Use of Non-GAAP Financial Information

To supplement the consolidated financial statements prepared under United States Generally Accepted Accounting Principles ( GAAP ), the Company uses pro forma measures, or a non-GAAP financial measures, as defined in Item 10 of Regulation S-K of the Securities Exchange Act of 1934, as amended, of operating income and net income that reflect GAAP results adjusted to exclude costs (or reversals) associated with plant closures, the impairment loss of an equity investment and a tax benefit associated with the repatriation of non-US subsidiary earnings. The company believes that the use of pro forma measures facilitates meaningful comparison with prior periods and that pro forma net income better reports the baseline performance of the company. In addition, pro forma net income is the primary indicator management uses to plan and forecast future periods. The presentation of this additional information should not be considered as a substitute for net income prepared in accordance with GAAP. Reconciliations of reported results under GAAP to the pro forma amounts have been included with the press release included hereunder as Exhibit 99.1.
