#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2013 AND 2012 (UNAUDITED) AND DECEMBER 31, 2012

#### 1. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation The consolidated financial statements include the accounts of Republic Bancorp, Inc. (the Parent Company ) and its wholly-owned subsidiaries: Republic Bank & Trust Company ( RB&T ) and Republic Bank ( RB ) (collectively referred together as the Bank ), and Republic Invest Co. The consolidated financial statements also include the wholly-owned subsidiaries of RB&T: Republic Financial Services, LLC, TRS RAL Funding, LLC and Republic Insurance Agency, LLC. Republic Bancorp Capital Trust ( RBCT ) is a Delaware statutory business trust that is a wholly-owned unconsolidated finance subsidiary of Republic Bancorp, Inc. All companies are collectively referred to as Republic or the Company. All significant intercompany balances and transactions are eliminated in consolidation.

Republic Invest Co. and its subsidiary, Republic Capital LLC, were dissolved in April 2013 in connection with the full repayment by RB&T of intragroup subordinated debentures issued by Republic Capital LLC in a 2004 intragroup trust preferred transaction.

The inactive subsidiaries of RB&T: Republic Financial Services, LLC, TRS RAL Funding, LLC and Republic Insurance Agency, LLC were dissolved in the second quarter of 2013.

In May 2013, management requested regulatory approval to merge RB&T and RB under one national bank charter. With the approved internal merger, the Bank would operate with the name Republic Bank, National Association ( RBNA ) with the Office of the Comptroller of the Currency ( OCC ) as its primary regulator. The OCC is currently the primary regulator of RB, with RB&T currently regulated by the Federal Deposit Insurance Corporation ( FDIC ) and the Kentucky Department of Financial Institutions ( KDFI ).

The accompanying unaudited consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, the financial statements do not include all of the information and footnotes required by U.S. generally accepted accounting principles ( GAAP ) for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for fair presentation have been included. Operating results for the three and six months ended June 30, 2013 are not necessarily indicative of the results that may be expected for the year ending December 31, 2013. For further information, refer to the consolidated financial statements and footnotes thereto included in Republic s Form 10-K for the year ended December 31, 2012.

As of June 30, 2013, the Company was divided into three distinct business operating segments: Traditional Banking, Mortgage Banking and Republic Processing Group ( RPG ). During the second quarter of 2012, the Company realigned the previously reported Tax Refund Solutions ( TRS ) segment as a division of the newly formed RPG segment. Along with the TRS division, Republic Payment Solutions ( RPS ) and Republic Credit Solutions ( RCS ) also operate as divisions of the RPG segment.

Traditional Banking and Mortgage Banking (collectively Core Banking )

Republic operates 44 banking centers, primarily in the retail banking industry, and conducts its Core Banking operations predominately in metropolitan Louisville, Kentucky; Central Kentucky; Northern Kentucky; Southern Indiana; metropolitan Tampa, Florida; metropolitan Cincinnati, Ohio; metropolitan Nashville, Tennessee; metropolitan Minneapolis, Minnesota and through an Internet banking delivery channel.

Core Banking results of operations are primarily dependent upon net interest income, which represents the difference between the interest income and fees on interest-earning assets and the interest expense on interest-bearing liabilities. Principal interest-earning Core Banking assets represent investment securities and real estate, commercial and consumer loans. Interest-bearing liabilities primarily consist of interest-bearing deposit accounts, securities sold under agreements to repurchase, as well as short-term and long-term borrowing sources. In June 2011 the Bank began offering its warehouse lending product. With this product, the Bank provides short-term, revolving credit facilities to mortgage bankers across the nation. These credit facilities are secured by single family, first lien residential real estate loans.

#### **Table of Contents**

Other sources of Core Banking income include service charges on deposit accounts, debit card interchange fee income, title insurance commissions, fees charged to customers for trust services and revenue generated from Mortgage Banking activities. Mortgage Banking activities represent both the origination and sale of loans in the secondary market and the servicing of loans for others, primarily the Federal Home Loan Mortgage Corporation (Freddie Mac or FHLMC).

Core Banking operating expenses consist primarily of salaries and employee benefits, occupancy and equipment expenses, communication and transportation costs, data processing, debit card interchange expenses, marketing and development expenses, FDIC insurance expense, and various general and administrative costs. Core Banking results of operations are significantly impacted by general economic and competitive conditions, particularly changes in market interest rates, government laws and policies and actions of regulatory agencies.

#### **Republic Processing Group**

Nationally, through RB&T, RPG facilitates the receipt and payment of federal and state tax refunds under the TRS division, primarily through refund transfers (RTs). RTs are products whereby a tax refund is issued to the taxpayer after RB&T has received the refund from the federal or state government. There is no credit risk or borrowing cost for RB&T associated with these products because they are only delivered to the taxpayer upon receipt of the tax refund directly from the governmental paying authority. Fees earned on RTs, net of rebates, are the primary source of revenue for the TRS division and the RPG segment, and are reported as non-interest income under the line item. Net refund transfer fees.

The TRS division historically originated and obtained a significant source of revenue from Refund Anticipation Loans (RAL s), but terminated this product effective April 30, 2012. RALs were short-term consumer loans offered to taxpayers that were secured by the customer s anticipated tax refund, which represented the source of repayment. The fees earned on RALs for the applicable reporting period in 2012 are reported as interest income under the line item. Loans, including fees.

Nationally, through RB, the RPS division is an issuing bank offering general purpose reloadable prepaid debit cards through third party program managers. Nationally, through RB&T, the RCS division is preparing to pilot short-term consumer credit products on-line.

**Reclassifications and recasts** Certain amounts presented in prior periods have been reclassified to conform to the current period presentation. These reclassifications had no impact on previously reported prior periods net income. Additionally, as discussed in Footnote 2 2012 Acquisitions of Failed Banks, during the first quarter of 2013 the Bank posted adjustments to the First Commercial Bank (FCB) acquired assets in the determination of acquisition day fair values, or (day-one) fair values, which resulted in a \$1.3 million increase to the bargain purchase gain presented.

#### Table of Contents

#### 2. 2012 ACQUISITIONS OF FAILED BANKS

#### **OVERVIEW**

During 2012, the Bank acquired two failed institutions in FDIC-assisted transactions. The Bank acquired certain assets and assumed certain liabilities of Tennessee Commerce Bank ( TCB ) during the first quarter of 2012 and First Commercial Bank ( FCB ) during the third quarter of 2012. The Bank did not raise capital to complete either of these acquisitions.

The Bank determined that the acquisitions of these failed banks constituted business acquisitions as defined by Accounting Standards Codification (ASC) Topic 805, *Business Combinations*. Accordingly, the assets acquired and liabilities assumed have been presented at their estimated fair values, as required. Fair values are determined over a measurement period based on the requirements of ASC Topic 820, *Fair Value Measurements and Disclosures*. The measurement period for day-one fair values begins on the acquisition date and ends the earlier of: (a) the day management believes it has all the information necessary to determine day-one fair values; or (b) one year following the acquisition date. In many cases, the determination of these day-one fair values requires management to make material estimates about discount rates, future expected cash flows, market conditions and other future events that are highly subjective in nature and subject to recast adjustments, which are retrospective adjustments to reflect new information existing at the acquisition date affecting day-one fair values. More specifically, recast adjustments for loans and other real estate owned are made as market value data, such as appraisals, are received by the Bank. Increases or decreases to day-one fair values have been reflected with a corresponding increase or decrease to goodwill or bargain purchase gain.

#### **Tennessee Commerce Bank**

On January 27, 2012, the Bank acquired specific assets and assumed substantially all of the deposits and specific other liabilities of TCB, headquartered in Franklin, Tennessee from the FDIC, as receiver for TCB, pursuant to the terms of a Purchase and Assumption Agreement (P&A) Whole Bank; All Deposits entered into among RB&T, the FDIC as receiver of TCB and the FDIC. On January 30, 2012, TCB s sole location re-opened as a division of RB&T.

The Bank acquired approximately \$221 million in notional assets from the FDIC as receiver for TCB. In addition, the Bank also recorded a receivable from the FDIC for approximately \$785 million, which represented the net difference between the assets acquired and the liabilities assumed, adjusted for the discount the Bank received for the acquisition. The FDIC paid approximately \$771 million of this receivable on January 30, 2012 with the remaining \$14 million paid on February 15, 2012.

During the first quarter of 2012, the Bank recorded an initial bargain purchase gain of \$27.9 million as a result of the TCB acquisition. The bargain purchase gain was realized because the overall price paid by the Bank was substantially less than the fair value of the TCB assets acquired and liabilities assumed in the acquisition. In the second and third quarters of 2012, the Bank posted adjustments to the acquired assets for its FDIC-assisted acquisition in the determination of day-one fair values and recorded a net decrease to the bargain purchase gain of \$285,000, as additional information relative to the day-one fair values became available.

Information obtained subsequent to January 27, 2012 and through September 30, 2012 was considered in forming TCB estimates of cash flows and collateral values as of the January 27, 2012 acquisition date, i.e., TCB s day-one fair values. Day-one fair values for TCB were considered final as of September 30, 2012, which is the date the Bank believed it had received all the information necessary to determine TCB s day-one fair values.

Bargain purchase gain, pre-tax	\$	27,899	\$	(96)	\$	(189)	\$	27,614	

On January 27, 2012, the Bank did not immediately acquire the TCB banking facility, including outstanding lease agreements and furniture, fixtures and equipment. During the third quarter of 2012, the Bank renegotiated a new lease with the landlord related to the sole banking facility and acquired all related data processing equipment and fixed assets totaling approximately \$573,000.

#### First Commercial Bank

On September 7, 2012, the Bank acquired specific assets and assumed substantially all of the liabilities of FCB, headquartered in Bloomington, Minnesota from the FDIC, as receiver for FCB, pursuant to the terms of a Purchase and Assumption Agreement Whole Bank; All Deposits, entered into among RB&T, the FDIC as receiver of FCB and the FDIC. On September 10, 2012, FCB s sole location re-opened as a division of RB&T.

The Bank acquired approximately \$215 million in notional assets from the FDIC as receiver for FCB. In addition, the Bank also recorded a receivable from the FDIC for approximately \$64 million, which represented the net difference between the assets acquired and the liabilities assumed adjusted for the discount the Bank received for the acquisition. The FDIC paid substantially all of this receivable to the Bank on September 10, 2012.

During the third quarter of 2012, the Bank recorded an initial bargain purchase gain of \$27.1 million as a result of the FCB acquisition. The bargain purchase gain was realized because the overall price paid by the Bank was substantially less than the fair value of the FCB assets acquired and liabilities assumed in the acquisition. During the fourth quarter of 2012, the Bank posted adjustments to the acquired assets for its FDIC-assisted acquisition in the determination of day-one fair values and recorded a net increase to the bargain purchase gain of \$712,000, as additional information relative to the day-one fair values became available. During the first quarter of 2013, the Bank posted an additional increase of \$1.3 million to the bargain purchase gain.

#### Table of Contents

Information obtained subsequent to September 7, 2012 and through March 31, 2013 was considered in forming FCB estimates of cash flows and collateral values as of the September 7, 2012 acquisition date, i.e., FCB s day-one fair values.

While a future recast of the FCB bargain purchase gain is possible through September 7, 2013, management does not currently anticipate additional future adjustments to the FCB bargain purchase gain, as a significant amount of information was considered available to management regarding the assets and liabilities in the acquisition and a significant amount of the assets acquired were resolved in some manner through March 31, 2013. As a result, management considered the measurement period for the FCB day-one fair values to be closed as of March 31, 2013 but reserves the right to make future adjustments if material information that existed as of the acquisition date becomes available prior to September 7, 2013.

A summary of the assets acquired and liabilities assumed in the FCB acquisition, including recast adjustments, follows:

On September 7, 2012, the Bank did not immediately acquire the FCB banking facility, including outstanding lease agreements and furniture, fixtures and equipment. The Bank acquired all data processing equipment and fixed assets totaling approximately \$328,000 during the fourth quarter of 2012. During the first quarter of 2013, the Bank renegotiated a new lease with the landlord related to the sole banking facility and acquired all related data processing equipment and fixed assets totaling approximately \$233,000.

#### **Table of Contents**

#### FAIR VALUE METHODS ASSOCIATED WITH THE 2012 ACQUISITIONS OF FAILED BANKS

The following is a description of the methods used to determine the fair values of significant assets and liabilities at the respective acquisition dates as presented throughout:

Cash and Due from Banks and Interest-bearing Deposits in Banks The carrying amount of these assets, adjusted for any cash items deemed uncollectible by management, was determined to be a reasonable estimate of fair value based on their short-term nature.

*Investment Securities* Investment securities were acquired at fair value from the FDIC. The fair values provided by the FDIC were reviewed and considered reasonable based on management sunderstanding of the marketplace. Federal Home Loan Bank (FHLB) stock was acquired at cost, as it is not practicable to determine its fair value given restrictions on its marketability.

With the TCB acquisition, the Bank acquired \$43 million in securities at fair value. The majority of the securities acquired were subsequently sold or called during the first quarter of 2012 with the Bank realizing a net gain on the corresponding transactions of approximately \$56,000. The Bank sold these securities because management determined that the acquired securities did not fit within the Bank straditional investment strategies.

With the FCB acquisition, the Bank acquired \$12 million in securities at fair value. The nature of these securities acquired were consistent with the Bank s existing investment portfolio and the Bank elected not to sell these securities.

**Loans** Fair values for loans were based on a discounted cash flow methodology that considered factors including the type of loan and related collateral, classification status, fixed or variable interest rate, term of loan and whether or not the loan was amortizing, and a discount rate reflecting current market rates for new originations of comparable loans adjusted for the risk inherent in the cash flow estimates.

Certain loans that were deemed to be collateral dependent were valued based on the fair value of the underlying collateral. These estimates were based on the most recently available real estate appraisals with certain adjustments made based on the type of property, age of appraisal, current status of the property and other related factors to estimate the current value of the collateral.

With the TCB acquisition, the Bank purchased approximately \$99 million in loans with a recasted fair value of approximately \$74 million. During 2012, the FDIC repurchased approximately \$20 million of TCB loans at a price of par less the original discount of \$3 million that the Bank received when it purchased the loans. Loans repurchased by the FDIC were valued at the contractual amount reduced by the applicable discount.

With the FCB acquisition, the Bank purchased approximately \$172 million in loans with a recasted fair value of approximately \$130 million.

Core Deposit Intangible In its assumption of the deposit liabilities for the 2012 acquisitions, the Bank believed that the customer relationships associated with these deposits had intangible value, although this value was anticipated to be modest given the nature of the deposit accounts and the anticipated rapid account run-off since acquired. The Bank recorded core deposit intangible assets of \$64,000 and \$559,000 related to the TCB and FCB acquisitions. The fair value of these intangible assets were estimated based on a discounted cash flow methodology that gave appropriate consideration to type of deposit, deposit retention, cost of the deposit base and net maintenance cost attributable to customer deposits.

Other Real Estate Owned (OREO) OREO is presented at fair value, which is the estimated value that management expects to receive when the property is sold, net of related costs to sell. These estimates were based on the most recently available real estate appraisals, with certain adjustments made based on the type of property, age of appraisal, current status of the property and other related factors to estimate the current value of the property.

The Bank acquired \$14 million in OREO related to the TCB acquisition, which was initially reduced by a \$3 million fair value adjustment as of January 27, 2012. Subsequent to the first quarter, the Bank posted a net negative recast adjustment of \$1 million to OREO to mark several properties to market based on appraisals received.

The Bank acquired \$19 million in OREO related to the FCB acquisition, which was initially reduced by an \$8 million fair value adjustment as of September 7, 2012. During the fourth quarter of 2012 and the first quarter of 2013, the Bank posted net positive recast adjustments of \$289,000 and \$1.1 million to OREO to mark several properties to market based on appraisals received.

**FHLB Advances** The Bank acquired \$3 million in FHLB advances related to the FCB acquisition. The advances were marked to market as of the acquisition date based on early prepayment payoffs (including penalties) received from the FHLB. The Bank paid off the advances during the third quarter of 2012 at no additional loss beyond the fair value adjustment as of their date of acquisition.

**Deposits** The fair values used for the demand and savings deposits that comprise the acquisition accounts acquired, by definition, equal the amount payable on demand at the acquisition date. The fair values for time deposits are estimated using a discounted cash flow calculation that applies interest rates currently being offered to the interest rates embedded on such time deposits.

The Bank assumed \$947 million in deposits at estimated fair value in connection with the TCB acquisition. As permitted by the FDIC, within seven days of the acquisition date, RB&T had the option to disclose to TCB s deposit customers that it was repricing the acquired deposit portfolios. In addition, depositors had the option to withdraw funds without penalty. The Bank chose to reprice all of the acquired TCB interest-bearing deposits, including transaction, time and brokered deposits with an effective date of January 28, 2012. This re-pricing triggered significant time and brokered deposit run-off consistent with management s expectations. Through June 30, 2013, approximately 97% of the assumed TCB interest-bearing deposit account balances had exited the Bank, with no penalty on the applicable time and brokered deposits. At June 30, 2013, the Bank had \$26 million of deposits associated with TCB.

# Table of Contents

The Bank assumed \$196 million in deposits at estimated fair value in connection with the FCB acquisition, the Bank chose to re-price all of the acquired FCB time deposits with an effective date of October 1, 2012. This re-pricing triggered certificate of deposit run-off consistent with management s expectations. Through June 30, 2013, approximately 81% of the assumed interest-bearing deposit account balances had exited the Bank, with no penalty on the applicable time and brokered deposits. At June 30, 2013, the Bank had \$38 million of deposits associated with the FCB acquisition.

The composition of deposits assumed at fair value as of the respective acquisition dates follows:

#### Table of Contents

During the three and six months ended June 30, 2013, there were no sales or calls of securities available for sale.

During the six months ended June 30, 2012, the Bank recognized net securities gains in earnings for securities available for sale as follows:

- The Bank sold six available for sale securities acquired in the TCB acquisition with an amortized cost of \$35 million, resulting in a pre-tax gain of \$53,000 during the first quarter of 2012.
- The Bank realized \$3,000 in pre-tax gains related to unamortized discount accretion on \$10 million of callable U.S. Government agencies that were called during the first quarter of 2012 before their maturity.

The tax provision related to the Bank s realized gains totaled \$0 and \$20,000 for the three and six months ended June 30, 2012, respectively.

The amortized cost and fair value of the investment securities portfolio by contractual maturity at June 30, 2013 follows. Expected maturities may differ from contractual maturities if borrowers have the right to call or prepay obligations whether or not there are associated call or prepayment penalties. Securities not due at a single maturity date are detailed separately.

		Secu availabl	rities e for sal	Securities held to maturity

Mortgage backed securities - residential		144,733		150,055	524		567
Collateralized mortgage obligations		204,093		204,148	47,297		47,908
Total securities	\$	414,239	\$	420,331	\$ 55,169	\$	55,704

#### **Corporate Bonds**

During the quarter ended June 30, 2013, the Bank purchased \$20 million in floating rate corporate bonds with an initial weighted average yield of 1.36%. The bonds, which have a weighted average life of 7 years, were rated investment grade by accredited rating agencies as of their respective purchase dates. The total fair value of the Bank s corporate bonds represented 4% of the Bank s investment portfolio as of June 30, 2013.

#### **Mortgage backed Securities**

At June 30, 2013, with the exception of the \$5.6 million private label mortgage backed security, all other mortgage backed securities held by the Bank were issued by U.S. government-sponsored entities and agencies, primarily Freddie Mac (FHLMC) and Fannie Mae (FNMA), institutions that the government has affirmed its commitment to support. At June 30, 2013 and December 31, 2012, there were gross unrealized/unrecognized losses of \$1.6 million and \$130,000 related to available for sale mortgage backed securities. Because the decline in fair value of these mortgage backed securities is attributable to changes in interest rates and illiquidity, and not credit quality, and because the Bank does not have the intent to sell these mortgage backed securities, and it is likely that it will not be required to sell the securities before their anticipated recovery, management does not consider these securities to be other-than-temporarily impaired.

At June 30, 2013 and December 31, 2012, there were no holdings of securities of any one issuer, other than the U.S. Government and its agencies, in an amount greater than 10% of stockholders equity.

At June 30, 2013, the Bank s security portfolio consisted of 157 securities, 24 of which were in an unrealized loss position. At December 31, 2012, the Bank s security portfolio consisted of 153 securities, seven of which were in an unrealized loss position.

### Table of Contents

### Other-than-temporary impairment ( OTTI )

Unrealized losses for all investment securities are reviewed to determine whether the losses are other-than-temporary. Investment securities are evaluated for OTTI on at least a quarterly basis and more frequently when economic or market conditions warrant such an evaluation to determine whether a decline in their value below amortized cost is other-than-temporary. In conducting this assessment, the Bank evaluates a number of factors including, but not limited to:

- The length of time and the extent to which fair value has been less than the amortized cost basis;
- The Bank's intent to hold until maturity or sell the debt security prior to maturity;
- An analysis of whether it is more likely than not that the Bank will be required to sell the debt security before its anticipated recovery;
- Adverse conditions specifically related to the security, an industry, or a geographic area;
- The historical and implied volatility of the fair value of the security;
- The payment structure of the security and the likelihood of the issuer being able to make payments;
- Failure of the issuer to make scheduled interest or principal payments;
- Any rating changes by a rating agency; and
- Recoveries or additional decline in fair value subsequent to the balance sheet date.

The term other-than-temporary is not intended to indicate that the decline is permanent, but indicates that the prospects for a near-term recovery of value are not necessarily favorable, or that there is a general lack of evidence to support a realizable value equal to or greater than the carrying value of the investment. Once a decline in value is determined to be other-than-temporary, the value of the security is reduced and a corresponding charge to earnings is recognized for the anticipated credit losses.

The Bank owns one private label mortgage backed security with a total carrying value of \$5.6 million at June 30, 2013. This security, with an average remaining life currently estimated at four years, is mostly backed by Alternative A first lien mortgage loans, but also has an insurance wrap or guarantee as an added layer of protection to the security holder. This asset is illiquid, and as such, the Bank determined it to be a Level 3 security in accordance with ASC Topic 820, Fair Value Measurements and Disclosures. Based on this determination, the Bank utilized an income valuation model (present value model) approach, in determining the fair value of the security. This approach is beneficial for positions that are not traded in active markets or are subject to transfer restrictions, and/or where valuations are adjusted to reflect illiquidity and/or non-transferability. Such adjustments are generally based on available market evidence. In the absence of such evidence, management s best estimate is used. Management s best estimate consists of both internal and external support for this investment.

See additional discussion regarding the Bank s private label mortgage backed security under Footnote 7 Fair Value in this section of the filing.

### **Pledged Investment Securities**

Investment securities pledged to secure public deposits, securities sold under agreements to repurchase and securities held for other purposes, as required or permitted by law are as follows:

(in thousands)	June 30, 2013	December 31, 2012
Carrying amount \$	184,001 \$	334,560
Fair value	184,480	334,843

### **2012 Acquisitions of Failed Banks**

The contractual amount of the loans purchased in the TCB transaction decreased from \$79 million as of the acquisition date to \$34 million as of June 30, 2013. The carrying value of the loans purchased in the TCB transaction was \$57 million as of the acquisition date compared to \$27 million as of June 30, 2013.

The contractual amount of the loans purchased in the FCB transaction decreased from \$172 million as of the acquisition date to \$109 million as of June 30, 2013. The carrying value of the loans purchased in the FCB transaction was \$130 million as of the acquisition date compared to \$84 million as of June 30, 2013.

The composition of TCB and FCB loans outstanding at June 30, 2013 and December 31, 2012 follows:

	Tennessee	First	Total	
	Commerce	Commercial	Acquired	
June 30, 2013 (in thousands)	Bank	Bank	Banks

Total rated loans	\$ 1,053,396 \$	48,458	\$ 36,304	1 \$	\$ 87,033 \$	1,160 \$	1,226,351

- \* Purchased Credit Impaired loans Group 1 ( PCI-1 ) are performing in accordance with management s day-one performance expectations and are considered equivalent to the Bank s Special Mention/Watch classification.
- \*\* Purchased Credit Impaired loans Group 2 ( PCI-2 ) represent former PCI-1 loans downgraded subsequent to day-one. PCI-2 loans are generally considered impaired and could require loan loss provisions.
- \*\*\* The above tables exclude all non-classified residential real estate and consumer loans at the respective period ends. The tables also exclude most non classified small commercial and commercial real estate relationships totaling \$100,000 or less. These loans are not rated since they are accruing interest and not past due 80 days or more.

The Bank s allowance calculation has historically included specific allowance allocations for qualitative factors such as:

- Changes in nature, volume and seasoning of the loan portfolio;
- Changes in experience, ability and depth of lending management and other relevant staff;
- Changes in the quality of the Bank s loan review system;
- Changes in lending policies and procedures, including changes in underwriting standards and collection, charge-off, and recovery practices not considered elsewhere in estimating credit losses;
- Changes in the volume and severity of past due, non-accrual and classified loans;

- Changes in the value of underlying collateral for collateral-dependent loans;
- Changes in international, national, regional, and local economic and business conditions and developments that affect the collectibility of the loan portfolio, including the condition of various market segments;
- The existence and effect of any concentrations of credit, and changes in the level of such concentrations; and
- The effect of other external factors such as competition and legal and regulatory requirements on the level of estimated credit losses in the institution s existing portfolio.

Other consumer	123		97					
Total	\$ 21,922	\$	18,506	\$	2,159	\$	3,173	

Non-accrual loans and loans past due 90-days-or-more and still on accrual include both smaller balance homogeneous loans that are collectively evaluated for impairment and individually classified impaired loans. Non-accrual loans are returned to accrual status when all the principal and interest amounts contractually due are brought current and held current for six consecutive months and future payments are reasonably assured. TDRs on non-accrual are reviewed for return to accrual status on an individual basis, with additional consideration given to the modification terms. Loans 90-days-or-more past due and still on accrual are generally only PCI loans accounted for under Accounting Standards Codification (ASC) Topic 310-30, Loans and Debt Securities Acquired with Deteriorated Credit Quality.

<sup>\* -</sup> All loans greater than 90 days past due or more, excluding purchased credit impaired loans, as of June 30, 2013 and December 31, 2012 were on non-accrual status.

See additional discussion regarding the TCB and FCB acquisitions under Footnote 2 2012 Acquisitions of Failed Banks in this section of the filing.

### Table of Contents

### **Impaired Loans**

The Bank defines impaired loans as follows:

- All loans internally classified as Substandard, Doubtful or Loss;
- All loans on non-accrual status and loans past due over 90 days still on accrual;
- All retail and commercial troubled debt restructurings ( TDRs ). TDRs are loans for which the terms have been modified resulting in a concession, and for which the borrower is experiencing financial difficulties;
- All loans classified as PCI-2; and
- Any other situation where the collection of total amount due for a loan is improbable or otherwise meets the definition of impaired.

Information regarding the Bank s impaired loans follows:

(in thousands)	June	30, 2013	Decen	nber 31, 2012
Loans with no allocated allowance for loan losses  Loans with allocated allowance for loan losses	\$	40,312	\$	36,325
Loans with allocated allowance for loan losses		69,672		69,382
Total impaired loans	\$	109,984	\$	105,707
Amount of the allowance for loan losses allocated	\$	6,040	\$	8,531

Approximately \$27 million, or 25%, of impaired loans at June 30, 2013 were loans acquired in the Bank s 2012 acquisitions. Substantially all of these loans became classified as impaired through a modification of the original loan, which the Bank deemed to be a TDR. See additional discussion regarding the TCB and FCB acquisitions under Footnote 2 2012 Acquisitions of Failed Banks in this section of the filing.

### Table of Contents

### **Troubled Debt Restructurings**

A TDR is the situation where, due to a borrower s financial difficulties, the Bank grants a concession to the borrower that the Bank would not otherwise have considered. In order to determine whether a borrower is experiencing financial difficulty, an evaluation is performed of the probability that the borrower will be in payment default on any of its debt in the foreseeable future without the modification. This evaluation is performed under the Bank s internal underwriting policy.

All TDRs are considered Impaired loans, including loans acquired in acquisitions of failed banks and subsequently restructured. The majority of the Bank s commercial related and construction TDRs involve a restructuring of loan terms such as a reduction in the payment amount to require only interest and escrow (if required) and/or extending the maturity date of the loan. The substantial majority of the Bank s residential real estate TDRs involve reducing the client s loan payment through a rate reduction for a set period of time based on the borrower s ability to service the modified loan payment.

Management determines whether to classify a TDR as non-performing based on its accrual status prior to modification. Non-accrual loans modified as TDRs remain on non-accrual status and continue to be reported as non-performing loans for a minimum of six months. Accruing loans modified as TDRs are evaluated for non-accrual status based on a current evaluation of the borrower s financial condition and ability and willingness to service the modified debt. At June 30, 2013 and December 31, 2012, \$14 million and \$17 million of TDRs were also non-accrual loans

Detail of TDRs differentiated by loan type and accrual status follows:

June 30, 2013 (in thousands)	Restru	bled Debt cturings on crual Status	Restru	ubled Debt acturings on rual Status	Total Troubled Debt Restructurings

Rate reduction	24,779		4,004		28,783
Principal deferral	8,634		2,230		10,864
Bankruptcies	2,224		1,093		3,317
Total residential TDRs	36,450		7,951		44,401
Commercial related and construction loans:					
Interest only payments	689		1,742		2,431
Rate reduction	22,918		2,966		25,884
Principal deferral	19,841		194		20,035
Bankruptcies			252		252
Total commercial TDRs	43,448		5,154		48,602
Total troubled debt restructurings	\$ 79,898	\$	13,105	\$	93,003

As of June 30, 2013 and December 31, 2012, 83% and 86% of the Bank s TDRs were performing according to their modified terms. The Bank had provided \$5 million and \$7 million of specific reserve allocations to customers whose loan terms have been modified in TDRs as of June 30, 2013 and December 31, 2012. Specific reserve allocations are generally assessed prior to loans being modified as a TDR, as most of these loans migrate from the Bank s internal watch list and have been specifically provided for or reserved for as part of the Bank s normal loan loss provisioning methodology. The Bank had no commitments to lend any additional material amounts to its existing TDR relationships at June 30, 2013 and December 31, 2012.

### Table of Contents

A summary of the categories of TDR loan modifications that occurred during the six months ended June 30, 2013 follows:

June 30, 2013 (in thousands)	Troubled Debt Restructurings Performing to Modified Terms	rrings Restructurings ing to Not Performing to		Total Troubled Debt Restructurings
Residential real estate loans (including home				
equity loans):				
Interest only	\$ 64	\$		\$ 64
Rate reduction	1,758		641	2,399
Principal deferral	460		293	753
Bankruptcies	2,885		1,243	4,128
Total residential TDRs	5,167		2,177	7,344
Commercial related and construction loans:				
Interest only	141			141
Principal deferral	8,339			8,339
Total commercial TDRs	8,480			8,480
Total troubled debt restructurings	\$ 13,647	\$	2,177	\$ 15,824

The table above is inclusive of loans which were TDRs at the end of the previous year and were re-modified during the current year.

As of June 30, 2013, 86% of the Bank s TDRs that occurred during 2013 were performing according to their modified terms. The Bank has provided \$869,000 in specific reserve allocations to customers whose loan terms were modified in TDRs during 2013. As stated above, specific reserves are generally assessed prior to loans being modified as a TDR, as most of these loans migrate from the Bank s internal watch list and have been specifically reserved for as part of the Bank s normal reserving methodology.

There was no change between the pre and post modification loan balances at June 30, 2013 and December 31, 2012.

## Table of Contents

The following table presents loans by class modified as troubled debt restructurings within the past twelve months for which there was a subsequent payment default:

(dollars in thousands)	Number of Loans		
Residential real estate:			
Owner occupied	40	\$	5,649
Non owner occupied			
Commercial real estate	1		302
Commercial real estate - purchased whole loans			
Real estate construction			
Commercial			
Warehouse lines of credit			
Home equity	6		415
Consumer:			
Credit cards			
Overdrafts			
Other consumer	4		358
Total	51	\$	6,724

Total deposits	\$ 41,904	\$ 69,802	\$ 111,706

<sup>(\*)</sup> Represents a time deposit.

See additional discussion regarding the TCB and FCB acquisitions under Footnote 2 2012 Acquisitions of Failed Banks in this section of the filing.

### 6. FEDERAL HOME LOAN BANK (FHLB) ADVANCES

At June 30, 2013 and December 31, 2012, FHLB advances were as follows:

(dollars in thousands)	June 30, 2013	December	31, 2012
Fixed interest rate advances with a weighted average interest rate of 2.17% due through 2023	\$ 492,044	\$	442,600
Putable fixed interest rate advances with a weighted average interest rate of $4.39\%$ due through $2017(1)$	100,000		100,000
Total FHLB advances	\$ 592,044	\$	542,600

<sup>(1) -</sup> Represents putable advances with the FHLB. These advances have original fixed rate periods ranging from one to five years with original maturities ranging from three to ten years if not put back to the Bank earlier by the FHLB. At the end of their respective fixed rate periods and on a quarterly basis thereafter, the FHLB has the right to require payoff of the advances by the Bank at no penalty. Based on market conditions at this time, the Bank does not believe that any of its putable advances are likely to be put back to the Bank in the short-term by the FHLB.

<sup>(1)</sup> Includes brokered deposits less than, equal to and greater than \$100,000.

Each FHLB advance is payable at its maturity date, with a prepayment penalty for fixed rate advances that are paid off earlier than maturity. FHLB advances are collateralized by a blanket pledge of eligible real estate loans. At June 30, 2013, Republic had available collateral to borrow an additional \$316 million from the FHLB. In addition to its borrowing line with the FHLB, Republic also had unsecured lines of credit totaling \$196 million available through various other financial institutions.

## Table of Contents

Aggregate future principal payments on FHLB advances, based on contractual maturity dates are detailed below:

Year			
2013	\$	35,000	
2014		178,000	
2015		25,000	
2016		82,000	
2017		125,000	
Thereafter		147,044	
Total	\$	592,044	

The following table illustrates real estate loans pledged to collateralize advances and letters of credit with the FHLB:

(in thousands)	Ju	ne 30, 2013	December 31, 2012		
First lien, single family residential real estate	\$	1,122,223	\$	1,053,946	
Home equity lines of credit		107,157		116,043	
Multi-family commercial real estate		9,085		11,695	

#### **Table of Contents**

#### 7. FAIR VALUE

Fair value represents the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity s own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The Bank used the following methods and significant assumptions to estimate the fair value of each type of financial instrument:

**Securities available for sale:** For all securities available for sale, excluding the Bank's private label mortgage backed security, fair value is typically determined by matrix pricing, which is a mathematical technique used widely in the industry to value debt securities without relying exclusively on quoted prices for the specific securities, but rather by relying on the securities relationship to other benchmark quoted securities (Level 2 inputs). With the exception of the private label mortgage backed security, all securities available for sale are classified as Level 2 in the fair value hierarchy.

The Bank s private label mortgage backed security remains extremely illiquid, and as such, the Bank classifies this security as a Level 3 security in accordance with ASC Topic 820, *Fair Value Measurements and Disclosures*. Based on this determination, the Bank utilized an income valuation model (present value model) approach, in determining the fair value of this security.

Mortgage loans held for sale: The fair value of mortgage loans held for sale is determined using quoted secondary market prices. Mortgage loans held for sale are classified as Level 2 in the fair value hierarchy.

**Derivative instruments**: Mortgage Banking derivatives used in the ordinary course of business primarily consist of mandatory forward sales contracts (forward contracts) and rate lock loan commitments. The fair value of the Bank s derivative instruments is primarily measured by obtaining pricing from broker-dealers recognized to be market participants. The pricing is derived from market observable inputs that can generally be verified and do not typically involve significant judgment by the Bank. Forward contracts and rate lock loan commitments are

classified as Level 2 in the fair value hierarchy.

Impaired Loans: At the time a loan is considered impaired, it is valued at the lower of cost or fair value. Impaired loans carried at fair value generally receive specific allocations of the allowance for loan losses for anticipated selling costs of the underlying collateral. For collateral dependent loans, fair value is commonly based on recent real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value. Non-real estate collateral may be valued using an appraisal, net book value per the borrower s financial statements, or aging reports, adjusted or discounted based on management s historical knowledge, changes in market conditions from the time of the valuation, and management s expertise and knowledge of the client and client s business, resulting in a Level 3 fair value classification. Impaired loans are evaluated on a quarterly basis for additional impairment and adjusted accordingly.

### Table of Contents

Other Real Estate Owned: Assets acquired through or instead of loan foreclosure are initially recorded at fair value less costs to sell when acquired, establishing a new cost basis. These assets are subsequently accounted for at lower of cost or fair value less estimated costs to sell. Fair value is commonly based on recent real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value.

Appraisals for both collateral-dependent impaired loans and other real estate owned are performed by certified general appraisers (for commercial properties) or certified residential appraisers (for residential properties) whose qualifications and licenses have been reviewed and verified by the Bank. Once the appraisal is received, a member of the Bank s Credit Administration Department reviews the assumptions and approaches utilized in the appraisal, as well as the overall resulting fair value in comparison with independent data sources, such as recent market data or industry-wide statistics. On an annual basis, the Bank compares the actual selling price of collateral that has been sold to the most recent appraised value to determine what additional adjustment, if any, should be made to the appraisal value to arrive at an estimated fair value.

Mortgage Servicing Rights: On a monthly basis, mortgage servicing rights are evaluated for impairment based upon the fair value of the rights as compared to carrying amount. If the carrying amount of an individual tranche exceeds fair value, impairment is recorded on that tranche so that the servicing asset is carried at fair value. The valuation model utilizes assumptions that market participants would use in estimating future net servicing income and that can generally be validated against available market data (Level 2).

### Table of Contents

Assets and liabilities measured at fair value on a **recurring basis**, including financial assets and liabilities for which the Bank has elected the fair value option, are summarized below:

(in thousands)	Quoted Prices in Active Markets for Identical Assets (Level 1)	Jun	lue Measurements a te 30, 2013 Using: Significant Other Observable Inputs (Level 2)	 Significant Jnobservable Inputs (Level 3)	Total Fair Value
Financial Assets:

Corporate bonds			14,971		14,971
Total securities available for sale	\$	\$	414,690	\$ 5,641	\$ 420,331
Mandatory forward contracts	\$	\$	279	\$	\$ 279
Rate lock loan commitments			446		446
Mortgage loans held for sale			24,174		24,174

(in thousands)	Quoted Prices in Active Markets for Identical Assets (Level 1)	 alue Measurements a nber 31, 2012 Using: Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value
Financial Assets:	(Level 1)	(Level 2)	(Level 3)	v aluc
I marieta rissess				
Securities available for sale:				
U.S. Treasury securities and U.S.				
Government agencies	\$	\$ 39,472	\$	\$ 39,472
Private label mortgage backed security			5,687	5,687
Mortgage backed securities - residential		197,210		197,210
Collateralized mortgage obligations		195,877		195,877
Total securities available for sale	\$	\$ 432,559	\$ 5,687	\$ 438,246
Mandatory forward contracts	\$	\$ 47	\$	\$ 47
Rate lock loan commitments		833		833
Mortgage loans held for sale		10,614		10,614

There were no transfers into or out of Level 1, 2 or 3 assets during the three and six months ended June 30, 2013 and 2012. All transfers between levels, if applicable, would be generally recognized at the end of each quarter.

### Table of Contents

The table below presents a reconciliation of the Bank s private label mortgage backed security. This is the only asset that was measured at fair value on a recurring basis using significant unobservable inputs (Level 3) for the periods ended June 30, 2013 and 2012:

	Three Months Ended June 30,			Six Months Ended June 30,				
(in thousands)		2013		2012		2013		2012
Balance, beginning of period	\$	5,688	\$	4,520	\$	5,687	\$	4,542
Total gains or losses included in earnings:								
Net change in unrealized gain/(loss)		238		59		422		37
Principal paydowns		(285)				(468)		
Balance, end of period	\$	5,641	\$	4,579	\$	5,641	\$	4,579

The Bank s single private label mortgage backed security is supported by analysis prepared by an independent third party. The third party s approach to determining fair value involved the following steps: 1) detailed collateral analysis of the underlying mortgages, including consideration of geographic location, original loan-to-value and the weighted average Fair Isaac Corporation (FICO) score of the borrowers; 2) collateral performance projections for each pool of mortgages underlying the security (probability of default, severity of default, and prepayment probabilities) and 3) discounted cash flow modeling.

There were no transfers into or out of Level 3 assets during the three and six months ended June 30, 2013 and 2012.

See Footnote 3 Investment Securities for additional detail regarding the private label mortgage backed security in this section of the filing.

The following table presents quantitative information about recurring Level 3 fair value measurements at June 30, 2013 and December 31, 2012:

June 30, 2013 (dollars in thousands)	Fair Value	Valuation Technique	Unobservable Inputs	Range
Private label mortgage backed security	\$ 5,641	Discounted cash flow	Constant prepayment rate	0.5% - 7%
			Probability of default	3% - 6.50%
			Loss severity	60% - 85%
December 31, 2012 (dollars in thousands)	Fair Value	Valuation Technique	Unobservable Inputs	Range
Private label mortgage backed security	\$ 5,687	Discounted cash flow	Constant prepayment rate	1% - 6%
			Probability of default	3.50% - 7%

Loss severity

60% - 70%

The significant unobservable inputs in the fair value measurement of the Bank s single private label mortgage backed security are prepayment rates, probability of default and loss severity in the event of default. Significant fluctuations in any of those inputs in isolation would result in a significantly lower/higher fair value measurement.

48
