAX STATUS**

The Internal Revenue Service has issued an opinion letter dated March 31, 2008, indicating that the prototype adopted by the Plan, as then designed, was in compliance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended from the original prototype document; however, the Plan Sponsor believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC and the Plan and related Trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan and has concluded that, as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

**9. SUBSEQUENT EVENTS**

The Plan has evaluated subsequent events through the date of issuance of the financial statements. Such evaluation resulted in no adjustments to the accompanying financial statements.
