UNITED STATES
SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2014

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File No. 1-2189

ABBOTT LABORATORIES

An Illinois Corporation

I.R.S. Employer Identification No.
36-0698440

100 Abbott Park Road

Abbott Park, Illinois 60064-6400

Telephone: (847) 937-6100

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 229.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large Accelerated Filer

Accelerated Filer

Non-Accelerated Filer
(Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of March 31, 2014, Abbott Laboratories had 1,501,938,538 common shares without par value outstanding.

Abbott Laboratories and Subsidiaries

Notes to Condensed Consolidated Financial Statements

March 31, 2014

(Unaudited)

Note 1 Basis of Presentation

The accompanying unaudited, condensed consolidated financial statements have been prepared pursuant to rules and regulations of the Securities and Exchange Commission and, therefore, do not include all information and footnote disclosures normally included in audited financial statements. However, in the opinion of management, all adjustments (which include only normal adjustments) necessary to present fairly the results of operations, financial position and cash flows have been made. It is suggested that these statements be read in conjunction with the financial statements included in Abbott's Annual Report on Form 10-K for the year ended December 31, 2013. The consolidated financial statements include the accounts of the parent company and subsidiaries, after elimination of intercompany transactions.

Note 2 Separation of AbbVie Inc.

On January 1, 2013, Abbott completed the separation of AbbVie Inc. (AbbVie), which was formed to hold Abbott's research-based proprietary pharmaceuticals business. Abbott and AbbVie entered into transitional services agreements prior to the separation pursuant to which Abbott and AbbVie are providing to each other, on an interim transitional basis, various services. Transition services may be provided for up to 24 months with an option for a one-year extension by the recipient. Services being provided by Abbott include certain information technology and back office support. Billings by Abbott under these transitional services agreements are recorded as a reduction of the costs to provide the respective service in the applicable expense category in the Condensed Consolidated Statement of Earnings. This transitional support will enable AbbVie to establish its stand-alone processes for various activities that were previously provided by Abbott and does not constitute significant continuing support of AbbVie's operations.

For a small portion of AbbVie's operations, the legal transfer of AbbVie's assets (net of liabilities) did not occur with the separation of AbbVie on January 1, 2013 due to the time required to transfer marketing authorizations and other regulatory requirements in each of these countries. Under the terms of the separation agreement with Abbott, AbbVie is subject to the risks and entitled to the benefits generated by these operations and assets. The majority of these operations were transferred to AbbVie in 2013 with the remainder expected to be transferred in 2014. These assets and liabilities have been presented as held for disposition in the Condensed Consolidated Balance Sheet. At March 31, 2014, the assets and liabilities held for disposition consist of trade accounts receivable of \$127 million, inventories of \$102 million, equipment of \$17 million, other assets of \$56 million, trade accounts payable and accrued liabilities of \$152 million and other liabilities of \$18 million. Abbott's obligation to transfer the net assets held for disposition to AbbVie of \$132 million is included in Other accrued liabilities.

Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

Abbott has retained all liabilities for all U.S. federal and foreign income taxes on income prior to the separation, as well as certain non-income taxes attributable to AbbVie's business. AbbVie generally will be liable for all other taxes attributable to its business.

Earnings from discontinued operations in the first quarter of 2014 reflect the recognition of \$36 million of net tax benefits primarily as a result of the resolution of various tax positions related to AbbVie's operations for years prior to the separation.

Note 3 Supplemental Financial Information

Shares of unvested restricted stock that contain non-forfeitable rights to dividends are treated as participating securities and are included in the computation of earnings per share under the two-class method. Under the two-class method, net earnings are allocated between common shares and participating securities. Earnings from Continuing Operations allocated to common shares for the three months ended March 31, 2014 and 2013 were \$337 million and \$541 million, respectively. Net earnings allocated to common shares for the three months ended March 31, 2014 and 2013 were \$373 million and \$541 million, respectively.

Other, net use of cash in Net cash from operating activities in the Condensed Consolidated Statement of Cash Flows for the first three months of 2014 and 2013 includes the effects of contributions to defined benefit plans of \$312 million and \$208 million, respectively, and to the post-employment medical and dental benefit plans of \$40 million in each quarter, as well as the non-cash impact in the first quarter of 2014 of approximately \$110 million of tax benefits from the resolution of various tax positions pertaining to prior years.

Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

Table of Contents

The components of long-term investments as of March 31, 2014 and December 31, 2013 are as follows:

(dollars in millions)	March 31, 2014		December 31, 2013	
Equity securities	\$	91	\$	93
Other		31		26
Total	\$	122	\$	119

Note 4 Other Comprehensive Income

The components of the changes in other comprehensive income from continuing operations, net of income taxes, are as follows:

(in millions)	Three Months Ended March 31							
	Cumulative Foreign Currency Translation Adjustments		Net Actuarial Losses and Prior Service Costs and Credits		Cumulative Unrealized Gains on Marketable Equity Securities		Cumulative Gains on Derivative Instruments Designated as Cash Flow Hedges	
	2014	2013	2014	2013	2014	2013	2014	2013
Balance at December 31, 2013 and 2012	\$ (718)	\$ (79)	\$ (1,312)	\$ (3,596)	\$ 13	\$ 31	\$ 5	\$ 50
Separation of AbbVie (a)		(307)		1,451				9
Other comprehensive income before reclassifications	62	(391)		(69)	1	7	(1)	(18)
Amounts reclassified from accumulated other comprehensive income (a)			16	28	(1)	(6)	1	(3)
Net current period comprehensive income from continuing operations	62	(391)	16	(41)		1		(21)
Balance at March 31	\$ (656)	\$ (777)	\$ (1,296)	\$ (2,186)	\$ 13	\$ 32	\$ 5	\$ 38

(a) Prior year amounts have been appropriately revised to reflect a reclassification between Cumulative foreign currency translation adjustment and Net actuarial losses and prior service costs and credits.

(b) Reclassified amounts for foreign currency translation are recorded in the Condensed Consolidated Statement of Earnings as Net foreign exchange loss (gain); gains on marketable equity securities as Other (income) expense, net and cash flow hedges as Cost of products sold. Net actuarial losses and prior service cost is included as a component of net periodic benefit plan costs; see Note 11 for additional details.

Note 5 Business Acquisitions

Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

In August 2013, Abbott acquired 100 percent of IDEV Technologies, net of debt, for \$310 million, in cash. The acquisition of IDEV Technologies expands Abbott's endovascular portfolio. The final allocation of the fair value at the date of acquisition resulted in non-deductible acquired in-process research and development of approximately \$170 million which is accounted for as an indefinite-lived intangible asset until regulatory approval or discontinuation; non-deductible definite-lived intangible assets of approximately \$66 million; non-deductible goodwill of approximately \$112 million; and net deferred tax liabilities of \$47 million. Acquired intangible assets consist of developed technology and are being amortized over 11 years.

In August 2013, Abbott acquired 100 percent of OptiMedica for \$260 million, in cash, plus additional payments up to \$150 million to be made upon completion of certain development, regulatory and sales milestones. The acquisition of OptiMedica provides Abbott with an immediate entry point into the laser assisted cataract surgery market. The final allocation of the fair value at the date of acquisition resulted in non-deductible definite-lived intangible assets of approximately \$160 million; non-deductible acquired in-process research and development of approximately \$60 million which is accounted for as an indefinite-lived intangible asset until regulatory approval or discontinuation; non-deductible goodwill of approximately \$130 million; net deferred tax liabilities of \$49 million; and contingent consideration of approximately \$70 million. The fair value of the contingent consideration was determined based on an independent appraisal. Acquired intangible assets consist of developed technology and are being amortized over 18 years.

Table of Contents

Note 6 Goodwill and Intangible Assets

The total amount of goodwill reported was \$9.781 billion at March 31, 2014 and \$9.772 billion at December 31, 2013. Foreign currency translation adjustments increased goodwill by approximately \$35 million, while purchase price allocation adjustments associated with recent acquisitions decreased goodwill by approximately \$26 million. The amount of goodwill related to reportable segments at March 31, 2014 was \$3.0 billion for the Established Pharmaceutical Products segment, \$286 million for the Nutritional Products segment, \$444 million for the Diagnostic Products segment, and \$3.1 billion for the Vascular Products segment. There was no reduction of goodwill relating to impairments.

The gross amount of amortizable intangible assets, primarily product rights and technology was \$12.4 billion as of March 31, 2014 and \$12.2 billion as of December 31, 2013, and accumulated amortization was \$6.9 billion as of March 31, 2014 and \$6.8 billion as of December 31, 2013. Indefinite-lived intangible assets, which relate to in-process research and development acquired in a business combination, was approximately \$114 million at March 31, 2014 and \$266 million at December 31, 2013. The change reflects the movement of an IDEV-related intangible asset, *Supera*, to amortizable assets due to the receipt of regulatory approval in the first quarter of 2014. Abbott's estimated annual amortization expense for intangible assets is approximately \$655 million in 2014, \$615 million in 2015, \$590 million in 2016, \$575 million in 2017 and \$500 million in 2018. Amortizable intangible assets are amortized over 2 to 20 years (weighted average 11 years).

Note 7 Restructuring Plans

In the first quarter of 2014, Abbott management approved plans to streamline various operations in order to reduce costs and improve efficiencies in Abbott's vascular, diagnostics and nutritional businesses. Abbott recorded employee related severance and other charges of approximately \$80 million in 2014. Approximately \$17 million is recognized in Cost of products sold, \$41 million is recognized in Research and development and approximately \$22 million is recognized in Selling, general and administrative expense. The following summarizes the activity for these restructurings:

(in millions)

Restructuring charges recorded in 2014	\$	80
Payments and other adjustments		(4)
Accrued balance at March 31, 2014	\$	76

In 2014 and 2013, Abbott management approved plans to reduce costs and improve efficiencies across various functional areas. In 2013, Abbott management also approved plans to streamline certain manufacturing operations in order to reduce costs and improve efficiencies in Abbott's established pharmaceuticals business. In 2012, Abbott management approved plans to streamline various commercial operations in order to reduce costs and improve efficiencies in Abbott's core diagnostics, established pharmaceuticals and nutritional businesses. Additional charges of approximately \$25 million were recognized in 2014 of which approximately \$2 million is recorded in Cost of products sold and approximately \$23 million as Selling, general and administrative expense. The following summarizes the activity for the first three months of 2014 related to these restructuring actions and the status of the related accrual as of March 31, 2014:

(in millions)

Accrued balance at December 31, 2013	\$	148
Restructuring charges recorded in 2014		25
Payments and other adjustments		(28)

Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

Accrued balance at March 31, 2014 \$ 145

In 2013 and prior years, Abbott management approved plans to realign its vascular manufacturing operations in order to reduce costs. The following summarizes the activity for the first three months of 2014 related to these restructuring actions and the status of the related accrual as of March 31, 2014:

(in millions)

Accrued balance at December 31, 2013	\$	20
Restructuring charges recorded in 2014		
Payments and other adjustments		
Accrued balance at March 31, 2014	\$	20

Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

Table of Contents

In 2011 and 2008, Abbott management approved plans to streamline global manufacturing operations, reduce overall costs, and improve efficiencies in Abbott's core diagnostics business. The following summarizes the activity for the first three months of 2014 related to these restructuring actions and the status of the related accrual as of March 31, 2014:

(in millions)

Accrued balance at December 31, 2013	\$	41
Restructuring charges recorded in 2014		
Payments and other adjustments		(3)
Accrued balance at March 31, 2014	\$	38

Note 8 Incentive Stock Programs

In the first three months of 2014, Abbott granted 3,659,969 stock options, 545,716 restricted stock awards and 5,248,937 restricted stock units under its incentive stock programs. At March 31, 2014, approximately 110 million shares were reserved for future grants. Information regarding the number of options outstanding and exercisable at March 31, 2014 is as follows:

	Outstanding	Exercisable
Number of shares	42,297,580	34,724,241
Weighted average remaining life (years)	4.5	3.5
Weighted average exercise price	\$ 27.34	\$ 25.38
Aggregate intrinsic value (in millions)	\$ 480	\$ 461

The total unrecognized share-based compensation cost at March 31, 2014 amounted to approximately \$264 million which is expected to be recognized over the next three years.

Note 9 Financial Instruments, Derivatives and Fair Value Measures

Certain Abbott foreign subsidiaries enter into foreign currency forward exchange contracts to manage exposures to changes in foreign exchange rates for anticipated intercompany purchases by those subsidiaries whose functional currencies are not the U.S. dollar. These contracts, with notional amounts totaling \$275 million and \$137 million at March 31, 2014 and December 31, 2013, respectively, are designated as cash flow hedges of the variability of the cash flows due to changes in foreign exchange rates and are recorded at fair value. Accumulated gains and losses as of March 31, 2014 will be included in Cost of products sold at the time the products are sold, generally through the next twelve months. The amount of hedge ineffectiveness was not significant in 2014 and 2013.

Abbott enters into foreign currency forward exchange contracts to manage currency exposures for foreign currency denominated third-party trade payables and receivables, and for intercompany loans and trade accounts payable where the receivable or payable is denominated in a currency other than the functional currency of the entity. For intercompany loans, the contracts require Abbott to sell or buy foreign currencies, primarily European currencies and Japanese yen, in exchange for primarily U.S. dollars and other European currencies. For intercompany and trade payables and receivables, the currency exposures are primarily the U.S. dollar, European currencies and Japanese yen. At March 31, 2014 and December 31, 2013, Abbott held \$11.8 billion and \$13.8 billion, respectively, of such foreign currency forward exchange contracts.

Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

Abbott has designated foreign denominated short-term debt as a hedge of the net investment in a foreign subsidiary of approximately \$516 million and approximately \$505 million as of March 31, 2014 and December 31, 2013, respectively. Accordingly, changes in the reported value of this debt due to changes in exchange rates are recorded in Accumulated other comprehensive income (loss), net of tax.

Abbott is a party to interest rate swap contracts totaling approximately \$1.5 billion at March 31, 2014 and \$1.5 billion at December 31, 2013 to manage its exposure to changes in the fair value of fixed-rate debt. These contracts are designated as fair value hedges of the variability of the fair value of fixed-rate debt due to changes in the long-term benchmark interest rates. The effect of the hedge is to change a fixed-rate interest obligation to a variable rate for that portion of the debt. Abbott records the contracts at fair value and adjusts the carrying amount of the fixed-rate debt by an offsetting amount. No hedge ineffectiveness was recorded in income in 2014 or 2013 for these hedges.

Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

Table of Contents

The following table summarizes the amounts and location of certain derivative financial instruments as of March 31, 2014 and December 31, 2013:

(in millions)	March 31, 2014	Fair Value - Assets		March 31, 2014	Fair Value - Liabilities	
		Dec. 31, 2013	Balance Sheet Caption		Dec. 31, 2013	Balance Sheet Caption
Interest rate swaps designated as fair value hedges	\$ 98	\$ 87	Deferred income taxes and other assets	\$	\$	Post-employment obligations, deferred income taxes and other long-term liabilities
Foreign currency forward exchange contracts:						
Hedging instruments	9	14	Prepaid expenses, deferred income taxes, and other receivables			Other accrued liabilities
Others not designated as hedges	40	70	Prepaid expenses, deferred income taxes, and other receivables	56	75	Other accrued liabilities
Debt designated as a hedge of net investment in a foreign subsidiary			n/a	516	505	Short-term borrowings
	\$ 147	\$ 171		\$ 572	\$ 580	

The following table summarizes the activity for foreign currency forward exchange contracts designated as cash flow hedges, debt designated as a hedge of net investment in a foreign subsidiary and the amounts and location of income (expense) and gain (loss) reclassified into income in the first three months of 2014 and 2013 and for certain other derivative financial instruments. The amount of hedge ineffectiveness was not significant in 2014 and 2013 for these hedges.

(in millions)	Gain (loss) Recognized in Other Comprehensive Income (loss)		Income (expense) and Gain (loss) Reclassified into Income		Income Statement Caption
	2014	2013	2014	2013	
Foreign currency forward exchange contracts designated as cash flow hedges	\$ 2	\$ 17	\$ 3	\$ 3	Cost of products sold
Debt designated as a hedge of net investment in a foreign subsidiary	(11)	50			n/a
Interest rate swaps designated as fair value hedges	n/a	n/a	11	10	Interest expense
	n/a	n/a	(13)	90	

Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

Foreign currency forward exchange contracts not designated as a hedge	Net foreign exchange loss (gain)
---	----------------------------------

The interest rate swaps are designated as fair value hedges of the variability of the fair value of fixed-rate debt due to changes in the long-term benchmark interest rates. The hedged debt is marked to market, offsetting the effect of marking the interest rate swaps to market.

The carrying values and fair values of certain financial instruments as of March 31, 2014 and December 31, 2013 are shown in the following table. The carrying values of all other financial instruments approximate their estimated fair values. The counterparties to financial instruments consist of select major international financial institutions. Abbott does not expect any losses from nonperformance by these counterparties.

Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

Table of Contents

(in millions)	March 31, 2014		December 31, 2013	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Long-term Investment Securities:				
Equity securities	\$ 91	\$ 91	\$ 93	\$ 93
Other	31	26	26	24
Total Long-term Debt	(3,395)	(3,918)	(3,397)	(3,930)
Foreign Currency Forward Exchange Contracts:				
Receivable position	49	49	84	84
(Payable) position	(56)	(56)	(75)	(75)
Interest Rate Hedge Contracts:				
Receivable position	98	98	87	87

The fair value of the debt was determined based on significant other observable inputs, including current interest rates.

The following table summarizes the bases used to measure certain assets and liabilities at fair value on a recurring basis in the balance sheet:

(in millions)	Outstanding Balances	Basis of Fair Value Measurement		
		Quoted Prices in Active Markets	Significant Other Observable Inputs	Significant Unobservable Inputs
March 31, 2014:				
Equity securities	\$ 24	\$ 24	\$	\$
Interest rate swap derivative financial instruments	98		98	
Foreign currency forward exchange contracts	49		49	
Total Assets	\$ 171	\$ 24	\$ 147	\$
December 31, 2013:				
Equity securities	\$ 26	\$ 26	\$	\$
Interest rate swap derivative financial instruments	87		87	
Foreign currency forward exchange contracts	84		84	
Total Assets	\$ 197	\$ 26	\$ 171	\$
Liabilities:				
Fair value of hedged long-term debt	\$ 1,624	\$	\$ 1,624	\$
Foreign currency forward exchange contracts	56		56	
Contingent consideration related to business combinations	72			72
Total Liabilities	\$ 1,752	\$	\$ 1,680	\$ 72

The fair value of the debt was determined based on the face value of the debt adjusted for the fair value of the interest rate swaps, which is based on a discounted cash flow analysis. The fair value of foreign currency forward exchange contracts is determined using a market approach, which

Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

utilizes values for comparable derivative instruments. The fair value of the contingent consideration was determined based on an independent appraisal adjusted for the time value of money, exchange, payments and other changes in fair value. The change in contingent consideration from the previous year end primarily reflects the payment of contingent consideration in the first quarter of 2014.

Table of Contents

Note 10 Litigation and Environmental Matters

Abbott has been identified as a potentially responsible party for investigation and cleanup costs at a number of locations in the United States and Puerto Rico under federal and state remediation laws and is investigating potential contamination at a number of company-owned locations. Abbott has recorded an estimated cleanup cost for each site for which management believes Abbott has a probable loss exposure. No individual site cleanup exposure is expected to exceed \$4 million, and the aggregate cleanup exposure is not expected to exceed \$15 million.

Abbott is involved in various claims and legal proceedings, and Abbott estimates the range of possible loss for its legal proceedings and environmental exposures to be from approximately \$70 million to \$90 million. The recorded accrual balance at March 31, 2014 for these proceedings and exposures was approximately \$80 million. This accrual represents management's best estimate of probable loss, as defined by FASB ASC No. 450, Contingencies. Within the next year, legal proceedings may occur that may result in a change in the estimated loss accrued by Abbott. While it is not feasible to predict the outcome of all such proceedings and exposures with certainty, management believes that their ultimate disposition should not have a material adverse effect on Abbott's financial position, cash flows, or results of operations.

Note 11 Post-Employment Benefits

Retirement plans consist of defined benefit, defined contribution, and medical and dental plans. Net cost recognized in continuing operations for the three months ended March 31 for Abbott's major defined benefit plans and post-employment medical and dental benefit plans is as follows:

(in millions)	Defined Benefit Plans		Medical and Dental Plans	
	March 31, 2014	March 31, 2013	March 31, 2014	March 31, 2013
Service cost - benefits earned during the period	\$ 66	\$ 76	\$ 9	\$ 12
Interest cost on projected benefit obligations	77	66	16	15
Expected return on plans' assets	(113)	(93)	(10)	(9)
Net amortization of:				
Actuarial loss, net	25	40	5	8
Prior service cost (credit)	1	1	(9)	(8)
Net cost	\$ 56	\$ 90	\$ 11	\$ 18

Abbott funds its domestic defined benefit plans according to IRS funding limitations. International pension plans are funded according to similar regulations. In the first quarters of 2014 and 2013, \$312 million and \$208 million, respectively, were contributed to defined benefit plans and \$40 million was contributed to the post-employment medical and dental benefit plans in each quarter.

Note 12 Taxes on Earnings

Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

Taxes on earnings from continuing operations reflect the estimated annual effective rates and include charges for interest and penalties. In the first quarter of 2014, taxes on earnings from continuing operations reflect the recognition of \$71 million of tax benefits as the result of the favorable resolution of various tax positions pertaining to prior years. Earnings from Discontinued Operations, net of tax, in the first quarter of 2014 reflects the recognition of \$36 million of net tax benefits primarily as a result of the resolution of various tax positions related to AbbVie's operations for years prior to the separation. The conclusion of these tax matters decreased the gross amount of unrecognized tax benefits by approximately \$102 million. As a result of the American Taxpayer Relief Act of 2012 signed into law in January 2013, Abbott recorded a tax benefit to taxes on continuing operations of approximately \$103 million in the first quarter of 2013 for the retroactive extension of the research tax credit and the look-through rules of section 954(c)(6) of the Internal Revenue Code to the beginning of 2012.

Tax authorities in various jurisdictions regularly review Abbott's income tax filings. Abbott believes that it is reasonably possible that the recorded amount of gross unrecognized tax benefits may decrease by up to \$350 million, including cash adjustments, within the next twelve months as a result of concluding various domestic and international tax matters.

Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

Table of Contents

Note 13 Segment Information

Abbott's principal business is the discovery, development, manufacture and sale of a broad line of health care products. Abbott's products are generally sold directly to retailers, wholesalers, hospitals, health care facilities, laboratories, physicians' offices and government agencies throughout the world. Abbott's reportable segments are as follows:

Established Pharmaceutical Products International sales of a broad line of branded generic pharmaceutical products.

Nutritional Products Worldwide sales of a broad line of adult and pediatric nutritional products.

Diagnostic Products Worldwide sales of diagnostic systems and tests for blood banks, hospitals, commercial laboratories and alternate-care testing sites. For segment reporting purposes, the Core Laboratories Diagnostics, Molecular Diagnostics, Point of Care and Ibis diagnostic divisions are aggregated and reported as the Diagnostic Products segment.

Vascular Products Worldwide sales of coronary, endovascular, structural heart, vessel closure and other medical device products.

Non-reportable segments include the Diabetes Care and Medical Optics segments.

Abbott's underlying accounting records are maintained on a legal entity basis for government and public reporting requirements. Segment disclosures are on a performance basis consistent with internal management reporting. Intersegment transfers of inventory are recorded at standard cost and are not a measure of segment operating earnings. The cost of some corporate functions and the cost of certain employee benefits are charged to segments at predetermined rates that approximate cost. Remaining costs, if any, are not allocated to segments. In addition, intangible asset amortization is not allocated to operating segments, and intangible assets and goodwill are not included in the measure of each segment's assets. The following segment information has been prepared in accordance with the internal accounting policies of Abbott, as described above, and are not presented in accordance with generally accepted accounting principles applied to the consolidated financial statements.

(in millions)	Three Months Ended March 31					
	Net Sales to External Customers			Operating Earnings		
	2014	2013	2014	2013	2014	2013
Established Pharmaceutical Products	\$ 1,151	\$ 1,233	\$ 230	\$ 286		
Nutritional Products	1,631	1,699	283	342		
Diagnostic Products	1,117	1,088	222	260		
Vascular Products	738	742	221	188		
Total Reportable Segments	4,637	4,762	956	1,076		
Other	607	616				

Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

Net Sales	\$	5,244	\$	5,378
Corporate functions and benefit plans costs			(58)	(120)
Non-reportable segments			63	88
Net interest expense			(23)	(26)
Share-based compensation (a)			(119)	(126)
Amortization of intangible assets			(174)	(199)
Other, net (b)			(222)	(139)
Earnings from continuing operations before taxes	\$	423	\$	554

(a) Approximately 40 to 45 percent of the annual net cost of share-based awards will typically be recognized in the first quarter due to the timing of the granting of share-based awards.

(b) The increase from 2013 to 2014 primarily reflects higher charges for cost reduction initiatives.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Financial Review - Results of Operations

The following table details sales by reportable segment for the three months ended March 31. Percent changes are versus the prior year and are based on unrounded numbers.

	Net Sales to External Customers				
	March 31, 2014	March 31, 2013	Total Change	Impact of Foreign Exchange	Total Change Excl. Foreign Exchange
Established Pharmaceutical Products	\$ 1,151	\$ 1,233	(6.6)%	(5.9)%	(0.7)%
Nutritional Products	1,631	1,699	(4.0)	(2.3)	(1.7)
Diagnostic Products	1,117	1,088	2.6	(2.5)	5.1
Vascular Products	738	742	(0.5)	(1.5)	1.0
Total Reportable Segments	4,637	4,762	(2.6)	(3.1)	0.5
Other	607	616	(1.5)	(1.6)	0.1
Net Sales	\$ 5,244	\$ 5,378	(2.5)	(3.0)	0.5
Total U.S.	\$ 1,489	\$ 1,534	(2.9)		(2.9)
Total International	\$ 3,755	\$ 3,844	(2.3)	(4.1)	1.8

The net sales decline in 2014 reflects the impact of unfavorable changes in foreign currency exchange rates, partially offset by unit volume growth. The relatively stronger U.S. dollar decreased total international sales by 4.1 percent and total sales by 3.0 percent. Excluding the unfavorable impact of foreign exchange, total net sales increased 0.5 percent in 2014 due primarily to higher sales of diagnostic products, partially offset by lower nutritional product revenue. The strength in diagnostic products reflected continued momentum in core laboratory diagnostics, as well as higher international molecular sales particularly in emerging markets. The first quarter 2014 decline in nutritional products was due primarily to lower sales of pediatric products resulting from the impact of a previously reported supplier recall in August 2013 in certain international markets.

A comparison of significant product group sales for the three months ended March 31 is as follows. Percent changes are versus the prior year and are based on unrounded numbers.

(in millions)	March 31, 2014	March 31, 2013	Total Change	Impact of Foreign Exchange	Total Change Excl. Foreign Exchange
Established Pharmaceutical Products sales					
Key Emerging Markets	\$ 531	\$ 585	(9.2)%	(9.4)%	0.2%
Developed and Other Markets	620	648	(4.2)	(2.7)	(1.5)
Nutritionals					

Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

U.S. Pediatric Nutritionals	365	385	(5.2)		(5.2)
International Pediatric Nutritionals	544	608	(10.5)	(2.8)	(7.7)
U.S. Adult Nutritionals	324	333	(2.7)		(2.7)
International Adult Nutritionals	398	373	6.6	(5.8)	12.4
Diagnostics					
Immunochemistry	856	832	2.9	(2.8)	5.7
Vascular Products (1)					
Drug Eluting Stents (DES) and Bioresorbable Vascular Scaffold (BVS) products	368	387	(4.9)	(2.5)	(2.4)
Other Coronary products	145	146	(1.0)	(0.8)	(0.2)
Endovascular	121	115	6.0	(0.2)	6.2

(1) Other Coronary Products include primarily guidewires and balloon catheters. Endovascular includes vessel closure, carotid stents and other peripheral products.

Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

Table of Contents

The Established Pharmaceutical Products segment is focused on 14 key emerging markets including India, Russia, China and Brazil. Sales in these key emerging markets declined 9% as strong growth in Brazil and India was offset by the negative impact of currencies as well as the timing of supply of key products in the segment's women's health portfolio, primarily due to a planned plant shutdown to expand capacity. Sales in Developed and Other Markets in the Established Pharmaceutical Products segment decreased in 2014 due primarily to the unfavorable effects of exchange in 2014 and to price declines from the continued effect of European austerity measures. International Pediatric Nutritional sales decreased due primarily to the impact of a supplier recall in certain international markets in the third quarter of 2013, which created significant disruption in these markets that unfavorably impacted sales volumes. The decline in U.S. Pediatric Nutritional revenue primarily reflects lower infant formula sales. In the Vascular Products segment, sales of DES products declined primarily as a result of sales declines in the U.S. due in part to the launch of a competitive drug-eluting stent. International sales of vascular products increased in the quarter driven by a number of new products and the increased penetration of Abbott's bioresorbable vascular scaffold.

The gross profit margin percentage was 49.6 percent for the first quarter 2014 compared to 51.1 percent for the first quarter 2013. The decline primarily reflects the impact of unfavorable foreign exchange in the diagnostics, established pharmaceuticals and nutritional businesses.

Research and development expenses increased by \$41 million, or 11.6 percent, in the first quarter 2014 due primarily to the impact of restructuring actions recorded in the quarter. For the three months ended March 31, 2014, research and development expenditures totaled \$77 million for the Vascular Products segment, \$98 million for the Diagnostic Products segment, \$50 million for the Established Pharmaceutical Products segment and \$48 million for the Nutritional Products segment.

Selling, general and administrative expenses for the first quarter 2014 decreased 1.3 percent due in part to timing between quarters, as well as a continuing focus on cost savings initiatives.

Restructuring Plans

The results for the first three months of 2014 reflect charges recognized for actions associated with the company's plans to streamline various operations in order to reduce costs and improve efficiencies in Abbott's vascular, diagnostics, and nutritional businesses. Abbott recorded employee related severance and other charges of approximately \$80 million in 2014 related to these initiatives. Approximately \$17 million is recognized in Cost of products sold, \$41 million is recognized in Research and development and approximately \$22 million is recognized in Selling, general and administrative expense. In the first quarter of 2014, Abbott management also approved plans to streamline various operations in order to reduce costs and improve efficiencies across various functional areas and recognized a charge of \$25 million. Approximately \$2 million is recorded in Cost of products sold and approximately \$23 million as Selling, general and administrative expense. See Note 7 to the financial statements, Restructuring Plans, for additional information regarding these charges.

Interest Expense (Income), net

Interest expense (income), net decreased \$3 million in the first quarter 2014 compared to 2013 due to lower interest rates in the first quarter of 2014, which reduced total interest expense. Interest income was relatively unchanged from the prior year.

Taxes on Earnings from Continuing Operations

Taxes on earnings from continuing operations reflect the estimated annual effective rates and include charges for interest and penalties. In the first quarter of 2014, taxes on earnings from continuing operations reflect the recognition of \$71 million of tax benefits as the result of the favorable resolution of various tax positions pertaining to prior years. Earnings from discontinued operations, net of tax, in the first quarter of 2014 reflects the recognition of \$36 million of net tax benefits primarily as a result of the favorable resolution of various tax positions related to AbbVie's operations for years prior to the separation. The conclusion of these tax matters decreased the gross amount of unrecognized tax benefits by approximately \$102 million. As a result of the American Taxpayer Relief Act of 2012 signed into law in January 2013, Abbott recorded a tax benefit to taxes on continuing operations of approximately \$103 million in the first quarter of 2013 for the retroactive extension of the research tax credit and the look-through rules of section 954(c)(6) of the Internal Revenue Code to the beginning of 2012. Excluding these discrete items, the change in the effective rate from 2013 to 2014 primarily reflects the impact of the repatriation of 2014 earnings generated outside the U.S.

Tax authorities in various jurisdictions regularly review Abbott's income tax filings. Abbott believes that it is reasonably possible that the recorded amount of gross unrecognized tax benefits may decrease by up to \$350 million, including cash adjustments, within the next twelve months as a result of concluding various domestic and international tax matters.

Table of Contents

Separation of AbbVie Inc.

On January 1, 2013, Abbott completed the separation of AbbVie Inc. (AbbVie), which was formed to hold Abbott's research-based proprietary pharmaceuticals business. Abbott and AbbVie entered into transitional services agreements prior to the separation pursuant to which Abbott and AbbVie are providing to each other, on an interim transitional basis, various services. Transition services may be provided for up to 24 months with an option for a one-year extension by the recipient. Services being provided by Abbott include certain information technology and back office support. Billings by Abbott under these transitional services agreements are recorded as a reduction of the costs to provide the respective service in the applicable expense category in the Condensed Consolidated Statement of Earnings. This transitional support will enable AbbVie to establish its stand-alone processes for various activities that were previously provided by Abbott and does not constitute significant continuing support of AbbVie's operations.

For a small portion of AbbVie's operations, the legal transfer of AbbVie's assets (net of liabilities) did not occur with the separation of AbbVie on January 1, 2013 due to the time required to transfer marketing authorizations and other regulatory requirements in each of these countries. Under the terms of the separation agreement with Abbott, AbbVie is subject to the risks and entitled to the benefits generated by these operations and assets. The majority of these operations were transferred to AbbVie in 2013 with the remainder expected to be transferred in 2014. These assets and liabilities have been presented as held for disposition in the Condensed Consolidated Balance Sheet. At March 31, 2014, the assets and liabilities held for disposition consist of trade accounts receivable of \$127 million, inventories of \$102 million, equipment of \$17 million, other assets of \$56 million, trade accounts payable and accrued liabilities of \$152 million and other liabilities of \$18 million. Abbott's obligation to transfer the net assets held for disposition to AbbVie of \$132 million is included in Other accrued liabilities.

Abbott has retained all liabilities for all U.S. federal and foreign income taxes on income prior to the separation, as well as certain non-income taxes attributable to AbbVie's business. AbbVie generally will be liable for all other taxes attributable to its business.

Earnings from discontinued operations in the first quarter of 2014 reflect the recognition of \$36 million of net tax benefits primarily as a result of the resolution of various tax positions related to AbbVie's operations for years prior to the separation.

Liquidity and Capital Resources March 31, 2014 Compared with December 31, 2013

The reduction of cash and cash equivalents from \$3.5 billion at December 31, 2013 to \$2.1 billion at March 31, 2014 reflects share repurchases and dividends paid in the quarter.

Net cash from operating activities for the first three months of 2014 totaled \$336 million. Other, net in Net cash from operating activities for the first three months of 2014 of \$(548) million reflects contributions to defined benefit plans of \$312 million in 2014, as well as the non-cash impact in the first quarter of approximately \$110 million of tax benefits from the resolution of various tax positions pertaining to prior years. The \$(489) million of Other, net activity in Net cash from operating activities for 2013 reflects approximately \$233 million of one-time net cash outflows related to the separation of AbbVie, the first quarter non-cash impact of the \$103 million tax benefit for the retroactive impact of U.S. tax law changes due to the timing of tax filings and \$208 million of contributions to defined benefit plans. Abbott expects annual cash flow from operating activities to continue to exceed Abbott's capital expenditures and cash dividends on an annual basis.

Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

Working capital was \$7.7 billion at March 31, 2014 and \$9.7 billion at December 31, 2013. The \$2.0 billion decrease in working capital in 2014 is due primarily to the use of cash to repurchase shares and pay a higher dividend.

A majority of Abbott's trade receivables in Italy, Spain, Portugal, and Greece are with governmental health systems. Governmental receivables in these four countries accounted for approximately 1% of Abbott's total assets and 9% of total net trade receivables as of March 31, 2014 as compared to 1% of total assets and 12% of total net receivables as of December 31, 2013. With the exception of Greece, Abbott historically has collected almost all of the outstanding receivables in these countries. Abbott closely monitors economic conditions and budgetary and other fiscal developments in these countries. Abbott regularly communicates with its customers regarding the status of receivable balances, including their payment plans and obtains positive confirmation of the validity of the receivables. Abbott also monitors the potential for and periodically has utilized factoring arrangements to mitigate risk although such arrangements were not material in the first three months of 2014.

At March 31, 2014 Abbott's long-term debt rating was A+ by Standard & Poor's Corporation and A1 by Moody's Investors Service. Abbott has readily available financial resources, including unused lines of credit of \$5.0 billion that support commercial paper borrowing arrangements which expire in 2017.

Table of Contents

In June 2013, the board of directors authorized the purchase of up to \$3.0 billion of Abbott's common shares from time to time and 54.6 million shares at a cost of \$2.1 billion were purchased in the first three months of 2014. Approximately \$512 million remains available for repurchase under this authorization. In the first three months of 2013, 25.0 million shares were purchased at a cost of \$850 million under a previous share repurchase authorization.

In the first quarter of 2014, Abbott declared a dividend of \$0.22 per share on its common shares, which represents a 57% increase over the \$0.14 per share dividend declared in the first quarter of 2013.

Legislative Issues

Abbott's primary markets are highly competitive and subject to substantial government regulations throughout the world. Abbott expects debate to continue over the availability, method of delivery, and payment for health care products and services. It is not possible to predict the extent to which Abbott or the health care industry in general might be adversely affected by these factors in the future. A more complete discussion of these factors is contained in Item 1, Business, and Item 1A, Risk Factors, in the 2013 Annual Report on Form 10-K.

Private Securities Litigation Reform Act of 1995 – A Caution Concerning Forward-Looking Statements

Under the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, Abbott cautions investors that any forward-looking statements or projections made by Abbott, including those made in this document, are subject to risks and uncertainties that may cause actual results to differ materially from those projected. Economic, competitive, governmental, technological and other factors that may affect Abbott's operations are discussed in Item 1A, Risk Factors, in the 2013 Annual Report on Form 10-K.

PART I. FINANCIAL INFORMATION

Item 4. Controls and Procedures

(a) *Evaluation of disclosure controls and procedures.* The Chief Executive Officer, Miles D. White, and Chief Financial Officer, Thomas C. Freyman, evaluated the effectiveness of Abbott Laboratories' disclosure controls and procedures as of the end of the period covered by this report, and concluded that Abbott Laboratories' disclosure controls and procedures were effective to ensure that information Abbott is required to disclose in the reports that it files or submits with the Securities and Exchange Commission (the Commission) under the Securities Exchange Act of 1934 (the Exchange Act) is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms, and to ensure that information required to be disclosed by Abbott in the reports that it files or submits under the Exchange Act is accumulated and communicated to Abbott's management, including its principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

(b) *Changes in internal control over financial reporting.* During the quarter ended March 31, 2014, there were no changes in Abbott's internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that have materially affected, or are reasonably likely to materially affect, Abbott's internal control over financial reporting.

Table of Contents

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Abbott is involved in various claims, legal proceedings and investigations, including (as of March 31, 2014, except where noted below) those described below. While it is not feasible to predict the outcome of such pending claims, proceedings and investigations with certainty, management is of the opinion that their ultimate resolution should not have a material adverse effect on Abbott's financial position, cash flows, or results of operations.

In its 2013 Annual Report on Form 10-K, Abbott reported that Medinol Limited (Medinol) sued Abbott in the Netherlands asserting that certain of Abbott's coronary bare metal and all of its metal-based drug eluting stent products infringe certain of Medinol's European stent design patents, and that in January 2013, Medinol appealed the lower courts' findings of noninfringement to the Dutch Supreme Court. In April 2014, the Dutch Supreme Court rejected Medinol's appeal, resulting in a final determination that Abbott's stents do not infringe Medinol's patents.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds*(c) Issuer Purchases of Equity Securities*

Period	(a) Total Number of Shares (or Units) Purchased	(b) Average Price Paid per Share (or Unit)	(c) Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs
January 1, 2014 - January 31, 2014	6,629,302(1)	\$ 36.462	6,500,000	\$ 2,374,933,131(2)
February 1, 2014 - February 28, 2014	25,746,238(1)	\$ 38.211	25,700,000	\$ 1,392,882,137(2)
March 1, 2014 - March 31, 2014	22,407,140(1)	\$ 39.415	22,360,000	\$ 511,537,561(2)
Total	54,782,680(1)	\$ 38.492	54,560,000	\$ 511,537,561(2)

(1) These shares include:

(i) the shares deemed surrendered to Abbott to pay the exercise price in connection with the exercise of employee stock options 129,302 in January, 46,238 in February, and 16,640 in March; and

Edgar Filing: ABBOTT LABORATORIES - Form 10-Q

(ii) the shares purchased on the open market for the benefit of participants in the Abbott Laboratories, Limited Employee Stock Purchase Plan - 0 in January, 0 in February, and 30,500 in March.

These shares do not include the shares surrendered to Abbott to satisfy tax withholding obligations in connection with the vesting of restricted stock or restricted stock units.

(2) On June 14, 2013, Abbott announced that its board of directors approved the purchase of up to \$3 billion of its common shares, from time to time.
