Summary of 2003 Business Report

On March 30, 2004, Kookmin Bank filed its business report for the fiscal year of 2003 (the Business Report) with the Financial Supervisory Commission of Korea pursuant to the Securities and Exchange Act of Korea. This is the summary of Business Report translated into English.

All references to Kookmin Bank mean Kookmin Bank on a non-consolidated basis, and all references to we, us or the Bank mean Kookmin Bank and, as the context may require, its subsidiaries. Kookmin Bank means a new entity established by a business combination with former Kookmin Bank and H&CB dated on October 31, 2001. Sometimes we refer it to New Kookmin Bank. On the other hand, we use the Former Kookmin Bank for the name of the former Kookmin Bank, which had been another entity before it merged with H&CB.

We were formed through a business combination between the Former Kookmin Bank and H&CB, which formed a new corporation named Kookmin Bank effective November 1, 2001. Accordingly, financial information in this Business Report since the merger date reflects the impact of the merger. Under generally accepted accounting principles in Korea, the Former Kookmin Bank is deemed the accounting acquirer of H&CB in the consolidation, and we have accounted for the acquisition using the purchase method of accounting. However, trust accounts are not accounted by the purchase method accounting according to the Korean Financial Supervisory Service s guidelines.

All references to Won or W in this document are to the currency of the Republic of Korea.

^{1.} Exercise price = 51,200 Won x (1 + the increase rate of KOSPI Banking Industry Index x 0.4) / 100. The increase rate of KOSPI Banking Industry Index = (KOSPI Banking Industry Index as of the starting date of exercise period 207.25) / 207.25 x 100.

^{2.} Conditional options up to 200,000: Additional shares shall be granted if the average closing price of Kookmin Bank's stock from August 17, 2004 to November 16, 2004 (or for the three months prior to his resignation, if he resigns earlier than his original tenure) is higher than the stock prices of any other bank listed on the Korea Stock Exchange. The number of options to be granted shall be based on total score, which calculated by the earned total scores of both ROE and market capitalization on November 17, 2004 (or on the date of his resignation, if he resigns earlier than his original tenure). The additional shares will not be exercisable if the CEO works less than 18

months or the earned total score is less than 80 points.

5.1. Board of Directors & Committees under the Board

| The board of directors holds regular meetings every quarter. The board of directors consists of directors and resolves each following matter |
|--|
|--|

- n matters relating to business objectives and performance evaluation;
- n matters relating to amendments of the Articles of Incorporation;
- n matters relating to budget and accounting including salaries of directors and employees;
- n matters relating to major organizational changes such as dissolution, business transfer and merger;
- n matters relating to internal control standards; or
- n other matters determined by law and the board of directors regulations.

We currently have six management committees that serve under the board:

- n the Board Steering Committee;
- n the Management Strategy Committee;
- n the Risk Management Committee;
- n the Audit Committee;
- n the Compensation Committee; and
- n the Non Executive Director Nominating Committee.

Each committee member is appointed by the board of directors, except for members of the Audit Committee, who are elected at the general meeting of stockholders. For list of our directors, see 6. Directors, Senior Management and Employees / 6.1. Executive Directors and 6.2. Non-Executive Directors.

Edgar Filing: KOOKMIN BANK - Form 6-K

5.2. Audit Committee

Audit Committee oversees our financial reporting and approves the appointment of and interaction with our independent auditors, compliance officers, management personnel and other committee advisors. The committee also reviews our financial information, auditor s examinations, key financial statement issues and the administration of our financial affairs by the board of directors. In connection with the general meetings of stockholders, the committee examines the agenda for, and financial statements and other reports to be submitted by, the board of directors to each general meeting of stockholders. The committee holds regular meetings every quarter and as-needed basis.

5.3. Compensation to Directors

For the year ended December 31, 2003, the aggregate of the remuneration paid by us to 1) the Chairman, President & CEO and our other executive directors and 2) our non-executive directors was 3,050 million Won, 534 million Won, respectively. The following table shows the breakdown of the remuneration.

(Units: in millions of Won)

| | The aggregate remuneration paid | Limit for the remuneration resolved by shareholders meeting | Average amount of the payment per person |
|----------------------------|---------------------------------|---|--|
| 1) Executive Directors | 3,050 | 8,000 | 762 |
| 2) Non Executive Directors | 534 | | 48 |
| Total | 3,584 | 8,000 | |
| | | | |

As part of remuneration, Kookmin Bank also granted stock options to directors. See 1.3.3 Stock Option.

5.4. Voting Rights of Shareholders

Each outstanding share of our common stock is entitled to one vote per share. If the method of written resolution at the general meeting of shareholders is adopted by resolution of the board of directors, at which the convening of the general meeting of shareholders is determined, the shareholders may exercise their voting rights in writing without participating the meeting in person. In this case, the Bank is required to send the documents and references necessary for exercise of voting rights, together with the convening notice. If a shareholder intends to exercise his/her voting rights in writing, the shareholder is required to fill in a certain form and submit it to the Bank one day before the date set for the general meeting of shareholders.

Report of Independent Auditors

To the Board of Directors and Shareholders of

Kookmin Bank

We have audited the accompanying non-consolidated balance sheet of Kookmin Bank (the Bank) as of December 31, 2003 and 2002, and the related non-consolidated statements of operations, appropriations of retained earnings (dispositions of accumulated deficit) and cash flows for the year then ended, expressed in Korean Won. These financial statements are the responsibility of the Company s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the Republic of Korea. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the non-consolidated financial statements referred to above present fairly, in all material respects, the financial position of Kookmin Bank as of December 31, 2003 and 2002, and the results of its operations, the changes in its retained earnings (accumulated deficit), and its cash flows for the year then ended in conformity with accounting principles generally accepted in the Republic of Korea.

Without qualifying our opinion, we draw your attention to the following matters.

As discussed in Note 33 to the financial statements, on May 30, 2003, the Bank obtained approval from the Board of Directors to enter into a merger agreement with Kookmin Credit Card Co., Ltd. (the Subsidiary), its majority-owned subsidiary. According to the resolution of the Board of Directors, the Bank merged with the Subsidiary on September 30, 2003. The merger was effected through an exchange of shares with the minority shareholders of the Subsidiary as of July 24, 2003, who received 0.442983 share of the Bank s common stock for each share of the Subsidiary. The total assets and liabilities of the Subsidiary as of September 30, 2003 were (Won)10,595,409 million and (Won)9,391,897 million, respectively.

As discussed in Note 2 to the financial statements, as of December 2002, the Bank changed the rates for determining the allowances for losses from consumer loans and credit card loans, in anticipation of the increasing risk of loan losses due to the increase in consumer loans and credit card loans, as follows:

| | Allowance Rates | Allowance Rates after Changes | | |
|----------------------------|-----------------|----------------------------------|--------------|--|
| Credit Risk Classification | before Changes | Consumer | Credit Cards | |
| Normal | 0.50% | 0.75% | 1.00% | |
| Precautionary | 2.00% | 8.00% | 12.00% | |
| Sub-standard | 20.00% | 20.00% | 20.00% | |
| Doubtful | 50.00% | 55.00% | 60.00% | |
| Estimated loss | 100.00% | 100.00% | 100.00% | |

As a result of the above change, the Bank s allowances for loan losses as of December 31, 2003 are greater by (Won)336,265 million for consumer loans and (Won)314,701 million for credit card loans compared to the amounts that which would have been recorded under the previous rates.

As discussed in Note 20 to the financial statements, in accordance with the resolution made by the Board of Directors on December 26, 2003, the Bank acquired 27,423,761 of its own shares previously owned by the Korean government at (Won)43,700 per share through public bidding and intends to sell these shares of treasury stock depending on certain market conditions. As a result of the acquisition, the Bank holds 8.92 percent of the total common stock issued as treasury stock.

As discussed in Note 16 to the financial statements, the Bank s total exposure (including debt securities, beneficiary certificates, and loans) related to domestic credit card companies and capital companies amounts to (Won)2,055,663 million as of December 31, 2003. Currently, securities issued by credit card companies and capital companies, which are experiencing liquidity problems, are not widely traded in the bond market. The ultimate effect of these circumstances on the financial position of the Bank as of the balance sheet date cannot be presently determined, and accordingly, no adjustments related to such uncertainties have been recorded in the accompanying financial statements.

As discussed in Note 16 to the financial statements, in accordance with the agreement with the creditors committee of LG Card Co., Ltd. on November 24, 2003, the Bank provided additional loans of (Won)437.0 billion to LG Card Co., Ltd., which is currently experiencing a liquidity crisis. Also, on January 9, 2004, the Bank has agreed to a debt-equity swap of (Won)312.7 billion, to provide additional loans of (Won)205.9 billion (to be included in the debt-equity swap), and to extend the maturity of loans that will mature in 2004. The ability of LG Card Co., Ltd. to continue as a going concern depends on the effective execution of its restructuring plan and debt restructuring as well as the availability of financial aid from its financial institutional creditors. The ultimate effect of these circumstances on the financial position of the Bank as of the balance sheet date cannot be presently determined, and accordingly, no adjustments related to such uncertainties have been recorded in the accompanying financial statements.

Accounting principles and auditing standards and their application in practice vary among countries. The accompanying financial statements are not intended to present the financial position, results of operations and cash flows in conformity with accounting principles and practices generally accepted in countries and jurisdictions other than the Republic of Korea. In addition, the procedures and practices used in the Republic of Korea to audit such financial statements may differ from those generally accepted and applied in other countries. Accordingly, this report and the accompanying non-consolidated financial statements are for use by those who are knowledgeable about Korean accounting principles or auditing standards and their application in practice.

Kookmin Bank

Notes to Non-Consolidated Financial Statements

December 31, 2003 and 2002

1. The Bank

Kookmin Bank (the Bank) was established in 1963 under the Citizens National Bank Act to provide and administer funds for financing the general public and small businesses. Pursuant to the repeal of the Citizens National Bank Act, effective January 5, 1995, the Bank has conducted its operations in accordance with the provisions of the General Banking Act.

The Bank merged with Korea Long Term Credit Bank (KLB) on December 31, 1998 and with Daegu, Busan, Jeonnam Kookmin Mutual Savings & Finance Co., Ltd. on August 22, 1999. Also, under the decision of the Financial Supervisory Commission in accordance with the Structural Improvement of the Financial Industry Act, the Bank purchased certain assets, including loans classified as normal or precautionary, and assumed most of the liabilities of Daedong Bank as of June 29, 1998. Also, the Bank completed the legal consolidation with H&CB as of October 31, 2001 (Note 32) and merged with Kookmin Credit Card Co., Ltd. (the Subsidiary), its majority-owned subsidiary, on September 30, 2003 (Note 33).

The Bank had its shares listed on the Korea Stock Exchange since September 1994. As a result of the business combination with H&CB, the former shareholders of the Bank and H&CB received new common shares of the Bank on the basis of a pre-determined ratio. The new common shares of the Bank were relisted on the Korea Stock Exchange as of November 9, 2001. As of December 31, 2003, the Bank s paid-in capital amounts to (Won)1,681,896 million and 35,000,566 shares of the Bank are listed on the New York Stock Exchange as American Depositary Shares (ADSs).

The Bank engages in the banking and trust businesses according to the provisions of the General Banking Act and the Trust Business Act, and operates through 1,136 domestic branches and offices (excluding ATMs) and three overseas branches as of December 31, 2003.

2. Summary of Significant Accounting Policies

The Bank has adopted Statements of Korean Financial Accounting Standards (*SKFAS*) No. 1 as of January 1, 2001 and No. 2 to No. 9 as of January 1, 2002 to present its financial statements. Except for the adoption of these SKFAS, the same accounting policies are applied for the fiscal years 2002 and 2003. The significant accounting policies followed by the Bank in the preparation of its non-consolidated financial statements are summarized below.

Basis of Financial Statement Presentation

Edgar Filing: KOOKMIN BANK - Form 6-K

The Bank maintains its accounting records in Korean Won and prepares statutory financial statements in the Korean language in conformity with accounting principles generally accepted in the Republic of Korea. Certain accounting principles applied by the Bank that conform with financial accounting standards and accounting principles in the Republic of Korea may not conform with generally accepted accounting principles in other countries. Accordingly, these financial statements are intended for use by those who are informed about Korean accounting principles and practices. The accompanying financial statements have been condensed, restructured and translated into English from the Korean language non-consolidated financial statements. Certain information attached to the Korean language financial statements, but not required for a fair presentation of the Company s financial position, results of operations, or cash flows, is not presented in the accompanying non-consolidated financial statements.

Accounting Estimates

The preparation of the non-consolidated financial statements requires management to make estimates and assumptions that affect amounts reported therein. Although these estimates are based on management s best knowledge of current events and actions that the Bank may undertake in the future, actual results may be different from those estimates.

Application of the Statements of Korean Financial Accounting Standards

The Bank s non-consolidated financial statements were prepared in accordance with financial accounting standards generally accepted in the Republic of Korea and Statements of Korean Financial Accounting Standards No. 2 through No. 9, in effect for the fiscal periods beginning after December 31, 2002.

9

Kookmin Bank

Notes to Non-Consolidated Financial Statements

December 31, 2003 and 2002

Recognition of Interest Income

The Bank recognizes interest income on loans and debt securities on an accrual basis. However, interest income on delinquent and dishonoured loans and debt securities, other than those collateralized with security deposits or guaranteed by financial institutions, is recognized on a cash basis. As of December 31, 2003, the Bank has non-accrual loans and securities of (Won)10,677,822 million and (Won)620,929 million, respectively, with related foregone interest of (Won)638,079 million and (Won)150,492 million, respectively.

Securities

Securities that are bought and held principally for the purpose of generating profits on short-term differences in price, and which are actively and frequently bought and sold, are classified as trading securities. Debt securities with fixed or determinable payments and fixed maturity, and which the Bank has the positive intent and ability to hold to maturity are classified as held-to-maturity securities. Investments classified as neither trading securities nor held-to-maturity securities are classified as available-for-sale securities.

Securities are recognized initially at their fair value plus transaction costs that are directly attributable to the acquisition and the Bank uses the moving average method and specific identification method for determining the carrying value of equity securities and debt securities, respectively.

Trading and available-for-sale debt securities are carried at fair value using the average of quoted prices provided by bond pricing service institutions. Held-to-maturity debt securities are carried at amortized cost.

Marketable equity securities are carried at market prices and beneficiary certificates are carried at quoted prices provided by the beneficiary certificate dealers. However, non-marketable equity securities are carried at fair value only if the fair value is reasonably measurable and if otherwise, are carried at cost.

Unrealized holding gains or losses on trading securities are charged to current operations and those resulting from available-for-sale securities are recorded as capital adjustments. Premiums and discounts on debt securities are amortized over the maturity period using the effective interest method. Impairment losses are recognized in current operations when there is evidence of impairment and recoverable amounts of available-for-sale securities or held-to-maturity securities are less than the acquisition cost of equity securities or the amortized cost of debt securities. Unrealized holding gains or losses on available-for-sale or held-to-maturity securities that had not been recognized through income are realized when the related securities are disposed.

Edgar Filing: KOOKMIN BANK - Form 6-K

Investments in Associates

Investments in associate, over which the Bank exercises significant control or influence, are accounted for under the equity method. Under the equity method, the Bank records changes in its proportionate ownership of the associate in current operations, as capital adjustments or as adjustments to retained earnings, depending on the nature of the underlying change in the book value of the investment in associate.

The Bank discontinues the equity method of accounting for investments in associates when the Bank s share of accumulated losses of the associates equals the costs of the investments and until the subsequent cumulative changes in its proportionate net income of the associate equal its cumulative proportionate net losses not recognized during the periods when the equity method was suspended.

Differences between the initial purchase price and the Bank s initial proportionate ownership of the net book value of the associate are amortized or accreted using an appropriate method and the resulting amortization is charged to current operations.

Gains and losses recorded by the Bank from inter-company transactions with associates are fully eliminated. Gains and losses recorded by the associates from these transactions are proportionately eliminated, based on the Bank s percentage of ownership.

Deferred loan origination fees and costs

The Bank defers loan origination fees associated with originating loans and loan origination costs that have future economic benefits. Loan balances are reported net of these loan origination fees and costs, and the deferred loan origination fees and costs are amortized using the effective interest method with the amortization recognized as adjustments to other interest income.

Kookmin Bank

Notes to Non-Consolidated Financial Statements

December 31, 2003 and 2002

Allowances for Loan Losses

The Bank applies its internal credit rating system, the Forward Looking Criteria (FLC), to corporate loans in order to classify the borrowers and to determine the allowances for loan losses. According to the credit rating criteria, the allowance is determined according to the credit risk of corporate borrowers, which is evaluated based on financial and non-financial risks. The credit rating criteria is categorized into 12 categories (AAA, AA, A, BBB, BB, BB, B, BB, CCC, CC, C, D) with additional consideration of the loan type, collateral and/or guarantees.

Allowances are determined by applying at minimum the following rates to the outstanding balances under each credit risk classification:

| | Credit | Allowance |
|----------------------------|---------|-----------|
| Credit Risk Classification | Ratings | Rates |
| | | |
| Normal | AAA~B | 0.5% |
| Precautionary | B-~CCC | 2% |
| Sub-standard Sub-standard | CC | 20% |
| Doubtful | C | 50% |
| Estimated loss | D | 100% |

However, the Bank does not apply the FLC to small-sized corporate loans, consumer loans, and credit card loans. Alternatively, the bank classifies such loans by considering the current financial status of borrowers including delinquencies, bankruptcies and collateral value. As of December 2002, the rates used for determining the allowances for losses from corporate loans, consumer loans and credit card loans were changed as follows:

| | Allowance Rates | Allowance Rates after Changes | | |
|----------------------------|-----------------|----------------------------------|-------------|--|
| Credit Risk Classification | before Changes | Consumer | Credit Card | |
| Normal | 0.50% | 0.75% | 1.00% | |
| Precautionary | 2.00% | 8.00% | 12.00% | |
| Sub-standard Sub-standard | 20.00% | 20.00% | 20.00% | |
| Doubtful | 50.00% | 55.00% | 60.00% | |
| Estimated loss | 100.00% | 100.00% | 100.00% | |

As a result of the above change, the Bank s allowances for loan losses as of December 31, 2003 are greater by (Won)336,265 million for consumer loans and (Won)314,701 million for credit card loans compared to the amounts which would have been recorded under the previous rates.

The Bank applies the credit risk classification used for loans to outstanding guarantees and acceptances, and provides allowances for losses of 20 percent, 50 percent and 100 percent of the outstanding guarantees and acceptances classified as sub-standard, doubtful, and estimated loss, respectively. In addition, the Bank provides allowances for losses of 19 percent of certain outstanding guarantees and acceptances classified as precautionary.

Present Value Discounts

Troubled debt restructuring loans, which are modified as to outstanding principal, interest rate, and/or maturity under programs such as workout, court receivership, court mediation, or debt restructuring agreements of parties concerned, are carried at present value if the difference between the nominal value and the present value of the restructured loan is significant. The present value discounts are recorded by reclassifying allowances for loan losses and if additional allowances need to be provided for, the additional allowances are provided and recognized as provision for loan losses of the current period. The difference between the nominal value and the present value is recorded as present value discount, which is shown as a deduction from the loan nominal value. These present value discounts are amortized using the effective interest method and are recognized as interest income. Allowances for loan losses on the restructured loans are provided for based on the loan balances, net of present value discounts.

11

Kookmin Bank

Notes to Non-Consolidated Financial Statements

December 31, 2003 and 2002

Receivables and payables arising from long-term installment transactions, long-term cash loans or borrowings and other similar transactions shall be stated at present value, if the difference between nominal value and present value is material. The difference is accounted for as a present value discount and is deducted from the nominal value of the related receivable or payable. Present value discounts are amortized or reversed using the effective interest method, and the amortization is included in interest income or expense.

Fixed Assets and Related Depreciation

Tangible assets are recorded at cost, except for upward revaluation of certain assets in accordance with the Korean Asset Revaluation Law. Depreciation is calculated based on the estimated average useful lives of the assets and is presented as accumulated depreciation, which is a contra account of tangible assets in the financial statements.

The estimated useful lives and depreciation methods of the tangible assets are as follows:

| Tangible assets | Depreciation Method | Estimated Useful Life |
|--------------------------|--------------------------|-----------------------|
| Buildings and structures | Straight-line method | 40 years |
| Leasehold improvements | Declining balance method | 4-5 years |
| Equipment and vehicles | Declining balance method | 4-5 years |

Expenditures that enhance the value or extend the useful life of the related assets are capitalized as additions to tangible assets. Routine maintenance and repairs are recognized as expenses when incurred.

Foreclosed assets acquired through, or in lieu of, loan redemption are stated at cost and are not depreciated. A valuation allowance is recorded where the latest bidding price at a public auction is below the book value, and is presented as a contra account of foreclosed assets in the financial statements

Intangible assets are amortized based on the following estimated average useful lives and are presented in the financial statements, net of accumulated amortization:

| Intangible assets | Amortization Method | Estimated Useful Life |
|-------------------|----------------------|------------------------------|
| Goodwill | Straight-line method | 9 years |

Development costsStraight-line method5 yearsTrademarksStraight-line method1-10 yearsOthersStraight-line method5-30 years

The Bank estimated the useful life of endowment assets that are beneficial upon usage, classified under other intangible assets, to be 30 years based on the term of the contract. The Bank recorded goodwill as a result of the merger with H&CB for the cost of the merger exceeding the fair value of the net assets acquired.

Development costs directly related to new technology or new products (including costs related to software development) are capitalized as intangible assets to the extent that the estimated future benefits are probable.

The Bank adjusts the book value of a fixed asset to its recoverable amount and recognizes the difference as an impairment loss when the recoverable amount is significantly below the book value due to obsolescence or decline in market value. The subsequent increase in recoverable amount in excess of the impaired book value is recognized, to the extent of the original book value before impairment, as a reversal of fixed asset impairment losses. For the year ended December 31, 2003, the Bank recognized an impairment loss of (Won)22,228 million for the difference between the book value of (Won)48,388 million and net realizable value of (Won)26,160 million of assets related to the expected closures of certain branch offices.

Stock Issuance Costs and Debenture Issuance Costs

Stock issuance costs are deducted from paid-in capital in excess of par value. Debenture issuance costs are recorded as discounts on debentures and amortized over the maturity period of the debentures using the effective interest method.

12

Kookmin Bank

Notes to Non-Consolidated Financial Statements

December 31, 2003 and 2002

Accrued Retirement Benefits

Employees and directors with more than one year of service and temporary employees with a one-year contract, as of December 31, 2003, are entitled to receive a lump-sum payment upon termination of their employment with the Bank, based on their length of service and rate of pay at the time of termination.

Additionally, the Bank records the contributions to pension funds, which grant the payment rights to its employees, as contra accounts of accrued retirement benefits.

Deferred Income Taxes

The Bank records the future tax effects of temporary differences between the financial and tax bases of assets and liabilities as deferred income tax assets or liabilities. The tax effects of temporary differences arising from the cumulative effects of accounting changes are adjusted in retained earnings.

Bonds under Repurchase/Resale Agreements

Securities bought under resale agreements are recorded in loans as bonds purchased under resale agreements. Securities sold under repurchase agreements are recorded in borrowings as bonds sold under repurchase agreements. Interest from bonds purchased under resale agreements and bonds sold under repurchase agreements are recognized as interest income on loans and interest expense on borrowings, respectively.

Derivative Instruments

Derivative instruments for trading or hedging purpose are recorded at fair value and resulting unrealized gains and losses are recognized in current operations, except for the effective portion of derivative transactions entered into for the purpose of cash-flow hedges, which is recorded as an adjustment to shareholders equity.

Fair value hedge accounting is applied to a derivative instrument with the purpose of hedging the exposure to changes in the fair value of an asset or a liability or a firm commitment that is attributable to a particular risk. The gain or loss, both on the hedging derivative instrument and

on the hedged item attributable to the hedged risk, is reflected in current operations

Cash flow hedge accounting is applied to a derivative instrument with the purpose of hedging the exposure to variability in expected future cash flows of an asset or a liability or a forecasted transaction that is attributable to a particular risk. The effective portion of the gain or loss on a derivative instrument designated as a cash flow hedge is recorded as a capital adjustment and the ineffective portion is recognized in current operations. The effective portion of the gain or loss recorded as a capital adjustment is reclassified to current operations in the same period during which the hedged forecasted transaction affects earnings. If the hedged transaction results in the acquisition of an asset or the incurrence of a liability, the gain or loss recognized as a capital adjustment is added to or deducted from the asset or the liability.

Stock Options

Compensation costs for stock options granted to employees and executives are recognized using the fair value method. Under the fair value method, compensation costs for stock option plans are determined using an option-pricing model and are recognized over the vesting period (Note 21).

National Housing Fund

The Bank, as designated by the Korean Government under the Housing Construction Promotion Law, manages the sources and uses of funds of the National Housing Fund (the NHF) and records the related NHF account in other liabilities. In addition, the Bank pays interest, which is computed by multiplying the average balance of the NHF account by the passbook deposit interest rate, to the NHF.

13

Kookmin Bank

Notes to Non-Consolidated Financial Statements

December 31, 2003 and 2002

Gains and Losses on Trust Management

The Bank's trust accounts (the Trust Accounts) recognize as an expense the trust commissions paid to the banking accounts, which is equivalent to the total trust revenue less total trust expenses and trustee benefits (including the guaranteed principal and minimum rate of return). The Bank recognizes these trust commissions as a gain on trust management in other operating income. The trust fees on money trusts consist of base fees of $0.5 \sim 2.0$ percent (depending on trust fund types) and special fees applied to the invested capital.

Under the Trust Business Act, reserves for future losses are set up in the trust accounts for losses related to those trust funds with a guarantee of the principal or of a certain minimum rate of return. The reserves are used to provide for the losses on such trust funds and, if the losses incurred are in excess of the reserves for future losses, the excess losses are compensated by the Bank. Accordingly, the banking accounts recognize the compensation paid as a loss on trust management in other operating expenses and the trust accounts recognize the corresponding compensation as compensation from banking accounts. There were no compensations paid for the years ended December 31, 2003 and 2002.

Foreign Currency Translation

All assets and liabilities denominated in foreign currencies are translated into Korean Won at the rates in effect at the balance sheet date (2003: (Won)1,197.8:US\$1, 2002: (Won)1,200.4:US\$1), and resulting translation gains and losses are recognized in the current period.

Accounting records of the overseas branches are maintained in the foreign currency prevailing in their respective countries. For the purpose of presentation in the accompanying financial statements, the financial statements of the branches have been translated into Korean Won, using exchange rates published by Seoul Money Brokerage Services, Ltd. as of the balance sheet dates.

Statement of Cash Flows

In the preparation of the statement of cash flows, the Bank has presented net amounts of cash inflows and cash outflows for items where the turnover is quick and the amounts are large.

Application of Korean Financial Accounting Standard No. 6

The Bank has adopted Statements of Korean Financial Accounting Standards (*SKFAS*) No. 6 Subsequent Events , for the fiscal year 2003 and presented retained earnings (accumulated deficit) as before appropriations (disposition) on the balance sheet. Accordingly, retained earnings as of December 31, 2002 were restated to amounts before appropriations, and the restatement resulted in a decrease in liabilities and an increase in net assets of (Won)325,233 million.

Kookmin Bank

Notes to Non-Consolidated Financial Statements

December 31, 2003 and 2002

KB Investment Co., Ltd. merged with Frontier Investment Corp. and Kookmin Investment Co., Ltd., on December 31, 2001 and June 27, 2002, respectively. KB Credit Information Co., Ltd. merged with KM Credit Information Co., Ltd., effective as of May 2, 2002.

KLB Securities Co., Ltd., Jooeun Industrial Co., Ltd., Kookmin Singapore (Merchant Bank), Ltd. and Kookmin Finance Asia, Ltd. (HK) are in the process of liquidation. Consequently, accounting under the equity method is no longer applied to investments in KLB Securities Co., Ltd. and Jooeun Industrial Co., Ltd. due to accumulated deficits resulting to a decrease of the investment value below zero. Accordingly, the total accumulative estimated loss that has not been recognized by the Bank amounts to (Won)43,695 million.

The Bank applies the equity method accounting to a subsidiary based on its adjusted financial statements that are, in turn, based on most recent available audited or reviewed financial statements adjusted for changes in net assets using the unaudited financial statements as of December 31, 2003. In the case of ING Life Korea Co., Ltd., adjustment for income tax expenses of (Won)37,609 million has been additionally made to the adjusted financial statements.

As a means to create a Pan-Asian strategic management, in accordance with the resolution of the Board of Directors on October 24, 2003, the Bank invested (Won)71,295 million for a 25 percent ownership of Sorak Financial Holdings in connection with the acquisition of Bank Internasional Indonesia (BII). Sorak Financial Holdings entered into a contract to purchase 51 percent equity interest in BII from Indonesian Bank Restructuring Agency (IBRA). BII s total assets and total liabilities reported under Indonesian GAAP as of September 30, 2003 translated into Korean Won at year-end rates, amounts to (Won)4,910,369 million and (Won)4,439,624 million, respectively.

Due to its determination to maximize efficient asset management, certain assets, comprising mostly of securities and loans, held by overseas subsidiaries with a total book value of (Won)118,720 million were purchased by the Bank for a total acquisition cost of (Won)115,046 million.

The maturities of the available-for-sale and held-to-maturity debt securities except for equity securities and investment in funds as of December 31, 2003 are summarized as follows:
