TECHLABS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF SEPTEMBER 30, 2006

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(A) Nature of Operations

Edgar Filing: TECHLABS INC - Form 10QSB

Techlabs, Inc. ("Techlabs") was incorporated in the State of Florida in May 1998 under the name Coordinated Physician Services, Inc. to organize and operate primary care physician networks for managed medical care organizations. In February 1999 the Company abandoned this business due to excessive competition and changed its name to Techlabs, Inc. Prior to January 2004, the Company generated revenues through the rental of its list of targeted, opt-in email addresses which were generated from their website. During November 2004, the Company formed Florida Fountain of Youth Spas, Inc. and opened Florida Fountain of Youth Spa, a full service spa located in South Florida. The Company abandoned this business in October 2005 due to excessive competition.

During the current fiscal year the Company reported that as a result of its two-year effort to research and develop business opportunities in the Caribbean basin and South America, it is moving forward with two new potential ventures. First, the company has entered into contract negotiations for an approximate 26,000 square-foot property located on Margarita Island, a Caribbean island of Venezuela, which will serve as its first micro-resort property. The company intends for the facility to serve as a destination for high-end vacations, catering to the adults-only market segment. Margarita Island, a part of the Minor Antilles chain, is situated only about 15 miles off the northern coast of Venezuela and is well known for the high quality of its beaches. Second, the Company has entered into an initial stage of negotiations to acquire Venezuelan-based Corporacion SportAlum C.A. (SportAlum), corporate website: www.sportalum.com, and will shortly commence a full due-diligence effort with respect to structuring a purchase transaction with SportAlum's principals. SportAlum specializes in the fabrication, sale and installation of sport seating solutions for stadiums, arenas and other sports and entertainment facilities around the world. Techlabs intends to complete its initial due-diligence efforts before the end of June, with an eye towards entering into definitive purchase agreement by the end of 2006. Further, the Company has entered into a joint venture agreement with the controlling shareholder of SportAlum for the import into the United States of aluminum extrusions in a variety of custom shapes. Techlabs intends to resell the aluminum extrusions to a variety of companies engaged in the manufacture of home building materials and products, including window and door frames and assemblies.

(B) Basis of Consolidation

The accompanying consolidated financial statements for three and nine months ended September 30, 2006 and 2005 include the accounts of Techlabs and its wholly-owned subsidiary Florida Fountain of Youth Spas, Inc. from (inception) to September 30, 2006. All significant intercompany accounts and transactions have been eliminated in the consolidation.

(C) Use of Estimates

In preparing financial statements in conformity with generally accepted accounting principles, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities as the date of the financial statements and revenues and expenses during the reported period. Actual results could differ from those estimates.

(D) Cash Equivalents

Edgar Filing: TECHLABS INC - Form 10QSB

Cash and cash equivalents consist of all highly liquid investments with original maturities of three months or less.

(E) Concentration of Credit Risk

The Company did not rely on any one significant customer for more than 10% of its revenues.

(F) Revenue Recognition

Revenue is recognized using accrual basis.

(H) Property and Equipment

Property and equipment are stated at cost, net of accumulated depreciation. Depreciation on assets placed in service is determined using the straight-line method over the estimated useful lives of the related assets which range from three to seven years. Significant improvements are capitalized while maintenance and repairs are expensed as incurred.

(I) Web Site Development Costs

The Company accounts for costs incurred in connection with the development of its web sites in accordance with Statement of Position SOP98-1, "Accounting for Costs of Computer Software Developed or Obtained for Internal Use" and Emerging Issues Task Force Issue No. 00-2, "Accounting for Web Site Development Costs." Accordingly, all costs incurred in planning the development of a web site are expensed as incurred. Costs, other than general and administrative and overhead costs, incurred in the web site application and infrastructure development stage, which involve acquiring hardware and/or developing software to operate the web site are capitalized. Fees paid to an Internet service provider for hosting the web site on its servers connected to the Internet are expensed. Other costs incurred during the operating stage, such as training administration costs, are expensed as incurred. Costs incurred during the operating stage for upgrades and enhancements of the web site are capitalized if it is probable that they will result in added functionality.

Capitalized web site development costs are amortized on a straight-line basis over their estimated useful life of five years. At September 30, 2006, all capitalized web site development costs had been fully amortized and/or impaired.

(J) Intangibles

Intangible assets consist of domain names, trade names and contracts related to a purchased Internet web portal site and meta-search technology. Amortization for intangibles is determined using the straight-line method over the estimated useful life of five years. At September 30, 2006, all intangible assets had been fully amortized and/or impaired.

TECHLABS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
AS OF SEPTEMBER 30, 2006

(K) Long-Lived Assets

Long-lived assets and certain identifiable intangible assets (other than goodwill and intangible assets with indefinite lives) held and used by the Company are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. For

Edgar Filing: TECHLABS INC - Form 10QSB

purposes of evaluating the recoverability of long-lived assets (other than goodwill and intangible assets with indefinite lives), the recoverability test is performed using undiscounted net cash flows related to the long-lived assets. The Company reviews such long-lived assets to determine that carrying values are not impaired. Under Statement of Financial Accounting Standards ("SFAS") No. 142, goodwill and intangible assets with indefinite lives are no longer amortized but are reviewed for impairment. Intangible assets that are not deemed to have indefinite lives will continue to be amortized over their useful lives; however, no maximum life is applied.

(L) Reclassification

Certain amounts from prior periods have been reclassified to conform to the current period presentation.

(M) Fair Value of Financial Instruments

SFAS No. 107, "Disclosure About Fair Value of Financial Instruments," requires certain disclosures regarding the fair value of financial instruments. Trade accounts receivable, accounts payable, and loans from stockholders are reflected in the financial statements at fair value because of the short-term maturity of the instruments.

(N) Income Taxes

The Company accounts for income taxes under SFAS No. 109, "Accounting for Income Taxes". Under SFAS No. 109, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry-forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under SFAS No. 109, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

(O) Income (Loss) Per Share

Basic and diluted income (loss) per share is calculated by dividing net income (loss) for the period by the weighted average number of shares of common stock outstanding during the period. The assumed exercise of stock options is only included in the calculation of diluted earnings per share, if dilutive. As of September 30, 2006 and 2005, the Company did not have any outstanding common stock equivalents.

6

TECHLABS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF SEPTEMBER 30, 2006

(P) Business Segments

The Company currently operates in one segment and therefore segment information is not presented.

(Q) Stock-Based Compensation

In accordance with the Statement of Financial Accounting Standards ("SFAS") No. 123, Accounting for Stock Based Compensation, the Company has elected to account for stock options issued to employees under Accounting Principles Board Opinion

Edgar Filing: TECHLABS INC - Form 10QSB

No. 25 ("APB Opinion No. 25") and related interpretations. The Company accounts for stock options issued to consultants and for other services in accordance with SFAS No. 123.

(R) Advertising Costs

Advertising costs are expensed as incurred. Advertising expense included in discontinued operations totaled \$0 and \$1,395 for the nine months ended September 30, 2006 and 2005, respectively.

(S) New Accounting Pronouncements

Statement of Financial Accounting Standards ("SFAS") No. 151, "Inventory Costs - an amendment of ARB No. 43, Chapter 4" SFAS No. 152, "Accounting for Real Estate Time-Sharing Transactions - an amendment of FASB Statements No. 66 and 67," SFAS No. 153, "Exchanges of Non-monetary Assets - an amendment of APB Opinion No. 29," and SFAS No. 123 (revised 2004), "Share-Based Payment," were recently issued. SFAS No. 151, 152, 153 and 123 (revised 2004) have no current applicability to the Company and have no effect on the financial statements.

In May 2003, SFAS No. 150 "Accounting for Certain Financial Instruments with characteristics of both liabilities and equity" was issued. This Statement establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. It requires that an issuer classify a financial instrument that is within its scope as a liability (or an asset in some circumstances). Many of those instruments were previously classified as equity. Some of the provisions of this Statement are consistent with the current definition of liabilities in FASB Concepts Statement No. 6, Elements of Financial Statements.

This statement was adopted effective January 1, 2004. The adoption of this pronouncement did not have a material effect on our financial position or results of operations.

7

TECHLABS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF SEPTEMBER 30, 2006

NOTE 2 GOING CONCERN

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. The Company had a net loss of \$116,437, a working capital deficiency of \$135,637, an accumulated deficit of \$8,568,172, a stockholders' deficiency of \$135,637. This raises substantial doubt about our ability to continue as a going concern. The accompanying financial statements do not include any adjustments related to the recoverability and classification of assets or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

Although there are no assurances, the Company believes that it will be able to raise additional capital and borrowings from its principal shareholder and will be able to continue as a going concern.

NOTE 3 CONVERTIBLE NOTE PAYABLE

During 2005, the Company entered into a convertible note payable with an individual for \$30,000. The note is convertible into common stock at \$.60 per share up to a maximum of 50,000 shares. The note is convertible for a minimum of

Edgar Filing: TECHLABS INC - Form 10QSB

15,000 shares of common stock. The note is due quarterly with the final payment was due March 1, 2006. The note accrues interest at 5% per annum and is unsecured. Interest payments of \$375 are due quarterly.

NOTE 4 RELATED PARTY TRANSACTIONS

Mrs. Dorrough has served as the Company's president since February 2002. Mrs. Dorrough is not a party to an employment agreement with the Company.

At September 30, 2006, the Company owed a majority shareholder \$10,892. This amount will be paid by the Company when working capital permits.

At September 30, 2006, the Company owed a third party \$6,500 under an oral agreement on a non-interest bearing, unsecured loan, due on demand basis.

At September 30, 2006, the Company owed a related party \$37,000 under an oral agreement on a non-interest bearing, unsecured loan, due on demand basis.

The Company's Board of Directors may also appoint a secondary committee of the Board, composed of one or more directors who need not be independent, who may administer the Plan with respect to employees and consultants who are not considered officers or directors of Techlabs. TECHLABS, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF SEPTEMBER 30, 2006

Options granted under the Plan may either be options qualifying as incentive stock options under Section 422 of the Internal Revenue Code of 1986, as amended, or non-statutory options. Incentive options can only be granted to a recipient who is our employee, and non-statutory options and restricted stock awards can be granted to employees, outside directors and consultants. Options granted to any optionee in a single fiscal year cannot exceed 1,000,000 shares, except that options granted to a new employee in his or her first year of employment cannot exceed 500,000 shares. Any incentive option granted under the Plan must provide for an exercise price of not less than 100% of the fair market value of the underlying shares on the date of such grant, but the exercise price of any incentive option granted to an eligible employee owning more than 10% of our common stock must be at least 110% of such fair market value as determined on the date of the grant. The exercise price of non-statutory options cannot be less than 85% of the fair market value of the underlying shares on the date of the grant; however, the option agreement can provide that the exercise price varies in accordance with a pre-determined formula while the option is outstanding. The term of each Plan Option and the manner in which it may be exercised is determined by the board of the directors, provided that no Plan Option may be exercisable more than 10 years after the date of its grant.

Payment for incentive options can only be made as specified in the option agreement and the form of payment for non-statutory options may be accepted by the Board from time to time. The Plan permits cashless exercise of options, and the payment of the exercise price of options through a full-recourse promissory note and other forms which are consistent with applicable laws. Restricted stock awards may be sold or awarded under the Plan for such consideration as our board may determine, including cash, cash equivalents, full-recourse promissory notes, past services and future services. In the event of a recapitalization of our

Edgar Filing: TECHLABS INC - Form 10QSB

company, a spin-off or similar occurrence, or the declaration of a dividend payable in shares of our common stock, in the Board's sole discretion it will determine if any adjustments are to be made in the number of options and restricted shares available for future awards and certain other matters. The Plan will terminate on its tenth anniversary, unless earlier terminated by our Board of Directors.

There were no issues under the plan during the nine month periods ended September 30, 2006 and 2005.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

RESULTS OF OPERATIONS

As a result of the Company's decision to discontinue the operations of its Florida Fountain of Youth Spa during the fourth quarter of fiscal 2005, operating results for this business segment for the three and nine months ended September 30, 2005 have been classified as a loss from discontinued operations. In addition, in December 2005 the Company completed the sale for \$90,000 of the Starting Point.com website and all applicable content, trademarks, databases and domains. The Company is now moving forward in the development of opportunities in the Caribbean basin and South America and believes that it will consummate transactions prior to the end of 2006, with such business interests contributing to results thereafter. Most notably, the Company has entered into a letter of intent to acquire a minimum of a 51% interest in Venezuelan-based Corporacion SportAlum C.A., having also commenced a due-diligence effort with respect to the proposed transaction. SportAlum specializes in the fabrication, sale and installation of sport seating solutions for stadiums, arenas and other sports and entertainment facilities around the world.

ITEM 3. CONTROLS AND PROCEDURES

Our management, which includes our President, has conducted an evaluation of the effectiveness of our disclosure controls and procedures (as defined in the Securities Exchange Act of 1934 Rules 13a-15(e) and 15d-15(e)) as of September 30, 2006 (the "Evaluation Date"). Based upon that evaluation, our management has concluded that our disclosure controls and procedures are effective for timely gathering, analyzing and disclosing the information we are required to disclose in our reports filed under the Securities Exchange Act of 1934, as amended. Based upon that evaluation, no change in our company's internal controls over financial reporting has occurred during the quarter then ended, which has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The SEC's Financial Reporting Release No. 60, "Cautionary Advice Regarding Disclosure About Critical Accounting Policies" ("FRR 60"), suggests companies provide additional disclosure and commentary on those accounting policies considered most critical. A critical accounting policy is one that is both very important to the portrayal of our financial condition and results, and requires management's most difficult, subjective or complex judgments. Typically, the circumstances that make these judgments difficult, subjective and/or complex have to do with the need to make estimates about the effect of matters that are inherently uncertain. We believe the accounting policies below represent our critical accounting policies as contemplated by FRR 60.

Value of long lived assets. We capitalize and amortize the costs incurred in the acquisition of capital equipment. We also carry other long lived assets on our balance sheet. We evaluate the carrying values of such assets and may be required to reduce the value in the event we determine if the value is impaired from the current carrying amount.
