□ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarter ended June 30, 2008

OR

○ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number: 001-13337

STONERIDGE, INC.

(Exact name of registrant as specified in its charter)

Ohio

*(State or other jurisdiction of
incorporation or organization)*

34-1598949

*(I.R.S. Employer
Identification No.)*

9400 East Market Street, Warren, Ohio

(Address of principal executive offices)

44484

(Zip Code)

(330) 856-2443

Registrant's telephone number, including area code

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The number of Common Shares, without par value, outstanding as of July 25, 2008 was 24,668,595.

STONERIDGE, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)
(in thousands, except share and per share data, unless otherwise indicated)

(1) Basis of Presentation

The accompanying condensed consolidated financial statements have been prepared by Stoneridge, Inc. (the “Company”) without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (the “Commission”). The information furnished in the condensed consolidated financial statements includes normal recurring adjustments and reflects all adjustments, which are, in the opinion of management, necessary for a fair presentation of such financial statements. Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted pursuant to the Commission’s rules and regulations. The results of operations for the six months ended June 30, 2008 are not necessarily indicative of the results to be expected for the full year.

Although the Company believes that the disclosures are adequate to make the information presented not misleading, it is suggested that these condensed consolidated financial statements be read in conjunction with the audited consolidated financial statements and the notes thereto included in the Company’s Form 10-K for the fiscal year ended December 31, 2007.

The Company has reclassified the presentation of certain prior-period information to conform to the current presentation.

(2) Inventories

Inventories are valued at the lower of cost or market. Cost is determined by the last-in, first-out (“LIFO”) method for approximately 62% and 66% of the Company’s inventories at June 30, 2008 and December 31, 2007, respectively, and by the first-in, first-out (“FIFO”) method for all other inventories. Inventory cost includes material, labor and overhead. Inventories consist of the following:

	June 30, 2008	December 31, 2007
Raw materials	\$ 39,138	\$ 36,678
Work-in-progress	10,605	9,065
Finished goods	22,857	13,700
Total inventories	72,600	59,443
Less: LIFO reserve	(2,425)	(2,051)
Inventories, net	\$ 70,175	\$ 57,392

(3) Fair Value of Financial Instruments***Financial Instruments***

A financial instrument is cash or a contract that imposes an obligation to deliver, or conveys a right to receive cash or another financial instrument. The carrying values of cash and cash equivalents, accounts receivable and accounts payable are considered to be representative of fair value because of the short maturity of these instruments. The estimated fair value of the Company’s senior notes (fixed rate debt) at June 30, 2008 and December 31, 2007, per quoted market sources, was \$186.7 million and \$199.2 million, respectively. The carrying value was \$183.0 million

and \$200.0 million as of June 30, 2008 and December 31, 2007, respectively.

Derivative Instruments and Hedging Activities

The Company makes use of derivative instruments in foreign exchange and commodity price hedging programs. Derivatives currently in use are foreign currency forward and commodity swap contracts. These contracts are used strictly for hedging and not for speculative purposes. Management believes that the use of these instruments to reduce risk is in the Company's best interest.

STONERIDGE, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)
(in thousands, except share and per share data, unless otherwise indicated)

As a result of the Company's international business presence it is exposed to foreign currency exchange risk. The Company uses derivative financial instruments, including foreign currency forward contracts, to mitigate its exposure to fluctuations in foreign currency exchange rates by reducing the effect of such fluctuations on foreign currency denominated intercompany transactions and other known foreign currency exposures. The principal currency hedged by the Company is the British pound. In certain instances, the foreign currency forward contracts are marked to market, with gains and losses recognized in the Company's condensed consolidated statement of operations as a component of other income. The Company's foreign currency forward contracts substantially offset gains and losses on the underlying foreign currency denominated transactions.

The Company's foreign currency forward contracts had a notional value of \$8,239 and \$8,551 at June 30, 2008 and December 31, 2007, respectively. As of June 30, 2008, the purpose of the foreign currency forward contracts is to reduce the risk of exposure related to the Company's British pound-denominated receivables. At December 31, 2007, the Company also used forward currency contracts to reduce the risk of exposure related to the Company's Mexican peso- and Swedish krona-denominated receivables. The estimated fair value of the existing contracts at June 30, 2008 and December 31, 2007, per quoted market sources, was approximately \$124 and \$(28), respectively. For the six months ended June 30, 2008, the Company recognized a \$30 loss related to these contracts in the condensed consolidated statement of operations as a component of other expense (income), net. In 2007, the Company used foreign currency option contracts to reduce the risk of exposures to the Mexican peso. The Company's foreign currency option contracts expired as of December 31, 2007.

To mitigate the risk of future price volatility and, consequently, fluctuations in gross margins, the Company has entered into fixed price commodity swaps with a bank to fix the cost of a portion of its copper purchases. We entered into fixed price swap contracts for 480 and 420 metric tonnes of copper in December 2006 and January 2007, respectively. These contracts fixed the cost of copper purchases in 2007 and expired on December 31, 2007. In December 2007, we entered into a fixed price swap contract for 1.0 million pounds of copper, which will last through December 2008. Because these contracts were executed to hedge forecasted transactions, the contracts are accounted for as cash flow hedges. The unrealized gain or loss for the effective portion of the hedge is deferred and reported in the Company's condensed consolidated balance sheets as a component of accumulated other comprehensive income. The Company deems these cash flow hedges to be highly effective. The effectiveness of the transactions has been and will be measured on an ongoing basis using regression analysis. The fair value of the fixed price commodity swap contract, per quoted market sources, was approximately \$486 and \$57 at June 30, 2008 and December 31, 2007, respectively. For the six months ended June 30, 2008, the Company recognized a \$382 gain related to these contracts in the condensed consolidated statement of operations as a component of cost of goods sold.

Statement of Financial Accounting Standard No. 157, Fair Value Measurements

Effective January 1, 2008, we adopted Statement of Financial Accounting Standard ("SFAS") No. 157, *Fair Value Measurements* ("SFAS 157"). SFAS 157 clarifies the definition of fair value, prescribes methods for measuring fair value, establishes a fair value hierarchy based on the inputs used to measure fair value and expands disclosures about the use of fair value measurements. In accordance with Financial Accounting Standards Board Staff Position No. FAS 157-2, *Effective Date of FASB Statement No. 157*, we will defer the adoption of SFAS 157 for our nonfinancial assets and nonfinancial liabilities until January 1, 2009 which is not expected to have a material impact on the Company's financial statements.

The following table presents our assets that are measured at fair value on a recurring basis and are categorized using the fair value hierarchy. As of June 30, 2008 the Company does not have liabilities that are measured at fair value. The fair value hierarchy has three levels based on the reliability of the inputs used to determine fair value.

Assets	Total	Fair Value Measurements at June 30, 2008		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Available-for-sale equity investments	\$ 249	\$ 249	\$ -	\$ -
Derivatives	610	-	610	-
Total	\$ 859	\$ 249	\$ 610	\$ -

STONERIDGE, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)
(in thousands, except share and per share data, unless otherwise indicated)

Equity investments are valued using a market approach based on the quoted market prices of identical instruments when available or other observable inputs such as trading prices of identical instruments in active markets. Our foreign currency forward contracts are valued using an income approach based on the present value of the forward rate less the contract rate multiplied by the notional amount. Commodity swaps are valued using an income approach based on the present value of the commodity index prices less the contract rate multiplied by the notional amount.

(4) Share-Based Compensation

Total compensation expense recognized in the condensed consolidated statements of operations for share-based compensation arrangements was \$822 and \$665 for the three months ended June 30, 2008 and 2007, respectively. For the six months ended June 30, 2008 and 2007, total compensation expense recognized in the condensed consolidated statements of operations for share-based compensation arrangements was \$1,903 and \$1,252, respectively.

(5) Comprehensive Income (Loss)

SFAS No. 130, *Reporting Comprehensive Income*, establishes standards for the reporting and disclosure of comprehensive income.

The components of comprehensive income, net of tax are as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2008	2007	2008	2007
Net income	\$ 4,684	\$ 2,695	\$ 11,231	\$ 7,565
Other comprehensive income:				
Currency translation adjustments	1,294	1,533	5,110	1,982
Pension and postretirement liability adjustments	(1)	(28)	(10)	(36)
Unrealized gain (loss) on marketable securities	5	10	(12)	61
Unrecognized gain (loss) on derivatives	(170)	629	348	1,101
Total other comprehensive income	1,128	2,144	5,436	3,108
Comprehensive income	\$ 5,812	\$ 4,839	\$ 16,667	\$ 10,673

Accumulated other comprehensive income, net of tax is comprised of the following:

	June 30, 2008	December 31, 2007
Foreign currency translation adjustments	\$ 19,622	\$ 14,512
Pension and postretirement liability adjustments	(438)	(428)
Unrealized loss on marketable securities	(32)	(20)
Unrecognized gain (loss) on derivatives	311	(37)

Accumulated other comprehensive income	\$	19,463	\$	14,027
--	----	--------	----	--------

7

STONERIDGE, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)
(in thousands, except share and per share data, unless otherwise indicated)

(6) Long-Term Debt*Senior Notes*

The Company had \$183.0 million and \$200.0 million of senior notes outstanding at June 30, 2008 and December 31, 2007, respectively. During the first half of 2008, the Company repurchased and retired \$17.0 million in face value of the senior notes. The outstanding senior notes bear interest at an annual rate of 11.50% and mature on May 1, 2012. The senior notes are redeemable, at the Company's option, at 103.833 until April 30, 2009. The senior notes will remain redeemable at various levels until the maturity date. Interest is payable on May 1 and November 1 of each year.

Credit Facility

On November 2, 2007, the Company entered into an asset-based credit facility, which permits borrowing up to a maximum level of \$100.0 million. At June 30, 2008, there were no borrowings on this asset-based credit facility. The available borrowing capacity on this credit facility is based on eligible current assets, as defined. At June 30, 2008, the Company had borrowing capacity of \$90.9 million based on eligible current assets. The asset-based credit facility does not contain financial performance covenants; however, restrictions include limits on capital expenditures, operating leases and dividends. The asset-based credit facility expires on November 1, 2011, and requires a commitment fee of 0.25% on the unused balance. Interest is payable quarterly at either (i) the higher of the prime rate or the Federal Funds rate plus 0.50%, plus a margin of 0.00% to 0.25% or (ii) LIBOR plus a margin of 1.00% to 1.75%, depending upon the Company's undrawn availability, as defined.

(7) Net Income Per Share

Basic net income per share was computed by dividing net income by the weighted-average number of Common Shares outstanding for each respective period. Diluted net income per share was calculated by dividing net income by the weighted-average of all potentially dilutive Common Shares that were outstanding during the periods presented.

Actual weighted-average shares outstanding used in calculating basic and diluted net income per share are as follows:

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2008	2007	2008	2007
Basic weighted-average shares outstanding	23,285,848	23,113,827	23,327,024	23,051,721
Effect of dilutive securities	403,988	588,522	394,793	551,096
Diluted weighted-average shares outstanding	23,689,836	23,702,349	23,721,817	23,602,817

For the three months ended June 30, 2008 and 2007, options to purchase 50,000 and 234,000 Common Shares at an average price of \$15.73 and \$16.71, respectively, were not included in the computation of diluted net income per share because their respective exercise prices were greater than the average market price of Common Shares and,

therefore, their effect would have been anti-dilutive. Share options not included in the computation of diluted net income per share to purchase 61,000 and 260,000 Common Shares at an average price of \$15.22 and \$16.20, respectively, were outstanding during the six months ended June 30, 2008 and 2007, respectively.

As of June 30, 2008, 628,275 performance-based restricted shares were outstanding. These shares were not included in the computation of diluted net income per share because not all vesting conditions were achieved as of June 30, 2008. These shares may or may not become dilutive based on the Company's ability to exceed future earnings thresholds.

STONERIDGE, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)
(in thousands, except share and per share data, unless otherwise indicated)

(8) Restructuring

In January 2005, the Company announced restructuring initiatives related to the rationalization of certain manufacturing facilities in Europe and North America. These restructuring initiatives were completed in 2007.

On October 29, 2007, the Company announced restructuring initiatives to improve manufacturing efficiency and cost position by ceasing manufacturing operations at its Sarasota, Florida, and Mitcheldean, United Kingdom, locations. These rationalizations are part of the Company's cost reduction initiatives. In connection with these initiatives, the Company recorded restructuring charges of \$3,657 for the three months ended June 30, 2008. Restructuring charges for the six months ended June 30, 2008 were \$6,177. Restructuring expenses that were general and administrative in nature were included in the Company's condensed consolidated statements of operations as restructuring charges, while the remaining restructuring related expenses were included in cost of goods sold.

The charges related to the restructuring initiatives announced on October 29, 2007 that belong to the Electronics reportable segment included the following:

	Severance Costs	Contract Termination Costs	Other Associated Costs	Total
Total expected restructuring charges	\$ 3,454	\$ 978	\$ 5,385	\$ 9,817
Fourth quarter 2007 charge to expense	\$ 468	\$ -	\$ 103	\$ 571
Cash payments	-	-	(103)	(103)
Accrued balance at December 31, 2007	468	-	-	468
First quarter 2008 charge to expense	873	-	614	1,487
Second quarter 2008 charge to expense	819	-	822	1,641
Cash Payments	-	-	(1,307)	(1,307)
Accrued balance at June 30, 2008	\$ 2,160	\$ -	\$ 129	\$ 2,289
Remaining expected restructuring charge	\$ 1,294	\$ 978	\$ 3,846	\$ 6,118

The charges related to the restructuring initiatives announced on October 29, 2007 that belong to the Control Devices reportable segment included the following:

	Severance Costs	Fixed-Asset Costs	Other Associated Costs	Total (A)
Total expected restructuring charges	\$ 1,857	\$ 296	\$ 4,483	\$ 6,636
Fourth quarter 2007 charge to expense	\$ 357	\$ -	\$ 99	\$ 456
Cash payments	-	-	-	-
Accrued balance at December 31, 2007	357	-	99	456

Edgar Filing: STONERIDGE INC - Form 10-Q

First quarter 2008 charge to expense	365	-	668	1,033
Second quarter 2008 charge to expense	375	-	1,641	2,016
Cash Payments	(12)	-	(2,218)	(2,230)
Accrued balance at June 30, 2008	\$ 1,085	\$ -	\$ 190	\$ 1,275
Remaining expected restructuring charge	\$ 760	\$ 296	\$ 2,075	\$ 3,131

(A) Total expected restructuring charges does not include the expected gain from the future sale of the Company's Sarasota, Florida, facility.

STONERIDGE, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)
(in thousands, except share and per share data, unless otherwise indicated)

All restructuring charges, except for asset-related charges, result in cash outflows. Severance costs relate to a reduction in workforce. Other associated costs include premium direct labor, inventory and equipment move costs, relocation expense, increased inventory carrying cost and miscellaneous expenditures associated with exiting business activities. No fixed-asset impairment charges were incurred because assets are being transferred to other locations for continued production.

(9) Commitments and Contingencies

In the ordinary course of business, the Company is involved in various legal proceedings and workers' compensation and product liability disputes. The Company is of the opinion that the ultimate resolution of these matters will not have a material adverse effect on the results of operations, cash flows or the financial position of the Company.

Product Warranty and Recall

Amounts accrued for product warranty and recall claims are established based on the Company's best estimate of the amounts necessary to settle future and existing claims on products sold as of the balance sheet dates. These accruals are based on several factors including past experience, production changes, industry developments and various other considerations. The Company can provide no assurances that it will not experience material claims in the future or that it will not incur significant costs to defend or settle such claims beyond the amounts accrued or beyond what the Company may recover from its suppliers.

The following provides a reconciliation of changes in product warranty and recall liability for the six months ended June 30, 2008 and 2007:

	2008	2007
Product warranty and recall at beginning of period	\$ 5,306	\$ 5,825
Accruals for products shipped during period	3,417	1,228
Aggregate changes in pre-existing liabilities due to claims developments	745	847
Settlements made during the period (in cash or in kind)	(2,157)	(2,069)
Product warranty and recall at end of period	\$ 7,311	\$ 5,831

(10) Employee Benefit Plans

The Company has a single defined benefit pension plan that covers certain employees in the United Kingdom and a postretirement benefit plan that covers certain employees in the U.S. The components of net periodic benefit cost under the plans are as follows:

	Defined Benefit Pension Plan			
	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2008	2007	2008	2007
Service cost	\$ 35	\$ 43	\$ 70	\$ 85
Interest cost	316	514	632	1,021

Edgar Filing: STONERIDGE INC - Form 10-Q

Expected return on plan assets	(361)	(574)	(722)	(1,140)
Amortization of actuarial loss	-	111	-	221
Net periodic (benefit) cost	\$ (10)	\$ 94	\$ (20)	\$ 187

The Company previously disclosed in its financial statements for the year ended December 31, 2007 that it expected to contribute \$259 to its defined benefit pension plan in 2008. Of this amount, contributions of \$130 have been made to the defined benefit pension plan as of June 30, 2008.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)
(in thousands, except share and per share data, unless otherwise indicated)

(11) Income Taxes

The Company recognized a provision for income taxes of \$4,062, or 46.4% of pre-tax income, and \$666, or 19.8% of pre-tax income, for federal, state and foreign income taxes for the three months ended June 30, 2008 and 2007, respectively. The Company recognized a provision for income taxes of \$9,174, or 45.0% of pre-tax income, and \$1,853, or 19.7% of pre-tax income, for federal, state and foreign income taxes for the six months ended June 30, 2008 and 2007, respectively. The increase in the effective tax rate for both the three and six months ended June 30, 2008 compared to similar periods in 2007 were primarily attributable to the costs incurred to restructure the Company's United Kingdom operations. As the Company does not believe that the related tax benefit of those losses will be realized, a valuation allowance was recorded against the deferred tax assets associated with those foreign losses. In addition, the effective tax rate was unfavorably impacted due to the expiration of the federal research and development tax credit at December 31, 2007.

As of December 31, 2007, the Company provided a liability of \$4,618, excluding interest and penalties, for unrecognized tax benefits related to various federal, state and foreign income tax matters. The liability for uncertain tax positions is classified as a non-current income tax liability unless it is expected to be paid within one year. At June 30, 2008 the Company has classified \$1,412 as a current liability and \$3,412 as a reduction to non-current deferred income tax assets. The liability for unrecognized tax positions decreased by \$143 for the second quarter ended June 30, 2008 and decreased by \$148 for the six months ended June 30, 2008 resulting in a balance at June 30, 2008 of \$4,470. Through a combination of anticipated state audit settlements and the expiration of certain statutes of limitation, the amount of unrecognized tax benefits could decrease by approximately \$226 to \$614 within the next 12 months.

If the Company's tax positions are sustained by the taxing authorities in favor of the Company, approximately \$4,313 would reduce the Company's provision for income taxes.

The Company classifies interest expense and, if applicable, penalties which could be assessed related to unrecognized tax benefits as a component of income tax expense. For the six months ended June 30, 2008 and 2007, the Company recognized approximately \$10 and \$(43) of gross interest and penalties, respectively. The Company has accrued approximately \$682 and \$672 for the payment of interest and penalties at June 30, 2008 and December 31, 2007, respectively.

The Company conducts business globally and, as a result, the Company or a subsidiary of the Company files income tax returns in the U.S. federal jurisdiction and various state and foreign jurisdictions. In the normal course of business the Company is subject to examination by taxing authorities throughout the world. The following table summarizes the open tax years for each important jurisdiction:

<u>Jurisdiction</u>	<u>Open Tax</u>
	<u>Years</u>
U.S.	2004-2007
Federal	
France	2003-2007
Mexico	2002-2007
Spain	2003-2007
Sweden	2002-2007

United 2003-2007
Kingdom

During the third quarter of 2007 the U.S. Internal Revenue Service commenced an examination of the Company's 2005 federal income tax return. It is anticipated that this examination should be completed during the second half of 2008. The Company is also under examination for income and non-income tax filings in various state and foreign jurisdictions that should be completed at various times throughout 2008.

(12) Accounting Pronouncements

In December 2007, the Financial Accounting Standards Board (“FASB”) issued SFAS No. 141(R), *Business Combinations* (“SFAS 141(R)”). This standard improves reporting by creating greater consistency in the accounting and financial reporting of business combinations. Additionally, SFAS 141(R) requires the acquiring entity in a business combination to recognize all (and only) the assets acquired and liabilities assumed in the transaction; establishes the acquisition-date fair value as the measurement objective for all assets acquired and liabilities assumed; and requires the acquirer to disclose to investors and other users all of the information they need to evaluate and understand the nature and financial effect of the business combination. SFAS 141(R) is effective for financial statements issued for fiscal years beginning after December 15, 2008. Early adoption of this standard is prohibited. In the absence of any planned future business combinations, management does not currently expect SFAS 141(R) to have a material impact on the Company’s financial position, results of operations or cash flows.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements* (“SFAS 160”). This standard improves the relevance, comparability and transparency of financial information provided to investors by requiring all entities to report noncontrolling (minority) interests in subsidiaries in the same way. Additionally, SFAS 160 eliminates the diversity that currently exists in accounting for transactions between an entity and noncontrolling interests by requiring they be treated as equity transactions. SFAS 160 is effective for financial statements issued for fiscal years beginning after December 15, 2008. Early adoption of this standard is prohibited. In the absence of any noncontrolling (minority) interests, management does not currently expect SFAS 160 to have a material impact on the Company’s financial position, results of operations or cash flows.

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities—an amendment of FASB Statement No. 133*, (“SFAS 161”). SFAS 161 requires enhanced disclosures about an entity’s derivative and hedging activities, including (i) how and why an entity uses derivative instruments, (ii) how derivative instruments and related hedged items are accounted for under SFAS 133, and (iii) how derivative instruments and related hedged items affect an entity’s financial position, financial performance, and cash flows. This standard becomes effective on January 1, 2009. Earlier adoption of SFAS 161 and, separately, comparative disclosures for earlier periods at initial adoption are encouraged. As SFAS 161 only requires enhanced disclosures, this standard will have no impact on the Company’s financial position, results of operations or cash flows.

(in thousands, except share and per share data, unless otherwise indicated)

(13) Segment Reporting

SFAS No. 131, *Disclosures about Segments of an Enterprise and Related Information*, establishes standards for reporting information about operating segments in financial statements. Operating segments are defined as components of an enterprise that are evaluated regularly by the Company's chief operating decision maker in deciding how to allocate resources and in assessing performance. The Company's chief operating decision maker is the president and chief executive officer.

The Company has two reportable segments: Electronics and Control Devices. During the third quarter of 2007, a European business unit in the Control Devices reportable segment experienced a change in future business prospects due to the loss of a significant customer contract. As a result, the Company announced that it would cease manufacturing at this location and transfer remaining production to a business unit in the Electronics reportable segment. In addition, management and oversight responsibilities for this business were realigned to the Electronics reportable segment. Because the Company changed the structure of its internal organization in a manner that caused the composition of its reportable segments to change, the corresponding information for prior periods has been reclassified to conform to the current year reportable segment presentation.

The Company's operating segments are aggregated based on sharing similar economic characteristics. Other aggregation factors include the nature of the products offered and management and oversight responsibilities. The Electronics reportable segment produces electronic instrument clusters, electronic control units, driver information systems and electrical distribution systems, primarily wiring harnesses and connectors for electrical power and signal distribution. The Control Devices reportable segment produces electronic and electromechanical switches, control actuation devices and sensors.

The accounting policies of the Company's reportable segments are the same as those described in Note 2, "Summary of Significant Accounting Policies" of the Company's December 31, 2007 Form 10-K. The Company's management evaluates the performance of its reportable segments based primarily on revenues from external customers, capital expenditures and income before income taxes. Inter-segment sales are accounted for on terms similar to those to third parties and are eliminated upon consolidation.

A summary of financial information by reportable segment is as follows:

Net Sales	Three Months Ended June 30,		Six Months Ended June 30,	
	2008	2007	2008	2007

(14) Investments

PST Eletrônica S.A .

The Company has a 50% equity interest in PST Eletrônica S.A. (“PST”), a Brazilian electronic system provider focused on security and convenience applications primarily for the vehicle and motorcycle industry. The investment is accounted for under the equity method of accounting. The Company’s investment in PST was \$38,620 and \$29,663 at June 30, 2008 and December 31, 2007, respectively.

STONERIDGE, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Total pre-tax income	\$ 7,036	\$ 5,040	\$ 15,799	\$ 10,365
The Company's share of pre-tax income	\$ 3,518	\$ 2,520	\$ 7,900	\$ 5,183

Equity in earnings of PST included in the condensed consolidated statements of operations were \$2,848 and \$2,141 for the three months ended June 30, 2008 and 2007, respectively. For the six months ended June 30, 2008 and 2007, equity in earnings of PST were \$6,442 and \$4,156, respectively.

Minda Stoneridge Instruments Ltd.

The Company has a 49% interest in Minda Stoneridge Instruments Ltd. ("Minda"), a company based in India that manufactures electronics and instrumentation equipment for the motorcycle and commercial vehicle market. The investment is accounted for under the equity method of accounting. The Company's investment in Minda was \$4,879 and \$4,547 at June 30, 2008 and December 31, 2007, respectively. Equity in earnings of Minda included in the condensed consolidated statements of operations were \$168 and \$157, for the three months ended June 30, 2008 and 2007, respectively. For the six months ended June 30, 2008 and 2007, equity in earnings of Minda were \$393 and \$262, respectively.

(15) Guarantor Financial Information

The senior notes and the credit facility are fully and unconditionally guaranteed, jointly and severally, by each of the Company's existing and future domestic wholly owned subsidiaries (Guarantor Subsidiaries). The Company's non-U.S. subsidiaries do not guarantee the senior notes or the credit facility (Non-Guarantor Subsidiaries).

Presented below are summarized consolidating financial statements of the Parent (which includes certain of the Company's operating units), the Guarantor Subsidiaries, the Non-Guarantor Subsidiaries and the Company on a condensed consolidated basis, as of June 30, 2008 and December 31, 2007 and for each of the three and six months ended June 30, 2008 and 2007.

These summarized condensed consolidating financial statements are prepared under the equity method. Separate financial statements for the Guarantor Subsidiaries are not presented based on management's determination that they do not provide additional information that is material to investors. Therefore, the Guarantor Subsidiaries are combined in the presentations on the subsequent pages.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Overview

The following Management Discussion and Analysis ("MD&A") is intended to help the reader understand the results of operations and financial condition of the Company. This MD&A is provided as a supplement to, and should be read in conjunction with, our financial statements and the accompanying notes to the financial statements.

We are an independent designer and manufacturer of highly engineered electrical and electronic components, modules and systems for the automotive, medium- and heavy-duty truck, agricultural and off-highway vehicle markets.

Our revenue for the second quarter of 2008 was favorably affected by both strong electronics sales in North America and Europe and the impact of foreign currency translation. This increase was partially offset by lower sales volumes in our North American automotive market.

We recognized net income for the second quarter ended June 30, 2008 of \$4.7 million, or \$0.20 per diluted share, compared with net income of \$2.7 million, or \$0.11 per diluted share, for the second quarter of 2007.

We recognized net income for the six-month period ended June 30, 2008 of \$11.2 million, or \$0.47 per diluted share, compared with net income of \$7.6 million, or \$0.32 per diluted share, for the comparable period of 2007.

Our second quarter 2008 profitability was favorably affected by new business sales in North America and a favorable sales mix relative to the second quarter of 2007. In addition, our PST Eletrônica S.A. ("PST") joint venture in Brazil continued to perform well, resulting in equity earnings of \$2.8 million for the second quarter of 2008 compared to \$2.1 million in the second quarter of 2007.

The increase in profitability was partially offset by increased selling, general and administrative expenses ("SG&A") due to increased design and development expenses related to new product launches and business development in our European commercial vehicle business. In addition, results from the second quarter of 2007 included a \$1.6 million pre-tax gain on the sales of two closed facilities.

Also affecting our profitability were restructuring initiatives that began in the fourth quarter of 2007 to improve the Company's manufacturing efficiency and cost position by ceasing manufacturing operations at our Sarasota, Florida, and Mitcheldean, United Kingdom, locations. Related second quarter 2008 expenses were approximately \$3.7 million, primarily comprised of one-time termination benefits and line-transfer expenses. We anticipate incurring total pre-tax charges of approximately \$9.0 million to \$13.0 million in 2008 for the restructuring, net of an expected gain from the future sale of our Sarasota, Florida, facility, which may or may not occur in 2008. We currently estimate a pre-tax gain on the expected facility sale to be in the range of \$3.0 million to \$4.0 million.

We believe the recent decline in North American light vehicle production will have an impact on our sales volumes for the remainder of 2008 and may continue into 2009. Also, significant factors inherent to our markets that could affect our results include the financial stability of our customers and suppliers as well as our ability to successfully execute our planned restructuring initiatives. Our results also depend on conditions in the automotive and commercial vehicle industries, which are generally dependent on domestic and global economies.

Results of Operations

We are primarily organized by markets served and products produced. Under this organizational structure, our operations have been aggregated into two reportable segments: Electronics and Control Devices. The Electronics reportable segment includes results of operations that design and manufacture electronic instrument clusters,

electronic control units, driver information systems and electrical distribution systems, primarily wiring harnesses and connectors for electrical power and signal distribution. The Control Devices reportable segment includes results of operations from our operations that design and manufacture electronic and electromechanical switches, control actuation devices and sensors.

During the third quarter of 2007, a European business unit in the Control Devices reportable segment experienced a change in future business prospects due to the loss of a significant customer contract. As a result, the Company announced that it would cease manufacturing at this location and transfer remaining production to a business unit in the Electronics reportable segment. In addition, management and oversight responsibilities for this business were realigned to the Electronics reportable segment. Because the Company changed the structure of its internal organization in a manner that caused the composition of its reportable segments to change, the corresponding information for prior periods has been reclassified to conform to the current year reportable segment presentation.

Three Months Ended June 30, 2008 Compared to Three Months Ended June 30, 2007

Net Sales. Net sales for our reportable segments, excluding inter-segment sales, for the three months ended June 30, 2008 and 2007 are summarized in the following table (in thousands):

	Three Months Ended					
	2008	June 30, 2008	2007	June 30, 2007	\$ Increase / (Decrease)	% Increase / (Decrease)
Electronics	\$ 149,416	70.1%	\$ 107,911	58.7%	\$ 41,505	38.5%
Control Devices	63,813	29.9	75,891	41.3	(12,078)	(15.9)%
Total net sales	\$ 213,229	100.0%	\$ 183,802	100.0%	\$ 29,427	16.0%

The increase in net sales for our Electronics segment was primarily due to new business sales in North America, increased sales volume in our European commercial vehicle operations and favorable foreign currency exchange rates. Favorable foreign currency exchange rates contributed \$4.3 million to sales in the second quarter compared with the prior year. The increase was partially offset by contractual price reductions.

The decrease in net sales for our Control Devices segment was primarily attributable to production volume reductions at our major customers in the automotive vehicle market and the loss of sensor product revenue at our Sarasota, Florida, facility.

Net sales by geographic location for the three months ended June 30, 2008 and 2007 are summarized in the following table (in thousands):

	Three Months Ended					
	2008	June 30, 2008	2007	June 30, 2007	\$ Increase / (Decrease)	% Increase / (Decrease)
North America	\$ 156,101	73.2%	\$ 132,449	72.1%	\$ 23,652	17.9%
Europe and other	57,128	26.8	51,353	27.9	5,775	11.2%
Total net sales	\$ 213,229	100.0%	\$ 183,802	100.0%	\$ 29,427	16.0%

The increase in North American sales was primarily attributable to new business sales of electronics products. The increase was partially offset by lower sales volume in our North American automotive market. Our increase in sales outside North America for the second quarter was primarily due to increased European commercial vehicle sales volume and favorable foreign currency exchange rates. The favorable effect of foreign currency exchange rates affected net sales outside North America by \$4.4 million in the second quarter of 2008 compared with the prior year.

Condensed consolidated statements of operations as a percentage of net sales for the three months ended June 30, 2008 and 2007 are presented in the following table (in thousands):

	Three Months Ended				\$ Increase / (Decrease)
	2008		2007		
		June 30,		June 30,	
Net Sales	\$ 213,229	100.0%	\$ 183,802	100.0%	\$ 29,427
Costs and Expenses:					
Cost of goods sold	163,875	76.9	144,920	78.8	18,955
Selling, general and administrative	36,731	17.2	33,598	18.3	3,133
(Gain) Loss on sale of property, plant and equipment, net	153	0.1	(1,653)	(0.9)	1,806
Restructuring charges	1,713	0.8	31	0.0	1,682
Operating Income	10,757	5.0	6,906	3.8	3,851
Interest expense, net	4,880	2.3	5,619	3.1	(739)
Equity in earnings of investees	(3,016)	(1.4)	(2,298)	(1.3)	(718)
Loss on early extinguishment of debt	271	0.1	-	-	271
Other expense (income), net	(124)	(0.1)	224	0.1	(348)
Income Before Income Taxes	8,746	4.1	3,361	1.9	5,385
Provision for income taxes	4,062	1.9	666	0.4	3,396
Net Income	\$ 4,684	2.2%	\$ 2,695	1.5%	\$ 1,989

Cost of Goods Sold. The decrease in cost of goods sold as a percentage of sales was due to a more favorable product mix and new business sales. The decrease was partially offset by \$1.9 million of restructuring expenses included in cost of goods sold in the second quarter of 2008.

Selling, General and Administrative Expenses. Product development expenses included in SG&A were \$13.3 million and \$10.9 million for the second quarters ended June 30, 2008 and 2007, respectively. The increase was primarily due to development spending in the areas of instrumentation and wiring.

(Gain) Loss on Sale of Property, Plant and Equipment, net. The gain in the second quarter of 2007 was primarily attributable to the sale of two closed facilities.

Restructuring Charges. The increase in restructuring charges that were general and administrative in nature, was primarily the result of the ratable recognition of one-time termination benefits that will be due to employees upon the closure of our Sarasota, Florida, and Mitcheldean, United Kingdom, locations. No fixed-asset impairment charges were incurred because assets are expected to be transferred to our other locations for continued production. Restructuring expenses that were general and administrative in nature were included in the Company's condensed consolidated statements of operations as restructuring charges, while the remaining restructuring related expenses were included in cost of goods sold. We expect these initiatives to be substantially completed in 2008.

Restructuring charges, general and administrative in nature, recorded by reportable segment during the three months ended June 30, 2008 were as follows (in thousands):

	Three Months Ended June 30, 2008			Total Consolidated Restructuring Charges
	Electronics	Control Devices		
Severance costs	\$ 819	\$ 375	\$ 1,194	
Other exit costs	10	509	519	
Total general and administrative restructuring charges	\$ 829	\$ 884	\$ 1,713	

Severance costs relate to a reduction in workforce. Other exit costs include miscellaneous expenditures associated with exiting business activities.

Restructuring charges, general and administrative in nature, recorded by reportable segment during the three months ended June 30, 2007 were as follows (in thousands):

	Three Months Ended June 30, 2007			Total Consolidated Restructuring Charges
	Electronics	Control Devices		
Severance costs	\$ 31	\$ -	\$ 31	
Total general and administrative restructuring charges	\$ 31	\$ -	\$ 31	

Restructuring related expenses, general and administrative in nature, for the second quarter of 2007 were due to severance costs related to the rationalization of certain manufacturing facilities in North America that were previously announced in 2005. These restructuring initiatives were completed in 2007.

Equity in Earnings of Investees. The increase in equity earnings of investees was predominately attributable to the increase in equity earnings recognized from our PST joint venture. The increase primarily reflects higher volume for PST's security product lines and favorable exchange rates.

Income Before Income Taxes. Income before income taxes is summarized in the following table by reportable segment (in thousands).

	Three Months Ended June 30,		\$ Increase / (Decrease)	% Increase / (Decrease)
	2008	2007		
Electronics	\$ 12,984	\$ 988	\$ 11,996	1,214.2%
Control Devices	(985)	6,405	(7,390)	(115.4)%
Other corporate activities	1,739	1,573	166	10.6%
Corporate interest expense, net	(4,992)	(5,605)	613	10.9%
Income before income taxes	\$ 8,746	\$ 3,361	\$ 5,385	160.2%

The increase in income before income taxes in the Electronics segment was related to increased revenue and favorable product mix. These factors were partially offset by higher restructuring related expenses and higher SG&A expenses due to increased development spending in the areas of instrumentation and wiring.

The decrease in income before income taxes in the Control Devices reportable segment was primarily due to lower revenue and increased restructuring related expenses.

The increase in income before income taxes was also attributable to lower corporate interest expense. The decrease in corporate interest expense was primarily due to the purchase and retirement of \$17.0 million in face value of the Company's senior notes during the first six months of 2008.

Income before income taxes by geographic location for the three months ended June 30, 2008 and 2007 is summarized in the following table (in thousands):

	Three Months Ended				% Increase	
	2008	June 30,	2007		\$ Increase /	/
					(Decrease)	(Decrease)
North America	\$ 8,215	93.9%	\$ 1,431	42.6%	\$ 6,784	474.1%
Europe and other	531	6.1	1,930	57.4	(1,399)	(72.5)%
Income before income taxes	\$ 8,746	100.0%	\$ 3,361	100.0%	\$ 5,385	160.2%

The increase in our profitability in North America was primarily attributable to new business sales and additional sales volume to existing customers, mostly from electronics products. The increase was primarily offset by increased restructuring related expenses and lower North American automotive production. The decrease in profitability outside North America was primarily due to increased restructuring related expenses.

Provision for Income Taxes. We recognized a provision for income taxes of \$4.1 million, or 46.4% of pre-tax income, and \$0.7 million, or 19.8% of the pre-tax income, for federal, state and foreign income taxes for the second quarters ended June 30, 2008 and 2007, respectively. The increase in the effective tax rate for the second quarter ended June 30, 2008 compared to the second quarter ended June 30, 2007, was primarily attributable to the costs incurred to restructure our United Kingdom operations. Since we do not believe that the related tax benefit of those losses will be realized, a valuation allowance was recorded against the deferred tax assets associated with those foreign losses. In addition, the effective tax rate was unfavorably impacted by the expiration of the federal research and development tax credit at December 31, 2007.

Six Months Ended June 30, 2008 Compared to Six Months Ended June 30, 2007

Net Sales. Net sales for our reportable segments, excluding inter-segment sales, for the six months ended June 30, 2008 and 2007 are summarized in the following table (in thousands):

	Six Months Ended				% Increase	
	2008	June 30,	2007		\$ Increase /	Increase /
					(Decrease)	(Decrease)
Electronics	\$ 282,632	67.9%	\$ 218,476	59.2%	\$ 64,156	29.4%
Control Devices	133,667	32.1	150,354	40.8	(16,687)	(11.1)%
Total net sales	\$ 416,299	100.0%	\$ 368,830	100.0%	\$ 47,469	12.9%

The increase in net sales for our Electronics segment was primarily due to new business sales in North America, increased sales volume in our European commercial vehicle operations and favorable foreign currency exchange rates. Favorable foreign currency exchange rates contributed \$8.5 million to sales in the first six months of 2008 compared with the first six months of the prior year. The increase was partially offset by lower sales volumes to our North American commercial vehicle markets.

The decrease in net sales for our Control Devices segment was primarily attributable to production volume reductions at our major customers in the automotive vehicle market and the loss of sensor product revenue at our Sarasota, Florida, facility.

Net sales by geographic location for the six months ended June 30, 2008 and 2007 are summarized in the following table (in thousands):

	Six Months Ended					% \$ Increase / (Decrease)	% Increase / (Decrease)
	2008	June 30, 2008	2007	June 30, 2007			
North America	\$ 303,299	72.9%	\$ 266,510	72.3%	\$ 36,789	13.8%	
Europe and other	113,000	27.1	102,320	27.7	10,680	10.4%	
Total net sales	\$ 416,299	100.0%	\$ 368,830	100.0%	\$ 47,469	12.9%	

The increase in North American sales was primarily attributable to new business sales of electronics products. The increase was partially offset by lower sales volume in our North American automotive and commercial vehicle markets. Our increase in sales outside North America for the first six months was primarily due to increased European commercial vehicle sales volume and favorable foreign currency exchange rates. The favorable effect of foreign currency exchange rates affected net sales outside North America by \$8.7 million in the first six months of 2008 compared with the first six months of the prior year.

Condensed consolidated statements of operations as a percentage of net sales for the six months ended June 30, 2008 and 2007 are presented in the following table (in thousands):

	Six Months Ended					\$ Increase / (Decrease)
	2008	June 30, 2008	2007	June 30, 2007		
Net Sales	\$ 416,299	100.0%	\$ 368,830	100.0%	\$ 47,469	
Costs and Expenses:						
Cost of goods sold	315,128	75.7	287,101	77.8	28,027	
Selling, general and administrative	73,021	17.5	66,730	18.1	6,291	
(Gain) Loss on sale of property, plant and equipment, net	145	0.0	(1,688)	(0.5)	1,833	
Restructuring	3,135	0.8	72	0.0	3,063	
-						
Operating Income	24,870	6.0	16,615	4.5	8,255	
Interest expense, net	10,252	2.5	11,103	3.0	(851)	
Equity in earnings of investees	(6,835)	(1.6)	(4,418)	(1.2)	(2,417)	
Loss on early extinguishment of debt	770	0.2	-	-	770	
Other expense, net	278	0.0	512	0.1	(234)	
Income Before Income Taxes	20,405	4.9	9,418	2.6	10,987	
Provision for income taxes	9,174	2.2	1,853	0.5	7,321	

Net Income	\$	11,231	2.7%	\$	7,565	2.1%	\$	3,666
------------	----	--------	------	----	-------	------	----	-------

Cost of Goods Sold. The decrease in cost of goods sold as a percentage of sales was due to a more favorable product mix and new business sales. The decrease was partially offset by \$3.0 million of restructuring expenses included in cost of goods sold in the first half of 2008.

Selling, General and Administrative Expenses. Product development expenses included in SG&A were \$25.5 million and \$21.8 million for the six months ended June 30, 2008 and 2007, respectively. The increase was primarily due to development spending in the areas of instrumentation and wiring.

The increase in SG&A expenses, excluding product development expenses, for the first six months of 2008 compared with the first six months of 2007 was primarily attributable to the increase in consulting and compensation related expenses.

(Gain) Loss on Sale of Property, Plant and Equipment, net. The gain during the first half of 2007 was primarily attributable to the sale of two closed facilities.

Restructuring Charges. The increase in restructuring charges that were general and administrative in nature, was primarily the result of the ratable recognition of one-time termination benefits that will be due to employees upon the closure of our Sarasota, Florida, and Mitcheldean, United Kingdom, locations. No fixed-asset impairment charges were incurred because assets are expected to be transferred to our other locations for continued production. Restructuring expenses that were general and administrative in nature were included in the Company's condensed consolidated statements of operations as restructuring charges, while the remaining restructuring related expenses were included in cost of goods sold. We expect these initiatives to be substantially completed in 2008.

Restructuring charges, general and administrative in nature, recorded by reportable segment during the six months ended June 30, 2008 were as follows (in thousands):

	Six Months Ended June 30, 2008		Total Consolidated Restructuring Charges
	Electronics	Control Devices	
Severance costs	\$ 1,692	\$ 740	\$ 2,432
Other exit costs	18	685	703
Total general and administrative restructuring charges	\$ 1,710	\$ 1,425	\$ 3,135

Severance costs related to a reduction in workforce. Other exit costs include miscellaneous expenditures associated with exiting business activities.

Restructuring charges, general and administrative in nature, recorded by reportable segment during the six months ended June 30, 2007 were as follows (in thousands):

	Six Months Ended June 30, 2007		Total Consolidated Restructuring Charges
	Electronics	Control Devices	
Severance costs	\$ 72	\$ -	\$ 72
Total general and administrative restructuring charges	\$ 72	\$ -	\$ 72

Restructuring related expenses, general and administrative in nature, for the first six months of 2007 were due to severance costs related to the rationalization of certain manufacturing facilities in North America that were previously announced in 2005. These restructuring initiatives were completed in 2007.

Equity in Earnings of Investees. The increase in equity earnings of investees was predominately attributable to the increase in equity earnings recognized from our PST joint venture. The increase primarily reflects higher volume for PST's security product lines and favorable exchange rates.

Income Before Income Taxes. Income before income taxes is summarized in the following table by reportable segment (in thousands).

	Six Months Ended			\$ Increase / (Decrease)	% Increase / (Decrease)
	2008	June 30, 2007			
Electronics	\$ 25,975	\$ 6,141	\$ 19,834	323.0%	
Control Devices	1,091	10,887	(9,796)	(90.0)%	
Other corporate activities	3,646	3,521	125	3.6%	
Corporate interest expense, net	(10,307)	(11,131)	824	7.4%	
Income before income taxes	\$ 20,405	\$ 9,418	\$ 10,987	116.7%	

The increase in income before income taxes in the Electronics segment was related to increased revenue and favorable product mix. These factors were partially offset by higher restructuring related expenses and higher SG&A expenses due to increased development spending in the areas of instrumentation and wiring.

The decrease in income before income taxes in the Control Devices reportable segment was primarily due to lower revenue and increased restructuring related expenses. The decrease was partially offset by operating inefficiencies related to a new product launch in the first quarter of 2007.

Income before income taxes by geographic location for the six months ended June 30, 2008 and 2007 is summarized in the following table (in thousands):

	Six Months Ended			\$ Increase / (Decrease)	% Increase /
	June 30, 2008	June 30, 2007			
North America	\$ 18,136	88.9%	\$ 3,825	40.6%	374.1%
Europe and other	2,269	11.1	5,593	59.4	(59.4)%
Income before income taxes	\$ 20,405	100.0%	\$ 9,418	100.0%	116.7%

The increase in our profitability in North America was primarily attributable to new business sales and additional sales volume to existing customers, primarily from electronic products. The increase was primarily offset by increased restructuring related expenses and lower North American automotive and commercial vehicle production. The decrease in profitability outside North America was primarily due to increased restructuring related and design and development expenses. The decrease was partially offset by increased European commercial vehicle production.

Provision for Income Taxes. We recognized a provision for income taxes of \$9.2 million, or 45.0% of pre-tax income, and \$1.9 million, or 19.7% of the pre-tax income, for federal, state and foreign income taxes for the six months ended June 30, 2008 and 2007, respectively. The increase in the effective tax rate for the second quarter ended June 30, 2008 compared to the second quarter ended June 30, 2007, was primarily attributable to the costs incurred to restructure our United Kingdom operations. Since we do not believe that the related tax benefit of those losses will be realized, a valuation allowance was recorded against the deferred tax assets associated with those foreign losses. In addition, the effective tax rate was unfavorably impacted by the expiration of the federal research and development tax credit at December 31, 2007.

Liquidity and Capital Resources*Summary of Cash Flows (in thousands):*

	Six Months Ended		\$ Increase / (Decrease)
	2008	June 30, 2007	
Cash provided by (used for):			
Operating activities	\$ 12,574	\$ 4,019	\$ 8,555
Investing activities	(12,314)	(5,863)	(6,451)
Financing activities	(16,391)	1,796	(18,187)
Effect of exchange rate changes on cash and cash equivalents	1,549	232	1,317
Net change in cash and cash equivalents	\$ (14,582)	\$ 184	\$ (14,766)

The increase in net cash provided by operating activities was primarily due to higher earnings and higher accounts payable balances in the current year. The increase in cash provided by operating activities was partially offset by higher accounts receivable balances due to increased revenues and by cash used for our restructuring initiatives, primarily to build inventory levels for line-transfers, which will decline as production transfers to our other facilities.

The decrease in net cash used for investing activities reflects a decrease in cash used for capital projects offset by \$1.1 million of cash used to acquire a Swedish aftermarket distributor of Stoneridge products in the first quarter of 2008.

The increase in net cash used by financing activities was primarily due to cash used to purchase and retire \$17.0 million in par value of the Company's senior notes in the first half of 2008.

Future capital expenditures are expected to be consistent with recent levels. Management will continue to focus on reducing its weighted average cost of capital and believes that cash flows from operations and the availability of funds from our credit facilities will provide sufficient liquidity to meet our future growth and operating needs.

As outlined in Note 6 to our condensed consolidated financial statements, on November 2, 2007, we finalized our new asset-based credit facility, which permits borrowing up to a maximum level of \$100.0 million. This facility provides us with lower borrowing rates and allows us the flexibility to refinance our outstanding debt. At June 30, 2008, there were no borrowings on this asset-based credit facility. At June 30, 2008, the Company had borrowing capacity of \$90.9 million based on eligible current assets, as defined by the credit agreement. The Company was in compliance with all covenants at June 30, 2008.

As of June 30, 2008, the Company's \$183.0 million of senior notes were redeemable at 103.833 percent of the principal amount. Given the Company's senior notes are redeemable, we may seek to retire the senior notes through redemptions, cash purchases, open market purchases, privately negotiated transactions or otherwise. Such redemptions, purchases or exchanges, if any, will depend on prevailing market conditions, our liquidity requirements, contractual restrictions and other factors. The amounts involved may be material. During the first half of 2008, we purchased and retired \$17.0 million in face value of the Company's senior notes.

We announced restructuring initiatives in the fourth quarter of 2007 and expect them to be substantially complete by December 31, 2008. We anticipate incurring total pre-tax charges of approximately \$9.0 million to \$13.0 million in 2008 for the restructuring, net of the expected gain on the future sale of our Sarasota, Florida, facility, which may or may not occur in 2008. We currently estimate a pre-tax gain on the expected facility sale to be in the range of \$3.0 million to \$4.0 million.

There have been no material changes to the table of contractual obligations presented on page 24 of the Company's 2007 Form 10-K.

Critical Accounting Policies and Estimates

The Company's significant accounting policies, which include management's best estimates and judgments, are included in Item 7, Part II to the consolidated financial statements of the Company's 2007 Form 10-K. Certain of these accounting policies are considered critical as disclosed in the Critical Accounting Policies and Estimates section of Management's Discussion and Analysis of the Company's 2007 Form 10-K because of the potential for a significant impact on the financial statements due to the inherent uncertainty in such estimates. There have been no significant changes in the Company's critical accounting policies since December 31, 2007.

Inflation and International Presence

Given the current economic climate and recent increases in certain commodity prices, we believe that a continuation of such price increases would significantly affect our profitability. Furthermore, by operating internationally, we are affected by the economic conditions of certain countries. Based on the current economic conditions in these countries, we believe we are not significantly exposed to adverse economic conditions.

Forward-Looking Statements

Portions of this report contain "forward-looking statements" under the Private Securities Litigation Reform Act of 1995. These statements appear in a number of places in this report and include statements regarding the intent, belief or current expectations of the Company, with respect to, among other things, our (i) future product and facility expansion, (ii) acquisition strategy, (iii) investments and new product development, and (iv) growth opportunities related to awarded business. Forward-looking statements may be identified by the words "will," "may," "designed to," "believes," "plans," "expects," "continue," and similar words and expressions. The forward-looking statements in this report are subject to risks and uncertainties that could cause actual events or results to differ materially from those expressed in or implied by the statements. Important factors that could cause actual results to differ materially from those in the forward-looking statements include, among other factors:

- the loss or bankruptcy of a major customer or supplier;
- the costs and timing of facility closures, business realignment, or similar actions;
- a significant change in automotive, medium- and heavy-duty, agricultural or off-highway vehicle production;
- our ability to achieve cost reductions that offset or exceed customer-mandated selling price reductions;
- a significant change in general economic conditions in any of the various countries in which we operate;
- labor disruptions at our facilities or at any of our significant customers or suppliers;
- the ability of our suppliers to supply us with parts and components at competitive prices on a timely basis;
- the amount of debt and the restrictive covenants contained in our credit facility;
- customer acceptance of new products;
- capital availability or costs, including changes in interest rates or market perceptions;
- the successful integration of any acquired businesses;
- the occurrence or non-occurrence of circumstances beyond our control; and
- those items described in Part I, Item IA ("Risk Factors") of the Company's 2007 Form 10-K.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Interest Rate Risk

From time to time, we are exposed to certain market risks, primarily resulting from the effects of changes in interest rates. At June 30, 2008, however, all of our debt was fixed rate debt. At this time, we do not intend to use financial instruments to manage this risk.

Commodity Price Risk

Given the current economic climate and the recent increases in certain commodity costs, we presently are experiencing an increased risk, particularly with respect to the purchase of copper, zinc, resins and certain other commodities. We manage this risk through a combination of fixed price agreements, staggered short-term contract maturities and commercial negotiations with our suppliers. We may also consider pursuing alternative commodities or alternative suppliers to mitigate this risk over a period of time. The recent increases in certain commodity costs have negatively affected our operating results, and a continuation of such price increases could significantly affect our profitability.

30

We entered into fixed price swap contracts for 480 and 420 metric tonnes of copper in December 2006 and January 2007, respectively. These contracts fixed the cost of a portion of our copper purchases in 2007 and expired on December 31, 2007. In December 2007, we entered into a fixed price swap contract for 1.0 million pounds of copper, which will last through December 2008. The purpose of these contracts is to reduce our price risk as it relates to copper prices.

Going forward, we believe that our mitigation efforts will offset a substantial portion of the financial impact of these increased costs. However, no assurances can be given that the magnitude or duration of these increased costs will not have a material impact on our future operating results. A hypothetical pre-tax gain or loss in fair value from a 10.0% favorable or adverse change in commodity prices would not significantly affect our results of operations, financial position or cash flows.

Foreign Currency Exchange Risk

We have currency exposures related to buying, selling and financing in currencies other than the local currency in which we operate. In some instances, we choose to reduce our exposures through financial instruments that provide offsets or limits to our exposures. Currently, our most significant currency exposures relate to the Mexican peso and British pound. We have used derivative financial instruments, including foreign currency forward and option contracts, to mitigate our exposure to fluctuations in foreign currency exchange rates by reducing the effect of such fluctuations on foreign currency denominated intercompany transactions and other known foreign currency exposures.

As discussed in Note 3 to our condensed consolidated financial statements, we have entered into foreign currency forward contracts related to our British pound exposures. The existing foreign currency forward contracts at June 30, 2008 and December 31, 2007 had a notional value of \$8,239 and \$8,551, respectively. The estimated net fair value of these contracts at June 30, 2008 and December 31, 2007, per quoted market sources, was approximately \$124 and \$(28), respectively.

We do not expect the effects of this risk to be material in the future based on the current operating and economic conditions in the countries in which we operate. A hypothetical pre-tax gain or loss in fair value from a 10.0% favorable or adverse change in quoted foreign currencies would not significantly affect our results of operations, financial position or cash flows.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

As of June 30, 2008, an evaluation was performed under the supervision and with the participation of the Company's management, including the chief executive officer (CEO) and chief financial officer (CFO), of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, the Company's management, including the CEO and CFO, concluded that the Company's disclosure controls and procedures were effective as of June 30, 2008.

Changes in Internal Control Over Financial Reporting

There were no changes in the Company's internal control over financial reporting during the six months ended June 30, 2008 that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II-OTHER INFORMATION

Item 1. Legal Proceedings.

The Company is involved in certain legal actions and claims arising in the ordinary course of business. The Company, however, does not believe that any of the litigation in which it is currently engaged, either individually or in the aggregate, will have a material adverse effect on its business, consolidated financial position or results of operations. The Company is subject to the risk of exposure to product liability claims in the event that the failure of any of its products causes personal injury or death to users of the Company's products and there can be no assurance that the Company will not experience any material product liability losses in the future. In addition, if any of the Company's products prove to be defective, the Company may be required to participate in government-imposed or other instituted recalls involving such products. The Company maintains insurance against such liability claims.

Item 1A. Risk Factors.

There were no material changes from risk factors previously disclosed in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2007.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

None.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Submission of Matters to a Vote of Security Holders.

(a) The Annual Meeting of Shareholders of Stoneridge, Inc. was held on May 5, 2008.

(b) The following matters were submitted to a vote at the meeting:

The election of the following nominees as directors of the Company. The vote with respect to each nominee was as follows:

Nominee	For	Withheld
John C. Corey	21,767,638	450,706
Jeffrey P. Draime	21,780,512	437,832
Sheldon J. Epstein	21,782,004	436,340
Douglas C. Jacobs	21,850,386	367,958
Kim Korth	21,850,286	368,058
William M. Lasky	21,850,148	368,196
Earl L. Linehan	21,704,944	513,400

The ratification of the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for the year ended December 31, 2008. The results of the vote were as follows:

	For	Against	Abstain
Ratify Appointment of Accounting Firm	22,179,298	35,416	3,631

Item 5. Other Information.

None.

Item 6. Exhibits.

Reference is made to the separate, "Index to Exhibits," filed herewith.
