Additional information regarding the interests of such participants is included in the proxy statement/prospectus and the other relevant documents filed with the SEC.

***Mercantile Acquisition***

We completed our acquisition of Mercantile Bankshares Corporation ( Mercantile ) on March 2, 2007 and our financial results include Mercantile from that date. PNC issued approximately 53 million shares of common stock and paid approximately \$2.1 billion in cash as consideration for the acquisition, and accounted for the transaction under the purchase method. PNC converted the Mercantile banks' data onto PNC's financial and operational systems during September 2007.

***BlackRock/MLIM Transaction***

As further described in our Annual Report on Form 10-K for the year ended December 31, 2006, on September 29, 2006, Merrill Lynch contributed its investment management business ( MLIM ) to BlackRock, Inc. ( BlackRock ), formerly a majority-owned subsidiary of PNC, in exchange for 65 million shares of newly issued BlackRock common and preferred stock.

For the three months and nine months ended September 30, 2006 presented in this Financial Supplement, our Consolidated Income Statement reflects our former majority ownership interest in BlackRock. However, our Consolidated Income Statement for the quarters ended September 30, 2007, June 30, 2007, March 31, 2007, and December 31, 2006 and the nine months ended September 30, 2007 and our Consolidated Balance Sheet as of September 30, 2007, June 30, 2007, March 31, 2007, December 31, 2006 and September 30, 2006 reflect the September 29, 2006 deconsolidation of BlackRock's balance sheet amounts and recognize our approximate 34% ownership interest in BlackRock as of those dates as an investment accounted for under the equity method.

We have also provided, for information purposes only, adjusted results in this Financial Supplement to reflect BlackRock as if it had been accounted for under the equity method for all periods presented.

- 
- (a) The effective tax rates are presented on a GAAP basis. The higher effective tax rates for the first nine months of 2006 and the third quarter of 2006 are primarily due to the third quarter 2006 gain on the BlackRock/MLIM transaction and a related \$57 million cumulative adjustment to deferred taxes recorded in the same quarter. The lower effective tax rate in the fourth quarter of 2006 was primarily due to a reduction in tax reserves for interest.

- (a) This schedule is provided for informational purposes only and reflects historical condensed consolidated financial information of PNC: (1) with amounts adjusted for the impact of certain specified items; (2) as if we had recorded our investment in BlackRock on the equity method for all periods presented; and (3) adjusted in each case, as appropriate, for the tax impact. See the Appendix to this Financial Supplement for reconciliations of these amounts to the corresponding GAAP amounts for each of the periods presented. We have provided these adjusted amounts and reconciliations so that investors, analysts, regulators and others will be better able to evaluate the impact of these items on our results for these periods, in addition to providing a basis of comparability for the impact of the BlackRock deconsolidation given the magnitude of the impact of deconsolidation on various components of our income statement. Adjusted information supplements our results as reported in accordance with GAAP and should not be viewed in isolation from, or as a substitute for, our GAAP results.

- (a) This summary also serves as a reconciliation of total earnings and revenue for all businesses to total consolidated net income and revenue. Our business information is presented based on our management accounting practices and our management structure. We refine our methodologies from time to time as our management accounting practices are enhanced and our businesses and management structure change.
- (b) Amounts for 2007 subsequent to March 2, 2007 include the impact of Mercantile.
- (c) We consider BlackRock to be a separate reportable business segment but have combined its results with Other for this presentation. Our Quarterly Report on Form 10-Q for the third quarter of 2007 will provide additional business segment disclosures for BlackRock. Generally, PNC's business segment earnings from BlackRock can be estimated by multiplying our current 33.7% ownership interest by BlackRock's reported GAAP earnings, less the additional income taxes recorded by PNC on those earnings. The effective tax rate on those earnings is typically less than PNC's consolidated effective tax rate due to the tax treatment of dividends received, if any, from BlackRock. PNC's effective tax rate on its earnings from BlackRock for the third quarter of 2007 was 23.9%.
- (d) Business revenue is presented on a taxable-equivalent basis. The interest income earned on certain earning assets is completely or partially exempt from federal income tax. As such, these tax-exempt instruments typically yield lower returns than a taxable investment. To provide more meaningful comparisons of yields and margins for all earning assets, we also provide revenue on a taxable-equivalent basis by increasing the interest income earned on tax-exempt assets to make it fully equivalent to interest income earned on other taxable investments. This adjustment is not permitted under GAAP on the Consolidated Income Statement. The following is a reconciliation of total consolidated revenue on a book (GAAP) basis to total consolidated revenue on a taxable-equivalent basis (in millions):

	September 30	June 30	March 31	December 31	September 30
	2007	2007	2007	2006	2006
Total consolidated revenue, book (GAAP) basis	\$ 1,751	\$ 1,713	\$ 1,614	\$ 1,535	\$ 3,510

Total consolidated revenue, taxable-equivalent basis	\$ 1,757	\$ 1,721	\$ 1,620	\$ 1,540	\$ 3,517

- (e) PFPC revenue represents the sum of servicing revenue and nonoperating income (expense) less debt financing costs. Prior period servicing revenue amounts have been reclassified to conform with the current period presentation.

- (a) Presented as of period-end for all periods presented, except for gains on sales of education loans which are for the three months ended and small business sweep checking amounts, which are average. Small business loans and on-balance sheet managed deposits data for periods prior to the three months ended September 30, 2007 was previously provided on an average basis.
- (b) This information excludes the impact of acquisitions between PNC's acquisition date and the date of conversion of the acquired companies data onto PNC's financial and operational systems because such information was not available prior to the conversion date. Therefore, information presented above as of and for the three months ended June 30, 2007 and March 31, 2007 excludes the impact of Mercantile, which PNC acquired effective March 2, 2007 and converted during September 2007.
- (c) Includes loans from acquired portfolios for which lien position and loan-to-value information was limited.
- (d) Represents the most recent FICO scores we have on file.

Edgar Filing: YARDVILLE NATIONAL BANCORP - Form 425

- (e) Represents small business balances, a portion of which are calculated on a one-month lag. These balances are swept into liquidity products managed by other PNC business segments, the majority of which are off-balance sheet.
- (f) Financial consultants provide services in full service brokerage offices and PNC traditional branches.
- (g) Included in Noninterest income on page 6.

- (a) Calculated as noninterest expense divided by the sum of net interest income and noninterest income on the Consolidated Income Statement.
- (b) Calculated as PNC's efficiency ratio adjusted: (1) for the impact of certain specified items; (2) as if we had recorded our investment in BlackRock on the equity method for all periods presented; and (3) in each case, as appropriate, adjusted for the tax impact. We have provided these adjusted amounts and reconciliations so that shareholders, investor analysts, regulators and others will be better able to evaluate the impact of these items on our as reported efficiency ratio for these periods, in addition to providing a basis of comparability for the impact of the BlackRock deconsolidation. Amounts used for these adjusted ratios are reconciled to amounts used in the PNC efficiency ratio as reported (GAAP basis).

***Glossary of Terms***

**Accounting/administration net fund assets** Net domestic and foreign fund investment assets for which we provide accounting and administration services. We do not include these assets on our Consolidated Balance Sheet.

**Adjusted average total assets** Primarily comprised of total average quarterly (or annual) assets plus (less) unrealized losses (gains) on available-for-sale debt securities, less goodwill and certain other intangible assets (net of eligible deferred taxes).

**Annualized** Adjusted to reflect a full year of activity.

**Assets under management** Assets over which we have sole or shared investment authority for our customers/clients. We do not include these assets on our Consolidated Balance Sheet.

**Basis point** One hundredth of a percentage point.

**Charge-off** Process of removing a loan or portion of a loan from our balance sheet because it is considered uncollectible. We also record a charge-off when a loan is transferred to held for sale by reducing the carrying amount by the allowance for loan losses associated with such loan or if the market value is less than its carrying amount.

**Common shareholders equity to total assets** Common shareholders equity divided by total assets. Common shareholders equity equals total shareholders equity less the liquidation value of preferred stock.

**Credit spread** The difference in yield between debt issues of similar maturity. The excess of yield attributable to credit spread is often used as a measure of relative creditworthiness, with a reduction in the credit spread reflecting an improvement in the borrower's perceived creditworthiness.

**Custody assets** Investment assets held on behalf of clients under safekeeping arrangements. We do not include these assets on our Consolidated Balance Sheet. Investment assets held in custody at other institutions on our behalf are included in the appropriate asset categories on the Consolidated Balance Sheet as if physically held by us.

**Derivatives** Financial contracts whose value is derived from publicly traded securities, interest rates, currency exchange rates or market indices. Derivatives cover a wide assortment of financial contracts, including forward contracts, futures, options and swaps.

**Duration of equity** An estimate of the rate sensitivity of our economic value of equity. A negative duration of equity is associated with asset sensitivity (*i.e.*, positioned for rising interest rates), while a positive value implies liability sensitivity (*i.e.*, positioned for declining interest rates). For example, if the duration of equity is +1.5 years, the economic value of equity declines by 1.5% for each 100 basis point increase in interest rates.

**Earning assets** Assets that generate income, which include: federal funds sold; resale agreements; other short-term investments, including trading securities; loans held for sale; loans, net of unearned income; securities; and certain other assets.

**Economic capital** Represents the amount of resources that a business segment should hold to guard against potentially large losses that could cause insolvency. It is based on a measurement of economic risk, as opposed to risk as defined by regulatory bodies. The economic capital measurement process involves converting a risk distribution to the capital that is required to support the risk, consistent with our target credit rating. As such, economic risk serves as a common currency of risk that allows us to compare different risks on a similar basis.

**Economic value of equity ( EVE )** The present value of the expected cash flows of our existing assets less the present value of the expected cash flows of our existing liabilities, plus the present value of the net cash flows of our existing off-balance sheet positions.

**Effective duration** A measurement, expressed in years, that, when multiplied by a change in interest rates, would approximate the percentage change in value of on- and off- balance sheet positions.

**Efficiency** Noninterest expense divided by the sum of net interest income (GAAP basis) and noninterest income.

**Funds transfer pricing** A management accounting methodology designed to recognize the net interest income effects of sources and uses of funds provided by the assets and liabilities of a business segment. We assign these balances LIBOR-based funding rates at origination that represent the interest cost for us to raise/invest funds with similar maturity and repricing structures.

**Futures and forward contracts** Contracts in which the buyer agrees to purchase and the seller agrees to deliver a specific financial instrument at a predetermined price or yield. May be settled either in cash or by delivery of the underlying financial instrument.

**GAAP** Accounting principles generally accepted in the United States of America.

**Leverage ratio** Tier 1 risk-based capital divided by adjusted average total assets.

**Net interest income from loans and deposits** A management accounting assessment, using funds transfer pricing methodology, of the net interest contribution from loans and deposits.

**Net interest margin** Annualized taxable-equivalent net interest income divided by average earning assets.

**Nondiscretionary assets under administration** Assets we hold for our customers/clients in a non-discretionary, custodial capacity. We do not include these assets on our Consolidated Balance Sheet.

**Noninterest income to total revenue** Noninterest income divided by the sum of net interest income (GAAP basis) and noninterest income.

**Nonperforming assets** Nonperforming assets include nonaccrual loans, troubled debt restructured loans, foreclosed assets and other assets. We do not accrue interest income on assets classified as nonperforming.

**Nonperforming loans** Nonperforming loans include loans to commercial, commercial real estate, equipment lease financing, consumer, and residential mortgage customers as well as troubled debt restructured loans. Nonperforming loans do not include loans held for sale or foreclosed and other assets. We do not accrue interest income on loans classified as nonperforming.

**Notional amount** A number of currency units, shares, or other units specified in a derivatives contract.

**Operating leverage** The period to period percentage change in total revenue (GAAP basis) less the percentage change in noninterest expense. A positive percentage indicates that revenue growth exceeded expense growth (*i.e.*, positive operating leverage) while a negative percentage implies expense growth exceeded revenue growth (*i.e.*, negative operating leverage).

**Recovery** Cash proceeds received on a loan that we had previously charged off. We credit the amount received to the allowance for loan and lease losses.

**Return on average capital** Annualized net income divided by average capital.

**Return on average assets** Annualized net income divided by average assets.

**Return on average common equity** Annualized net income divided by average common shareholders' equity.

**Risk-weighted assets** Primarily computed by the assignment of specific risk-weights (as defined by The Board of Governors of the Federal Reserve System) to assets and off-balance sheet instruments.

**Securitization** The process of legally transforming financial assets into securities.

**Tangible common equity ratio** Period-end common shareholders' equity less goodwill and other intangible assets (net of eligible deferred taxes), and excluding mortgage servicing rights, divided by period-end assets less goodwill and other intangible assets (net of eligible deferred taxes), and excluding mortgage servicing rights.

**Taxable-equivalent interest** The interest income earned on certain assets is completely or partially exempt from federal income tax. As such, these tax-exempt instruments typically yield lower returns than taxable investments. To provide more meaningful comparisons of yields and margins for all interest-earning assets, we also provide revenue on a taxable-equivalent basis by increasing the interest income earned on tax-exempt assets to make it fully equivalent to interest income earned on other taxable investments. This adjustment is not permitted under GAAP on the Consolidated Income Statement.

**Tier 1 risk-based capital** Tier 1 risk-based capital equals: total shareholders' equity, plus trust preferred capital securities, plus certain minority interests that are held by others; less goodwill and certain other intangible assets (net of eligible deferred taxes), less equity investments in nonfinancial companies and less net unrealized holding losses on available-for-sale equity securities. Net unrealized holding gains on available-for-sale equity securities, net unrealized holding gains (losses) on available-for-sale debt securities and net unrealized holding gains (losses) on cash flow hedge derivatives are excluded from total shareholders' equity for tier 1 risk-based capital purposes.

**Tier 1 risk-based capital ratio** Tier 1 risk-based capital divided by period-end risk-weighted assets.

**Total fund assets serviced** Total domestic and offshore fund investment assets for which we provide related processing services. We do not include these assets on our Consolidated Balance Sheet.

**Total return swap** A non-traditional swap where one party agrees to pay the other the total return of a defined underlying asset (*e.g.*, a loan), usually in return for receiving a stream of LIBOR-based cash flows. The total returns of the asset, including interest and any default shortfall, are passed through to the counterparty. The counterparty is therefore assuming the credit and economic risk of the underlying asset.

**Total risk-based capital** Tier 1 risk-based capital plus qualifying subordinated debt and trust preferred securities, other minority interest not qualified as tier 1, and the allowance for loan and lease losses, subject to certain limitations.

**Total risk-based capital ratio** Total risk-based capital divided by period-end risk-weighted assets.

**Transaction deposits** The sum of money market and interest-bearing demand deposits and demand and other noninterest-bearing deposits.

**Yield curve** A graph showing the relationship between the yields on financial instruments or market indices of the same credit quality with different maturities. For example, a normal or positive yield curve exists when long-term bonds have higher yields than short-term bonds. A flat yield curve exists when yields are the same for short-term and long-term bonds. A steep yield curve exists when yields on long-term bonds are significantly higher than on short-term bonds. An inverted or negative yield curve exists when short-term bonds have higher yields than long-term bonds.

***Business Segment Descriptions***

***Retail Banking*** provides deposit, lending, brokerage, trust, investment management, and cash management services to approximately 2.9 million consumer and small business customers within our primary geographic markets. Our customers are serviced through 1,072 offices in our branch network, the call center located in Pittsburgh, and the Internet [www.pncbank.com](http://www.pncbank.com). The branch network is located primarily in Pennsylvania, New Jersey, Washington, D.C., Maryland, Virginia, Ohio, Kentucky and Delaware. Brokerage services are provided through PNC Investments, LLC, and J.J.B. Hilliard, W.L. Lyons, Inc. Retail Banking also serves as investment manager and trustee for employee benefit plans and charitable and endowment assets and provides nondiscretionary defined contribution plan services and investment options through its *Vested Interest*<sup>®</sup> product. These services are provided to individuals and corporations primarily within our primary geographic markets.

***Corporate & Institutional Banking*** provides lending, treasury management, and capital markets-related products and services to mid-sized corporations, government entities, and selectively to large corporations. - (a) These adjusted condensed consolidated income statement reconciliations are provided for informational purposes only and reflect historical condensed consolidated financial information of PNC (1) with amounts adjusted for the impact of certain specified items and (2) as if we had recorded our investment in BlackRock on the equity method for all periods presented, in each case, as appropriate, adjusted for the tax impact. These reconciliations are from the reported GAAP amounts shown on page 2 of the Financial Supplement to the corresponding adjusted amounts shown on page 3 of the Financial Supplement. We have provided these adjusted amounts and reconciliations so that investors, analysts, regulators and others will be better able to evaluate the impact of these items on our results for these periods, in addition to providing a basis of comparability for the impact of the BlackRock deconsolidation given the magnitude of the impact of the deconsolidation on various components of our income statement. We believe that information as adjusted for the impact of the specified items may be useful due to the extent to which these items are not indicative of our ongoing operations as the result of our management activities on those operations, as a result of the following attributes. Integration costs can vary significantly from period to period depending on whether or not we have any such transaction pending or in process and depending on the nature of the transaction. Our BlackRock LTIP shares obligation results from an agreement entered into in 2002 and predominantly reflects the market price of BlackRock stock at specified times. We have provided information adjusted for the impact of the third quarter 2006 gain on the BlackRock/MLIM transaction due to the magnitude of that transaction, and have provided information adjusted for the impact of the third quarter 2006 securities portfolio rebalancing and mortgage loan portfolio repositioning losses due to the nature of those transactions. Adjusted information supplements our results as reported in accordance with GAAP and should not be viewed in isolation from, or as a substitute for, our GAAP results. Our 2006 Form 10-K includes additional information regarding our accounting for the BlackRock/MLIM transaction and the BlackRock LTIP shares obligation. Our first and second quarter 2007 Form 10-Qs provide additional information regarding integration costs. The absence of other adjustments is not intended to imply that there could not have been other similar types of adjustments, but any such adjustments would not have been similar in magnitude to the amount of the adjustments shown.
- (b) Includes the impact of the following items on a pretax basis: \$72 million of acquisition and BlackRock/MLIM transaction integration costs and \$1 million net gain related to our BlackRock LTIP shares obligation.
- (c) Includes the impact of the following items, all on a pretax basis: \$2,078 million gain on BlackRock/MLIM transaction, \$196 million securities portfolio rebalancing loss, \$91 million of BlackRock/MLIM transaction integration costs, and \$48 million mortgage loan portfolio repositioning loss.
- (d) BlackRock investment revenue represents PNC's approximately 69% ownership interest in earnings of BlackRock for the nine months ended September 30, 2006, excluding pretax BlackRock/MLIM transaction integration costs totaling \$91 million. The income taxes amount represents additional income taxes recorded by PNC related to BlackRock earnings.

In  
this

the  
following  
types  
of  
adjustments:  
(1)  
2006

We  
have

and  
others  
will  
be  
better  
able  
to  
evaluate  
the  
impact  
of  
these  
items  
on  
our  
results  
for  
the  
periods

We  
believe  
that  
information  
as  
adjusted  
for  
the  
the  
impact  
of  
the  
specified  
items  
may  
be  
useful  
due  
to  
the  
extent  
to  
which

these  
items  
are  
not  
indicative  
of  
our  
ongoing  
operations  
as  
the  
result  
of  
our  
management  
activities  
on  
those  
operations.  
While  
we  
have  
not  
provided  
other  
adjustments  
for  
the  
periods  
discussed,  
this  
is  
not  
intended  
to  
imply  
that  
there  
could  
not  
have  
been  
other  
similar  
types  
of  
adjustments,  
but  
any  
such

adjustments  
would  
not  
have  
been  
similar  
in  
magnitude  
to  
the  
amount  
of  
the  
adjustments  
shown.  
In  
certain  
discussions,  
we  
also  
provide  
revenue  
information  
on  
a  
taxable-equivalent  
basis  
by  
increasing  
the  
interest  
income  
earned  
on  
tax-exempt  
assets  
to  
make  
it  
fully  
equivalent  
to  
interest  
income  
earned  
on  
taxable  
investments.  
We  
believe

this  
adjustment  
may  
be  
useful  
when  
comparing  
yields  
and  
margins  
for  
all  
earning  
assets.  
This  
presentation  
may  
also  
include  
a  
discussion  
of

Financial  
Information.

Our  
businesses  
and  
financial

are  
affected  
by  
business  
and  
economic  
conditions,  
both  
generally  
and  
specifically  
in  
the  
principal  
markets  
in  
which  
we  
operate.

In  
particular,  
our  
businesses  
and  
financial  
results  
may  
be  
impacted  
by

Changes in interest rates and valuations in the debt, equity and  
other financial markets.

Disruptions  
in  
the  
liquidity  
and  
other  
functioning  
of

financial  
markets,  
including  
such  
disruptions  
in  
the  
markets  
for  
real  
estate  
and  
other  
assets  
commonly securing financial products.

Actions by the Federal Reserve and other government agencies, including those that impact money supply and market interest rates.

Changes  
in  
our

suppliers  
and  
other  
counterparties  
performance  
in  
general  
and  
their

in  
particular.

Changes  
in  
customer

whether  
as  
a  
result  
of  
changing  
business  
and  
economic  
conditions  
or  
other

factors.

A continuation of recent turbulence in significant portions of the global financial markets could impact our performance, both directly by affecting our revenues and the value of our assets and liabilities and indirectly by affecting the economy generally.

Our operating results are affected by our liability to provide shares

of  
BlackRock

Competition  
can  
have  
an  
impact  
on  
customer  
acquisition,  
growth  
and  
retention,  
as  
well  
as  
on  
our  
credit  
spreads  
and  
product  
pricing,  
which  
can  
affect  
market  
share, deposits and revenues.

Our  
ability  
to  
implement  
our  
business  
initiatives

and  
strategies  
could  
affect  
our  
financial  
performance  
over  
the  
next  
several  
years.

Legal  
and  
regulatory  
developments  
could  
have  
an  
impact  
on  
our  
ability  
to  
operate  
our  
businesses  
or  
our  
financial  
condition  
or  
results  
of  
operations  
or  
our  
competitive  
position  
or  
reputation.  
Reputational  
impacts,  
in  
turn,  
could  
affect  
matters  
such  
as

business  
generation  
and  
retention,  
our  
ability  
to  
attract  
and  
retain  
management,  
liquidity  
and  
funding.

These  
legal  
and  
regulatory  
developments  
could  
include:

(a)  
the  
unfavorable  
resolution  
of  
legal  
proceedings  
or  
regulatory  
and  
other  
governmental  
inquiries;

(b)  
increased  
litigation  
risk  
from  
recent  
regulatory  
and  
other  
governmental  
developments;

(c)  
the  
results  
of  
the

regulatory  
examination  
process,  
our  
failure  
to  
satisfy  
the  
requirements  
of  
agreements  
with  
governmental  
agencies,  
and  
regulators  
future  
use  
of  
supervisory  
and  
enforcement  
tools;  
(d)  
legislative  
and  
regulatory  
reforms,  
including  
changes  
to  
laws  
and  
regulations  
involving  
tax,  
pension,  
education  
lending,  
and  
the  
protection  
of  
confidential  
customer  
information;  
and  
(e)  
changes  
in

accounting  
policies  
and  
principles.

Our  
business  
and  
operating  
results  
are  
affected  
by  
our  
ability  
to  
identify  
and  
effectively

risks  
inherent  
in  
our  
businesses,  
including,  
where  
appropriate,  
through  
the  
effective  
use  
of  
third-party  
insurance  
and  
capital  
management  
techniques.

Our  
ability  
to  
anticipate  
and  
respond  
to  
technological  
changes  
can  
have  
an

impact  
on  
our  
ability  
to  
respond  
to  
customer  
needs  
and  
to  
meet  
competitive  
demands.

The  
adequacy  
of  
our  
intellectual  
property  
protection,  
and  
the  
extent  
of  
any  
costs  
associated  
with  
obtaining  
rights  
in  
intellectual  
property  
claimed  
by  
others,  
can  
impact  
our  
business  
and  
operating  
results.

Our  
business  
and  
operating  
results  
can

also  
be  
affected  
by  
widespread  
natural  
disasters,  
terrorist  
activities  
or  
international  
hostilities,  
either  
as  
a  
result  
of  
the  
impact  
on  
the  
economy  
and  
financial  
and  
capital  
markets

or  
on  
us  
or  
on  
our  
customers,

may  
be  
significantly  
harder  
or  
take  
longer

In  
some  
cases,

involve

our

these

also

resulting  
from  
our

As

Regulatory  
and/or

legal  
issues  
related  
to
