Item 2.02 Results of Operations and Financial Condition and Item 8.01 Other Events

On June 30, 2006, SunLink Health Systems, Inc. (SunLink) issued a press release announcing its results for the fiscal year ended June 30, 2006; a copy of such press release is attached as Exhibit 99.1 to this report.

This information shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934 (the Exchange Act) or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933 or the Exchange Act, except as expressly set forth by specific reference in such a filing. The disclosure in this Current Report, including the Exhibit attached hereto, of any information (financial or otherwise) does not constitute an admission that such information is material.

Item 7.01 Regulation FD Disclosure

On September 13, 2006, SunLink held a related conference call to discuss these results. The September 13, 2006 press release and the September 13, 2006 conference call contain, and may implicate, forward-looking statements regarding SunLink and include cautionary statements identifying important factors that could cause actual results to differ materially from those anticipated. Exhibit 99.2 attached hereto and incorporated herein by this reference sets forth certain financial information discussed on the conference call that was not included in the press release.

The information in Item 7.01 of this Form 8-K and the Exhibits attached hereto shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934 (the Exchange Act) or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933 or the Exchange Act, except as expressly set forth by specific reference in such a filing. The disclosure in this Current Report, including the Exhibits attached hereto, of any information (financial or otherwise) does not constitute an admission that such information is material.

Use of Non-GAAP Financial Information

SunLink may provide a non-GAAP measures of earnings (loss) per share in its earnings releases, conference calls or otherwise. Such measures may include EBITDA or Adjusted EBITDA. Earnings before income taxes, interest, depreciation and amortization (EBITDA) represent the sum of income before income taxes, interest, depreciation and amortization. We understand that certain industry analysts and investors generally consider EBITDA to be one measure of the liquidity of a company, and it is presented to assist analysts and investors in analyzing the ability of a company to generate cash, service debt and meet capital requirements. We believe increased EBITDA is an indicator of improved ability to service existing debt and to satisfy capital requirements. EBITDA, however, is not a measure of financial performance under accounting principles generally accepted in the United States of America and should not be considered an alternative to net income as a measure of operating performance or to cash liquidity. Because EBITDA is not a measure determined in accordance with accounting principles generally accepted in the United States of America and is thus susceptible to varying

calculations, EBITDA, as presented, may not be comparable to other similarly titled measures of other corporations.

Where we adjust EBITDA for non-cash charges we refer to such measurement as Adjusted EBITDA. Such non-cash adjustments are not intended to be identified or characterized in any respect as non-recurring, infrequent or unusual, if we believe such charge is reasonably likely to recur within two years, or if there was a similar charge (or gain) within the prior two years. Adjusted EBITDA, as presented, may not be comparable to other similarly titled measures of other corporations.
