REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Executive Committee of the Board of Directors
Plan Oversight Committee
Park National Corporation Employees Stock Ownership Plan
Newark, Ohio

We have audited the accompanying statements of net assets available for benefits of the Park National Corporation Employees Stock Ownership Plan (the "Plan") as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2010 and 2009, and the changes in net assets available for benefits for the years then ended in conformity with U.S. generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) and Schedule H, Line 4j – Schedule of Reportable Transactions are presented for purposes of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audit of the basic 2010 financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic 2010 financial statements taken as a whole.

Park National Corporation
Employees Stock Ownership Plan
Notes to Financial Statements
December 31, 2010 and 2009

1. Description of the Plan

The following description of the Park National Corporation Employees Stock Ownership Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering full-time or part-time employees of Park National Corporation and subsidiaries (“Park”) who have completed 30 days of service, and are age eighteen or older. The Plan was amended January 1, 2010 to include these provisions. Prior to January 1, 2010, the Plan covered full-time or part-time employees of Park who completed one year of service, and were age eighteen or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions

Each year, participants may contribute up to 25% of their pretax annual compensation, as defined in the Plan. Participants may also contribute rollover amounts representing distributions from other qualified defined contribution plans. The maximum salary deferral permitted by the Internal Revenue Code (Code) was \$16,500 for 2010 and 2009. The Plan also permits participants who are age 50 or older to make catch-up contributions in accordance with Code Section 414(v).

Park provides a matching contribution at a level established by Park. Effective January 1, 2010, Park’s employer matching contribution was 25% of all employee KSOP contributions. Prior to January 1, 2010, Park matched 50% up to the first 12% of compensation contributed by the participant.

Participant Accounts

Each participant’s account is credited with the participant’s salary deferral, an allocation of Park’s contribution and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s account.

Vesting

Participants’ accounts are 100% vested at all times.

December 31, 2010 and 2009

1. Description of the Plan (continued)

Payments of Benefits

Upon termination or after age 59½, a participant may elect lump sum, rollover, or installments over a period not to exceed the participant's (and their designated beneficiary's) life expectancy in an amount equal to the value of his or her account. A participant can elect to take a distribution of their account balance in cash or shares of Park National Corporation Common Stock.

ESOP

Effective January 1, 2002, the Plan was amended and restated to become an ESOP Plan that invests in shares of Park National Corporation Common Stock. The Plan is not leveraged and all new contributions (both employer and employee) will be used to purchase only Park National Corporation Common Stock. Participants are permitted to diversify their investments on a quarterly basis.

2. Summary of Accounting Policies

Basis of Presentation

The financial statements of the Plan are prepared on the accrual basis and are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Valuation of Investments

The Plan's investments are reported at fair value. Refer to Note 10 – Fair Values. Purchases and sales of securities are recorded on a trade-date basis.

Investment Income

Dividends are recorded as of their ex-dividend date. Interest income is recorded on an accrual basis when earned. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. Summary of Accounting Policies (continued)

Administrative Expenses

All administrative expenses charged to the Plan are borne by Park. Park also provides other accounting and administrative services to the Plan.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of investment income and expenses during the reporting period. Actual results could differ from those estimates.

Concentration of Credit Risk

At December 31, 2010 and 2009, approximately 74% and 72%, respectively, of the Plan's assets were invested in Park National Corporation Common Stock.

At December 31, 2010 and 2009, approximately 5% of the Plan's assets were invested in interest bearing accounts issued by Park National Bank. Investments in the deposit account may from time to time exceed the federally insured limits.

2. Summary of Accounting Policies (continued)

Adoption of New Accounting Standards

Improving Disclosures About Fair Value Measurements: In January 2010, the FASB issued an amendment to Fair Value Measurements and Disclosures, Topic 820, Improving Disclosures About Fair Value Measurements. This amendment requires new disclosures regarding significant transfers in and out of Level 1 and 2 fair value measurements and the reasons for the transfers. This amendment also requires that a reporting entity present separately information about purchases, sales, issuances and settlements, on a gross basis rather than a net basis for activity in Level 3 fair value measurements using significant unobservable inputs. This amendment also clarifies existing disclosures on the level of disaggregation, in that the reporting entity needs to use judgment in determining the appropriate classes of assets and liabilities, and that a reporting entity should provide disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for Level 2 and 3. The new disclosures and clarifications of existing disclosures for ASC 820 are effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. The adoption of these amendments did not have a material effect on the Plan's financial statements.

3. Plan Termination

Although Park has not expressed any intent to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Increase/(decrease) in assets	\$13,355,017	\$(3,649,650)

6. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated September 30, 2003, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

Net income/(loss) per the Form 5500	\$ 16,020,928	\$(622,422)

9. Risks and Uncertainties

The Plan invests in various investment securities including Park National Corporation Common Stock, mutual funds, and interest bearing accounts. Investment securities are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Fair Values

GAAP defines fair value as the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. GAAP establishes a fair value hierarchy which requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The fair values of mutual fund investments and common stock are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs). Additionally, due to their short-term nature, the fair value of interest-bearing cash balances are determined by reference to their face value (level 1 input). The fair value of all of the investments held by the Plan have been determined using Level 1 inputs (refer to the Statement of Net Assets Available for Benefits).
