Exhibit 99.1

**Mindray Medical International Limited Announces Third Quarter 2006 Results
Financial Summary for the three months ended September 30, 2006**

Net revenues of RMB360.9 million (US\$45.7 million), up 21.6% year-over-year

Net income of RMB91.0 million (US\$11.5 million), up 131.0% year-over-year

Basic earnings per share of RMB1.07 (US\$0.14), up 256.7% year-over-year

Diluted earnings per share of RMB0.94 (US\$0.12), up 213.3% year-over-year

(Shenzhen, China, November 16, 2006) Mindray Medical International Limited (NYSE: MR), a leading developer, manufacturer and marketer of medical devices, announced its financial results for the three months ended September 30, 2006¹.

Third quarter net revenues in 2006 were RMB360.9 million (US\$45.7 million), a 21.6% increase from net revenues of RMB296.9 million in the third quarter of 2005. Gross profit for the third quarter of 2006 was RMB201.1 million (US\$25.4 million), a 25.6% increase from RMB160.1 million in the third quarter of 2005. Net income for the third quarter of 2006 was RMB91.0 million (US\$11.5 million), a 131.0% increase from RMB39.4 million in the third quarter of 2005. For the three months ended September 30, 2006, basic and diluted earnings per share were RMB1.07 (US\$0.14) and RMB0.94 (US\$ 0.12)², respectively.

This was a good quarter, said Xu Hang, Chairman and Co-Chief Executive Officer of Mindray. Our overall performance reflects continued progress and momentum in all three of our business segments, particularly in our diagnostic laboratory instruments and ultrasound imaging systems segments. Our business segments delivered solid year-over-year revenue and earnings growth in a business environment that was more challenging than the first half of the year. Regulatory issues made this quarter particularly challenging from an operational perspective, due to the on-going anti-corruption campaign targeted at the healthcare industry by the Chinese government as well as delays in the State Food and Drug Administration (or SFDA) registration for our new products, as we disclosed in our IPO prospectus. Even so, year-over-year trends remained positive, which we believe is a testament to the continued success of our business model and growth initiatives.

¹ This announcement contains translations of certain Renminbi amounts into US dollars at specified rates solely for the convenience of readers. Unless otherwise noted, all translations from Renminbi to US dollars as of and for the quarter ended September 30, 2006 and nine months ended September 30, 2006 were made

at the noon buying rate in the City of New York for cable transfers in Renminbi per US dollar as certified for customs purposes by the Federal Reserve Bank of New York, or the noon buying rate, as of September 29, 2006, which was RMB 7.9040 to US\$1.00. Mindray makes no representation that the Renminbi or US dollar amounts referred to in this release could have been or could be converted into US dollars or Renminbi, as the case maybe, at any particular rate or at all.

Exchange,
represents one
Class A
ordinary share.

Table of Contents

New Product Highlights

In September 2006, we received relevant SFDA product registrations and formally launched several new products including DC-6, our first color Doppler ultrasound imaging systems and BC-5500, a five-part differential hematology analyzer. In addition, in October 2006, we introduced the Beneview series of patient monitoring devices, our high-end patient monitors.

Revenue Analysis

Net revenues of RMB360.9 million (US\$45.7 million) for the third quarter of 2006 were up RMB64.0 million (US\$8.1 million), representing an increase of 21.6% from the same period in 2005. This revenue comparison includes the negative impact from the current slowdown in hospital procurement in China's domestic market as a result of on-going anti-corruption campaign targeted at the healthcare industry and delays in product launches resulting from changes in China's SFDA regulatory approval processes. As previously contemplated in our IPO prospectus (available at <http://www.sec.gov/edgar.shtml>), these factors had an adverse impact on our net revenues in the third quarter of 2006. Net revenues for the nine months ended September 30, 2006, were RMB1,037.6 million (US\$131.3 million), representing a 41.4% increase from the same period in 2005.

Net Segment Revenues³

Growth in all three of our business segments contributed to an increase of our total net segment revenues year-over-year. Stronger growth in our diagnostic laboratory instruments and ultrasound imaging systems segments contributed to an increase in the percentage of total net segment revenues attributable to these segments and a corresponding decrease in the share of total net segment revenues attributable to patient monitoring devices.

Third quarter 2006 net revenues in our patient monitoring devices segment grew 11.7% to RMB139.5 million (US\$17.7 million) from the same period in 2005. The percentage contribution of patient monitoring devices to our total net segment revenues fell from 43.8% in the third quarter of 2005 to 39.2% in the third quarter of 2006. Net segment revenues for the nine months ended September 30, 2006, were RMB411.1 million (US\$52.0 million), or 20.0% increase from the same period in 2005.

Third quarter 2006 net revenues in our diagnostic laboratory instruments segment increased 45.3% to RMB113.3 million (US\$14.3 million) from RMB78.0 million in the third quarter of 2005. Net revenues from the diagnostic laboratory instruments segment grew to a share of 31.8% of our total net segment revenues in the third quarter of 2006 from a share of 27.3% in the corresponding quarter in 2005. Net segment revenues for

³ The accounting policies underlying the financial information for the segmental reportings are based primarily on statutory accounting requirements in the PRC.

Table of Contents

the nine months ended September 30, 2006, were RMB303.8 million (US\$38.4 million), or 66.5% increase from the same period in 2005.

Third quarter 2006 net revenues in our ultrasound imaging systems segment increased 24.9% to RMB97.6 million (US\$12.4 million) from RMB78.3 million in the third quarter of 2005. The percentage contribution of net revenues from the ultrasound imaging systems segment was 27.4% of total net segment revenues in the third quarter of 2006 compared to 27.4% in the corresponding quarter in 2005. Net segment revenues for the nine months ended September 30, 2006, were RMB298.0 million (US\$37.7 million), or 73.9% increase over the same period in 2005.

Net Revenues by Geographic Region

For the first time in any quarter, our net revenues generated in international markets exceeded net revenues generated in China. Net revenues generated in international markets in the third quarter of 2006 increased by 38.9% to RMB188.2 million (US\$23.8million) from RMB135.5 million in the third quarter of 2005. Net revenues generated in international markets for the nine months ended September 30, 2006, were RMB484.0 million (US\$61.2 million), or 58.6% increase from the same period in 2005. Net revenues generated in China in the third quarter of 2006 increased by 7.0% to RMB172.7 million (US\$21.8 million) from RMB161.4 million in the corresponding period of previous year. Net revenues generated in China for the nine months ended September 30, 2006, were RMB553.6 million (US\$70.0 million), representing a 29.2% increase from the same period in 2005.

Gross Margins

The consolidated gross margin for the third quarter of 2006 was 55.7%, compared to 53.9% gross margin reported in the third quarter of 2005, primarily due to margin improvements in our ultrasound imaging systems segment, which were partially offset by the elimination of the value-added tax refunds on embedded self-developed software previously available to us, which contributed an additional RMB9.1 million to the consolidated gross profits during the third quarter of 2005. For the nine months ended September 30, 2006, the consolidated gross margin was 55.0%, compared to 54.8% gross margin reported during the same period in 2005. The consolidated gross margin excluding the impact of VAT refunds would have been 52.5% for the third quarter of 2005 and 53.4% for the nine months ended September 30, 2005.

Operating Expenses

Selling expenses for the third quarter of 2006 were RMB49.5 million (US\$6.3 million), representing a sequential decrease of 11.4% from the second quarter of 2006 and an increase of 51.6% from the third quarter of 2005. As a percentage of total net revenues, selling expenses decreased to 13.7% from 15.6% in the second quarter of 2006 and increased from 11.0% in the third quarter of 2005. Selling expenses for the nine months

Table of Contents

ended September 30, 2006 were RMB149.4 million (US\$18.9 million), representing an increase of 46.4% from the same period in 2005.

General and administrative expenses for the third quarter of 2006 were RMB18.2 million (US\$2.3 million), representing a sequential increase of 25.5% from the second quarter of 2006 and a decrease of 69.0% from the same quarter in 2005. As a percentage of total net revenue, general and administrative expenses increased to 5.0% from 4.0% in the second quarter of 2006. However, those expenses constituted 19.8% of net revenues in the third quarter of 2005. The proportionate decline on a year-over-year basis reflects decreases in share-based compensation expenses. General and administrative expenses for the nine months ended September 30, 2006 were RMB43.1 million (US\$5.5 million), representing a decrease of 55.3% from the same period in 2005.

Research and development expenses for the third quarter in 2006 were RMB36.5 million (US\$4.6 million), representing a 6.0% increase from the second quarter of 2006 and a 53.0% increase from the corresponding quarter in 2005. Consistent with our plan to annually invest approximately 10% of our net revenues in research and development activities, our research and development expenses increased from 8.0% of net revenues in the third quarter of 2005 to 10.1% in the third quarter of 2006. Research and development expenses for the nine months ended September 30, 2006 were RMB103.2 million (US\$13.1 million), representing an increase of 43.3% from the same period in 2005.

Total share-based compensation expenses, which were allocated to related operating expenses, decreased to RMB9.3 million (US\$1.2 million) in the third quarter of 2006 from RMB44.6 million in the third quarter of 2005. For the nine months ended September 30, 2006, total share-based compensation expenses were RMB19.5 million (US\$2.5 million), compared to RMB70.9 million reported during the same period in 2005.

Net income for the third quarter of 2006 was RMB91.0 million (US\$11.5 million), a 131% increase from RMB39.4 million in the third quarter of 2005. For the nine months ended September 30, 2006, net income was RMB255.8 million (US\$32.4 million), representing a 142.2% increase from the same period in 2005. For the third quarter of 2006, basic and diluted earnings per share² for the quarter were RMB1.07 (US\$0.14) and RMB0.94 (US\$0.12), respectively. For the nine months ended September 30, 2006, basic and diluted earnings per share² were RMB3.17 (US\$0.40) and RMB2.80 (US\$0.35), respectively.

Conference Call and Webcast

The management team will conduct a conference call to discuss our results, outlook and related matters on Thursday, November 16, 2006 at 8:00 a.m. Eastern Time. Members of the public who would like to listen to the conference call should dial 1-866-206-7204 (U.S. domestic) and 1-703-639-1114 (International). The number should be dialed at least 10 minutes prior to the start of the conference call. The passcode for the conference call is Mindray. The conference call will also be accessible as an audio webcast through the Investor Relations section of our web site (www.mindray.com). There is no

Table of Contents

charge to access the call. For those unable to listen to the live broadcast, a replay will be available on our web site for three months after the event. A telephone replay will also be available two hours after the call through November 17, 2006. Members of the public who would like to listen to a replay of conference call should dial 1-888-266-2081 (U.S. domestic) and 1-703-925-2533 (International). The passcode for the telephone replay is 141369. Please direct any questions regarding obtaining access to the conference call to Christensen at mhossain@ChristensenIR.com.

About Mindray

Mindray Medical International Limited is a leading developer, manufacturer and marketer of medical devices in China with a significant and growing presence worldwide. Established in 1991, Mindray offers a broad range of products across three primary business segments: patient monitoring devices, diagnostic laboratory instruments, and ultrasound imaging systems. Mindray is headquartered in Shenzhen, China, and has 29 local sales and services offices in China, as well as sales and services offices in Boston, Istanbul, London and Vancouver.

Cautionary Note Regarding Forward-Looking Statements

This press release contains forward-looking statements, including those related to the continued success of our business model and growth initiatives. These statements are not historical facts but instead represent only our belief regarding future events, many of which, by their nature, are inherently uncertain and outside of our control. It is possible that our actual results and financial condition may differ, possibly materially, from the anticipated results and financial condition indicated in these forward-looking statements. Readers are cautioned that these forward-looking statements are only predictions and may differ materially from actual future events or results due to a variety of factors, including but not limited to: the expected growth of the medical device market in China and internationally; relevant government policies and regulations relating to the medical device industry; market acceptance of our products; our expectations regarding demand for our products; our ability to expand our production, our sales and distribution network and other aspects of our operations; our ability to stay abreast of market trends and technological advances; our ability to effectively protect our intellectual property rights and not infringe on the intellectual property rights of others; competition in the medical device industry in China and internationally; and general economic and business conditions in the countries in which we operate. The financial information contained in this release should be read in conjunction with the consolidated financial statements and notes thereto included in our IPO prospectus filed with the Securities and Exchange Commission on September 27, 2006. For a discussion of other important factors that could adversely affect our business, financial condition, results of operations and prospects, see Risk Factors beginning on page 9 of our IPO prospectus. Our results of operations for the third quarter of 2006 are not necessarily indicative of our operating results for any future periods. Any projections in this release are based on limited information currently available to us, which is subject to change. Although such projections and the factors influencing them will likely change, we will not necessarily update the information. Such information speaks only as of the date of this release.
