ITEM 11. Executive Compensation

Compensation Discussion And Analysis

Compensation Philosophy

The philosophy used by the Compensation Committee in establishing compensation for our named executive officers, including the Chief Executive Officer, is to attract and retain key personnel through the payment of competitive-based salaries, annual bonuses and the granting of restricted stock-based grants or options. Where appropriate, relocation benefits are paid to attract key individuals. With this philosophy, the salaries of our named executive officers have been negotiated between our company and each executive officer, and were influenced by such factors as salaries paid to similar level executive officers in comparable-sized companies, the availability of persons with similar abilities and the geographic location of our offices. The companies that the Compensation Committee considers to be similar to us for purposes of making such determination are principally those companies against which we compete for executive personnel. The Compensation Committee believes that it has adequate knowledge of the compensation levels of such other companies as a result of information available to the public, recruitment efforts and compensation negotiations directed at candidates employed by such other companies, as well as data gathered from time to time from surveys, independent consultants and as a result of interactions between our personnel and the personnel of such other companies.

In evaluating annual compensation levels and bonuses for our named executive officers, the Compensation Committee philosophy is to consider, among other factors, the individual, their commitment to being part of a team, and company-wide performance and results against applicable pre-established annual and long-term performance goals, taking into account shareholder return, economic and business conditions, remuneration given to each executive officer in the past and comparative and competitive compensation and benefit performance levels. The Committee also considers our ability to increase salaries paid to our executive officers, taking into account our operating results and overall operations as a whole. Ultimately, the consideration of additional factors and the weight given to any particular factor is within the discretion of the Compensation Committee. As a result of such review, the Compensation Committee made its determinations for annual compensation, bonus and stock-based compensation for each of our executive officers as identified herein.

Compensation Elements

Annually, the Compensation Committee reviews its compensation structure and strategy. The Compensation Committee reviews the following executive positions annually: Chief Executive Officer, Chief Financial Officer, President/COO (as applicable), CIO, CTO, Senior Vice President (6), and Vice President (7). For fiscal year 2007, our compensation package for executive officers consisted of three elements which the Compensation Committee decided were appropriate after investigating and evaluating other similar sized companies and seeking input from a compensation specialist. The three material compensation elements were base salary, annual bonus and equity awards. The executive officers were also eligible to participate in all of the Company's employee benefit plans.

Base Salary

The Compensation Committee believes base salaries for executive officers should be competitive but not excessive. Accordingly, base salaries are typically in the 50th percentile range of those paid at similarly sized companies. The Compensation Committee takes several factors into consideration when setting the base pay for any given individual position, such as: experience in the industry, history of compensation prior to coming to the Company, a comparison of similar positions in similar revenue sized companies, a comparison of similar positions in companies that are in the payments industry and the individual's specific knowledge of and long-term value to the Company. For sales specific

positions, a base salary may be eliminated in lieu of a commission based compensation program that pays the salesperson according to their accumulated monthly processing volume derived from the business that they have sold on behalf of the Company.

### Cash Bonus

The Compensation Committee believes annual cash bonuses are the best way to motivate outstanding performance among the Company's executives each year. An executive's total bonus is offered as a percentage of his/her base salary, generally between 20% and 60%, depending on the level of the executive in the Company. A percent of the annual bonus (40% to 80%) is awarded based upon achievement of a company performance metric and a percent of the executive's bonus (20% to 60%) is awarded based upon the achievement of annual goals that have been mutually set for that executive by his/her supervisor. The Company performance metric has historically been related to Revenue and/or EBITDA. The total bonus percentage and the percentage of the bonus attributable to the Company's performance is highest for the CEO and President positions (80%) and the percentage attributable to the individual's performance is lowest (20%). The bonus percentage is progressively lowered for each level of management and the percentage of the total bonus attributable to the Company's performance is also reduced with each level of management while the percentage attributable to the individual performance increases. Bonuses are paid in the second quarter of the new fiscal year for the prior fiscal year.

### Equity Compensation

The Compensation Committee believes the best way to assure longevity and consistency in management is to have an effective equity compensation program under which management can receive equity awards. Prior to 2005, the Company typically made such awards in the form of stock option grants under the Amended and Restated 2003 Incentive Stock Option Plan (the "Plan"). On December 31, 2004, the Company amended the Plan to provide for the issuance of restricted stock grants, and in 2005, the Company made equity awards to its executive officers in the form of restricted stock grants. In 2006, the Company determined to make restricted stock grants under the Plan in the form of long term incentive grants, pursuant to which the Company allocated set equity awards for each position that would be deemed to be earned upon achieving a pre-defined EBITDA target over a three-year period ending with fiscal year 2008. New 3 year long term incentive grants are established each year and a new equity allocation is made for each executive position. In some instances, a cash award is substituted for an equity award but the amount of cash paid is tied to the same target as those who have equity awards. The allocations under the 2007 long term incentive grants ranged from a high of 45,000 set aside for the CEO to a low of 1,000 shares, set aside for certain Vice President positions.

### Compensation Committee Interlocks and Insider Participation

The Compensation Committee is currently composed of Richard D. Field, Aristides W. Georgantas, Jerry McElhatton, Keith B. Hall and Herbert L. Lucas, Jr., who serves as the Chairman of the Committee. No interlocking relationship exists between our Board of Directors or Compensation Committee and the board of directors or compensation committee of any other company.

### Report of the Compensation Committee of the Board of Directors

The Compensation Committee of the Board of Directors reviews and approves salaries, bonuses and other benefits payable to our executive officers and administers our Amended and Restated 2003 Incentive Stock Option Plan, and prior to its expiration, the Officers and Key Employees Incentive Stock Option Plan. In connection with its deliberations, the Compensation Committee seeks the views of the Chief Executive Officer and Chief Operating Officer with respect to appropriate compensation levels of the other officers who prepare recommendations to the Compensation Committee.

The Compensation Committee is currently composed of Richard D. Field, Aristides W. Georgantas, Jerry McElhatton, Keith B. Hall and Herbert L. Lucas, Jr., who serves as the Chairman of the Committee. Messrs. Field, Georgantas,

McElhatton, Hall and Lucas are “independent directors” within the meaning of the NASDAQ Marketplace Rules. In light of changes in the securities laws, rules and regulations, in December 2003, our Compensation Committee recommended, and the Board of Directors approved, a Compensation Committee Charter. The Compensation Committee Charter is available on our website at [www.echo-inc.com](http://www.echo-inc.com).

The Compensation Committee of the Board of Directors has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and based on such review and discussion has recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this annual report on Form 10-K.

The 1992 Plan provided for the issuance of up to 81,250 shares of Common Stock underlying stock options, each to purchase one share of the Common Stock for \$3.40 per share, subject to adjustment in the event of stock splits, combinations of shares, stock dividends or the like.

On November 18, 1996, our Board of Directors authorized an increase in the 1992 Plan to 843,750 shares to be subject to stock options, which action was ratified by the shareholders at the Annual Meeting held in February 1997.

On February 4, 1999, our Board of Directors authorized an increase in the 1992 Plan to 1,343,750 shares to be subject to stock options, which action was ratified by the shareholders at the Annual Meeting held in February 1999.

On May 13, 2002, the Plan expired. The 2003 Incentive Stock Option Plan, which provided for the issuance of up to 900,000 shares of Common Stock underlying stock options, was approved by our Board of Directors and by our shareholders at the Annual Meeting of shareholders held on February 3, 2003.

On April 19, 2004, our Compensation Committee approved certain non-material changes to our 2003 Incentive Stock Option Plan.

## Potential Payments Upon Termination or Change in Control

### Separation Agreements

On December 11, 2007, the Company entered into amended and restated separation agreements with each of its principal executive officers (CEO and CFO) and each of its senior vice presidents whereby, in the event of a change in control of the Company (as defined in each agreement) each such executive officer would be entitled, to the extent they remain employed by the Company at the time of such change in control, to the following: (i) an acceleration of vesting with respect to all stock option and restricted stock grants then outstanding and not yet vested, (ii) a portion of such executive's anticipated cash or sales commission-based bonus, as applicable, for the fiscal year in which the change in control occurred, and (iii) in the event that the executive is terminated without cause (as defined in each agreement), or ceases to provide services to the Company (or its successor) as a result of an involuntary termination (as defined in each agreement) within the two year period following the change in control, then the executive would be entitled to a one-time lump sum cash payment equal to a percentage of the executive's total compensation for the fiscal year prior to the year in which the change in control occurred, plus continued medical benefits for a period of time following such termination. The amount of the lump sum payout ranges from 1 ½ to 2 years of total compensation for the prior year, and the duration of continued medical benefits ranges between 1 ½ and 2 years depending on the position held by the principal executive or senior vice president. The amounts payable to the executive may be reduced to the extent the "parachute payments" under Section 280G(b)(2) of the Internal Revenue Code of 1986 exceed 2.99 times the executive's "base amount", if such reduction would result in higher after-tax income to the executive. These agreements amend and restate separation agreements previously entered into with each of these executives.

With respect to Mr. Harris, our Chief Executive Officer, in the event of his termination without cause or involuntary termination within the two year period following the change in control, he would be entitled to a one-time lump sum payment equal to two times his total compensation for the fiscal year prior to the year in which the change in control occurred, plus continued medical benefits for a period of two years following such termination.

With respect to Ms. Cheung, our Chief Financial Officer, in the event of her termination without cause or involuntary termination within the two year period following the change in control, she would be entitled to a one-time lump sum payment equal to one and one-half times her total compensation for the fiscal year prior to the year in which the change in control occurred, plus continued medical benefits for a period of one and one-half years following such termination.

With respect to our senior vice presidents, in the event of their termination without cause or involuntary termination within the two year period following the change in control, they would each be entitled to a one-time lump sum payment equal to one and one-half times the respective executive's total compensation for the fiscal year prior to the year in which the change in control occurred, plus continued medical benefits for a period of one and one-half years following such termination.

The provision regarding the acceleration of vesting for previously issued stock option grants is consistent with the standard terms and conditions of our Amended and Restated 2003 Incentive Stock Option Plan which already provides for such accelerated vesting.

The Company paid an amount of approximately \$21,930 in respect to the payoff amount for Mr. Barry's company vehicle, which he was entitled to retain. The Company will also make equivalent medical benefits available to Mr. Barry for a two year period. Mr. Barry has agreed to certain noncompetition and nonsolicitation provisions for a 12 month period. In exchange for his severance benefits, Mr. Barry has relinquished his right to make claims against the Company. As part of the agreement, Mr. Barry also forfeited his unvested restricted stock with compensation previously recorded of \$146,000.

### Bonus, Profit Sharing and Other Remuneration Plans and Pension and Retirement Plans

In addition to salary, the Compensation Committee, from time to time, grants stock options and restricted stock grants to executive officers and key personnel pursuant to the Amended and Restated 2003 Incentive Stock Option Plan. The Compensation Committee thus views equity-based compensation as an important component of its long-term, performance-based compensation philosophy. Since the value of stock options and grants of restricted stock bears a direct relationship to our stock price, the Compensation Committee believes that stock options and grants of restricted stock motivate executive officers and key personnel to manage us in a manner which will also benefit shareholders. As such, stock options and grants of restricted stock are granted at the current market price. One of the principal factors considered in granting stock options and grants of restricted stock to executive officers or key personnel is their ability to influence our long-term growth and profitability.

The Compensation Committee has also established a bonus program to reward extraordinary performance that exceeds pre-set goals established for executive officers and key personnel. We believe that such a bonus program provides the incentive to exceed such goals, thereby building shareholder value.

We have a contributory 401(k) Retirement Pension Plan, which covers all employees who are qualified under the plan provisions. In fiscal 2006, we also adopted a non-qualified deferred compensation plan that provides additional retirement investment alternatives for eligible employees and directors and is complementary to our contributory 401(k) Retirement Pension Plan.

#### Compensation of Directors

The general policy of the Board is that compensation for independent directors should be cash or equity-based compensation, depending upon the desire of the specific director. We do not pay management directors for Board service in addition to their regular employee compensation. The Compensation Committee, which consists solely of independent directors, has the primary responsibility for reviewing and considering any revisions to director compensation. The Board reviews the committee's recommendations and determines the amount of director compensation. The committee can engage the services of outside advisers, experts, and others to assist the committee in determining director compensation. During 2007, as consistent with past practice, the committee did not use an outside adviser to aid in setting director compensation.

Index

The Board followed the recommendation of the Compensation Committee and maintained director compensation at similar levels in 2007 as was paid in 2006. In fiscal 2007, Messrs. Georgantas and Lucas each earned \$55,000. Mr. Field earned \$61,250, Mr. Lockhart earned \$25,000, Mr. Terzian earned \$37,500 and Mr. McElhatton earned \$12,500. Mr. Lockhart received 1,077 shares of restricted common stock which was deposited into a Non-Qualified Deferred Compensation Plan for the account of Mr. Lockhart. Mr. Field received 4,000 shares of restricted stock. Messrs. Lucas, Georantas, and McElhatton each received 3,000 shares of restricted stock. Additionally, Mr. McElhatton received 1,500 shares of restricted stock upon his election to the Company's Board of Directors. Directors are compensated for all reasonable expenses and are not compensated for attending special meetings.

Changes in control

On December 19, 2007, the Company entered into an Agreement and Plan of Merger (the “Merger Agreement”) to be acquired by Intuit Inc. (“Intuit”) in a merger transaction pursuant to which ECHO will merge with and into Elan Acquisition Corporation, a Nevada corporation and wholly-owned subsidiary of Intuit (“Merger Sub”) and will become a wholly-owned subsidiary of Intuit (the “Merger”). Pursuant to the terms of the Merger Agreement and subject to the conditions thereof, Intuit will acquire all of the outstanding shares of ECHO common stock for a cash amount of \$17.00 per share, including shares issuable upon exercise of options, for a total aggregate purchase price of approximately \$130.8 million on a fully-diluted basis.

Index

In connection with the execution of the Merger Agreement, in order to induce Intuit and Merger Sub to enter into the Merger Agreement, each of our executive officers and directors entered into a Voting Agreement with Intuit (each, a “Voting Agreement” and together, the “Voting Agreements”). Pursuant to the Voting Agreements, our executive officers and directors have agreed to vote all securities of ECHO (including all shares of Common Stock and all options, warrants and other rights to acquire shares of Common Stock) owned by them (the “Shares”):

- in favor of approval of the Merger;

against approval of any proposal made in opposition to, or in competition with, consummation of the Merger and the transactions contemplated by the Merger Agreement, and against any action or agreement that would result in a breach of any representation, warranty, covenant, agreement or other obligation of the Company in the Merger Agreement; and

against any Acquisition Proposal (as defined in the Merger Agreement) or (other than those actions that relate to the Merger and the transactions contemplated by the Merger Agreement) any other: (A) merger, consolidation, business combination, sale of assets, reorganization or recapitalization of the Company or any subsidiary of the Company with any party, (B) sale, lease or transfer of any significant part of the assets of the Company or any subsidiary of the Company, (C) reorganization, recapitalization, dissolution, liquidation or winding up of the Company or any subsidiary of the Company, (D) material change in the capitalization of the Company or any subsidiary of the Company, or the corporate structure of the Company or any subsidiary of the Company, or (E) action that is intended, or could reasonably be expected to, impede, interfere with, delay, postpone, discourage or adversely affect the Merger or any of the other transactions contemplated by the Merger Agreement.

Pursuant to the Voting Agreements, our executive officers and directors also granted to the directors of Intuit an irrevocable proxy and irrevocably appointed them as their attorney and proxy to vote the Shares on any of the foregoing matters at every ECHO annual, special, adjourned or postponed stockholder meeting and in every written consent in lieu of such meeting.

The Voting Agreements terminate upon the earliest to occur of (i) such date and time as the Merger Agreement shall have been validly terminated pursuant to its terms, or (ii) such date and time as the Merger shall become effective in accordance with the terms and conditions set forth in the Merger Agreement.

ITEM 13. Certain Relationships and Related Transactions, and Director Independence

In connection with the retirement of our Chairman and Chief Executive Officer, Joel M. (“Jody”) Barry on July 2, 2007 (the “Effective Date”), the Company entered into a separation agreement (the “Agreement”) with him on August 10, 2007. The agreement resulted in a charge of approximately \$1.0 million to the Company. Under the Agreement, Mr. Barry is entitled to cash severance payments totaling \$742,800 to be paid as follows: (a) an initial lump sum payment of \$300,000 that was paid within three days of August 10, 2007 and (b) two payments of \$221,400 each to be paid on January 2, 2008 and 2009, which payments may be accelerated and become payable within three business days upon Mr. Barry’s written request. All stock options issued to Mr. Barry under the Company’s 1992 Officers and Key Employees Incentive Stock Option Plan will expire in accordance with their terms as of the Effective Date. All unvested stock options issued to Mr. Barry under the Company’s Amended and Restated 2003 Incentive Stock Option Plan vested immediately as of the Effective Date and will expire on the 360th day thereafter. The Company paid an amount of approximately \$21,930 in respect to the payoff amount for Mr. Barry’s company vehicle, which he will be entitled to retain. The Company will also make equivalent medical benefits available to Mr. Barry for a two year period. Mr. Barry has agreed to certain noncompetition and nonsolicitation provisions for a 12 month period. In exchange for his severance benefits, Mr. Barry has relinquished his right to make claims against the Company. As
