## Business Results

Total revenues for the third quarter of 2006 were RMB74.6 million (US\$9.4 million), an increase of 40% from RMB53.4 million (US\$6.6 million) reported in the same period in 2005, and an increase of 12% from RMB66.8 million (US\$8.4 million) reported in the second quarter of 2006.

Revenue from hotel commissions for the third quarter of 2006 totaled RMB57.4 million (US\$7.3 million), an increase of 38% from RMB41.5 million (US\$5.1 million) year-over-year, and an increase of 7% from RMB53.8 million (US\$6.7 million) sequentially.

The year-over-year increase in revenue from hotel commissions was primarily due to higher room volumes accompanied by higher hotel commissions per room night. Hotel commissions per room night were RMB64 in the third quarter of 2006, up 5% from RMB61 in the corresponding period a year ago, and down 2% from RMB65 in the second quarter. Hotel room nights booked through eLong increased 31% to 893,000 in the third quarter from 684,000 room nights in the corresponding period a year ago which included bookings made through FortuneTrip, a company we acquired in July 2005, and were up 7% sequentially from 832,000 in the second quarter of 2006.

As of September 30, 2006, eLong offered customers a choice of hotel rooms at discounted rates at 3,666 hotels in 291 cities across China as compared to slightly fewer than 3,000 hotels in 280 cities at the end of the third quarter of 2005. eLong has built one of the most extensive networks with hotel partners in this region. And our consistently strong hotel revenue growth reflects the increasing leverage that we have with suppliers as we drive more business to them, said Frank Zheng, Vice President of Travel Services.

Revenue from air ticketing commissions during the third quarter of 2006 totaled RMB11.0 million (US\$1.4 million), an increase of 47% from RMB7.5 million (US\$927,000) year-over-year, and an increase of 15% from RMB9.6 million (US\$1.2 million) sequentially. Volume in air segment sales continued to grow with 273,000 air segments sold in the third quarter of 2006, an increase of 38% from 198,000 in the corresponding period a year ago and 11% higher than the 247,000 sold in the second quarter. Revenue per air ticket was RMB41 in the third quarter of 2006 as compared to RMB38 in the corresponding period a year ago and RMB39 in the second quarter. The sequential increase of revenue per air ticket was primarily due to an increase in the average air ticket price.

Year-over-year growth in air ticketing revenues was primarily driven by the acquisition of new air customers, increased sales of air tickets to eLong's existing hotel customer base and better product offerings. We will continue to focus on building a scalable and efficient air infrastructure in the medium term, which is a critical component in eLong's business strategy, explained Andy Clayton, Vice President of Air.

Other travel revenue in the third quarter of 2006 was RMB3.9 million (US\$488,000), an increase of 338% from RMB881,000 (US\$109,000) year-over-year, and an increase of 137% from RMB1.6 million (US\$204,000) sequentially. The year-over-year and sequential increases were mainly attributable to RMB2.6 million revenue for inventory procurement services provided to Expedia by eLong for the period from January 2005 through September 2006. The inventory procurement agreement with Expedia was agreed and finalized during this quarter.

During the third quarter, the Company entered into a definitive agreement to sell the assets of one of its divisions operating an interactive online dating community, to a related party purchaser for a sale price of US\$14.6 million. Disposal of the division qualifies as discontinued operations in the third quarter of 2006. Hence, the results of the operations of the division for current and prior periods have been aggregated into a separate line item as "Discontinued operations" in the statement of operations. The non-travel business is not a focus for eLong going forward.

Gross margins in the third quarter of 2006 were 77%, as compared to 81% in the corresponding period a year ago and were consistent with the second quarter. The year-over-year reduction in gross margin was a result of reduction in higher-margin non-travel revenue, additional compensation and benefit for call center employees and slightly increased proportion of revenue contributed by the air ticketing business.

Service development, sales and marketing and general and administrative expenses for the third quarter of 2006 totaled RMB51.4 million (US\$6.5 million), an increase of 10% from RMB46.8 million (US\$5.8 million) year-over-year, and an increase of 5% from RMB48.8 million (US\$6.1 million) sequentially.

Service development expenses were RMB10.7 million (US\$1.4 million) in the third quarter of 2006, an increase of 18% from RMB9.1 million (US\$1.1 million) year-over-year, and an increase of 6% from RMB10.0 million (US\$1.3 million) sequentially. The year-over-year and sequential increases reflected ramped-up investments to support the eLong.com website and the Company's air, hotel and vacation package businesses.

Sales and marketing expenses were RMB25.3 million (US\$3.2 million) in the third quarter of 2006, an increase of 8% from RMB23.4 million (US\$2.9 million) year-over-year, and unchanged from RMB25.3 million (US\$3.2 million) in the second quarter. The year-over-year increase was due to increases in business volume and customer acquisition. Sales and marketing expenses in the third quarter of 2006 were 34% of revenues as compared to 44% in the corresponding period a year ago and 38% in the second quarter.

General and administrative expenses were RMB15.4 million (US\$1.9 million) in the third quarter of 2006, an increase of 8% from RMB14.3 million (US\$1.8 million) year-over-year, and an increase of 15% from RMB13.4 million (US\$1.7 million) sequentially. The year-over-year and sequential increases were primarily due to additional professional fees, headcount expenses, and other expenditures associated with the expansion of our business.

Operating income in the third quarter of 2006 was RMB1.7 million (US\$215,000), as compared to an operating loss of RMB7.0 million (US\$857,000) in the corresponding period of 2005 and RMB1.2 million (US\$143,000) in the second quarter. The third quarter operating income included non-cash related stock-based compensation expense and amortization of intangibles of RMB2.6 million (US\$330,000) and the comparable non-cash related stock-based compensation expense and amortization amount for the corresponding period of 2005 was RMB3.9 million (US\$480,000) and the second quarter of 2006 was RMB2.8 million (US\$348,000).

Other income, which represents interest income, unrealized exchange gains/losses and other income/expenses, was RMB3.4 million (US\$424,000) for the third quarter of 2006, compared to other loss of RMB15.2 million (US\$1.9 million) in the corresponding period a year ago, and other income of RMB8.5 million (US\$1.1 million) in the second quarter of 2006. The sequential decrease in other income was primarily due to a higher unrealized exchange loss on the translation for financial reporting purposes of eLong's US dollar denominated cash deposits into Renminbi. The unrealized exchange loss was RMB11.4 million (US\$1.4 million) in the third quarter as compared to an unrealized exchange loss of RMB2.8 million (US\$347,000) in the second quarter.

The Company recorded a net income of RMB2.7 million (US\$337,000) for the third quarter of 2006, compared to a net loss of RMB40.5 million (US\$5.0 million) in the corresponding period a year ago, and a net income of RMB10.2 million (US\$1.3 million) in the second quarter. The US GAAP diluted income per ADS for the third quarter of 2006 was RMB0.10 (US\$0.013), compared to US GAAP diluted loss per ADS of RMB1.62 (US\$0.200) in the corresponding period a year ago and US GAAP diluted income per ADS of RMB0.38 (US\$0.048) in the second quarter. Adjusted income for the third quarter of 2006 (a non-GAAP measure) was RMB16.6 million (US\$2.1 million), compared to adjusted income of RMB4.9 million (US\$609,000) in the corresponding period a year ago and adjusted income of RMB13.1 million (US\$1.6 million) in the second quarter. Diluted adjusted income per ADS for the third quarter (also a non-GAAP measure) was RMB0.62 (US\$0.078), compared to diluted adjusted income per ADS of RMB0.18 (US\$0.022) in the corresponding period a year ago and diluted adjusted income per ADS of RMB0.48 (US\$0.062) in the second quarter. Please refer to the attached table for a reconciliation of net income/loss and basic and diluted income/loss per ADS under US GAAP to adjusted income/loss and basic and diluted adjusted income/loss per ADS.

As of September 30, 2006, the Company's cash and cash equivalents balance was US\$142.1 million, which included a prepayment from the related party purchaser of US\$2.9 million for the sales of certain assets.

In the third quarter, eLong achieved positive growth in revenues and an operating profit for the first time, which indicates that our operating leverage has improved even as we continue to focus on investing in the business for long-term sustainable profitability, said Tony Shen, interim Chief Financial Officer of eLong.
