## CASTLE BRANDS INC. AND SUBSIDIARIES

### Notes to Unaudited Condensed Consolidated Financial Statements

#### NOTE 1 — ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

##### Basis of Presentation

The accompanying unaudited condensed consolidated financial statements do not include all of the information and footnote disclosures normally included in financial statements prepared in accordance with the rules and regulations of the Securities and Exchange Commission (“SEC”) and U.S. generally accepted accounting principles (“GAAP”) and, in the opinion of management, contain all adjustments (which consist of only normal recurring adjustments) necessary for a fair presentation of such financial information. Results of operations for interim periods are not necessarily indicative of those to be achieved for full fiscal years. The condensed consolidated balance sheet as of March 31, 2012 is derived from the March 31, 2012 audited financial statements. These unaudited condensed consolidated financial statements should be read in conjunction with Castle Brands Inc.’s (the “Company”) audited consolidated financial statements for the fiscal year ended March 31, 2012 included in the Company’s annual report on Form 10-K for the year ended March 31, 2012, as amended (“2012 Form 10-K”). Please refer to the notes to the audited consolidated financial statements included in the 2012 Form 10-K for additional disclosures and a description of accounting policies.

Description of business and business combination — The consolidated financial statements include the accounts of the Company, its wholly-owned domestic subsidiaries, Castle Brands (USA) Corp. (“CB-USA”) and McLain & Kyne, Ltd. (“McLain & Kyne”), the Company’s wholly-owned foreign subsidiaries, Castle Brands Spirits Group A.Limited (“CB-IRL”) and Castle Brands Spirits Marketing and Sales Company Limited, and the Company’s 60% ownership interest in Gosling-Castle Partners, Inc. (“GCP”), with adjustments for income or loss allocated based upon percentage of ownership. The accounts of the subsidiaries have been included as of the date of acquisition. All significant intercompany transactions and balances have been eliminated.

Organization and operations — The Company is principally engaged in the importation, marketing and sale of premium and super premium brands of rums, whiskey, liqueurs, vodka, tequila and wine in the United States, B.Canada, Europe, and Asia. Prior to March 31, 2012, the vodka, Irish whiskeys and certain liqueurs were procured by CB-IRL and billed in Euros to CB-USA, with the risk of foreign exchange gain or loss resting with CB-USA. Beginning April 1, 2012, CB-USA began purchasing these goods directly from the suppliers.

C.Equity investments - Equity investments are carried at original cost adjusted for the Company’s proportionate share of the investees’ income, losses and distributions. The Company assesses the carrying value of its equity investments when an indicator of a loss in value is present and records a loss in value of the investment when the

assessment indicates that an other-than-temporary decline in the investment exists. The Company classifies its equity earnings of non-consolidated affiliate equity investment as a component of net income or loss.

Goodwill and other intangible assets — Goodwill represents the excess of purchase price including related costs over the value assigned to the net tangible and identifiable intangible assets of businesses acquired. Goodwill and other identifiable intangible assets with indefinite lives are not amortized, but instead are tested for impairment annually, D. or more frequently if circumstances indicate a possible impairment may exist. Intangible assets with estimable useful lives are amortized over their respective estimated useful lives, generally on a straight-line basis, and are reviewed for impairment whenever events or changes in circumstances indicate that the carrying value may not be recoverable.

Impairment of long-lived assets — Under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 310, "Accounting for the Impairment or Disposal of Long-lived Assets", the Company E. periodically reviews whether changes have occurred that would require revisions to the carrying amounts of its definite lived, long-lived assets. When the sum of the expected future cash flows is less than the carrying amount of the asset, an impairment loss is recognized based on the fair value of the asset.

Excise taxes and duty — Excise taxes and duty are computed at standard rates based on alcohol proof per gallon/liter and are paid after finished goods are imported into the United States and then transferred out of "bond." Excise taxes F. and duty are recorded to inventory as a component of the cost of the underlying finished goods. When the underlying products are sold "ex warehouse", the sales price reflects the taxes paid and the inventoried excise taxes and duties are charged to cost of sales.

Foreign currency — The functional currency for the Company’s foreign operations is the Euro in Ireland and the British Pound in the United Kingdom. Under ASC 830, “Foreign Currency Matters”, the translation from the applicable foreign currencies to U.S. Dollars is performed for balance sheet accounts using exchange rates in effect at the balance sheet date and for revenue and expense accounts using a weighted average exchange rate during the period. The resulting translation adjustments are recorded as a component of other comprehensive income. Gains or losses resulting from foreign currency transactions are shown as a separate line item in the consolidated statements of operations. Prior to March 31, 2012, the Company’s vodka, Irish whiskeys and certain liqueurs were procured by CB-IRL and billed in Euros to CB-USA, with the risk of foreign exchange gain or loss resting with CB-USA. Beginning April 1, 2012, CB-USA began purchasing these goods directly from the suppliers, with the risk of foreign exchange gain or loss remaining with CB-USA.

Fair value of financial instruments — ASC 825, “Financial Instruments”, defines the fair value of a financial instrument as the amount at which the instrument could be exchanged in a current transaction between willing parties and requires disclosure of the fair value of certain financial instruments. The Company believes that there is no material difference between the fair-value and the reported amounts of financial instruments in the Company’s balance sheets due to the short term maturity of these instruments, or with respect to the Company’s debt, as compared to the current borrowing rates available to the Company.

The Company’s investments are reported at fair value in accordance with authoritative guidance, which accomplishes the following key objectives:

- Defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date;
- Establishes a three-level hierarchy (“valuation hierarchy”) for fair value measurements;
- Requires consideration of the Company’s creditworthiness when valuing liabilities; and
- Expands disclosures about instruments measured at fair value.

The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. A financial instrument’s categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The three levels of the valuation hierarchy are as follows:

- Level 1 — inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.
- Level 2 — inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are directly or indirectly observable for the asset or liability for substantially the full term of the financial instrument.
- Level 3 — inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Income taxes — Under ASC 740, “Income Taxes”, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. A valuation allowance is provided to the extent a deferred tax asset is not considered recoverable.

The Company has not recognized any adjustments for uncertain tax positions. The Company recognizes interest and penalties related to uncertain tax positions in general and administrative expense; however, no such provisions for accrued interest and penalties related to uncertain tax positions have been recorded as of December 31, 2012 or 2011.

The Company's income tax benefit for the three and nine months ended December 31, 2012 and 2011 consists of federal, state and local taxes attributable to GCP, which does not file a consolidated income tax return with the Company. In connection with the investment in GCP, the Company recorded a deferred tax liability on the ascribed value of the acquired intangible assets of \$2,222,222, increasing the value of the asset. The difference between the book basis and tax basis created a deferred tax liability that is being amortized over a period of 15 years (the life of the licensing agreement) on a straight-line basis. For each of the three-month and nine-month periods ended December 31, 2012 and 2011, the Company recognized \$37,038 and \$111,114 of deferred tax benefits, respectively.

Accounting standards adopted — In June 2011, the FASB issued Accounting Standards Update ("ASU") 2011-05, *Presentation of Comprehensive Income* ("ASU 2011-05"), which revises the manner in which entities present comprehensive income in their financial statements. The new guidance amends ASC No. 220, *Comprehensive Income*, and gives reporting entities the option to present the total of comprehensive income, the components of net J. income, and the components of other comprehensive income in either a continuous statement of comprehensive income or two separate but consecutive statements. ASU 2011-05 does not change the items that must be reported in other comprehensive income. This new guidance was effective for the Company April 1, 2012 and is applied retrospectively. The adoption of this standard did not have a material impact on the Company's results of operations, cash flows or financial condition.

Recent accounting pronouncements — In October 2012, the FASB issued ASU 2012-04, “Technical Corrections and Improvements.” The amendments in this update cover a wide range of topics in the ASC. These amendments include technical corrections and improvements to the ASC and conforming amendments related to fair value measurements. The amendments in this update will be effective for fiscal periods beginning after December 15, 2012. The adoption of this guidance is not expected to have a material impact on the Company’s results of operations, cash flows or financial condition.

In August 2012, the FASB issued ASU 2012-03, “Technical Amendments and Corrections to SEC Sections: Amendments to SEC Paragraphs Pursuant to SEC Staff Accounting Bulletin (SAB) No. 114, Technical Amendments Pursuant to SEC Release No. 33-9250, and Corrections Related to FASB Accounting Standards Update 2010-22 (SEC Update).” This update amends various SEC paragraphs pursuant to the issuance of SAB No. 114. The adoption of this guidance is not expected to have a material impact on the Company’s results of operations, cash flows or financial condition.

In July 2012, the FASB issued ASU 2012-02, “Intangibles—Goodwill and Other (Topic 350): Testing Indefinite-Lived Intangible Assets for Impairment.” The amended guidance simplifies how entities test indefinite-lived intangible assets other than goodwill for impairment. After an assessment of certain qualitative factors, if it is determined to be more likely than not that an indefinite-lived asset is impaired, entities must perform the quantitative impairment test. Otherwise, the quantitative test is optional. The amended guidance is effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012, with early adoption permitted. The adoption of this guidance is not expected to have a material impact on the Company’s results of operations, cash flows or financial condition.

L. Reclassification — Certain prior year balances have been reclassified to conform to the current year presentation.

## **NOTE 2 — BASIC AND DILUTED NET LOSS PER COMMON SHARE**

Basic net loss per common share is computed by dividing net loss by the weighted average number of common shares outstanding during the period. Diluted net loss per common share is computed giving effect to all potentially dilutive common shares that were outstanding during the period that are not anti-dilutive. Potentially dilutive common shares consist of incremental shares issuable upon exercise of stock options and warrants or conversion of convertible preferred stock outstanding and related accrued dividends. In computing diluted net loss per share for the three and nine months ended December 31, 2012 and 2011, no adjustment has been made to the weighted average outstanding common shares as the assumed exercise of outstanding options and warrants and the assumed conversion of convertible preferred stock and related accrued dividends is anti-dilutive.

Potential common shares not included in calculating diluted net loss per share are as follows:

	Nine months ended December 31,	
	2012	2011
Stock options	8,120,765	6,170,599
Warrants to purchase common stock	11,874,087	13,680,901

#### **NOTE 4 — EQUITY INVESTMENT**

##### **Investment in DP Castle Partners, LLC**

Keltic Financial Partners II, LP ("Keltic"), providing for availability (subject to certain terms and conditions) of a facility of up to \$5,000,000 for the purpose of providing the Company and CB-USA with working capital.

In July 2012, the Company and CB-USA entered into a First Amendment to Keltic Facility (as amended, the "Loan Agreement") providing for availability (subject to certain terms and conditions) of a facility of up to \$7,000,000 for the purpose of providing the Company and CB-USA with working capital. The Company and CB-USA are referred to individually and collectively as the Borrower. The Loan Agreement amends the August 2011 facility between the Borrower and Keltic. Unless sooner terminated in accordance with its terms, the facility expires on August 19, 2014.

The Borrower may borrow up to the maximum amount of the facility, provided that the Borrower has a sufficient borrowing base. The borrowing base equals (a) up to 85% of the aggregate amount of the Borrower's "Eligible Receivables" (as defined in the Loan Agreement), plus (b) the least of (i) 50% of the "Value" (as defined in the Loan Agreement) of the Borrower's "Eligible Inventory" (as defined in the Loan Agreement), (ii) \$3,000,000 and (iii) 60% of the Borrowing Capacity (as defined in the Loan Agreement) at such time, less (c) the aggregate amount of all Reserves (as defined in the Loan Agreement) in effect at such time.

The facility interest rate is the rate that, when annualized, is the greatest of (a) the Prime Rate plus 3.25%, (b) the LIBOR Rate plus 5.75%, and (c) 6.50%. Interest is payable monthly in arrears, on the first day of every month on the average daily unpaid principal amount of the Keltic Facility. After the occurrence and during the continuance of any "Default" or "Event of Default" (as defined under the Loan Agreement) the Borrower is required to pay interest at a rate that is 3.25% per annum above the then applicable Keltic Facility interest rate. In addition to a \$40,000 commitment fee, Keltic will also receive an annual facility fee in an amount equal to 1% per annum of the maximum facility amount and a collateral management fee of \$1,000 per month (increased to \$2,000 after the occurrence of and during the continuance of an Event of Default).

The Loan Agreement contains standard borrower representations and warranties for asset-based borrowing and a number of reporting obligations and affirmative and negative covenants. The Borrower is required, among other things, to provide Keltic with weekly borrowing base certificates, monthly reports, annual financial statements and other current and periodic financial, operating and business records and reports, as well as tax returns and such other information as Keltic may from time to time request.

The Loan Agreement includes negative covenants that, among other things, restrict the Borrower's ability to create additional indebtedness, dispose of properties, incur liens, and make distributions or cash dividends.

The Loan Agreement specifies certain Events of Default that include, among others, payment defaults, violations of affirmative and negative covenants in the Loan Agreement, imposition of certain liens, and events of insolvency and bankruptcy. Upon a Default or Event of Default, Keltic may terminate or suspend its obligation to make further advances and upon an Event of Default Keltic may, among other things, accelerate the Facility repayment and declare all obligations under the Loan Agreement to be immediately due and payable.

In connection with the Loan Agreement, the Company and CB-USA have entered into the following ancillary agreements with Keltic: an Amended and Restated Revolving Note and a Reaffirmation Agreement with certain officers of the Company and CB-USA, including John Glover, the Company's Chief Operating Officer, T. Kelley Spillane, the Company's Senior Vice President - Global Sales, and Alfred J. Small, the Company's Senior Vice President, Chief Financial Officer, Secretary & Treasurer, which reaffirms the existing Validity and Support Agreements by and among each officer, each Borrower and Keltic.

The obligations of the Borrower under the Loan Agreement are secured by the grant of a pledge and security interest over all of the assets of the Borrower.

At December 31, 2012, the Company was in compliance, in all material respects, with the covenants under the Keltic Facility. At December 31, 2012 and March 31, 2012, \$6,139,826 and \$3,849,831, respectively, due on the Keltic Facility is included in long-term liabilities.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

### Overview

We develop and market premium and super premium brands in the following beverage alcohol categories: rum, liqueur, whiskey, vodka, tequila and wine. We distribute our products in all 50 U.S. states and the District of Columbia, in thirteen primary international markets, including Ireland, Great Britain, Northern Ireland, Germany, Canada, South Africa, Bulgaria, France, Russia, Finland, Norway, Sweden, China and the Duty Free markets, and in a number of other countries in continental Europe and Latin America. We market the following brands, among others, Gosling's Run<sup>®</sup>, Gosling's Dark 'n Stormy<sup>®</sup> ready-to-drink cocktail, Jefferson's<sup>®</sup>, Jefferson's Reserve<sup>®</sup> and Jefferson's Presidential Select<sup>™</sup> bourbons, Jefferson's Rye whiskey, Clontar<sup>®</sup> Irish whiskey, Pallini<sup>®</sup> liqueurs, Boru<sup>®</sup> vodka, Knappogue Castle Whiskey<sup>®</sup>, Tierras<sup>™</sup> tequila, Celtic Honey<sup>®</sup> liqueur, Brady's<sup>®</sup> Irish Cream, Travis Hasse's Original<sup>®</sup> Pie liqueurs, Gozio<sup>®</sup> amaretto, A. de Fussigny<sup>®</sup> cognacs and the CC: <sup>™</sup> line of wines.

Our objective is to continue building a distinctive portfolio of global premium and super premium spirits brands as we move towards profitability. To achieve this, we continue to seek to:

- § **increase revenues from our more profitable brands.** We continue to focus our distribution relationships, sales expertise and targeted marketing activities on our more profitable brands;
- § **improve value chain and manage cost structure.** We continue to review and analyze our supply chains and cost structures both on a company-wide and brand-by-brand basis, as well as control general and administrative costs; and
- § **selectively add new premium brands to our portfolio.** We intend to continue developing new brands and pursuing strategic relationships, joint ventures and acquisitions to selectively expand our premium spirits portfolio, particularly by capitalizing on and expanding our partnering capabilities. Our criteria for new brands focuses on underserved areas of the beverage alcohol marketplace, while examining the potential for direct financial contribution to our company and the potential for future growth based on development and maturation of agency brands. We evaluate future acquisitions and agency relationships on the basis of their potential to be immediately accretive and their potential contributions to our objectives of becoming profitable and further expanding our product offerings. We expect that future acquisitions, if consummated, would involve some combination of cash, debt and the issuance of our stock.

### Currency Translation

The functional currencies for our foreign operations are the Euro in Ireland and the British Pound in the United Kingdom. With respect to our consolidated financial statements, the translation from the applicable foreign currencies to U.S. Dollars is performed for balance sheet accounts using exchange rates in effect at the balance sheet date and for revenue and expense accounts using a weighted average exchange rate during the period. The resulting translation adjustments are recorded as a component of other comprehensive income.

Where in this report we refer to amounts in Euros or British Pounds, we have for your convenience also in certain cases provided a conversion of those amounts to U.S. Dollars in parentheses. Where the numbers refer to a specific balance sheet account date or financial statement account period, we have used the exchange rate that was used to perform the conversions in connection with the applicable financial statement. In all other instances, unless otherwise indicated, the conversions have been made using the exchange rates as of December 31, 2012, each as calculated from the Interbank exchange rates as reported by Oanda.com. On December 31, 2012, the exchange rate of the Euro and the British Pound in exchange for U.S. Dollars was €1.00 = U.S. \$1.32148 (equivalent to U.S. \$1.00 = €0.75673) and £1.00 = U.S. \$1.61533 (equivalent to U.S. \$1.00 = £0.61907).

These conversions should not be construed as representations that the Euro and British Pound amounts actually represent U.S. Dollar amounts or could be converted into U.S. Dollars at the rates indicated.

### **Critical Accounting Policies**

There are no material changes from the critical accounting policies set forth in Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our annual report on Form 10-K for the year ended March 31, 2012, as amended, which we refer to as our 2012 Annual Report. Please refer to that section for disclosures regarding the critical accounting policies related to our business.

Earnings before interest, taxes, depreciation and amortization, or EBITDA, adjusted for allowances for doubtful accounts and obsolete inventory, non-cash compensation expense, gain (loss) from equity investment in non-consolidated affiliate, foreign exchange, net change in fair value of warrant liability, net income attributable to noncontrolling interests and dividend to preferred shareholders is a key metric we use in evaluating our financial performance. EBITDA is considered a non-GAAP financial measure as defined by Regulation G promulgated by the SEC under the Securities Act of 1933, as amended. We consider EBITDA, as adjusted, important in evaluating our performance on a consistent basis across various periods. Due to the significance of non-cash and non-recurring items, EBITDA, as adjusted, enables our Board of Directors and management to monitor and evaluate the business on a consistent basis. We use EBITDA, as adjusted, as a primary measure, among others, to analyze and evaluate financial and strategic planning decisions regarding future operating investments and allocation of capital resources. We believe that EBITDA, as adjusted, eliminates items that are not indicative of our core operating performance or are based on management's estimates, such as allowance accounts, are due to changes in valuation, such as the effects of changes in foreign exchange or fair value of warrant liability, or do not involve a cash outlay, such as stock-based compensation expense. Our presentation of EBITDA, as adjusted, should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items or by non-cash items, such as non-cash compensation, which is expected to remain a key element in our long-term incentive compensation program. EBITDA, as adjusted, should be considered in addition to, rather than as a substitute for, income from operations, net income and cash flows from operating activities.

Our EBITDA, as adjusted, improved 78.6% to a loss of (\$0.1) million for the three months ended December 31, 2012, as compared to a loss of (\$0.5) million for the comparable prior-year period, primarily as a result of our increased sales and gross profit. Our EBITDA, as adjusted, improved 66.9% to a loss of (\$0.7) million for the nine months ended December 31, 2012, as compared to a loss of (\$2.1) million for the comparable prior-year period, primarily as a result of our increased sales and gross profit.

***Three months ended December 31, 2012 compared with three months ended December 31, 2011***

*Net sales.* Net sales increased 21.8% to \$10.6 million for the three months ended December 31, 2012, as compared to \$8.7 million for the comparable prior-year period. Our U.S. case sales increased 16.7% for the three months ended December 31, 2012, as compared to the prior-year period. Our U.S. case sales as a percentage of total case sales decreased to 77.5% for the three months ended December 31, 2012, as compared to 79.4% for the comparable prior-year period. The overall increase in U.S. volume was due to the organic growth of Gosling's rums and Jefferson's bourbons and the introduction of new brands into the U.S. market. Our international case sales grew due to strong growth in our Gosling's rum and Irish whiskey sales, offset by a decrease in our vodka sales due to increased price competition. We continue to focus on our faster growing brands and markets, both in the U.S. and internationally. Net sales for the three months ended December 31, 2012 include \$0.1 million in revenue from Gozio amaretto, which we launched in January 2012.

The table below presents the increase or decrease, as applicable, in case sales by product category for the three months ended December 31, 2012 as compared to the three months ended December 31, 2011:

	Increase/(decrease) in case sales		Percentage increase/(decrease)	
	Overall	U.S.	Overall	U.S.

Total	15,711	10,660	19.4 %	16.6 %

*Gross profit.* Gross profit increased 19.4% to \$3.8 million for the three months ended December 31, 2012 from \$3.2 million for the comparable prior-year period due to increased sales, while our gross margin decreased to 36.2% for the three months ended December 31, 2012 compared to 36.9% for the comparable prior-year period, primarily due to high volume, lower margin sales to new international retail chains. During the three months ended December 31, 2012, we recorded net allowance for obsolete and slow moving inventory of \$0.02 million. We recorded this allowance on both raw materials and finished goods, primarily in connection with label and packaging changes made to certain brands, as well as certain cost variances. The net \$0.02 million charge has been recorded as an increase to cost of sales in the period ended December 31, 2012. Net of the allowance for obsolete inventories, our gross margin for the three months ended December 31, 2012 was 36.4%.

*Selling expense.* Selling expense increased 15.7% to \$2.9 million for the three months ended December 31, 2012 from \$2.5 million for the comparable prior-year period, primarily due to a \$0.2 million increase in advertising, marketing and promotion expense in support of our overall volume growth, as well as a \$0.1 million increase in delivery expense due to increased volume. The increase in sales resulted in a net decrease of selling expense as a percentage of net sales to 27.2% for the three months ended December 31, 2012 as compared to 28.6% for the comparable prior-year period.

*General and administrative expense.* General and administrative expense decreased 9.1% to \$1.2 million for the three months ended December 31, 2012 from \$1.3 million for the comparable prior-year period, primarily due to a \$0.1 million decrease in professional fees. The increase in sales in the current period resulted in general and administrative expense as a percentage of net sales decreasing to 11.0% for the three months ended December 31, 2012 as compared to 14.7% for the comparable prior-year period.

*Depreciation and amortization.* Depreciation and amortization was \$0.2 million for each of the three-month periods ended December 31, 2012 and 2011.

*Loss from operations.* As a result of the foregoing, loss from operations improved 44.3% to (\$0.4) million for the three months ended December 31, 2012 from (\$0.8) million for the comparable prior-year period. As a result of our focus on our stronger growth markets and better performing brands, and expected growth from our existing brands and recently acquired brands, we anticipate improved results of operations in the near term as compared to comparable prior-year periods, although there is no assurance that we will attain such results.

*Net change in fair value of warrant liability.* We recorded the fair market value of the warrants issued in connection with our June 2011 private placement at their initial fair value. Changes in the fair value of the warrants are recognized in earnings for each reporting period. For the three months ended December 31, 2012, we recorded a gain on the change in the value of the warrants of \$0.2 million, as compared to a loss of (\$0.1) million for the comparable prior-year period.

*(Loss) Gain from equity investment in non-consolidated affiliate.* We have accounted for our investment in DP Castle Partners, LLC on the equity method of accounting. We realized a loss of (\$0.01) million from this investment in the three months ended December 31, 2012 as compared to a de minimis gain for the comparable prior-year period.

*Foreign exchange loss.* Foreign exchange loss for the three months ended December 31, 2012 was (\$0.1) million as compared to a loss of (\$0.3) million for the three months ended December 31, 2011 due to the net effects of fluctuations of the U.S. dollar against the Euro and their effects on our Euro-denominated intercompany balances due to our foreign subsidiaries for inventory purchases.

*Interest expense, net.* We had interest expense, net of (\$0.2) million for the three months ended December 31, 2012 as compared to interest expense, net of (\$0.1) million for the comparable prior-year period. The increase in interest expense is due to higher average outstanding balances on our Keltic Facility in the quarter ended December 31, 2012 as compared to the prior-year period. Due to expected balances on the Keltic Facility, we expect interest expense, net to increase in the near term as compared to prior-year periods.

*Net income attributable to noncontrolling interests.* Net income attributable to noncontrolling interests during the three months ended December 31, 2012 was (\$0.1) million as compared to (\$0.02) million for the comparable prior-year period, both the result of allocated net income recorded by our 60%-owned subsidiary, Gosling-Castle Partners, Inc.

*Dividend to preferred shareholders.* For the three months ended December 31, 2012 and 2011, we recognized a dividend on our Series A Preferred Stock of \$0.2 million and \$0.1 million, respectively, as required by the terms of the preferred stock. Accrued dividends on our Series A Preferred Stock are only payable in common stock upon conversion or liquidation.

*Net loss attributable to common shareholders.* As a result of the net effects of the foregoing, net loss attributable to common shareholders improved 42.8% to (\$0.8) million for the three months ended December 31, 2012 as compared to (\$1.4) million for the comparable prior-year period. Net loss per common share, basic and diluted, was (\$0.01) per share for the each of the three-month periods ended December 31, 2012 and 2011, respectively.

***Nine months ended December 31, 2012 compared with nine months ended December 31, 2011***

*Net sales.* Net sales increased 20.2% to \$30.6 million for the nine months ended December 31, 2012, as compared to \$25.5 million for the comparable prior-year period. Our U.S. case sales as a percentage of total case sales remained relatively constant at 80.7% for the nine months ended December 31, 2012, as compared to 80.8% for the comparable prior-year period due to the organic growth of Gosling's rums and Jefferson's bourbons in the U.S. and the introduction of new brands into the U.S. market. Our international case sales grew due to strong growth in our Gosling's rum and Irish whiskey sales, offset by a decrease in our vodka sales due to increased price competition. We continue to focus on our faster growing brands and markets, both in the U.S. and internationally. Net sales for the nine months ended December 31, 2012 include \$0.5 million in revenue from Gozio amaretto, which we launched in January 2012, and \$0.5 million in revenue from our Gosling's Dark 'n Stormy pre-mixed cocktail, which we launched in February 2012.

The table below presents the increase or decrease, as applicable, in case sales by product category for the nine months ended December 31, 2012 as compared to the nine months ended December 31, 2011:

	Increase/(decrease) in case sales		Percentage increase/(decrease)

*Gross profit.* Gross profit increased 17.8% to \$10.9 million for the nine months ended December 31, 2012 from \$9.2 million for the comparable prior-year period, while our gross margin decreased to 35.5% for the nine months ended December 31, 2012 compared to 36.3% for the comparable prior-year period, primarily due to high volume, lower margin sales to new international retail chains. The increase in gross profit was primarily due to increased sales in the current period. During the nine months ended December 31, 2012, we recorded net allowance for obsolete and slow moving inventory of \$0.1 million. We recorded this allowance on both raw materials and finished goods, primarily in connection with label and packaging changes made to certain brands, as well as certain cost variances. The net (\$0.1) million charge has been recorded as an increase to cost of sales in the current period. Net of the allowance for obsolete inventories, our gross margin for the nine months ended December 31, 2012 was 35.9%.

*Selling expense.* Selling expense increased 6.7% to \$8.3 million for the nine months ended December 31, 2012 from \$7.8 million for the comparable prior-year period, primarily due to a \$0.2 million increase in delivery expense due to increased volume, a \$0.2 million increase in employee-related charges, including salaries and entertainment expense, and a \$0.1 million increase in advertising, marketing and promotion expense in support of our overall volume growth. The increase in sales resulted in a net decrease of selling expense as a percentage of net sales to 27.0% for the nine months ended December 31, 2012 as compared to 30.4% for the comparable prior-year period.

*General and administrative expense.* General and administrative expense was \$3.7 million for each of the nine-month periods ended December 31, 2012 and 2011. The increase in sales in the current period resulted in general and administrative expense as a percentage of net sales decreasing to 11.9% for the nine months ended December 31, 2012 as compared to 14.6% for the comparable prior-year period.

*Depreciation and amortization.* Depreciation and amortization was \$0.7 million for each of the nine-month periods ended December 31, 2012 and 2011.

*Loss from operations* . As a result of the foregoing, loss from operations improved 40.9% to (\$1.7) million for the nine months ended December 31, 2012 from (\$2.9) million for the comparable prior-year period. As a result of our focus on our stronger growth markets and better performing brands, and expected growth from our existing brands and recently acquired brands, we anticipate improved results of operations in the near term as compared to comparable prior-year periods, although there is no assurance that we will attain such results.

*Net change in fair value of warrant liability*. We recorded the fair market value of the warrants issued in connection with the June 2011 private placement at their initial fair value. Changes in the fair value of the warrants are recognized in earnings for each reporting period. For the nine months ended December 31, 2012, we recorded a gain on the change in the value of the warrants of \$0.2 million, as compared to a gain of \$0.1 million for the comparable prior-year period.

*Loss from equity investment in non-consolidated affiliate*. We have accounted for our investment in DP Castle Partners, LLC on the equity method of accounting. We realized a loss from this investment of (\$0.02) million in each of the nine-month periods ended December 31, 2012 and 2011.

*Foreign exchange loss*. Foreign exchange loss for the nine months ended December 31, 2012 was (\$0.1) million as compared to a loss of (\$0.5) million for the nine months ended December 31, 2011 due to the net effects of fluctuations of the U.S. dollar against the Euro and their effects on our Euro-denominated intercompany balances due to our foreign subsidiaries for inventory purchases.

*Interest expense, net*. We had interest expense, net of (\$0.4) million for the nine months ended December 31, 2012 as compared to interest expense, net of (\$0.5) million for the comparable prior-year period. The decrease in interest expense is due to lower average outstanding balances in the nine months ended December 31, 2012 as compared to the prior year period. Average debt balances decreased due to the conversion of debt to equity in connection with our June 2011 private placement, offset by the interest charged on our Keltic Facility. Due to expected balances on the Keltic Facility, we expect interest expense, net to increase in the near term as compared to prior-year periods.

*Net income attributable to noncontrolling interests*. Net income attributable to noncontrolling interests during the nine months ended December 31, 2012 was (\$0.4) million as compared to (\$0.2) million for the comparable prior-year period, both the result of allocated net income recorded by our 60%-owned subsidiary, Gosling-Castle Partners, Inc.

*Dividend to preferred shareholders.* For the nine months ended December 31, 2012, we recognized a dividend on our Series A Preferred Stock of \$0.6 million, as required by the terms of the preferred stock. For the nine months ended December 31, 2011, we recognized a dividend of \$0.5 million on our preferred stock. Included in such amount is a \$0.3 million charge for the associated beneficial conversion feature. Accrued dividends on our Series A Preferred Stock are only payable in common stock upon conversion or liquidation.

*Net loss attributable to common shareholders.* As a result of the net effects of the foregoing, net loss attributable to common shareholders improved 35.2% to (\$2.9) million for the nine months ended December 31, 2012 as compared to (\$4.5) million for the comparable prior-year period. Net loss per common share, basic and diluted, was (\$0.03) per share for the nine months ended December 31, 2012, as compared to (\$0.04) for the comparable prior-year period.

## **Liquidity and capital resources**

### *Overview*

Since our inception, we have incurred significant operating and net losses and have not generated positive cash flows from operations. For the nine months ended December 31, 2012, we had a net loss of (\$1.9) million, and used cash of \$2.4 million in operating activities. As of December 31, 2012, we had cash and cash equivalents of \$0.2 million and had an accumulated deficit of \$127.0 million.

In July 2012, we amended the Keltic Facility to increase the availability thereunder (subject to certain terms and conditions) to \$7.0 million from \$5.0 million for the purpose of providing working capital.

We believe that our current cash and working capital, and the availability under the Keltic Facility, will enable us to fund our losses until profitability, ensure continuity of supply of certain of our brands, fund future acquisitions and agency relationships, and support new brand initiatives and marketing programs.

### *Existing Financing*

In July 2012, we entered into a First Amendment to the revolving loan agreement ("Loan Agreement") with Keltic Financial Partners II, LP ("Keltic"), which we refer to as the Keltic Facility, providing for availability (subject to certain terms and conditions) of a facility of up to \$7.0 million for the purpose of providing working capital. The Loan

Agreement amends the August 2011 facility between us and Keltic, which provided for a facility of up to \$5.0 million. The Keltic Facility expires on August 19, 2014. We may borrow up to the maximum amount of the Keltic Facility, provided that we have a sufficient borrowing base (as defined in the Loan Agreement). The Keltic Facility interest rate is the rate that, when annualized, is the greatest of (a) the Prime Rate plus 3.25%, (b) the LIBOR Rate plus 5.75%, and (c) 6.50%. Interest is payable monthly in arrears, on the first day of every month on the average daily unpaid principal amount of the Keltic Facility. After the occurrence and during the continuance of any "Default" or "Event of Default" (as defined under the Loan Agreement) we are required to pay interest at a rate that is 3.25% per annum above the then applicable Keltic Facility interest rate. Interest has been paid at 6.5% and there have been no Events of Default. In addition to a \$100,000 commitment fee paid on the original Loan Agreement and a \$40,000 commitment fee paid on the amended Loan Agreement, Keltic will also receive an annual facility fee and a collateral management fee. The Loan Agreement contains standard borrower representations and warranties for asset-based borrowing and a number of reporting obligations and affirmative and negative covenants. The Loan Agreement includes negative covenants that, among other things, restrict our ability to create additional indebtedness, dispose of properties, incur liens, and make distributions or cash dividends. At December 31, 2012, we were in compliance, in all material respects, with the covenants under the Keltic Facility.

In December 2009, Gosling-Castle Partners, Inc., a 60% owned subsidiary, issued a promissory note in the aggregate principal amount of \$0.2 million to Gosling's Export (Bermuda) Limited in exchange for credits issued on certain inventory purchases. This note matures on April 1, 2020, is payable at maturity, subject to certain acceleration events, and calls for annual interest of 5%, to be accrued and paid at maturity.

We have arranged various credit facilities aggregating €350,000 or \$462,518 (translated at the December 31, 2012 exchange rate) with an Irish bank, including overdraft coverage, creditors' insurance, customs and excise guaranty, and a revolving credit facility. These facilities are payable on demand, continue until terminated by either party, are subject to annual review, and call for interest at the lender's AA1 Rate minus 1.70%.

### *Liquidity Discussion*

As of December 31, 2012, we had shareholders' equity of \$16.3 million as compared to \$18.0 million at March 31, 2012. This decrease is primarily due to our total comprehensive loss for the nine months ended December 31, 2012.

As of December 31, 2012, we had working capital of \$12.3 million as compared to \$11.6 million at March 31, 2012, with increases in inventory and accounts receivable and a decrease in accounts payable, only partially offset by an increase in due to shareholders and affiliates.

As of December 31, 2012, we had cash and cash equivalents of approximately \$0.2 million as compared to \$0.5 million at March 31, 2012. The decrease is primarily attributable to the funding of our operations and working capital needs for the nine months ended December 31, 2012, offset by the \$2.3 million drawn on the Keltic Facility. At both December 31, and March 31, 2012, we also had approximately \$0.5 million of cash restricted from withdrawal and held by a bank in Ireland as collateral for overdraft coverage, creditors' insurance, revolving credit and other working capital purposes.

The following may result in a material decrease in our liquidity over the near-to-mid term:

- § continued significant levels of cash losses from operations;
- § our ability to obtain additional debt or equity financing should it be required;
- § an increase in working capital requirements to finance higher levels of inventories and accounts receivable;
- § our ability to maintain and improve our relationships with our distributors and our routes to market;
- § our ability to procure raw materials at a favorable price to support our level of sales;
- § potential acquisitions of additional brands; and
- § expansion into new markets and within existing markets in the U.S. and internationally.

We continue to implement a plan to support the growth of existing brands through sales and marketing initiatives that we expect will generate cash flows from operations in the next few years. As part of this plan, we seek to grow our business through expansion to new markets, growth in existing markets and strengthened distributor relationships. Further, we are actively seeking to reduce certain inventory levels while supporting growth in others in an effort to improve our working capital and provide improved cash flow from operations. We are also seeking additional brands and agency relationships to leverage our existing distribution platform. We intend to finance our brand acquisitions through a combination of our available cash resources, borrowings and, in appropriate circumstances, additional issuances of equity and/or debt securities. Acquiring additional brands could have a significant effect on our financial position, could materially reduce our liquidity and could cause substantial fluctuations in our quarterly and yearly operating results. We continue to look to reduce expense, seek improvements in routes to market and contain production costs to improve cash flows.

As of December 31, 2012, we had borrowed \$6.1 million of the \$7.0 million available under the Keltic Facility, leaving \$0.9 million in potential availability for working capital needs. We believe our current cash and working capital, and the current availability under the Keltic Facility, will enable us to fund our losses until we achieve profitability, ensure continuity of supply of our brands, and support new brand initiatives and marketing programs through at least December 2013.

### *Cash flows*

The following table summarizes our primary sources and uses of cash during the periods presented:

	Nine months ended	
	December 31,	
	2012	2011
	(in thousands)	
Net cash provided by (used in):		
Operating activities	\$ (2,366 )	\$ (4,190 )
Investing activities	(264 )	(411 )
Financing activities	2,378	3,984
Effect of foreign currency translation	(1 )	(16 )
Net decrease in cash and cash equivalents	\$ (253 )	\$ (633 )

**Operating activities.** A substantial portion of available cash has been used to fund our operating activities. In general, these cash funding requirements are based on operating losses, driven chiefly by the costs in maintaining our distribution system and our sales and marketing activities. We have also utilized cash to fund our receivables and inventories. In general, these cash outlays for receivables and inventories are only partially offset by increases in our accounts payable to our suppliers.

On average, the production cycle for our owned brands is up to three months from the time we obtain the distilled spirits, bulk wine and other materials needed to bottle and package our products to the time we receive products available for sale, in part due to the international nature of our business. We do not produce Gosling's rums, Pallini liqueurs, Tierras tequila, Gozio amaretto, or A. de Fussigny cognacs. Instead, we receive the finished product directly from the owners of such brands. From the time we have products available for sale, an additional two to three months may be required before we sell our inventory and collect payment from customers. Further, our inventory at December 31, 2012 included stores of bulk wine purchased in advance of forecasted production requirements. We expect to reduce these amounts in the normal course of future sales.

During the nine months ended December 31, 2012, net cash used in operating activities was \$2.4 million, consisting primarily of a net loss of \$1.9 million, an \$0.8 million increase in accounts receivable, an \$0.8 million increase in inventory, a \$0.4 million increase in due from affiliates and a \$0.2 million net change in the fair value of warrant liability. These uses of cash were partially offset by a \$0.6 million increase in due to related parties, a \$0.3 million increase in accounts payable and accrued expenses, depreciation and amortization expense of \$0.7 million, \$0.2 million in stock-based compensation expense and \$0.1 million in provision for obsolete inventories.

During the nine months ended December 31, 2011, net cash used in operating activities was \$4.2 million, consisting primarily of a net loss of \$3.7 million, a \$2.0 million increase in inventory, a \$0.6 million increase in accounts receivable, a \$0.2 million increase in other assets, and a \$0.1 million credit for the net change in fair value of warrant liability. These uses of cash were partially offset by a net \$0.8 million increase in accounts payable and accrued expenses, a \$0.2 million increase in due to related parties, a \$0.3 million decrease in prepaid expenses, \$0.2 million in non-cash interest, and depreciation and amortization expense of \$0.7 million.

**Investing Activities.** Net cash used in investing activities was \$0.3 million for the nine months ended December 31, 2012, representing \$0.1 million used in the acquisition of fixed and intangible assets and \$0.1 million in payments under a contingent consideration agreement.

Net cash used in investing activities was \$0.4 million for the nine months ended December 31, 2011, representing \$0.3 million used in the acquisition of fixed and intangible assets and \$0.08 million in payments under a contingent consideration agreement.

**Financing activities.** Net cash provided by financing activities for the nine months ended December 31, 2012 was \$2.4 million representing \$2.3 million drawn on the Keltic Facility and \$0.1 million drawn on the foreign revolving credit facility.

Net cash provided by financing activities for the nine months ended December 31, 2011 was \$4.0 million, consisting of \$3.5 million drawn on the Keltic Facility, \$1.8 million from the issuance of our Series A Preferred Stock and 2011 Warrants and \$1.0 million from the issuance of interim notes to affiliated parties. These proceeds were offset by payments of \$2.0 million on our credit facilities and the repayment of \$0.3 million on a note we issued in connection with our acquisition of Betts & Scholl.
