NATIONWIDE HEALTH PROPERTIES, INC.

(Exact Name of Registrant as Specified in Its Charter)

Maryland
(State or Other Jurisdiction of

Incorporation or Organization)

610 Newport Center Drive, Suite 1150

Newport Beach, California
(Address of Principal Executive Offices)

(949) 718-4400

95-3997619
(I.R.S. Employer

Identification Number)

92660
(Zip Code)

Edgar Filing: NATIONWIDE HEALTH PROPERTIES INC - Form 10-Q

(Registrant's Telephone Number, Including Area Code)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Common stock, \$0.10 par value, outstanding at November 2, 2007: 92,936,610

NATIONWIDE HEALTH PROPERTIES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

SEPTEMBER 30, 2007

(Unaudited)

1. Organization

Nationwide Health Properties, Inc., a Maryland corporation, is a real estate investment trust (REIT) that invests primarily in healthcare related senior housing, long-term care properties and medical office buildings. Whenever we refer herein to NHP or to us or use the terms we or our, we are referring to Nationwide Health Properties, Inc. and its subsidiaries, unless the context otherwise requires.

We primarily make our investments by acquiring an ownership interest in senior housing and long-term care facilities and leasing them to unaffiliated tenants under triple-net master leases that transfer the obligation for all facility operating costs (including maintenance, repairs, taxes, insurance and capital expenditures) to the tenant. We also invest in medical office buildings which are not generally subject to triple-net leases and generally have several tenants under separate leases in each building, thus requiring active management and responsibility for many of the associated operating expenses (although many of these are, or can effectively be, passed through to the tenants). In addition, but to a much lesser extent because we view the risks of this activity to be greater, we extend mortgage loans and other financing to tenants from time to time. For the nine months ended September 30, 2007, about 93% of our revenues were derived from our leases, with the remaining 7% from our mortgage loans and other financing activities.

We believe we have operated in such a manner as to qualify as a REIT under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended. We intend to continue to qualify as such and therefore to distribute at least 90% of our REIT taxable income (computed without regard to the dividends paid deduction and excluding capital gain) to our stockholders. If we qualify for taxation as a REIT, and we distribute 100% of our taxable income to our stockholders, we will generally not be subject to U.S. federal income taxes on our income that is distributed to stockholders. Accordingly, no provision has been made for federal income taxes.

As of September 30, 2007, we had investments in 536 healthcare facilities located in 43 states, consisting of:

Consolidated facilities:

274 assisted and independent living facilities;

193 skilled nursing facilities;

11 continuing care retirement communities;

7 specialty hospitals;

28 medical office buildings, 25 of which are operated by consolidated joint ventures (see Note 5); and

2 assets held for sale.

Unconsolidated facilities:

7 skilled nursing facilities; and

14 assisted and independent living facilities.

Table of Contents**NATIONWIDE HEALTH PROPERTIES, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

As of September 30, 2007, our directly owned facilities, other than the non triple-net medical office buildings operated by our consolidated joint ventures (see Note 5), were leased and operated by 86 different healthcare providers, including the following publicly traded companies:

	Number of Facilities Operated
Assisted Living Concepts, Inc.	4
Brookdale Senior Living, Inc.	96
Emeritus Corporation	29
Extendicare, Inc.	1
HEALTHSOUTH Corporation	2
Kindred Healthcare, Inc.	1
Sun Healthcare Group, Inc.	8

Two of our tenants each accounted for more than 10% of our revenues at September 30, 2007, as follows:

Brookdale Senior Living, Inc.	18%
Hearthstone Senior Services, L.P.	11%

2. Summary of Significant Accounting Policies*Basis of Presentation*

We have prepared the condensed consolidated financial statements included herein without audit. These financial statements include all adjustments that are, in the opinion of management, necessary for a fair presentation of the results of operations for the three-month and nine-month periods ended September 30, 2007 and 2006 pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). All such adjustments are of a normal recurring nature. Certain items in prior period financial statements have been reclassified to conform to current year presentation, including those required by Statement of Financial Accounting Standards (SFAS) No. 144 *Accounting for the Impairment or Disposal of Long-Lived Assets* (SFAS No. 144). Certain information and note disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States (GAAP) have been condensed or omitted pursuant to these rules and regulations. Although we believe that the disclosures in the financial statements included herein are adequate to make the information presented not misleading, these condensed consolidated financial statements should be read in conjunction with our financial statements and the notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2006 filed with the SEC. The results of operations for the three-month and nine-month periods ending September 30, 2007 and 2006 are not necessarily indicative of the results for a full year.

Principles of Consolidation

The condensed consolidated financial statements include our accounts, the accounts of our wholly owned subsidiaries and the accounts of our majority owned and controlled joint ventures in accordance with GAAP, including Financial Accounting Standards Board (FASB) Interpretation No. 46R *Consolidation of Variable Interest Entities* and Emerging Issues Task Force Issue 04-5 *Investor's Accounting for an Investment in a Limited Partnership When the Investor is the Sold General Partner and the Limited Partners Have Certain Rights*. All material intercompany accounts and transactions have been eliminated.

Edgar Filing: NATIONWIDE HEALTH PROPERTIES INC - Form 10-Q

Investments in entities that we do not consolidate but for which we have the ability to exercise significant influence over operating and financial policies are reported under the equity method. Under the equity method of accounting, our share of the entity's earnings or losses is included in our operating results.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ materially from those estimates.

Table of Contents

NATIONWIDE HEALTH PROPERTIES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Revenue Recognition

Rental income from operating leases is recognized in accordance with GAAP, including SEC Staff Accounting Bulletin No. 104 *Revenue Recognition*. Our leases generally contain annual escalators. Many of our leases contain non-contingent rent escalators for which we recognize income on a straight-line basis over the lease term. Recognizing income on a straight-line basis requires us to calculate the total non-contingent rent to be paid over the life of a lease and to recognize the revenue evenly over that life. This method results in rental income in the early years of a lease being higher than actual cash received, creating a deferred rent asset included in the caption *Other assets* on our balance sheets. At some point during the lease, depending on its terms, the cash rent payments eventually exceed the straight-line rent which results in the deferred rent asset decreasing to zero over the remainder of the lease term. We assess the collectibility of straight-line rents in accordance with the applicable accounting standards and defer recognition of deferred rent if its collectibility is not reasonably assured. Certain leases contain escalators contingent on revenues or other factors, including increases based solely on changes in the Consumer Price Index. Such revenue increases are recognized over the lease term as the related contingencies occur.

Our assessment of the collectibility of straight-line rents is based on several factors, including the financial strength of the tenant and any guarantors, the historical operations and operating trends of the facility, the historical payment pattern of the tenant, the type of facility and whether we intend to continue to lease the facility to the current tenant, among others. If our evaluation of these factors indicates we may not receive the rent payments due in the future, we defer recognition of the straight-line rental income and, depending on the circumstances, we may provide a reserve against the previously recognized deferred rent asset for a portion, up to its full value, that we estimate may not be recoverable. If our assumptions or estimates regarding the collectibility of future rent payments required by a lease change, we may adjust our reserve to increase or reduce the rental revenue recognized, and/or to increase or reduce the reserve against the existing deferred rent balance.

We recorded \$1,924,000 of revenues in excess of cash received during the nine months ended September 30, 2007 and \$391,000 of revenues in excess of cash received during the nine months ended September 30, 2006. There was \$9,677,000 as of September 30, 2007 and \$7,756,000 as of December 31, 2006 of deferred rent receivables, net of reserves, recorded under the caption *Other assets* on our balance sheets. We evaluate the collectibility of the deferred rent balances on an ongoing basis and provide reserves against receivables we believe may not be fully recoverable. The ultimate amount of deferred rent we realize could be less than amounts currently recorded.

Gain on Sale of Facilities

We recognize sales of facilities only upon closing. Payments received from purchasers prior to closing are recorded as deposits. Gains on facilities sold are recognized using the full accrual method upon closing when the collectibility of the sales price is reasonably assured, we have received adequate initial investment from the buyer, we are not obligated to perform significant activities after the sale to earn the gain and other profit recognition criteria have been satisfied. Gains may be deferred in whole or in part until the sales satisfy the requirements of gain recognition on sales of real estate under SFAS No. 66 *Accounting for Sales of Real Estate*. In accordance with SFAS No. 144, gains on facilities sold to unconsolidated joint ventures in which we maintain an ownership interest are included in income from continuing operations. All other gains are included in discontinued operations.

Asset Impairment

We review our long-lived assets individually on a quarterly basis to determine if there are indicators of impairment in accordance with SFAS No. 144. Indicators may include, among others, the tenant's inability to make rent payments, operating losses or negative operating trends at the facility level, notification by a tenant that it will not renew its lease, a decision to dispose of an asset or adverse changes in the fair value of any of our properties. For operating assets, if indicators of impairment exist, we compare the future estimated undiscounted cash flows from the expected use of the property to its net book value to determine if impairment exists. If the sum of the future estimated undiscounted cash flows is higher than the current net book value, in accordance with SFAS No. 144, we conclude no impairment exists. If the sum of the future estimated undiscounted cash flows is lower than its current net book value, we recognize an impairment loss for the difference between the net book value of the asset and its estimated fair value. To the extent we decide to sell an asset, we recognize an impairment loss if the current net book value of the asset exceeds its fair value less selling costs. The above analyses require us to determine whether there are indicators of impairment for individual assets, to estimate the most likely stream of cash flows from operating assets and to determine the fair value of assets that are impaired or held for sale. If our assumptions, projections or estimates regarding an asset change in the future, we may have to record an

Edgar Filing: NATIONWIDE HEALTH PROPERTIES INC - Form 10-Q

impairment charge to reduce or further reduce the net book value of the asset. No impairment charges were recorded during the nine months ended September 30, 2007. During the nine months ended September 30, 2006, we recorded impairment charges of \$83,000.

Table of Contents**NATIONWIDE HEALTH PROPERTIES, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)***Collectibility of Receivables*

We evaluate the collectibility of our rent, mortgage loans and other receivables on a regular basis based on factors including, among others, payment history, the financial strength of the borrower and any guarantors, the value of the underlying collateral, the operations and operating trends of the underlying collateral, if any, the asset type and current economic conditions. If our evaluation of these factors indicates we may not recover the full value of the receivable, we provide a reserve against the portion of the receivable that we estimate may not be recovered. This analysis requires us to determine whether there are factors indicating a receivable may not be fully collectible and to estimate the amount of the receivable that may not be collected. We had reserves included in the caption *Receivables, net* on our balance sheets of \$3,899,000 as of September 30, 2007 and \$3,093,000 as of December 31, 2006. If our assumptions or estimates regarding the collectibility of a receivable change in the future, we may have to record a reserve to reduce or further reduce the carrying value of the receivable.

Accounting for Stock-Based Compensation

In 1999, we adopted the accounting provisions of SFAS No. 123 *Accounting for Stock-Based Compensation* (SFAS No. 123). In 2005, we adopted SFAS No. 123 (revised 2004) *Share-Based Payment* (SFAS No. 123R). SFAS No. 123 and SFAS No. 123R established a fair value based method of accounting for stock-based compensation. Accounting for stock-based compensation under SFAS No. 123 and SFAS No. 123R causes the fair value of stock-based compensation awards to be amortized as an expense over the vesting period and causes any dividend equivalents earned to be treated as dividends for financial reporting purposes. Stock-based compensation awards are valued at the fair value on the date of grant and amortized as an expense over the vesting period. Net income reflects stock-based compensation expense of \$1,248,000 and \$3,486,000 for the three-month and nine-month periods ended September 30, 2007, respectively, and \$659,000 and \$1,853,000 for the three-month and nine-month periods ended September 30, 2006, respectively.

Land, Buildings and Improvements

We record properties at cost and use the straight-line method of depreciation for buildings and improvements over their estimated remaining useful lives of up to 40 years, generally 30 to 40 years. We review and adjust useful lives periodically. Depreciation expense from continuing operations was \$24,670,000 and \$68,469,000 for the three and nine months ended September 30, 2007, respectively, and \$18,833,000 and \$48,227,000 for the three and nine months ended September 30, 2006, respectively. We allocate the purchase price of a property based on management's estimate of its fair value among land, building and, if applicable, equipment as if the property were vacant. Historically, we have generally acquired properties and simultaneously entered into a new market rate lease for the entire property with one tenant. In certain instances, including medical office building acquisitions, we have acquired facilities subject to in-place leases. Accordingly, in those instances, we may allocate a portion of the purchase price to the value of in-place leases. The costs to execute a lease and the value of above or below market leases at the time of the acquisition of a property are recorded as an intangible asset and amortized over the initial term of the lease to real estate amortization expense or rental revenues, as appropriate.

Derivatives

In the normal course of business, we are exposed to financial market risks, including interest rate risk on our interest-bearing liabilities. We endeavor to limit these risks by following established risk management policies, procedures and strategies, including, on occasion, the use of financial instruments. We do not use financial instruments for trading or speculative purposes.

Financial instruments are recorded on the balance sheet as assets or liabilities based on each instrument's fair value. Changes in the fair value of financial instruments are recognized currently in earnings, unless the financial instrument meets the criteria for hedge accounting contained in SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, as amended and interpreted (SFAS No. 133). If the financial instruments meet the criteria for a cash flow hedge, the gains and losses in the fair value of the financial instrument are recorded in other comprehensive income. Gains and losses on a cash flow hedge are reclassified into earnings when the forecasted transaction affects earnings. A contract that is designated as a hedge of an anticipated transaction which is no longer likely to occur is immediately recognized in earnings.

Impact of New Accounting Pronouncements

Edgar Filing: NATIONWIDE HEALTH PROPERTIES INC - Form 10-Q

In September 2006, the FASB issued SFAS No. 157 *Fair Value Measurements* (SFAS No. 157). SFAS No. 157 defines fair value for assets and liabilities, establishes a framework for measuring fair value and expands disclosures about fair value measurements. SFAS No. 157 is effective January 1, 2008. SFAS No. 157 is not expected to have a material impact on our results of operations or financial position.

NATIONWIDE HEALTH PROPERTIES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

In September 2006, the FASB issued SFAS No. 158 *Employer's Accounting for Defined Benefit Pension and Other Postretirement Plans - an amendment of FASB Statements No. 87, 88, 106, and 132(R)* (SFAS No. 158). SFAS No. 158 requires recognition of the funded status of such plans as an asset or liability, with changes in the funded status recognized through other comprehensive income in the year in which they occur. These provisions of SFAS No. 158 were effective December 31, 2006 and were adopted at that time. Additionally, SFAS No. 158 requires measurement of a plan's assets and its obligations at then end of the employer's fiscal year, effective December 31, 2008. SFAS No. 158 has not had, and is not expected to have, a material impact on our results of operations or financial position.

In February 2007, the FASB issued SFAS No. 159 *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS No. 159). SFAS No. 159 provides companies with an option to report selected financial assets and liabilities at fair value and establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities. SFAS No. 159 is effective January 1, 2008. The adoption of SFAS No. 159 is not expected to have a material impact on our results of operations or financial position.

3. Real Estate Properties

As of September 30, 2007, we had direct ownership of:

266 assisted and independent living facilities;

173 skilled nursing facilities;

10 continuing care retirement communities;

7 specialty hospitals; and

28 medical office buildings, 25 of which are operated by consolidated joint ventures (see Note 5).

We lease our owned senior housing and long-term care facilities and certain medical office buildings to single tenants under triple-net, and in most cases, master leases that are accounted for as operating leases. The leases generally have an initial term of up to 21 years and generally have two or more multiple-year renewal options. As of September 30, 2007, approximately 84% of our facilities were leased under master leases. In addition, the majority of our leases contain cross-collateralization and cross-default provisions tied to other leases with the same tenant, as well as grouped lease renewals and grouped purchase options. As of September 30, 2007, leases covering 376 facilities were backed by security deposits consisting of irrevocable letters of credit or cash totaling \$74,741,000. Under the terms of the leases, the tenant is responsible for all maintenance, repairs, taxes, insurance and capital expenditures on the leased properties. As of September 30, 2007, leases covering 308 and 210 facilities contained provisions for property tax and capital expenditure impounds, respectively. We generally lease medical office buildings to multiple tenants under separate non triple-net leases where we are responsible for many of the associated operating expenses (although many of these are, or can effectively be, passed through to the tenants). No individual property owned by us is material to us as a whole.

During the nine months ended September 30, 2007, we acquired 40 assisted and independent living facilities, 28 skilled nursing facilities, three continuing care retirement centers, two triple-net leased medical office buildings and one non triple-net leased medical office building in 17 separate transactions for an aggregate investment of \$424,054,000, including the assumption of \$38,925,000 of mortgage financing and \$7,298,000 of security deposits and other holdback items. We also acquired four non triple-net leased medical office buildings through one of our consolidated joint ventures with The Broe Companies (see Note 5).

Edgar Filing: NATIONWIDE HEALTH PROPERTIES INC - Form 10-Q

During the nine months ended September 30, 2007, we also funded \$16,433,000 in expansions, construction and capital improvements at certain facilities in accordance with existing lease provisions. Such expansions, construction and capital improvements generally result in an increase in the minimum rents earned by us on these facilities either at the time of funding or upon completion of the project. At September 30, 2007, we had committed to fund additional expansions, construction and capital improvements of approximately \$138,000,000.

On June 1, 2007, we sold four assisted and independent living facilities to the unconsolidated joint venture we have with a state pension fund investor for \$40,824,000, of which we received net cash proceeds of \$15,476,000 (\$5,331,000 representing our retained ownership interest in the joint venture). The related leases were transferred to the joint venture (see Note 6). The sale resulted in a gain of \$798,000, of which \$599,000 (\$199,000 representing the gain on our retained ownership interest in the joint venture was deferred) is included in gain on sale of facilities to unconsolidated joint venture in continuing operations.

Table of Contents

NATIONWIDE HEALTH PROPERTIES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

On August 31, 2007, we sold two assisted and independent living facilities to the unconsolidated joint venture we have with a state pension fund investor for \$18,172,000, of which we received net cash proceeds of \$4,035,000 (\$1,358,000 representing our retained ownership interest in the joint venture). The related leases were transferred to the joint venture (see Note 6). The sale resulted in a gain of \$44,000, of which \$33,000 (\$11,000 representing the gain on our retained ownership interest in the joint venture was deferred) is included in gain on sale of facilities to unconsolidated joint venture in continuing operations.

On September 28, 2007, we sold six assisted and independent living facilities to the unconsolidated joint venture we have with a state pension fund investor for \$83,760,000, of which we received net cash proceeds of \$76,496,000 (\$6,772,000 representing our retained ownership interest in the joint venture). The related leases were transferred to the joint venture (see Note 6). The sale resulted in a gain of \$39,090,000, of which \$29,317,000 (\$9,773,000 representing the gain on our retained ownership interest in the joint venture was deferred) is included in gain on sale of facilities to unconsolidated joint venture in continuing operations.

During the nine months ended September 30, 2007, we sold one skilled nursing facility, not previously transferred to assets held for sale, to the tenant of the facility pursuant to a purchase option for net cash proceeds of \$3,750,000. The sale resulted in a gain of \$1,048,000 that is included in gain on sale of facilities in discontinued operations.

On June 29, 2007, we sold 36 skilled nursing facilities to Complete Care Services, Inc., the tenant of the facilities, for net cash proceeds of \$124,693,000. The proceeds from this transaction were used to repay amounts outstanding under our Credit Facility. This transaction resulted in a gain of \$60,132,000 that is included in gain on sale of facilities in discontinued operations.

4. Mortgage Loans Receivable

As of September 30, 2007, we held 18 mortgage loans receivable secured by 20 skilled nursing facilities, eight assisted and independent living facilities, one continuing care retirement community and one land parcel. In addition, we held one mortgage loan receivable secured by the skilled nursing portion of a continuing care retirement community that for facility count purposes is accounted for in the real estate properties above as a continuing care retirement community and therefore is not counted as a separate facility here. As of September 30, 2007, the mortgage loans receivable had a net book value of \$130,558,000 with individual outstanding principal balances ranging from \$692,000 to \$33,000,000 and maturities ranging from 2008 to 2024.

During the nine months ended September 30, 2007, we funded one mortgage loan secured by four skilled nursing facilities we sold to the former tenant for \$18,787,000 (\$8,885,000 net of a deferred gain of \$9,902,000) and acquired four mortgage loans secured by six assisted and independent living facilities and four skilled nursing facilities totaling \$19,100,000 (including a premium of \$428,000). One of the four mortgage loans acquired was prepaid in July 2007 in the amount of \$4,737,000. In connection with the acquisition of the four mortgage loans, we acquired \$27,695,000 of loans secured by leasehold mortgages and other items which are included in the caption Other assets on our balance sheets. We also funded \$1,288,000 on existing mortgage loans.

As of September 30, 2007, we had an investment in one impaired loan with an average balance of \$10,484,000. During the three and nine months ended September 30, 2007, we recognized and received cash payments for interest income totaling \$134,000 and \$402,000, respectively. At September 30, 2007, the loan balance was \$10,414,000.

We recognize interest income on impaired loans to the extent our estimate of the fair value of the collateral is sufficient to support the balance of the loans, other receivables and all related accrued interest. Once the total of the loans, other receivables and all related accrued interest is equal to our estimate of the fair value of the collateral, we recognize interest income on a cash basis. We provide reserves against impaired loans to the extent our total investment exceeds our estimate of the fair value of the loan collateral.

5. Medical Office Building Joint Ventures

In December 2005, we entered into a joint venture with The Broe Companies (Broe) called NHP/Broe, LLC (Broe I) to invest in medical office buildings. We hold a 90% equity interest in the venture and Broe holds a 10% equity interest. Broe is the managing member of Broe I, but we consolidate the joint venture in our consolidated financial statements. The accounting policies of the joint venture are consistent with our

accounting policies. No investments were made by this joint venture prior to 2006.

Table of Contents

NATIONWIDE HEALTH PROPERTIES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

For the first 36 months of the Broe I joint venture, we will receive 100% of the cash distributions from the joint venture until we have received a cumulative annual return of 8.5%, at which point Broe will receive 100% of the cash distributions until it has received a cumulative annual return of 8.5%. If we have not received a cumulative annual return of 8.5% after the first 36 months, distributions will go to the members in accordance with their ownership percentages until such time as each member earns a cumulative annual return of 8.5%. Then distributions will be made 65% to us and 35% to Broe until we have achieved a cumulative annual return of 10.5%. Thereafter, distributions will be made 50% to each party.

During the nine months ended September 30, 2007, the Broe I joint venture funded \$886,000 in capital improvements at certain facilities in accordance with existing lease provisions.

During the nine months ended September 30, 2007, cash distributions from the Broe I joint venture of \$481,000 and \$53,000 were made to us and to Broe, respectively. All intercompany balances with the Broe I joint venture have been eliminated for purposes of our consolidated financial statements.

In February 2007, we entered into a second joint venture with Broe called NHP/Broe II, LLC (Broe II) to invest in medical office buildings. We hold a 95% equity interest in the venture and Broe holds a 5% equity interest. Broe is the managing member of Broe II, but we consolidate the joint venture in our consolidated financial statements. The accounting policies of the joint venture are consistent with our accounting policies.

Cash distributions from the Broe II joint venture will be made 95% to us and 5% to Broe until we have received a cumulative annual return of 8.5%, at which point distributions will be made 80% to us and 20% to Broe until we have achieved a cumulative annual return of 10.5%. Then distributions will be made 75% to us and 25% to Broe until we have achieved a cumulative annual return of 12.0%. Thereafter, distributions will be made 70% to us and 30% to Broe.

During the nine months ended September 30, 2007, the Broe II joint venture acquired four non triple-net leased medical office buildings located in two states. The purchase price totaled \$26,319,000, of which \$23,831,000 was allocated to real estate with the remaining \$2,488,000 allocated to other assets and liabilities. The acquisitions were originally financed with a bridge loan from us of \$5,700,000, and capital contributions of \$19,588,000 and \$1,031,000, from us and Broe, respectively. The bridge loan from us was replaced on August 1, 2007 by third party mortgage financing in the amount of \$5,213,000 (funding up to \$5,900,000 is available under the financing agreements).

During the nine months ended September 30, 2007, the Broe II joint venture also funded \$400,000 in capital improvements at certain facilities in accordance with existing lease provisions.

During the nine months ended September 30, 2007, cash distributions from the Broe II joint venture of \$204,000 and \$11,000 were made to us and to Broe, respectively. All intercompany balances with the Broe II joint venture have been eliminated for purposes of our consolidated financial statements.

6. Investment in Unconsolidated Joint Venture

In January 2007, we entered into a joint venture with a state pension fund investor. The purpose of the joint venture is to acquire and develop assisted living, independent living and skilled nursing facilities. We manage and own 25% of the joint venture, which will fund its investments of up to \$475,000,000 with approximately 40% equity contributions and 60% debt. We may, by mutual agreement with our joint venture partner, elect to increase the total investments by an additional \$500,000,000. The financial statements of the joint venture are not consolidated in our financial statements as our joint venture partner has substantive participating rights, and our investment is accounted for using the equity method.

During the nine months ended September 30, 2007, the joint venture acquired seven skilled nursing facilities and 14 assisted and independent living facilities located in seven states for approximately \$331,000,000. The acquisitions were initially financed by the assumption of \$32,621,000 of mortgage financing, \$56,000,000 of new mortgage financing, capital contributions from our joint venture partner of approximately \$182,000,000 and capital contributions from us of approximately \$60,000,000. The joint venture subsequently placed approximately \$102,000,000 of mortgage financing on portions of the portfolio resulting in cash distributions reducing net capital contributions

Edgar Filing: NATIONWIDE HEALTH PROPERTIES INC - Form 10-Q

to approximately \$105,000,000 and \$35,000,000 for our joint venture partner and us, respectively. Twelve of the assisted and independent living facilities with a total cost of approximately \$143,000,000 were acquired by the joint venture from us, and the related leases were transferred to the joint venture (see Note 3).

Cash distributions from the joint venture are made in accordance with the members' ownership interests until specified returns are achieved. As the specified returns are achieved, we will receive an increasing percentage of the cash distributions from the joint venture. In addition to our share of the income, we receive a management fee calculated as a percentage of the equity investment in the joint venture. This fee is included in our income from unconsolidated joint venture. During the three months and nine months ended September 30, 2007, we earned management fees of \$458,000 and \$914,000, respectively.

Table of Contents**NATIONWIDE HEALTH PROPERTIES, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****7. Assets Held for Sale**

During the nine months ended September 30, 2007, we sold four assets held for sale for \$18,787,000, and provided a mortgage loan for the same amount, partially offset by a deferred gain of \$9,902,000 that will be recognized in proportion to principal payments received. We also sold one land parcel for \$471,000 and 18 bed licenses for net cash proceeds of \$233,000, resulting in gains of \$66,000 and \$39,000, respectively, which are included in gain on sale of facilities in discontinued operations. At September 30, 2007, two buildings remained in assets held for sale. At December 31, 2006, six buildings and one land parcel remained in assets held for sale. We intend to dispose of the assets classified as assets held for sale at September 30, 2007 within one year.

8. Other Assets

At September 30, 2007 and December 31, 2006, other assets consisted of:

	September 30, 2007	December 31, 2006
	(In thousands)	
Other receivables, net of reserves of \$4,565,000 and \$4,874,000 at September 30, 2007 and December 31, 2006, respectively	\$ 36,029	\$ 26,155
Deferred rent, net	9,677	7,756
Deferred finance costs	15,494	17,180
Capitalized lease and loan origination costs	17,563	16,129
Investments and restricted funds	16,140	18,068
Other	8,875	4,045
	\$ 103,778	\$ 89,333

Investments are recorded at fair value using market prices.

9. Credit Facility

At September 30, 2007, we had \$216,000,000 outstanding on our \$700,000,000 revolving senior unsecured credit facility (Credit Facility). At our option, borrowings under the Credit Facility bear interest at prime (7.75% at September 30, 2007) or applicable LIBOR plus 0.85% (6.04% at September 30, 2007). We pay a facility fee of 0.15% per annum on the total commitment under the agreement. The Credit Facility matures on December 15, 2010. The maturity date may be extended by one additional year at our discretion. As of September 30, 2007, we were in compliance with all covenants under the Credit Facility.

10. Common Stock

During 2006 and 2007, we entered into sales agreements with Cantor Fitzgerald & Co. to sell up to 15,000,000 shares of our common stock from time to time through a controlled equity offering program. During the nine months ended September 30, 2007, we sold approximately 5,289,000 shares of common stock at a weighted average price of \$31.44 resulting in net proceeds of approximately \$163,913,000 after sales fees.

We sponsor a dividend reinvestment and stock purchase plan that enables existing stockholders to purchase additional shares of common stock by automatically reinvesting all or part of the cash dividends paid on their shares of common stock. The plan also allows investors to acquire shares of our common stock, subject to certain limitations, including a maximum monthly investment of \$10,000, at a discount ranging from 0% to 5%, determined by us from time to time in accordance with the plan. The discount at September 30, 2007 was 2%. During the nine months ended September 30, 2007, we issued approximately 524,000 shares of common stock resulting in net proceeds of approximately \$15,538,000.

11. Earnings Per Share (EPS)

Basic EPS is computed by dividing income from continuing operations available to common stockholders by the weighted average common shares outstanding. Income from continuing operations available to common stockholders is calculated by deducting dividends declared on preferred stock from income from continuing operations. Income from continuing operations available to common stockholders includes gain on sale of facilities to our unconsolidated joint venture

Table of Contents**NATIONWIDE HEALTH PROPERTIES, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

(see Note 6) of \$29,350,000 and \$29,949,000 for the three months and nine months ended September 30, 2007, respectively. No gain on sale of facilities to our unconsolidated joint venture was recognized during the three months or nine months ended September 30, 2006.

Diluted EPS includes the effect of any potential shares outstanding, which for us is comprised of dilutive stock options, other share-settled compensation plans, our Series B Convertible Preferred Stock and forward equity shares (from the date we entered into the forward contract to the settlement date). The dilutive effect of stock options and other share-settled compensation plans is calculated using the treasury method with an offset from expected proceeds upon exercise of the stock options and unrecognized compensation expense. The calculation below excludes the Series B Convertible Preferred Stock for the nine months ended September 30, 2007 and the three months and nine months ended September 30, 2006 as it is not dilutive during those periods. The calculation below also excludes 60,000 stock options with option prices that would not be dilutive for the three months and nine months ended September 30, 2006. There are no stock options with option prices that would not be dilutive for the three months and nine months ended September 30, 2007. The table below details the components of the basic and diluted EPS from continuing operations available to common stockholders calculations:

	Three months ended September 30,			
	2007		2006	
	Income	Shares	Income	Shares
	(In thousands)			
Income from continuing operations	\$ 57,752		\$ 17,487	
Less: Series A preferred stock dividends	(1,729)		(1,729)	
Less: Series B convertible preferred stock dividends			(2,062)	
Amounts used to calculate Basic EPS	56,023	91,089	13,696	81,679
Effect of dilutive securities:				
Stock options		175		147
Other share-settled compensation plans		280		177
Series B convertible preferred stock		4,711		
Amounts used to calculate Diluted EPS	\$ 56,023	96,255	\$ 13,696	82,003

	Nine months ended September 30,			
	2007		2006	
	Income	Shares	Income	Shares
	(In thousands)			
Income from continuing operations	\$ 105,640		\$ 48,008	
Less: Series A preferred stock dividends	(5,185)		(5,185)	
Less: Series B convertible preferred stock dividends	(6,187)		(6,187)	
Amounts used to calculate Basic EPS	94,268	89,690	36,636	74,959
Effect of dilutive securities:				
Stock options		213		117
Other share-settled compensation plans		255		163
Forward equity shares				49
Amounts used to calculate Diluted EPS	\$ 94,268	90,158	\$ 36,636	75,288

12. Impairment of Assets

Edgar Filing: NATIONWIDE HEALTH PROPERTIES INC - Form 10-Q

No impairment charges were recognized during the nine months ended September 30, 2007.

During the nine months ended September 30, 2006, we recognized impairment charges of \$83,000 related to two skilled nursing facilities in assets held for sale to write them down to their individual estimated fair values less costs to sell.

Table of Contents**NATIONWIDE HEALTH PROPERTIES, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****13. Pension Plan**

During 1991, we adopted an unfunded pension plan covering the non-employee members of our Board of Directors. The benefits, limited to the number of years of service on the Board, are based upon the then current annual retainer in effect. The plan was frozen at December 31, 2005, and no additional years of service will be earned subsequent to that date. All years of benefits previously accrued will be paid in accordance with the terms of the plan. There was no service cost for the plan for the nine months ended September 30, 2007 or the nine months ended September 30, 2006. The interest cost for the plan was \$66,000 for the nine months ended September 30, 2007 and \$66,000 for the nine months ended September 30, 2006. We made \$56,000 of contributions to the plan for the nine months ended September 30, 2007 and \$63,000 for the nine months ended September 30, 2006, and we expect to make \$12,000 of contributions during the remainder of 2007.

14. Discontinued Operations

SFAS No. 144 requires the operating results of any assets with their own identifiable cash flows that are disposed of or held for sale be removed from income from continuing operations and reported as discontinued operations unless we have a continuing interest in the assets, as in a sale to a joint venture. The operating results for any such assets for any prior periods presented must also be reclassified as discontinued operations. See Note 7 for more detail regarding the facilities sold and classified as held for sale during 2007. The following table details the operating results reclassified to discontinued operations for the periods presented:

	Three months ended September 30, 2007		Nine months ended September 30, 2006	
	(In thousands)		(In thousands)	
Revenues	\$ 3	\$ 7,129	\$ 5,692	\$ 22,545
Expenses:				
Depreciation and amortization	34	1,570	1,371	5,099
General and administrative	18	9	24	58
Impairment of assets				83
	52	1,579	1,395	5,240
Income (loss) from discontinued operations	\$ (49)	\$ 5,550	\$ 4,297	\$ 17,305

15. Derivatives

During August and September 2007, we entered into four six-month Treasury lock agreements totaling \$250,000,000 at a weighted average rate of 4.212%. We entered into these Treasury lock agreements in order to hedge the expected interest payments associated with a portion of our October 19, 2007 issuance of \$300,000,000 (upsized from \$250,000,000) of notes (see Note 19). We assessed the effectiveness of these agreements as hedges at inception and on September 30, 2007 and consider these agreements to be highly effective cash flow hedges under SFAS No. 133. We recorded these Treasury lock agreements on our balance sheets at their estimated fair value of \$114,000 at September 30, 2007.

These Treasury lock agreements were settled in cash on October 17, 2007 for an amount equal to the present value of the difference between the locked Treasury rates and the unwind rate (equal to the then-prevailing Treasury rate less the forward premium or 4.364%). We reassessed the effectiveness of these agreements at the settlement date and determined that they were highly effective cash flow hedges under SFAS No. 133 for \$250,000,000 of the \$300,000,000 of notes as intended. The prevailing Treasury rate exceeded the rates in the Treasury lock agreements and, as a result, the counterparties to those agreements made payments to us of \$1,557,000. The settlement amounts will be amortized over the life of the debt as a yield reduction.

Edgar Filing: NATIONWIDE HEALTH PROPERTIES INC - Form 10-Q

In June 2006, we entered into two \$125,000,000, two-month Treasury lock agreements in order to hedge the expected interest payments associated with a portion of our July 2006 issuance of \$350,000,000 (upsized from \$250,000,000) of notes.

These Treasury lock agreements were settled in cash on July 11, 2006, concurrent with the pricing of the \$350,000,000 of notes, for an amount equal to the present value of the difference between the locked Treasury rates and the unwind rate. We reassessed the effectiveness of these agreements at the settlement date and determined that they were highly effective cash flow hedges under SFAS No. 133 for \$250,000,000 of the \$350,000,000 of notes as intended. The prevailing Treasury rate exceeded the rates in the Treasury lock agreements and, as a result, the counterparty to those agreements made payments to us of \$1,204,000. The settlement amounts are being amortized over the life of the debt as a yield reduction.

Table of Contents**NATIONWIDE HEALTH PROPERTIES, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****16. Comprehensive Income**

We recorded the August and September 2007 Treasury lock agreements on our balance sheets at their estimated fair value of \$114,000 at September 30, 2007. These Treasury lock agreements were settled in cash on October 17, 2007 for an amount equal to the present value of the difference between the locked Treasury rates and the unwind rate. The prevailing Treasury rate exceeded the rates in the Treasury lock agreements and, as a result, the counterparties to those agreements made payments to us of \$1,557,000. The settlement amounts will be recognized as a gain through other comprehensive income and will be amortized over the life of the related \$300,000,000 of notes as a yield reduction.

We recorded the June 2006 Treasury lock agreements on our balance sheets at their estimated fair value of \$1,576,000 at June 30, 2006. In connection with the settlement of these Treasury lock agreements on July 11, 2006, we recognized a gain of \$1,204,000. The gain was recognized through other comprehensive income and is being amortized over the life of the related \$350,000,000 of notes as a yield reduction. During the three months and nine months ended September 30, 2007, we recorded \$55,000 and \$162,000 of amortization, respectively and expect to record \$56,000 of amortization during the remainder of 2007.

The following table sets forth the computation of comprehensive income for the periods presented:

	Three months ended September 30, 2007 2006 (In thousands)		Nine months ended September 30, 2007 2006 (In thousands)	
Net income	\$ 57,742	\$ 31,719	\$ 171,222	\$ 82,821
Other comprehensive income:				
Gain (reduction of gain) on Treasury lock agreements	114	(372)	114	1,204
Amortization of gain on Treasury lock agreements	(55)	(51)	(162)	(51)
Total comprehensive income	\$ 57,801	\$ 31,296	\$ 171,174	\$ 83,974

SFAS No. 158 requires changes in the funded status of a defined benefit pension plan to be recognized through other comprehensive income in the year in which they occur. Adoption of this provision of SFAS No. 158 as of December 31, 2006 resulted in the recognition of \$130,000 of other comprehensive income related to the change in the funded status of our defined benefit pension plan. No changes in the funded status of the plan occurred during the three months or nine months ended September 30, 2007.

17. Income Taxes

In June 2006, the FASB issued Interpretation No. 48 *Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109* (FIN No. 48). FIN No. 48 clarifies the accounting for uncertainty in income taxes recognized in financial statements in accordance with SFAS No. 109 *Accounting for Income Taxes* and prescribes a recognition threshold and measurement attribute of tax positions taken or expected to be taken on a tax return.

We adopted the provisions of FIN No. 48 on January 1, 2007. No amounts were recorded for unrecognized tax benefits or related interest expense and penalties as a result of the implementation of FIN No. 48. The taxable periods ending December 31, 2003 through December 31, 2006 remain open to examination by the Internal Revenue Service and the tax authorities of the significant jurisdictions in which we do business.

18. Litigation

Edgar Filing: NATIONWIDE HEALTH PROPERTIES INC - Form 10-Q

In late 2004 and early 2005, we were served with several lawsuits in connection with a fire at the Greenwood Healthcare Center that occurred on February 26, 2003. At the time of the fire, the Greenwood Healthcare Center was owned by us and leased to and operated by Lexington Healthcare Group. There are a total of 13 lawsuits arising from the fire. Those suits have been filed by representatives of patients who were either killed or injured in the fire. The lawsuits seek unspecified monetary damages. The complaints allege that the fire was set by a resident who had previously been diagnosed with depression. The complaints allege theories of negligent operation and premises liability against Lexington Healthcare, as operator, and us as owner. Lexington Healthcare has filed for bankruptcy. The matters have been consolidated into one action in the Connecticut Superior Court Complex Litigation Docket at the Judicial District at Hartford, and are in various stages of discovery and motion practice. We have filed motions for summary judgment in several of the cases, which along with

Table of Contents

NATIONWIDE HEALTH PROPERTIES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

previously filed motions to strike remain pending before the court. We have also commenced mediation with respect to several of the claims, and in several instances, we have reached a settlement agreement within the limits of our commercial general liability insurance. Seven of the cases are settled, and further mediation is scheduled for November 2007. We would not expect to have rulings on the motions for summary judgment until after conclusion of any mediation.

We are being defended in the matter by our commercial general liability carrier. We believe that we have substantial defenses to the claims and that we have adequate insurance to cover the risks, should liability nonetheless be imposed. However, because a number of these lawsuits are still in the process of discovery and motion practice, it is not possible to predict the ultimate outcome of these claims.

19. Subsequent Events

On October 1, 2007, we redeemed all 900,485 outstanding shares of our 7.677% Series A Cumulative Preferred Step-Up REIT Securities, par value \$1.00 per share (Series A Preferred Stock), at a redemption price of \$100 per share. Concurrent with the redemption, we paid the final dividend on the Series A Preferred Stock.

On October 19, 2007, we issued \$300,000,000 of notes due February 1, 2013 at a fixed rate of 6.25% resulting in net proceeds of approximately \$297,000,000. The net proceeds were used to repay amounts outstanding under our Credit Facility and for general corporate purposes.

In August and September 2007, we entered into four six-month Treasury lock agreements totaling \$250,000,000 at a weighted average rate of 4.212%. We entered into these Treasury lock agreements in order to hedge the expected interest payments associated with a portion of these notes. The Treasury lock agreements were settled in cash on October 17, 2007 for the present value of the difference between the locked Treasury rates and the unwind rate (equal to the then-prevailing Treasury rate less the forward premium or 4.364%). The prevailing Treasury rate exceeded the rates in the Treasury lock agreements, thus the counterparties to those agreements made payments to us of \$1,557,000. The settlement amounts will be amortized over the life of the debt as a yield reduction.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**
Critical Accounting Policies

Our financial statements have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. On an ongoing basis, we evaluate our estimates and assumptions, including those that impact our most critical accounting policies. We base our estimates and assumptions on historical experience and on various other factors that we believe are reasonable under the circumstances. Actual results may differ from these estimates. We believe the following are our most critical accounting policies.

Revenue Recognition

Rental income from operating leases is recognized in accordance with accounting principles generally accepted in the United States, including SEC Staff Accounting Bulletin No. 104 *Revenue Recognition*. Our leases generally contain annual escalators. Many of our leases contain non-contingent rent escalators for which we recognize income on a straight-line basis over the lease term. Recognizing income on a straight-line basis requires us to calculate the total non-contingent rent to be paid over the life of a lease and to recognize the revenue evenly over that life. This method results in rental income in the early years of a lease being higher than actual cash received, creating a deferred rent asset included in the caption "Other assets" on our balance sheets. At some point during the lease, depending on its terms, the cash rent payments eventually exceed the straight-line rent which results in the deferred rent asset decreasing to zero over the remainder of the lease term. We assess the collectibility of straight-line rents in accordance with the applicable accounting standards and defer recognition of deferred rent if its collectibility is not reasonably assured. Certain leases contain escalators contingent on revenues or other factors, including increases based solely on changes in the Consumer Price Index. Such revenue increases are recognized over the lease term as the related contingencies occur.

Our assessment of the collectibility of straight-line rents is based on several factors, including the financial strength of the tenant and any guarantors, the historical operations and operating trends of the facility, the historical payment pattern of the tenant, the type of facility and whether we intend to continue to lease the facility to the current tenant, among others. If our evaluation of these factors indicates we may not receive the rent payments due in the future, we defer recognition of the straight-line rental income and, depending on the circumstances, we may provide a reserve against the previously recognized deferred rent asset for a portion, up to its full value, that we estimate may not be recoverable. If our assumptions or estimates regarding the collectibility of future rent payments required by a lease change, we may adjust our reserve to increase or reduce the rental revenue recognized, and/or to increase or reduce the reserve against the existing deferred rent balance.

We recorded \$1,924,000 of revenues in excess of cash received during the nine months ended September 30, 2007 and \$391,000 of revenues in excess of cash received during the nine months ended September 30, 2006. There is \$9,677,000 at September 30, 2007 and \$7,756,000 at December 31, 2006, of deferred rent receivables, net of reserves, recorded under the caption "Other assets" on our balance sheets. We evaluate the collectibility of the deferred rent balances on an ongoing basis and provide reserves against receivables we believe may not be fully recoverable. The ultimate amount of deferred rent we realize could be less than amounts currently recorded.

Depreciation and Useful Lives of Assets

We calculate depreciation on our buildings and improvements using the straight-line method based on estimated useful lives of up to 40 years, generally from 30 to 40 years. A significant portion of the cost of each property is allocated to building (generally approximately 90%). The allocation of the cost between land and building, and the determination of the useful life of a property are based on management's estimates. We calculate depreciation and amortization on equipment and lease costs using the straight-line method based on estimated useful lives of up to five years or the lease term, whichever is appropriate. We review and adjust useful lives periodically. If we do not allocate appropriately between land and building or we incorrectly estimate the useful lives of our assets, our computation of depreciation and amortization will not appropriately reflect the usage of the assets over future periods. If we overestimate the useful life of an asset, the depreciation expense related to the asset will be understated, which could result in a loss if the asset is sold in the future.

Asset Impairment

We review our long-lived assets individually on a quarterly basis to determine if there are indicators of impairment in accordance with SFAS No. 144 *Accounting for the Impairment or Disposal of Long-Lived Assets* (SFAS No. 144). Indicators may include, among others, a tenant's inability to make rent payments, operating losses or negative operating trends at the facility level, notification by a tenant that it will not renew its lease, or a decision to dispose of an asset or adverse changes in the fair value of any of our properties. For operating assets, if indicators of impairment exist, we compare the undiscounted

Table of Contents

cash flows from the expected use of the property to its net book value to determine if impairment exists. If the sum of the future estimated undiscounted cash flows is higher than the current net book value, in accordance with SFAS No. 144, we conclude no impairment exists. If the sum of the future estimated undiscounted cash flows is lower than its current net book value, we recognize an impairment loss for the difference between the net book value of the asset and its estimated fair value. To the extent we decide to sell an asset, we recognize an impairment loss if the current net book value of the asset exceeds its fair value less selling costs. The above analyses require us to determine whether there are indicators of impairment for individual assets, to estimate the most likely stream of cash flows from operating assets and to determine the fair value of assets that are impaired or held for sale. If our assumptions, projections or estimates regarding an asset change in the future, we may have to record an impairment charge to reduce or further reduce the net book value of the asset. No impairment charges were recorded during the nine months ended September 30, 2007. During the nine months ended September 30, 2006, we recognized impairment charges of \$83,000 related to two skilled nursing facilities in assets held for sale to write them down to their individual estimated fair values less costs to sell.

Collectibility of Receivables

We evaluate the collectibility of our rent, mortgage loans and other receivables on a regular basis based on factors including, among others, payment history, the financial strength of the borrower and any guarantors, the value of the underlying collateral, the operations and operating trends of the underlying collateral, if any, the asset type and current economic conditions. If our evaluation of these factors indicates we may not recover the full value of the receivable, we provide a reserve against the portion of the receivable that we estimate may not be recovered. This analysis requires us to determine whether there are factors indicating a receivable may not be fully collectible and to estimate the amount of the receivable that may not be collected. If our assumptions or estimates regarding the collectibility of a receivable change in the future, we may have to record a reserve to reduce or further reduce the carrying value of the receivable.

Impact of New Accounting Pronouncements

In September 2006, the Financial Accounting Standards Board (FASB) issued SFAS No. 157 *Fair Value Measurements* (SFAS No. 157). SFAS No. 157 defines fair value for assets and liabilities, establishes a framework for measuring fair value and expands disclosures about fair value measurements. SFAS No. 157 is effective January 1, 2008. SFAS No. 157 is not expected to have a material impact on our results of operations or financial position.

In September 2006, the FASB issued SFAS No. 158 *Employer's Accounting for Defined Benefit Pension and Other Postretirement Plans - an amendment of FASB Statements No. 87, 88, 106, and 132(R)* (SFAS No. 158). SFAS No. 158 requires recognition of the funded status of such plans as an asset or liability, with changes in the funded status recognized through other comprehensive income in the year in which they occur. These provisions of SFAS No. 158 were effective December 31, 2006 and were adopted at that time. Additionally, SFAS No. 158 requires measurement of a plan's assets and its obligations at the end of the employer's fiscal year, effective December 31, 2008. SFAS No. 158 has not had, and is not expected to have, a material impact on our results of operations or financial position.

In February 2007, the FASB issued SFAS No. 159 *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS No. 159). SFAS No. 159 provides companies with an option to report selected financial assets and liabilities at fair value and establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities. SFAS No. 159 is effective January 1, 2008. The adoption of SFAS No. 159 is not expected to have a material impact on our results of operations or financial position.

In June 2006, the FASB issued Interpretation No. 48 *Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109* (FIN No. 48). FIN No. 48 clarifies the accounting for uncertainty in income taxes recognized in financial statements in accordance with SFAS No. 109 *Accounting for Income Taxes* and prescribes a recognition threshold and measurement attribute of tax positions taken or expected to be taken on a tax return. FIN No. 48 is effective for fiscal years beginning after December 15, 2006. We adopted the provisions of FIN No. 48 on January 1, 2007. No amounts were recorded for unrecognized tax benefits or related interest expense and penalties as a result of the implementation of FIN No. 48.

Operating Results

Nine-Month Period Ended September 30, 2007 vs. Nine-Month Period Ended September 30, 2006

Triple-net lease rental income increased \$55,424,000, or 34%, in 2007 as compared to 2006. The increase was primarily due to rental income from 74 facilities acquired in 2007, 84 facilities acquired during 2006 and rent increases at existing facilities. We also recognized \$1,121,000 of triple-net lease rental income related to a non-recurring settlement of delinquent tenant obligations.

Table of Contents

Operating rent was generated by our non triple-net leased medical office buildings and increased \$2,231,000, or 32%, in 2007 as compared to 2006. The majority of the medical office buildings were acquired during the first quarter of 2006 through our joint ventures with The Broe Companies (Broe). The increase was primarily due to recognizing nine months of rent in 2007 as compared to approximately eight months in 2006, increased expense reimbursement revenues and rent from five facilities acquired in 2007.

Interest and other income increased \$5,979,000, or 61%, in 2007 as compared to 2006. The increase was primarily due to one loan funded and four mortgage loans and other loans acquired during 2007, five loans funded during 2006 and commitment fees included in other income, partially offset by loan repayments. We also recognized \$844,000 of other income related to a non-recurring settlement of delinquent tenant obligations.

Interest and amortization of deferred financing costs increased \$9,992,000, or 15%, in 2007 as compared to 2006. The increase was primarily due to increased borrowings to fund acquisitions in 2007 and 2006, including the issuance of \$350,000,000 of notes in July 2006, an increase in the interest rates on our floating rate debt, the assumption of \$38,925,000 of secured debt during 2007 and \$134,529,000 during 2006, offset in part by debt repayments.

Depreciation and amortization increased \$20,163,000, or 39%, as compared to 2006. The increase was primarily due to the acquisition of 74 facilities in 2007 and 84 facilities during 2006.

General and administrative expenses increased \$5,682,000, or 48%, as compared to 2006. The increase was primarily due to increased compensation expense, including the amortization of stock-based compensation, other performance based awards and increased staff levels, and increases in other general corporate expenses.

Medical office building operating expenses relate to the operations of our non triple-net leased medical office buildings and increased \$1,208,000, or 31%, as compared to 2006. The majority of the medical office buildings were acquired during the first quarter of 2006 through our joint ventures with Broe. The increase was primarily due to recognizing nine months of expenses in 2007 as compared to approximately eight months in 2006, the acquisition of five facilities in 2007 and increased tax and insurance expense.

Income from unconsolidated joint venture represents our share of the income generated by our joint venture with a state pension fund investor and our management fee calculated as a percentage of the equity investment in the joint venture. The joint venture made its first investments in March 2007.

Gain on sale of facilities to unconsolidated joint venture represents the gain related to the sale of facilities by us to this joint venture. Please see the caption *Investment in Unconsolidated Joint Venture* below for more information regarding the unconsolidated joint venture.

SFAS No. 144 requires the operating results of any assets with their own identifiable cash flows that are disposed of or held for sale be removed from income from continuing operations and reported as discontinued operations. The operating results for any such assets for any prior periods presented must also be reclassified as discontinued operations. Discontinued operations income increased \$30,769,000 as compared to 2006. Discontinued operations income of \$65,582,000 for the nine months ended September 30, 2007 was comprised of gain on sale of \$61,285,000, rental income of \$5,689,000 and interest and other income of \$3,000, partially offset by depreciation of \$1,371,000 and general and administrative expenses of \$24,000. Discontinued operations income of \$34,813,000 for the nine months ended September 30, 2006 was comprised of rental income of \$22,423,000, gain on sale of \$17,508,000 and interest and other income of \$122,000, partially offset by depreciation of \$5,099,000, impairment charges of \$83,000 and general and administrative expenses of \$58,000. The difference in the composition of discontinued operations income, excluding the gains, was primarily caused by the inclusion of income from facilities sold in 2006 and 2007 in discontinued operations in 2006 while only income from facilities sold in 2007 is included in discontinued operations in 2007. We expect to have future sales of facilities or reclassifications of facilities to assets held for sale, and the related income or loss would be included in discontinued operations.

Three-Month Period Ended September 30, 2007 vs. Three-Month Period Ended September 30, 2006

Triple-net lease rental income increased \$15,662,000, or 26%, in 2007 as compared to 2006. The increase was primarily due to rental income from 74 facilities acquired in 2007, 30 facilities acquired during the last six months of 2006 and rent increases at existing facilities. We also recognized \$1,121,000 of triple-net lease rental income related to a non-recurring settlement of delinquent tenant obligations.

Operating rent was generated by our non triple-net leased medical office buildings and increased \$1,081,000, or 44%, in 2007 as compared to 2006. The increase was primarily due to five facilities acquired during 2007 and increased expense reimbursement revenues.

Edgar Filing: NATIONWIDE HEALTH PROPERTIES INC - Form 10-Q

Interest and other income increased \$2,506,000, or 62%, in 2007 as compared to 2006. The increase was primarily due to one loan funded and four mortgage loans and other loans acquired during 2007, one loan funded during the last six months of 2006 and commitment fees included in other income, partially offset by loan repayments. We also recognized \$844,000 of other income related to a non-recurring settlement of delinquent tenant obligations.

Table of Contents

Interest and amortization of deferred financing costs increased \$497,000, or 2%, in 2007 as compared to 2006. The increase was primarily due to increased borrowings to fund acquisitions in 2007 and 2006, including the issuance of \$350,000,000 of notes in July 2006, an increase in the interest rates on our floating rate debt, the assumption of \$38,925,000 of secured debt during 2007 and \$20,069,000 during the last six months of 2006, offset in part by debt repayments.

Depreciation and amortization increased \$5,994,000, or 30%, as compared to 2006. The increase was primarily due to the acquisition of 74 facilities in 2007 and 30 facilities during the last six months of 2006.

General and administrative expenses increased \$1,922,000, or 46%, as compared to 2006. The increase was primarily due to increased compensation expense, including the amortization of stock-based compensation, increased staff levels and other performance based awards, and increases in other general corporate expenses.

Medical office building operating expenses relate to the operations of our non triple-net leased medical office buildings and increased \$384,000, or 25%, as compared to 2006. The increase was primarily due to the acquisition of five facilities in 2007.

Income from unconsolidated joint venture represents our share of the income generated by our joint venture with a state pension fund investor and our management fee calculated as a percentage of the equity investment in the joint venture. The joint venture made its first investments in March 2007.

Gain on sale of facilities to unconsolidated joint venture represents the gain related to the sale of facilities by us to this joint venture. Please see the caption *Investment in Unconsolidated Joint Venture* below for more information regarding the unconsolidated joint venture.

SFAS No. 144 requires the operating results of any assets with their own identifiable cash flows that are disposed of or held for sale be removed from income from continuing operations and reported as discontinued operations. The operating results for any such assets for any prior periods presented must also be reclassified as discontinued operations. Discontinued operations income decreased \$14,242,000 as compared to 2006. Discontinued operations loss of \$10,000 for the three months ended September 30, 2007 was comprised of depreciation of \$34,000 and general and administrative expenses of \$18,000, partially offset by gains on sale of \$39,000 and interest and other income of \$3,000. Discontinued operations income of \$14,232,000 for the three months ended September 30, 2006 was comprised of gains on sale of \$8,682,000 and rental income of \$7,129,000, partially offset by depreciation of \$1,570,000 and general and administrative expenses of \$9,000. The difference in the composition of discontinued operations income, excluding the gains, was primarily caused by the inclusion of income from facilities sold in 2006 and 2007 in discontinued operations in 2006 while only income from facilities sold in 2007 is included in discontinued operations in 2007. We expect to have future sales of facilities or reclassifications of facilities to assets held for sale, and the related income or loss would be included in discontinued operations.

Our leases and mortgages generally contain provisions under which rents or interest income increase with increases in facility revenues and/or increases in the Consumer Price Index. If facility revenues and/or the Consumer Price Index do not increase, our revenues may not increase. Rent levels under renewed leases will also impact revenues. As of September 30, 2007, we had leases on six facilities expiring in 2007. Tenant purchase option exercises would decrease rental income. We believe our tenants may exercise purchase options on assets with option prices totaling approximately \$54,000,000 during the remainder of 2007.

We expect to make additional acquisitions during 2007, although we cannot predict the quantity and timing of any such acquisitions. As we make additional investments in facilities, depreciation and/or interest expense will also increase. We expect any such increases to be at least partially offset by associated rental or interest income. While additional investments in healthcare facilities would increase revenues, facility sales or mortgage repayments would serve to offset any revenue increases and could reduce revenues.

Investment in Consolidated Medical Office Building Joint Ventures

In December 2005, we entered into a joint venture with Broe called NHP/Broe, LLC (*Broe I*) to invest in medical office buildings. We hold a 90% equity interest in the venture and Broe holds a 10% equity interest. Broe is the managing member of *Broe I*, but we consolidate the joint venture in our consolidated financial statements. The accounting policies of the joint venture are consistent with our accounting policies. No investments were made by this joint venture prior to 2006. All intercompany balances with the joint venture have been eliminated for purposes of our consolidated financial statements.

During the nine months ended September 30, 2007, the *Broe I* joint venture funded \$886,000 in capital improvements at certain facilities in accordance with existing lease provisions.

Table of Contents

During the nine months ended September 30, 2007, cash distributions from the Broe I joint venture of \$481,000 and \$53,000 were made to us and to Broe, respectively. During the nine months ended September 30, 2006, cash distributions from the Broe I joint venture of \$1,026,000 and \$183,000 were made to us and to Broe, respectively.

In February 2007, we entered into a second joint venture with Broe called NHP/Broe II, LLC (Broe II) to invest in medical office buildings. We hold a 95% equity interest in the venture and Broe holds a 5% equity interest. Broe is the managing member of Broe II, but we consolidate the joint venture in our financial statements. The accounting policies of the joint venture are consistent with our accounting policies. All intercompany balances with the joint venture have been eliminated for purposes of our consolidated financial statements.

During the nine months ended September 30, 2007, the Broe II joint venture acquired four medical office buildings located in two states. The purchase price totaled \$26,319,000, of which \$23,831,000 was allocated to real estate with the remaining \$2,488,000 allocated to other assets and liabilities. The acquisitions were originally financed with a bridge loan from us of \$5,700,000, and capital contributions of \$19,588,000 and \$1,031,000, from us and Broe, respectively. The bridge loan from us was replaced on August 1, 2007 by third party mortgage financing in the amount of \$5,213,000 (funding up to \$5,900,000 is available under the financing agreements).

During the nine months ended September 30, 2007, the Broe II joint venture also funded \$400,000 in capital improvements at certain facilities in accordance with existing lease provisions.

During the nine months ended September 30, 2007, cash distributions from the Broe II joint venture of \$204,000 and \$11,000 were made to us and to Broe, respectively.

Investment in Unconsolidated Joint Venture

In January 2007, we entered into a joint venture with a state pension fund investor. The purpose of the joint venture is to acquire and develop assisted living, independent living and skilled nursing facilities. We manage and own 25% of the joint venture, which will fund its investments of up to \$475,000,000 with approximately 40% equity contributions and 60% debt. We may, by mutual agreement with our joint venture partner, elect to increase the total investments by an additional \$500,000,000. The financial statements of the joint venture are not consolidated in our financial statements as our joint venture partner has substantive participating rights, and our investment is accounted for using the equity method.

During the nine months ended September 30, 2007, the joint venture acquired seven skilled nursing facilities and 14 assisted and independent living facilities located in seven states for approximately \$331,000,000. The acquisitions were initially financed by the assumption of \$32,621,000 of mortgage financing, \$56,000,000 of new mortgage financing, capital contributions from our joint venture partner of approximately \$182,000,000 and capital contributions from us of approximately \$60,000,000. The joint venture subsequently placed approximately \$102,000,000 of mortgage financing on portions of the portfolio resulting in cash distributions reducing net capital contributions to approximately \$105,000,000 and \$35,000,000 for our joint venture partner and us, respectively. Twelve of the assisted and independent living facilities with a total cost of approximately \$143,000,000 were acquired by the joint venture from us, and the related leases were transferred to the joint venture.

Liquidity and Capital Resources

Operating Activities

Cash provided by operating activities during the nine months ended September 30, 2007 increased \$47,574,000, or 36%, as compared to the same period in 2006. This was primarily due to revenue increases from our owned facilities and mortgage loans as a result of acquisitions and funding of mortgage loans during 2007 and 2006, as well as the collection of certain receivables and amounts included in the caption Other assets on our balance sheets, offset in part by increased interest and general and administrative expenses. There have been no significant changes in the underlying sources and uses of cash provided by operating activities.

Investing Activities

During the nine months ended September 30, 2007, we acquired 40 assisted and independent living facilities, 28 skilled nursing facilities, three continuing care retirement centers, two triple-net leased medical office buildings and one non triple-net leased medical office building in 17 separate transactions for an aggregate investment of \$424,054,000, including the assumption of \$38,925,000 of mortgage financing and \$7,298,000 of security deposits and other holdback items. We also funded \$16,433,000 in expansions, construction and capital improvements at certain facilities in accordance with existing lease provisions. Such expansions, construction and capital improvements generally result in an

Edgar Filing: NATIONWIDE HEALTH PROPERTIES INC - Form 10-Q

increase in the minimum rents earned by us on these facilities either at the time of funding or upon completion of the project. At September 30, 2007, we had committed to fund additional expansions, construction and capital improvements of approximately \$138,000,000.

Table of Contents

During the nine months ended September 30, 2007, we acquired four medical office buildings through one of our joint ventures with Broe for \$26,319,000. We also funded \$1,286,000 in capital improvements at certain facilities in accordance with existing lease provisions through our two joint ventures with Broe.

During the nine months ended September 30, 2007, we also acquired seven skilled nursing facilities and 14 assisted and independent living facilities through our unconsolidated joint venture with a state pension fund investor for approximately \$331,000,000. Twelve of the assisted and independent living facilities were acquired by the joint venture from us, and the related leases were transferred to the joint venture.

During the nine months ended September 30, 2007, we sold 12 assisted and independent living facilities in three separate transactions to the unconsolidated joint venture we have with a state pension fund investor for \$142,756,000, of which we received net cash proceeds of \$96,007,000 (\$13,461,000 representing our retained ownership interest in the joint venture). The related leases were transferred to the joint venture. The sales resulted in a gain of \$39,932,000, of which \$29,949,000 (\$9,983,000 representing the gain on our retained ownership interest in the joint venture was deferred) is included in gain on sale of facilities to unconsolidated joint venture in continuing operations.

During the nine months ended September 30, 2007, we sold four assets held for sale for \$18,787,000, and provided a mortgage loan for the same amount, partially offset by a deferred gain of \$9,902,000 that will be recognized in proportion to principal payments received. We also sold one land parcel for \$471,000 and 18 bed licenses for net cash proceeds of \$233,000, resulting in gains of \$66,000 and \$39,000, respectively, which are included in gain on sale of facilities in discontinued operations.

During the nine months ended September 30, 2007, we sold one skilled nursing facility, not previously transferred to assets held for sale, to the tenant of the facility pursuant to a purchase option for net cash proceeds of \$3,750,000. The sale resulted in a gain of \$1,048,000 that is included in gain on sale of facilities in discontinued operations.

On June 29, 2007, we sold 36 skilled nursing facilities to Complete Care Services, Inc., the tenant of the facilities, for net cash proceeds of \$124,693,000. The proceeds from this transaction were used to repay amounts outstanding under our revolving senior unsecured credit facility. This transaction resulted in a gain of \$60,132,000 that is included in gain on sale of facilities in discontinued operations.

Excluding the loan for the facilities sold in the transaction discussed above, during the nine months ended September 30, 2007, we acquired four mortgage loans secured by six assisted and independent living facilities and four skilled nursing facilities totaling \$19,100,000 (including a premium of \$428,000). One of the four mortgage loans acquired was prepaid in July 2007 in the amount of \$4,737,000. In connection with the acquisition of the four mortgage loans, we acquired \$27,695,000 of loans secured by leasehold mortgages and other items which are included in the caption Other assets on our balance sheets. We also funded \$1,288,000 on existing mortgage loans.

Financing Activities

At September 30, 2007, we had \$484,000,000 available under our \$700,000,000 revolving senior unsecured credit facility (Credit Facility) compared to \$561,000,000 at December 31, 2006. The decrease was primarily due to the acquisitions described above, offset in part by the sales of assets and the issuance of common stock discussed below. At our option, borrowings under the Credit Facility bear interest at prime (7.75% at September 30, 2007) or applicable LIBOR plus 0.85% (6.04% at September 30, 2007). We pay a facility fee of 0.15% per annum on the total commitment under the agreement. The Credit Facility expires on December 15, 2010. The maturity date may be extended by one additional year at our discretion.

During the nine-month period ended September 30, 2007, we prepaid \$27,638,000 of fixed rate secured debt that bore interest at a weighted average rate of 6.62%. The prepayments were funded by borrowings on our Credit Facility and by cash on hand.

During the nine-month period ended September 30, 2007, we repaid \$17,000,000 of fixed rate notes with a weighted average rate of 7.31% at maturity and prepaid \$4,000,000 of fixed rate notes with a rate of 8.25%. The payments were funded by borrowings on our Credit Facility and by cash on hand.

We anticipate repaying senior notes at maturity with a combination of proceeds from borrowings on our Credit Facility and cash on hand. Borrowings on our Credit Facility could be repaid by potential asset sales or the repayment of mortgage loans receivable, the potential issuance of debt or equity securities under the shelf registration statement discussed below or cash from operations. Our senior notes have been investment grade rated since 1994. Our credit ratings at September 30, 2007 were Baa3 from Moody's Investors Service, BBB- from Standard & Poor's Ratings Services and BBB- from Fitch Ratings.

Table of Contents

During 2006 and 2007 we entered into sales agreements with Cantor Fitzgerald & Co. to sell up to 15,000,000 shares of our common stock from time to time through a controlled equity offering program. During the nine-month period ended September 30, 2007, we sold approximately 5,289,000 shares of common stock at a weighted average price of \$31.44 resulting in net proceeds of approximately \$163,913,000 after sales fees.

We sponsor a dividend reinvestment and stock purchase plan that enables existing stockholders to purchase additional shares of common stock by automatically reinvesting all or part of the cash dividends paid on their shares of common stock. The plan also allows investors to acquire shares of our common stock, subject to certain limitations, including a maximum monthly investment of \$10,000, at a discount ranging from 0% to 5%, determined by us from time to time in accordance with the plan. The discount at September 30, 2007 was 2%. During the nine months ended September 30, 2007, we issued approximately 524,000 shares of common stock resulting in net proceeds of approximately \$15,538,000.

At September 30, 2007, we had a shelf registration statement on file with the Securities and Exchange Commission under which we may issue securities including debt, convertible debt, common and preferred stock. In addition, at September 30, 2007, we had approximately 2,568,000 shares of common stock available for issuance under our dividend reinvestment and stock purchase plan.

Financing for future investments and for the repayment of the obligations and commitments noted above may be provided by borrowings under our Credit Facility discussed above, private placements or public offerings of debt or equity either under the shelf registration statement discussed above or under new registration statements, potential asset sales or mortgage loans receivable payoffs, the assumption of secured indebtedness, obtaining mortgage financing on a portion of our owned portfolio or through joint ventures.

We anticipate the possible sale of certain facilities, primarily due to purchase option exercises. In addition, mortgage loans receivable might be prepaid. In the event that there are facility sales or mortgage loan receivable repayments in excess of new investments, revenues may decrease. We anticipate using the proceeds from any facility sales or mortgage loans receivable repayments to provide capital for future investments, to reduce the outstanding balance on our Credit Facility or to repay other borrowings as they mature. Any such reduction in debt levels would result in reduced interest expense that we believe would partially offset any decrease in revenues. We believe the combination of the available balance of \$484,000,000 on our \$700,000,000 Credit Facility and the availability under the shelf registration statements provides sufficient liquidity and financing capability to finance anticipated future investments, maintain our current dividend level and repay borrowings at or prior to their maturity, for at least the next 12 months.

Off-Balance Sheet Arrangements

During August and September 2007, we entered into four six-month Treasury lock agreements totaling \$250,000,000 in order to hedge the expected interest payments associated with a portion of the \$300,000,000 of notes issued in October 2007 as described in Notes 15 and 19 to our consolidated financial statements. The only off-balance sheet financing arrangement that we currently utilize is the unconsolidated joint venture discussed above under the caption Investment in Unconsolidated Joint Venture. In June 2006, we entered into two \$125,000,000, two-month Treasury lock agreements in order to hedge the expected interest payments associated with a portion of the \$350,000,000 of notes issued in July 2006 as described in Note 15 to our consolidated financial statements.

Statement Regarding Forward-Looking Disclosure

Certain information contained in this report includes statements that may be deemed to be forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include statements regarding our expectations, beliefs, intentions, plans, objectives, goals, strategies, future events or performance and underlying assumptions and other statements which are other than statements of historical facts. These statements may be identified, without limitation, by the use of forward-looking terminology such as may, will, anticipates, expects, believes, intends, should or comparable terms or the negative thereof. All forward-looking statements included report are based on information available to us on the date hereof. These statements speak only as of the date hereof and we assume no obligation to update such forward-looking statements. These statements involve risks and uncertainties that could cause actual results to differ materially from those described in the statements. These risks and uncertainties include (without limitation) the following:

general distress of the healthcare industry;

the effect of economic and market conditions and changes in interest rates;

Table of Contents

access to the capital markets and the cost of capital;

increasing competition adversely impacting the availability, amount and yield of any additional investments;

deterioration of the operating results, occupancy levels or financial condition, including bankruptcies, of our tenants;

potential losses on the sale of certain facilities and lost revenues from purchase option exercises, loan repayments, lease expirations and restructurings;

changes in the ratings of our debt securities;

failure of our operators to comply with governmental reimbursement programs such as Medicare and Medicaid, licensing and certification requirements, fraud and abuse regulations or new legislative developments;

the ability of our tenants to meet their payment obligations, including the repayment of deferred rent or loans in future periods;

the ability of our tenants to obtain and maintain adequate liability and other insurance;

our ability to attract new tenants for certain facilities;

our ability to sell certain facilities for their book value;

changes in or inadvertent violations of tax laws and regulations and other factors that can affect real estate investment trusts and our status as a real estate investment trust; and

the risk factors set forth under the caption "Risk Factors" in Part II Item 1A and in our most recent annual report on Form 10-K and any subsequent quarterly reports on Form 10-Q filed with the SEC.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

This market risk exposure discussion is an update of material changes to the Item 7a. "Quantitative and Qualitative Disclosures About Market Risk" discussion included in our Annual Report on Form 10-K for the year ended December 31, 2006 and should be read in conjunction with that discussion. Readers are cautioned that many of the statements contained in this "Quantitative and Qualitative Disclosures About Market Risk" discussion are forward-looking and should be read in conjunction with our disclosures under the heading "Statement Regarding Forward-Looking Disclosure" set forth above.

We are exposed to market risks related to fluctuations in interest rates on our mortgage loans receivable and debt. We may hold derivative instruments to manage our exposure to these risks, and all derivative instruments are matched against specific debt obligations.

We provide mortgage loans to tenants of healthcare facilities as part of our normal operations, which generally have fixed rates. Some mortgage loans have adjustable rates; however, the rates adjust only once or twice over the term of the loans and the minimum adjusted rates are equal to the then current rates. Therefore, all mortgage loans receivable are treated as fixed rate notes.

Edgar Filing: NATIONWIDE HEALTH PROPERTIES INC - Form 10-Q

We utilize debt financing primarily for the purpose of making additional investments in healthcare facilities. Historically, we have made short-term borrowings on our variable rate unsecured revolving Credit Facility to fund our acquisitions until market conditions were appropriate, based on management's judgment, to issue stock or fixed rate debt to provide long-term financing.

A portion of our secured debt is variable rate debt in the form of housing revenue bonds that were assumed in connection with the acquisition of certain healthcare facilities or other mortgage debt.

During the nine months ended September 30, 2007, the borrowings under our unsecured revolving Credit Facility increased from \$139,000,000 to \$216,000,000.

For fixed rate debt, changes in interest rates generally affect the fair market value, but do not impact earnings or cash flows. Conversely, for variable rate debt other than the housing revenue bonds described above, changes in interest rates generally do not impact fair market value, but do affect the future earnings and cash flows. We generally cannot prepay fixed rate debt prior to maturity. Therefore, interest rate risk and changes in fair market value should not have a significant impact on the fixed rate debt until we would be required to refinance such debt. Holding the variable rate debt balance constant, and including the bank borrowings as variable rate debt due to its nature, each one percentage point increase in interest rates would result in an increase in interest expense for the remaining three months of 2007 of \$685,000.

Table of Contents

Interest rate increases during 2007 increased the interest expense related to our Credit Facility. Any future interest rate increases will further increase the cost of borrowings on our Credit Facility and any borrowings to refinance long-term debt as it matures or to finance future acquisitions.

Item 4. Controls and Procedures

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our Chief Executive Officer and Chief Financial and Portfolio Officer, of the effectiveness of our disclosure controls and procedures. Disclosure controls and procedures are designed to ensure that information required to be disclosed in our periodic reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Based upon that evaluation, our Chief Executive Officer and Chief Financial and Portfolio Officer concluded that our disclosure controls and procedures were effective as of the end of the quarterly period covered by this report. No change in our internal control over financial reporting occurred during our last fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

In late 2004 and early 2005, we were served with several lawsuits in connection with a fire at the Greenwood Healthcare Center that occurred on February 26, 2003. At the time of the fire, the Greenwood Healthcare Center was owned by us and leased to and operated by Lexington Healthcare Group. There are a total of 13 lawsuits arising from the fire. Those suits have been filed by representatives of patients who were either killed or injured in the fire. The lawsuits seek unspecified monetary damages. The complaints allege that the fire was set by a resident who had previously been diagnosed with depression. The complaints allege theories of negligent operation and premises liability against Lexington Healthcare, as operator, and us as owner. Lexington Healthcare has filed for bankruptcy. The matters have been consolidated into one action in the Connecticut Superior Court Complex Litigation Docket at the Judicial District at Hartford, and are in various stages of discovery and motion practice. We have filed motions for summary judgment in several of the cases, which along with previously filed motions to strike remain pending before the court. We have also commenced mediation with respect to several of the claims, and in several instances, we have reached a settlement agreement within the limits of our commercial general liability insurance. Seven of the cases are settled, and further mediation is scheduled for November 2007. We would not expect to have rulings on the motions for summary judgment until after conclusion of any mediation.

We are being defended in the matter by our commercial general liability carrier. We believe that we have substantial defenses to the claims and that we have adequate insurance to cover the risks, should liability nonetheless be imposed. However, because a number of these lawsuits are still in the process of discovery and motion practice, it is not possible to predict the ultimate outcome of these claims.

Item 1A. Risk Factors

Part II Item 1A, Risk Factors, of our Annual Report on Form 10-K for the year ended December 31, 2006 includes a detailed discussion of known risks facing us. The information presented below updates, and should be read in conjunction with, the risk factors and information disclosed in our 2006 Form 10-K. The categorization of risks set forth in our 2006 Form 10-K and below is meant to help you better understand the risks facing us and is not intended to limit your consideration of the possible effects of these risks to the listed categories. Any adverse effects related to the risks discussed in our 2006 Form 10-K and below may, and likely will, adversely affect many aspects of our business.

Our Common Stock

Market volatility may adversely affect the market price of our common stock. As with other publicly traded securities, the trading price of our common stock depends on several factors, many of which are beyond our control, including: general market and economic conditions; prevailing interest rates; the market for similar securities issued by other REITs; our credit rating; and our financial condition and results of operations.

Holders of our outstanding preferred stock have liquidation and other rights that are senior to the rights of the holders of our common stock. Our board of directors has the authority to designate and issue preferred stock that may have dividend, liquidation and other rights that are senior to those of our common stock. As of September 30, 2007, 900,485 shares of our Series A cumulative preferred step-up REIT securities (Series A Preferred Stock) and 1,064,450 shares of our Series B cumulative convertible preferred stock were outstanding. On October 1, 2007, we redeemed all 900,485 outstanding shares of our Series A Preferred Stock. Holders of our preferred stock are entitled to cumulative dividends before any dividends may be declared or set aside on our common stock, subject to limited exceptions. Upon our voluntary or involuntary liquidation, dissolution or winding up, before any payment is made to holders of our common stock, holders of our preferred stock are entitled to receive a liquidation preference of \$100 per share, plus any accrued and unpaid distributions. This will reduce the remaining amount of our assets, if any, available to distribute to holders of our common stock. In addition, holders of our preferred stock have the right to elect two additional directors to our board of directors if six quarterly preferred dividends are in arrears.

Table of Contents

A decision by any of our significant stockholders to sell a substantial amount of our common stock could depress our stock price. Based on filings with the Securities and Exchange Commission and shareholder reporting services, as of June 30, 2007, five of our stockholders owned over 5% of our common stock, for a total of approximately 38.2% of our common stock. A decision by any of these stockholders to sell a substantial amount of our common stock could depress the trading price of our common stock.

Item 6. Exhibits

Exhibit 3.1*	Articles of Amendment of the Amended and Restated Articles of Incorporation of the Company, filed as Exhibit 3.1 to the Company's Form 8-K dated April 27, 2007, and incorporated herein by this reference.
Exhibit 3.2*	Articles Supplementary, filed October 23, 2007 with the State Department of Assessments and Taxation of Maryland., filed as Exhibit 3.1 to the Company's Form 8-K dated October 23, 2007, and incorporated herein by this reference.
Exhibit 4.1*	Indenture, dated October 19, 2007, between the Company and The Bank of New York Trust Company, N.A., filed as Exhibit 4.1 to the Company's 8-K dated October 19, 2007, and incorporated herein by this reference.
Exhibit 4.2*	Officers' Certificate, dated October 19, 2007, filed as Exhibit 4.2 to the Company's 8-K dated October 19, 2007, and incorporated herein by this reference.
Exhibit 4.3*	Form of 6.25% Note due 2013, filed as Exhibit 4.3 to the Company's 8-K dated October 19, 2007, and incorporated herein by this reference.
