LINCOLN EDUCATIONAL SERVICES CORPORATION AND SUBSIDIARIES
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2011 AND 2010
(In thousands, except share and per share amounts and unless otherwise stated)
(Unaudited)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business Activities – Lincoln Educational Services Corporation and subsidiaries (the “Company”) is a provider of diversified career-oriented post-secondary education. The Company offers recent high school graduates and working adults degree and diploma programs in five areas of study: health sciences, automotive technology, skilled trades, business and information technology and hospitality services. The Company currently has 46 schools in 17 states across the United States.

Basis of Presentation – The accompanying unaudited condensed consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission and in accordance with accounting principles generally accepted in the United States of America (“GAAP”). Certain information and footnote disclosures normally included in annual financial statements have been omitted or condensed pursuant to such regulations. These statements, which should be read in conjunction with the December 31, 2010 consolidated financial statements of the Company, reflect all adjustments, consisting solely of normal recurring adjustments, necessary to present fairly the consolidated financial position, results of operations, and cash flows for such periods. The results of operations for the three and nine months ended September 30, 2011 are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 2011.

The unaudited condensed consolidated financial statements include the accounts of the Company and its subsidiaries. All significant intercompany accounts and transactions have been eliminated.

Use of Estimates in the Preparation of Financial Statements – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the period. On an ongoing basis, the Company evaluates the estimates and assumptions, including those related to revenue recognition, bad debts, fixed assets, goodwill and other intangible assets, stock-based compensation, income taxes, benefit plans and certain accruals and contingencies. Actual results could differ from those estimates.

Stock-Based Compensation – The accompanying condensed consolidated statements of operations include stock-based compensation expense of approximately \$0.6 million for each of the three months ended September 30, 2011 and 2010, and \$2.7 million and \$1.9 million for the nine months ended September 30, 2011 and 2010, respectively. The Company uses the Black-Scholes valuation model and utilizes straight-line amortization of compensation expense over the requisite service period of the grant. The Company makes an estimate of expected forfeitures at the time options are granted.

New Accounting Pronouncements

The Company has reviewed recently issued accounting pronouncements and believes none will have any material impact on the Company’s condensed consolidated financial statements.

Index

2. WEIGHTED AVERAGE COMMON SHARES

The weighted average number of common shares used to compute basic and diluted (loss) income per share for the three and nine months ended September 30, 2011 and 2010 was as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2011	2010	2011	2010
Basic shares outstanding	22,045,104	24,491,967	21,995,977	25,272,749
Dilutive effect of stock options	-	492,352	157,301	646,977
Diluted shares outstanding	22,045,104	24,984,319	22,153,278	25,919,726

For the three months ended September 30, 2011 and 2010, options to acquire 414,583 and 328,333 shares, respectively, and for the nine months ended September 30, 2011 and 2010, options to acquire 293,333 and 64,500 shares, respectively, were excluded from the above table because they have an exercise price that is greater than the average market price of the Company's common stock and therefore their impact on reported earnings per share would have been antidilutive. For the three months ended September 30, 2011, options to acquire 110,978 shares were excluded from the above table because the Company reported a net loss for the quarter and therefore their impact on reported earnings per share would have been antidilutive.

Certain performance conditions have not been met with respect to the Company's performance shares. As a result, the Company has determined these shares to be contingently issuable on April 29, 2011. Accordingly, 134,131 shares of outstanding performance shares have been excluded from the computation of diluted earnings per share for the three and nine months ended September 30, 2011.

3. GOODWILL AND OTHER INTANGIBLE ASSETS

The Company reviews intangible assets for impairment when indicators of impairment exist. Annually, or more frequently if necessary, the Company evaluates goodwill for impairment, with any resulting impairment reflected as an operating expense. The Company concluded that the decrease in the Company's market capitalization as of September 30, 2011 was a triggering event and, accordingly, the Company tested goodwill and indefinite lived intangibles for impairment. The tests indicated that five of the Company's reporting units were impaired, which resulted in an expense of \$9.4 million in the third quarter of 2011. In addition, the Company recorded an impairment charge of \$1.0 million in the third quarter of 2011 related to a regional accreditation indefinite intangible asset that is no longer being utilized.

The carrying amount of goodwill at September 30, 2011 is as follows:

Balance as of January 1, 2011	
Goodwill	\$ 115,303
Accumulated impairment losses	(8,594)
	106,709
Goodwill impairment (9,338)	
Balance as of September 30, 2011	
Goodwill	115,303

Accumulated impairment losses	(17,932)
	\$ 97,371

Index

Intangible assets, which are included in other assets in the accompanying condensed consolidated balance sheets, consist of the following:

	Student Contracts	Indefinite Trade Name	Trade Name	Accreditation	Curriculum	Non-competes	Total
Gross carrying amount at December 31, 2010	\$4,827	\$660	\$839	\$ 2,307	\$1,150	\$ 2,181	\$11,964
Reclassification (1)	-	(480)	480	-	-	-	-
Write-off (2)	(4,827)	-	(810)	-	-	(201)	(5,838)
Impairment (3)	-	-	-	(1,039)	-	-	(1,039)
Gross carrying amount at September 30, 2011	-	180	509	1,268	1,150	1,980	5,087
Accumulated amortization at December 31, 2010	4,824	-	503	-	505	1,478	7,310
Amortization	3	-	547	-	86	516	1,152
Write-off (2)	(4,827)	-	(810)	-	-	(206)	(5,843)
Accumulated amortization at September 30, 2011	-	-	240	-	591	1,788	2,619
Net carrying amount at September 30, 2011	\$-	\$180	\$269	\$ 1,268	\$559	\$ 192	\$2,468
Weighted average amortization period (years)		Indefinite	6	Indefinite	10	3	

(1) Reclassification due to the Company's plan to rebrand one of its institutions.

(2) The Company wrote-off the value of fully depreciated assets not in service.

(3) The impairment relates to regional accreditation indefinite intangible asset that is no longer being utilized.

Amortization of intangible assets was approximately \$0.7 million and \$0.5 million for the three months ended September 30, 2011 and 2010, respectively, and approximately \$1.2 million and \$2.0 million for the nine months ended September 30, 2011 and 2010, respectively.

The following table summarizes the estimated future amortization expense:

Year Ending December 31,	
Remainder of 2011	\$ 216
2012	232
2013	181
2014	160
2015	91
Thereafter	140
	\$ 1,020

Index

4. LONG-TERM DEBT AND LEASE OBLIGATIONS

Long-term debt and lease obligations consist of the following:

	September 30, 2011	December 31, 2010
Credit agreement (a)	\$ -	\$ 20,000
Finance obligation (b)	9,672	9,672
Capital lease-property (rate of 8.0%) (c)	26,837	26,986
Capital leases-equipment (rates ranging from 5.0% to 8.5%)	128	287
	36,637	56,945
Less current maturities	(510)	(437)
	\$ 36,127	\$ 56,508

(a) On December 1, 2009, the Company, as borrower, and all of its wholly-owned subsidiaries, as guarantors, entered into a secured revolving credit agreement (the "Credit Agreement") with a syndicate of seven lenders led by Bank of America, N.A., as administrative agent, swing line lender and letter of credit issuer, for an aggregate principal amount of up to \$115 million (the "Credit Facility"). The credit agreement expires December 1, 2012.

Amounts borrowed as revolving loans under the Credit Facility will bear interest, at the Company's option, at either (i) an interest rate based on LIBOR and adjusted for any reserve percentage obligations under Federal Reserve Bank regulations (the "Euro Dollar Rate") for specified interest periods or (ii) the Base Rate (as defined in the Credit Agreement), in each case, plus an applicable margin rate as determined under the Credit Agreement. The "Base Rate," as defined under the Credit Agreement, is the highest of (a) the prime rate, (b) the Federal Funds rate plus 0.50% and (c) a daily rate equal to one month of the Euro Dollar Rate plus 1.0%. Under the Credit Agreement, the margin interest rate is subject to adjustment within a range of 1.50% to 3.25% based upon changes in the Company's consolidated leverage ratio and depending on whether the Company has chosen the Euro Dollar Rate or the Base Rate option. Swing line loans will bear interest at the Base Rate plus the applicable margin rate. Letters of credit will require a fee equal to the applicable margin rate multiplied by the daily amount available to be drawn under each issued letter of credit plus a fronting fee of 0.125% of the amount available to be drawn and customary issuance, presentation, amendment and other processing fees associated with letters of credit. At September 30, 2011 and December 31, 2010, the Company had outstanding letters of credit aggregating \$0.5 million, which were primarily comprised of letters of credit for the Department of Education matters and real estate leases.

The Credit Agreement contains customary representations, warranties and covenants including consolidated adjusted net worth, consolidated leverage ratio, consolidated fixed charge coverage ratio, minimum financial responsibility composite score, cohort default rate and other financial covenants, certain restrictions on capital expenditures as well as affirmative and negative covenants and events of default customary for facilities of this type. In addition, the Company is paying fees to the lenders that are customary for facilities of this type. As of September 30, 2011, the Company was in compliance with the covenants contained in the credit agreement.

As of September 30, 2011, the Company had no amounts outstanding under the Credit Agreement. As of December 31, 2010, the Company had a total of \$20.0 million outstanding under its Credit Agreement. During the nine months ended September 30, 2011, the Company repaid \$20.0 million under its Credit Facility. The interest rate on borrowings under the Credit Facility during the nine months ended September 30, 2011 was 4.75%.

(b) The Company completed a sale and a leaseback of several facilities on December 28, 2001. The Company retains a continuing involvement in the lease and as a result it is prohibited from utilizing sale-leaseback accounting.

Accordingly, the Company has treated this transaction as a finance lease. The lease expiration date is December 31, 2016.

(c) In 2009, the Company assumed real estate capital leases in Fern Park, Florida and Hartford, Connecticut. These leases bear interest at 8% and expire in 2032 and 2031, respectively.

5. STOCKHOLDERS' EQUITY

The Company has two stock incentive plans: a Long-Term Incentive Plan (the "LTIP") and a Non-Employee Directors Restricted Stock Plan (the "Non-Employee Directors Plan").

Index

Under the LTIP, certain employees received awards of restricted shares of common stock. The number of shares granted to each employee is based on the fair market value of a share of common stock on the date of grant. As of September 30, 2011, there were a total of 774,456 restricted shares awarded and 251,265 shares vested under the LTIP. The restricted shares granted prior to February 23, 2011 vest ratably on the first through fifth anniversaries of the grant date. The restricted shares granted on February 23, 2011 vest ratably on the grant date and the first through fourth anniversaries of the grant date. On April 29, 2011, 134,131 performance-based shares were granted which vest over four years based upon the attainment of (i) a specified operating income margin during any one or more of the fiscal years in the period beginning January 1, 2011 and ending December 31, 2014 and (ii) the attainment of earnings before interest, taxes, depreciation and amortization targets during each of the fiscal years ended December 31, 2011, 2012, 2013 and 2014. There is no vesting period on the right to vote or the right to receive dividends on any of the restricted shares. The recognized restricted stock expense for the three months ended September 30, 2011 and 2010 was \$0.4 million and \$0.3 million, respectively, and for the nine months ended September 30, 2011 and 2010 was \$2.0 million and \$1.0 million, respectively. The unrecognized restricted stock expense under the LTIP as of September 30, 2011 and December 31, 2010 was \$7.0 million and \$3.4 million, respectively.

Pursuant to the Non-Employee Directors Plan, each non-employee director of the Company receives an annual award of restricted shares of common stock on the date of the Company's annual meeting of shareholders. The number of shares granted to each non-employee director is based on the fair market value of a share of common stock on that date. The restricted shares vest ratably on the first through third anniversary of the grant date; however, there is no vesting period on the right to vote or the right to receive dividends on these restricted shares. Beginning in 2010, all new awards of common stock granted under the Non-Employee Directors Plan vest on the first anniversary of the grant date. As of September 30, 2011, there were a total of 155,641 shares awarded less 5,035 shares canceled and 116,238 shares vested under the Non-Employee Directors Plan. The recognized restricted stock expense for the three months ended September 30, 2011 and 2010 was \$0.1 million and \$0.2 million, respectively, and for the nine months ended September 30, 2011 and 2010 was \$0.5 million, respectively. The unrecognized restricted stock expense under the Non-Employee Directors Plan as of September 30, 2011 and December 31, 2010 was \$0.3 million.

For the nine months ended September 30, 2011 and 2010, the Company completed a net share settlement for 24,527 and 5,641 restricted shares, respectively, on behalf of some employees that participate in the LTIP upon the vesting of the restricted shares pursuant to the terms of the LTIP. The net share settlement was in connection with income taxes incurred on restricted shares that vested and were transferred to the employee during 2011 and/or 2010, creating taxable income for the employee. The Company has agreed to pay these taxes on behalf of the employees in return for the employee returning an equivalent value of restricted shares to the Company. This transaction resulted in a cash payment of approximately \$0.4 million and \$0.1 million for the nine months ended September 30, 2011 and 2010, respectively.

Fair Value of Stock Options

The fair value of the stock options used to compute stock-based compensation is the estimated present value at the date of grant using the Black-Scholes option pricing model. The following is a summary of transactions pertaining to the stock options:

	Shares	Weighted Average Exercise Price Per Share	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value (in thousands)
Outstanding December 31, 2010	720,940	14.59	5.14 years	\$ 2,095

Edgar Filing: LINCOLN EDUCATIONAL SERVICES CORP - Form 10-Q

Canceled	(25,834)	19.63		
Exercised	(70,984)	8.18		579
Outstanding September 30, 2011	624,122	15.11	4.49 years	360
Vested or expected to vest	609,990	14.99	4.40 years	360
Exercisable as of September 30, 2011	553,462	14.46	3.99 years	360

As of September 30, 2011, the unrecognized pre-tax compensation expense for all unvested stock option awards was \$0.4 million. This amount will be expensed over the weighted-average period of approximately 2.16 years.

Index

The following table presents a summary of stock options outstanding:

Range of Exercise Prices	Stock Options Outstanding			Stock Options Exercisable	
	Shares	Contractual Weighted Average Life (years)	Weighted Average Price	Shares	Weighted Exercise Price
\$3.10	72,047	0.25	\$ 3.10	72,047	\$ 3.10
\$4.00-\$13.99	137,492	5.82	11.96	137,492	11.96
\$14.00-\$19.99	277,083	4.45	16.42	245,087	16.02
\$20.00-\$25.00	137,500	5.48	21.91	98,836	22.35
	624,122	4.49	15.11	553,462	14.46

6. INCOME TAXES

The benefit for income taxes for the quarter ended September 30, 2011 was \$2.2 million, or 35.9% of pretax loss, compared to a provision for income taxes of \$12.4 million, or 39.7% of pretax income for the quarter ended September 30, 2010. The effective tax rate benefit decreased compared to the provision due to \$1.4 million of nondeductible goodwill impairment charges.

The provision for income taxes for the nine months ended September 30, 2011 was \$8.2 million, or 41.8% of pretax income, compared to \$30.8 million, or 39.8% of pretax income for the nine months ended September 30, 2010. The effective tax rate increased due to \$1.4 million of nondeductible goodwill impairment charges for the nine months ended September 30, 2011.

7. CONTINGENCIES

In the ordinary conduct of its business, the Company is subject to lawsuits, investigations and claims, including, but not limited to, claims involving students or graduates and routine employment matters. Although the Company cannot predict with certainty the ultimate resolution of lawsuits, investigations and claims asserted against it, the Company does not believe that any currently pending legal proceeding to which it is a party will have a material adverse effect on the Company's business, financial condition, results of operations or cash flows.

The Company and several executive officers have been named as defendants in two purported securities class action lawsuits. The complaints, which were both filed in the U.S. District Court for the District of New Jersey, allege that the Company and the other defendants made false and misleading statements and failed to disclose material adverse facts about the Company's business and prospects in violation of federal securities laws. Each plaintiff seeks damages for the purported class. The complaints were filed on August 13, 2010 and September 19, 2010, and are respectively captioned, Donald J. and Mary S. Moreaux v. Lincoln Educational Services Corp., et al., and Robert Lythaud v. Lincoln Educational Services Corp., et al. On November 24, 2010, the Court consolidated the two actions under the caption In re Lincoln Educational Services Corp. Securities Litigation and appointed a lead plaintiff. A consolidated amended complaint was filed on February 14, 2011. On April 15, 2011, defendants filed a motion to dismiss all of the claims asserted therein. On September 6, 2011, the Court entered an order granting defendants' motion to dismiss the consolidated amended complaint with prejudice. As of the date of this filing, plaintiffs have not filed a notice of appeal.

Certain of the Company's executive officers and directors have also been named as defendants in three purported shareholder derivative lawsuits. The first action, which was filed on December 21, 2010 in the U.S. District Court for the District of New Jersey, is captioned Mike Schweertmann v. David F. Carney, et al. The second, which was filed on February 14, 2011 in the Superior Court of New Jersey, Essex County, Chancery Division, is captioned Gregory and Karen Lehner v. Shaun E. McAlmont, et al. The third action, which was filed on March 11, 2011 in the U.S. District Court for the District of New Jersey, is captioned Steven C. Lloyd and Paul Stone v. David F. Carney, et al. All three complaints allege that defendants breached their fiduciary duties by allowing the Company to engage in certain allegedly improper practices and misrepresenting the Company's financial condition. On October 18, 2011, the parties to the Schweertmann action filed with the Court a stipulation of voluntary dismissal of the action without prejudice, which the Court ordered on October 24, 2011. On October 21, 2011, plaintiffs in the Lloyd action filed a notice of voluntary dismissal of the action without prejudice, which the Court ordered on October 26, 2011.

The Company believes the lawsuits are without merit and intends to vigorously defend against them.

Index

On May 18, 2011, the Company received a subpoena duces tecum from the Attorney General of the State of New York relating to their investigation of whether the Company and certain of its academic institutions have complied with certain New York state consumer protection, securities and finance laws. Pursuant to the subpoena duces tecum, the Attorney General has requested from the Company and certain of its academic institutions documents and detailed information for the time period beginning May 17, 2005 to the present.

8. PENSION PLAN

The Company sponsors a noncontributory defined benefit pension plan covering substantially all of the Company's union employees. Benefits are provided based on employees' years of service and earnings. This plan was frozen on December 31, 1994 for non-union employees. The total amount of the Company's contributions paid under its pension plan was \$0.2 million for the nine months ended September 30, 2011 and \$0.7 million for the nine months ended September 30, 2010. The net periodic benefit cost was \$0.3 million and \$0.1 million for the three months ended September 30, 2011 and 2010, respectively, and \$0.8 million and \$0.5 million for the nine months ended September 30, 2011 and 2010, respectively.

9. DIVIDENDS

On November 3, 2010, the Company's Board of Directors declared an annual cash dividend of \$1.00 per share of common stock outstanding, payable quarterly. The dividend was recorded as a reduction to retained earnings as of December 31, 2010 and adjusted for actual payments as of December 31, 2010, March 31, 2011, June 30, 2011 and September 30, 2011. The record date for the fourth quarterly dividend payment of \$5.7 million was September 15, 2011 and the payment date was September 30, 2011. The establishment of future record and payment dates is subject to the final determination of the Company's Board of Directors.

Item 2.MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion may contain forward-looking statements regarding us, our business, prospects and our results of operations that are subject to certain risks and uncertainties posed by many factors and events that could cause our actual business, prospects and results of operations to differ materially from those that may be anticipated by such forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those described in the "Risk Factors" section of our Annual Report on Form 10-K for the year ended December 31, 2010, as filed with the Securities and Exchange Commission ("SEC") and in our other filings with the SEC. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this report. We undertake no obligation to revise any forward-looking statements in order to reflect events or circumstances that may subsequently arise. Readers are urged to carefully review and consider the various disclosures made by us in this report and in our other reports filed with the SEC that advise interested parties of the risks and factors that may affect our business.

The interim financial statements filed on this Form 10-Q and the discussions contained herein should be read in conjunction with the annual financial statements and notes included in our Form 10-K for the year ended December 31, 2010, as filed with the SEC, which includes audited consolidated financial statements for our three fiscal years ended December 31, 2010.

General

We are a leading provider of diversified career-oriented post-secondary education. We offer recent high school graduates and working adults degree and diploma programs in five areas of study: health sciences, automotive technology, skilled trades, business and information technology and hospitality services. Each area of study is specifically designed to appeal to and meet the educational objectives of our student population, while also satisfying the criteria established by industry and employers. The resulting diversification limits dependence on any one industry for enrollment growth or placement opportunities and broadens our opportunities for introducing new programs. As of September 30, 2011, 22,526 students were enrolled at our 46 campuses across 17 states. Our campuses primarily attract students from their local communities and surrounding areas, although our five destination campuses attract students from across the United States, and in some cases, from abroad.

Critical Accounting Policies and Estimates

Our discussions of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America, or GAAP. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the period. On an ongoing basis, we evaluate our estimates and assumptions, including those related to revenue recognition, bad debts, fixed assets, goodwill and other intangible assets, income taxes and certain accruals and contingencies. Actual results could differ from those estimates. The critical accounting policies discussed herein are not intended to be a comprehensive list of all of our accounting policies. In many cases, the accounting treatment of a particular transaction is specifically dictated by GAAP and does not result in significant management judgment in the application of such principles. There are also areas in which management's judgment in selecting any available alternative would not produce a materially different result from the result derived from the application of our critical accounting policies. We believe that the following accounting policies are most critical to us in that they represent the primary areas where financial information is subject to the application of management's estimates, assumptions and judgment in the preparation of our consolidated financial statements.

Revenue recognition. Revenues are derived primarily from programs taught at our schools. Tuition revenues, textbook sales and one-time fees, such as nonrefundable application fees and course material fees, are recognized on a straight-line basis over the length of the applicable program, which is the period of time from a student's start date through his or her graduation date, including internships or externships that take place prior to graduation. If a student withdraws from a program prior to a specified date, any paid but unearned tuition is refunded. Refunds are calculated and paid in accordance with federal, state and accrediting agency standards. Other revenues, such as tool sales and contract training revenues, are recognized as goods are delivered or services are performed. On an individual student basis, tuition earned in excess of cash received is recorded as accounts receivable, and cash received in excess of tuition earned is recorded as unearned tuition.

Allowance for uncollectible accounts. Based upon our experience and judgment and economic trends impacting our business, we establish an allowance for uncollectible accounts with respect to tuition receivables. We use an internal group of collectors, augmented by third-party collectors as deemed appropriate, in our collection efforts. In establishing our allowance for uncollectible accounts, we consider, among other things, a student's status (in-school or out-of-school), whether or not additional financial aid funding will be collected from Title IV Programs or other sources, whether or not a student is currently making payments and overall collection history. Changes in trends in any of these areas may impact the allowance for uncollectible accounts. The receivables balances of withdrawn students with delinquent obligations are reserved based on our collection history. Although we believe that our reserves are adequate, if the financial condition of our students deteriorates, resulting in an impairment of their ability to make payments, additional allowances may be necessary, which will result in increased selling, general and administrative expenses in the period such determination is made.

Index

Our bad debt expense as a percentage of revenues for the three months ended September 30, 2011 and 2010 was 7.8% and 7.7%, respectively, and for the nine months ended September 30, 2011 and 2010 was 6.0% and 6.6%, respectively. Our exposure to changes in our bad debt expense could impact our operations. A 1% increase in our bad debt expense as a percentage of revenues for the three months ended September 30, 2011 and 2010 would have resulted in an increase in bad debt expense of \$1.2 million and \$1.7 million, respectively, and for the nine months ended September 30, 2011 and 2010 would have resulted in an increase in bad debt expense of \$4.0 million and \$4.7 million, respectively.

We do not believe that there is any direct correlation between tuition increases, the credit we extend to students and our loan commitments. Our loan commitments to our students are made on a student-by-student basis and are predominantly a function of the specific student's financial condition. We only extend credit to the extent there is a financing gap between the tuition charged for the program and the amount of grants, loans and parental loans each student receives. Each student's funding requirements are unique. Factors that determine the amount of aid available to a student are student status (whether they are dependent or independent students), Pell Grants awarded, Plus loans awarded or denied to parents and family contributions. As a result, it is not possible to precisely predict the number of students that will need us to extend credit to them. Our tuition increases have ranged historically from 3% to 5% annually and have not meaningfully impacted overall funding requirements, since the amount of financial aid funding available to students in recent years has increased at greater rates than our tuition increases.

We reserve for bad debt based upon our experience and judgment. In establishing our reserve, we consider, among other things, current and expected economic conditions, a student's status (in-school or out-of-school), whether or not additional financial aid funding will be collected from Title IV Programs or other sources, whether or not a student is currently making payments, and overall collection history. Our analysis is updated quarterly to ensure that our reserves are aligned with current market conditions. Changes in trends in any of these areas may impact bad debt expense.

Because a substantial portion of our revenue is derived from Title IV programs, any legislative or regulatory action that significantly reduces the funding available under Title IV programs or the ability of our students, schools, or educational programs to participate in Title IV programs could have a material effect on our ability to realize our receivables.

Goodwill. We test our goodwill for impairment annually, or whenever events or changes in circumstances indicate an impairment may have occurred, by comparing its fair value to its carrying value. Impairment may result from, among other things, deterioration in the performance of the acquired business, adverse market conditions, adverse changes in applicable laws or regulations, including changes that restrict the activities of the acquired business, and a variety of other circumstances. If we determine that impairment has occurred, we are required to record a write-down of the carrying value and charge the impairment as an operating expense in the period the determination is made. In evaluating the recoverability of the carrying value of goodwill and other indefinite-lived intangible assets, we must make assumptions regarding estimated future cash flows and other factors to determine the fair value of the acquired assets. Changes in strategy or market conditions could significantly impact these judgments in the future and require an adjustment to the recorded balances.

Goodwill represents a significant portion of our total assets. As of September 30, 2011, goodwill represented approximately \$97.4 million, or 26.6%, of our total assets.

We test our goodwill for impairment using a two-step approach. The first step is conducted utilizing the multiple of earnings approach and comparing the carrying value of our reporting units to their implied fair value. If necessary, the second step is conducted utilizing a discounted cash flow approach and comparing the carrying value of our reporting units to their estimated fair value.

At December 31, 2010, we tested our goodwill for impairment and determined that an impairment of approximately \$6.2 million existed for three of our reporting units. No other reporting unit's carrying goodwill amount exceeded or approximated its implied value.

We concluded that the decrease in our market capitalization as of September 30, 2011 was a triggering event and accordingly we tested goodwill and indefinite lived intangibles for impairment. Our tests indicated that five of our reporting units were impaired which resulted in an expense of \$9.4 million in the third quarter of 2011. In addition, we also recorded an impairment charge of \$1.0 million in the third quarter of 2011 due to a regional accreditation indefinite intangible asset that is no longer being utilized.

Index

Bonus costs. We accrue the estimated cost of our bonus programs using current financial and statistical information as compared to targeted financial achievements and key performance objectives. Although our recorded liability for bonuses is based on our best estimate of the obligation, actual results could differ and require adjustment of the recorded balance.

Effect of Inflation

Inflation has not had a material effect on our operations.

Results of Operations

Certain reported amounts in our analysis have been rounded for presentation purposes.

The following table sets forth selected consolidated statements of operations data as a percentage of revenues for each of the periods indicated:

	Three Months Ended September 30,				Nine Months Ended September 30,			
	2011		2010		2011		2010	
Revenue	100.0	%	100.0	%	100.0	%	100.0	%
Costs and expenses:								
Educational services and facilities	46.5	%	37.9	%	43.1	%	38.2	%
Selling, general and administrative	49.2	%	42.8	%	48.5	%	44.8	%
Impairment of goodwill and other intangibles	8.4	%	0.0	%	2.6	%	0.0	%
Total costs and expenses	104.1	%	80.7	%	94.2	%	83.0	%
Operating (loss) income	-4.1	%	19.3	%	5.8	%	17.0	%
Interest expense, net	-0.9	%	-0.6	%	-0.8	%	-0.7	%
(Loss) income before income taxes	-5.0	%	18.7	%	5.0	%	16.3	%
(Benefit) provision for income taxes	-1.8	%	7.4	%	2.1	%	6.5	%
Net (loss) income	-3.2	%	11.3	%	2.9	%	9.8	%

Three Months Ended September 30, 2011 Compared to Three Months Ended September 30, 2010

Revenue. Revenue decreased by \$43.7 million, or 26.2%, to \$123.5 million for the quarter ended September 30, 2011 from \$167.2 million for the quarter ended September 30, 2010. This decrease was primarily attributable to a 28.9% decrease in average student population to 22,712 for the quarter ended September 30, 2011, from 31,952 for the quarter ended September 30, 2010.

The decrease in average student population was due to adjustments in our business model to be better aligned with the Department of Education's increased emphasis on student outcomes and our efforts to comply with the 90/10 rule and cohort default rates. As part of these measures we implemented a more selective student enrollment policy to ensure that we enroll students that demonstrate a strong ability to achieve successful student outcomes, including higher graduation rates, repayment rates and lower student debt levels. We also restructured certain programs and altered program offerings at some of our campuses which resulted in lower financial aid funding availability and higher student cash contributions. These changes, coupled with the current economic conditions, which we believe are resulting in an increase in the number of potential students who are hesitant to take on debt, have resulted in a significant decline in student starts at these campuses. We believe these changes will lead to improvement in our 90/10 ratios and cohort default rates and facilitate our compliance with the 90/10 rule.

Average revenue per student increased 3.9% for the quarter ended September 30, 2011 from the quarter ended September 30, 2010, primarily from tuition increases which ranged from 3% to 5% annually and from changes to some of our program offerings which shortened the delivery time of these programs and slightly accelerated revenue. For a general discussion of trends in our student enrollment, see "Seasonality and Trends" below.

Educational services and facilities expenses. Our educational services and facilities expenses decreased by \$5.9 million, or 9.3%, to \$57.4 million for the quarter ended September 30, 2011 from \$63.3 million for the quarter ended September 30, 2010. This decrease in educational services and facilities expenses was due to a \$3.9 million, or 11.9% decrease in instructional expenses, a \$3.1 million, or 28.5% and a decrease in books and tools expense, offset by a \$1.2 million, or 19.7%, increase in facilities expense primarily related to higher depreciation expense.

Index

The decrease in instructional expenses was primarily due to a reduction in the number of instructors at most of our campuses resulting from a lower student population. The decrease in books and tools expense was attributable to a reduction in average student population resulting from a decline in student starts of approximately 4,500 for the quarter ended September 30, 2011, compared to the quarter ended September 30, 2010, as well as the timing of class starts. Facilities expense increased from depreciation expense due to capital expenditures in 2010.

We strive to align our expenses throughout the year to our student population. As our population increases or decreases, we align our personnel and our expenses to the extent possible to meet the needs of our existing population.

As a result of the foregoing, educational services and facilities expenses, as a percentage of revenue, increased to 46.5% for the quarter ended September 30, 2011 from 37.9% for the quarter ended September 30, 2010.

Selling, general and administrative expenses. Our selling, general and administrative expenses for the quarter ended September 30, 2011 were \$60.7 million, a decrease of \$10.8 million, or 15.1%, from \$71.5 million for the quarter ended September 30, 2010. The decrease in our selling, general and administrative expenses was primarily due to a \$7.4 million, or 19.3%, decrease in administrative expenses and a \$3.0 million, or 11.3%, decrease in sales and marketing.

The decrease in administrative expenses was primarily due to a \$3.3 million reduction in bad debt expense and a \$4.5 million reduction in compensation and benefits. These reductions were partially offset by \$0.4 million of additional administration expenses at our three new campuses.

The decrease in sales and marketing expenses during the quarter ended September 30, 2011 was primarily due to a decrease in sales compensation and benefits expenses of \$2.1 million. In addition, we aligned our marketing expenses to meet the capacity of our reduced sales force which resulted in a reduction of \$0.6 million for the quarter.

We strive to align our expenses throughout the year to our student population. As our population increases or decreases, we align our personnel and our expenses to the extent possible to meet the needs of our existing population.

As a percentage of revenues, selling, general and administrative expenses for the quarter ended September 30, 2011 increased to 49.2% from 42.8% for the quarter ended September 30, 2010.

Our bad debt expense as a percentage of revenue was 7.8% for the quarter ended September 30, 2011, essentially flat as compared to 7.7% for the same period in 2010. The number of days revenue outstanding at September 30, 2011 decreased to 19.4 days, compared to 24.7 days at September 30, 2010. As of September 30, 2011, we had outstanding loan commitments to our students of \$26.7 million as compared to \$16.7 million at June 30, 2011. Loan commitments, net of interest that would be due on the loans through maturity, were \$20.9 million at September 30, 2011 as compared to \$14.4 million at June 30, 2011. The increase in loan commitment during the quarter is attributable to changes we made to certain programs to create financing gaps for our students to better enable us to comply with the 90/10 Rule.

Impairment of goodwill and long-lived assets. At September 30, 2011, we tested our goodwill and long-lived assets for impairment and determined that an impairment of approximately \$10.4 million existed for five reporting units. The impairment of goodwill was triggered by a decrease in our market capitalization. The impairment of long-lived assets was due to a regional accreditation indefinite intangible asset that is no longer being utilized.

Net interest expense. Our net interest expense for the quarter ended September 30, 2011 was \$1.1 million, essentially flat compared to the quarter ended September 30, 2010.

Income taxes. Our benefit for income taxes for the quarter ended September 30, 2011 was \$2.2 million, or 35.9% of pretax loss, compared to a provision for income taxes of \$12.4 million, or 39.7% of pretax income for the quarter ended September 30, 2010. The effective tax rate benefit decreased compared to the provision due to \$1.4 million of nondeductible goodwill impairment charges.

Nine Months Ended September 30, 2011 Compared to Nine Months Ended September 30, 2010

Revenue. Revenue decreased by \$75.4 million, or 16.0%, to \$397.1 million for the nine months ended September 30, 2011 from \$472.5 million for the nine months ended September 30, 2010. This decrease was primarily attributable to a 19.1% decrease in average student population to 25,291 for the nine months ended September 30, 2011, from 31,263 for the nine months ended September 30, 2010.

Index

The decrease in average student population was due to adjustments in our business model to be better aligned with the Department of Education's increased emphasis on student outcomes and our efforts to comply with the 90/10 rule and cohort default rates. As part of these measures we implemented a more selective student enrollment policy to ensure that we enroll students that demonstrate a strong ability to achieve successful student outcomes, including higher graduation rates, repayment rates and lower student debt levels. We also restructured certain programs and altered program offerings at some of our campuses which resulted in lower financial aid funding availability and higher student cash contributions. These changes, coupled with the current economic conditions, which we believe are resulting in an increase in the number of potential students who are hesitant to take on debt, have resulted in a significant decline in student starts at these campuses. We believe these changes will lead to improvement in our 90/10 ratios and cohort default rates and facilitate our compliance with the 90/10 rule.

Average revenue per student increased 3.9% for the nine months ended September 30, 2011 from the nine months ended September 30, 2010, primarily from tuition increases which ranged from 3% to 5% annually and from changes to some of our program offerings which shortened the delivery time of these programs and slightly accelerated revenue. For a general discussion of trends in our student enrollment, see "Seasonality and Trends" below.

Educational services and facilities expenses. Our educational services and facilities expenses decreased by \$9.2 million, or 5.1%, to \$171.1 million for the nine months ended September 30, 2011 from \$180.3 million for the nine months ended September 30, 2010. This decrease in educational services and facilities expenses was due to a \$7.6 million, or 29.3%, decrease in books and tools expense, a \$3.4 million, or 3.5%, decrease in instructional expenses and a \$0.4 million, or 1.0%, decrease in facilities expense offset by a \$2.1 million, or 11.6% increase in depreciation expense.

The decrease in books and tools expense was attributable to a reduction in average student population resulting from a reduction in student starts of approximately 12,100 for the nine months ended September 30, 2011, compared to the nine months ended September 30, 2010. The decrease in instructional expenses was primarily due to a reduction in the number of instructors at most of our campuses resulting from lower student population as well as lower classroom equipment and furniture expenses.

Facilities expense partially decreased as a result of rent savings in connection with two relocated campuses in 2010 partially offset by facility expenses at our new campuses. The increase in depreciation expense was due to higher capital expenditures during 2010.

We strive to align our expenses throughout the year to our student population. As our population increases or decreases, we align our personnel and our expenses to the extent possible to meet the needs of our existing population.

As a result of the foregoing, educational services and facilities expenses, as a percentage of revenue, increased to 43.1% for the nine months ended September 30, 2011 from 38.2% for the nine months ended September 30, 2010.

Selling, general and administrative expenses. Our selling, general and administrative expenses for the nine months ended September 30, 2011 were \$192.9 million, a decrease of \$18.6 million, or 8.8%, from \$211.5 million for the nine months ended September 30, 2010. This decrease in our selling, general and administrative expenses was primarily due to a \$13.3 million, or 11.7%, decrease in administrative expenses and a \$5.4 million, or 6.9%, decrease in sales and marketing.

The decrease in administrative expenses during the nine months ended September 30, 2011 was primarily due to a \$7.6 million reduction in bad debt expense and a \$7.3 million reduction in compensation and benefits, partially offset by \$1.2 million of additional administration expenses at our three new campuses.

The decrease in sales and marketing expenses during the nine months ended September 30, 2011 was primarily due to a decrease in sales compensation and benefits expenses of \$2.2 million. In addition, we aligned our marketing expenses to meet the capacity of our reduced sales force which resulted in a reduction of \$2.3 million for the nine months ended September 30, 2011.

Student services expenses was essentially flat for the nine months ended September 30, 2011 compared to the same period in 2010 due to higher student services expenses at our three new campuses offset by lower annual compensation costs.

We strive to align our expenses throughout the year to our student population. As our population increases or decreases, we align our personnel and our expenses to the extent possible to meet the needs of our existing population.

As a percentage of revenues, selling, general and administrative expenses for the nine months ended September 30, 2011 increased to 48.5% from 44.8% for the nine months ended September 30, 2010.

Our bad debt expense as a percentage of revenue was 6.0% for the nine months ended September 30, 2011 as compared to 6.6% for the same period in 2010. The reduction in bad debt as a percentage of revenue reflects our improved financial aid packaging process, which resulted in more timely processing of financial aid and greater cash collections. The number of days revenue outstanding at September 30, 2011 decreased to 17.9 days, compared to 25.9 days at September 30, 2010. As of September 30, 2011, we had outstanding loan commitments to our students of \$26.7 million as compared to \$17.3 million at December 31, 2010. Loan commitments, net of interest that would be due on the loans through maturity, were \$20.9 million at September 30, 2011 as compared to \$15.4 million at December 31, 2010. The increase in loan commitment during the quarter is attributable to changes we made to certain programs to create financing gaps for our students to better enable us to comply with the 90/10 Rule.

Index

Impairment of goodwill and long-lived assets. At September 30, 2011, we tested our goodwill and long-lived assets for impairment and determined that an impairment of approximately \$10.4 million existed for five reporting units. The impairment of goodwill was triggered by a decrease in our market capitalization. The impairment of long-lived assets was due to a regional accreditation indefinite intangible asset that is no longer being utilized.

Net interest expense. Our net interest expense for the nine months ended September 30, 2011 was \$3.3 million, essentially flat compared to the nine months ended September 30, 2010.

Income taxes. Our provision for income taxes for the nine months ended September 30, 2011 was \$8.2 million, or 41.8% of pretax income, compared to \$30.8 million, or 39.8% of pretax income for the nine months ended September 30, 2010. The effective tax rate increased due to \$1.4 million of nondeductible goodwill impairment charges for the nine months ended September 30, 2011.

Liquidity and Capital Resources

Our primary capital requirements are for facility maintenance and expansion, acquisitions and the development of new programs. Our principal sources of liquidity have been cash provided by operating activities and borrowings under our credit facility.

The following chart summarizes the principal elements of our cash flows (in thousands):

	Nine Months Ended September 30,	
	2011	2010
Net cash provided by operating activities	\$ 27,173	\$ 68,077
Net cash used in investing activities	\$ (30,121)	\$ (33,617)
Net cash used in financing activities	\$ (36,914)	\$ (66,106)

At September 30, 2011, we had cash and cash equivalents of \$26.1 million, representing a decrease of approximately \$39.9 million as compared to \$66.0 million as of December 31, 2010. This decrease is primarily due to the repayment of \$20.0 million of borrowings under our credit facility during the first quarter of 2011 as well as the payment of dividends amounting to \$16.9 million. Historically, we have financed our operating activities and organic growth primarily through cash generated from operations. We have financed acquisitions primarily through borrowings under our credit facility and cash generated from operations. We currently anticipate that we will be able to meet both our short-term cash needs, as well as our need to fund operations and meet our obligations beyond the next twelve months with cash generated by operations, existing cash balances and, if necessary, borrowings under our credit facility. In addition, we may also consider accessing the financial markets in the future as a source of liquidity for capital requirements, acquisitions and general corporate purposes to the extent such requirements are not satisfied by cash on hand, borrowings under our credit facility or operating cash flows. However, we cannot assure you that we will be able to raise additional capital on favorable terms, if at all. At September 30, 2011, we had net borrowings available under our \$115 million credit agreement of approximately \$114.5 million, including a \$24.5 million sub-limit on letters of credit. The credit agreement matures on December 1, 2012. As of September 30, 2011, we had no amounts outstanding under our credit agreement. As of September 30, 2011, we had outstanding letters of credit aggregating \$0.5 million which is primarily comprised of letters of credit for the DOE matters and security deposits in connection with certain of our real estate leases.

Our primary source of cash is tuition collected from our students. The majority of students enrolled at our schools rely on funds received under various government-sponsored student financial aid programs to pay a substantial portion of their tuition and other education-related expenses. The largest of these programs are Title IV Programs which represented approximately 83% of our cash receipts relating to revenues in 2010. Students must apply for a new loan for each academic period. Federal regulations dictate the timing of disbursements of funds under Title IV Programs and loan funds are generally provided by lenders in two disbursements for each academic year. The first disbursement is usually received approximately 31 days after the start of a student's academic year and the second disbursement is typically received at the beginning of the sixteenth week from the start of the student's academic year. Certain types of grants and other funding are not subject to a 30-day delay. Our programs range from 22 to 284 weeks. In certain instances, if a student withdraws from a program prior to a specified date, any paid but unearned tuition or prorated Title IV financial aid is refunded according to state and federal regulations.

As a result of the significance of the Title IV funds received by our students, we are highly dependent on these funds to operate our business. Any reduction in the level of Title IV funds that our students are eligible to receive or any impact on our ability to be able to receive Title IV funds would have a significant impact on our operations and our financial condition. See "Risk Factors" in Item 1A, included in our Annual Report on Form 10-K for the year ended December 31, 2010.

Index

Operating Activities

Net cash provided by operating activities was \$27.2 million for the nine months ended September 30, 2011 as compared to \$68.1 million for nine months ended September 30, 2010. The \$40.9 million decrease in net cash provided by operating activities primarily resulted from a reduction in net income of approximately \$35.2 million and other working capital items partially offset by an increase in prepaid tax payments of \$9.3 million during the nine months ended September 30, 2011 as compared to the nine months ended September 30, 2010.

Investing Activities

Net cash used in investing activities decreased by \$3.5 million to \$30.1 million for the nine months ended September 30, 2011 from \$33.6 million for the nine months ended September 30, 2010. The decrease was primarily attributable to a \$2.6 million reduction in cash used for capital expenditures for the nine months ended September 30, 2011 compared to the nine months ended September 30, 2010. Our 2011 capital expenditures mainly resulted from leasehold improvements, facility expansions and relocations as well as investments in campuses, classroom furniture and shop technology.

We currently lease a majority of our campuses. We own our campuses in Grand Prairie, Texas; West Palm Beach, Florida; Nashville, Tennessee; Cincinnati (Tri-County), Ohio; Suffield, Connecticut; and Denver, Colorado. Although our current growth strategy is to continue our organic growth, strategic acquisitions of operations will be considered. To the extent that these potential strategic acquisitions are large enough to require financing beyond available cash from operations and borrowings under our credit facilities, we may incur additional debt and/or issue additional debt or equity securities.

Capital expenditures are expected to range from 7% to 9% of revenues in 2011 and we expect to fund these capital expenditures with cash generated from operating activities and, if necessary, with borrowings under our credit facility.

Financing Activities

Net cash used in financing activities decreased by \$29.2 million to \$36.9 million for the nine months ended September 30, 2011, from \$66.1 million for the nine months ended September 30, 2010. This decrease was primarily attributable to our purchase of \$50.0 million of our common stock during 2010. This was partially offset by our payment of \$16.9 million of dividends during the nine months ended September 30, 2011 and a \$3.6 million reduction in proceeds from the exercise of stock options and tax benefit associated with share based awards during the nine months ended September 30, 2011 as compared to the same period in 2010.

On December 1, 2009, we, as borrower, and all of our wholly-owned subsidiaries, as guarantors, entered into a secured revolving credit facility with a syndicate of seven lenders led by Bank of America, N.A., as administrative agent, swing line lender and letter of credit issuer, for an aggregate principal amount of up to \$115 million.

Amounts borrowed as revolving loans under the credit facility will bear interest, at our option, at either (i) an interest rate based on LIBOR and adjusted for any reserve percentage obligations under Federal Reserve Bank regulations, or the "Euro Dollar Rate," for specified interest periods or (ii) the Base Rate (as defined in the credit agreement), in each case, plus an applicable margin rate as determined under the credit agreement. The "Base Rate," as defined under the credit agreement, is the highest of (a) the prime rate, (b) the Federal Funds rate plus 0.50% and (c) a daily rate equal to one-month of the Euro Dollar Rate plus 1.0%. Under the credit agreement, the margin interest rate is subject to adjustment within a range of 1.50% to 3.25% based upon changes in our consolidated leverage ratio and depending on whether we have chosen the Euro Dollar Rate or the Base Rate option. Swing line loans will bear interest at the Base Rate plus the applicable margin rate. Letters of credit will require a fee equal to the applicable margin rate multiplied

by the daily amount available to be drawn under each issued letter of credit plus a fronting fee of 0.125% of the amount available to be drawn and customary issuance, presentation, amendment and other processing fees associated with letters of credit. At September 30, 2011, we had outstanding letters of credit aggregating \$0.5 million which is primarily comprised of letters of credit for the DOE matters and security deposits in connection with certain of our real estate leases.

The credit agreement contains customary representations, warranties and covenants including consolidated adjusted net worth, consolidated leverage ratio, consolidated fixed charge coverage ratio, minimum financial responsibility composite score, cohort default rate and other financial covenants, certain restrictions on capital expenditures as well as affirmative and negative covenants and events of default customary for facilities of this type. In addition, we are paying fees to the lenders that are customary for facilities of this type.

Index

The following table sets forth our long-term debt (in thousands):

	September 30, 2011	December 31, 2010
Credit agreement	\$ -	\$ 20,000
Finance obligation	9,672	9,672
Capital lease-property (a rate of 8.0%)	26,837	26,986
Capital leases-equipment (rates ranging from 5.0% to 8.5%)	128	287
Subtotal	36,637	56,945
Less current maturities	(510)	(437)
Total long-term debt	\$ 36,127	\$ 56,508

We believe that our working capital, cash flows from operations, access to operating leases and borrowings available from our credit agreement will provide us with adequate resources for our ongoing operations through 2012 as well as our currently identified and planned capital expenditures.

Contractual Obligations

Long-term Debt. As of September 30, 2011, our long-term debt consisted of the finance obligation in connection with our sale-leaseback transaction in 2001 and amounts due under capital lease obligations.

Lease Commitments. We lease offices, educational facilities and equipment for varying periods through the year 2032 at base annual rentals (excluding taxes, insurance, and other expenses under certain leases).

The following table contains supplemental information regarding our total contractual obligations as of September 30, 2011 (in thousands):

	Total	Payments Due by Period			
		Less than 1 year	2-3 years	4-5 years	After 5 years
Capital leases (including interest)	\$ 55,820	\$ 2,649	\$ 5,004	\$ 5,004	\$ 43,163
Uncertain income taxes	100	100	-	-	-
Operating leases	171,342	23,497	43,691	36,663	67,491
Rent on finance obligation	7,683	1,463	2,927	2,927	366
Total contractual cash obligations	\$ 234,945	\$ 27,709	\$ 51,622	\$ 44,594	\$ 111,020

Off-Balance Sheet Arrangements

We had no off-balance sheet arrangements as of September 30, 2011, except for our letters of credit of \$0.5 million which are primarily comprised of letters of credit for the DOE and security deposits in connection with certain of our real estate leases. These off-balance sheet arrangements do not adversely impact our liquidity or capital resources.

Update Regarding Regulatory Matters

Our schools are subject to audits, program reviews, and site visits by various regulatory agencies, including the DOE, the DOE's Office of Inspector General, state education agencies, student loan guaranty agencies, the U.S. Department of Veterans Affairs and our accrediting commissions. In addition, each of our institutions must retain an independent certified public accountant to conduct an annual audit of the institution's administration of Title IV Program funds. The institution must submit the resulting audit report to the DOE for review.

On July 11, 2011, the DOE notified our Grand Prairie, Texas campus that an on-site Program Review was scheduled to begin on July 25, 2011. The Program Review assessed the institution's administration of the Title IV, HEA programs in which it participates for the 2010-2011 award year. The Program Review concluded on July 28, 2011. The DOE issued an Expedited Final Program Review Determination Letter dated August 31, 2011, that closed the Program Review without the need for additional information from the Grand Prairie, Texas campus. No monetary liabilities were asserted in the Expedited Final Program Review Determination Letter.

Index

On August 17, 2011, the DOE notified our Philadelphia, Pennsylvania (Center City) campus that an on-site Program Review was scheduled to begin on September 7, 2011. The Program Review assessed the administration of the Title IV, HEA programs in which the campus participates for the 2009-2010 and 2010-2011 award years. The Program Review concluded on September 9, 2011. The DOE issued a Program Review Report dated October 14, 2011. The report cited five areas of non-compliance. The DOE Program Review Report requires the school to revise its policies governing these areas of non-compliance and submit a copy of any changes in its response to the Program Review Report. There are no open liabilities.

On July 15, 2011, the Texas Workforce Commission (“TWC”) notified our Grand Prairie, Texas campus that TWC intended to place the campus on a conditional certificate effective July 30, 2011, because two of its educational programs did not meet the minimum rate of employment for the 2008-2009 and 2009-2010 reporting years. If the two programs did not meet the minimum rate of employment for the 2010-2011 reporting period, which is reported to TWC on December 1, 2011, TWC would revoke the approval of the programs and require the campus to cease new enrollments in the two programs and to teach-out the remaining students. On September 9, 2011, TWC notified our Grand Prairie, Texas campus that it would be rescinding the action described in TWC’s correspondence dated July 15, 2011 and was developing rules relating to corrective actions needed for programs failing to meet TWC’s minimum rate of employment.

Seasonality and Trends

Seasonality

Our revenue and operating results normally fluctuate as a result of seasonal variations in our business, principally due to changes in total student population. Student population varies as a result of new student enrollments, graduations and student attrition. Historically, our schools have had lower student populations in our first and second quarters and we have experienced larger class starts in the third and fourth quarters and student attrition in the first half of the year. Our second half growth is largely dependent on a successful high school recruiting season. We recruit our high school students several months ahead of their scheduled start dates, and thus, while we have visibility on the number of students who have expressed interest in attending our schools, we cannot predict with certainty the actual number of new student enrollments and the related impact on revenue. Our expenses, however, typically do not vary significantly over the course of the year with changes in our student population and revenue. During the first half of the year, we make significant investments in marketing, staff, programs and facilities to ensure that we meet our second half of the year targets and, as a result, such expenses do not fluctuate significantly on a quarterly basis. To the extent new student enrollments, and related revenue, in the second half of the year fall short of our estimates, our operating results could be negatively impacted. We expect quarterly fluctuations in operating results to continue as a result of seasonal enrollment patterns. Such patterns may change as a result of new school openings, new program introductions, and increased enrollments of adult students and/or acquisitions.

90/10 Rule

The Higher Education Opportunity Act, which we refer to as the HEA or the Act, enacted in 2008, states that a proprietary institution will be ineligible to participate in Title IV programs if for any two consecutive fiscal years it derives more than 90% of its cash basis revenue from Title IV programs. This is commonly known as the “90/10 Rule.”

We have calculated that, for our 2010 fiscal year, our institutions’ 90/10 Rule percentages ranged from 62.1% to 96.9%. Our Dayton institution (consisting of a main campus and six additional locations) had a 90/10 Rule percentage of 96.9% and was our only institution with a 90/10 Rule percentage above 90%. For 2009 and 2008, none of our institutions derived more than 90% of their revenues from Title IV Programs. We regularly monitor

compliance with this requirement to minimize the risk that any of our institutions would derive more than the maximum percentage of its revenues from Title IV Programs for any fiscal year.

Effective July 1, 2008, the annual Stafford loans available for undergraduate students under the Federal Family Education Loan Program, or FFEL, increased. This loan limit increase, coupled with increases in grants from the Pell program and other Title IV loan limits, will result in some of our schools experiencing an increase in the revenues they receive from the Title IV programs. The HEA reauthorization provided temporary relief from the impact of the loan limit increases by counting as non-Title IV revenue in the 90/10 Rule calculation amounts received from loans received between July 1, 2008 and June 30, 2011 that are attributable to the increased annual loan limits. The temporary relief under the HEA for calculating 90/10 Rule compliance expired for loans received on or after July 1, 2011 and is scheduled to expire for institutional loans made on or after July 1, 2012.

Index

The HEA authorization also provided other relief by allowing institutions to include as non-Title IV revenue in its 90/10 Rule calculation the net present value of certain institutional loans subject to certain limitations and conditions. During 2010 and continuing into the first half of 2011, we had seen a reduction in the loan commitments we offer our students to help them bridge the gap between the tuition charged for their particular program and the amount of grants, third-party loans and parental assistance each student receives. We believe that those reductions were due to increases in student loan limits available to students as well as an increase in Pell Grants. As a result, a greater percentage of students were able to finance their educations entirely from financial aid sources. While this provided greater opportunities for our students, it also severely impacted our ability to comply with the 90/10 Rule. Because of the increases in Title IV student loan limits and grants in recent years, it has and will continue to be difficult for us to comply with the 90/10 Rule. We have considered two alternatives to aid us with our compliance with the 90/10 Rule: increasing tuition prices above the applicable maximums for Title IV student loans and grants or restructuring certain of our programs financing gap. We decided to restructure program offerings. This resulted in increasing the financing gaps between tuition and the amount of financial aid available. To assist our students in closing their financing gaps we provided loans to our students. Loan commitments to our students increased during the third quarter of 2011 by approximately \$10 million. If any of our institutions loses eligibility to participate in Title IV programs, that loss would cause an event of default under our credit agreement, and would also adversely affect our students' access to various government-sponsored student financial aid programs, which could have a material adverse effect on the rate at which our students enroll in our programs and on our business and results of operations.

Cohort Default Rates

The Act limits participation in the Title IV Programs by institutions whose former students defaulted on the repayment of federally guaranteed or funded student loans above a prescribed rate ("cohort default rate"). The DOE calculates these rates based on the number of students who have defaulted, not the dollar amount of such defaults.

Under the Higher Education Act, an institution whose Federal Stafford Loan and Federal Direct Loan cohort default rate is 25% or greater for three consecutive federal fiscal years loses eligibility to participate in the Federal Stafford Loan, Federal Direct Loan, and Pell programs for the remainder of the federal fiscal year in which the DOE determines that such institution has lost its eligibility and for the two subsequent federal fiscal years. An institution whose Federal Stafford Loan and Federal Direct Loan cohort default rate for any single federal fiscal year exceeds 40% loses its eligibility to participate in the Federal Family Education Loan and Federal Direct Loan programs for the remainder of the federal fiscal year in which the DOE determines that such institution has lost its eligibility and for the two subsequent federal fiscal years. If an institution's cohort default rate equals or exceeds 25% in any of its three most recent fiscal years, the institution may be placed on provisional certification status.

The Act increased the measuring period for each cohort default rate calculation by one year. Starting with the 2009 cohort, the DOE will calculate both the current two-year and the new three-year cohort default rates. Beginning with the 2011 three-year cohort default rate, which is expected to be published for each of our institutions in September 2014, the three-year rates will be applied for purposes of measuring compliance with the requirements instead of the two-year rates currently used for those purposes. If the 2011 three-year cohort default rate exceeds 40%, the institution will cease to be eligible to participate in the Federal Direct Loan and Federal Stafford Loan programs for the remainder of the federal fiscal year in which the DOE determines that such institution has lost its eligibility and for the two subsequent federal fiscal years. If the institution's three-year cohort default rate exceeds 30% (an increase from the current 25% threshold applicable to the two-year cohort default rates) for three consecutive years, beginning with the 2009 cohort, the institution will cease to be eligible to participate in the Pell, Federal Direct Loan, and Federal Stafford Loan programs for the remainder of the federal fiscal year in which the DOE determines that such institution has lost its eligibility and for the two subsequent federal fiscal years.

On September 12, 2011, the DOE published final two-year cohort default rates for each of our institutions for the 2009 federal fiscal year, which rates range from 10.5% to 35.4%. As a result, five of our institutions had a cohort default rate (as defined by the DOE) of 25% or greater for the 2009 federal fiscal year. Our Philadelphia, PA, Grand Prairie, TX, Melrose Park, IL, Denver, CO and Somerville, MA institutions had cohort default rates over 25%. We have appealed our 2009 official rates. The cohort default rate for Grand Prairie at 35.29% would be the institution's second consecutive fiscal year cohort default rate of 25% or greater. None of the other four institutions with a rate of 25% or greater had a cohort default rate of 25% or greater for the 2008 fiscal year.

On February 4, 2011 the DOE released unofficial trial three-year cohort default rates for the 2008 federal fiscal year. These unofficial rates continue to be for informational purposes only and are calculated using the abovementioned methodology for calculating three-year cohort default rates. No benefits or sanctions apply to these trial rates. The rates for our institutions under the new methodology ranged from 10.6% to 37.0% for the 2006 federal fiscal year, from 16.2% to 42.2% for the 2007 federal fiscal year and from 19.3% to 47.5% for the 2008 federal fiscal year. In April 2011, the DOE released an announcement that it had miscalculated the unofficial trial three-year cohort default rates for the 2008 federal fiscal year and released corrected rates that range from 14.77% to 42.77%.

While we strive to improve the cohort default rates for each of our institutions, the current economic climate, combined with the demographics of the students that we traditionally serve, makes this objective even more challenging. As a result, we have significantly increased our default management personnel to help enhance the financial literacy of our students and graduates, with the goal of helping students stay current in their loan payments. We have also engaged third-party consultants to assist those institutions who have historically had the highest cohort default rates.

Index

Gainful Employment

On June 13, 2011, the DOE published final regulations in the Federal Register regarding gainful employment that take effect on July 1, 2012 and apply to all educational programs that are subject to the DOE requirement of preparing students for gainful employment in a recognized occupation. Such educational programs would include all of the Title IV-eligible educational programs at each of our institutions. The gainful employment regulations will, among other things, measure each educational program against threshold benchmarks in each of three debt measure categories: (1) an annual loan repayment rate, (2) an annual debt-to-annual earnings ratio, and (3) an annual debt-to-discretionary income ratio. The various formulas are calculated under complex methodologies and definitions outlined in the regulations, and are based on data that may not be readily accessible to institutions. If an educational program fails to achieve threshold rates in all three categories for one federal fiscal year (beginning with debt measures calculated for the 2012 federal fiscal year), the institution must, among other things, disclose the amount by which the program missed the minimum acceptable performance and the institution's plan to improve the program. If an educational program fails to achieve threshold rates in all three categories in two out of three federal fiscal years, the institution must, among other things, warn students in the failing program that they should expect difficulty in repaying their loans, disclose the options available to the student if the program loses eligibility for Title IV funds, and disclose resources available to research other educational options and compare program costs. If an educational program fails to achieve threshold rates in all three categories in three out of four federal fiscal years, the program loses its Title IV eligibility for a period of at least three years. We have analyzed the available data to assess the potential impact of the new gainful employment regulations on each of our institutions and educational programs. Although we have not identified to date any material number of educational programs that we believe are likely to lose eligibility under the new regulations' threshold benchmarks, if the data were to change unfavorably, the new regulations could nonetheless have a material adverse effect on our business and operations by requiring us to eliminate certain educational programs, and the new disclosure requirements and related components of the new regulations could have a material adverse effect on the rate at which students enroll in our programs.

ATB Students

We have reduced the number of "ability to benefit", or ATB, students, enrolled at our institutions by raising the mandatory minimum test scores for these students as well as requiring that all ATB students attend a multi-day orientation program prior to commencing their chosen academic program. ATB students are non-GED and non-high school graduates who are allowed to enroll in post-secondary institutions by passing a Department of Education approved exam. ATB students are traditionally a higher risk population who complete their programs at a lower rate and default on their student loans at a higher rate than non-ATB students. As of September 30, 2011, approximately 6% of our students were classified as ATB students.

While we are hopeful that these actions will lower the cohort default rates of our institutions as well as improve our outcomes (such as increased graduation and completion rates), the reduction in ATB students has and is expected to negatively impact our total enrollment.

Outlook

In addition to the 90/10 Rule, Cohort Default Rates, Gainful Employment and limits on the number of ATB students discussed above, changes to admissions advisor compensation policies, other changes promulgated by the DOE and the current economic slowdown have all led to deteriorating student enrollments since the second quarter of 2010. This has resulted in a decline in student starts for the first nine months of 2011 of 39.5% compared to the same period in 2010. We believe that the decline in student starts as compared to prior-year periods will improve but we cannot accurately predict to what degree. Our expectation is based on the fact that we opened three new campuses in 2011 and are expanding the program offerings at our relocated Denver campus, which we expect to contribute to starts as

well as more favorable year-over-year student start comparisons during this period.

For the first nine months of 2011, our actual results have not met our expectations and the rate of decline in student starts continues to be challenging. As we enter the fourth quarter of the year we still expect the rate of deceleration to improve but we have limited visibility and thus we cannot predict the number that will ultimately enroll. While we expect enrollments to improve, if they do not, our revenue could decline further, which could have a material adverse effect on our profitability.

In addition, these changes, individually or in the aggregate, may impact our student enrollment, persistence and retention in ways that we cannot now predict and could adversely affect our business, financial condition, results of operations and cash flows.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to certain market risks as part of our on-going business operations. We have a credit agreement with a syndicate of banks. Our obligations under the credit agreement are secured by a lien on substantially all of our assets and our subsidiaries and any assets that we or our subsidiaries may acquire in the future, including a pledge of substantially all of our subsidiaries' common stock. Outstanding borrowings bear interest at the rate of 4.75% (as calculated in the credit agreement) as of September 30, 2011. As of September 30, 2011, we had no outstanding borrowings under our credit agreement.

Our interest rate risk is associated with miscellaneous capital equipment leases, which is not significant.

Index

Item 4.CONTROLS AND PROCEDURES

(a) Evaluation of disclosure controls and procedures. Our Chief Executive Officer and Chief Financial Officer, after evaluating the effectiveness of our disclosure controls and procedures (as defined in Securities Exchange Act Rule 13a-15(e)) as of the end of the quarterly period covered by this report, have concluded that our disclosure controls and procedures are adequate and effective to reasonably ensure that material information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by Securities and Exchange Commissions' Rules and Forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

(b) Changes in Internal Control Over Financial Reporting. There were no changes made during our most recently completed fiscal quarter in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1.LEGAL PROCEEDINGS

In the ordinary conduct of our business, we are subject to periodic lawsuits, investigations and claims, including, but not limited to, claims involving students or graduates and routine employment matters. Although we cannot predict with certainty the ultimate resolution of lawsuits, investigations and claims asserted against us, we do not believe that any currently pending legal proceeding to which we are a party will have a material adverse effect on our business, financial condition, results of operations or cash flows.

We and several executive officers have been named as defendants in two purported securities class action lawsuits. The complaints, which were both filed in the U.S. District Court for the District of New Jersey, allege that we and the other defendants made false and misleading statements and failed to disclose material adverse facts about our business and prospects in violation of federal securities laws. The plaintiff seeks damages for the purported class. The complaints were filed on August 13, 2010 and September 19, 2010, and are respectively captioned, Donald J. and Mary S. Moreaux v. Lincoln Educational Services Corp., et al., and Robert Lyathaud v. Lincoln Educational Services Corp., et al. On November 24, 2010, the Court consolidated the two actions under the caption In re Lincoln Educational Services Corp. Securities Litigation and appointed a lead plaintiff. A consolidated amended complaint was filed on February 14, 2011. On April 15, 2011, defendants filed a motion to dismiss all of the claims asserted therein. On September 6, 2011, the Court entered an order granting defendants' motion to dismiss the consolidated amended complaint with prejudice. As of the date of this filing, plaintiffs have not filed a notice of appeal.

Certain of the Company's executive officers and directors have also been named as defendants in three purported shareholder derivative lawsuits. The first action, which was filed on December 21, 2010 in the U.S. District Court for the District of New Jersey, is captioned Mike Schweertmann v. David F. Carney, et al. The second, which was filed on February 14, 2011 in the Superior Court of New Jersey, Essex County, Chancery Division, is captioned Gregory and Karen Lehner v. Shaun E. McAlmont, et al. The third action, which was filed on March 11, 2011 in the U.S. District Court for the District of New Jersey, is captioned Steven C. Lloyd and Paul Stone v. David F. Carney, et al. All three complaints allege that defendants breached their fiduciary duties by allowing the Company to engage in certain allegedly improper practices and misrepresenting the Company's financial condition. On October 18, 2011, the parties to the Schweertmann action filed with the Court a stipulation of voluntary dismissal of the action without prejudice, which the Court ordered on October 24, 2011. On October 21, 2011, plaintiffs in the Lloyd action filed a notice of voluntary dismissal of the action without prejudice, which the Court ordered on October 26, 2011.

We believe the lawsuits are without merit and intend to vigorously defend against them.

On May 18, 2011, we received a subpoena duces tecum from the Attorney General of the State of New York relating to their investigation of whether we and certain of our academic institutions have complied with certain New York state consumer protection, securities and finance laws. Pursuant to the subpoena duces tecum, the Attorney General has requested from us and certain of our academic institutions documents and detailed information for the time period May 17, 2005 to the present.

Item 1A.RISK FACTORS

Changes in the laws applicable to Title IV Programs could reduce our student population, revenues and profit margin.

On April 15, 2011, President Obama signed H.R. 1473, the Full-Year Continuing Resolution which funds the federal government for the remainder of the 2011 fiscal year. This Continuing Resolution, among other things, permanently repeals the year-round Pell Grant beginning with the 2011-2012 award year. The year-round program had allowed students in accelerated programs to obtain two Pell Grants in a single award year. As a result of the repeal, students may obtain only one Pell Grant per award year. This change may impact our students' ability to finance their education and/or affect their decision to attend our institutions, which could have a material adverse effect on our business and results of operations.

The DOE may change its regulations in a manner which could require us to incur additional costs in connection with our administration of the Title IV programs, affect our ability to remain eligible to participate in the Title IV programs, impose restrictions on our participation in the Title IV programs, affect the rate at which students enroll in our programs, or otherwise have a material adverse effect on our business and results of operations.

The DOE published two Notices of Proposed Rulemaking in the Federal Register in June 2010 and July 2010 which proposed new regulations related to Title IV program integrity issues. The DOE issued final regulations on October 29, 2010 addressing each of these topics, except for regulations imposing additional eligibility requirements on educational programs subject to the DOE requirement of preparing students for gainful employment in a recognized occupation. The topics covered in the final regulations published on October 29, 2010, which have a general effective date of July 1, 2011, include, but are not limited to: revisions to the incentive compensation rule, significant expansion of the notice and approval requirements for adding new academic programs and new reporting and disclosure requirements for such programs, the definition of high school diploma for the purpose of establishing institutional eligibility to participate in the Title IV programs and student eligibility to receive Title IV aid, ability to benefit students, misrepresentation of information provided to students and prospective students, incentive compensation, state authorization as a component of institutional eligibility, agreements between institutions of higher education, verification of information included on student aid applications, satisfactory academic progress, monitoring grade point averages, retaking coursework, return of Title IV funds with respect to term-based programs with modules or compressed courses and with respect to taking attendance, and the timeliness and method of disbursements of Title IV funds. The topics covered in the October 2010 final regulations also include a new federal definition of a "credit hour" for federal student aid purposes, which new definition may result in changes to the number of credit hours awarded for certain of our educational programs and in changes to the amount of federal student aid available to students enrolled in such programs. The implementation of all of the October 2010 final regulations has required us to change our practices to comply with these requirements. The implementation of these regulatory changes could continue to have a material adverse effect on the rate at which students enroll in our programs and on our business and results of operations.

On June 13, 2011, the DOE published final regulations regarding gainful employment. The regulations take effect on July 1, 2012 and apply to all educational programs that are subject to the DOE requirement of preparing students for gainful employment in a recognized occupation, which will include all of the Title IV-eligible educational programs at each of our institutions. The gainful employment regulations will, among other things, measure each educational program against threshold benchmarks in each of three debt measure categories: (1) an annual loan repayment rate, (2) an annual debt-to-annual earnings ratio, and (3) an annual debt-to-discretionary income ratio. The various formulas are calculated under complex methodologies and definitions outlined in the regulations, and will be based on data that may not be readily accessible to institutions. If an educational program fails to achieve threshold rates in all three categories for one federal fiscal year (beginning with debt measures calculated for the 2012 federal fiscal year), the institution must, among other things, disclose the amount by which the program missed the minimum acceptable

performance and the institution's plan to improve the program. If an educational program fails to achieve threshold rates in all three categories in two out of three federal fiscal years, the institution must, among other things, warn students in the failing program that they should expect difficulty in repaying their loans, disclose the options available to the student if the program loses eligibility for Title IV funds, and disclose resources available to research other educational options and compare program costs. If an educational program fails to achieve threshold rates in all three categories in three out of four federal fiscal years, the program loses its Title IV eligibility for a period of at least three years. We have analyzed the available data to assess the potential impact of the new gainful employment regulations on each of our institutions and educational programs. Although we have not identified to date any material number of educational programs that we believe are likely to lose eligibility under the new regulations' threshold benchmarks, if the data were to change unfavorably, the new regulations could nonetheless have a material adverse effect on our business and operations by requiring us to eliminate certain educational programs, and the new disclosure requirements and related components of the new regulations could have a material adverse effect on the rate at which students enroll in our programs.

Item 6.EXHIBITS

EXHIBIT INDEX

The following exhibits are filed with or incorporated by reference into this Form 10-Q.

Exhibit Number	Description
3.1	Amended and Restated Certificate of Incorporation of the Company (1).
3.2	Amended and Restated By-laws of the Company (2).
4.1	Management Stockholders Agreement, dated as of January 1, 2002, by and among Lincoln Technical Institute, Inc., Back to School Acquisition, L.L.C. and the Stockholders and other holders of options under the Management Stock Option Plan listed therein (1).
4.2	Assumption Agreement and First Amendment to Management Stockholders Agreement, dated as of December 20, 2007, by and among Lincoln Educational Services Corporation, Lincoln Technical Institute, Inc., Back to School Acquisition, L.L.C. and the Management Investors parties therein (3).
4.3	Registration Rights Agreement, dated as of June 27, 2005, between the Company and Back to School Acquisition, L.L.C. (2).
4.4	Specimen Stock Certificate evidencing shares of common stock (1).
10.1	Credit Agreement, dated as of December 1, 2009, among the Company, the Guarantors from time to time parties thereto, the Lenders from time to time parties thereto and Bank of America, N.A., as Administrative Agent (6).
10.2	Consulting Agreement, dated December 9, 2010, between the Company and David F. Carney (9).
10.3	Employment Agreement, dated as of January 17, 2011, between the Company and Scott M. Shaw (10).
10.4	Employment Agreement, dated as of January 17, 2011, between the Company and Cesar Ribeiro (10).
10.5	Employment Agreement, dated as of January 17, 2011, between the Company and Shaun E. McAlmont (10).
<u>10.6*</u>	Employment Agreement, dated as of November 1, 2011, between the Company and Piper Jameson.
10.7	Lincoln Educational Services Corporation 2005 Long-Term Incentive Plan (1).
10.8	Lincoln Educational Services Corporation 2005 Non-Employee Directors Restricted Stock Plan (1).
10.9	Lincoln Educational Services Corporation 2005 Deferred Compensation Plan (1).
10.10	Lincoln Technical Institute Management Stock Option Plan, effective January 1, 2002 (1).
