3. Reasons for Revision of the Outlook

Consolidated results for the year ending March 31, 2007 are expected to show sales and profits exceeding previous outlook, helped by strong sales in Western Europe, Eastern Europe/Russia, Central and South America and the Middle East as well as the foreign exchange market that transitioned toward depreciation of the yen.

As for non-consolidated results for the year ending March 31, 2007, since the shift of the production to the China plant have been going smoothly, net sales will fall short of previous outlook. In terms of profits, it is likely to exceed previous outlook owing to the depreciation of the yen.

The above performance outlook has primarily been adjusted from the prior outlook on October 31, 2006 because of a change in exchange rate assumption, 117 yen to US\$1 and 150 yen to 1 Euro for the year ending March 31, 2007 (outlook announced previously: 115 yen to US\$1 and 146 yen to 1 Euro).
