Item 5. Other Events and Regulation FD Disclosure.

On December 10, 2003, MicroStrategy Incorporated (the Company) issued a press release announcing that it had filed a patent infringement lawsuit against Crystal Decisions, Inc. in the United States District Court for the District of Delaware. The lawsuit alleges that Crystal willfully infringes three patents issued to the Company relating to: (i) asynchronous control of report generation using a web browser (United States Patent No. 6,279,033); (ii) management of an automatic OLAP report broadcast system (United States Patent No. 6,567,796); and (iii) providing business intelligence web content with reduced client-side processing (United States Patent No. 6,658,432). The lawsuit seeks monetary damages and injunctive relief. The Company does not expect that its prosecution of its claims against Crystal will have a material effect on the Company's general and administrative expenses or results of operations in future periods. A copy of this press release is attached as Exhibit 99.1 to this Current Report on Form 8-K.
