PRUDENTIAL PLC FULL YEAR 2006 NEW BUSINESS RESULTS

All figures compared to 2005 at constant exchange rates unless stated

New business for the full year 2006:

Edgar Filing: PRUDENTIAL PLC - Form 6-K

	APE	Growth	PVNBP	Growth
Total Group Insurance	GBP2,470 million	16%	GBP18,947 million	12%
Prudential UK retail	GBP689 million	14%	GBP5,594 million	15%
Total UK	GBP900 million	1%	GBP7,712 million	0%
Jackson	GBP613 million	21%	GBP6,103 million	20%
Prudential Corporation Asia	GBP956 million	30%	GBP5,132 million	26%
Asia Fund Management	Record net fund inflows of GBP2.5 billion, up 91%			
M&G	Record net fund inflows of GBP6.1 billion, up 58%			

Mark Tucker, Group Chief Executive said:

"I am delighted by our full year new business figures: the Group's insurance new business has increased by 16 per cent year on year, on an APE basis, and our asset management businesses saw net inflows increase by 66% to GBP8.6 billion.

"We have seen a 25 per cent increase in the Group's insurance new business, on an APE basis, for the fourth quarter of 2006 compared to the same quarter in 2005 and an encouraging 21 per cent rise in new business for the fourth quarter of 2006 over the third. Overall the Group is in robust health.

"A 14 per cent increase in UK retail insurance operations APE sales was driven primarily by the growth in individual annuities and corporate pensions. In wholesale, we have chosen not to write business at unattractive pricing and therefore sales are down year on year.

"We have continued to reassess in depth the prospects for all sectors of the UK life and pensions market and are confident that there are profitable organic opportunities in the retirement savings and income market. We shall provide an update with further details by 15th March.

"Jackson, Prudential's US insurance business, achieved record new business of GBP613 million APE in 2006, representing a 21 per cent increase on 2005, driven by strong growth in sales of variable annuities, up 48 per cent on last year.

"Prudential's Asian life operations delivered new business APE of GBP956million, up 30 per cent in 2006 including a 25 per cent rise over the third quarter and reflecting the momentum of the business seen throughout the year. We have seen strong growth in a number of country markets including India up 95 per cent, China up 56 per cent and Korea up 54 per cent.

"Asset management continues to perform exceptionally well with M&G achieving record net fund inflows of GBP6.1 billion, an increase of 58 per cent,

Edgar Filing: PRUDENTIAL PLC - Form 6-K

reflecting M&G's leading position in retail fund management, institutional fixed income, pooled life and pension funds, property and private finance.

"In Asia, PCA Fund Management also achieved record net inflows of GBP2.5 billion, almost double the 2005 figure. This reflects the product strength and increasing geographic diversification of our Asian fund management business.

"Trading conditions at Egg, our UK banking business, have seen further deterioration since we updated the market in October as a result of worsening credit experience and lower levels of lending than anticipated. Separately today, Prudential has announced that it has entered into a binding agreement to sell Egg to Citigroup for a consideration of GBP575 million subject to adjustment to reflect any change in net asset value between 31 December 2006 and completion.

"Going forward, the Group expects to maintain both its momentum in sales volume and its focus on value."

Commentary on Full Year 2006 New Business Results

UK Insurance and Banking operations

Prudential's UK insurance operations delivered total APE sales for the year of GBP900 million, 1 per cent higher than those achieved in 2005. Sales on a PVNBP basis are in line with 2005 at GBP7,712 million.

The UK retail insurance operations performed well with APE sales up 14 per cent on 2005 to GBP689 million driven primarily by the growth in corporate pensions and individual annuity sales. In the wholesale business, Prudential has chosen not to write business at unattractive pricing and therefore sales are down year-on-year.

Individual annuity sales grew by 22 per cent to GBP271 million as the annuity market experienced increased activity in the second half of 2006 following the removal of uncertainty around A-Day pension changes. In total 110,000 new annuity policies were written. Sales volume has been driven by the continued strength of internal vestings (APE GBP135 million) together with the cumulative benefit of partnership deals signed in previous years. With-profit annuities sales from all distribution channels more than doubled to GBP37 million compared with 2005.

In relation to externally sourced annuity business, Prudential signed further partnership agreements in 2006 including the Royal London transaction that came into effect in September. In addition, Prudential signed an exclusive 5-year agreement with Threadneedle as their supplier of annuities for their Stakeholder scheme as well as any future defined contribution schemes that Threadneedle acquires. This is a new area for Prudential that builds on its experience in providing annuities to customers of life insurance companies. With the future growth in DC schemes within the UK Prudential expects more agreements of this type.

Sales of with-profit bonds increased by 44 per cent during 2006. Much of this

Edgar Filing: PRUDENTIAL PLC - Form 6-K

reflects Prudential's financial strength and continuing outstanding life fund investment returns that have been well received by both customers and advisers. PruFund, Prudential's unitised and smoothed investment plan, secured a new distribution agreement in the fourth quarter with National Australia Bank Group.

Corporate pension APE sales increased by 23 per cent to GBP224 million with the capture of a number of new scheme wins during 2006, including Debenhams and Royal & SunAlliance with 4,100 and 4,500 members respectively. This is due in part to the continuing shift from defined-benefit to defined-contribution schemes and also due to the impact of A-day and the growth in Prudential's new Fund Delivery Service. This contributed GBP25 million of APE sales in its first year of operation.

Prudential has continued to pursue its focus on value, not volume, in the unit linked bond market. A large percentage of this market is financially unattractive with high up-front commission costs and poor forward-looking persistency due to high churn. For this reason we have been targeting higher value intermediaries.

Prudential has recruited a team of 20 face-to-face specialist consultants to sell its Lifetime Mortgage product, the Property Value Release Plan, and are looking to grow this team further in 2007. APE sales in 2006 were GBP9 million and resulted in Prudential achieving an 8 per cent share of the lifetime mortgage market.

PruHealth continues to develop well, with full-year Gross Written Premiums up 300 per cent at GBP36 million (GBP9 million in 2005). It now has around 100,000 individuals covered.

As previously announced, we believe it would be beneficial if there was greater clarity as to the status of the Inherited Estate and we continue to keep the situation under review. A reattribution will only be undertaken if there are clear benefits for both policyholders and shareholders and we will provide an update as to whether we intend to proceed in due course.

Jackson

Jackson, Prudential's US insurance business, achieved record APE sales of GBP613 million in 2006, representing a 21 per cent increase on 2005, driven by strong growth in sales of variable annuities. On a PVNBP basis, new business sales were GBP6.1 billion. Retail APE sales in 2006 of GBP524 million were up 27 per cent. APE sales in the fourth quarter of 2006 were GBP147 million, up 43 per cent CER compared to the fourth quarter of 2005.

Jackson delivered record variable annuity sales in 2006 of GBP3.8 billion, up 48 per cent on last year. This reflects its distinct competitive advantages of an innovative product offering, an efficient and flexible technology platform, a relationship-driven distribution model and award-winning service.

Jackson's sales result was achieved in a market that grew 18 per cent year-on-year through the first three quarters of 2006. Jackson increased its variable annuity market share to 4.5 per cent as at the end of the third quarter of 2006, up from 3.6 per cent at the same point in 2005, and maintained its

Edgar Filing: PRUDENTIAL PLC - Form 6-K

ranking of 12th in total variable annuity sales. In the independent broker dealer distribution channel, Jackson's variable annuity sales during the first nine months of 2006 increased 52 per cent over the same period in 2005, while industry sales grew 27 per cent. This took Jackson's ranking in the channel from 5th at the end of September 2005 to 2nd at the end of September 2006 and increased its market share from 8.8 per cent to 10.6 per cent.

Innovation in product design and speed to market continue to be key drivers of Jackson's competitiveness as 81 per cent of retail sales during 2006 were related to products and product features launched since the beginning of 2005. In January, Jackson added a 5 per cent annual benefit increase option to its popular lifetime guaranteed minimum withdrawal benefits (GMWBs). In May, Jackson added five new GMWB options that offer contract holders a guaranteed return of premium and lifetime income. Additionally, Jackson expanded its variable annuity fund offering during the year. In February, the company launched two new fixed index annuity (FIA) contracts, which expanded the number of FIA products Jackson offers to five.

Entry spreads for fixed annuities continued to be challenging during 2006, which limited the attractiveness of the market to Jackson. APE sales of GBP69 million were down 12 per cent on the same period of 2005.

Fixed index annuity sales continued to be impacted by the uncertain regulatory environment in the US. APE sales of GBP55 million were 10 per cent down on 2005. Jackson's market share through the end of the third quarter of 2006 was 3.8 per cent, unchanged from the same period in the prior year.

Curian Capital, a specialised asset management company that provides innovative separately managed accounts, is building its position in the US retail asset management market with total assets under management at the end of 2006 of \$2.4 billion compared with \$1.7 billion at the end of 2005.

Institutional APE sales of GBP90 million were down 8 per cent from 2005. Jackson participates in this market on an opportunistic basis.

Jackson's focus is to expand its share of the US annuity and retail asset management markets. This will be achieved through continued expansion of existing product offerings, additional growth in new and existing distribution channels and opportunistic acquisition activity.

Jackson's product development strategy includes further enhancement of its variable annuity offerings and the introduction of new guarantees, including a guaranteed minimum accumulation benefit (GMAB). Jackson has launched a simplified retirement annuity that will serve as a low cost option for financial advisors who are currently not participating in the variable annuity market. Additionally, Jackson has rolled out its first set of retail mutual funds for distribution by existing wholesalers. Jackson's new mutual funds will be marketed as an additional option for financial advisors currently selling variable annuity products.

Jackson will continue to build its relationship-based distribution advantage in the advice-based channels, including a particular focus on increasing annuity sales in the bank and regional broker-dealer channels. Jackson will also explore additional distribution opportunities, including further expansion into the

Edgar Filing: PRUDENTIAL PLC - Form 6-K

wirehouse channel, as evidenced by the company's recent distribution agreement with UBS.

Jackson continues to deliver growth in the attractive US market and has further enhanced its competitive advantages in the variable annuity market, offering the product and service solutions that both customers and advisors desire. With a continued focus on product innovation, a proven relationship-based distribution model, award-winning service and excellence in execution, Jackson is well positioned to take advantage of the changing demographics and resulting opportunities in the US market.

Prudential Corporation Asia

Prudential's Asian life operations delivered new business APE of GBP956 million representing growth of 30 per cent in 2006 and reflecting the sustained momentum of the business seen throughout the year. The fourth quarter of 2006, with APE of GBP282 million, showed an increase of 29 per cent relative to the same quarter in 2005 and 25 per cent relative to the third quarter of 2006. On the PVNBP basis sales for 2006 of GBP5.1 billion are 26 per cent higher than in 2005.

Prudential's focus continues to be on sustainable and profitable growth and the new business results reflect the continuing success of this strategy. The proportion of unit linked business for the year is 65 per cent, in line with the 63 per cent reported for last year and demonstrates the sustained appeal of these products to consumers across the region. The proportion of new business from traditional agency distribution is 70 per cent compared to 74 per cent last year, as our bank and broker distribution continues to strengthen.

Prudential's joint venture with ICICI in India is a market leading operation and has rapidly achieved material scale since launch in 2000. APE for 2006 increased by 95 per cent over the same period last year with Prudential's 26 per cent being GBP107 million. This was driven by a significant increase in agent numbers as the operation continues to open up new branches across India, and higher average premiums per policy, as well as growth from the bancassurance channel.

Prudential's Korean life business with APE of GBP218 million, which is a growth of 54 per cent from 2005, continues to benefit from the expansion of the tied financial adviser channel in 2006 partially offset by slower growth in the broker channel where some brokers have been restructuring. Bancassurance growth continues to be constrained by regulatory individual company production caps and Prudential continues to explore opportunities to work with more banks. Since acquisition this operation has outperformed the industry and is well on track to become a major player.

In Taiwan, Prudential's focus continues to be on value rather than volume. Whilst full year APE at GBP148 million is 6 per cent lower than last year, the proportion of higher margin unit linked remains high relative to the industry at 58 per cent.

Prudential's life business in Indonesia continues to go from strength to strength with APE sales of GBP74 million, 54 per cent up on last year driven by increased agent numbers. This business has a high proportion of unit linked sales and is the well established market leader in this product.

Edgar Filing: PRUDENTIAL PLC - Form 6-K

Although growth in Prudential's Singapore life business slowed in the third quarter as equity market volatility impacted single premium linked business, it had a strong fourth quarter and full year APE of GBP108 million is up a healthy 23 per cent on 2005. Prudential's Hong Kong life business, at GBP139 million for 2006, is up 26 per cent over 2005 driven due to a successful retirement orientated savings product launch and strong results from Standard Chartered Bank. In Malaysia sales across the industry remain depressed following regulatory changes last year; however in the fourth quarter sales growth recovered and Prudential's new business was up 15 per cent compared to the same quarter in 2005. Full year APE in Malaysia for Prudential was GBP72 million, up 6 per cent on 2005. The Takaful joint venture with Bank Simpanan Nasional (BSN) commenced sales in November.

In China, CITIC Prudential APE for 2006 of GBP39 million is an increase of 56 per cent compared to 2005, reflecting an increasing contribution from the new cities as well as the continued growth from the longer established operations such as Guangzhou and Beijing.

The Vietnamese market continues to be challenging and Prudential's APE year to date has declined by 14 per cent, however the long term potential of this market remains excellent.

Prudential's other smaller operations of Japan, Thailand and Philippines grew at 133 per cent, 83 per cent and 14 per cent respectively year to date.

Prudential has an excellent track record of building a profitable business in Asia and its focus continues to be on long term, profitable and sustainable growth.

Asset Management

M&G

Outstanding fund performance led to record fund inflows into M&G's retail and institutional businesses during 2006. Gross fund inflows were GBP13.5 billion, an increase of 70 per cent on the previous year. Net fund inflows were their highest ever, increasing by 58 per cent to GBP6.1 billion, reflecting M&G's leading position in retail fund management, institutional fixed income, pooled life and pension funds, property and private finance. External funds under management grew significantly, up 24 per cent to GBP45 billion, and at this level represents over a quarter of M&G's total funds under management.

Fund inflows into M&G's retail business continued to perform very strongly. Whilst gross fund inflows increased by 75 per cent to GBP6.7 billion, net fund inflows more than doubled to GBP3.1 billion. Fund performance across M&G's range of equity, bond and property funds was excellent, which was recognised by M&G being named Best Equity Group (Large) and Best Non UK Equity Group (Large) at the Lipper Citywire All Stars Awards 2006. Demand remained strong for M&G's high alpha equity and competitive fixed income and property offerings and M&G continued to innovate during the year with the launch of two new funds, the M&G Optimal Income Fund and M&G European Property Fund. Retail sales were strong in the UK and South Africa, and across the European markets of Germany, Austria,

Edgar Filing: PRUDENTIAL PLC - Form 6-K

Switzerland, Luxembourg, Italy and Spain, where M&G is maximising the opportunity created by the continued opening up of these markets to foreign players.

M&G's institutional business also saw substantial growth with gross fund inflows increasing by 66 per cent to GBP6.8 billion and net inflows rising 19 per cent to GBP3 billion. M&G's scale and market reputation in fixed income continued to position it very favourably in both traditional areas of the market, such as segregated funds, and more alternative areas such as structured credit. Fund inflows into segregated funds was strong on the back of good fund performance which saw 86 per cent of funds above benchmark over one year and 90 per cent over three years. M&G consolidated its market leading position in structured credit with the launch of seven new Collateralised Debt Obligations (CDOs) during the year and was named CDO manager of the year by IFR magazine. Significant fund inflows were generated into M&G's Episode global macro fund, with the fund reaching \$1.5 billion assets under management within 17 months of launch.

Asian Fund Management Business

The Asian Fund Management Business continues to deliver record net inflows in the fourth quarter in 2006. Net inflows of GBP0.9 billion, were up 155 per cent for the same period in 2005, reflecting the strengths of the Asian Fund Management's geographic and product diversification.

Full year record net inflows of GBP2.5 billion were up 91% from 2005. Of the annual net inflows of GBP2.5 billion, GBP2.3 billion or 94 per cent have been from non-MMF products. Equity and non-MMF assets grew by GBP2.0 billion in 2006.

Total third party funds under management were GBP12.3 billion, an increase of 21 per cent compared to the fourth quarter in 2005. India and Korea were the main contributors to this growth with funds under management increasing by 36 per cent, and 27 per cent respectively. India growth was largely driven by strong equity and money market inflows. Korea growth was attributable to positive market sentiment, expanded distribution channels and good fund performance which led to a high level of equity and structured product inflows.

During the fourth quarter, Prudential Vietnam Fund Management Company launched a Cayman structured closed ended fund targeted at sophisticated investors and distributed for the first time actively to high net worth individuals through private banking channels. This fund raised close to GBP160 million and is listed on the Irish Stock Exchange. Prudential Vietnam Fund Management Company has now become the largest domestic mutual fund company in Vietnam in terms of funds under management. CITIC Prudential Fund Management launched its second fund in the fourth quarter and raised GBP220 million. Launched only last October, CITIC Prudential Fund Management has already raised over GBP420 million from its two fund launches in 2006. Prudential Asset Management (HK) Limited has been awarded a US\$200 million quota by China's State Administration for Foreign Exchange under the Qualified Foreign Institutional Investor ("QFII") scheme. Introduced in May 2002, the QFII scheme allows qualified foreign institutional investors direct participation in China's domestic "A" share equity and fixed income markets. PCA Securities Investment Trust in Taiwan launched the Asia Pacific REITs Fund in the fourth quarter and achieved its FUM cap of GBP157 million.

Edgar Filing: PRUDENTIAL PLC - Form 6-K

Prudential remains confident that its fund management businesses in Asia are in an ideal position to achieve strong and profitable growth as it has put in place a distinctive and advantaged platform.

*Prudential plc, a company incorporated and with its principal place of business in the United Kingdom, and its affiliated companies constitute one of the world's leading financial services groups. It provides insurance and financial services directly and through its subsidiaries and affiliates throughout the world. It has been in existence for over 150 years and has GBP237.5 billion in assets under management, (as at 30 June 2006) Prudential plc is not affiliated in any manner with Prudential Financial, Inc, a company whose principal place of business is in the United States of America.

Forward-Looking Statements

This statement may contain certain "forward-looking statements" with respect to certain of Prudential's plans and its current goals and expectations relating to its future financial condition, performance, results, strategy and objectives. Statements containing the words "believes", "intends", "expects", "plans", "seeks" and "anticipates", and words of similar meaning, are forward-looking. By their nature, all forward-looking statements involve risk and uncertainty because they relate to future events and circumstances which are beyond Prudential's control including among other things, UK domestic and global economic and business conditions, market related risks such as fluctuations in interest rates and exchange rates, and the performance of financial markets generally; the policies and actions of regulatory authorities, the impact of competition, inflation, and deflation; experience in particular with regard to mortality and morbidity trends, lapse rates and policy renewal rates; the timing, impact and other uncertainties of future acquisitions or combinations within relevant industries; and the impact of changes in capital, solvency or accounting standards, and tax and other legislation and regulations in the jurisdictions in which Prudential and its affiliates operate. This may for example result in changes to assumptions used for determining results of operations or re-estimations of reserves for future policy benefits. As a result, Prudential's actual future financial condition, performance and results may differ materially from the plans, goals, and expectations set forth in Prudential's forward-looking statements. Prudential undertakes no obligation to update the forward-looking statements contained in this statement or any other forward-looking statements it may make.

PRUDENTIAL PLC - NEW BUSINESS SCHEDULES

BASIS OF PREPARATION

The new business schedules are provided as an indicative volume measure of transactions undertaken in the reporting period that have the potential to generate profits for shareholders. The amounts shown are not, and not intended to be, reflective of premium income recorded in the IFRS income statement.

The schedules include a bulk annuity transaction with the Scottish Amicable Insurance Fund (SAIF). The transaction reflects the arrangement entered into in June 2006 for the reinsurance of non-profit immediate pension annuity liabilities of SAIF to Prudential Retirement Income Limited (PRIL), a shareholder owned subsidiary of the Group. SAIF is a closed ring-fenced sub-fund of the PAC long-term fund established by a Court approved Scheme of Arrangement in October 1997, which is solely for the benefit of SAIF policyholders. Shareholders have no interest in the profits of this fund, although they are

Edgar Filing: PRUDENTIAL PLC - Form 6-K

entitled to investment management fees on this business. The inclusion of the transaction between SAIF and PRIL as new business reflects the transfer from SAIF policyholders to Prudential shareholders' funds of longevity risk, the requirement to set aside supporting capital, and entitlement to surpluses arising on this block of business arising from the reinsurance arrangement. Adjustments of GBP3m have been made to the SAIF reinsurance premium previously reported at GBP59m at Q2 2006, due to a revaluation of the assets.

The format of the schedules is consistent with the distinction between insurance and investment products as applied for previous financial reporting periods. Products categorised as "insurance" refer to those classified as contracts of long-term insurance business for regulatory reporting purposes, i.e. falling within one of the classes of insurance specified in part II of Schedule 1 to the Regulated Activities Order under FSA regulations.

The details shown for insurance products include contributions for contracts that are classified under IFRS 4 "Insurance Contracts" as not containing significant insurance risk. These products are described as investment contracts or other financial instruments under IFRS. Contracts included in this category are primarily certain unit-linked and similar contracts written in UK Insurance Operations, and Guaranteed Investment Contracts and similar funding agreements written in US operations.

New business premiums for regular premium products are shown on an annualised basis. Department of Work and Pensions pension business is classified as single recurrent business. Internal vesting business is classified as new business where the contracts include an open market option.

UK and Asian investment products referred to in the tables for funds under management above are unit trusts, mutual funds and similar types of retail fund management arrangements. These are unrelated to insurance products that are classified as investment contract under IFRS 4, as described in the preceding paragraph, although similar IFRS recognition and measurement principles apply to the acquisition costs and fees attaching to this type of business.

New Department of Work and Pensions (DWP) rebate business for SAIF is excluded from the new business schedules. This is because, as noted above, SAIF is solely for the benefit of SAIF policyholders.

Notes to Schedules 1A - 8

(1a) Insurance and investment new business for overseas operations has been calculated using constant exchange rates. The applicable rate for Jackson is 1.84.

(1b) Insurance and investment new business for overseas operations has been

Edgar Filing: PRUDENTIAL PLC - Form 6-K

calculated using average exchange rates. The applicable rate for Jackson is 1.84 (2005: 1.82).

(2) Represents cash received from sale of investment products.

(3) Annual Equivalents, calculated as regular new business contributions plus 10 per cent single new business contributions, are subject to roundings. PVNBPs are calculated as equalling single premiums plus the present value of expected premiums of new regular premium business. In determining the present value, allowance is made for lapses and other assumptions applied in determining the EEV new business profit.

(4) In Asia, 'Other' insurance operations include Thailand, the Philippines and Vietnam.

(5) Balance includes segregated and pooled pension funds, private finance assets and other institutional clients. Other movements reflect the net flows arising from the cash component of a tactical asset allocation fund managed by PPM South Africa.

(6) New business in India is included at Prudential's 26 per cent interest in the India life operation. Mandatory Provident Fund (MPF) product sales in Hong Kong are included at Prudential's 36 per cent interest in Hong Kong MPF operation.

(7) Balance sheet figures have been calculated at the closing exchange rate. The 2005 balance is shown on a constant exchange rate.

(8) Sales are converted using the year to date average exchange rate applicable at the time. The sterling results for individual quarters represent the difference between the year to date reported sterling results at successive quarters and will include foreign exchange movements from earlier periods.

(9) In August 2005, Prudential's joint venture partner in the Prudential ICICI Asset Management Company purchased an additional 6 per cent share ownership reducing Prudential's stake to 49 per cent. As a result, Prudential no longer consolidates the company as a subsidiary.

(10) GBP289m of FUM reported under Prudential Asian funds operations relates to M&G's products distributed through those Asian operations and this amount is also included in M&G's FUM.

Edgar Filing: PRUDENTIAL PLC - Form 6-K

(11) The 2005 UK PVNBP result as been adjusted by GBP125m from GBP7,593m to GBP7,718m due to a change in methodology for certain classes of business

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
