(b) Executive Officers of Registrant

Information regarding the Executive Officers of the Registrant is set forth in Part I of this Report.

Family Relationships. There are no family relationships among any of the directors or executive officers of the Company.

The Board of Directors

In accordance with Delaware law and our Bylaws, the Board of Directors oversees the management of the business and affairs of the Company. The members of the Board keep informed about our business through discussions with management of the Company and its subsidiaries, by reviewing analyses and reports sent to them by management and outside consultants, and by participating in Board and in Board committee meetings.

During the fiscal year ended December 31, 2005, the Board of Directors of the Company held a total of 6 meetings and all of the directors attended at least 75 percent of the total of those meetings and the meetings of the Board committees on which they served during 2005.

Our Board members are encouraged to prepare for and attend all meetings of our stockholders and all meetings of the Board and the Board committees of which they are members. All five of our directors attended the 2005 Annual Meeting of Stockholders.

Number of Directors. The Board currently consists of five members. Our Bylaws provide that the Board of Directors is authorized to change the authorized number of directors from time to time, as it deems to be appropriate.

Term of Office of Directors. The Company's Bylaws provide for a classified Board of Directors made up of three classes of approximately equal size, with one class of directors elected in successive years, each for a term of three years. The Board of Directors believes that a classified Board of Directors enhances the continuity of management of the Company, by insuring that at all times at least a majority of the directors will have prior experience on the Board. If a vacancy occurs in any Board position between Annual Meetings, the Board may fill the vacancy by electing a new director to that position. The Board of Directors also may create a new director position, assigning that position to one of the three classes of directors, and electing a new director to hold that position for a term ending at the Annual Meeting at which that class of directors will next stand for election. As a general rule, subject to the requirement that the classes of directors be comprised of an approximately equal number of directors, the Board will assign any such newly elected director to the class of directors that will stand for election at the first Annual Meeting that is scheduled to take place thereafter in order to give stockholders the opportunity, at the earliest practicable date, to vote on the election of that director.

Director Independence. The Board has determined, after careful review, that each member of the Board is independent under the definition of independence set forth in rules of the American Stock Exchange that are applicable to companies with shares listed on that Exchange (the AMEX listed company rules), with the exception of Mr. McGuire, our Chief Executive Officer. In reaching this conclusion, the Board considered all relevant facts and circumstances with respect to any direct or indirect relationships between the Company and each of the non-management directors. The Board determined that any relationships that now exist, or may have existed in the past, between the Company and any of the non-management directors have no material effect on their independence. Accordingly, based on the Board's independence evaluation, four out of five of the current members of the Board are independent directors. In addition, all of the members of the standing committees of the Board are independent directors.

Committees of the Board of Directors

The Board has two standing committees: an Audit Committee and a Compensation Committee. Information regarding the members of each of those Committees and their responsibilities and the number of meetings held by those Committees in 2005 is set forth below. The Board of Directors, as a whole, functions as the Board Nominating Committee.

Audit Committee and Financial Experts. The members of the Audit Committee are Leonard P. Danna, its Chairman, Robert S. Throop and John W. Casey. The Board of Directors has determined that all of the members of the Audit Committee are independent within the meaning of the AMEX listed company rules and the enhanced independence requirements for audit committee members contained in Rule 10A-3 under the Securities Exchange Act of 1934, as amended. Our Board of Directors also has determined that each of Messrs. Danna and Throop meets the definition of audit committee financial expert adopted by the Securities and Exchange Commission (the SEC). The Audit Committee has a written charter that specifies its responsibilities, which include oversight of the financial reporting process and system of internal accounting controls of the Company, and appointment and oversight of the

independent public accountants engaged to audit the Company's financial statements. Interested stockholders can obtain a copy of that Charter at our Internet website at www.coastdistribution.com. The Audit Committee held a total of 6 meetings during fiscal 2005. To ensure independence, the Audit Committee also meets separately with our outside auditors and members of management, respectively.

Compensation Committee. The members of the Compensation Committee are John W. Casey, who serves as the Committee's Chairman, Robert S. Throop and Leonard Danna, each of whom is independent (as defined in the AMEX listed company rules). The Compensation Committee (i) sets the salaries of the Company's executive officers, (ii) establishes incentive compensation and other benefit plans for our executive officers, and sets the performance targets and awards under management bonus programs; and (iii) administers, and makes determinations with respect to the granting and terms of stock options and rights to purchase common stock under, the Company's Stock Incentive Plans. The Compensation Committee operates under a charter that sets forth the role and responsibilities of the Committee. A copy of that charter, which complies with applicable AMEX listed company rules, is accessible at our website at www.coastdistribution.com. The Compensation Committee held 2 meetings during fiscal 2005.

Nominating Committee. The Board of Directors has decided that the full Board should perform the functions of a nominating committee for the Company. It made that decision because the Board believes that selecting new Board nominees is one of the most important responsibilities the Board members have to our stockholders and, for that reason, all of the members of the Board should have the right and responsibility to participate in the selection process. The Board's primary responsibility, when acting as Nominating Committee, is to identify and screen new candidates for Board membership. Each of the Board members, other than Mr. McGuire, is an independent director within the meaning of the AMEX listed company rules that are applicable to membership on Board Nominating Committees and the Board has decided that actions of the Board, in its role as Nominating Committee, can be taken only with the affirmative vote of a majority of the independent directors on the Board. Our Board of Directors has adopted a charter setting forth the responsibilities of the Board when acting as Nominating Committee. A copy of that charter, which complies with applicable AMEX listed company rules, is accessible at our website at www.coastdistribution.com. The Board met one time during 2005 in its role as Nominating Committee.

Corporate Governance Policies

Our Directors believe that sound governance practices and policies provide an important framework to assist them in fulfilling their duties to the Company's stockholders. In May 2004, our Board adopted the following governance policies, which include a number of policies and practices under which our Board has operated for some time, together with concepts suggested by various authorities in corporate governance and the new requirements under the AMEX listed company rules and the Sarbanes-Oxley Act of 2002. Some of the principal subjects covered by those policies include:

Director Qualifications. Candidates for election to the Board will be evaluated on the basis of each candidate's independence, experience, knowledge, skills, expertise, integrity, ability to make independent analytical inquiries; his or her understanding of our business and the business environment in which we operate; and his or her ability and willingness to devote adequate time and effort to Board responsibilities, taking into account the candidate's employment and other board commitments.

Independence and Responsibilities of Directors. A majority of the Directors will be independent directors (as defined in the AMEX listed company rules). Additionally, Directors are expected to act in the best interests of all stockholders; develop and maintain a sound understanding of our business and the industry in which we operate; prepare for and attend Board and Board committee meetings; and provide active, objective and constructive participation at those meetings.

Director Access to Management. Directors are to be permitted access to members of management and members of management will provide presentations regarding the functional areas of our business for which they are responsible to the Board.

Adequate Funding for the Board and its Committees. The Company will provide the funding necessary to enable the Board of Directors and each of its committees to retain independent advisors as the Board or such committees, acting independently of the Board, deem to be necessary or appropriate.

Director Participation in Continuing Education Programs. New directors will participate in programs designed to familiarize them with our business, strategic plans, significant financial, accounting and risk management issues, compliance programs, conflicts policies, code of business conduct and corporate governance guidelines. In addition, each incumbent director is expected to participate in continuing education programs relating to developments in the Company's business and to corporate governance.

Annual Performance Evaluations. The Board and each Board committee will conduct an annual self-assessment of its performance.

Regularly Scheduled Executive Sessions Without Management. The independent directors of the Board will schedule and hold their own separate sessions to consider and evaluate the performance of the Company and its management and such other matters as they deem appropriate. In addition, the Audit Committee meets separately with the Company's outside auditors.

Code of Business Conduct

We have adopted a Code of Business Conduct for our officers and employees. The Code also sets forth specific ethical policies and principles that apply to our Chief Executive Officer, Chief Financial Officer and other key accounting and financial personnel. A copy of our Code of Business and Ethical Conduct is posted on our Internet website at www.coastdistribution.com. We also intend to disclose, on our Internet website, any amendments to the Code and any waivers of its requirements that may be granted to our Chief Executive Officer or Chief Financial Officer.

Section 16(a) Beneficial Ownership Reporting Compliance

Based upon information made available to us, we believe that all filing requirements under Section 16(a) of the Securities Exchange Act of 1934, for the year ended December 31, 2005, that were applicable to our directors, executive officers and the holders of more than 10% of our outstanding shares, were satisfied.

- (3) Each of these options becomes exercisable in four annual installments of 25% of the total number of shares subject to the option, commencing one year after their respective dates of grant, and will expire on the 10th anniversary of the respective dates of grant, unless sooner exercised or terminated.
- (4) Potential realizable value is based on the assumption that our common stock appreciates at annual rates of 5% and 10%, compounded annually from the respective dates of grant and to the expiration of the respective ten-year terms of the options. These amounts are calculated based on Securities and Exchange Commission requirements and do not reflect our projection or estimate of future stock price growth.

⁽¹⁾ The value, as of December 31, 2005, of the in-the-money options held by the Named Officers was determined on the basis of the closing price of the Company's common stock on the AMEX on December 31, 2005, which was \$7.45 per share.

Director's Compensation

In 2005, each non-employee director was paid a retainer of \$8,000 per year and a fee of \$2,000 for each Board of Directors meeting attended and \$2,000 for attendance at each meeting of any Board committee on which he served that was held on a day other than the date of a Board meeting. Non-employee Board members also are reimbursed for the out-of-pocket expenses incurred in attending those meetings. Directors who also are Company employees receive no compensation for serving as directors.

Pursuant to the Company's Employee Stock Option Plans, each year each non-employee director is automatically granted an option to purchase 2,000 shares of Company stock at an exercise price that is equal to the fair market value of the shares on the date of grant. These options become fully exercisable six months after the date of grant. Upon joining the Board, each new non-employee director receives an option to purchase 2,000 shares, which becomes exercisable in full one year after the date of grant.

Compensation Committee Interlocks

In fiscal 2005, the members of the Compensation Committee were John W. Casey, the Committee Chair, and Robert S. Throop and Leonard P. Danna, each of whom is an independent director (within the meaning of the AMEX listed company rules). No executive officer of the Company served on the board of directors or compensation committee of any corporation or other entity which has one or more executive officers serving as members of the Company's Board of Directors or of its Compensation Committee.

Report of the Compensation Committee

The Compensation Committee is a standing committee of our Board of Directors. The Compensation Committee (i) sets the salaries of the Company's executive officers, (ii) establishes incentive compensation and other benefit plans for our executive officers, and sets the performance targets and awards under management bonus programs; and (iii) administers, and makes determinations with respect to the granting and terms of stock options and rights to purchase common stock under, the Company's Stock Incentive Plans.

The following report is submitted by the members of the Compensation Committee with respect to the executive compensation policies that the Committee has established and the compensation paid or awarded to our Chief Executive Officer and the other Named Officers for fiscal 2005.

Compensation Policies and Objectives

In determining the compensation of and adopting compensation programs for the Named Officers and other management employees, the Compensation Committee is guided by three basic principles:

Coast Distribution must offer competitive salaries and benefits to be able to attract and retain highly-qualified and experienced executives and other key management personnel.

Annual cash compensation in excess of base salaries should be tied primarily to Coast Distribution's performance or a combination of its performance and the achievement by Named Officers of specific performance goals established for them by the Board or Committee.

The financial interests of senior executives should be aligned with the financial interests of the stockholders, primarily through stock option grants, and other forms of equity-based compensation, under equity incentive programs that reward executives for improvements in the market performance of Coast Distribution's common stock. It is the Compensation Committee's policy, as well, to submit all such stock incentive programs for approval by the stockholders and to place limits on the number of shares for which options or stock purchase rights may be granted under those programs.

Salaries and Employee Benefits Programs

In order to retain executives and other key employees, and to be able to attract additional well-qualified executives when the need arises, Coast Distribution strives to offer salaries and health care and other employee benefit programs to its executives and other key management employees which are comparable to those offered by competing businesses. In establishing salaries for executive officers, the Compensation Committee reviews (i) the historical performance of the executives; and (ii) available information regarding prevailing salaries and compensation programs offered by competing businesses. Another factor which is considered in establishing salaries of executive officers are the costs of living in Northern California where the Company is headquartered, as such costs generally are higher than in other parts of the country.

In order to retain qualified management personnel, Coast Distribution also has followed the practice of seeking to promote executives from within the Company whenever that is practicable. The Compensation Committee believes that this policy enhances employee morale and provides continuity of management. Generally, modest salary increases are made in conjunction with such promotions.

In the second half of 2001, Mr. McGuire, Ms. Knell and Messrs. Berger and Castagnola agreed to reduce their annual salaries by 15% as part of a Company-wide cost reduction program. Those salary reductions remained in effect throughout 2002 and 2003. During 2004, their salaries were restored to the pre-reduction levels. Salary figures shown in the Summary Compensation Table, set forth above in this report, reflect those reductions in fiscal 2003. The 2004 salaries in that Table reflect a partial restoration of their salaries, beginning from the effective date during 2004 that the restoration was first implemented.

Performance-Based Compensation

The Compensation Committee believes that, as a general rule, annual compensation in excess of base salaries should be made dependent primarily on Coast Distribution's performance. Accordingly, during the first half of each fiscal year, the Compensation Committee establishes an annual bonus compensation program for the Named Officers and other key management personnel. The program establishes a net earnings goal for the fiscal year and provides that if the goal is achieved, a bonus pool will be established from which bonuses will be paid to participants in the program, including the Named Officers. The amount of the bonus pool depends on the extent to which the net earnings goal is exceeded.

The earnings goal for each year's annual bonus program is established on the basis of the annual operating plan for that year that is initially developed by management and then is submitted to the Board of Directors for its review, possible modification and approval. The annual operating plan, which is designed to maximize the profitability within the constraints of prevailing economic and competitive conditions, some of which are outside of management's control, is developed on the basis of (i) the prior year's financial performance; (ii) estimates of sales revenue for the plan year

based upon recent market conditions and trends and other factors which, based on historical experience, can be expected to affect the level of sales that can reasonably be expected to be achieved; (iii) historical operating costs, as adjusted for anticipated increases in costs resulting from pricing changes by vendors or changes in economic conditions and any cost savings that management believes can be realized during the upcoming year; and (iv) competitive conditions in the Company's markets. By taking all of these factors into account, the earnings goal in the annual operating plan, which also is the basis on which bonus awards are determined under the annual management bonus program, is fixed at what is believed to be a realistic level so as to make the incentives under the bonus program meaningful to executives and to avoid unduly penalizing plan participants for conditions outside of their control.

In certain instances, bonuses under an annual bonus program are awarded not only on the basis of the Coast Distribution's overall profitability, but also on the achievement by an executive of specific objectives within his or her area of responsibility. For example, a bonus may be awarded for an executive's efforts in achieving greater than anticipated cost savings, or establishing new or expanding existing markets for the company's products. Typically, the maximum bonus that may be awarded for achievement of specific objectives is determined early in the year to provide the requisite incentive for such performance.

As a result of these performance-based bonus programs, executive compensation generally increases in those years in which profitability increases. On the other hand, in years in which Coast Distribution experiences less than anticipated profit growth, such bonuses and, therefore, also total executive compensation tend to be lower. During fiscal 2005, net earnings exceeded the earnings goal established in the 2005 management bonus plan, but not quite to the same extent as in fiscal 2004. As a result, with the exception of the bonus awarded to Mr. Castagnola, the bonuses for fiscal 2005 were somewhat lower than the bonuses awarded for fiscal 2004, during which earnings exceeded the performance targets to a greater extent. The increase in Mr. Castagnola's bonus compensation for fiscal 2005, as compared to fiscal 2004, was attributable to his achievement of specific objectives within his areas of responsibility with the Company.

Finally, the Compensation Committee reserves the authority to grant discretionary bonuses, on a selective basis, when the Committee members believe that conditions justify the award of such bonuses. However, during the past three years, no discretionary bonuses were awarded to any of the Named Officers.

CEO Compensation. The CEO's compensation was determined by the Committee on the basis of a number of factors, including (i) the Company's financial and stock price performance in prior periods; (ii) Mr. McGuire's responsibilities as CEO and his proven leadership qualities; (iii) Mr. McGuire's knowledge of the industry and markets in which the Company competes and the respect he has earned among the Company's customers and suppliers; (iv) the continuity and stability of management that the retention of Mr. McGuire as the Company's CEO provides to the Company; and (v) the ability of Mr. McGuire, as CEO, to affect in a positive manner the Company's future financial and stock price performance.

Mr. McGuire is not provided with any perquisites and he receives the same employee benefits that the Company provides to its other management employees generally.

Stock Options and Equity-Based Programs

In order to align the financial interests of senior executives and other key employees with those of our stockholders, the Committee grants stock options to its senior executives and other key employees on a periodic basis and makes contributions to an employee stock purchase plan under which officers and employees (who own less than 5% of the outstanding shares of Coast Distribution common stock) may elect to have a portion of their salaries withheld and used, together with the company's contributions, to purchase shares of common stock. Stock option grants, in particular, reward senior executives and other key employees for performance that results in increases in the market price of the company's common stock, which directly benefits all stockholders. Moreover, options generally are granted on terms which provide that the options become exercisable in cumulative annual installments over a three-to-five-year period. The Compensation Committee believes that these features of the option grants not only provide an incentive for senior executives to remain in the employ of the Company, but also makes the Company's earnings performance and longer term growth in share prices important for the executives who receive stock option grants.

Edgar Filing: COAST DISTRIBUTION SYSTEM INC - Form 10-K/A

Notwithstanding anything to the contrary set forth in the Company's previous filings under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, that might incorporate future filings, including this Amendment No. 1 on Form 10-K/A, in whole or in part, the foregoing Compensation Committee Report and the Company Stock Price Performance Graph that follows, shall not be incorporated by reference into any such filings.

COMPANY STOCK PRICE PERFORMANCE

The following graph presents a five-year comparison of cumulative total returns for (i) Coast Distribution, (ii) an index comprised of companies within the recreational products markets that were selected by us (the Peer Group), and (iii) the American Stock Exchange composite index (the AMEX Composite). The Peer Group consists of Brunswick Corporation, Coachmen Industries Inc., Fleetwood Enterprises, Inc., and Winnebago Industries, Inc., which are manufacturers of recreational vehicles and boats, and West Marine Inc. which sells boating parts, supplies and accessories both at wholesale and at retail. The data for the graph was obtained from Media General Financial Services.

	2000	2001	2002	2003	2004	2005
Coast Distribution	100.00	83.20	294.40	910.82	1,236.33	1,292.76
Peer Group Index	100.00	151.11	145.78	238.58	320.37	264.59
AMEX Market Index	100.00	95.39	91.58	124.66	142.75	157.43

The Stock Performance Graph assumes that \$100 was invested, at the end of fiscal 2000, in Coast Distribution's shares and in the shares of the companies comprising the Peer Group Index and the Amex Composite Index and that any dividends issued for the indicated periods were reinvested. Stockholder returns shown in the Performance Graph are not necessarily indicative of future stock performance.
