The Company provides technical services for drybulk vessels purchased by Maritime Equity Partners LLC (MEP), which is managed by a company owned by Peter C. Georgiopoulos, Chairman of the Board of Directors of GS&T. These services include oversight of crew management, insurance, drydocking, ship operations and financial statement preparation, but do not include chartering services. The services are provided for a fee of \$750 per ship per day plus reimbursement of out-of-pocket costs and will be provided for an initial term of one year. MEP has the right to cancel provision of services on 60 days notice with payment of a one-year termination fee upon a change in control of the Company. The Company may terminate provision of the services at any time on 60 days notice. Peter C. Georgiopoulos, the Company s Chairman of the Board, is a minority investor in MEP, and affiliates of Oaktree Capital Management, L.P., of which Stephen A. Kaplan, a director of the Company, is a principal, are majority investors in MEP.

On February 28, 2012, the Company closed on an equity offering of 7,500,000 shares of common stock at an offering price of \$7.10 per share. The Company received net proceeds of \$49,874 after deducting underwriters fees and expenses.

#### 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Principles of consolidation

The accompanying condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP), which include the accounts of GS&T, its wholly-owned subsidiaries and Baltic Trading, a subsidiary in which the Company owns a majority of the voting interests and exercises control. All intercompany accounts and transactions have been eliminated in consolidation.

#### Basis of presentation

The accompanying condensed consolidated financial statements have been prepared in accordance with U.S. GAAP for interim financial information and the rules and regulations of the Securities and Exchange Commission (the SEC). In the opinion of management of the Company, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and operating results have been included in the statements. Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted. These condensed consolidated financial statements should be read in conjunction with the financial statements and notes thereto included in the Company s annual report on Form 10-K for the year ended December 31, 2011 (the 2011 10-K). The results of operations for the three and nine month period ended September 30, 2012 and 2011 are not necessarily indicative of the operating results for the full year.

#### Vessels, net

Vessels, net is stated at cost less accumulated depreciation. Included in vessel costs are acquisition costs directly attributable to the acquisition of a vessel and expenditures made to prepare the vessel for its initial voyage. The Company also capitalizes interest costs for a vessel under construction as a cost that is directly attributable to the acquisition of a vessel. Vessels are depreciated on a straight-line basis over their estimated useful lives, determined to be 25 years from the date of initial delivery from the shipyard. Depreciation expense for vessels for the three months ended September 30, 2012 and 2011 was \$33,462 and \$33,054, respectively. Depreciation expense for vessels for the nine months ended September 30, 2012 and 2011 was \$99,646 and \$96,773, respectively.

Depreciation expense is calculated based on cost less the estimated residual scrap value. The costs of significant replacements, renewals and betterments are capitalized and depreciated over the shorter of the vessel s remaining estimated useful life or the estimated life of the renewal or betterment. Undepreciated cost of any asset component being replaced that was acquired after the initial vessel purchase is written off as a component of vessel operating expense. Expenditures for routine maintenance and repairs are expensed as incurred. Scrap value is estimated by the Company by taking the estimated scrap value of \$245/lwt multiplied by the weight of the ship in lightweight tons (lwt).

#### Deferred revenue

Deferred revenue primarily relates to cash received from charterers prior to it being earned. These amounts are recognized as revenue when earned. Additionally, deferred revenue includes estimated customer claims mainly due to time charter performance issues. As of September 30, 2012 and December 31, 2011, the Company had an accrual of \$563 and \$762, respectively, related to these estimated customer claims.

#### Voyage revenues

Since the Company s inception, revenues have been generated from time charter agreements, pool agreements and spot market-related time charters. A time charter involves placing a vessel at the charterer s disposal for a set period of time during which the charterer may use the vessel in return for the payment by the charterer of a specified daily hire rate, including any ballast bonus payments received pursuant to the time charter agreement. Spot market-related time charters are the same as other time charter agreements, except the time charter rates are variable and are based on a percentage of the average daily rates as published by the Baltic Dry Index (BDI). Voyage revenues also include sale of bunkers consumed during short-term time charters pursuant to the terms of the time charter agreement.

#### Voyage expense recognition

In time charters, spot market-related time charters and pool agreements, operating costs including crews, maintenance and insurance are typically paid by the owner of the vessel and specified voyage costs such as fuel and port charges are paid by the charterer. There are certain other non-specified voyage expenses such as commissions, which are typically borne by the Company. At the inception of a time charter, the Company records the difference between the cost of bunker fuel delivered by the terminating charterer and the bunker fuel sold to the new charterer as a gain or loss within voyage expenses. These differences in bunkers resulted in net gains of \$242 and \$666 during the three months

ended September 30, 2012 and 2011, respectively, and \$1,665 and \$2,319 during the nine months ended September 30, 2012 and 2011, respectively. Additionally, voyage expenses include the cost of bunkers consumed during short-term time charters pursuant to the terms of the time charter agreement.

#### Noncontrolling interest

Net loss attributable to noncontrolling interest during the three and nine months ended September 30, 2012 and 2011 reflects the noncontrolling interest s share of the net loss of Baltic Trading, a subsidiary of the Company, which owns and employs drybulk vessels in the spot market or on spot market-related time charters. The spot market represents immediate chartering of a vessel, usually for single voyages. At September 30, 2012, the noncontrolling interest held a 74.91% economic interest in Baltic Trading while only holding 16.60% of voting power. At December 31, 2011, the noncontrolling interest held a 74.89% economic interest in Baltic Trading while only holding 16.59% of voting power.

#### Income taxes

Pursuant to certain agreements, GS&T technically and commercially manages vessels for Baltic Trading as well as provides technical management of vessels for MEP in exchange for specified fees for these services provided. These services are performed by Genco Management (USA) Limited (Genco (USA)), which has elected to be taxed as a corporation for United States federal income tax purposes. As such, Genco (USA) is subject to United States federal income tax on its worldwide net income, including the net

#### Table of Contents

income derived from providing these services. Genco (USA) has entered into a cost-sharing agreement with the Company and Genco Ship Management LLC, collectively Manco, pursuant to which Genco (USA) agrees to reimburse Manco for the costs incurred by Genco (USA) for the use of Manco s personnel and services in connection with the provision of the services for both Baltic Trading and MEP s vessels.

Total revenue earned for these services during the three months ended September 30, 2012 and 2011 was \$1,530 and \$1,588, respectively, of which \$703 and \$760, respectively, eliminated upon consolidation. After allocation of certain expenses, there was taxable income of \$664 associated with these activities for the three months ended September 30, 2012. This resulted in estimated tax expense of \$299 for the three months ended September 30, 2012. After allocation of certain expenses, there was taxable income of \$668 associated with these activities for the three months ended September 30, 2011. This resulted in income tax expense of \$319 for the three months ended September 30, 2011.

Total revenue earned for these services during the nine months ended September 30, 2012 and 2011 was \$4,575 and \$4,689, respectively, of which \$2,109 and \$2,232, respectively, eliminated upon consolidation. After allocation of certain expenses, there was taxable income of \$1,985 associated with these activities for the nine months ended September 30, 2012. This resulted in estimated tax expense of \$892 for the nine months ended September 30, 2012. After allocation of certain expenses, there was taxable income of \$2,113 associated with these activities for the nine months ended September 30, 2011. This resulted in income tax expense of \$1,010 for the nine months ended September 30, 2011.

Baltic Trading is subject to income tax on its United States source income. During the three months ended September 30, 2012 and 2011, Baltic Trading had United States source income of \$200 and \$452, respectively. Baltic Trading s United States income tax expense for the three months ended September 30, 2012 and 2011 was \$4 and \$9, respectively.

During the nine months ended September 30, 2012 and 2011, Baltic Trading had United States source income of \$1,321 and \$2,909, respectively. Baltic Trading s United States income tax expense for the nine months ended September 30, 2012 and 2011 was \$26 and \$31, respectively.

#### Recent accounting pronouncements

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards (Topic 820) Fair Value Measurement (ASU 2011-04), to provide a consistent definition of fair value and ensure that the fair value measurement and disclosure requirements are similar between U.S. GAAP and International Financial Reporting Standards. ASU 2011-04 changes certain fair value measurement principles and enhances the disclosure requirements, particularly for Level 3 fair value measurements. This standard was effective for interim and annual periods beginning after December 15, 2011 and is applied on a prospective basis. The Company has adopted ASU 2011-04 and the impact of adoption is not material to the Company s condensed consolidated financial statements.

In June 2011, the FASB issued Accounting Standards Update No. 2011-05, Comprehensive Income (Topic 220), Presentation of Comprehensive Income (ASU 2011-05), to require an entity to present the total of comprehensive income, the components of net income and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. ASU 2011-05 eliminates the option to present the components of other comprehensive income as part of the statement of equity. The standard does not change the items that must be reported for other comprehensive income, how such items are measured or when they must be

reclassified to net income. This standard was effective for interim and annual periods beginning after December 15, 2011 and was to be applied retrospectively. The FASB has deferred the requirement to present reclassification adjustments for each component of accumulate other comprehensive income in both net income and other comprehensive income. Companies are required to either present amounts reclassified out of other comprehensive income on the face of the financial statements or disclose those amounts in the notes to the financial statements. During the deferral period, there is no requirement to separately present or disclose the reclassification adjustments into net income. The effective date of this deferral will be consistent with the effective date of ASU 2011-05. The Company has adopted ASU 2011-05 and disclosed comprehensive income in our condensed consolidated statements of comprehensive (loss) income. This guidance only affects financial statement presentation and has no impact on the Company s consolidated results of operations, financial position and cash flows.

#### 3 - SEGMENT INFORMATION

The Company determines its operating segments based on the information utilized by the chief operating decision maker to assess performance. Based on this information, the Company has two operating segments, GS&T and Baltic Trading. Both GS&T and Baltic Trading are engaged in the ocean transportation of drybulk cargoes worldwide through the ownership and operation of

#### Table of Contents

drybulk carrier vessels. GS&T seeks to deploy its vessels on time charters, spot market-related time charters or in vessel pools trading in the spot market and Baltic Trading seeks to deploy its vessel charters in the spot market, which represents immediate chartering of a vessel, usually for single voyages, or employing vessels on spot market-related time charters. Segment results are evaluated based on net income (loss). The accounting policies applied to the reportable segments are the same as those used in the preparation of the Company s condensed consolidated financial statements.

The following table presents a reconciliation of total voyage revenue from external (third party) customers for the Company s two operating segments to total consolidated voyage revenue from external customers for the Company for the three and nine months ended September 30, 2012 and 2011.

#### 6 - INVESTMENTS

The Company holds an investment in the capital stock of Jinhui Shipping and Transportation Limited (Jinhui). Jinhui is a drybulk shipping owner and operator focused on the Supramax segment of drybulk shipping. This investment is designated as Available For Sale (AFS) and is reported at fair value, with unrealized gains and losses recorded in shareholders—equity as a component of accumulated other comprehensive loss (AOCI). At September 30, 2012 and December 31, 2011, the Company held 16,335,100 shares of Jinhui capital stock, which is recorded at its fair value of \$23,825 and \$24,468, respectively, based on the closing price on September 28, 2012 and December 30, 2011, respectively.

The Company reviews the investment in Jinhui for other than temporary impairment on a quarterly basis. There were no impairment charges recognized for the three and nine months ended September 30, 2012 and 2011.

The unrealized gain on the Jinhui capital stock remains a component of AOCI, since this investment is designated as an AFS security.

Refer to Note 12 Accumulated Other Comprehensive Loss for a breakdown of the components of AOCI.

#### 7 NET (LOSS) INCOME PER COMMON SHARE

The computation of basic net (loss) income per share is based on the weighted-average number of common shares outstanding during the year. The computation of diluted net loss (income) per share assumes the vesting of nonvested stock awards (refer to Note 20 Nonvested Stock Awards), for which the assumed proceeds upon vesting are deemed to be the amount of compensation cost attributable to future services and are not yet recognized using the treasury stock method, to the extent dilutive. Of the 935,287 nonvested shares outstanding at September 30, 2012 (refer to Note 20 Nonvested Stock Awards), all are anti-dilutive. The Company s diluted net (loss) income per share will also reflect the assumed conversion under the Company s convertible debt if the impact is dilutive under the if converted method. The impact of the shares convertible under the Company s convertible notes is excluded from the computation of diluted net (loss) income per share when interest expense per common share obtainable upon conversion is greater than basic earnings per share.

# Table of Contents

The components of the denominator for the calculation of basic net (loss) income per share and diluted net (loss) income per share are as follows:

	Three Months		Nine Months Ended September 30,		
	2012	2011	2012	2011	
Common shares outstanding, basic:					
Weighted-average common shares outstanding, basic	42,885,810	35,157,110	41,290,719	35,149,912

#### August 2012 Credit Facility Agreements

On August 1, 2012, the Company entered into agreements (the August 2012 Agreements) to amend or waive certain provisions of the agreements for the 2007 Credit Facility, \$100 Million Term Loan Facility and the \$253 Million Term Loan Facility (as defined below). The agreements implement, among other things, the following:

- The current waiver of the Company's compliance with its existing maximum leverage ratio covenant and minimum permitted consolidated interest ratio covenant that commenced on October 1, 2011 and ends on and includes March 31, 2013 has been extended to end on and include December 31, 2013 (which we refer to as the extended waiver period).
- Scheduled amortization payments through and including the quarter ending December 31, 2013 have been deferred until the final payment at maturity under the 2007 Credit Facility and prepaid under the other two credit facilities. The next scheduled amortization payments under these facilities will be due in the first quarter of 2014 in the aggregate principal amount of \$55,193.
- Commencing September 30, 2012, the Company is to repay the 2007 Credit Facility on a quarterly basis using excess cash, defined as the balance over \$100,000 in the Company s and certain of its subsidiaries accounts pledged under the 2007 Credit Facility. Of such repayments, 25% will be allocated to the final payment at maturity, and 75% will be applied entirely against each successive scheduled

mandatory principal repayment beginning with the payment due March 31, 2014. Certain other mandatory repayments under the existing terms of this facility as well as voluntary prepayments will be applied in the same manner. These obligations continue until the later of December 31, 2013 and the date on which the appraised value of certain mortgaged vessels is equal to at least 100% of the aggregate principal amount of the Company s loans, letters of credit and certain hedge obligations under the 2007 Credit Facility.

• The Company and its subsidiaries (other than Baltic Trading and its subsidiaries) will not increase the amount of principal indebtedness currently outstanding under each of its three credit agreements or change their maturity dates.
• Indebtedness that the Company and its subsidiaries (other than Baltic Trading and its subsidiaries) may incur in connection with vessel acquisitions will be limited to 60% of the lesser of the vessel sacquisition cost and fair market value. Any newly acquired vessel will subject to a security interest under the 2007 Credit Facility.
• The applicable margin over LIBOR payable on the principal amount outstanding under the 2007 Credit Facility increased from 2.0% to 3.0% per annum.
• The minimum cash balance required under the 2007 Credit Facility increased from \$500 to \$750 per vessel mortgaged under the 2007 Credit Facility.
• The Company agreed to grant additional security for its obligations under the 2007 Credit Facility, consisting of a pledge of the Class B Stock of Baltic Trading held by Genco Investments LLC and a second priority security interest in vessels

17

#### **Table of Contents**

pledged under its other two credit facilities or in connection with any new indebtedness (excluding in each case vessels owned by Baltic Trading and its subsidiaries).

• Consenting lenders under each of the three credit facilities received an upfront fee of 0.25% on the amount of outstanding loans.

As required under the August 2012 Agreements, the Company prepaid \$57,893 under its 2007 Credit Facility, \$30,450 under its \$253 Million Term Loan Facility, and \$11,538 under its \$100 Million Term Loan Facility on August 1, 2012. The prepayment under the 2007 Credit Facility was applied to the final payment due under the facility. The prepayments under the other two facilities were applied in order of maturity and fulfilled all scheduled amortization payments through December 31, 2013 under these facilities. In addition, lenders under the 2007 Credit Facility will receive a fee equal to 1.25% of the principal amount outstanding following such prepayment, or \$13,199, on the earlier date of the maturity date of this facility or the date on which all obligations under this facility have been paid in full. The \$13,199 has been recorded in the condensed consolidated balance sheet at September 30, 2012 as Long-term interest payable. The agreements are subject to completion of certain post-closing actions, including effecting a second priority security interest in certain of the Company s vessels as described above.

#### 2007 Credit Facility

On July 20, 2007, the Company entered into a credit facility with DnB NOR Bank ASA (as amended, the 2007 Credit Facility ). The maximum amount that may be borrowed under the 2007 Credit Facility at September 30, 2012 is \$1,055,912. As of September 30, 2012, the Company has utilized its maximum borrowing capacity under the 2007 Credit Facility.

The collateral maintenance financial covenant, maximum leverage ratio covenant and minimum permitted consolidated interest ratio covenants are currently waived for the periods ending on and including December 31, 2013 pursuant to the August 2012 Agreements and the Company s cash dividends and share repurchases have been suspended until the collateral maintenance financial covenant can be satisfied.

Pursuant to the amendment to the 2007 Credit Facility which was entered into on December 21, 2011, the Company was subject to a facility fee of 2.0% per annum on the average daily outstanding principal amount of the loans outstanding, payable quarterly in arrears, which was subject to a reduction to 1.0% if the Company consummated an equity offering resulting in an aggregate amount of \$50,000 of gross proceeds. On February 28, 2012, the Company completed an equity offering of 7,500,000 shares which resulted in gross proceeds of \$53,250. As such, effective February 28, 2012, the facility fee was reduced to 1.0%.

As of September 30, 2012, the Company believes it is in compliance with all of the financial covenants under its 2007 Credit Facility, as amended.

At September 30, 2012, there were no letters of credit issued under the 2007 Credit Facility.

#### \$100 Million Term Loan Facility

On August 12, 2010, the Company entered into the \$100,000 secured term loan facility (\$100 Million Term Loan Facility). As of September 30, 2012, the Company has utilized its maximum borrowing capacity as \$100,000 of drawdowns have been made. The Company has used the \$100 Million Term Loan Facility to fund or refund the Company a portion of the purchase price of the acquisition of five vessels from companies within the Metrostar group of companies. As of September 30, 2012, there was no availability under the \$100 Million Term Loan Facility.

Pursuant to the amendments to the \$100 Million Term Loan Facility that were entered into on December 21, 2011 and August 1, 2012, the maximum leverage ratio covenant and the minimum permitted consolidated interest ratio covenant are currently waived for the periods ending on and including December 31, 2013.

As of September 30, 2012, the Company believes it is in compliance with all of the financial covenants under the \$100 Million Term Loan Facility, as amended.

#### \$253 Million Term Loan Facility

On August 20, 2010, the Company entered into the \$253,000 senior secured term loan facility (\$253 Million Term Loan Facility). As of September 30, 2012, the Company has utilized its maximum borrowing capacity as \$253,000 of drawdowns have been made to fund or refund to the Company a portion of the purchase price of the 13 vessels purchased from Bourbon SA during the third quarter of 2010 and first quarter of 2011. As of September 30, 2012, there was no availability under the \$253 Million Term Loan Facility.

#### Table of Contents

Pursuant to the amendments to the \$253 Million Term Loan Facility that were entered into on December 21, 2011 and August 1, 2012, the maximum leverage ratio covenant and the minimum permitted consolidated interest ratio covenant are currently waived for the periods ending on and including December 31, 2013.

As of September 30, 2012, the Company believes it is in compliance with all of the financial covenants under the \$253 Million Term Loan Facility, as amended.

#### 2010 Baltic Trading Credit Facility

On April 16, 2010, Baltic Trading entered into a \$100,000 senior secured revolving credit facility with Nordea Bank Finland plc, acting through its New York branch (as amended, the 2010 Baltic Trading Credit Facility ). An amendment to the 2010 Baltic Trading Credit Facility was entered into by Baltic Trading effective November 30, 2010. Among other things, this amendment increased the commitment amount of the 2010 Baltic Trading Credit Facility from \$100,000 to \$150,000. As of September 30, 2012, total available working capital borrowings were \$23,500 as \$1,500 was drawn down during 2010 for working capital purposes. Pursuant to the amended 2010 Baltic Trading Credit Facility, the total commitment of \$150,000 will be reduced in 11 consecutive semi-annual reductions of \$5,000 which commenced on the six month anniversary of the effective date, or May 31, 2011. As of September 30, 2012, \$33,750 remained available under the 2010 Credit Facility as the total commitment was reduced to \$135,000 on May 31, 2012.

As of September 30, 2012, the Company believes Baltic Trading is in compliance with all of the financial covenants under the 2010 Baltic Trading Credit Facility.

#### Interest rates

The following tables sets forth the effective interest rate associated with the interest expense for the Company s debt facilities noted above, including the rate differential between the pay fixed, receive variable rate on the interest rate swap agreements that were in effect (refer to Note 11 Interest Rate Swap Agreements), combined, the cost associated with unused commitment fees as well as the facility fee for the 2007 Credit Facility which was reduced from 2.0% to 1.0% on February 28, 2012 as noted above. Additionally, it includes the range of interest rates on the debt, excluding the impact of swaps and unused commitment fees:

#### 13 - FAIR VALUE OF FINANCIAL INSTRUMENTS

The fair values and carrying values of the Company s financial instruments at September 30, 2012 and December 31, 2011 which are required to be disclosed at fair value, but not recorded at fair value, are noted below.

		<b>September 30, 2012</b>				December 31, 2011			
	(	Carrying				Carrying			
		Value		Fair Value		Value		Fair Value	
Cash and cash									
equivalents	\$	87,778	\$	87,778	\$	227,968	\$	227,968	
Restricted cash		10,150		10,150		9,750		9,750	
Floating rate debt		1,413,439		1,413,439		1,588,012		1,588,012	
2010 Notes		109,726		48,750		106,381		80,000	

The fair value of the floating rate debt under the 2007 Credit Facility, \$100 Million Term Loan Facility, \$253 Million Term Loan Facility and the 2010 Baltic Trading Credit Facility are based on management s estimate of rates the Company has recently obtained on August 1, 2012 when the Company entered into agreements to amend or waive certain provisions of the 2007 Credit Facility, \$100 Million Term Loan Facility and the \$253 Million Term Loan Facility. Additionally, the Company considers its creditworthiness in determining the fair value of floating rate debt under the credit facilities. The carrying value approximates the fair market value for these floating rate loans. The fair value of the convertible senior notes payable represents the market value based on recent transactions of the 2010 Notes at September 30, 2012 and December 31, 2011 without bifurcating the value of the conversion option. The fair value of the interest rate swaps is the estimated amount the Company would receive to terminate the swap agreements at the reporting date, taking into account current interest rates and the creditworthiness of both the swap counterparty and the Company. The carrying amounts of the Company s other financial instruments at September 30, 2012 and December 31, 2011 (principally Due from charterers and Accounts payable and accrued expenses), approximate fair values because of the relatively short maturity of these instruments.

Accounting Standards Codification Subtopic 820-10, Fair Value Measurements & Disclosures ( ASC 820-10 ), applies to all assets and liabilities that are being measured and reported on a fair value basis. This guidance enables the reader of the financial statements to assess the inputs used to develop those measurements by establishing a hierarchy for ranking the quality and reliability of the information used to determine fair

values. The fair value framework requires the categorization of assets and liabilities into three levels based upon the assumption (inputs) used to price the assets or liabilities. Level 1 provides the most reliable measure of fair value, whereas Level 3 generally requires significant management judgment. The three levels are defined as follows:

•	Level 1	Valuations based on quoted prices in active markets for identical instruments that the Company is able to access. Since
valuations	are based	on quoted prices that are readily and regularly available in an active market, valuation of these instruments does not entail a
significant	degree of	idgment.

- Level 2 Valuations based on quoted prices in active markets for instruments that are similar, or quoted prices in markets that are not active for identical or similar instruments, and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets.
- Level 3 Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

As of September 30, 2012 and December 31, 2011, the fair values of the Company s financial assets and liabilities are categorized as follows:

#### **Table of Contents**

		Total	Sept	Quoted market prices in active markets (Level 1)	Significant Other Observable Inputs (Level 2)
Investments		\$ 23,825	\$	23,825	\$
Derivative instruments	liability position	18,870			18,870

		Total	Dece	ember 31, 2011 Quoted market prices in active markets (Level 1)	Significant Other Observable Inputs (Level 2)
Investments		\$ 24,468	\$	24,468	\$
Derivative instruments	liability position	25,340			25,340

The Company holds an investment in the capital stock of Jinhui, which is classified as a long-term investment. The stock of Jinhui is publicly traded on the Oslo Stock Exchange and is considered a Level 1 item. The Company s interest rate derivative instruments are pay-fixed, receive-variable interest rate swaps based on LIBOR. The Company has elected to use the income approach to value the derivatives, using observable Level 2 market inputs at measurement date and standard valuation techniques to convert future amounts to a single present amount assuming that participants are motivated, but not compelled to transact. Level 2 inputs for the valuations are limited to quoted prices for similar assets or liabilities in active markets (specifically futures contracts on LIBOR for the first two years) and inputs other than quoted prices that are observable for the asset or liability (specifically LIBOR cash and swap rates and credit risk at commonly quoted intervals). Mid-market pricing is used as a practical expedient for fair value measurements. Refer to Note 11 Interest Rate Swap Agreements for further information regarding the Company s interest rate swap agreements. ASC 820-10 states that the fair value measurement of an asset or liability must reflect the nonperformance risk of the entity and the counterparty. Therefore, the impact of the counterparty s creditworthiness when in an asset position and the Company s creditworthiness when in a liability position has also been factored into the fair value measurement of the derivative instruments in an asset or liability position and did not have a material impact on the fair value of these derivative instruments. As of September 30, 2012, both the counterparty and the Company are expected to continue to perform under the contractual terms of the instruments. Cash and cash equivalents and restricted cash are considered Level 1 items as they represent liquid assets with short-term maturities. Floating rate debt is considered to be a Level 2 item as the Company considers the estimate of rates it could obtain for similar debt. The 2010 Notes are publicly traded in the over-the-counter market; however they are not considered to be actively traded. As such, the 2010 Notes are considered to be a Level 2 item.

### 14 - PREPAID EXPENSES AND OTHER CURRENT AND NONCURRENT ASSETS

#### 18 - REVENUE FROM TIME CHARTERS

Total voyage revenue earned on time charters, including revenue earned in vessel pools and spot market-related time charters, for the three months ended September 30, 2012 and 2011 was \$53,603 and \$93,484, respectively, and for the nine months ended September 30, 2012 and 2011 was \$174,740 and \$292,614, respectively. Included in revenues for the three months ended September 30, 2012 and 2011 was profit sharing revenue of \$0 and \$1, respectively. Additionally, included in revenues for the nine months ended September 30, 2012 and 2011 was profit sharing revenue of \$0 and \$121, respectively. Future minimum time charter revenue, based on vessels committed to noncancelable time charter contracts as of November 1, 2012 is expected to be \$11,480 for the remainder of 2012, \$15,405 during 2013 and \$3,512 during 2014, assuming off-hire due to any scheduled drydocking and that no additional off-hire time is incurred. For most drydockings, the Company assumes twenty days of offhire. Future minimum revenue excludes revenue earned for the five vessels currently in pool arrangements, vessels that are currently on or will be on spot market-related time charters, as spot rates cannot be estimated, as well as profit sharing revenue.

#### 19 - COMMITMENTS AND CONTINGENCIES

In September 2005, the Company entered into a 15-year lease for office space in New York, New York for which there was a free rental period from September 1, 2005 to July 31, 2006. On January 6, 2012, the Company ceased the use of this space and as such has recorded, during the three and nine months ended September 30, 2012, net rent expense of \$255 and \$826, respectively, representing the present value of the Company s estimated remaining rent expense for the duration of the lease after taking into account estimated future sublease income and deferred rent on the facility. The current and long-term lease obligations related to this lease agreement are recorded in the condensed consolidated balance sheet at September 30, 2012 in Current portion of lease obligations and Long-term lease obligations, respectively. Rent expense under this lease for the three and nine months ended September 30, 2011 was \$117 and \$350, respectively.

Future minimum rental payments on the above lease for the next five years and thereafter are as follows: \$129 for the remainder of 2012, \$518 annually for 2013 through 2015, \$529 for 2016, and a total of \$2,522 for the remaining term of the lease.

Effective April 4, 2011, the Company entered into a seven-year sub-sublease agreement for additional office space in New York, New York. The term of the sub-sublease commenced June 1, 2011, with a free base rental period until October 31, 2011. Following the expiration of the free base rental period, the monthly base rental payments will be \$82 per month until May 31, 2015 and thereafter will be \$90 per month until the end of the seven-year term. Pursuant to the sub-sublease agreement, the sublessor is obligated to contribute \$472 toward the cost of the Company s alterations to the sub-subleased office space. The Company has also entered into a direct lease with the over-landlord of such office space that will commence immediately upon the expiration of such sub-sublease agreement, for a term covering the period from May 1, 2018 to September 30, 2025; the direct lease provides for a free base rental period from May 1, 2018 to September 30, 2018. Following the expiration of the free base rental period, the monthly base rental payments will be \$186 per month from October 1, 2018 to April 30, 2023 and \$204 per month from May 1, 2023 to September 30, 2025. For accounting purposes, the sub-sublease agreement and direct lease agreement with the landlord constitutes one lease agreement. As a result of the straight-line rent calculation generated by the free rent period and the tenant work credit, the monthly straight-line rental expense for the term of the entire lease from June 1, 2011 to September 30, 2025 will be \$130. The Company had a long-term lease obligation at September 30, 2012 and December 31, 2011 of \$1,649 and \$1,217, respectively. Rent expense pertaining to this new lease for the three months ended September 30, 2012 and 2011 was \$1,88 and \$1,99, respectively.

Future minimum rental payments on the above lease for the next five years and thereafter are as follows: \$245 for the remainder of 2012, \$982 annually for 2013 through 2014, \$1,037 for 2015, \$1,076 for 2016 and a total of \$17,582 for the remaining term of the lease.

#### 20 - NONVESTED STOCK AWARDS

The table below summarizes the Company s nonvested stock awards for the nine months ended September 30, 2012 under the Genco Shipping & Trading Limited 2005 Equity Incentive Plan (the GS&T Plan ):

Number of Shares Weighted Average Grant Date Price

Edgar Filing: GENCO SHIPPING & TRADING LTD - Form 10-Q

Outstanding at January 1, 2012	936,787 \$	14.06

Vested	(15,000)	8.00
Forfeited	(1,500)	6.39
Outstanding at September 30, 2012	935,287 \$	14.00

The total fair value of shares that vested under the GS&T Plan during the nine months ended September 30, 2012 and 2011 was \$53 and \$120, respectively. The total fair value is calculated as the number of shares vested during the period multiplied by the fair value on the vesting date.

#### Table of Contents

For the three and nine months ended September 30, 2012 and 2011, the Company recognized nonvested stock amortization expense for the GS&T Plan, which is included in general, administrative and management fees, as follows:

	Three Months Ended September 30,			Nine Months Ended September 30,			
	2012		2011		2012		2011
General, administrative and							
management fees	\$ 1,069	\$	1,472	\$	3,214	\$	4,443

The fair value of nonvested stock at the grant date is equal to the closing stock price on that date. The Company is amortizing these grants over the applicable vesting periods, net of anticipated forfeitures. As of September 30, 2012, unrecognized future compensation cost of \$4,800 related to nonvested stock will be recognized over a weighted-average period of 2.93 years.

The following table presents a summary of Baltic Trading s nonvested stock awards for the nine months ended September 30, 2012 under the Baltic Trading Limited 2010 Equity Incentive Plan (the Baltic Trading Plan ):

	Number of Baltic Trading Common Shares	Weighted Average Grant Date Price
Outstanding at January 1, 2012	545,750	\$ 11.60
Granted	12,500	3.86
Vested	(129,000)	13.31
Forfeited		
Outstanding at September 30, 2012	429,250	\$ 10.86

The total fair value of shares that vested under the Baltic Trading Plan during the nine months ended September 30, 2012 and 2011 was \$505 and \$1,131, respectively. The total fair value is calculated as the number of shares vested during the period multiplied by the fair value on the vesting date.

For the three and nine months ended September 30, 2012 and 2011, the Company recognized nonvested stock amortization expense for the Baltic Trading Plan, which is included in general, administrative and management fees, as follows:

	Three Months Ended September 30,				Nine Months Ended September 30,			
	2012		2011		2012		2011	
General, administrative								
and management fees	\$ 403	\$	623	\$	1,377	\$	2,174	

The Company is amortizing Baltic Trading s grants over the applicable vesting periods, net of anticipated forfeitures. As of September 30, 2012, unrecognized future compensation cost of \$1,434 related to nonvested stock will be recognized over a weighted-average period of 1.96 years.

### 21 - SHARE REPURCHASE PROGRAM

Since the inception of its share repurchase program through September 30, 2012, the Company has repurchased and retired 278,300 shares of its common stock for \$11,500. Currently, the terms of the 2007 Credit Facility require the Company to suspend all share repurchases until the Company can represent that it is in a position to again satisfy the collateral maintenance covenant. No share repurchases were made during the three and nine months ended September 30, 2012 and 2011.

#### 22 - LEGAL PROCEEDINGS

From time to time, the Company may be subject to legal proceedings and claims in the ordinary course of its business, principally personal injury and property casualty claims. Such claims, even if lacking merit, could result in the expenditure of significant financial and managerial resources. The Company is not aware of any legal proceedings or claims that it believes will have, individually or in the aggregate, a material effect on the Company, its financial condition, results of operations or cash flows.

#### 23 - SUBSEQUENT EVENTS

On October 31, 2012, Baltic Trading declared a dividend of \$0.01 per share to be paid on or about November 21, 2012 to shareholders of record as of November 14, 2012. The aggregate amount of the dividend is expected to be approximately \$227, of which approximately \$170 will be paid to minority shareholders, which Baltic Trading anticipates will be funded from cash on hand at the time payment is to be made.

MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF

This report contains forward-looking statements made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements use words such as anticipate, estimate, expect, project, intend, plan, believe, and other words a of similar meaning in connection with a discussion of potential future events, circumstances or future operating or financial performance. These forward-looking statements are based on management s current expectations and observations. Included among the factors that, in our view, could cause actual results to differ materially from the forward looking statements contained in this report are the following: (i) declines in demand or rates in the drybulk shipping industry; (ii) prolonged weakness in drybulk shipping rates; (iii) changes in the supply of or demand for drybulk products, generally or in particular regions; (iv) changes in the supply of drybulk carriers including newbuilding of vessels or lower than anticipated scrapping of older vessels; (v) changes in rules and regulations applicable to the cargo industry, including, without limitation, legislation adopted by international organizations or by individual countries and actions taken by regulatory authorities; (vi) increases in costs and expenses including but not limited to: crew wages, insurance, provisions, lube oil, bunkers, repairs, maintenance and general, administrative and management fee expenses; (vii) whether our insurance arrangements are adequate; (viii) changes in general domestic and international political conditions; (ix) acts of war, terrorism, or piracy; (x) changes in the condition of our vessels or applicable maintenance or regulatory standards (which may affect, among other things, our anticipated drydocking or maintenance and repair costs) and unanticipated drydock expenditures; (xi) our acquisition or disposition of vessels; (xii) the amount of offhire time needed to complete repairs on vessels and the timing and amount of any reimbursement by our insurance carriers for insurance claims, including offhire days; (xiii) the completion of definitive documentation with respect to charters; (xiv) charterers compliance with the terms of their charters in the current market environment; and other factors listed from time to time in our filings with the Securities and Exchange Commission, including, without limitation, our Annual Report on Form 10-K for the year ended December 31, 2011 and subsequent reports on Form 8-K and Form 10-Q.

The following management s discussion and analysis should be read in conjunction with our historical consolidated financial statements and the related notes included in this Form 10-Q.

#### General

We are a Marshall Islands company that transports iron ore, coal, grain, steel products and other drybulk cargoes along worldwide shipping routes through the ownership and operation of drybulk carrier vessels. Excluding vessels of Baltic Trading Limited (Baltic Trading), as of November 9, 2012, our fleet consisted of nine Capesize, eight Panamax, 17 Supramax, six Handymax and 13 Handysize drybulk carriers, with an aggregate carrying capacity of approximately 3,810,000 dwt, and the average age of our fleet is approximately 7.5 years, as compared to the average age for the world fleet of approximately 10 years for the drybulk shipping segments in which we compete. We seek to deploy our vessels on time charters, spot market-related time charters or in vessel pools trading in the spot market, to reputable charterers, including Cargill International S.A., Pacific Basin Chartering Ltd., Trafigura Beheer B.V., Swissmarine Services S.A., Klaveness Chartering and LB/IVS Pool, in which Lauritzen Bulkers A/S acts as the pool manager. The majority of the vessels in our current fleet are presently engaged under time charter and spot market-related time charter contracts that expire (assuming the option periods in the time charters are not exercised) between November 2012 and May 2015.

In addition, as of November 9, 2012, Baltic Trading s fleet consisted of two Capesize, four Supramax and three Handysize drybulk carriers with an aggregate carrying capacity of approximately 672,000 dwt.

See pages 34 - 37 for a table of all vessels that have been delivered to us, including Baltic Trading s vessels.

Depending on market conditions, we intend to acquire additional modern, high-quality drybulk carriers through timely and selective acquisitions of vessels in a manner that is accretive to our cash flow. We expect to fund acquisitions of additional vessels using cash reserves set aside for this purpose or additional borrowings and may consider additional debt or equity financing alternatives from time to time.

Our management team and our other employees are responsible for the commercial and strategic management of our fleet. Commercial management includes the negotiation of charters for vessels, managing the mix of various types of charters, such as time charters, voyage charters and spot market-related time charters, and monitoring the performance of our vessels under their charters. Strategic management includes locating, purchasing, financing and selling vessels. We currently contract with three independent technical managers to provide technical management of our fleet at a lower cost than we believe would be possible in-house. Technical management involves the day-to-day management of vessels, including performing routine maintenance, attending to vessel operations and arranging for crews and supplies. Members of our New York City-based management team oversee the activities of our independent technical managers.

From time to time in the current global economic environment, our charterers with long-term time charters may request to renegotiate the terms of our charters with them. As a general matter, we do not agree to make changes to the terms of our charters in response to such requests. The failure of any charterer to meet its obligations under our long-term time charters could have an adverse effect on our results of operations.

Baltic Trading, formerly a wholly-owned subsidiary of the Company, completed its IPO on March 15, 2010. As of September 30, 2012, the Company s wholly-owned subsidiary Genco Investments LLC owned 5,699,088 shares of Baltic Trading s Class B Stock, which represents a 25.09% ownership interest in Baltic Trading at September 30, 2012 and 83.40% of the aggregate voting power of Baltic Trading s outstanding shares of voting stock. Baltic Trading is consolidated with the Company, as we control a majority of the voting interest in Baltic Trading. Management s discussion and analysis of the Company s results of operations and financial condition in this section includes the results of Baltic Trading.

We entered into a long-term management agreement (the Management Agreement ) with Baltic Trading pursuant to which we apply our expertise and experience in the drybulk industry to provide Baltic Trading with commercial, technical, administrative and strategic services. The Management Agreement is for an initial term of approximately 15 years and will automatically renew for additional five-year periods unless terminated in accordance with its terms. Baltic Trading will pay us for the services we provide it as well as reimburse us for our costs and expenses incurred in providing certain of these services. Management fee income we earn from the Management Agreement net of any allocated shared expenses, such as salary, office expenses and other general and administrative fees, will be taxable to us. Upon consolidation with Baltic Trading, any management fee income earned will be eliminated for financial reporting purposes.

We provide technical services for drybulk vessels purchased by Maritime Equity Partners LLC (MEP) under an agency agreement between us and MEP. These services include oversight of crew management, insurance, drydocking, ship operations and financial statement preparation, but do not include chartering services. The services are provided for a fee of \$750 per ship per day plus reimbursement of out-of-pocket costs and will be provided for an initial term of one year. MEP has the right to cancel provision of services on 60 days notice with payment of a one-year termination fee upon a change of our control. We may terminate provision of the services at any time on 60 days notice. Peter C. Georgiopoulos, our Chairman of the Board of Directors, is a minority investor in MEP, and affiliates of Oaktree Capital Management, L.P., of which Stephen A. Kaplan, one of our directors, is a principal, are majority investors in MEP. This arrangement was approved by an independent committee of our Board of Directors.

During January 2011, the Genco Success, a 1997-built Handymax vessel, was on charter to Korea Line Corporation (KLC) when KLC filed for a rehabilitation application. We estimate that we have a claim of approximately \$0.8 million against KLC related primarily to unpaid revenue earned prior to re-delivery of the vessel. If a rehabilitation plan is approved by the South Korean courts and it is determined that we will receive a cash settlement for our outstanding claim, any amounts due from KLC will be recorded once the collectibility of the receivable has been assessed and the amount has been deemed collectible.

## **Factors Affecting Our Results of Operations**

We believe that the following table reflects important measures for analyzing trends in our results of operations. The table reflects our ownership days, available days, operating days, fleet utilization, TCE rates and daily vessel operating expenses for the three and nine months ended September 30, 2012 and 2011 on a consolidated basis, which includes the operations of Baltic Trading.

#### **Definitions**

In order to understand our discussion of our results of operations, it is important to understand the meaning of the following terms used in our analysis and the factors that influence our results of operations.

(1) Ownership days. We define ownership days as the aggregate number of days in a period during which each vessel in our fleet has been owned by us. Ownership days are an indicator of the size of our fleet over a period and affect both the amount of revenues and the amount of expenses that we record during a period.

(2) Available days. We define available days as the number of our ownership days in a period less the aggregate number of days that our vessels are off-hire due to scheduled repairs or repairs under guarantee, vessel upgrades or special surveys and the aggregate amount of time that we spend positioning our vessels between time charters. Companies in the shipping industry generally use available days to measure the number of days in a period during which vessels should be capable of generating revenues.

(3) Operating days. We define operating days as the number of our available days in a period less the aggregate number of days that our vessels are off-hire due to unforeseen circumstances. The shipping industry uses operating days to measure the aggregate number of days in a period during which vessels actually generate revenues.

(4) Fleet utilization. We calculate fleet utilization by dividing the number of our operating days during a period by the number of our available days during the period. The shipping industry uses fleet utilization to measure a company s efficiency in finding suitable employment for its vessels and minimizing the number of days that its vessels are off-hire for reasons other than scheduled repairs or repairs under guarantee, vessel

upgrades, special surveys or vessel positioning.

(5) TCE rates. We define TCE rates as net voyage revenue (voyage revenues less voyage expenses) divided by the number of our available days during the period, which is consistent with industry standards. TCE rate is a common shipping industry performance measure used primarily to compare daily earnings generated by vessels on time charters with daily earnings generated by vessels on voyage charters, because charterhire rates for vessels on voyage charters are generally not expressed in per-day amounts while charterhire rates for vessels on time charters generally are expressed in such amounts.

(6) Daily vessel operating expenses. We define daily vessel operating expenses as vessel operating expenses divided by ownership days for the period. Vessel operating expenses include crew wages and related costs, the cost of insurance, expenses relating to repairs and maintenance (excluding drydocking), the costs of spares and consumable stores, tonnage taxes and other miscellaneous expenses.
