LUCILLE FARMS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. The Consolidated Balance Sheet as of June 30, 2004 and the Consolidated Statements of Income and Cash Flows for the three month periods ended June 30, 2004 and 2003 have been prepared by the Company without audit. In the opinion of management, the accompanying consolidated financial statements contain all adjustments (consisting only of normal recurring adjustments) necessary to present fairly the financial position of Lucille Farms, Inc. and subsidiaries as of June 30, 2004, the results of its operations and its cash flows for the three months ended June 30, 2004 and 2003.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). Although the Company believes that the disclosures are adequate to make the information presented not misleading, it is suggested that these financial statements be read in conjunction with the year-end financial statements and notes thereto for the fiscal year ended March 31, 2004 included in the Company's Annual Report on Form 10-K as filed with the SEC.

The accounting policies followed by the Company are set forth in the notes to the Company's consolidated financial statements as set forth in its Annual Report on Form 10-K as filed with the SEC.

Recent Accounting Pronouncements

The FASB has issued FIN 46 and related revisions, "Consolidation of Variable Interest Entities." FIN 46 clarifies the application of Accounting Research Bulletin No. 51, "Consolidated Financial Statements," to certain entities in which equity investors do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activity without additional subordinated financial support from other parties. FIN 46 should be applied no later than the end of the first reporting period that ends after March 15, 2004. FIN 46 does not have a material effect on its financial position, results of operations or cash flows of the Company.

Stock Based Compensation

Edgar Filing: LUCILLE FARMS INC - Form 10-Q

The Company has elected to follow Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" and related interpretations in accounting for stock options and rewards. Accordingly, no compensation costs for stock options are included in operating results since all awards were made at exercise prices at or above their fair value on the dates of grants.

In December 2002, the FASB issued SFAS No. 148, "Accounting for Stock-Based Compensation- Transition and Disclosure", amending FASB Statement No. 123, "Accounting for Stock Based Compensation." This statement amends SFAS No. 123 to provide alternative methods of transition for an entity that voluntarily changes to the fair value based method of accounting for stock-based employee compensation. It also amends the disclosure provisions of SFAS No. 123 to require prominent disclosure about the effects on operating results of an entity's accounting policy decisions with respect to stock-based employee compensation. SFAS No. 148 also amends APB Opinion No. 128, "Interim Financial Reporting" to require disclosure about those effects in interim financial information.

In April 2004, ten-year options to purchase 5,000 shares of the Company's common stock pursuant to the 2002 Stock Option Plan were granted to six directors of the Company at an exercise price of \$3.00 per share. Such options vest immediately. Fair value was determined on the date of grant using the Black-Scholes option pricing model using an expected dividend yield of 0; a risk free interest rate of 4.40%; expected stock volatility of 116%; and an expected option life of 10 years.

6

The following table illustrates the effect on results of operations if the Company had applied the fair value recognition provisions of SFAS No. 123 for the three-month periods ended June 30, 2004 and 2003 (unaudited).

	3-Mos. ended	
	2004	2003
	=====	=====

	=====	=====

2. Inventories are summarized as follows:

Edgar Filing: LUCILLE FARMS INC - Form 10-Q

	June 30, 2004	March 31, 2004
	-----	-----
Finished Goods	\$ 2,291,000	\$ 2,164,000
Raw Materials	649,000	691,000
Supplies and Packaging	413,000	379,000
	-----	-----
	\$ 3,353,000	\$ 3,234,000

3. The Company has a \$ 5,000,000 revolving credit facility at June 30, 2004. The loan matures on November 30, 2004 at which time the outstanding principal and interest is due. The Company is seeking alternative financing to replace this loan. Should the Company not be able to secure alternative financing by the extended due date, it will request an additional extension of the loan's due date. However, there is no assurance that such financing can be secured or the extension granted. Failure to secure such financing can have a significant negative effect on the Company's ability to fund operational requirements.
4. **Earnings per Share**
 Basic earnings per share are computed by dividing net earnings available to common shareholders by the weighted average common shares outstanding for the period. Diluted earnings per share is computed by dividing net earnings available to common shareholders by the weighted average common shares outstanding adjusted for the dilutive effect of options granted under the Company's stock option plans, outstanding warrants, and convertible preferred stock.

7

At June 30, 2004 and 2003, 1,382,666 potential common shares, issuable upon conversion of preferred stock and exercise of warrants are excluded from the determination of diluted earnings per share as the related contingencies have not been met. The dilutive effect of 330,000 and 300,000 potential common shares at June 30, 2004 and 2003, respectively, are outlined in the following schedule:

	Three Months Ended June 30, 2004	Three Months Ended June 30, 2004

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Results of Operations

General

The Company's low moisture mozzarella cheese, which accounts for more than a majority of the Company's sales, is a commodity item. The Company prices this product competitively with others in the industry, which pricing is based on the Chicago Mercantile Exchange Block Cheddar Market ("CME Block Market). The price the Company pays for fluid milk and condensed skim milk solids, a significant component of cost of goods sold, is not determined until the month after its cheese has been sold. The price of milk is based upon the raw milk components and a weighted average of a number of market components. While the Company generally can anticipate a change in the price of milk because of changes in the CME Block Market, it cannot anticipate the full extent thereof. Therefore, if the CME Block Market price to which our selling price is referenced changes at a different rate than the price of milk, our margins are affected accordingly. By virtue of the pricing structure in the industry, the Company cannot readily pass along to its customers the changes in the cost of milk. As a consequence thereof, the Company's gross profit margin for its products is subject to fluctuation, which fluctuation, however slight, can have a significant effect on profitability.

The Company is unable to predict any future increase or decrease in prices in the CME Block Market as such market is subject to fluctuation based on factors and commodity markets outside of the control of the Company. Although the cost of fluid milk does tend to move correspondingly with the CME Block Market, the extent of such movement and the timing thereof is not predictable. As a result of these factors, the Company is unable to predict pricing trends.

Three months ended June 30, 2004 compared to the three months ended June 30, 2003

Sales for the three months ended June 30, 2004 increased to \$12,964,000 from \$8,510,000 for the comparable period in 2003, an increase of \$4,454,000 or (52.3%). Approximately \$4,310,000 or (95.9%) was due to an increase in the average selling price per pound of cheese comparing \$2.02 this year versus \$1.37 last year. The CME Block Market during the period had reached a high of \$2.20, a

Edgar Filing: LUCILLE FARMS INC - Form 10-Q

level not seen in recent years. Like the cheese market, the whey market also experienced a rising market reaching \$.21 per pound from \$.16 per pound at the beginning of the quarter. Sales for whey amounted to \$521,000 in 2004 compared to \$337,000 for the same period last year, an increase of \$184,000 (or 54.6%).

Cost of sales and gross profit margin for the three month period ended June 30, 2004 were \$11,774,000 or (90.8% of sales) and, \$1,190,000 or (9.2% of sales), respectively, compared to a cost of sales and gross profit margin of \$7,892,000 or (92.7% of sales) and \$618,000 or (7.3% of sales) respectively for the comparable period in 2003. The decrease in the cost of sales and corresponding increase in gross profit margin for 2004 as a percentage of sales were the result of a larger increase in the price of cheese compared to the increase in the price of milk. Cost of sales was also affected by higher labor costs, rising natural gas costs, insurance expense, repairs and maintenance expenses, waste removal costs and equipment parts and supplies.

Selling, general, and administrative expenses for the three-month period ended June 30, 2004 amounted to \$471,000 (or 3.6% of sales) compared to \$411,000 (or 4.8% of sales) for the comparable period in 2003. Higher commission costs, advertising expenses, legal fees, and labor costs accounted for most of the increase in expenses.

Interest expense for the period ended June 30, 2004 amounted to \$243,000 compared to \$185,000 for the same period last year, an increase of \$58,000. Higher balances and a higher interest rate on our revolver loan along with interest expense on a long term payable were partially offset by the repayment of \$500,000 on our term loan with Co Bank to account for the increase year to year.

9

The provision for income tax for the period ended June 30, 2004 reflects a minimum state tax, with the tax benefits of operating losses being offset by the effect of changes in the valuation allowance. Such amounts are re-evaluated each period based on the results of operations.

The company's net income was \$475,000 for June 30, 2004 compared to net income of \$22,000 for the comparable period in 2003, an increase of \$453,000. The primary factors contributing to these changes are discussed above.

Liquidity and Capital Resources

The Company had available a \$5,000,000 revolving credit facility at June 30, 2004, which will mature on November 30, 2004 (with St. Albans Cooperative Creamery, Inc. participating therein to the extent of \$4,000,000) at which time the outstanding principal balance is due. The rate of interest on amounts borrowed against the revolving credit facility is based upon the prime rate plus 3% (7.25% at June 30, 2004). Advances under this facility are limited to 50% of inventory (with a cap on inventory borrowing of \$1,000,000) and 80% of receivables, as defined in the agreement. The commitment contains various restrictive covenants including requiring the Company to generate an increase in its dollar amount of net worth annually. The Company is seeking alternative financing to replace this facility. Should the Company not be able to secure alternative financing by the due date, it will request an extension until such financing is secured. However, there is no assurance that such financing can be secured or that the extension will be granted. Failure to secure such financing or extension can have a significant negative effect on the Company's ability to fund operational requirements.

At June 30, 2004, the Company had negative working capital of (\$350,000) as

Edgar Filing: LUCILLE FARMS INC - Form 10-Q

compared to negative working capital of (\$383,000) at March 31, 2004. The Company's revolving bank line of credit is available for the Company's working capital requirements.

At June 30, 2004, \$4,352,000 was outstanding under the revolving credit line and \$370,000 was available for additional borrowing.

On February 8, 1999, a \$4,950,000 bank loan agreement was signed. The loan is collateralized by the Company's plant and equipment and guaranteed by the USDA. Provisions of the loan are as follows:

A \$3,960,000 commercial term note with interest fixed at 9.75 percent having an amortization period of 20 years with maturity in February, 2019.

A \$990,000 commercial term note with interest fixed at 10.75 percent having an amortization period of 20 years with maturity in February 2019.

On May 23, 2001, the Company entered into a new term loan with Co Bank for \$2,000,000 with interest payable at 1% above the rate of interest established by the bank as its national variable rate. \$1,000,000 of such loan has been repaid and the balance is repayable in two consecutive annual installments of \$500,000 with the next installment due on May 1, 2005. The loan is collateralized by the Company's plant and equipment and was used for working capital.

10

On May 16, 2002, the Company entered into an agreement with St. Albans Cooperative Creamery, Inc. ("St. Albans"), the Company's primary supplier of raw materials, pursuant to which St. Albans (i) converted \$1,000,000 of accounts payable owed by the Company to St. Albans into 333,333 shares of common stock, (ii) converted \$3,500,000 of accounts payable owed by the Company to St. Albans into (A) preferred stock convertible into 583,333 shares of common stock, which preferred stock (1) automatically converts into such number of shares of common stock if the common stock is \$8.00 or higher for 30 consecutive trading days, and (2) may be redeemed by the Company for \$3,500,000, and (B) a 10-year warrant to purchase 583,333 shares of common stock (subject to adjustment under certain circumstances to a maximum of 1,416,667 shares of common stock) at \$.01 per share, which warrant (1) may not be exercised for a period of three-years, (2) terminates if, during such three-year period, the Company's common stock is \$8.00 or higher for 30 consecutive trading days, and, (3) in the event the Company's common stock is not \$8.00 or higher for 30 consecutive trading days during such three-year period, may only be exercised on the same basis percentage wise as the preferred shares are converted, (iii) converted an additional \$1,000,000 of accounts payable owed by the Company to St. Albans into a convertible promissory note due on April 14, 2005, which note is convertible into common stock at \$6.00 per share at any time by St. Albans and, at the option of the Company, automatically shall be converted into common stock at \$6.00 per share if the common stock is \$8.00 or higher for a period of 30 consecutive trading days, and (iv) provided the Company with a pricing structure for milk and milk by-products, for a minimum of one-year and a maximum of four-years (subject to renegotiation at the expiration of the applicable period), designed to produce profitability for the Company. The applicable period for the milk and milk by-products pricing structure expired in May 2003. Thereafter, St. Albans maintained the pricing structure through June 30, 2003. Commencing July 2, 2003, and again as of September 1, 2003, the pricing structure was modified to progressively decrease the benefits accruing to the Company in light of the profitability of the Company.

Edgar Filing: LUCILLE FARMS INC - Form 10-Q

The Company's major source of external working capital financing has been the revolving line of credit. For the foreseeable future, assuming the line is replaced, the Company believes that the Company's revolving line of credit will continue to represent the major source of working capital financing besides income generated from operations. However, failure to secure such replacement financing or an extension of such line of credit can have a significant negative effect on the Company's liquidity.

For the three-month period ended June 30, 2004, cash provided by operating activities was \$205,000. A profit from operations of \$475,000 increased cash. In addition, an increase in accounts payable of \$86,000, along with increases in prepaid expenses of \$63,000 and other assets of \$15,000 provided cash. While increases in accounts receivable of \$505,000 and inventory of \$119,000 and a decrease in accrued expenses of \$86,000 decreased cash.

Net cash used in investing activities was \$158,000 for the period ended June 30, 2004, which represented purchase of property, plant and equipment.

Net cash used in financing activities was \$480,000 for the period ended June 30, 2004. Payments of the installment to Co Bank and other long-term debt of \$500,000 and 51,000, respectively, decreased cash.

The Company presently is seeking to replace its \$5,000,000 secured revolving credit line, the maturity of which has been extended to November 30, 2004. The Company estimates that based on current plans and its ability to replace or extend the revolving line of credit. its resources, including revenues from operations and utilization of its revolving credit lines, should be sufficient to meet anticipated needs for at least 12 months. Failure to secure such financing or receive such extension will result in a significant negative effect on the Company's liquidity.

Safe Harbor Statement

This Quarterly Report on Form 10-Q (and any other reports issued by the Company from time to time) contains certain forward-looking statements made in reliance upon the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements are based on current expectations that involve numerous risks and uncertainties. Actual results could differ materially from those anticipated in such forward-looking statements as a result of various known and unknown factors including, without limitation, future economic, competitive, regulatory, and market conditions, future business decisions, the uncertainties inherent in the pricing of cheese on the Chicago Mercantile Exchange upon which the Company's prices are based, changes in consumer tastes, fluctuations in milk prices, and those factors discussed above under Management's Discussion and Analysis of Financial Condition and Results of Operations. Words such as "believes," "anticipates," "expects," "intends," "may," and similar expressions are intended to identify forward-looking statements, but are not the exclusive means of identifying such statements. The Company undertakes no obligation to revise any of these forward-looking statements.

ITEM 3. QUALITATIVE AND QUANTITATIVE DISCLOSURE ABOUT MARKET RISK

The registrant does not utilize market rate sensitive instruments for trading or other purposes.

The Company is subject to interest rate exposure on variable rate debt. The

Edgar Filing: LUCILLE FARMS INC - Form 10-Q

amount of that debt at the balance sheet date, June 30, 2004 and March 31, 2004 amounted to \$5,352,000 and \$5,781,000, respectively. Since the interest rate on debt is based upon the prime rate plus 1%, or 3%, the cost of this debt will increase or decrease accordingly with changes in the prime rate.

The Company has exposure to the commodity price for cheese, dry whey and fluid milk. We have addressed these exposures in the general paragraph of Management's Discussion and Analysis, Item 2 above.

ITEM 4. CONTROLS AND PROCEDURES

Within 90 days prior to the date of filing this Form 10-Q, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the CEO and CFO, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Securities Exchange Act of 1934 Rule 13a-14. Based upon the evaluation, the Company's CEO and CFO concluded that the Company's disclosure controls and procedures are effective, subject to the limitations set forth in the next paragraph below, in timely alerting them to material information relating to the Company required to be included in the Company's periodic SEC filings.

The Company does not expect that its disclosure controls and procedures will prevent all errors and all fraud. A control procedure, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control procedures are met. Because of the inherent limitations in all control procedures, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The design of any control procedure also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control procedure, misstatements due to error or fraud may occur and not be detected.

Subsequent to the date of the Company's evaluation, there have been no significant changes in the Company's internal controls or in other factors that could affect internal controls.

PART II - OTHER INFORMATION

Item 2. Changes in Securities and Use of Proceeds

On June 12, 2001, the Company sold \$540,000 of Series A Redeemable Convertible Preferred Stock to an accredited investor in exchange for roll drying equipment. The shares were sold pursuant to Section 4(2) of the Securities Act and Rule 506 of Regulation D promulgated thereunder.

On May 16, 2002, the Company entered into an agreement with St. Albans Cooperative Creamery, Inc., the Company's primary supplier of raw materials, pursuant to which St. Albans (i) converted \$1,000,000 of accounts payable owed

Edgar Filing: LUCILLE FARMS INC - Form 10-Q

by the Company to St. Albans into 333,333 shares of common stock, (ii) converted \$3,500,000 of accounts payable owed by the Company to St. Albans into (A) preferred stock convertible into 583,333 shares of common stock, which preferred stock (1) automatically converts into such number of shares of common stock if the common stock is \$8.00 or higher for 30 consecutive trading days, and (2) may be redeemed by the Company for \$3,500,000, and (B) a 10-year warrant to purchase 583,333 shares of common stock (subject to adjustment under certain circumstances to a maximum of 1,416,667 shares of common stock) at \$.01 per share, which warrant (1) may not be exercised for a period of three-years, (2) terminates if, during such three-year period, the Company's common stock is \$8.00 or higher for 30 consecutive trading days, and, (3) in the event the Company's common stock is not \$8.00 or higher for 30 consecutive trading days during such three-year period, may only be exercised on the same basis percentage wise as the preferred shares are converted, (iii) converted an additional \$1,000,000 of accounts payable owed by the Company to St. Albans into a convertible promissory note due on April 14, 2005, which note is convertible into common stock at \$6.00 per share at any time by St. Albans and, at the option of the Company, automatically shall be converted into common stock at \$6.00 per share if the common stock is \$8.00 or higher for a period of 30 consecutive trading days, and (iv) provided the Company with a pricing structure for milk and milk by-products, for a minimum of one-year and a maximum of four-years (subject to renegotiation at the expiration of the applicable period), designed to produce profitability for the Company. The applicable period for the milk and milk by-products pricing structure expired in May 2003. Thereafter, St. Albans maintained the pricing structure through June 30, 2003. Commencing July 2, 2003, and again as of September 1, 2003, the pricing structure was modified to progressively decrease the benefits accruing to the Company in light of the profitability of the Company.

On June 10, 2002, B&W Investment associates, a partnership of which Howard S. Breslow, Chairman of the board of the Company is a partner, purchased, for \$25,000, a ten year warrant to purchase 500,000 shares of Common Stock at \$3.00 per share. This transaction took place in connection with the conversion into equity and long term debt of outstanding accounts payable owed by the Company to St. Albans Cooperative Creamery, Inc. and the revision of the pricing structure for milk and milk by-products.

Item 6. Exhibits and Reports on Form 8-K

(a) Exhibits
