CHEMED CORPORATION AND SUBSIDIARY COMPANIES

Notes to Unaudited Consolidated Financial Statements

1. Basis of Presentation

As used herein, the terms "We," "Company" and "Chemed" refer to Chemed Corporation or Chemed Corporation and its consolidated subsidiaries.

We have prepared the accompanying unaudited consolidated financial statements of Chemed in accordance with Rule 10-01 of SEC Regulation S-X. Consequently, we have omitted certain disclosures required under generally accepted accounting principles in the United States ("GAAP") for complete financial statements. The December 31, 2015 balance sheet data were derived from audited financial statements but do not include all disclosures required by GAAP. However, in our opinion, the financial statements presented herein contain all adjustments, consisting only of normal recurring adjustments, necessary to state fairly our financial position, results of operations and cash flows. These financial statements are prepared on the same basis as and should be read in conjunction with the audited Consolidated Financial Statements and related notes included in our Annual Report on Form 10-K for the year ended December 31, 2015.

TAXES ON INCOME

In November 2015, the Financial Accounting Standards Board ("FASB") issued ASU No. 2015-17 which simplifies the balance sheet classification required for deferred tax balances. It allows for a company's deferred tax assets and liabilities to be netted into a noncurrent account, either asset or liability, by jurisdiction. The ASU is required to be adopted for annual periods beginning after December 15, 2016 and the interim periods within that annual period. Early adoption is permitted. Companies have the choice to adopt prospectively or retrospectively. In order to simplify our balance sheet classification required for deferred tax balances, we adopted the ASU for our annual balance sheet as of December 31, 2015 on a prospective basis. Prior periods have not been retrospectively adjusted. We do not believe that this change results in a material comparability issue between years on our balance sheet

CLASSIFICATION ADJUSTMENTS

During the three and six months ended June 30, 2016, we classified \$435,000 and \$974,000 respectively of non-cash restricted stock award amortization in selling, general and administrative expenses. We also recorded a classification adjustment of \$448,000 and \$897,000 to decrease amortization and increase selling, general and administrative expenses in our Consolidated Statement of Income for the three and six months ended June 30, 2015 respectively related to non-cash restricted stock award amortization. This classification adjustment does not impact income from operations, income before income taxes, net income, earnings per share, net cash provided by operating activities or our Consolidated Balance Sheet. We believe the impact of the classification adjustments are immaterial to our consolidated financial statements for the current and prior periods.

2. Revenue Recognition

Both the VITAS segment and the Roto-Rooter segment recognize service revenues and sales when the earnings process has been completed. Generally, this occurs when services are provided or products are shipped. VITAS recognizes revenue at the estimated realizable amount due from third-party payers. Medicare payments are subject to certain limitations, as described below.

We actively monitor each of our hospice programs, by provider number, as to their specific admission, discharge rate and median length of stay data in an attempt to determine whether they are likely to exceed the annual per-beneficiary Medicare cap ("Medicare cap"). Should we determine that revenues for a program are likely to exceed the Medicare cap based on projected trends, we attempt to institute corrective action to influence the patient mix or to increase patient admissions. However, should we project our corrective action will not prevent that program from exceeding its

Edgar Filing: CHEMED CORP - Form 10-Q

Medicare cap, we estimate the amount of revenue recognized during the period that will require repayment to the Federal government under the Medicare cap and record the amount as a reduction to patient revenue.

During the three and six months ended June 30, 2016, no Medicare cap liability was recorded.

During the first six months ended June 30, 2015, we recorded \$165,000 Medicare cap reversal of amounts recorded in the fourth quarter of 2014 for one program's projected 2015 measurement period liability. The fourth quarter of 2014 was part of the 2015 Medicare cap year.

-6-

Edgar Filing: CHEMED CORP - Form 10-Q

In 2013, the U.S. government implemented automatic budget reductions of 2.0% for all government payees, including hospice benefits paid under the Medicare program. In 2015, CMS determined that the Medicare cap should be calculated “as if” sequestration did not occur. As a result of this decision, VITAS has received notification from our third party intermediary that an additional \$1.9 million is owed for Medicare cap in two programs arising during the 2013 and 2014 measurement periods. The amounts are automatically deducted from our semi-monthly PIP payments. We do not believe that CMS is authorized under the sequestration authority or the statutory methodology for establishing the Medicare cap to demand the \$1.9 million under their “as if” methodology. We have not recorded a reserve as of June 30, 2016 for the \$1.9 million potential exposure. We have appealed CMS’s methodology change with the appropriate regulatory appeal board.

Shown below is the Medicare cap liability activity for the fiscal periods ended (in thousands):

| | June 30, | |
|------------------------------|----------|---------|
| | 2016 | 2015 |
| Beginning balance January 1, | \$1,165 | \$6,112 |
| 2015 measurement period | - | (165) |
| Payments | (618) | (4,782) |
| Ending balance June 30, | \$547 | \$1,165 |

Vitas provides charity care, in certain circumstances, to patients without charge when management of the hospice program determines, at the time services are performed, that the patient cannot afford payment. There is no revenue or associated accounts receivable in the accompanying consolidated financial statements related to charity care. The cost of charity care is calculated by taking the ratio of charity care days to total days of care and multiplying by total cost of care. The cost of charity care is as follows (in thousands):

| Three months ended June 30, | | Six months ended June 30, | |
|-----------------------------|---------|---------------------------|---------|
| 2016 | 2015 | 2016 | 2015 |

We report corporate administrative expenses and unallocated investing and financing income and expense not directly related to either segment as “Corporate”.

4. Earnings per Share

Earnings per share (“EPS”) are computed using the weighted average number of shares of capital stock outstanding. Earnings and diluted earnings per share are computed as follows (in thousands, except per share data):

| For the Three Months Ended June 30, | Net Income | | Earnings per Share |
|-------------------------------------|------------|--------|--------------------------|
| | Income | Shares | |
| 2016 | | | |
| Earnings | \$24,885 | 16,443 | \$ 1.51 |
| Dilutive stock options | - | 289 | |
| Nonvested stock awards | - | 99 | |
| Diluted earnings | \$24,885 | 16,831 | \$ 1.48 |
| 2015 | | | |
| Earnings | \$26,975 | 16,880 | \$ 1.60 |
| Dilutive stock options | - | 390 | |
| Nonvested stock awards | - | 149 | |
| Diluted earnings | \$26,975 | 17,419 | \$ 1.55 |

| For the Six Months Ended June 30, | Net Income | | Earnings per Share |
|-----------------------------------|------------|--------|--------------------------|
| | Income | Shares | |
| 2016 | | | |
| Earnings | \$49,725 | 16,583 | \$ 3.00 |
| Dilutive stock options | - | 297 | |
| Nonvested stock awards | - | 119 | |
| Diluted earnings | \$49,725 | 16,999 | \$ 2.93 |
| 2015 | | | |
| Earnings | \$51,512 | 16,872 | \$ 3.05 |
| Dilutive stock options | - | 395 | |
| Nonvested stock awards | - | 152 | |
| Diluted earnings | \$51,512 | 17,419 | \$ 2.96 |

For the three and six-month periods ended June 30, 2016 and 2015, 418,000 and 411,000, respectively, stock options were excluded from the computation of diluted earnings per share because they would have been anti-dilutive.

5. Long-Term Debt

On June 30, 2014, we replaced our existing credit agreement with the Third Amended and Restated Credit Agreement (“2014 Credit Agreement”). Terms of the 2014 Credit Agreement consist of a five-year, \$350 million revolving credit facility and a \$100 million term loan. The 2014 Credit Agreement has a floating interest rate that is currently LIBOR plus 113 basis points.

The debt outstanding as of June 30, 2016 consists of the following:

Edgar Filing: CHEMED CORP - Form 10-Q

| | |
|-----------------------------------|------------|
| Revolver | \$60,000 |
| Term loan | 87,500 |
| Total | 147,500 |
| Current portion of long-term debt | (7,500) |
| Long-term debt | \$ 140,000 |

-8-

Scheduled principal payments of the term loan are as follows:

| | |
|------|----------|
| 2016 | \$3,750 |
| 2017 | 8,750 |
| 2018 | 10,000 |
| 2019 | 65,000 |
| | \$87,500 |

The 2014 Credit Agreement contains the following quarterly financial covenants:

| Description | Requirement |
|--|------------------|
| Leverage Ratio (Consolidated Indebtedness/Consolidated Adj. EBITDA) | < 3.50 to 1.00 |
| Fixed Charge Coverage Ratio (Consolidated Free Cash Flow/Consolidated Fixed Charges) | > 1.50 to 1.00 |
| Annual Operating Lease Commitment | < \$50.0 million |

We are in compliance with all debt covenants as of June 30, 2016. We have issued \$37.4 million in standby letters of credit as of June 30, 2016 mainly for insurance purposes. Issued letters of credit reduce our available credit under the 2014 Credit Agreement. As of June 30, 2016, we have approximately \$252.6 million of unused lines of credit available and eligible to be drawn down under our revolving credit facility.

6. Other Income/(Expense) – Net

Other income/(expense) -- net comprises the following (in thousands):

| | Three months ended June 30, | | Six months ended June 30, | |
|---|-----------------------------|-------|---------------------------|---------|
| | 2016 | 2015 | 2016 | 2015 |
| Market value adjustment on assets held in deferred compensation trust | \$3,188 | \$498 | \$201 | \$1,448 |
| Loss on disposal of property and equipment | (57) | (63) | (90) | (15) |
| Interest income - net | 85 | 86 | 182 | 130 |
| Other - net | 1 | 15 | - | (464) |
| Total other income/(expense) - net | \$3,217 | \$536 | \$293 | \$1,099 |

7. Stock-Based Compensation Plans

On February 19, 2016, the Compensation/Incentive Committee of the Board of Directors (“CIC”) granted 9,541 Performance Stock Units (“PSUs”) contingent upon the achievement of certain total shareholders return (“TSR”) targets as compared to the TSR of a group of peer companies for the three-year period ending December 31, 2018, the date at which such awards vest. The cumulative compensation cost of the TSR-based PSU award to be recorded over the three year service period is \$1.4 million.

On February 19, 2016, the CIC also granted 9,541 PSUs contingent upon the achievement of certain earnings per share (“EPS”) targets for the three-year period ending December 31, 2018. At the end of each reporting period, the Company estimates the number of shares that it believes will ultimately be earned and records that expense over the

service period of the award. We currently estimate the cumulative compensation cost of the EPS-based PSUs to be recorded over the three year service period is \$557,000.

-9-

8. Independent Contractor Operations

The Roto-Rooter segment sublicenses with 69 independent contractors to operate certain plumbing repair and drain cleaning businesses in lesser-populated areas of the United States and Canada. We had notes receivable from our independent contractors as of June 30, 2016 totaling \$1.6 million (December 31, 2015 - \$1.8 million). In most cases these loans are fully or partially secured by equipment owned by the contractor. The interest rates on the loans range from 0% to 7% per annum and the remaining terms of the loans range from 2.5 months to 5.4 years at June 30, 2016. We recorded the following from our independent contractors (in thousands):

| | Three months ended June 30, | | Six months ended June 30, | |
|----------------|--------------------------------|---------|------------------------------|----------|

9. Retirement Plans

All of the Company's plans that provide retirement and similar benefits are defined contribution plans. These expenses include the impact of market gains and losses on assets held in deferred compensation plans. Expenses for the Company's pension and profit-sharing plans, excess benefit plans and other similar plans are as follows (in thousands):

10. Legal and Regulatory Matters

The VITAS segment of the Company's business operates in a heavily-regulated industry. As a result, the Company is subjected to inquiries and investigations by various government agencies, as well as to lawsuits, including qui tam actions. The following sections describe the various ongoing material lawsuits and investigations of which the Company is currently aware. It is not possible at this time for us to estimate either the timing or outcome of any of those matters, or whether any potential loss, or range of potential losses, is probable or estimable.

Regulatory Matters and Litigation

On May 2, 2013, the government filed a False Claims Act complaint against the Company and certain of its hospice-related subsidiaries in the U.S. District Court for the Western District of Missouri, *United States v. VITAS Hospice Services, LLC, et al.*, No. 4:13-cv-00449-BCW (the "2013 Action"). Prior to that date, the Company received various qui tam lawsuits and subpoenas from the U.S. Department of Justice and OIG that have been previously disclosed. The 2013 Action alleges that, since at least 2002, VITAS, and since 2004, the Company, submitted or caused the submission of false claims to the Medicare program by (a) billing Medicare for continuous home care services when the patients were not eligible, the services were not provided, or the medical care was inappropriate, and (b) billing Medicare for patients who were not eligible for the Medicare hospice benefit because they did not have a life expectancy of six months or less if their illnesses ran their normal course. This complaint seeks treble damages, statutory penalties, and the costs of the action, plus interest. The defendants filed a motion to dismiss on September 24, 2013. On September 30, 2014, the Court denied the motion, except to the extent that claims were filed before July 24, 2002. On November 13, 2014, the government filed a Second Amended Complaint. The Second Amended Complaint changed and supplemented some of the allegations, but did not otherwise expand the causes of action or the nature of the relief sought against VITAS. VITAS filed its Answer to the Second Amended Complaint on August

11, 2015. The Company is not able to reasonably estimate the probability of loss or range of loss at this time.

For additional procedural history of this litigation, please refer to our prior quarterly and annual filings. The net costs incurred related to U.S. v. Vitas and related regulatory matters were \$1.2 million and \$1.4 million for the quarters ended June 30, 2016 and 2015, respectively. For the six months ended June 30, 2016 and 2015, the net costs were \$3.5 million and \$2.7 million respectively.

In November 2013, two shareholder derivative lawsuits were filed against the Company's current and former directors, as well as certain of its officers, both of which are covered by the Company's commercial insurance. On November 6, 2013, KBC Asset Management NV filed suit in the United States District Court for the District of Delaware, KBC Asset Management NV, derivatively on behalf of Chemed Corp. v. McNamara, et al., No. 13 Civ. 1854 (LPS) (D. Del.). On November 14, 2013, Mildred A. North filed suit in the United States District Court for the Southern District of Ohio, North, derivatively on behalf of Chemed Corp. v. Kevin McNamara, et al., No. 13 Civ. 833 (MRB) (S.D. Ohio). Those proceedings were subsequently consolidated in the District of Delaware under the caption In re Chemed Corp. Shareholder and Derivative Litigation, No. 13 Civ. 1854 (LPS) (CJB) (D. Del.), by Order of the United States District Court for the District of Delaware dated February 2, 2015. Also on February 2, 2015, the Court appointed Plaintiff KBC the sole lead plaintiff and its counsel, the sole lead and liaison counsel.

On March 3, 2015, Lead Plaintiff KBC designated its Complaint as the operative complaint in the consolidated proceedings. The consolidated Complaint named Kevin McNamara, Joel Gemunder, Patrick Grace, Thomas Hutton, Walter Krebs, Andrea Lindell, Thomas Rice, Donald Saunders, Arthur Tucker, Jr., George Walsh III, Frank Wood, Timothy O'Toole, David Williams and Ernest Mrozek as individual defendants, together with the Company as nominal defendant. The Complaint alleges a claim for breach of fiduciary duty against the individual defendants, and seeks (a) a declaration that the individual defendants breached their fiduciary duties to the Company; (b) an order requiring those defendants to pay compensatory damages, restitution and exemplary damages, in unspecified amounts, to the Company; (c) an order directing the Company to implement new policies and procedures; and (d) costs and disbursements incurred in bringing the action, including attorneys' fees. Also on March 3, 2015, defendants renewed their previously-filed motion to dismiss those claims and allegations, which motion the court referred to Magistrate Judge Burke.

On December 23, 2015, Magistrate Judge Burke issued a Report and Recommendation recommending that (1) defendants' motion to dismiss be granted; (2) plaintiff be given 14 days from the date of affirmance by the district court to file an amended complaint addressing deficiencies with regard to their duty of loyalty claim; and (3) failure to do so should give rise to dismissal with prejudice. On January 11, 2016, Lead Plaintiff KBC filed Objections to the Report and Recommendation. Defendants' responses to those Objections were filed on January 28, 2016. On May 12, 2016, the court issued a Memorandum Order (1) overruling Lead Plaintiff KBC's Objections to the Report and Recommendation; (2) adopting the Report and Recommendation; (3) granting Chemed's motion to dismiss; and (4) dismissing Lead Plaintiff KBC's Complaint, without prejudice to KBC's opportunity to file within 30 days of the date of the court's Order an amended Complaint addressing the deficiencies in its duty of loyalty claim. Lead Plaintiff KBC did not file an amended Complaint within the time specified by the court—i.e., on or before June 13, 2016.

However, on that date (June 13, 2016), counsel for Chemed shareholder Michael Kvint filed a letter with the court requesting a two-week extension (1) to file a motion to substitute Mr. Kvint as Lead Plaintiff, in place of Lead Plaintiff KBC; and (2) in that capacity, to file an amended Complaint. Alternatively, counsel for Mr. Kvint requested that any dismissal of the action be with prejudice to KBC only. On June 14, 2016, Chemed filed a reply letter with the court, reserving its rights to oppose any motion filed by Mr. Kvint and, if warranted, to oppose any other actions taken by Mr. Kvint to proceed with the action (including by filing an untimely amended Complaint). On July 21, 2016, the court entered an Oral Order providing Mr. Kvint until June 30, 2016 to file a Motion to Substitute and Motion for Leave to File an Amended Complaint. On that date, Mr. Kvint filed, under seal, a Motion To Substitute Plaintiff and File Amended Complaint, and attached a Proposed Amended Complaint. Chemed's deadline for responding to that motion is July 18, 2016.

The Company intends to defend vigorously against the allegations in each of the above lawsuits. Regardless of the outcome of any of the preceding matters, responding to the subpoenas and dealing with the various regulatory agencies and opposing parties can adversely affect us through defense costs, potential payments, diversion of management time, and related publicity. Although the Company intends to defend them vigorously, there can be no assurance that those suits will not have a material adverse effect on the Company.

11. Concentration of Risk

During the quarter VITAS had pharmacy services agreements with one service provider to provide specified pharmacy services for VITAS and its hospice patients. VITAS made purchases from this provider of \$8.5 million and \$9.5 million for the three months ended June 30, 2016 and 2015, respectively. VITAS made purchases from two providers of \$17.4 million and \$18.7 million for the six-month periods ending June 30, 2016 and 2015, respectively. Purchases from these providers exceed 90% of all pharmacy services used by VITAS.

12. Cash Overdrafts and Cash Equivalents

Included in accounts payable at June 30, 2016 is cash overdrafts payable of \$3.9 million (December 31, 2015 - \$9.3 million).

From time to time throughout the year, we invest excess cash in money market funds with major commercial banks. We closely monitor the creditworthiness of the institutions with which we invest our overnight funds. We had \$82,000 in cash equivalents as of June 30, 2016. There was \$76,000 in cash equivalents as of December 31, 2015. The weighted average rate of return for our cash equivalents was 0.41% at June 30, 2016 and 0.20% at December 31, 2015.

13. Financial Instruments

FASB's authoritative guidance on fair value measurements defines a hierarchy which prioritizes the inputs in fair value measurements. Level 1 measurements are measurements using quoted prices in active markets for identical assets or liabilities. Level 2 measurements use significant other observable inputs. Level 3 measurements are measurements using significant unobservable inputs which require a company to develop its own assumptions. In recording the fair value of assets and liabilities, companies must use the most reliable measurement available. For cash and cash equivalents, accounts receivable and accounts payable, the carrying amount is a reasonable estimate of fair value because of the liquidity and short-term nature of these instruments.

The following shows the carrying value, fair value and the hierarchy for our financial instruments as of June 30, 2016 (in thousands):

| | Carrying Value | Fair Value Measure | | |
|--|----------------|--|---|---|
| | | Quoted Prices in Active Markets for Identical Assets (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) |
| Mutual fund investments of deferred compensation plans held in trust | \$53,127 | \$53,127 | \$- | \$- |
| Long-term debt | 147,500 | - | 147,500 | - |

The following shows the carrying value, fair value and the hierarchy for our financial instruments as of December 31, 2015 (in thousands):

| Carrying Value | Fair Value Measure | | |
|----------------|-------------------------------------|---|---|
| | Quoted Prices in Active Markets for | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) |

Edgar Filing: CHEMED CORP - Form 10-Q

| | Identical Assets (Level 1) | | | |
|---|-------------------------------------|----------|--------|------|
| Mutual fund investments of deferred compensation plans held in trust | \$49,481 | \$49,481 | \$ - | \$ - |
| Long-term debt | 91,250 | - | 91,250 | - |

For the mutual fund investments carrying value is fair value. All outstanding long-term debt is at a floating interest rate tied to LIBOR. Therefore, the carrying amount is a reasonable estimation of fair value.

14. Capital Stock Repurchase Plan Transactions

We repurchased the following capital stock for the three and six months ended June 30, 2016 and 2015:

| | Three months ended June 30, | | Six months ended June 30, | |
|--|--------------------------------|----------|------------------------------|----------|
| | 2016 | 2015 | 2016 | 2015 |
| Total cost of repurchased shares (in thousands): | \$49,853 | \$29,762 | \$102,313 | \$29,762 |
| Shares repurchased | 380,134 | 250,000 | 780,134 | 250,000 |
| Weighted average price per share | \$131.15 | \$119.05 | \$131.15 | \$119.05 |

In March 2016, the Board of Directors authorized an additional \$100.0 million for stock repurchase under Chemed's existing share repurchase program. We currently have \$50.2 million of authorization remaining under this share repurchase plan.

Of the \$49.9 million and \$102.3 million in repurchases made during the three and six months ended June 30, 2016 respectively, \$8.0 million was paid for in July 2016. Amounts repurchased but settled subsequent to the end of the periods are considered non-cash financing activities and excluded from the Consolidated Statement of Cash Flows.

15. Recent Accounting Statements

In May 2014, the FASB issued Accounting Standards Update "ASU No. 2014-09 – Revenue from Contracts with Customers" which provides additional guidance to clarify the principles for recognizing revenue. The standard will also be used to develop a common revenue standard for removing inconsistencies and weaknesses, improve comparability, provide more useful information to users through improved disclosure requirements, and simplify the preparation of financial statements. The guidance is effective for fiscal years beginning after December 15, 2017. We are currently evaluating the impact of this ASU on our existing revenue recognition policies and disclosures.

In August 2014, the FASB issued Accounting Standards Update No. 2014-15, "ASU No. 2014-15 - Presentation of Financial Statements-Going Concern". ASU 2014-15 is intended to define management's responsibility to evaluate whether there is substantial doubt about an organization's ability to continue as a going concern and to provide related footnote disclosures. This guidance is effective for us for the annual period ending December 31, 2016 and interim periods thereafter. We do not expect the adoption of this standard to have a material impact on our consolidated financial position, results of operations or cash flows.

In February 2016, the FASB issued Accounting Standards Update "ASU No. 2016-02 – Leases" which introduces a lessee model that brings most leases on to the balance sheets and updates lessor accounting to align with changes in the lessee model and the revenue recognition standard. The guidance is effective for fiscal years beginning after December 15, 2018. We are currently evaluating the impact of this ASU on our financial statements, existing lease recognition policies and disclosures.

In March 2016, the FASB issued ASU No. 2016-09- "Compensation – Stock Compensation" which is part of the FASB's Simplification Initiative. The object of this initiative is to identify, evaluate, and improve areas of GAAP. The areas of simplification in this initiative involve several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. The guidance is effective for fiscal years beginning after December 15, 2017. We are currently evaluating the impact of this ASU on our financial statements.

17. Other Operating Expenses

During the three and six-months ended June 30, 2016, the Company recorded early retirement related costs and accelerated stock-based compensation expense of approximately \$4.5 million pretax and \$2.8 million after-tax related to the early retirement of VITAS' former Chief Executive Officer. The accrual was calculated in accordance with the terms of his employment agreement.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Executive Summary

We operate through our two wholly-owned subsidiaries, VITAS Healthcare Corporation and Roto-Rooter Group, Inc. VITAS focuses on hospice care that helps make terminally ill patients' final days as comfortable as possible. Through its teams of doctors, nurses, home health aides, social workers, clergy and volunteers, VITAS provides direct medical services to patients, as well as spiritual and emotional counseling to both patients and their families. Roto-Rooter's services are focused on providing plumbing, drain cleaning, water restoration and other related services to both residential and commercial customers. Through its network of company-owned branches, independent contractors and franchisees, Roto-Rooter offers plumbing and drain cleaning service to over 90% of the U.S. population.

The following is a summary of the key operating results (in thousands except per share amounts):

Adjusted net income, adjusted diluted EPS, earnings before interest, taxes and depreciation and amortization ("EBITDA") and Adjusted EBITDA are not measures derived in accordance with GAAP. We provide non-GAAP measures to help readers evaluate our operating results, compare our operating performance with that of similar companies that have different capital structures and help evaluate our ability to meet future debt service, capital expenditure and working capital requirements. Our non-GAAP measures should not be considered in isolation or as a substitute for comparable measures presented in accordance with GAAP. A reconciliation of our non-GAAP measures is presented on pages 27-29.

For the three months ended June 30, 2016, the increase in consolidated service revenues and sales was driven by a 5.9% increase at Roto-Rooter and a 0.8% increase at VITAS. The increase in service revenues at Roto-Rooter was driven by an increase in all major service lines. The increase in service revenues at VITAS was primarily a result of Medicare reimbursement rates increasing 0.6%, a 4.4% increase in days of care, offset by acuity mix shift which negatively impacted revenue 1.9% and changes in Medicare hospice reimbursement which negatively impacted revenue 2.0%. Consolidated net income decreased 7.7% mainly due to other operating expenses related to the early retirement of VITAS' Chief Executive Officer. Diluted EPS decreased 4.5% as a result of the decrease in net income offset by a lower number of shares outstanding. Adjusted EBITDA as a percent of revenue was essentially flat when compared to the prior year quarter. See page 30 for additional VITAS operating metrics.

For the six months ended June 30, 2016, the increase in consolidated service revenues and sales was driven by a 5.7% increase at Roto-Rooter and a 1.9% increase at VITAS. The increase in service revenues at Roto-Rooter was driven by an increase in all major service lines. The increase in service revenues at VITAS was primarily a result of Medicare reimbursement rates increasing 0.6%, a 5.6% increase in days of care, offset by acuity mix shift which negatively impacted revenue 1.9% and changes in Medicare hospice reimbursement which negatively impacted revenue 2.1%. Consolidated net income decreased 3.5% mainly due to other operating expenses related to the early retirement of VITAS' Chief Executive Officer. Diluted EPS decreased 1.0% as a result of the decrease in net income offset by a lower number of shares outstanding. Adjusted EBITDA as a percent of revenue was essentially flat when

compared to the prior year quarter. See page 30 for additional VITAS operating metrics.

On January 1, 2016, CMS implemented a refinement to the Medicare hospice reimbursement per diem. This rebasing eliminated the single tier per diem for routine home care (RHC) and replaced it with a two-tiered rate, with a higher rate for the first 60 days of a hospice patient's care, and a lower rate for days 61 and after. In addition, CMS added for a Service Intensity Add-on (SIA) payment which provides for reimbursement of care provided by a registered nurse or social worker for RHC patients within seven days prior to death. The reimbursement for continuous care, inpatient care and respite care are not impacted by this rebasing.

-15-

The two tiered national per diem rate for RHC is \$186.84 for the first 60 days and \$146.83 for RHC beyond 60 days. An individual hospice's actual per diem rate is adjusted for differences in geographic cost of living. We estimate rebasing in 2016 would be revenue neutral to a hospice if it has 37.6% of total RHC days-of-care provided to patients in their first 60 days of admission and 62.4% of total RHC days-of-care provided to patients after the 60 days.

Historically, VITAS had a 32/68 aggregate Days-of-Care ratio. High acuity care historically has represented 6% to 7% of VITAS' total days-of-care. VITAS high acuity days-of-care provided to patients within the first 60 days of admission represented approximately 15% of days-of-care provided to patients in the first 60 days of admission. This results in a VITAS RHC Days-of-Care ratio of approximately 29/71.

For the three and six months ended June 30, 2016, VITAS had a 25/75 RHC Days-of-Care ratio and generated approximately \$1.0 million in SIA payments. This resulted in 2.1% less revenue than under the previous Medicare reimbursement methodology.

VITAS expects its full-year 2016 revenue growth, prior to Medicare cap, to be in the range of 1.5% to 3.0%. Average Daily Census in 2016 is estimated to expand approximately 4.0% to 5.0%. Adjusted EBITDA margin, prior to Medicare cap, is estimated to be 14.0% to 15.0%. Medicare cap billing limitations are estimated to be \$2.5 million in 2016. Roto-Rooter expects full-year 2016 revenue growth of 4.0% to 5.0%. The revenue estimate is based upon increased job pricing of approximately 1.0% and continued growth in water restoration services. Adjusted EBITDA margin for 2016 is estimated in the range of 20.0% to 21.0%. We anticipate that our operating income and cash flows will be sufficient to operate our businesses and meet any commitments for the foreseeable future.

Financial Condition

Liquidity and Capital Resources

Material changes in the balance sheet accounts from December 31, 2015 to June 30, 2016 include the following:

- ▲ \$7.3 million decrease in accounts receivable due to timing of Medicare and Medicaid payments.
- ▲ \$3.6 million increase in investments of deferred compensation plans related to participant contributions and market valuation gains.
- ▲ \$1.7 million decrease in accounts payable due to timing of payments.
- ▲ \$4.2 million decrease in deferred income taxes due to a change in various temporary differences including accrued expenses.
- ▲ \$3.0 million increase in deferred compensation liabilities related to market valuation gains.
- ▲ \$56.3 million increase in long-term debt due primarily to borrowings on our revolving line of credit used mainly to purchase treasury shares during the quarter.

Net cash provided by operating activities increased \$3.8 million mainly as a result of an increase in income taxes due to the timing of payments. Management continually evaluates cash utilization alternatives, including share repurchase, debt repurchase, acquisitions and increased dividends to determine the most beneficial use of available capital resources.

We have issued \$37.4 million in standby letters of credit as of June 30, 2016, mainly for insurance purposes. Issued letters of credit reduce our available credit under the revolving credit agreement. As of June 30, 2016, we have approximately \$252.6 million of unused lines of credit available and eligible to be drawn down under our revolving credit facility. Management believes its liquidity and sources of capital are satisfactory for the Company's needs in the foreseeable future.

Significant changes in our accounts receivable balances are typically driven mainly by the timing of payments received from the Federal government at our VITAS subsidiary. We typically receive a payment in excess of \$35.0 million from the Federal government from hospice services every other Friday. The timing of period end will have a

significant impact on the accounts receivable at VITAS. These changes generally normalize over a two year period, as cash flow variations in one year are offset in the following year.

Commitments and Contingencies

Collectively, the terms of our credit agreements require us to meet various financial covenants, to be tested quarterly. We are in compliance with all financial and other debt covenants as of June 30, 2016 and anticipate remaining in compliance throughout the foreseeable future.

The VITAS segment of the Company's business operates in a heavily-regulated industry. As a result, the Company is subjected to inquiries and investigations by various government agencies, as well as to lawsuits, including qui tam actions. On May 2, 2013, the government filed a False Claims Act complaint against the Company and certain of its hospice-related subsidiaries in the U.S. District Court for the Western District of Missouri, *United States v. VITAS Hospice Services, LLC, et al.*, No. 4:13-cv-00449-BCW (the “2013 Action”). Prior to that date, the Company received various qui tam lawsuits and subpoenas from the U.S. Department of Justice and OIG that have been previously disclosed. The 2013 Action alleges that, since at least 2002, VITAS, and since 2004, the Company, submitted or caused the submission of false claims to the Medicare program by (a) billing Medicare for continuous home care services when the patients were not eligible, the services were not provided, or the medical care was inappropriate, and (b) billing Medicare for patients who were not eligible for the Medicare hospice benefit because they did not have a life expectancy of six months or less if their illnesses ran their normal course. This complaint seeks treble damages, statutory penalties, and the costs of the action, plus interest. The defendants filed a motion to dismiss on September 24, 2013. On September 30, 2014, the Court denied the motion, except to the extent that claims were filed before July 24, 2002. On November 13, 2014, the government filed a Second Amended Complaint. The Second Amended Complaint changed and supplemented some of the allegations, but did not otherwise expand the causes of action or the nature of the relief sought against VITAS. VITAS filed its Answer to the Second Amended Complaint on August 11, 2015. The Company is not able to reasonably estimate the probability of loss or range of loss at this time.

For additional procedural history of this litigation, please refer to our prior quarterly and annual filings. The net costs incurred related to *U.S. v. Vitas* and related regulatory matters were \$1.2 million and \$1.4 million for the quarters ended June 30, 2016 and 2015, respectively. For the six months ended June 30, 2016 and 2015, the net costs were \$3.5 million and \$2.7 million respectively.

In November 2013, two shareholder derivative lawsuits were filed against the Company’s current and former directors, as well as certain of its officers, both of which are covered by the Company’s commercial insurance. On November 6, 2013, KBC Asset Management NV filed suit in the United States District Court for the District of Delaware, *KBC Asset Management NV, derivatively on behalf of Chemed Corp. v. McNamara, et al.*, No. 13 Civ. 1854 (LPS) (D. Del.). On November 14, 2013, Mildred A. North filed suit in the United States District Court for the Southern District of Ohio, *North, derivatively on behalf of Chemed Corp. v. Kevin McNamara, et al.*, No. 13 Civ. 833 (MRB) (S.D. Ohio). Those proceedings were subsequently consolidated in the District of Delaware under the caption *In re Chemed Corp. Shareholder and Derivative Litigation*, No. 13 Civ. 1854 (LPS) (CJB) (D. Del.), by Order of the United States District Court for the District of Delaware dated February 2, 2015. Also on February 2, 2015, the Court appointed Plaintiff KBC the sole lead plaintiff and its counsel, the sole lead and liaison counsel.

On March 3, 2015, Lead Plaintiff KBC designated its Complaint as the operative complaint in the consolidated proceedings. The consolidated Complaint named Kevin McNamara, Joel Gemunder, Patrick Grace, Thomas Hutton, Walter Krebs, Andrea Lindell, Thomas Rice, Donald Saunders, Arthur Tucker, Jr., George Walsh III, Frank Wood, Timothy O’Toole, David Williams and Ernest Mrozek as individual defendants, together with the Company as nominal defendant. The Complaint alleges a claim for breach of fiduciary duty against the individual defendants, and seeks (a) a declaration that the individual defendants breached their fiduciary duties to the Company; (b) an order requiring those defendants to pay compensatory damages, restitution and exemplary damages, in unspecified amounts, to the Company; (c) an order directing the Company to implement new policies and procedures; and (d) costs and disbursements incurred in bringing the action, including attorneys’ fees. Also on March 3, 2015, defendants renewed their previously-filed motion to dismiss those claims and allegations, which motion the court referred to Magistrate Judge Burke.

On December 23, 2015, Magistrate Judge Burke issued a Report and Recommendation recommending that (1) defendants’ motion to dismiss be granted; (2) plaintiff be given 14 days from the date of affirmance by the district court to file an amended complaint addressing deficiencies with regard to their duty of loyalty claim; and (3) failure to do so should give rise to dismissal with prejudice. On January 11, 2016, Lead Plaintiff KBC filed Objections to the Report and Recommendation. Defendants’ responses to those Objections were filed on January 28, 2016. On May 12, 2016, the court issued a Memorandum Order (1) overruling Lead Plaintiff KBC’s Objections to the Report and

Recommendation; (2) adopting the Report and Recommendation; (3) granting Chemed's motion to dismiss; and (4) dismissing Lead Plaintiff KBC's Complaint, without prejudice to KBC's opportunity to file within 30 days of the date of the court's Order an amended Complaint addressing the deficiencies in its duty of loyalty claim. Lead Plaintiff KBC did not file an amended Complaint within the time specified by the court—i.e., on or before June 13, 2016.

However, on that date (June 13, 2016), counsel for Chemed shareholder Michael Kvint filed a letter with the court requesting a two-week extension (1) to file a motion to substitute Mr. Kvint as Lead Plaintiff, in place of Lead Plaintiff KBC; and (2) in that capacity, to file an amended Complaint. Alternatively, counsel for Mr. Kvint requested that any dismissal of the action be with prejudice to KBC only. On June 14, 2016, Chemed filed a reply letter with the court, reserving its rights to oppose any motion filed by Mr. Kvint and, if warranted, to oppose any other actions taken by Mr. Kvint to proceed with the action (including by filing an untimely amended Complaint). On July 21, 2016, the court entered an Oral Order providing Mr. Kvint until June 30, 2016 to file a Motion to Substitute and Motion for Leave to File an Amended Complaint. On that date, Mr. Kvint filed, under seal, a Motion To Substitute Plaintiff and File Amended Complaint, and attached a Proposed Amended Complaint. Chemed's deadline for responding to that motion is July 18, 2016.

The Company intends to defend vigorously against the allegations in each of the above lawsuits. Regardless of the outcome of any of the preceding matters, responding to the subpoenas and dealing with the various regulatory agencies and opposing parties can adversely affect us through defense costs, potential payments, diversion of management time, and related publicity. Although the Company intends to defend them vigorously, there can be no assurance that those suits will not have a material adverse effect on the Company.

Variances in any or all of the risks, uncertainties, contingencies, and other factors from our assumptions could cause actual results to differ materially from these forward-looking statements and trends. In addition, our ability to deal with the unknown outcomes of these events, many of which are beyond our control, may affect the reliability of projections and other financial matters. Investors are cautioned that such forward-looking statements are subject to inherent risk and there are no assurances that the matters contained in such statements will be achieved. Chemed does not undertake and specifically disclaims any obligation to publicly update or revise any forward-looking statements, whether as a result of a new information, future events or otherwise.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

The Company’s primary market risk exposure relates to interest rate risk exposure through its variable interest line of credit. At June 30, 2016, the Company had \$147.8 million of variable rate debt outstanding. For each \$10 million dollars borrowed under the credit facility, an increase or decrease of 100 basis points (1% point), increases or decreases the Company’s annual interest expense by \$100,000.

The Company continually evaluates this interest rate exposure and periodically weighs the cost versus the benefit of fixing the variable interest rates through a variety of hedging techniques.

Item 4. Controls and Procedures

We carried out an evaluation, under the supervision of our President and Chief Executive Officer and with the participation of the Executive Vice President and Chief Financial Officer and the Vice President and Controller, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, the President and Chief Executive Officer, Executive Vice President and Chief Financial Officer and Vice President and Controller have concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report. There has been no change in our internal control over financial reporting that occurred during the quarter covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
