PROXY STATEMENT

This Proxy Statement and the accompanying form of proxy are being furnished in connection with the solicitation by the Board of Directors of Columbus McKinnon Corporation, a New York corporation (“our Company”, “we” or “us”), of proxies to be voted at the Annual Meeting of Shareholders (the “Annual Meeting”) to be held at the Peninsula Chicago Hotel, 108 East Superior St. at N. Michigan Ave., Chicago, Illinois, on July 23, 2012, at 10:00 a.m., local time, and at any adjournment or adjournments thereof. This Proxy Statement and other proxy materials are first being sent or given to shareholders on or about June 12, 2012.

The close of business on June 1, 2012 has been fixed as the record date for the determination of shareholders entitled to receive notice of and to vote at the meeting. At the close of business on June 1, 2012, we had outstanding 19,400,526 shares of our common stock, \$.01 par value per share, the holders of which are entitled to one vote per share on each matter properly brought before the Annual Meeting.

The shares represented by all valid proxies in the enclosed form will be voted if received in time for the Annual Meeting in accordance with the specifications, if any, made on the proxy card. If no specification is made, the proxies will be voted (i) FOR the nominees for Director named in this Proxy Statement, (ii) FOR the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for fiscal year 2013 and (iii) FOR the approval of the compensation of our named executive officers as disclosed in the Compensation Discussion and Analysis, the compensation tables and the related disclosure as contained elsewhere in this Proxy Statement.

In order for business to be conducted, a quorum must be present at the Annual Meeting. A quorum is a majority of the outstanding shares of common stock entitled to vote at the Annual Meeting. Abstentions, broker non-votes and withheld votes will be counted in determining the existence of a quorum at the Annual Meeting.

Directors will be elected by a plurality of the votes cast at the Annual Meeting, meaning the nine nominees receiving the most votes will be elected. Votes cast FOR the nominees will count as “yes votes” and WITHHOLD votes will be excluded entirely from the vote and will have no effect. A majority of the votes cast is required to approve the selection of the Company’s auditors and the approval of a non-binding, advisory resolution regarding executive compensation. Votes may be cast FOR, AGAINST or ABSTAIN on the approval of these proposals. Abstentions are not counted in the number of votes cast and will have no effect on the results of the vote. Proxy cards that are executed and returned without any designated voting direction will be voted in the manner stated on the proxy card.

Recent changes in regulations have eliminated the ability of a shareholder's bank or broker to vote uninstructed shares in the election of directors and on executive compensation on a discretionary basis. Thus, if a shareholder holds shares in street name and does not instruct his, her or its bank or broker how to vote in the election of directors or the one advisory vote on executive compensation, no votes will be cast on such shareholder's behalf with respect to these matters. If a shareholder holds shares in his, her or its own name and does not vote, no votes will be cast on such shareholder's behalf on any of the items of business at the Annual Meeting.

The execution of a proxy will not affect a shareholder's right to attend the Annual Meeting and to vote in person. A shareholder who executes a proxy may revoke it at any time before it is exercised by giving written notice to the Secretary, by appearing at the Annual Meeting and so stating, or by submitting another duly executed proxy bearing a later date.

In the event our shareholders fail to ratify the appointment, the Audit Committee will reconsider this appointment. PROPOSAL 3

ADVISORY VOTE ON THE COMPENSATION
OF OUR NAMED EXECUTIVE OFFICERS

We are required pursuant to Section 14A of the Exchange Act to provide a non-binding stockholder vote on our executive compensation as described in this proxy statement (commonly referred to as "Say-on-Pay").

The advisory vote on executive compensation is a non-binding vote on the compensation of the Company's named executive officers, as described in the Compensation Discussion and Analysis section, the compensation tables, and the accompanying narrative disclosure, set forth in this proxy statement.

We maintain a compensation program that is comprehensive, consisting of base salary, annual incentives, long-term incentives and benefits, in support of our objective of providing superior value to shareholders and customers. Our program is designed to motivate and reward our executives for sustained superior performance through the use of variable compensation tied to short, intermediate and long-term results. Our business success depends on our ability to attract and retain executive talent through competitive compensation opportunities provided by our program.

For the reasons discussed above, the Board of Directors unanimously recommends that shareholders vote in favor of the following resolution:

“RESOLVED, that the shareholders hereby APPROVE, on a non-binding, advisory basis, the compensation paid to the Company’s named executive officers, as disclosed in the Company’s proxy statement prepared in connection with its 2012 Annual Meeting of Shareholders pursuant to the compensation disclosure rules of the Securities and Exchange Commission in the Company’s Proxy Statement for the 2012 Annual Meeting of Shareholders (which disclosure includes the Compensation Discussion and Analysis, the executive compensation tables and narrative discussion).”

THE BOARD OF DIRECTORS RECOMMENDS UNANIMOUSLY A VOTE “FOR” THE APPROVAL OF THE COMPANY’S COMPENSATION OF ITS NAMED EXECUTIVE OFFICERS.

CORPORATE GOVERNANCE

General Corporate Governance Policy

Our Board of Directors believes that its overriding responsibility is to offer guidance and the benefit of its collective experience to help our management understand the risks confronting, and opportunities available to, our Company. In furtherance of this responsibility, our Board of Directors has adopted a General Corporate Governance Policy setting forth certain policies, guidelines and procedures it deems important to the successful satisfaction of this responsibility. These policies and procedures include guidelines as to the eligibility, independence, evaluation, education, compensation and indemnification of our Directors, as well as with respect to specific transactions requiring the prior formal approval of our Board of Directors. A copy of our General Corporate Governance Policy is posted on the Investor Relations section of the Company's website at www.cmworks.com.

Board Leadership Structure

The roles of the Company's Chairman of the Board and Chief Executive Officer have been served by separate individuals since 1998. We believe this leadership structure supports our belief that it is the Chief Executive Officer's responsibility to manage the Company and the Chairman's responsibility to manage the Board. Since Mr. Verebelyi's election as our Chairman of the Board in August 2005, that position has been filled by an independent Director. As directors continue to have more oversight responsibilities than ever before, we believe it is beneficial to have an independent Chairman whose sole job is leading the Board.

We believe our Chief Executive Officer and Chairman of the Board have an excellent working relationship that has allowed Mr. Tevens to focus on the challenges that the Company is facing in the current business environment. By separating the roles of the Chairman of the Board and Chief Executive Officer positions, we ensure there is no duplication of effort between them. We believe this provides strong leadership for our Board of Directors, while also positioning our Chief Executive Officer as the leader of the Company in the eyes of our customers, employees and other stakeholders. As part of our annual Board of Directors self-evaluation process, we evaluate our leadership structure to ensure that it continues to provide the optimal structure for our Company and shareholders. We believe our current leadership structure is the optimal structure for our Company at this time.

Board Composition and Diversity

Our Corporate Governance and Nomination Committee is responsible for developing the general criteria, subject to approval by our Board of Directors, for use in identifying, evaluating and selecting qualified candidates for election or re-election to the Board. The Governance and Nomination Committee annually reviews the appropriate skills and characteristics required of Board members in the context of the current composition of the Board. The Corporate Governance and Nomination Committee, in recommending candidates for election or re-election to the Board, seeks to create a Board that is strong in its collective knowledge and has a diversity of skills and experience with respect to accounting and finance, management and leadership, vision and strategy, business operations, business judgment, industry knowledge, corporate governance and global markets. When the Corporate Governance and Nomination Committee reviews a potential new candidate, it looks specifically at the candidate's qualifications in light of the needs of the Board and the Company at that time, given the attributes of the existing Directors.

Although the Company has no policy regarding diversity, the charter of the Corporate Governance and Nomination Committee includes as a statement of responsibility that the Committee assures that the composition of the Board of Directors includes appropriate breadth, depth and diversity of experience and capabilities. In identifying candidates for Director, the Corporate Governance and Nomination Committee and the Board of Directors take into account (i) the comments and recommendations of Directors made in connection with the Board's annual self-evaluation regarding the qualifications and effectiveness of the existing Board of Directors or additional qualifications that may be required when selecting new board members, (ii) the requisite expertise and sufficiently diverse backgrounds of the Board of Directors' overall composition, (iii) the independence of outside Directors and other possible conflicts of interest of existing and potential members of the Board of Directors and (iv) all other factors it considers appropriate.

With respect to the nominees for re-election to the Board set forth in this proxy statement, the Corporate Governance and Nomination Committee and the Board of Directors focused primarily on the information discussed in each of the Directors' individual biographies set above. In particular, with regard to Mr. Verebelyi, the Board of Directors and the Corporate Governance and the Nomination Committee considered his strong background in the manufacturing sector, believing that his experience with large multinational manufacturing corporations is invaluable in evaluating the performance of management and other aspects of the Company. With regard to Mr. Fleming, strong consideration was given to his significant experience, expertise and background with regard to finance and accounting matters, including his role as chief financial officer of a global, publicly held corporation. With regard to Ms. Kushner, consideration was given to her significant financial operations experience in the areas of accounting, audit, financial planning and analysis, tax and treasury and her MBA with a concentration in corporate and international finance from Pennsylvania's Wharton School. The Corporate Governance and Nomination Committee and the Board of Directors also considered the broad perspective brought by the experience of Messrs. Pinchuk, Rabinowitz, McCarthy and Ragot as senior executives of manufacturing companies with extensive international operations, which is very valuable to the Company as it strives to increase its global presence. With regard to Ms. Goodspeed, her strong background in information technology was highly regarded, since the integration of the Company's technology platforms across its global enterprise is an important factor in the Company's growth strategy. The Corporate Governance and Nomination Committee and the Board of Directors also considered the nearly 20 years of experience with the Company represented by Mr. Tevens, our Chief Executive Officer.

Board of Directors Independence

Our Board of Directors has determined that each of its current members, other than Mr. Tevens, is independent within the meaning of the NASDAQ Stock Market, Inc. listing standards as currently in effect.

Board of Directors Meetings and Attendance

The Board of Directors and its committees meet regularly throughout the year and also hold special meetings and act by written consent from time to time as appropriate. All Directors are expected to attend each meeting of the Board of Directors and the committees on which he or she serves, and are also invited, but not required, to attend the Annual Meeting. Agendas for meetings of the Board of Directors generally include executive sessions for the independent Directors to meet without the management Director present. During the fiscal year ended March 31, 2012, our Board of Directors held six meetings. Each Director attended at least 75% of the aggregate number of meetings of our Board of Directors and meetings held by all committees of our Board of Directors on which he or she served. All Directors attended the 2011 Annual Meeting.

Risk Oversight

Our Board of Directors oversees an enterprise-wide approach to risk management, designed to support the achievement of organizational objectives, including strategic objectives, to improve long-term organizational performance and enhance shareholder value. A fundamental part of the Company's risk management is not only understanding the risks it faces and what steps management is taking to manage those risks, but also understanding what level of risk is appropriate for the Company. The involvement of

the full Board of Directors in setting the Company's business strategy is a key part of its assessment of management's appetite for risk and also a determination of what constitutes an appropriate level of risk for the Company.

While the Board of Directors has the ultimate oversight responsibility for the risk management process, various committees of the Board also have responsibility for risk management. In particular, the Audit Committee focuses on financial risk, including internal controls, and receives an annual risk assessment report from the Company's internal auditors. The Company's General Counsel and his staff assist the Board of Directors in fulfilling its oversight responsibility with respect to regulatory compliance and legal issues that affect the Company. In addition, in setting compensation, the Compensation Committee strives to create incentives that encourage a level of risk-taking behavior consistent with the Company's business strategy and goals.

Audit Committee

Our Board of Directors has a standing Audit Committee comprised of Mr. Fleming, as Chairman, and Messrs. Rabinowitz and McCarthy and Ms. Goodspeed and Kushner. Each member of our Audit Committee is independent as defined under Section 10A(m) of the Securities Exchange Act of 1934, as amended (the "Exchange Act") and section 3 of the Sarbanes-Oxley Act of 2002, and under the NASDAQ Stock Market, Inc. rules currently in effect. In addition, pursuant to the requirements of Section 407 of the Sarbanes-Oxley Act of 2002, our Board of Directors has determined that Mr. Fleming and Ms. Kushner qualify as an "Audit Committee financial expert." The duties of our Audit Committee consist of (i) appointing or replacing our independent auditors, (ii) pre-approving all auditing and permitted non-audit services provided to us by our independent auditors, (iii) reviewing with our independent auditors and our management the scope and results of our annual audited financial statements, our effectiveness of internal control over financial reporting, our quarterly financial statements and significant financial reporting issues and judgments made in connection with the preparation of our financial statements, (iv) reviewing our management's assessment of the effectiveness of our internal controls, (v) reviewing insider and affiliated party transactions and (vi) establishing procedures for the receipt, retention and treatment of complaints received by us regarding accounting or internal controls. The Audit Committee is governed by a written charter approved by the Board of Directors. A copy of this charter is posted on the Investor Relations section of our website at www.cmworks.com. Our Audit Committee held seven meetings in fiscal year 2012.

Compensation and Succession Committee

Our Compensation and Succession Committee consists of Mr. Rabinowitz, as Chairman, and Messrs. Fleming, Pinchuk, McCarthy and Ragot. Each Director who serves on the Compensation and Succession Committee is an independent Director under the NASDAQ Stock Market, Inc. rules currently in effect. The principal functions of this Committee are to (i) review and make recommendations to the Board of Directors concerning our compensation strategy, (ii) establish corporate performance measures and goals under our performance-based incentive programs, (iii) determine individual compensation targets for our executive officers under our incentive programs, (iv) evaluate and certify whether performance goals have been met at the end of the performance period, (v) determine salary increases and award amounts for individual executive officers, (vi) review and approve (or recommend to the Board of Directors for approval) any material changes to our salary, incentive, and benefit programs and assure that these programs are administered in a manner consistent with the compensation strategy, (vii) review and make recommendations to the Board of Directors concerning equity grants, (viii) assess and evaluate risk in connection with our compensation plans and programs and (ix) perform other functions as identified in the Compensation and Succession Committee charter. The Compensation and Succession Committee is governed by a written charter approved by the Board of Directors which is posted on the Investor Relations section of our website at www.cmworks.com. Our Compensation and Succession Committee held five meetings in fiscal year 2012. Additional information on the Compensation and Succession Committee's processes and procedures are addressed in the Compensation Discussion and Analysis below.

Corporate Governance and Nomination Committee

Our Corporate Governance and Nomination Committee is responsible for (i) evaluating the composition, organization and governance of our Board of Directors and its committees, (ii) monitoring compliance with our system of corporate governance and (iii) developing criteria, investigating and making recommendations with respect to candidates for membership on our Board of Directors. This Committee is chaired by Ms. Goodspeed and includes Ms. Kushner and Messrs. Pinchuk and Ragot. Each member of the Corporate Governance and Nomination Committee is an independent Director under the NASDAQ Stock Market, Inc. rules currently in effect. Our Corporate Governance and Nomination Committee does not solicit direct nominations from our shareholders, but will give due consideration to written recommendations for nominees from our shareholders for election as directors that are submitted in accordance with our By-Laws. See the information contained in our By-Laws under the heading "Shareholders' Proposals." Generally, a shareholder who wishes to nominate a candidate for Director must give us prior written notice thereof, which notice must be personally delivered or mailed via registered first class mail, return receipt requested, to our Secretary and must be received by our Secretary not less than 90 days nor more than 120 days prior to the one-year anniversary of the previous year's Annual Meeting. If such nomination is given in connection with a special meeting for the election of Directors, it must be received no earlier than the 120th day prior to such special meeting and not later than the close of business on the later of (i) the 90th day prior to such special meeting or (ii) the 10th day following the day on which the public announcement is first made of the date of the special meeting and of the nominees proposed by the Board to be elected at such meeting. The shareholder's recommendation for nomination must contain the following information as to each nominee for Director: the nominee's name, age, business address and residence address; the nominee's principal occupation or employment for the previous five years; the number of shares of our common stock owned by such candidate; and any other information relating to the nominee that is required to be disclosed in solicitations of proxies for elections of directors pursuant to our By-Laws and Regulation 14A under the Exchange Act. A shareholder's recommendation must also set forth: such shareholder's name and address as they appear on our books and records; the number of shares of each class of our capital stock that are beneficially owned and held of record by such shareholder; any material interest of such shareholder in such nomination; any other information that is required to be provided by such shareholder pursuant to our

By-Laws and Regulation 14A under the Exchange Act in his or her capacity as a proponent to a shareholder proposal; and a signed consent from each nominee recommended by such shareholder that such nominee is willing to serve as a Director if elected. Any nomination not made in strict accordance with the foregoing provisions will be disregarded at the direction of our Chairman of the Board. The Corporate Governance and Nomination Committee is governed by a written charter approved by the Board of Directors which is posted on the Investor Relations section of our website at www.cmworks.com. Our Corporate Governance and Nomination Committee held four meetings in fiscal 2012.

Code of Ethics

Our Board of Directors adopted a Code of Ethics which governs all of our Directors, officers and employees, including our Chief Executive Officer and other executive officers. This Code of Ethics is posted on the Corporate Governance section of the Company's website at www.cmworks.com. The Company will disclose on its website any amendment to this Code of Ethics or waiver of a provision of this Code of Ethics, including the name of any person to whom the waiver was granted.

Director Stock Ownership Guideline

Our General Corporate Governance Policy contains a guideline whereby all Directors are asked to beneficially own not less than 9,000 shares of our common stock within five years of becoming a Director, or by April 1, 2013, whichever occurs later. Any Restricted Stock Units granted to a Director pursuant to the Columbus McKinnon Corporation 2006 Long Term Incentive Plan (the "Omnibus Plan") or any successor plan are included in determining the number of shares owned by such Director for these purposes.

COMPENSATION DISCUSSION AND ANALYSIS

Overview

We are a leading worldwide designer, manufacturer and marketer of material handling products, systems and services, which efficiently and ergonomically move, lift, position and secure material. Key products include hoists, cranes, actuators and lifting and rigging tools. We are focused on commercial and industrial applications that require the safety and quality provided by our superior design and engineering know-how.

The successful execution of our business strategy depends on our ability to attract, motivate, reward, and retain executive talent with the skills to foster innovative product and service development and grow the business in developing markets with the greatest opportunity. Our executive compensation program is designed to support this strategy by:

attracting and retaining key executive talent by offering a competitive compensation program;
motivating executive actions that lead to sustained superior performance; and
aligning executive compensation with returns delivered to shareholders.

Overview of Fiscal Year 2012 Business Results and Performance-Based Compensation

For fiscal year 2012, with the economic recovery gaining momentum, our priorities were to increase sales and profits, while continuing our investments to grow our presence in developing markets along with new product introductions. Accordingly, our Annual Incentive Plan for fiscal 2012 was designed to focus on operating income and execution of our strategic initiatives. While results were significantly improved over the prior year, they were short of our aggressive plans, largely due to slower improvement in our Forging Operations. Accordingly, actual Annual Incentive Plan compensation earned by the Named Executive Officers (“NEOs”) for fiscal 2012 averaged approximately 86% of the target compensation opportunities established for each NEO at the start of the fiscal year.

In addition, our NEOs receive 40% of their long term incentive compensation in the form of performance restricted stock units which, based upon our relative total shareholder return, did not meet the required threshold level of performance for the three year period ending March 31, 2012, and thus no award was earned. As a result the performance restricted stock units originally granted on May 18, 2009 were forfeited.

Further details regarding fiscal year 2012 performance can be found in the “Components of Compensation” section.

Compensation Philosophy and Objectives

In making decisions with respect to compensation for our NEOs and other executives, the Compensation and Succession Committee of the Board of Directors (the “Compensation Committee”) is guided by the following objectives:

Our compensation program should be comprehensive, consisting of base salary, annual incentives, long term incentives and benefits, designed to support our objective of providing superior value to shareholders and customers;

Our compensation program should be designed to motivate and reward our executives for sustained superior performance through the use of variable compensation tied to short, intermediate and long term results; and

Our business success depends on our ability to attract and retain executive talent through competitive compensation opportunity.

The Compensation and Succession Committee's Role

Our compensation program is administered by the Compensation Committee.

The Compensation Committee establishes performance objectives for the Chief Executive Officer ("CEO") based on our annual business plan and long term strategic goals approved by the Board of Directors. Progress against these goals is monitored by the Compensation Committee on a quarterly basis. The Compensation Committee evaluates the CEO's performance against these goals annually, with input to the evaluation from all independent Directors. The Compensation Committee also considers market data validated by our independent consultant, comparisons of our performance to our peers, strategic achievements during the year, such as acquisitions and their integration into our business, and value-creating divestitures. Based on these factors, the Compensation Committee makes recommendations concerning base salary increases, annual incentive award targets and payments under the Annual Incentive Plan and targets and awards under our long term incentive program. The Compensation Committee has regularly-scheduled executive sessions to discuss CEO performance and compensation and other matters without any executive officers present. All aspects of the CEO's compensation are approved by our full Board of Directors upon recommendations made by the Compensation Committee, which is comprised totally of independent Directors.

Except for the CEO and CFO, the Compensation Committee reviews and approves base salary increases, Annual Incentive Plan targets and awards, long term incentive program targets and awards and similar arrangements for the other NEOs in the Summary Compensation Table below after receiving recommendations from our CEO with input from the Vice President - Human Resources and our independent consultant. The Compensation Committee makes the final decision and approves compensation decisions for all NEOs, as well as all other executive officers, except for the CEO and CFO. All aspects of the CEO's and CFO's compensation are finally approved by our full Board of Directors.

The Compensation Committee's composition is described in more detail in this proxy statement under the section above entitled "Corporate Governance - Compensation and Succession Committee."

Compensation Committee Advisors

The Compensation Committee has the authority under its charter to engage the services of outside consultants, to determine the scope of the consultants' services, and to terminate such consultants' engagement. In fiscal year 2012, the Compensation Committee continued its engagement of Exequity, LLP ("Exequity"), an independent compensation consulting firm, to advise the Compensation Committee on certain matters related to executive compensation including:

- a competitive compensation review of the CEO and other executive officer positions; and
 - executive compensation trend data, including plan design.

In fiscal year 2012, Exequity reviewed market data based upon the Company's target labor market for executive talent, presented market trends, proposed compensation and consulted on compliance issues. Additionally, Exequity attended in person or by conference telephone all Compensation Committee meetings.

Management's Role in the Compensation-Setting Process

Our management is involved in the following executive compensation processes:

- The Vice President-Human Resources ("VP HR") develops and oversees the creation of background and supporting materials for distribution to the Compensation Committee prior to its meetings;
 - The CEO, VP HR and Corporate Secretary attend all Compensation Committee meetings;
- The CEO, VP HR and Director, Compensation and Benefits annually present and make recommendations to the Compensation Committee relating to annual incentives and long term incentive plan designs and changes, if warranted;
- The CEO recommends to the Compensation Committee base salary, target annual incentive and target long term incentive adjustments for all executives, excluding the CEO;
- The VP HR receives executive session decisions, actions and underlying rationale for implementation, as appropriate, following the Committee's executive sessions; and
- The VP HR regularly consults with and briefs the Compensation Committee chairman between scheduled Compensation Committee meetings.

Executive Compensation Policies and Practices

Our Target Labor Market

In administering the compensation program, the Compensation Committee relies on market information provided periodically by its independent consultant. For evaluating compensation, the Compensation Committee reviews compensation data for industrial companies of comparable size, which reflect the types of companies with which we compete for talent. Here, we use a broader industrial market reference because the number of direct product and service market competitors is limited. Many of the companies that provide similar products and services are either privately held, headquartered overseas, or part of a larger enterprise; therefore, executive compensation data may be either unavailable or of limited applicability to the U.S. labor market in which we principally compete.

Historically, we have used a peer group for evaluating compensation. The peer group incorporates companies that we consider to be primary competitors for talent and capital. The peers consist of industrial companies of comparable size to us (generally one-half to twice our size in terms of revenue), which typically have significant employee populations in manufacturing, product engineering and sales. In selecting the peers, the Compensation Committee excluded some companies that fit the above description but had low relative corporate governance ratings. The compensation peer group for fiscal year 2012 consisted of the following 28 companies:

Actuant Corp.	IDEX Corp.
Alamo Group Inc.	Kadant, Inc.
Altra Holdings Corp.	Kaydon Corp.
Barnes Group Inc.	Lydall, Inc.
Blount International	Miller Industries
Cascade	Nordson Corp.
Circor International	Robbins & Myers
Clarcor Inc.	Tennant Co.
Colfax Corp.	Titan International, Inc.
Enpro Industries, Inc.	Twin Disc, Inc.
Esco Technologies, Inc.	Valmont Industries, Inc.
Federal Signal Corp.	Wabash National Corp.
Gardner Denver Inc.	Watts Water Technologies, Inc.
Graco, Inc.	Xerium Technologies, Inc.

In addition, we also consider data from compensation surveys published by leading compensation consulting and advisory firms including Mercer Benchmark Survey – Executive. The survey analysis targets companies of comparable size in the durable goods manufacturing sector, supplemented with general industry data as needed.

The analysis of both the peer group and published surveys includes base salary, annual bonus, long term compensation and total compensation.

Our Target Pay Mix

The total compensation package for our executive officers consists of base salary, annual incentives, long term incentives and benefits. In determining both the target level of compensation and mix of compensation elements, we consider market practice, business objectives, expectations of our shareholders, and our own subjective assessment of individual executives' performance, growth and future potential.

We have chosen a target mix of base salary, annual incentives and long term incentives that generally reflects our peer industrial companies, with actual pay mix based on the performance of our Company and of the individual. Peer company practices will continue to be monitored as one reference point as we make decisions regarding target pay mix. However, we will also continue to make strategic decisions based on our unique business objectives and circumstances, which may differ from peer company practices and circumstances.

We believe the current target pay mix achieves several important objectives: it supports a strong pay-for-performance culture; it balances the focus on annual and long-term objectives in support of our business strategy; it satisfies the need for flexibility to motivate and reward exceptional performance; and it maximizes tax deductibility of compensation.

The following table shows the dollar values and pay mix percentages of our fiscal year 2012 target direct pay opportunities for our NEOs:

Executive Officer	Base Salary	Annual Incentive Target Opportunity	Total Cash Compensation Opportunity	Long-Term Incentive Target Opportunity	Total Target Pay Opportunity

Factors Considered in Making Compensation Decisions

Actual compensation levels are a function of Company and individual performance as described under each specific compensation element below. When making pay decisions, the Compensation Committee considers the competitiveness of individual elements of compensation, as well as the aggregate sum of base salary, annual incentives and the expected value of long term incentives (determined at grant) for an executive officer. Awards are generally prorated if an NEO is promoted during the year, based on the timing of the promotion. The Compensation Committee may also consider salary increase history, past bonus awards and past equity awards as context in understanding year-to-year changes in compensation and retention effect of prior awards. Under the Annual Incentive Plan and Performance RSU grant, initial awards are determined based upon target values established for each of the NEOs and then adjusted upon comparison of actual performance to pre-established criteria. The Compensation Committee retains the discretion to decrease the size of individual awards in situations where an executive officer's individual performance falls below expectations. Final decisions on any major element of compensation, as well as total compensation for executive officers, are made by the Compensation Committee or the Board of Directors. Our Compensation Committee is comprised entirely of non-employee Directors and our CEO does not participate in discussions related to his compensation when presented to the Board of Directors.

The compensation program is generally applied consistently to NEOs. Exceptions related to CEO compensation are noted throughout this report.

The Compensation Committee's Position on Compensation and Excessive Risk

In establishing the structure and levels of executive compensation, the Compensation Committee has been mindful of the potential for risk taking by management to achieve certain target or above target incentives. The Compensation Committee has sought to balance fixed and variable compensation, short-term and long term compensation, the performance metrics used in determining incentive compensation and the level of in-service and post-retirement benefits to mitigate against unnecessary or excessive risk taking. Additionally, the Company has adopted policies and programs which encourage management not to take excessive risks including:

- A minimum Earnings Before Interest and Taxes (EBIT) trigger, which must be satisfied before any payouts can be made under the Annual Incentive Plan;
- Stock Ownership guidelines for all officers; and
- A comprehensive Clawback Policy.

Components of Compensation

Base Salary

Base salary provides a fixed amount of compensation appropriate to attract and retain key executives and to underpin the cyclical nature of our business that can cause fluctuations in variable compensation from year to year. The Compensation Committee reviews base salaries on an annual basis, recommends adjustments to the CEO's and CFO's salaries to the Board of Directors, and approves adjustments for other NEOs. Salary adjustments are based on an assessment of the individual executive's performance and our goal of achieving market parity with the salaries of executives in the competitive market, recognition of promotion or other increases in responsibility, the scope of the executive's role relative to our other executives, and the general economic environment impacting the Company. History of salary increases may also be reviewed and considered. Mid-year adjustments are considered when there is a significant change in the executive's role or responsibility.

The Compensation Committee has recommended that any adjustments to salary for an executive officer will depend upon a formal annual review of job performance, accomplishments and progress toward individual and/or overall goals and objectives for each segment of our business that such executive officer oversees, as well as his or her contributions to our overall direction. Long term growth in shareholder value is an important factor. The results of executive officers' performance evaluations, as well as their demonstration and support of the Company's values, including strong ethics, leadership style, and sound corporate governance, form a part of the basis of the Compensation Committee's decision to approve, at its discretion, or recommend to the Board for the CEO and CFO, future adjustments in base salaries of our executive officers.

The Committee approved the following base salary adjustments effective April 1, 2011 for our NEOs:

Executive Officer	Base Salary	FY 2012 Base Salary Adjustments	FY 2012 Base Salary	Percentage Increase	
Timothy T. Tevens, President and CEO	\$605,000	\$ 30,000	\$635,000	5.0	%
Gene P. Buer, Vice President – Americas	\$230,000	\$ 20,000	\$250,000	8.7	%
Ivo Celi, Vice President - EMEA	\$246,869	\$ 13,466	\$260,335	5.5	%
Charles R. Giesige, Vice President - Corporate Development	\$222,000	\$ 0	\$222,000	0.0	%
Karen L. Howard, Vice President – Strategic Initiatives	\$288,100	\$ 5,900	\$294,000	2.0	%
Gregory P. Rustowicz, Vice President Finance and Chief Financial			\$275,000 (1)		

Officer

(1) Mr. Rustowicz was hired on August 8, 2011 with a base salary of \$275,000.

Annual Incentive Plan

The purpose of the Annual Incentive Plan is to attract, motivate, reward, and retain highly qualified executives on a competitive basis and provide financial incentives that promote Company success.

At the beginning of each fiscal year, our Compensation Committee recommends, and our Board approves, the key measures or “Drivers” for the Annual Incentive Plan. The Annual Incentive Plan focuses on the short-term goals that are most important to our success over the fiscal year and that are generally within the control of the participants. It is the policy and ongoing intention of our Board of Directors to establish targeted performance levels for each Driver at the beginning of the fiscal year or the start of the respective performance period. Targeted performance levels are generally set for our Company as a whole, but may also encompass individual business units, groups, divisions, or individual performance levels, as appropriate. Drivers and targeted performance levels are based on the Board of Directors’ assessment of our priorities, outlook, current and projected economic conditions and other pertinent factors, and are intended to be challenging, but achievable with significant and effective effort. The Board of Directors reviews audited year-end results to determine whether targeted performance levels have been met. The Board of Directors retains discretion to cap, reduce, or eliminate payments under the Annual Incentive Plan.

The Board of Directors also determines the weighting to be assigned to each Driver. For most Drivers, goals are set at threshold, target, and maximum levels. Payouts for these Drivers are determined by multiplying the appropriate weighting by the percentages outlined in the table below; linear interpolation is used to determine percentages when performance falls between levels. The aggregate payout to any NEO may not exceed 300% of target.

	Percentage of Target (to be multiplied by weight for each Driver)	
Driver Performance Level		
Maximum Performance Level (or higher)	300	%
Target Performance Level	100	%
Threshold Performance Level	50	%
Below Threshold Performance Level	0	%

Fiscal Year 2012 Annual Incentive Plan Design

The Annual Incentive Plan (AIP) for fiscal year 2012 was designed to help us focus on increasing profitability while managing our strategic priorities to position the Company for longer term profitable growth. For fiscal 2012, seventy percent of our NEOs' target was based upon EBIT at either the Consolidated or respective Business Unit level and the remaining thirty percent of our NEOs' target was based upon strategic measures which were established for each NEO separately. Drivers and associated weightings for fiscal year 2012, which were established by the Board of Directors for each executive officer, are shown below. Our CEO has the ability to assign an individual performance factor to each of the individual NEOs, other than CEO, of up to 25% up or down based upon his evaluation of their individual performance. Lastly no AIP will be earned unless Consolidated EBIT is positive.

EBIT Measures and Weights – 70% of Plan

Fiscal 2012 Drivers (April 1, 2011 to March 31, 2012)	Timothy T. Tevens	Gene P. Buer	Ivo Celi	Charles R. Giesige	Karen L. Howard	Gregory P. Rustowicz
Consolidated EBIT	70 %	30 %	30 %	70 %	70 %	70 % ⁽¹⁾
America's EBIT	N/A	40 %	N/A	N/A	N/A	N/A
EMEA EBIT	N/A	N/A	40 %	N/A	N/A	N/A

(1) Mr. Rustowicz became the Vice President and CFO effective August 8, 2011. Mr. Rustowicz's EBIT measures were prorated accordingly for fiscal year 2012.

Strategic Measures and Weights – 30% of Plan

Mr. Tevens' strategic measures included strategic revenue growth (market share, new products, market penetration, net of product rationalization and currency). Mr. Buer's strategic measures were based upon the Americas strategic plan which included increasing operating results for the Chattanooga business and were measured by the cost and savings achieved as well as other operational excellence measures. Mr. Celi's strategic measures were based upon the Europe, Middle East and Africa region and were measured by strategy implementation as well as other operational excellence measures including implementing a new distribution model. Mr. Giesige's strategic measures were based upon the global corporate development plan in FY12 and assisting with leading the strategic planning process. Ms. Howard's strategic measures were based upon leading due diligence efforts, improved efficiency, including enhanced use of the Lean program and global accounting policies and procedures. Mr. Rustowicz's strategic measures included the completion of all BPM system integration activities, implementation of Lean initiatives, review of global accounting policies and procedures along with other strategic efforts.

Results

The fiscal year 2012 EBIT targets, performance achieved as a percent of target, and the fiscal year 2012 payout percentages under each Driver are shown below.

Fiscal 2012 Drivers (April 1, 2011 – March 31, 2012)	Fiscal 2012 Annual Incentive Plan - EBIT Targets and Performance (Dollars in Millions)			Fiscal 2012 Performance % of Target
	Threshold	Target	Maximum	
Consolidated EBIT ⁽¹⁾	\$ 32.5	\$ 48.1	\$ 122.8	92.3 %
Americas' EBIT	\$ 44.1	\$ 58.8	\$ 117.6	73.1 %
EMEA EBIT	\$ 13.8	\$ 18.4	\$ 36.8	101.4 %

(1) Fiscal year 2012 EBIT was adjusted to eliminate the impact foreign exchange, of certain reserve adjustments related to product liability claims from prior fiscal years and certain other one time items.

Mr. Tevens evaluated the performance of each of the other NEOs based upon their performance against their strategic measures and their individual performance factors. Thus, the final AIP award was determined as the sum of the EBIT outcome, the strategic measures outcome and the individual performance factor adjustments. Ms. Howard met some expectations for her strategic and individual goals and Mr. Tevens recommended a score of 50.3%. Mr. Buer met some expectations for his strategic and individual goals and Mr. Tevens recommended a score of 39.4%. Mr. Giesige met expectations for his strategic and individual goals and Mr. Tevens recommended a score of 100%. Mr. Celi met most expectations for his strategic and individual goals and Mr. Tevens recommended a score of 75.1%. Mr. Rustowicz met expectations for his strategic and individual goals and Mr. Tevens recommended a score of 100%. The Board reviewed and approved each of these scores, and they approved a score of 81% for Mr. Tevens, which was based upon strategic measures noted above. The Board elected not to adjust Mr. Tevens' result for individual performance.

Annual incentive targets, strategic goals, and individual factors and the percentage of base salary awarded for fiscal year 2012 are shown below:

Executive Officer	Annual Incentive Target (% of Base Salary)		Actual Payout Based on Performance Achieved (% of Target Award)		Actual Payout Based on Performance Achieved (% of Base Salary)	
Timothy T. Tevens, President and CEO	80	%	89	%	71	%
Gene P. Buer, Vice President – Americas	50	%	69	%	34	%
Ivo Celi, Vice President - EMEA	50	%	91	%	45	%
Charles R. Giesige, Vice President - Corporate Development	45	%	95	%	43	%
Karen L. Howard, Vice President – Strategic Initiatives	45	%	80	%	37	%
Gregory P. Rustowicz, Vice President Finance and Chief Financial Officer	50	%	94	%	31	% (1)

(1) Mr. Rustowicz' AIP award was prorated for his August start date, without prorating he would have received 47% of base salary.

Long-Term Incentives

The objectives of our long term incentive program are to:

- link executive compensation and our long term performance;
- better align key employees with our business strategies and with our shareholders' interests; and
- provide opportunity for long term compensation that is competitive with peer companies and sufficient to attract and retain executive talent to effectively manage our business objectives.

In developing target levels for long term incentive compensation for NEOs in conjunction with our current equity-based compensation strategy, the following factors were considered:

- a competitive analysis;
- the impact of the NEOs' roles within our Company; and
- the cost and share usage associated with the proposed plan.

Target long term incentives (as a percentage of salary) are as follows:

Executive Officer	Long Term Incentive Target (% of Base Salary)	
Timothy T. Tevens, President and CEO	175	%
Gene P. Buer, Vice President – Americas	90	%
Ivo Celi, Vice President - EMEA	90	%
Charles R. Giesige, Vice President - Corporate Development	90	%
Karen L. Howard, Vice President – Strategic Initiatives	50	%
Gregory P. Rustowicz, Vice President Finance and Chief Financial Officer	90	%

The target long term incentive mix for our NEOs consists of non-qualified stock options (30% of target value), restricted stock or RSUs (30% of target value), and performance RSUs (40% of target value). Dollar values are converted to share numbers based on an estimate of expected value at initial grant.

The following tables summarize the equity granted as part of the NEOs' annual compensation for fiscal year 2012.

Executive Officer	Target Number of Performance RSU's Subject to Three Year Total Shareholder Return Performance (1)	Options Granted	RSU's Granted
Timothy T. Tevens, President and CEO	22,530	31,902	16,897
Gene P. Buer, Vice President – Americas	4,562	6,460	3,422
Ivo Celi, Vice President - EMEA	4,512	6,389	3,384
Charles R. Giesige, Vice President – Corporate Development	4,051	5,736	3,039
Karen L. Howard, Vice President – Strategic Initiatives	5,365	7,597	4,024
Gregory P. Rustowicz, Vice President Finance and Chief Financial Officer		6,000	(2) 6,000 (2)

(1) Grant represents target value for fiscal year 2012 and was granted on May 23, 2011.

(2) Mr. Rustowicz's was granted 6,000 restricted stock units and 6,000 non-qualified stock options on October 24, 2011 as promised in his offer letter to join our Company. Both the restricted stock unit and stock options vest 1/3rd on the 3rd, 4th and 5th anniversary of the grant date.

Stock Options and RSUs

Stock options are included to align management and shareholder interest by encouraging decisions and actions that result in long term stock appreciation and ownership interest for management. In order to support retention and align executives with our stock performance over a longer horizon, grants generally vest 25% per year commencing on the first anniversary of the grant date and remain exercisable for 10 years from the date of grant.

RSUs are designed to support executive retention and share ownership. In order to support retention and align executives with our stock performance over a longer horizon, RSUs vest 25% annually over the 1st through 4th anniversary from the grant date of awards.

Performance Restricted Stock Units

Grants of performance RSUs are made annually, with vesting dependent upon performance achieved during a three-year performance period. Actual vesting of the awards and their ultimate value will be determined by relative three-year total shareholder return. Total shareholder return is based on annualized rates of return reflecting stock price appreciation plus reinvestment of dividends, if applicable. Performance will be assessed against the same set of peer companies as is used for compensation evaluation. The peer companies consist of companies that are of comparable size to us (generally one-half to twice our size in terms of revenue) and that we consider to be primary competitors for talent, capital, and/or customers:

Actuant Corp.	Ilex, Corp.
Alamo Group Inc.	Kadant, Inc.
Altra Holdings Corp.	Kaydon Corp.
Barnes Group Inc.	Lydall, Inc.
Blount International	Miller Industries
Cascade	Nordson Corp.
Circor International	Robbins & Myers
Clarcor Inc.	Tennant Co.
Colfax Corp.	Titan International, Inc.
Enpro Industries, Inc.	Twin Disc, Inc.
Esco Technologies, Inc.	Valmont Industries, Inc.
Federal Signal Corp.	Wabash National Corp.
Gardner Denver Inc.	Watts Water Technologies, Inc.
Graco, Inc.	Xerium Technologies, Inc.

For fiscal year 2012, performance shares are subject to adjustment based on the performance and payout relationship as illustrated in the table below:

Relative Total Shareholder Return Performance	Payout (% of Target)	
Below 25th Percentile	0	%
25th Percentile	25	%
Median	100	%
75th Percentile and above	150	%

Linear interpolation will be used to establish payout levels between Threshold, Target and/or Maximum results.

The long term incentive strategy is designed to support our business strategy and the interests of our shareholders. Where possible, the program has been designed such that long term incentives can qualify as performance-based compensation so that the expense associated with the program is fully deductible for federal income tax purposes. Stock options and performance RSUs are expected to qualify as performance-based compensation.

Stock Option Granting Practices

The exercise price for any stock option is equal to the fair market value on the date of grant, which is an average of the opening and closing price on the date of grant. The date of grant is the date of the Board of Directors meeting at which the award is approved.

Retirement and Deferred Compensation

Retirement benefits provided to NEOs are the same as those provided to our other full-time, salaried domestic employees. Retirement programs are designed to provide a competitive benefit to employees while allowing the Company to manage costs.

The Columbus McKinnon Corporation Monthly Retirement Benefit Plan, a defined benefit pension plan (the "Pension Plan"), provides an annual benefit at age 65 equal to the product of (i) 1% of the participant's final average earnings (which is generally equal to the higher of (a) the average 12-consecutive month earnings during the last consecutive 60 months prior to retirement or (b) the average 12-consecutive month earnings during any 60-consecutive month period within the last 120 months prior to retirement) plus 0.5% of that part, if any, of final average earnings in excess of social security covered compensation, multiplied by (ii) such participant's years of credited service, limited to 35 years.

We also maintain a 401(k) retirement savings plan covering non-union domestic employees. Highly compensated employees were eligible to contribute up to 6% of annual cash compensation (base salary and payments under the Annual Incentive Plan) subject to limits set by the Internal Revenue Code. The Company matching contribution for fiscal year 2012 was equal to 50% of employee contributions up to 6%.

We maintain an Employee Stock Ownership Plan for the benefit of our domestic, non-union employees including our domestic NEOs. This Plan is considered a retirement benefit by the Company in conjunction with its defined benefit pension and 401(k) retirement savings plans. Effective January 1, 2012, this Employee Stock Ownership Plan has been closed to new participants.

We maintain a non-qualified deferred compensation plan (the "NQDC Plan") under which eligible participants (including our Directors and domestic NEOs) may elect to defer a portion of their cash compensation. The NQDC Plan does not offer a company match on participant contributions. Participants may defer up to 75% of their base salary and up to 100% of annual short-term and long term incentive cash compensation. Payment of balances will occur in accordance with Internal Revenue Code Section 409A requirements.

Stock Ownership

Consistent with our objective of aligning management's interests with shareholders, we have established stock ownership requirements for all corporate and operating officers to maintain or accumulate minimum ownership levels of the Company's Common Stock. Executives are required to retain a portion of their equity compensation upon vesting in shares or exercise of options. The portion that each executive must continue to hold is described as the retention ratio which is applied to the after-tax shares received by the executive. If the value of shares held by an executive exceeds a specified multiple of base salary, the executive is no longer subject to the retention ratio requirement with respect to additional after-tax shares received by the executive. Each NEO is currently subject to the retention ratio requirement.

The following table summarizes the ownership guidelines, as well as the respective retention ratio, for executives.

Position / Title	Multiple of Base Salary	X	Retention Ratio	
Chief Executive Officer	5	X	50	%
Chief Financial Officer	4	X	50	%
Other Executive Committee Members (1)	3	X	50	%
Other Officers	2	X	40	%

(1) Messrs. Buer, Celi, Giesige and Ms. Howard are Executive Committee Members.

Other Benefits and Perquisites

We provide very limited perquisites and other compensation to our NEOs. Instead, as previously discussed, we have elected to provide competitive fixed compensation through salary and benefits with opportunity for additional compensation through variable compensation based primarily on Company performance.

NEOs may participate in benefit plans that are offered generally to salaried domestic employees such as those described above, as well as short and long term disability, life insurance, health and welfare benefits, and paid time off.

Because the market for executive talent is national, and in some cases, global, we may recruit from outside of the regional area in order to obtain top talent. We may elect to pay relocation costs for full-time employees who are required to relocate in connection with their employment (including NEOs) to minimize any financial detriment to the employee. In situations where we pay relocation cost, we may also provide a payment to cover the cost of any additional taxes the employee incurs as a result of the reimbursement (a gross-up payment).

Employment and Change-In-Control Agreements

Employment Agreements

With the exception of Mr. Celi, the Company has no employment agreements with its NEOs, but does provide the NEOs with eligibility for severance benefits under our general severance policy upon delivery of an acceptable release

of legal claims, i.e., severed employees are paid one week of their base salary for every year of service at the Company.

Mr. Celi's agreement, entered into in 2009, does not have a fixed term and may be terminated by either party upon delivering written notice at least six months prior to the end of a calendar quarter. Mr. Celi's base salary is reviewed and may be adjusted annually. Mr. Celi also participates in our Annual Incentive Plan and Long Term Incentive Program. Mr. Celi's agreement contains various restrictive covenants relating to the protection of confidential information and non-disclosure.

Change in Control Agreements

We have entered into change in control agreements with our NEOs and certain other of our officers and employees. The intent of these agreements is to provide executive officers with financial security in the event of a change in control to facilitate a transaction which may benefit shareholders but result in job loss to executives. The change in control agreements provide for an initial term of one year, which, absent delivery of notice of termination, is automatically renewed annually for an additional one year term.

Generally, each of the NEOs is entitled to receive, upon termination of employment within 6 months preceding or 24 months after a change in control of our Company (unless such termination is because of death, disability, for cause or by the officer or employee other than for "good reason," as defined in the change in control agreements), (i) a lump sum severance payment equal to three times the sum of (a) his or her annual salary and (b) the greater of (1) the annual target bonus under the Annual Incentive Plan in effect on the date of termination and (2) the annual target bonus under the Annual Incentive Plan in effect immediately prior to the change in control, (ii) a lump sum payment, in cash, equal to thirty-six (36) times the monthly cost of continued coverage if COBRA is elected under the Company group health plans, (iii) a lump sum payment equal to the actuarial equivalent of the pension payment which he or she would have accrued under our tax-qualified retirement plans had he or she continued to be employed by us for three additional years, (iv) unless otherwise provided in an equity award agreement, all options, restricted shares or units and performance shares or units become fully vested and (v) certain other specified payments.

Aggregate "payments in the nature of compensation" (within the meaning of Section 280G of the Internal Revenue Code) payable to any executive or employee under the change in control agreements is limited to the amount that is fully deductible by us under Section 280G of the Internal Revenue Code less one dollar. The events that trigger a change in control under these agreements include (i) the acquisition of 20% or more of our outstanding common stock by certain persons, (ii) certain changes in the membership of our Board of Directors, (iii) certain mergers or consolidations, (iv) certain sales or transfers of substantially all of our assets and (v) the approval by our shareholders of a plan of dissolution or liquidation.

Clawback Policy

In October 2009, the Compensation Committee adopted a Clawback Policy applicable to our executive officers and certain other employees. Under the policy, in the event of (i) a material restatement of our consolidated financial statements, other than any restatement required pursuant to a change in applicable accounting rules or (ii) a violation of a confidentiality, non-solicitation, non-competition, or similar restrictive covenant or (iii) a covered person engages in willful fraud that causes harm to our Company, (collectively (i), (ii) and (iii) is referred to as “Detrimental Conduct”), which Detrimental Conduct occurs either during employment with our Company or after such employment terminates for any reason, our Board of Directors or the Compensation Committee may, to the extent permitted by law and to the extent it determines that it is in our best interests to do so, in addition to all other remedies available, require reimbursement or payment by the covered person of:

- Any amount (whether in cash or property) paid, payable or realized (including, but not limited to option exercises) under any plan or program providing for incentive compensation, equity compensation or performance-based compensation (“Covered Plans”) received by any covered person on or after October 19, 2009 that would not have been received had the consolidated financial statements that are the subject of such restatement been correctly stated (except that the Board or Compensation Committee shall have the right to require reimbursement of the entire amount of any such amount referenced above from any covered person whose fraud or other intentional misconduct, in the Board’s or Committee’s judgment, alone or with others caused such restatement); and
- Any amount (whether in cash or property) paid, payable or realized (including, but not limited to, option exercises) by a covered person under a Covered Plan if the Board or Compensation Committee determines that covered person engaged in Detrimental Conduct even in the absence of a subsequent restatement of our financial statements.

The Board or the Compensation Committee has sole and absolute discretion not to take action upon discovery of Detrimental Conduct, and its determination not to take action in any particular instance shall not in any way limit its authority to terminate participation of a covered person in a plan.

Tax and Accounting Considerations

The Compensation Committee has considered the implications of Section 162(m) of the Internal Revenue Code in making decisions concerning compensation design and administration. The Compensation Committee views tax deductibility as an important consideration and intends to maintain deductibility wherever possible, but also believes that our business needs should be the overriding factor of compensation design. Therefore, the Compensation Committee believes it is important to maintain flexibility and has not adopted a policy requiring that specific programs meet the requirements of performance-based compensation under Section 162(m). Nevertheless, we believe that all compensation provided to the NEOs for fiscal year 2012 is fully deductible. The Committee also considers tax implications for executives and structures its compensation programs to comply with Section 409A of the Internal Revenue Code. Accounting and cost implications of compensation programs are considered in program design; however, the main factor is alignment with our business needs.

The following table sets forth the cash compensation, as well as certain other compensation earned during the years ended March 31, 2012, 2011 and 2010, for the Company's Chief Executive Officer, our current Chief Financial Officer, our former Chief Financial Officer and each of its three other most highly compensated executive officers who received annual compensation in excess of \$100,000:

(1)Includes the value of service awards provided to Mr. Tevens and Mr. Giesige in fiscal year 2012.

(2)The amounts shown in this column reflect the aggregate grant date fair value for restricted stock units and performance shares granted in the year indicated under our Long Term Incentive Plan. However, for purposes of this table, estimates of forfeitures have been removed. The grant date fair value for each restricted stock unit is equal to the closing market price of our common stock on the date of grant. A Monte Carlo simulation has been chosen for the performance share valuation calculations. The assumptions used in valuing the performance shares are described in Note 15 to our consolidated financial statements included in our Annual Report on Form 10-K for the year ended March 31, 2012 filed with the Securities and Exchange Commission on May 30, 2012.

(3)The amounts shown in this column reflect the aggregate grant date fair value for nonqualified stock options to purchase our common stock granted in the year indicated under our Long Term Incentive Plan. However, for purposes of this table, estimates of forfeitures have been removed. A Black-Scholes valuation approach has been chosen for these calculations. The assumptions used in valuing these grants are described in Note 15 to our consolidated financial statements included in our Annual Report on Form 10-K for the year ended March 31, 2012 filed with the Securities and Exchange Commission on May 30, 2012.

- (6) For Messrs. Tevens, Buer, Giesige and Ms. Howard, consists of: (i) the value of shares of common stock allocated in fiscal year 2012 under our Employee Stock Ownership Plan, or ESOP; (ii) premiums for group term life insurance policies insuring their lives in the amount of \$50,000 each; and (iii) our matching contributions under our 401(k) plan.
- (7) Represents payments to Mr. Celi of €38,689 and 216,950 CHF, as converted based on the conversion rate in effect on March 31, 2012.
- (8) Represents the value of the automobile provided to Mr. Celi by the Company.
- (9) Represents the sum of (i) premiums for group term life insurance policies insuring Mr. Rustowicz life in the amount of \$50,000, (ii) our matching contributions under our 401(k) plan and (iii) \$65,000 payment for relocation benefits.

- (1) The grant date is the date on which the equity awards were approved by our Board of Directors.
 - (2) Represents the potential payout range under the Annual Incentive Plan discussed above. The final fiscal year 2012 payout can be found in the Summary Compensation Table in the column entitled "Non-Equity Incentive Plan Compensation."
 - (3) Represents the potential payout range related to performance shares awarded to NEOs on the grant date, subject to achievement of performance targets. The performance shares generally vest after a three-year performance period ending March 31, 2014 based on our total stockholder return relative to our peer companies for the performance period. Awards earned will be paid at the end of the three-year performance period. Each performance share will be settled in a share of our common stock.
 - (4) Represents per-share exercise price of the options and is equal to the average of the open and closing price on the grant date.
 - (5) Amounts in this column reflect the aggregate grant date fair value of the equity awards. The grant date fair value for each restricted stock unit is equal to the average of the open and close market price of our common stock on the date of grant. A Monte Carlo simulation has been utilized for the performance share valuation calculations. A Black-Scholes valuation approach has been utilized for valuing the options. The assumptions used in valuing these awards are described in Note 15 to our consolidated financial statements included in our Annual Report on Form 10-K for the year ended March 31, 2012 filed with the Securities and Exchange Commission on May 30, 2012.
 - (6) Represents RSUs granted under the fiscal year 2012 long-term incentive program which vest at a rate of 25% per year beginning one year from the date of grant, except that RSUs may vest earlier in the event of death, disability, retirement, or change in control.

The options vest at a rate of 25% per year beginning one year from the date of grant, except that options may vest earlier in the event of death, disability, retirement or change in control. They expire 10 years from the date of grant, or earlier in the event of death, disability or retirement.
 - (8) Represents RSUs granted to Mr. Rustowicz on the grant date which vest 1/3rd each year on the 3rd, 4th, and 5th anniversary of the grant, except that options may vest earlier in the event of death, disability, retirement or change in control.

Pension Plan

The Pension Plan is a non-contributory, defined benefit plan which provides certain of our domestic employees with retirement benefits. As defined in the Pension Plan, a participant's annual pension benefit at age 65 is equal to the product of (i) 1% of the participant's final average earnings, as calculated by the terms of the Pension Plan, plus 0.5% of that part, if any, of final average earnings in excess of such participant's "social security covered compensation," as such term is defined in the Pension Plan, multiplied by (ii) such participant's years of credited service, limited to 35 years. Plan benefits are not subject to reduction for social security benefits.

The following table sets forth with respect to each of our plans that provide retirement benefits to our NEOs, (i) the years of credited service of each of the executives named in the summary compensation table, (ii) the present value of his or her accumulated benefit and (iii) payments received by him or her during fiscal year 2012:

Name	Plan Name	Number of Years of Credited Service(1)	Present Value of Accumulated Benefit(2)	Payments During Last Fiscal Year

(3) Mr. Celi and Mr. Rustowicz were not covered by a Company sponsored Pension Plan.

Non-Qualified Deferred Compensation

The Company maintains a Non-Qualified Deferred Compensation Plan (the “NQDC”) under which eligible participants (including our Directors and domestic NEOs) may elect to defer a portion of their cash compensation. The NQDC does not currently offer a company match on participant contributions. Employee participants may defer up to 75% of their base salary and up to 100% of annual short-term and long term incentive compensation. Directors may defer up to 100% of retainer and meeting fees. Payment of balances will occur in accordance with Internal Revenue Code

Section 409A requirements.

None of the NEOs have deferred compensation. Thus, they did not have any contributions, earnings, or balances under the NQDC Plan in fiscal 2012.

Other Potential Post-Employment Payments

It is our policy to provide severance benefits to each of our domestic full-time salaried employees and hourly employees not covered by a collective bargaining agreement who involuntarily lose their positions without cause. Eligible employees who sign a release generally receive one week of base salary at the rate then in effect for each full year of continuous service (with any fractions being rounded up).

The following table sets forth the amount each NEO would receive under various termination scenarios described above using the following assumptions:

- Termination of employment on March 31, 2012; and
- Exercise of all options and vesting of all restricted stock based on the closing market price of \$16.29 per share of our common stock on March 31, 2012.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our Directors and executive officers, and persons who own more than 10% of a registered class of our equity securities, to file with the Securities and Exchange Commission and NASDAQ initial reports of ownership and reports of changes in ownership of our common stock and other equity securities. Our executive officers, Directors and greater than 10% shareholders are required to furnish us with copies of all Section 16(a) forms they file.

To our knowledge, based solely on our review of the copies of such reports furnished to us and written representations that no other reports were required, all Section 16(a) filing requirements applicable to our executive officers, Directors and greater than 10% beneficial owners were complied with during the fiscal year ended March 31, 2012.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

The Audit Committee reviews and makes recommendations to the Board of Directors with respect to all related party transactions and relationships. Pursuant to Regulation S-K 404, a “related person” includes (among others) an officer, director and, by reference to S-K 403(a), a party who beneficially owns more than 5% of any class of the Company’s voting securities, who is a party to a transaction with the Company in which the payment for a fiscal year exceeds \$120,000. Any such related party transaction is required to be on terms no less favorable to the Company than could be obtained from an unaffiliated third party. The Company has a separate “Related Person Transaction Policy”, as well as other various policies and procedures, including the Company’s Global Legal Ethics and Business Compliance Manual and the annual directors’ and officers’ questionnaires that require disclosure of transactions or relationships that may constitute conflicts of interest or require disclosures or affect an independence determination under applicable SEC rules.

In fiscal year 2012, the Audit Committee reviewed and approved payments to Fidelity that exceeded the S-K threshold of \$120,000 by approximately \$75,000. Upon review, Fidelity owned about 14.9% of the Company’s shares and was the trustee and record keeper for the Company’s 401(k) plan. The Audit Committee concluded that Fidelity’s services were paid by the 401(k) plan participant, not directly by the Company and that such payments were fair and reasonable.

REPORT OF THE AUDIT COMMITTEE

Review of Our Audited Financial Statements

Our Audit Committee is comprised of the Directors named below, each of whom is independent as defined under Section 10A(m) of the Securities Exchange Act of 1934 and section 3 of the Sarbanes-Oxley Act of 2002 and under the NASDAQ Stock Market, LLC listing standards currently in effect. In addition, pursuant to the requirements of Section 407 of the Sarbanes-Oxley Act of 2002, our Board of Directors has determined that Mr. Fleming and Ms. Kushner qualify as an “audit committee financial expert.”

The Audit Committee operates under a written charter which includes provisions requiring Audit Committee advance approval of all audit and non-audit services to be provided by the Company’s primary independent public accountants. However, as a matter of course, we will not engage any outside accountants to perform any significant audit or non-audit services without the prior approval of the Audit Committee.

The Audit Committee has reviewed and discussed with our management our audited financial statements for the fiscal year ended March 31, 2012. The Audit Committee has also discussed with Ernst & Young LLP, our independent auditors, the matters required to be discussed by Statement on Auditing Standards No. 114, “The Auditor’s Communication with those Charged with Governance”.

The Audit Committee has also received and reviewed the written disclosures and the letter from Ernst & Young LLP pursuant to applicable requirements of the Public Company Accounting Oversight Board regarding the independent auditor’s communications with the Audit Committee concerning independence and has discussed the independence of Ernst & Young LLP with that firm.

Based on the review and the discussions noted above, the Audit Committee recommended to our Board of Directors that our audited financial statements be included in our Annual Report on Form 10-K for the fiscal year ended March 31, 2012 for filing with the Securities and Exchange Commission.

OTHER INFORMATION
