TABLE OF CONTENTS

PROSPECTUS SUMMARY

You should read the following summary together with the more detailed information regarding our company, our ordinary shares, our warrants and our financial statements and the notes to those statements appearing elsewhere in this prospectus.

Overview

We were originally formed for the purpose of effecting a business combination with one or more businesses or entities. On December 20, 2013, we consummated our initial business combination, whereby we acquired Tecnoglass Holding and its indirect, wholly owned subsidiaries, Tecnoglass and ES. As a result of the merger, the business of Tecnoglass Holding and its subsidiaries became our business. Accordingly, we are now a holding company operating through our direct and indirect subsidiaries.

Company History

We were formed under the name Andina Acquisition Corporation as an exempted company incorporated in the Cayman Islands on September 21, 2011 in order to effect a merger, share exchange, asset acquisition, share purchase, recapitalization, reorganization or other similar business combination with one or more businesses or entities.

On March 22, 2012, we closed our initial public offering of 4,000,000 units, with each unit consisting of one ordinary share and one warrant to purchase one ordinary share at an exercise price of \$8.00 per share. On March 30, 2012, we consummated the closing of the sale of an additional 200,000 units, which were sold subject to the underwriters over-allotment option. The 4,200,000 units sold in the initial public offering, including the units sold subject to the over-allotment option, were sold at an offering price of \$10.00 per unit, generating total gross proceeds of \$42,000,000. Simultaneously with the consummation of the initial public offering, we consummated a private placement of 4,800,000 warrants at a price of \$0.50 per warrant and options to purchase an aggregate of 900,000 units at a price of \$500,100, generating total proceeds of \$2,900,100. After deducting the underwriting discounts and commissions and the offering expenses, the total net proceeds to us were \$43,163,000 (which included the \$2,900,100 we received from the sale of warrants and the underwriters' unit purchase options), of which \$42,740,000 was deposited into a trust account. The remaining proceeds of \$423,000 became available to be used as working capital to provide for business, legal and accounting due diligence on prospective business combinations and continuing general and administrative expenses. The initial public offering was conducted pursuant to a registration statement on Form S-1 (Reg. No. 333-178061), that became effective on March 16, 2012.

From the consummation of our initial public offering until August 17, 2013, we were searching for a suitable target business to acquire. On August 17, 2013, we entered into an agreement and plan of reorganization, which agreement, as amended, we sometimes refer to as the merger agreement, with Tecnoglass Holding, Tecnoglass and ES, pursuant to which we were to acquire Tecnoglass and ES as indirect subsidiaries. Pursuant to the merger agreement, our wholly owned subsidiary was to merge with and into Tecnoglass Holding, with Tecnoglass Holding surviving as our wholly owned subsidiary. On December 20, 2013, we held an extraordinary general meeting of our shareholders, at which our shareholders approved the merger and other related proposals. On the same date, we closed the merger. In connection with the merger, our business became the business of Tecnoglass Holding, Tecnoglass and ES, and we changed our name to Tecnoglass Inc.

TABLE OF CONTENTS

Our Business

We are a leading manufacturer of hi-spec, architectural glass and windows for the western hemisphere residential and commercial construction industries, operating through our direct and indirect subsidiaries. Headquartered in Barranquilla, Colombia, we operate out of a 2.8 million square foot vertically-integrated, state-of-the-art manufacturing complex that provides easy access to the Americas, the Caribbean, and the Pacific.

We sell our products to more than 900 customers in North, Central and South America. The United States accounted for approximately 59% and 51% of our combined revenues in 2015 and 2014, while Colombia accounted for approximately 34% and 41%, and Panama for approximately 3% and 6% of our combined revenues in those years. Our tailored, high-end products are found on some of the world's most distinctive properties, including the El Dorado Airport (Bogota), 50 UN Plaza (New York), Fordham University Law School (New York), Trump Tower (Panama), Brickell City Centre (Miami), and The Woodlands (Houston).

Tecnoglass. Tecnoglass is a leading manufacturer of a variety of glass products installed primarily in commercial and residential buildings, including tempered safety, double thermo-acoustic and laminated glass. Tecnoglass products are installed in hotels, residential buildings, commercial and corporate centers, universities, airports and hospitals in a variety of applications such as floating facades, curtain walls, windows, doors, handrails, interior and bathroom spatial dividers. Approximately 57% of Tecnoglass products are supplied to ES for installation in various products that ES manufactures, with the balance of Tecnoglass products being sold to customers throughout North, Central and South America.

Tecnoglass also produces aluminum products such as profiles, rods, bars, plates and other hardware used in the manufacture of windows. In 2007, Tecnoglass established its Alutions plant in Barranquilla, Colombia for extrusion, smelting, painting and anodizing processes, and for exporting, importing and marketing aluminum products. The Alutions plant contributes more than 90% of the raw materials needed for production of Tecnoglass aluminum products

Glass Magazine ranked Tecnoglass as the second largest glass fabricator serving the U.S. market in 2013. We believe that it is the leading glass transformation company in Colombia, capturing 40% of the market share in the country.

ES. ES is a leader in the production of high-end windows, with more than 29 years of experience in the glass and aluminum structure assembly market in Colombia. ES designs, manufactures, markets and installs architectural systems for high, medium and low rise construction, glass and aluminum windows and doors, office dividers and interiors, floating facades and commercial display windows.

ES has expanded its U.S. sales outside of the Florida market for windows, into the high-tech market for curtain walls, a product that is in high demand and represents a new trend in architecture, and floating facades. Due to the sophistication of these new products, ES believes that sales of curtain walls will generate higher margins as compared to traditional window frames from walls or floor to ceiling windows. Curtain walls produced by ES are composed of high performance materials that are produced by Alutions, the aluminum smelting plant, and Tecnoglass with state of the art technology.

Since 2004, we have a strategic commercial relationship with ES Windows LLC (ESW LLC), a Florida-based company partially owned by Christian T. Daes and José M. Daes, who are also our executive officers and directors. ESW LLC is a member of the American Architectural Manufacturers Association, a technical information center for the architecture industry with highest standards. ESW LLC sends project specifications and orders from its clients to

ES, and in turn, receives pricing quotes from ES which are conveyed to the client.

In 2014, we established two entities in South Florida, Tecno LLC and Tecno RE, to acquire manufacturing and warehousing facilities, customer lists and exclusive design permits in order to support sales growth in the United States. We will continue to manufacture our products at our facilities in Barranquilla, Colombia while performing select manufacturing and light assembly in the U.S. to enhance client service and create certain cost efficiencies.

TABLE OF CONTENTS

In Panama, ES sells products primarily to companies participating in large construction projects in the higher income areas of the city. ES products were supplied in the Soho Plaza, a complex of a shopping mall and two skyscrapers that brought in approximately \$18 million in revenues to the Company since the inception of the contract in 2012.

See the section entitled **Business** beginning on page 32 of this prospectus for further information on our business.

Company Information

Our principal executive office is located at Avenida Circunvalar a 100 mts de la Via 40, Barrio Las Flores Barranquilla, Colombia and our telephone number is (57)(5) 3734000. Tecnoglass and ES, each maintain websites at www.tecnoglass.com and www.energiasolarsa.com, respectively, that contain information about their operations, but that information is not part of this prospectus.

Background of this Prospectus

The securities offered hereby, and being registered on the registration statement, of which this prospectus forms a part, were acquired in different transactions since our inception and are being registered to satisfy certain contractual obligations described below.

Insider Shares

In connection with our formation, we issued 1,437,500 ordinary shares, the insider shares, for an aggregate purchase price of \$25,000. In March 2012, the holders of these shares returned an aggregate of 287,500 ordinary shares to us at no cost for cancellation in connection with a change in the size of our initial public offering, so that immediately preceding our initial public offering, 1,150,000 insider shares were outstanding. Of these shares, 100,000 were cancelled on May 1, 2012 because the underwriters did not exercise their over-allotment option in full and 10,000 shares were transferred to third parties, resulting in an aggregate of 1,040,000 insider shares remaining outstanding.

We granted certain registration rights to the holders of the above-referenced insider shares. Accordingly, we are registering the resale of the 1,040,000 insider shares on the registration statement of which this prospectus forms a part.

Public Warrants

In our initial public offering, we sold 4,200,000 units, each unit consisting of one ordinary share and one warrant to purchase one ordinary share at a price of \$8.00 per share. These units, and the ordinary shares and warrants underlying such units, were registered on the Registration Statement on Form S-1 (File No. 333-178061), declared effective March 16, 2012. The ordinary shares issuable upon exercise of the warrants were not registered at the time.

The warrants became exercisable on December 20, 2013 (the date of the consummation of our initial business combination). The public warrants are exercisable for cash, or on a cashless basis, all as more fully described in the section entitled *Description of Securities Warrants* beginning on page 29 of this prospectus. However, no public warrants may be exercised for cash unless we have an effective registration statement covering the ordinary shares issuable upon exercise of the warrants and a current prospectus relating to such ordinary shares.

TABLE OF CONTENTS

Under the terms of the warrant agreement governing the public warrants, we have agreed to use our best efforts to meet these conditions and to maintain a current prospectus relating to the ordinary shares issuable upon exercise of the warrants until the expiration of the warrants. Accordingly, we are registering the issuance of the 2,525,416 shares underlying such public warrants on the registration statement of which this prospectus forms a part.

Insider Warrants and Working Capital Warrants

In a private placement taking place simultaneously with the consummation of our initial public offering, we sold 4,800,000 insider warrants at a price of \$0.50 per warrant to certain of the Selling Securityholders (of which 804,082 warrants were subsequently sold).

On May 20, 2013, the A. Lorne Weil 2006 Irrevocable Trust-Family Investment Trust, a trust of which our non-executive chairman of the board, his spouse and his descendants are beneficiaries, loaned us an aggregate of \$100,000. The loan was evidenced by a promissory note that was non-interest bearing and payable at the consummation of our initial business combination. The principal balance of the note was convertible, at the holder's option, at any time until the repayment in full of such note, into warrants at a price of \$0.50 per warrant, or an aggregate of up to 200,000 warrants. The trust exercised its conversion right (which conversion was also approved by our shareholders at the meeting held on December 20, 2013 to approve the merger agreement), and was issued 200,000 working capital warrants, which were subsequently exercised on a cashless basis for 78,401 ordinary shares.

We granted certain registration rights to the holders of the above-referenced warrants. Accordingly, we are registering (A) the resale of 3,386,663 insider warrants and 3,386,663 ordinary shares underlying such warrants and (B) the issuance of the 4,533,529 ordinary shares underlying the insider warrants and working capital warrants on the registration statement of which this prospectus forms a part.

Unit Purchase Options

EarlyBirdCapital, Inc. (and its designees) purchased two unit purchase options from us in connection with our initial public offering. The first unit purchase option entitles the holder to purchase up to an aggregate of 400,000 units. EarlyBirdCapital, Inc. paid us \$100 for the first unit purchase option. The units issuable upon exercise of the first unit purchase option are identical to those offered in our initial public offering. The first purchase option is exercisable for \$11.00 per unit, and may be exercised on a cashless basis. The first purchase option became exercisable on December 20, 2013 (the date of the consummation of our initial business combination) and expires March 16, 2017.

The second purchase option entitles the holder to purchase up to 500,000 units. EarlyBirdCapital, Inc. paid us \$500,000 for the second purchase option, or \$1.00 per unit underlying each option. The units issuable upon exercise of the second purchase option are identical to those offered in our initial public offering, except that the warrants included in the units are not redeemable so long as they are held by EarlyBirdCapital, Inc. or its affiliates. The second purchase option is exercisable for \$10.00 per unit, and may be exercised on a cashless basis. The second purchase option became exercisable on December 20, 2013 (the date of the consummation of our initial business combination) and expires March 16, 2017.

The first unit purchase option, the units and the ordinary shares and warrants issuable upon exercise of the first unit purchase option were registered on the Registration Statement on Form S-1 (File No. 333-178061), declared effective March 16, 2012. The second unit purchase option (and underlying securities) and the ordinary shares issuable upon exercise of the warrants underlying the first unit purchase option were not registered at the time.

We granted certain registration rights to the holders of the above-referenced unit purchase options. As of May 31, 2016 469,982 second unit purchase options and the underlying warrants have been exercised by the option holders. Accordingly, we are registering the resale of the 30,018 warrants and 30,018 ordinary shares underlying the second unit purchase option and the issuance of the 400,000 warrants and 800,000 ordinary shares underlying both unit purchase options on the registration statement of which this prospectus forms a part.

TABLE OF CONTENTS

December 2013 Agreements

On December 19, 2013, we entered into subscription agreements with two investors pursuant to which such investors purchased an aggregate of 649,382 ordinary shares at a price of \$10.18 per share, or an aggregate of \$6,610,709. Additionally, the A. Lorne Weil 2006 Irrevocable Trust-Family Investment Trust transferred an aggregate of 608,796 insider warrants to these two investors. The sales pursuant to the subscription agreement, as well as the transfer of the insider warrants, were conditioned upon, and consummated after, the closing of the merger transaction with Tecnoglass Holding. Pursuant to these subscription agreements, we agreed to file a registration statement covering these securities within four months of the closing of our initial business combination and to use our best efforts to have such registration statement declared effective as soon as possible.

Also on December 19, 2013, we entered into an agreement with a third party shareholder pursuant to which the shareholder agreed to use commercially reasonable efforts to purchase up to 1,000,000 ordinary shares in the open market and agreed that it would not seek conversion or redemption of any such purchased shares in connection with the merger agreement. This holder and its affiliates purchased an aggregate of 985,896 ordinary shares pursuant to this agreement. Pursuant to the agreement, the A. Lorne Weil 2006 Irrevocable Trust-Family Investment Trust transferred to the holder and its affiliates an aggregate of 2,167,867 insider warrants. Additionally, EarlyBirdCapital transferred to the holder and its affiliates an aggregate of 88,731 of the unit purchase options described above. The transfer of these insider warrants and unit purchase options was conditioned upon, and consummated after, the closing of the merger transaction with Tecnoglass Holding.

We granted certain registration rights to the two investors and the third party shareholder and its affiliates related to the above-agreements. Accordingly, in addition to registering for resale all insider warrants (and underlying shares) and underlying securities of the second unit purchase options for resale and issuance as described above, we are also registering the resale of the 649,382 ordinary shares sold in this private placement on the registration statement of which this prospectus forms a part.

March 2014 Private Placement

On March 5, 2014, we entered into a subscription agreement with A. Lorne Weil 2006 Irrevocable Trust-Family Investment Trust, pursuant to which the Trust agreed to purchase an aggregate of 95,693 ordinary shares at an aggregate price of \$1,000,000, or approximately \$10.45 per share, representing a slight premium to the closing price of our ordinary shares immediately prior to the execution of the subscription agreement. The closing of the purchase took place on March 14, 2014. Such shares were subsequently transferred to Mr. Weil upon the trust's liquidation.

We agreed to file a registration statement covering the resale of these shares by July 14, 2014 and accordingly, are registering the resale of the 95,693 ordinary shares sold in this private placement on the registration statement of which this prospectus forms a part.

RISK FACTORS

An investment in our securities involves significant risks. Before purchasing any securities, you should carefully consider and evaluate all of the information included and incorporated by reference or deemed to be incorporated by reference in this prospectus or the applicable prospectus supplement, including the risk factors set forth below, as updated by annual, quarterly and other reports and documents we file with the SEC after the date of this prospectus and that are incorporated by reference herein or in the applicable prospectus supplement. Our business, financial position, results of operations or liquidity could be adversely affected by any of these risks. The risks and uncertainties we describe are not the only ones facing us. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also impair our business or operations. Any adverse effect on our business, financial condition or operating results could result in a decline in the value of our ordinary shares and other securities and the loss of all or part of your investment.

Risks Related to Our Business Operations

We operate in competitive markets, and our business could suffer if we are unable to adequately address potential downward pricing pressures and other factors that may reduce operating margins.

The principal markets that our subsidiaries, Tecnoglass and ES, serve are highly competitive. Competition is based primarily on the precision and range of achievable tolerances, quality, price and the ability to meet delivery schedules dictated by customers. Our competition comes from companies of various sizes, some of which have greater financial and other resources than we do and some of which have more established brand names in the markets that we serve.

Any of these competitors may foresee the course of market development more accurately than we will, develop products that are superior to ours, have the ability to produce similar products at a lower cost than us or adapt more quickly than we can to new technologies or evolving customer requirements. Increased competition could force us to lower our prices or to offer additional services at a higher cost to us, which could reduce gross profit and net income. Accordingly, we may not be able to adequately address potential downward pricing pressures and other factors, which consequently may adversely affect our financial condition and results of operations.

Failure to maintain the performance, reliability and quality standards required by our customers could have a materially negative impact on our financial condition and results of operation.

We manufacture a significant portion of our products based on the specific requirements of our customers. If our products or services have performance, reliability or quality problems, or products are installed with incompatible glazing materials, we may experience additional warranty and service expenses, reduced or canceled orders, diminished pricing power, higher manufacturing or installation costs or delays in the collection of accounts receivable. Additionally, performance, reliability or quality claims from our customers, with or without merit, could result in costly and time-consuming litigation that could require significant time and attention of management and involve significant monetary damages that could negatively affect our financial results.

The volatility of the cost of raw materials used to produce our products could materially adversely affect our results of operations in the future.

The cost of raw materials included in our products, including aluminum extrusion and polyvinyl butyral, are subject to significant fluctuations. A variety of factors over which we have no control, including global demand for aluminum, fluctuations in oil prices, speculation in commodities futures and the creation of new laminates or other products based on new technologies, impact the cost of raw materials which we purchase for the manufacture of our products.

While we may attempt to minimize the risk from severe price fluctuations by entering into aluminum forward contracts to hedge these fluctuations in the purchase price of aluminum extrusion we use in production, substantial, prolonged upward trends in aluminum prices could significantly increase the cost of our aluminum needs and have an adverse impact on our results of operations. If we are not able to pass on significant cost increases to our customers, our results in the future may be negatively affected.
