Richard Solomons, Chief Executive of InterContinental Hotels Group PLC, said:

"We have delivered good results in the first half with RevPAR growth from all regions through gains in both occupancy and rate. Our brands continue to perform well and we have achieved solid underlying margin growth, resulting in increased profits and strong cash flows.

We are increasing the interim dividend by 31% reflecting these results, our previously stated intention to rebalance the interim and final dividend payments and our confidence in the future prospects of the business.

Consistent with our asset light strategy and our strong track record of returning funds to shareholders, we today announce a \$1bn return of capital. This recognises the expected proceeds from the ongoing disposal of InterContinental New York Barclay and our commitment to maintaining an investment grade credit rating.

We continue to invest for growth, strengthening both our existing and our new brands, including EVEN Hotels and HUALUXE Hotels & Resorts. While the global economic environment remains uncertain, IHG continues to trade well and we are confident that our strategy will deliver high quality growth into the future."

Americas - Continued profit growth driven by franchise business

RevPAR increased 7.1%, with 4.4% rate growth and second quarter RevPAR increased 6.7% with 4.7% rate growth. US RevPAR was up 7.2% in the first half, with 6.9% growth in the second quarter. On a total basis including the benefit of new hotels, US RevPAR grew 8.0% in the half, in line with the industry. On the same basis, Holiday Inn and Holiday Inn Express grew 8.5% and 8.6% respectively, significantly outperforming the upper midscale segment up 7.7%.

Revenue decreased 4% to \$400m and operating profit increased 4% to \$233m. After adjusting for owned hotel disposals in 2011, the impact of a \$10m liquidated damages receipt in 2011 and the results from managed lease

hotels*, revenue was up 5% and operating profit up 9%. This was driven by good RevPAR growth across the region, resulting in a 9% increase in franchise royalties, slightly offset by the impact of a refurbishment of one owned hotel in the Caribbean and a \$3m decrease in fees associated with initial franchising, relicensing, and termination of hotels.

We signed 12,751 rooms (110 hotels) and opened 8,974 rooms (75 hotels) into the system in the half. The Holiday Inn brand family accounted for around three quarters of openings and signings in the region in the half, demonstrating the ongoing benefits from the relaunch. Openings included 9 hotels for our extended stay hotel brands, Candlewood Suites and Staybridge Suites and a second hotel for the InterContinental brand in Mexico City. Signings included 5 Hotel Indigo hotels and 19 for our extended stay brands.

Europe -Solid performance in challenging markets

RevPAR increased 1.9%, with 1.0% rate growth. RevPAR was up 1.5% in the second quarter reflecting the continued uncertainty in macro economic conditions across Europe with rate up 0.9%. (Q2 RevPAR: UK 1.9%, Germany 7.1%, France 0.9%).

Revenue increased 11% (19% at CER) to \$206m and operating profit increased 2% (8% at CER) to \$52m, with an adverse impact on growth from the weakening Euro:Dollar exchange rate over the period. At CER and after adjusting for a leased hotel disposal and excluding results from managed lease hotels*, revenue increased 1% and operating profit increased 10%, driven in part by a decrease in regional overheads offset by higher costs in the owned and leased hotels.

We signed 2,964 rooms (17 hotels), including an InterContinental in St. Petersburg and 4 Hotel Indigo hotels. 3,225 rooms (22 hotels) were opened into the system, the most in a half year since 2008, including 4 Hotel Indigo hotels.

AMEA - Strong RevPAR growth

RevPAR increased 7.9%, with 2.2% rate growth and second quarter RevPAR increased 8.8% with 2.7% rate growth. Trading was strong across the region, with most markets showing good RevPAR growth, reflecting economic growth in Southeast Asia, continued recovery from the natural disasters last year, and stronger trading in some markets in the Middle East.

AMEA revenue increased 8% to \$108m and operating profit increased 11% to \$40m. After adjusting for the disposal in Q3 2011 of a hotel asset and partnership interest in Australia, which contributed \$3m to profits in H1 2011, operating profit increased 21% at CER. This reflects strong RevPAR growth across the managed business.

We signed 1,395 rooms (6 hotels) in the half, including 2 InterContinental hotels (625 rooms). 1,868 rooms (7 hotels) were opened, mostly with the InterContinental and Crowne Plaza brands, including the 197 room InterContinental Danang Sun Peninsula Resort hotel in Vietnam, the first Crowne Plaza Resort for the region in Thailand and the first Holiday Inn Express hotel for Southeast Asia, in Bangkok.

Greater China - Double digit system and pipeline growth

RevPAR increased 9.7%, with 3.8% rate growth and second quarter RevPAR increased 7.9% with 4.1% rate growth. Continuing strength in RevPAR growth in North and East China of 14.3% and 11.2% respectively was slightly offset by weaker RevPAR growth in South and West China of 3.6%.

Revenue increased 14% (13% CER) to \$108m and operating profit increased 20% (23% CER) to \$36m. This was driven by 7.6% RevPAR growth at the InterContinental Hong Kong; \$3m growth in managed profits reflecting strong RevPAR growth and 13% room growth, partly offset by incremental investment within managed operations. Regional costs increased by \$3m reflecting additional resources in the region to support continued growth.

We opened 3,382 rooms (8 hotels) in the first half, taking our open rooms in the region to 58,184, and strengthening our market leading position. Openings included 2 Crowne Plaza hotels and 5 Holiday Inn brand family hotels, including the largest Holiday Inn in the world in Macau with 1,224 rooms.

Edgar Filing: INTERCONTINENTAL HOTELS GROUP PLC /NEW/ - Form 6-K

Signings of 4,994 rooms (19 hotels) took our pipeline to 49,801 rooms (156 hotels) giving us a continued leading 18% share of the active hotel pipeline in China. 30% of our total group pipeline is in Greater China, of which over 70% is under construction. Signings comprised 4 Crowne Plaza hotels, 10 Holiday Inn brand family hotels, 4 HUALUXE Hotels and Resorts hotels and one Hotel Indigo hotel, demonstrating the strength of our brands in Greater China.

Interest, tax, cash flow and exceptionals

The interest charge for the period was \$25m (H1 2011: \$32m) due to lower levels of net debt.

Based on the position at the end of the half, the tax charge has been calculated using an estimated annual tax rate of 29% (H1 2011: 28%). The 2012 full year tax rate is expected to be in the high 20s, moving towards the low 30s in 2013. An exceptional tax credit of \$79m relates to prior year matters settled in Q1 2012, together with associated deferred tax amounts.

A \$23m exceptional credit relates to the reversal of a previously recorded impairment charge on a North American hotel.

Net debt was \$564m at the end of the quarter (including the \$210m finance lease on the InterContinental Boston). This is down from \$818m at 30 June 2011 but up \$30m on the year end position due to seasonal working capital movements.

The provisional triennial actuarial valuation of the UK defined benefit plan as at 31 March 2012 indicates a deficit of £132m; the future funding related to this is under discussion with the Trustees.

Revenue increased by 3.3% to \$878m, whilst operating profit before exceptional items increased by 6.3% to \$286m during the six months ended 30 June 2012. On a constant currency basis, revenue and operating profit before exceptional items increased by 4.8% and 7.1% respectively.

Group RevPAR increased by 6.5% against the six months ended 30 June 2011, and by 6.1% in the second quarter against the same period in the prior year. RevPAR growth was led by increases to daily room rates across all brands (3.5% for the Group). System size increased by 1.6% compared to June 2011.

Fee based margin¹ growth of 2.3%pts to 42.9% reflects continuing benefits of scale and some favourable phasing of costs.

Profit before tax increased by \$79m from \$205m to \$284m. Adjusted earnings per ordinary share increased by 8.3% to 64.1¢.

¹ Underlying fee based margin is defined as operating profit margin adjusted for owned and leased hotels, managed leases and one individually significant liquidated damages receipt in 2011.

The IHG global system (the number of hotels which are franchised, managed, owned or leased) increased in the first half of 2012 by 62 hotels (8,525 rooms) to 4,542 hotels (666,873 rooms) with openings of 112 hotels (17,449 rooms) and removals of 50 hotels (8,924 rooms). By way of comparison, 122 hotels (24,519 rooms) joined the system in the same period last year, including two InterContinental Alliance resorts (6,986 rooms).

At 30 June 2012, the IHG pipeline which represents hotels and rooms where a contract has been signed and the appropriate fees paid, totalled 1,060 hotels (167,485 rooms), a decline of 84 hotels (12,999 rooms) since the year end. The movement included additions to the pipeline totalling 152 hotels (22,104 rooms), four more than in the same

period in 2011. Additions were offset by openings and pipeline terminations which occur for a number of reasons such as withdrawal of financing and changes in local market conditions.

Revenue decreased by \$16m to \$400m (3.8%) and operating profit before exceptional items increased by \$8.0m to \$233m (3.6%) during the six months ended 30 June 2012.

After adjusting for owned and leased disposals, results for managed lease hotels and excluding the impact in 2011 of an individually significant liquidated damages receipt of \$10m, revenue and operating profit increased by \$18m (5.0%) and \$19m (8.9%) respectively. RevPAR in the first half of the year increased by 7.1% and system size was broadly flat on the same period of 2011.

During the first half of 2012, franchised revenue and operating profit increased by \$16m to \$260m (6.6%) and \$15m to \$224m (7.2%) respectively, compared to the same period in 2011. This increase was predominantly in relation to royalties, driven by growth in RevPAR on the prior year of 7.2%. Fees associated with the termination of hotels and initial franchising and relicensing were \$3m lower than the same period in 2011.

Managed revenue and operating profit decreased by \$23m to \$47m (32.9%) and \$9m to \$24m (27.3%). Revenue and operating profit included \$19m (2011: \$36m) and \$1m (2011: \$2m) respectively from properties that are structured for legal reasons as operating leases but with the same characteristics as management contracts. Excluding properties operated under this arrangement, as well as the benefit of a \$10m liquidated damages receipt in 2011, revenue grew by \$4m (16.7%), whilst operating profit increased by \$2m (9.5%). These increases were driven by RevPAR growth across the Americas managed estate of 6.6% on the same period in the prior year, offset by a decrease of 8% in system size. The decrease in system size mainly reflects the removal of 43 hotels (6,994 rooms) at the end of 2011, as part of

the renegotiation of the management contract with Hospitality Properties Trust.

Owned and leased revenue, excluding the impact of current and prior year disposals, decreased by \$2m (2.1%) and operating profit increased by \$1m to \$7m (16.7%). The decrease in revenue reflected \$5m lower revenue at one hotel in the Caribbean, which is undergoing refurbishment. Operating profit includes a year on year \$1m benefit from lower depreciation recorded for the InterContinental New York Barclay since the hotel was categorised as "held for sale" in the first quarter of 2011, subsequent to which no depreciation was charged.

OTHER FINANCIAL INFORMATION

Exceptional Operating Items

Exceptional operating items of \$23m in the six months ended 30 June 2012, related to the reversal of a previously recorded impairment charge on a North American hotel.

Taxation

The tax charge on profit before tax, excluding the impact of exceptional items, has been calculated using an estimated effective annual tax rate of 29%. By also excluding the effect of prior year items, the equivalent effective tax rate would be approximately 31%. This rate is higher than the average UK statutory rate for the year of 26.5% due mainly to certain overseas profits (particularly in the US) being subject to statutory rates higher than the UK statutory rate, unrelieved foreign taxes and disallowable expenses.

Taxation within exceptional items totalled a credit of \$66m. This represented, primarily, tax charges on exceptional operating items together with an exceptional tax credit representing the release of provisions which are exceptional by reason of their size or nature relating to tax matters which have been settled or in respect of which the relevant statutory limitation period has expired, together with the recognition of deferred tax assets as a result of the associated reduction in future uncertainty as to their recoverability.

Net tax paid in the six months ended 30 June 2012 totalled \$40m.

Dividends

The Board has proposed an interim dividend per ordinary share of 21¢ (13.5p), representing growth of 31% on the 2011 interim dividend reflecting IHG's continued intention to rebalance the interim dividend towards one third of the total dividend for the year.

Capital Structure and Liquidity Management

During the six months ended 30 June 2012, \$181m of cash was generated from operating activities and there was \$45m capital expenditure.

Net debt at 30 June 2012 of \$564m comprised cash and cash equivalents of \$70m, loans and other borrowings of \$609m and the exchange element of the fair value of currency swaps of \$25m that fix the value of the Group's £250m 6% bonds at \$415m.

On 7th August 2012, IHG announced a \$1bn return to shareholders subject to shareholder approval, comprising a \$500m special dividend with share consolidation to be paid in the fourth quarter of 2012 and a \$500m share buyback programme to commence in the fourth quarter of 2012.

RISKS AND UNCERTAINTIES

The principal risks and uncertainties which could materially affect the Group's business for the remainder of the financial year remain those set out on pages 38 to 40 of the IHG Annual Report and Financial Statements 2011.

In summary, the Group is exposed to risks relating to:

- political and economic developments;
- events that adversely impact domestic or international travel;
- the hotel industry supply and demand cycle;
- identifying, securing and retaining franchise and management agreements;
- changing technology and systems;
- the reputation of its brands and the protection of intellectual property rights;
- requiring the right people, skills and capability to manage growth and change;
- the reliance upon its proprietary reservations system and is exposed to the risk of failures in the system and increased competition in reservations infrastructure;
- information security;
- its financial stability, ability to borrow and satisfy debt covenants;
- compliance with existing and changing regulations across numerous countries, territories and jurisdictions;
- litigation;
- corporate responsibility;
- funding in relation to the defined benefits under its pension plans; and
- difficulties insuring the business.

Our focus on high-quality growth through brand performance, talented people and best in class delivery drives real shareholder value, as seen by our continued outperformance and capital return. While the global economic environment remains uncertain, IHG continues to trade well and we are confident in our strategy for the future. We have delivered good performance in the first half with RevPAR growth from all regions through gains in both occupancy and rate.

The economic outlook for the Eurozone remains uncertain, however the Group is not significantly exposed to this region. Less than 10% of the Group's operating profit before central overheads is Euro denominated and the only significant asset in the region is the InterContinental Paris Le Grand which is partly hedged from a balance sheet perspective. The Group is not dependent on Euro liquidity and none of the banks in the syndicated facility are based in the Eurozone. The Group closely monitors working capital and cash to minimise any negative exposure to unexpected currency movements and is continually monitoring and reacting to trading conditions in the region.

The financing environment remains tough, however IHG continues to open and sign high quality hotels. Building on the success of all our existing brands, we've launched two new hotel brands for our largest markets, EVEN Hotels for the United States and HUALUXE Hotels & Resorts for Greater China, both are attracting significant owner interest.

Our global scale, powerful brands, revenue delivery systems, resilient cash generative business model and focus on efficiency combined with an optimistic market outlook give us confidence in the future. This is evidenced by today's announcement of a \$1bn return of funds plus a 31% increase in the interim dividend.

GOING CONCERN

An overview of the business activities of IHG, including a review of the key business risks that the Group faces is given in this Interim Management Report. Information on the Group's treasury management policies can be found in note 21 to the Group financial statements in the IHG Annual Report and Financial Statements 2011. The Group refinanced its bank facility in November 2011 and put in place a new five-year \$1.07bn facility. The £250m seven-year bond issued in December 2009 remains outstanding. At the end of June 2012, the Group was trading significantly within its banking covenants and debt facilities.

The Group's fee-based model and wide geographic spread means that it is well placed to manage through uncertain times and our forecasts and sensitivity projections, based on a range of reasonably possible changes in trading performance and taking into account the risks and uncertainties outlined in this Report, show that the Group should be able to operate within the level of its current facilities.

After making enquiries, the Directors have a reasonable expectation that the Company and the Group have adequate resources to continue in operational existence for the foreseeable future and, accordingly, they continue to adopt the going concern basis in preparing the financial statements.

DIRECTORS' RESPONSIBILITY STATEMENT

The Directors confirm that to the best of their knowledge:

- The condensed set of financial statements has been prepared in accordance with IAS 34;
- The interim management report includes a fair review of the important events during the first six months and a description of the principal risks and uncertainties for the remaining six months of the year, as required by DTR 4.2.7R; and
- The interim management report includes a fair review of related party transactions and changes therein, as required by DTR 4.2.8R.

6. Earnings per ordinary share

Basic earnings per ordinary share is calculated by dividing the profit for the period available for IHG equity holders by the weighted average number of ordinary shares, excluding investment in own shares, in issue during the period.

Diluted earnings per ordinary share is calculated by adjusting basic earnings per ordinary share to reflect the notional exercise of the weighted average number of dilutive ordinary share options outstanding during the period.

Adjusted earnings per ordinary share is disclosed in order to show performance undistorted by exceptional items, to give a more meaningful comparison of the Group's performance.

We have read the other information contained in the interim financial report and considered whether it contains any apparent misstatements or material inconsistencies with the information in the condensed set of financial statements.

This report is made solely to the Company in accordance with guidance contained in International Standard on Review Engagements 2410 (UK and Ireland), 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity' issued by the Auditing Practices Board. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company, for our work, for this report, or for the conclusions we have formed.

Directors' Responsibilities

The interim financial report is the responsibility of, and has been approved by, the Directors. The Directors are responsible for preparing the interim financial report in accordance with the Disclosure and Transparency Rules of the United Kingdom's Financial Services Authority.

Our Responsibility

Our responsibility is to express to the Company a conclusion on the condensed set of financial statements in the interim financial report based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements (UK and Ireland) 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity' issued by the Auditing Practices Board for use in the United Kingdom. A review of interim financial information consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing (UK and Ireland) and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the condensed set of financial statements in the interim financial report for the three and six months ended 30 June 2012 is not prepared, in all material respects, in accordance with International Accounting Standard 34 as adopted by the European Union and the Disclosure and Transparency Rules of the United Kingdom's Financial Services Authority.
