PROXY STATEMENT

Purpose of the Proxy. This proxy statement and the enclosed proxy card are being mailed to you on or about March 31, 2004 because MBIA's Board of Directors is soliciting your vote at the 2004 annual meeting of shareholders. MBIA's Annual Report for the year 2003 is included in this package as well, and together this material should give you enough information to allow you to make an informed vote.

How it Works. If you owned MBIA stock at the close of business on March 18, 2004, you are entitled to vote. On that date, there were 144,720,918 shares of MBIA common stock outstanding, which is our only class of voting stock. You have one vote for each share of MBIA common stock you own.

Please fill in your proxy card and send it to us before the date of our annual meeting or vote by telephone or over the Internet. If you do not specify how your proxy is to be voted, it will be voted as recommended by the Board of Directors. You can revoke your proxy at any time before the annual meeting if, for example, you would like to vote in person at the meeting.

If you abstain from voting, or if your shares are held in the name of your broker and your broker does not vote on any of the proposals, your proxy will be counted simply to calculate the number of shares represented at the meeting. It will not be counted as a vote on any proposal.

Directors are elected by a plurality of the votes cast. To ratify the independent auditors, a majority of shares voting is required.

Proposal 2:

SELECTION OF INDEPENDENT AUDITORS

Edgar Filing: MBIA INC - Form DEF 14A

Since its founding in 1986, MBIA has used PricewaterhouseCoopers LLP (PwC) as its independent auditor. From 1974 to 1986, PwC served the same role for MBIA's predecessor organization, the Municipal Bond Insurance Association. During 2003, PwC examined the accounts of the Company and its subsidiaries and also provided tax advice and other services to the Company in connection with its Securities and Exchange Commission filings. In accordance with its practice of periodically rotating audit engagement partners, in 2003 PwC assigned a new audit engagement partner and audit manager to oversee PwC's audit of MBIA's financial statements.

Upon recommendation of the Audit Committee, the Board has appointed PwC as the independent auditors of the Company for 2004, subject to shareholder approval.

We expect that one or more representatives of PwC will be available at the Annual Meeting to make a statement, if desired, and to answer questions from those shareholders present.

The Board of Directors recommends unanimously that you vote FOR this proposal to hire PricewaterhouseCoopers LLP as independent auditors for the Company.

THE BOARD OF DIRECTORS AND ITS COMMITTEES

The Board of Directors supervises the overall affairs of the Company. To assist it in carrying out these responsibilities, the Board has delegated authority to six Committees, described below. The Board of Directors met six times during 2003. The Company's policy on Board attendance, which is contained in the MBIA Inc. Corporate Governance Practices and can be found on the Company's website, www.mbia.com, requires that each Director attend at least 75% of all Board meetings and Committee meetings of which that Director is a member. All of the Directors met this requirement in 2003. During 2003, one Director did not attend one meeting of the Board and another Director did not attend one Committee meeting on which that Director served. Otherwise, all Directors attended all of the Board meetings and meetings of Committees on which they served.

Board Committees

Each Board committee has a charter, which can be found on the Company's website, www.mbia.com. The committees are as follows:

The **Executive Committee**, which at year-end consisted of Messrs. Brown (Chairperson), Clapp, Kearney and Rolls, did not meet in 2003. This Committee is authorized to exercise powers of the Board during intervals between Board meetings, subject to limitations set forth in the By-Laws of the Company.

The **Finance Committee**, which at year-end consisted of Messrs. Chaplin, Clapp, Dunton, and Rolls (Chairperson), met twice during 2003. This Committee approves and monitors the Company's investment policies, activities and portfolio holdings, and reviews investment performance and asset allocation.

The **Risk Oversight Committee**, which at year-end consisted of Messrs. Clapp, Dunton and Kearney (Chairperson) met three times during 2003. This Committee monitors the underwriting process to ensure compliance with guidelines, and reviews proposed changes to underwriting policy and guidelines. It also reviews the Company's exposure guidelines for the insurance portfolio and the Company's overall portfolio analyses.

The **Compensation and Organization Committee**, which at year-end consisted of Mr. Clapp (Chairperson), Dr. Gaudiani, Messrs. Kearney and Rolls, met three times during 2003. This Committee reviews and approves overall policy with respect to compensation matters. Every year, the Committee reviews the performance of the Chairman and makes recommendations to the Board on the Chairman's compensation. The Committee approves senior officer compensation and reviews significant organizational changes and executive succession planning.

The **Audit Committee**, which at year-end consisted of Ms. Johnson (Chairperson), Messrs. Chaplin, Lebenthal and Rolls, met five times during 2003. This Committee reviews the Company's annual and quarterly financial statements, reviews the reports of the Company's independent auditor and the performance of those auditors. The Committee also reviews the qualification of the Company's Internal Audit Department. In accordance with the Audit Committee Charter and the listing standards of the New York Stock Exchange, each of the Audit Committee members is independent. In addition, the Board has designated Ms. Johnson, Messrs. Rolls and Chaplin as the audit committee financial experts (as defined in recently adopted Securities and Exchange Commission rules) on the Audit Committee.

The **Nominating/Corporate Governance Committee (previously called the Committee on Directors)**, which at year-end consisted of Dr. Gaudiani (Chairperson), Ms. Johnson and Mr. Kearney, met three times during 2003. The Committee is responsible for MBIA's Corporate Governance Practices, which establish corporate governance guidelines and principles with respect to the role of the Board of Directors, meetings of the Board of Directors, Board structure, policy on Board attendance and committees of the Board. This Committee also makes recommendations to the Board on Director nominees and on the size and

composition of the Board. It also recommends guidelines and criteria for the selection of nominees. Potential Board nominees are selected in light of the Board's needs at the time of recommendation. The Committee has engaged a third-party search firm to assist in identifying and evaluating potential nominees. The Committee assesses potential nominees on various criteria, such as relevant business skills and experience, personal character and judgment and diversity of experience. The Committee also considers the ability of potential nominees to devote significant time to Board activities. The independence and financial literacy of potential nominees, as well as their knowledge of and familiarity with the Company's businesses, are additional considerations in the Committee's selection process. Potential nominees are reviewed and evaluated first by the third-party search firm, which then forwards all nominees for review and evaluation by the Chairperson of the Committee and then, at the Chair's discretion, by the entire Committee, which decides whether to recommend a candidate for consideration by the full Board.

The Committee would evaluate potential nominees suggested by shareholders on the same basis as all other potential nominees. Shareholders may recommend a potential nominee by sending a letter to the Company's Corporate Secretary at MBIA Inc., 113 King Street, Armonk, New York 10504.

Director's Compensation

Independent Directors

Retainer Fees. The Company paid Directors who are not Executive Officers a fee of \$30,000 for their services in 2003, plus an additional \$2,000 for attendance at each Board and Committee meeting. The Company also paid Committee chairs an additional \$1,000 per meeting for each meeting they chair.

Under the Company's Amended and Restated Deferred Compensation and Stock Ownership Plan for Non-Employee Directors, which was approved by the Board and the shareholders in 2002, an eligible Director may elect to be paid the retainer and meeting fees paid annually either in cash on a quarterly basis with no deferral of income, or to defer receipt of all or a portion of such compensation until a time following termination of such Director's service on the Board. A Director electing to defer compensation may choose to allocate deferred amounts to either a hypothetical investment account (the Investment Account), or a hypothetical share account (the Share Account), which have been set up to credit such deferred payments.

Amounts allocated to the Investment Account are credited to a hypothetical money market account earning hypothetical interest based on the Lehman Brothers Government/Corporate Bond Index. Amounts allocated to the Director's Share Account are converted into units with each such unit representing the right to receive a share of common stock at the time or times distributions are made under the Plan. Dividends are paid as stock units each quarter. Distributions of amounts allocated to the Share Account are made in shares of common stock. No transfers are permitted between the accounts. As of year-end, all of the non-employee Directors elected to participate in this plan.

Restricted Stock Grants. In addition to the annual cash fees payable to Directors, the Company also granted non-employee Directors an award of restricted stock with a value of \$50,000 under the Restricted Stock Plan for Non-Employee Directors (the Restricted Stock Plan), which was approved by the Board and the shareholders in 2002. If elected to the Board as a Director, Ms. Perry and any other new directors elected to the Board will receive a one-time grant of restricted stock under the Restricted Stock Plan with a value of \$75,000.

Shares granted to Directors under the Restricted Stock Plan are subject to restrictions on transferability. The restriction period applicable to a restricted stock award will lapse and the shares of restricted stock will become freely transferable on the earlier of: (i) the death or disability of a

Edgar Filing: MBIA INC - Form DEF 14A

participating Director, (ii) a change of control in the Company as defined in the Restricted Stock Plan, (iii) the Company's failure to nominate a participating Director for re-election, (iv) the failure of the shareholders to elect a participant Director at any

shareholders meeting, or (v) the tenth anniversary of the date of the restricted stock grant. Unless otherwise approved by the Compensation and Organization Committee of the Board, if a participating Director leaves the Board for any reason other than the foregoing at any time prior to the date when the restriction period lapses, all unvested shares will revert back to the Company. During the restricted period, a participating Director receives dividends with respect to, and may vote, the restricted shares.

The Compensation and Organization Committee of the Board of Directors has the discretionary authority to determine the Directors to whom restricted stock will be granted and the terms and conditions of such restricted stock, including the number of shares of restricted stock to be granted, the time or times at which the restricted stock will vest, whether any restriction shall be modified or waived after date of grant, and the rights of a participant with respect to the restricted stock following the participant's termination of service as Director.

Executive Officer Directors. Messrs. Brown and Dunton, who are also Executive Officers of the Company, do not receive compensation for their services as Directors.

**REPORT OF THE COMPENSATION AND ORGANIZATION COMMITTEE
ON EXECUTIVE COMPENSATION**

To: The MBIA Inc. Board of Directors

From: The Compensation and Organization Committee:

Mr. David C. Clapp, Chairperson

Dr. Claire L. Gaudiani

Mr. Daniel P. Kearney

Mr. John A. Rolls

MBIA's Compensation and Organization Committee (the Committee) is made up of four independent members of the Board of Directors who are not current or former employees of the Company, and are not eligible to participate in any of the programs that it administers.

This report on Executive Compensation by the Committee contains the following topics:

1. **Role of the Compensation and Organization Committee**
2. **Guiding Principles of Compensation**
3. **2003 Performance Factors**
4. **Elements of the Compensation Program**
5. **Compensation of the Chief Executive Officer**
6. **Succession Planning**
7. **Stock Ownership Guidelines**
8. **Loans and Stock Activity**
9. **Tax Deductibility of Executive Compensation**

1. **Role of the Compensation and Organization Committee**

We set the overall compensation principles of the Company and evaluate the Company's entire compensation program at least once a year. As part of our specific responsibilities (i) we review for approval the recommendations of the Chief Executive Officer (the CEO) for the aggregate level of compensation to be paid to all employees of the Company, (ii) we review the recommendations of the CEO for the individual compensation levels for members of the senior leadership team, which includes the Company's Executive Policy Committee and certain other officers (Senior Officers) and (iii) we establish and recommend to the Board the compensation level of the CEO. The Board approves the CEO's and Senior Officers' compensation levels.

2. **Guiding Principles of Compensation**

Edgar Filing: MBIA INC - Form DEF 14A

The fundamental goal of MBIA's compensation program is to attract, motivate and retain a highly skilled team of executives and employees who will deliver superior performance that builds shareholder value. The Company's compensation program is significantly linked to shareholder interests as our emphasis is on pay for performance, with individual, operational and corporate performance rewarded on a short-term and long-term basis. Specifically, the principles that guide our compensation program include:

Pay for Performance: an employee's compensation should reflect his or her individual performance and achievement of agreed upon short-term and long-term individual goals, the performance of the employee's unit and the achievement by the unit of its goals, and the performance of the Company as a whole and the achievement by the Company of its goals.

Pay Competitively: compensation should be competitive with organizations with comparable business profiles and similar financial performance.

Increase Variable Compensation and Long-Term Incentives: an employee's variable pay and long-term incentives increase as a percentage of overall compensation as the employee's overall compensation and responsibility increases.

Align Employee and Shareholder Interests: as employees and executives assume greater seniority and responsibility, their compensation should include more long-term incentives that encourage superior performance that builds long-term value for the Company and its shareholders, thereby aligning their interests with the interest of both the Company and its shareholders. The Company uses a combination of grants of restricted stock and stock options to directly align executive compensation with the stock price and grants of MBV awards (as described under Long Term Incentives below) to align executive compensation with long-term growth in the value of the business. In line with current shifts in senior executive compensation best practices, the Company has begun to explore a shift in the mix of the components of its long-term compensation awards to utilize a greater percentage of restricted stock, although it still plans to utilize a mix of cash, stock options, MBV awards and restricted stock.

3. 2003 Performance Factors

The Committee reviewed the long-term financial and operational objectives of the Company and the specific objectives set in the Company's 2003 Business Plan at the beginning of 2003. The Committee noted that the Company met or exceeded most but not all of the goals established in the 2003 Business Plan and was modestly below one financial goal. The Committee reviewed the primary factors that affected the Company's overall financial performance in 2003, including the results of the Company's equity asset management business and the low interest rate environment that adversely affected the Company's investment income for 2003, while taking into account the implementation of the Company's strategy to shorten the duration of its investment portfolio.

The Committee also reviewed the results for each of the Company's businesses. Except for the expense management goal, the Company's insurance operations met or exceeded all of the financial and operational goals for 2003, including, but not limited to, total adjusted direct premiums written, returns on business written, credit quality of business written and expense management. These goals were met while maintaining overall pricing discipline. The Company's asset management business did meet the objectives established in the 2003 plan and had net increases in assets under management and operating income as compared to 2002, primarily caused by increases in fixed-income assets under management and a reduction in operating expenses which were partially offset by the continued decline of equity assets under management. The municipal services business substantially met all of its objectives in the 2003 plan and had a small operating profit for 2003.

4. Elements of the Compensation Program

The three components of MBIA's compensation program are:

Annual Fixed Compensation (Salary)

Annual Variable Compensation (Bonus)

Long-Term Incentives (Stock Options, Restricted Stock Awards and Modified Book Value Awards)

Fixed Compensation (Salary)

We base our recommendations on salaries and salary increases for the CEO and the Senior Officers on the job content of each position, competitive salaries for comparable positions, the executive's experience and the actual performance of each executive. The Company also grants cost of living salary increases from time to time as it deems necessary to remain competitive. For 2004, Mr. Brown, the CEO, recommended, and the Committee and Board agreed, a salary increase for only two of the eleven Senior Officers, to reflect expanded individual contributions and to maintain market competitiveness.

Variable Compensation (Bonus)

The annual bonus component of incentive compensation is designed to align our Senior Officers' compensation with the short-term (annual) performance of the Company. Actual bonus grants can range from 0% to 300% of salary, depending on a Senior Officer's position and performance. The CEO can receive up to 300% of his salary as a performance-based bonus.

A Senior Officer's annual bonus is based on the Company's performance in certain areas, including return on equity, change in earnings per share, change in adjusted book value per share, relative performance to peer group companies, expense management, success in achieving the business plan and strategic goals set for each division, employee development, and the individual Senior Officer's personal contribution to the achievement of the Company's goals and of the individual's specific goals. The weight and effect of any of these factors on the compensation of each Senior Officer varies depending on the individual Officer's job responsibility.

Based on the Company's results in 2003, as described under "2003 Performance Factors" above, Mr. Brown recommended, and the Committee and Board agreed, that the aggregate bonus pool for Senior Officers, except for himself and Mr. Dunton, the President and Chief Operating Officer, for the 2003 performance year be set at approximately 90% (compared to 80% for the 2002 performance year) of the maximum bonus payable based on the bonus range established at the beginning of the year. Mr. Brown recommended, and the Committee and Board agreed, that the bonus for Mr. Dunton be set at 90% (compared to 75% for the 2002 performance year) of the maximum bonus payable based on the bonus range established at the beginning of the year. The individual bonuses paid to each of the Senior Officers were recommended by Messrs. Brown and Dunton and approved by the Committee and the Board.

Form of Bonus Payment. Bonuses for Senior Officers are paid in a combination of cash and restricted stock. The percentage of the bonus payable in the form of restricted stock ranges from 0% to 100%. The actual percentage mix is based on the Senior Officer's title, job position, relative stock ownership and expected years to retirement.

The actual number of shares of restricted stock granted to a Senior Officer is determined by dividing the portion of the annual bonus to be paid in the form of restricted stock by 75% of the closing price of the Company's stock on the date of grant. The restricted stock vests in full four years after the grant, and is subject to accelerated vesting under certain conditions, including termination of employment without cause, death or disability or a change of control of the Company.

Sizing the Bonus Pools. Mr. Brown recommended to the Committee the aggregate size of the Company's bonus pools for each of the insurance units, the investment management units and the MuniServices unit, excluding from these pools the bonuses paid to the CEO and the Senior Officers.

The size of the pool for each of these units is based both on the Company's overall performance and on each unit's performance. Mr. Brown and the Committee considered the following factors in establishing the bonus pool for each unit: return on equity, absolute return as measured by IRR on new business, growth in reported earnings, growth in adjusted book value per share, the relative performance of peer group companies and the unit's achievement of its annual goals.

For the 2003 performance year, the Committee approved an aggregate bonus pool for the Company's insurance business funded at 90% (compared to 85% for the 2002 performance year) of the maximum bonus payable to each employee based on the ranges established at the beginning of the year. The bonus pools for other business units were increased or decreased based on the performance of these units during the year. The aggregate amount of bonuses paid to all employees for 2003 was approximately \$46 million compared to approximately \$39 million for 2002.

Long-Term Incentives

The Company's Long-Term Incentive Plan (the "Plan") provides participants with an incentive linked to both multiple-year financial performance and shareholder value. The Plan authorizes both the annual granting of stock options as well as the payment of compensation in the form of cash or stock that is paid at the end of a multi-year cycle based on the Company attaining certain performance goals. Individual long-term incentive

Edgar Filing: MBIA INC - Form DEF 14A

awards are based on a percentage target of total annual cash (salary plus bonus) compensation as well as an individual's level of responsibility. Awards under the Plan are typically granted to employees who have a title of Vice President or higher, up to and including the CEO.

Long-term incentive awards are divided between a grant of stock options and a deferred target payment of cash or Company stock that is tied to the achievement of a specified level of growth in modified book value per share (MBV) of the Company s stock. MBV is computed by taking the Company s GAAP book value and adjusting it to eliminate unrealized gains and losses on investments and derivatives, unearned compensation pertaining to restricted stock awards, dividends declared during the award period; and interest on dividends declared during the award period. In general, long-term incentive awards are split 50/50 between stock options and MBV awards, with Senior Officers receiving higher percentages in the form of stock options.

Stock Options. Stock options give employees the right to purchase shares of the Company s common stock at the closing price on the date of the grant. Except for the options granted to the President, each option vests over four or five years, and is subject to accelerated vesting upon a change of control of the Company. All options expire ten years from the date of the grant. On February 10, 2004, a total of 746,050 options were awarded to employees for the 2003 performance year. The Committee continued its long-term approach of valuing stock options using the Black-Scholes option valuation model. In addition, the Company adopted SFAS 123 and 148 in 2002 and began expensing the cost of all outstanding and unvested stock options using the same valuation formulas.

MBV Awards. An MBV award has a target payout amount and is payable in cash or shares of Company stock three years after the grant date. In order to receive a payout of the 2003 MBV award at the target level, MBV must grow at a compound annual rate of 13.5% for the three-year period. The actual amount of MBV payout ranges between 25% and 200% of the target award, depending on the compound annual growth in MBV. Under the 2003 award, MBV must grow at least 8% in order to receive 25% of the target MBV award and 18% in order to receive the maximum award of 200% of target MBV award.

The Committee also reviewed the performance criteria for the payment of the modified book value award made in February 2001, which is being paid in the first quarter of 2004, and covers the period from 2001 through 2003. Based on such criteria, the Committee approved an award of 120% of the target payout.

Conversion of Split-Dollar Life Insurance Policies. In light of restrictions on the continuance of split-dollar life insurance policies for executive officers under the Sarbanes-Oxley Act of 2002, the Company decided in 2003 to cancel all split-dollar life insurance policies (Split-Dollar Policies) for its Senior Officers and for certain other officers for whom it had maintained Split-Dollar Policies.

The Committee approved the Company s purchase of a single premium life insurance policy to replace the Split-Dollar Policy for each such covered Officer in an amount equal to three times the Officer s base pay for 2003. The aggregate cost of the replacement policies was approximately \$5,400,000, of which approximately \$2,900,000 represented the cost of the replacement policies purchased for Senior Officers, excluding Mr. Brown, and approximately \$950,000 represented the cost of the replacement policy purchased for Mr. Brown. The amount of premium paid to purchase the life insurance policy will be reflected as ordinary income on each covered officer s W-2 for 2003, and each officer is responsible to pay the related taxes due.

5. Compensation of the Chief Executive Officer

Performance Requirements

The CEO s salary and bonus are based on a number of factors related to the Company s and the CEO s performance including return on equity; change in earnings per share; change in adjusted book value per share; internal returns on insurance business written during the year; relative performance to peer group companies; the achievement of the Company s business plan goals and the CEO s achievement of his specific goals. In determining Mr. Brown s compensation, the Committee gave approximately 70% weight to the achievement of the Company s financial goals and

Edgar Filing: MBIA INC - Form DEF 14A

30% weight to the achievement of other elements of the Company's business plan and of his own personal goals. For the 2003 performance year, the present value of Mr. Brown's aggregate compensation (excluding retirement benefits), which is comprised of base salary, cash bonus and restricted stock, was \$10,984,680, up 42% from \$7,715,707, the present value of Mr. Brown's aggregate compensation for the 2002 performance year.

Salary, Bonus and Long-Term Incentive Award

Salary. Mr. Brown's salary was fixed at \$750,000 for five years until January 1, 2004. The board increased his salary to \$900,000 effective January 1, 2004.

Bonus. The Committee noted the Company's financial results for 2003 and the overall performance of the Company during the year, all as described under "2003 Performance Factors" above, and Mr. Brown's role in the achievement of the results. The Committee recommended and the Board approved a cash bonus for Mr. Brown of \$2,000,000.

Long-Term Incentive Award. The Committee also recommended a long-term incentive award for Mr. Brown comprised of a restricted common stock grant of 127,000 shares (the "MBV Restricted Stock") which was valued at \$ 8,234,680 on the day of the grant. In line with its determination that Mr. Brown held a sufficient number of stock options, the Committee did not award any stock options to Mr. Brown for the 2003 performance year. In addition, Mr. Brown did not receive an MBV award.

Under the restrictions applicable to the the MBV Restricted Stock, Mr. Brown cannot sell or pledge the stock until the earlier of the Company's May 2007 Annual Shareholders Meeting and May 31, 2007 on which MBV has appreciated ("MBV appreciation") by at least 50% from MBV as of January 1, 2004. If MBV appreciation does not reach 50%, before January 1, 2009, then on January 1, 2009 a percentage of the restricted stock will vest, based on a formula, in proportion to MBV appreciation from January 1, 2004 through January 1, 2009. Under the formula, if MBV appreciation from January 1, 2004 through January 1, 2009 is zero, then no MBV restricted stock will vest and if MBV appreciation is 50%, then 100% of the MBV Restricted Stock will vest, with intermediate levels of vesting to be determined by linear interpolation (e.g., MBV appreciation as of January 1, 2009 of 25% will yield 50% vesting, etc.).

The Committee also reviewed Mr. Brown's 2000 modified book value award (the "2000 MBV Award") of \$1,863,445, which will only be payable if the Company's stock trades at \$70 or above for ten consecutive trading days at some point before December 31, 2005. The Committee approved the conversion of the 2000 MBV Award into 28,739 shares of restricted stock, which have a value equal to \$1,863,445 based on the closing price of the stock as of the date of conversion. Under the restrictions applicable to this restricted stock, Mr. Brown cannot sell or pledge the stock until the first day after a consecutive ten-day period that ends on or before December 31, 2005 and during which the stock has traded at \$70 or above on each day of the ten-day period. If this price target has not been met on or before December 31, 2005, all of the the restricted stock is forfeited.

All restricted stock granted to Mr. Brown is subject to immediate vesting upon the occurrence of certain events including the termination of Mr. Brown's employment without cause, Mr. Brown's death or disability or a change of control of the Company. In addition, unless any restricted stock granted to Mr. Brown has already vested, it is subject to forfeiture upon Mr. Brown's voluntary termination of employment or termination for cause.

- (1) All Other consists of (i) contributions to the Company's money purchase pension plan and 401(k) plan and our non-qualified retirement plan (MBIA credits amounts to this plan that it is precluded from contributing to the pension and 401(k) plans because of IRC limitations), and (ii) premiums paid on behalf of Mr. Brown under an executive life policy.
- (2) MBV Award final payout values upon completion of the performance period. The 2001 payout was in cash and the 2002 and 2003 payouts were converted to restricted stock.

The sign-on option award to Mr. Brown in 1999 was made in exchange for his purchase with cash of an additional 240,000 shares of the Company's stock to bring his total ownership to 300,000 shares of Company stock. Mr. Brown subsequently purchased an additional 165,000 shares of MBIA stock.

6. Succession Planning

As part of their annual succession planning review process, in February 2003 the Committee and subsequently the Board reviewed succession plans for all of the Senior Officer positions with the CEO and President of the Company. In addition, the Committee discussed succession plans for the CEO and President positions first with Mr. Brown and subsequently in executive session with no members of management present.

The Committee then reviewed these succession plans with the entire Board in executive session with no members of management present in March 2003 and again in August and November 2003. There were no major changes in individuals or responsibilities in 2003 but several changes were approved for action in 2004. Two senior executives indicated their plans to retire in 2004 and internal and external candidates were discussed with the Committee. Based on the recommendation of the CEO and President, one executive was replaced with an internal candidate and the second was filled by an external candidate.

Pursuant to the long range responsibility of the Committee to identify and plan for CEO succession, the Committee and the Board continued to agree with Mr. Brown's recommendation that Mr. Dunton was the most qualified executive to succeed him as CEO. Since 2004 marks the end of Mr. Brown's initial commitment to the Board to serve as Chairman and CEO for five years, he recommended that Mr. Dunton was now fully qualified and ready to assume the CEO position. The Committee and the Board agreed with Mr. Brown's assessment and planned to continue discussing the implications and implementation of the move in 2004. At the request of the Board, the Committee asked Mr. Brown to commit to serve as executive Chairman of the Board for three additional years ending at the annual shareholder meeting in 2007. Mr. Brown agreed to that request. In connection with Mr. Brown's reduced responsibilities as a result of the move, the Company expects that his total annual compensation for the proposed three-year period will be reduced by approximately 40% from his 2003 compensation.

After its March 11, 2004 meeting, the Board announced that Mr. Dunton will succeed Mr. Brown as the Company's Chief Executive Officer at its annual meeting in May 2004. Mr. Dunton will continue as President of the Company in addition to serving as its Chief Executive Officer.

The Board also agreed that Neil G. Budnick, the Company's Chief Financial Officer, will become President of MBIA Insurance Corp., responsible for new business development in the global public and structured finance markets. A successor to Mr. Budnick as Chief Financial Officer will be named by the Board.

7. Stock Ownership and Stock Option Exercise Guidelines

The Company has stock ownership guidelines to help increase senior management stock ownership and more closely align senior management's interests with those of shareholders.

Under these guidelines, the CEO is encouraged to own Company stock with a value equal to approximately five times his annual salary, and the other Senior Officers are encouraged to own Company stock with a value of approximately three or four times their annual salary, depending on their job and title. This includes stock owned in retirement plans and also the value of restricted stock. The CEO and the other Senior Officers either currently own, or are expected within five years of becoming Senior Officers to own, sufficient stock to comply with the stock ownership guidelines. All of the Senior Officers listed in the Summary Compensation Table currently comply with these stock ownership guidelines.

The Company also has guidelines for the exercise of stock options and the sale of restricted stock by Senior Officers and others. Under these guidelines, Senior Officers are expected not to exercise stock options until the third year before the expiration of the stock options and not to sell restricted stock that becomes vested for at least three years after the vesting date (net of any sales needed to pay taxes upon vesting). All exercise and sale of stock options by Senior Officers during 2003 related to 10-year options with less than three years to expiration.

8. Loans and Stock Activity

The Company does not have any program in place to provide loans to Senior Officers of the Company. No senior officer has an outstanding loan with the Company. As described in more detail above under Conversion of Split-Dollar Life Insurance Policies, in response to the prohibition under Sarbanes-Oxley on loans to executives, the Company cancelled all split-dollar life insurance policies for the benefit of Senior Officers and others.

To the knowledge of the Company, all stock or stock option activity by Senior Officers and Directors required to be disclosed has been reported to the SEC when required to be disclosed.

9. Tax Deductibility of Executive Compensation

Based on currently prevailing authority, including proposed Treasury regulations issued in December 1995, and in consultation with outside tax and legal experts, the Committee has determined that it is unlikely that the Company would pay any amounts of executive compensation in 2002 or 2003 that would result in the loss of a federal income tax deduction under Section 162(m) of the Internal Revenue Code of 1986, as amended.

Date: March 11, 2004

This report of the Compensation and Organization Committee shall not be deemed incorporated by reference by any general statement incorporating by reference this proxy statement into any filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent that the Company specifically incorporates this information by reference, and shall not otherwise be deemed filed under such Acts.

CHANGE OF CONTROL ARRANGEMENTS

In 1999, the Company entered into key employee protection agreements with certain of its Executive Officers including Messrs. Brown, Dunton, Budnick, Caouette and Weill. Under these agreements, the Executive Officers are entitled to receive certain severance benefits upon the occurrence of a change of control, if the Company terminates their employment without cause, or if they terminate their employment for good reason. These benefits include the payment of severance equal to three times their annual base salary, the payment of a pro rata annual bonus, an immediate vesting of their unvested stock options, the lifting of any restrictions on restricted stock, the accelerated payment of any MBV awards and continued health, life and pension benefits. Each agreement also provides for a tax gross-up to be made to a covered executive in the event that payments to a covered executive are subject to the excise tax on parachute payments imposed under Section 4999 of the Internal Revenue Code of 1996, as amended.

- (a) For each performance year, bonuses were paid in the first quarter of the following year. See footnote (c) regarding the payment of bonuses in the form of restricted stock.
- (b) No Executive Officer received other annual compensation during 2003 in excess of \$50,000 required to be shown in this column. Mr. Brown reimbursed the Company \$115,036 for his personal use of a corporate aircraft in which the Company owns a fractional interest.
- (c) Amounts shown for Messrs. Dunton, Weill and Budnick represent restricted stock granted as part of the annual bonus awarded on February 10, 2004 for the 2003 performance year and paid in 30,845, 15,423 and 8,482 shares of restricted stock, respectively. With respect to Mr. Brown for 2003, this amount represents the value of the restricted stock Mr. Brown received in consideration of the conversion of his 1999 ABV Award into 82,335 shares of restricted stock that was granted on February 12, 2003. For all awards, the shares were valued at the closing price on the date of the awards. Dividends are paid on all restricted stock at the same rate payable to all common shareholders and thus are not reflected in the amounts reported. In addition, on February 10, 2004, Mr. Brown received a long-term incentive award of 127,000 shares of restricted stock for the 2003 performance year with a value of \$8,234,680 as of the date of the grant. As described more fully in the Report of the Compensation and Organization Committee, Mr. Brown's 2000 Modified Book Value Award (the 2000 MBV Award) of \$1,863,445, was converted into 28,739 shares of restricted stock based on the closing price of the stock as of the date of conversion. Under the restrictions

applicable to these shares, Mr. Brown cannot sell or pledge the stock until the first day after a consecutive ten-day period that ends on or before December 31, 2005 and during which the stock has traded at \$70 or above on each day of the ten-day period. - (a) These options were granted on February 12, 2003 for the 2002 performance year. They have a ten-year term and vest as follows: year 1 0%; year 2 40%; year 3 60%; year 4 80%; year 5 100% (subject to certain acceleration provisions if there occurs a change in control of the Company or upon the death or disability of the employee). With respect to Messrs. Brown's and Dunton's awards, no vesting in years 1 to 3; if at any time during years 1 to 9 the stock has traded at \$70 per share for ten consecutive trading days (the Trading Target), the options would immediately vest in full but no sooner than the third anniversary date. If the Trading Target is not met in years 1 to 9, then the options would vest in full on the ninth anniversary date.
- (b) Percentages are based on the total number of options granted to all employees in 2003 (1,436,010).
- (c) The fair value is based upon the Black-Scholes option valuation model. Black-Scholes is a mathematical model used to estimate the theoretical price an individual would pay for a traded option. The actual value an executive may realize will depend on the excess of the stock price over the exercise price. There is no assurance the value realized will be at or near the value estimated by Black-Scholes. The fair value of each option is \$11.2954 based on the following assumptions: (i) an exercise price of \$36.69, (ii) an option term of 6.41 years, (iii) a future dividend yield of 2.18%, (iv) a risk-free interest rate of 3.483% and (v) an estimated stock price volatility of 0.3330. The value of the options granted to Messrs. Brown and Dunton has not been adjusted to reflect the additional restrictions on their options.
- (d) The following table shows stock options granted to Messrs. Brown, Dunton, Weill, Caouette and Budnick on February 10, 2004 with respect to the 2003 performance year. Messrs. Brown, Weill and Caouette did not receive stock options in 2004.

REPORT OF THE AUDIT COMMITTEE

To: The MBIA Inc. Board of Directors

From: The Audit Committee:

Ms. Freda S. Johnson, Chairwoman

Mr. C. Edward Chaplin

Mr. James A. Lebenthal

Mr. John A. Rolls

The Audit Committee is composed of four outside Directors who are not employees or officers of the Company. In the business judgment of the Board, these Directors are free of any relationship that would interfere with their independent judgment as members of this Committee. A copy of the Audit Committee Charter is available on the Company's web site.

This report of the Audit Committee covers the following topics:

- 1. Respective Roles of the Audit Committee, Company Management and the Independent Auditors**
- 2. 2003 Activities**
- 3. Limitations of the Audit Committee**

1. Respective Roles of the Audit Committee, Company Management and the Independent Auditors

Our Committee is responsible for oversight of the Company's financial statements and results, the audit process and internal controls. We also recommend to the Board of Directors the selection of the Company's outside auditors, and we review the auditors' procedures that ensure their independence with respect to the services performed for the Company.

Company management is responsible for the preparation, presentation and integrity of the Company's financial statements, for the Company's accounting and financial reporting principles and for the Company's internal controls and procedures. These internal controls and procedures are designed to assure compliance with accounting standards and applicable laws and regulations.

The independent auditors, PricewaterhouseCoopers LLP (PwC), are responsible for performing an independent audit of the consolidated financial statements in accordance with auditing standards generally accepted in the United States of America and expressing an opinion with respect to the fair presentation of the consolidated financial statements in accordance with accounting standards generally accepted in the United States of America.

2. 2003 Activities

In performing our oversight role this year, we have:

considered and discussed the audited financial statements with management and the independent auditors;

discussed and reviewed all communication with the auditors, as required by Statement on Auditing Standards No. 61, Communications with Audit Committees. We have received a letter from the auditors as required by Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees. In connection with this requirement, PwC has not provided to the Company any information technology consulting services relating to financial information systems design and implementation;

adopted a procedure for the approval by the Audit Committee of the retention of the Company's auditors to perform permitted non-audit services; and

considered the other non-audit services by the Company's auditors and concluded that such services were not incompatible with maintaining their independence.

Based on the reviews and discussions we describe in this report, and subject to the limitations on the role and responsibilities of the Audit Committee referred to below and in the Charter, we recommended to the Board of Directors that the Company's audited financial statements be included in the Annual Report on Form 10-K for the fiscal year ended December 31, 2003.

In addition, in the first quarter of 2004 the Audit Committee approved certain changes to its existing charter. A copy of the revised Audit Committee Charter is attached to this Proxy Statement as Exhibit A and is also available on the Company's web site.

3. Limitations of the Audit Committee

As members of the Audit Committee, we are not professionally engaged in, nor experts in the practices of, auditing or accounting. Nor are we experts with respect to determining auditor independence. We rely on the information provided to us and on the representations made by management and the independent auditors. Therefore, we do not assure that the audit of the Company's financial statements has been carried out in accordance with generally accepted auditing standards, that the financial statements are presented in accordance with generally accepted accounting principles or that PwC is in fact independent. Furthermore, the Audit Committee has not conducted independent procedures to ensure that management has maintained appropriate accounting and financial reporting principles or internal controls designed to assure compliance with accounting standards and applicable laws and regulations.

Date: March 11, 2004

This report of the Audit Committee shall not be deemed incorporated by reference by any general statement incorporating by reference this proxy statement into any filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent that the Company specifically incorporates this information by reference, and shall not otherwise be deemed filed under such Acts.

Principal Accountant Fees and Services

The Company paid PwC a total of \$2,945,000 and \$2,008,000, respectively, for professional services rendered for the years ended December 31, 2003 and 2002, broken down as follows (in thousands):

	<u>2003</u>	<u>2002</u>
Audit	\$ 1,685	\$ 1,187
Audit Related	\$ 419	\$ 253
Tax	\$ 760	\$ 509
All Other	\$ 81	\$ 139
	<u> </u>	<u> </u>
Total	\$ 2,945	\$ 2,088

Audit fees were for professional services rendered in connection with the audits of the consolidated financial statements of the Company, statutory and subsidiary audits, the issuance of comfort letters and consents, procedures performed in connection with the income tax provision, and assistance with the review of documents filed with the SEC.

Audit Related fees were for assurance and related services performed in connection with audits of the employee benefit plans, issuance of required statutory communications, and consultations concerning financial accounting and reporting standards.

Tax fees were for services related to tax compliance, the preparation of certain tax returns and claims for refund, tax planning, and tax advice including assistance with and representation in tax audits and appeals.

All Other fees were for services rendered in connection with assisting the Internal Audit Department.

PwC did not provide the Company with any information technology services relating to financial systems design and implementation for 2003.

Pursuant to its Charter, the Audit Committee has responsibility for the pre-approval of all audit and permitted non-audit services to be performed for the Company by the independent auditors. The Audit Committee has adopted a policy for the approval of non-audit related services. At the beginning of the year, the Audit Committee reviews and approves any proposed audit and non-audit related services for the year and the associated costs. The Audit Committee also reviews at its meetings other audit and non-audit services proposed to be provided by the independent auditors. The Committee has delegated to the Chairperson the authority to grant pre-approvals if the Chairperson deems it necessary or appropriate to consider a pre-approval request without a meeting of the full Committee. Pre-approvals by the Chairperson are reviewed with the Committee at its next regularly scheduled meeting.

In considering the pre-approval of proposed audit or non-audit services by the independent auditors, management reviews with the Audit Committee a description of, and the budget for, the proposed service and the reasons that the independent auditors are being requested to provide the services, including any possible impact on the independence of the independent auditors. Additional Committee approval is required if the pre-approved services exceed the pre-approved budgeted amount for the services.

OTHER MATTERS/SHAREHOLDER PROPOSALS

The Board knows of no other business to be brought before the meeting other than what is set forth above. If other matters are introduced at the meeting, the individuals named as proxies on the enclosed proxy card are also authorized to vote upon such matters using their own discretion. Under the terms of the Company's By-Laws, shareholders who intend to present an item of business at the 2005 annual meeting must provide notice of such business to the Company's secretary no later than November 15, 2004.
