PROXY STATEMENT

FOR ANNUAL MEETING OF STOCKHOLDERS

TO BE HELD ON MAY 20, 2008

GENERAL INFORMATION

These proxy materials are furnished to you in connection with the solicitation of proxies by the board of directors of Petrohawk Energy Corporation, a Delaware corporation (referred to in this proxy statement as Petrohawk, the Company, we, us, or our) for the annual meeting of our stockholders to be held on Tuesday, May 20, 2008, at 10:00 a.m., Central Daylight Time, at the Wells Fargo Plaza Auditorium at 1000 Louisiana, Houston, Texas 77002. The proxies also may be voted at any adjournments or postponements of the annual meeting.

This proxy statement, together with our annual report to the stockholders including our annual report on Form 10-K for the year ended December 31, 2007, are being mailed on or about April 17, 2008 to holders of record of our common stock as of March 28, 2008. The specific proposals to be considered and voted upon at the annual meeting are summarized in the notice of annual meeting of stockholders. Each proposal is described in more detail in this proxy statement.

Voting and Revocation of Proxies

If you provide specific voting instructions, your shares will be voted as you instruct. Whether you hold shares directly as a stockholder of record, or beneficially in street name, you may direct how your shares are voted at the annual meeting. If you are a stockholder of record, you may vote by submitting a proxy or by voting in person at the annual meeting, and if you hold your shares in street name, you may vote by submitting voting instructions to your broker or trustee or nominee. You may cast your vote by proxy as follows:

By Internet you may vote using the Internet and voting at the website listed on the enclosed proxy/voting instruction card, or the proxy card ;

By telephone you may vote by using the toll-free telephone number listed on the enclosed proxy card; or

By mailing the proxy card you may vote by completing, signing, dating and mailing the enclosed proxy card in the enclosed pre-addressed postage-paid envelope.

If you hold your shares in street name, please refer to the proxy card forwarded by your bank, broker, or other nominee to see which voting options are available to you and directions on how to vote. If you vote by Internet or by telephone, you need not return your proxy card. Proxies granted by telephone or over the Internet, in accordance with the procedures set forth on the proxy card, will be valid under Delaware law.

If you sign the proxy card of your broker, trustee or other nominee but do not provide instructions, your shares will not be voted unless your broker, trustee or other nominee has discretionary authority to vote. When a broker, trustee, or other nominee holding shares for a beneficial owner does not vote on a particular proposal

Table of Contents

because the broker does not have authority to vote in the absence of timely instructions from the beneficial owner, this is referred to as a broker non-vote. The New York Stock Exchange, or the NYSE, permits brokers to have discretionary authority to vote the shares of a beneficial owner in both the election of our directors and the ratification of Deloitte & Touche LLP (Deloitte) as our independent registered public accountants.

Unless you otherwise direct in your proxy, the individuals named in the proxy card will vote the shares represented by such proxy FOR the board nominees named herein (Proposal 1) and FOR Proposal 2.

The board of directors does not know of any business to be brought before the annual meeting other than as indicated in the notice of annual meeting of stockholders. If other matters do come before the meeting, the persons named in the proxy card will vote the shares represented by the proxy in his or her best judgment.

Revocation of Proxy. A proxy may be revoked by a stockholder at any time prior to it being voted by:

delivering a revised proxy (by one of the methods described above) bearing a later date;

voting in person at the annual meeting; or

notifying our Secretary in writing of the revocation at our address set forth above in time to be received before the annual meeting. Attendance at the meeting alone will not effectively revoke a previously executed and delivered proxy. If a proxy is properly executed and is not revoked by the stockholder, the shares it represents will be voted at the meeting in accordance with the instructions from the stockholder. If the proxy card is signed and returned without specifying choices, the shares will be voted in accordance with the recommendations of our board of directors.

If your shares are held in an account at a broker or other nominee, you should contact your broker or other nominee to change your vote.

Record Date and Vote Required for Approval. The record date with respect to this solicitation is March 28, 2008. All holders of record of our common stock as of the close of business on March 28, 2008 are entitled to vote at the annual meeting and any adjournment or postponement thereof. As of March 28, 2008, we had 192,855,470 shares of common stock outstanding. Each share of common stock is entitled to one vote. Our stockholders do not have cumulative voting rights. In accordance with our bylaws, the holders of a majority of the outstanding shares of our common stock entitled to vote, represented in person or by proxy, shall constitute a quorum at the annual meeting. If a quorum is not present at the annual meeting, a vote for adjournment will be taken among the stockholders present or represented by proxy. If a majority of the stockholders present or represented by proxy vote for adjournment, it is our intention to adjourn the meeting until a later date and to vote proxies received at such adjourned meeting. The place and date to which the annual meeting would be adjourned would be announced at the meeting, but would in no event be expected to be more than 30 days after the date of the annual meeting.

Assuming that a quorum is present, the affirmative vote of a plurality of the votes cast is required for the election of directors at the annual meeting. This means that the director nominee with the most affirmative votes for a particular slot is elected for that slot. Any shares not voted (whether by withholding the vote, broker non-vote or otherwise) have no impact in the election of directors, except to the extent that the failure to vote for an individual results in another candidate receiving a larger number of votes in person and represented by proxy at the annual meeting.

Our bylaws provide that, on all other matters, except to the extent otherwise required by our certificate of incorporation, our bylaws or applicable law, the affirmative vote of a majority of the shares of common stock present in person or represented by proxy at the meeting and voting on the matter is required for approval. Therefore, the ratification of the appointment of Deloitte as our independent auditor requires the affirmative vote

Table of Contents

of a majority of the shares of common stock present in person or represented by proxy at the meeting and voting on the matter. Accordingly, assuming there is a quorum present and that the total votes cast at the annual meeting or our stockholders represent more than 50% of all our common stock entitled to vote at the meeting, the failure of a Petrohawk stockholder to vote will have no effect in determining whether this proposal is approved.

If you hold shares beneficially in street name and do not provide your broker with voting instructions, your shares may constitute broker non-votes. Generally, broker non-votes occur on a matter when a broker is not permitted to vote on that matter without instructions from the beneficial owner and instructions are not given. Brokers that have not received voting instructions from their clients cannot vote on their clients behalf on non-routine proposals, although they may vote their clients shares on the election of directors and the ratification of the appointment of Deloitte as our independent auditor. In tabulating the voting result for any particular proposal, shares that constitute broker non-votes are not considered voting on that proposal. Thus, broker non-votes will not affect the outcome of any matter being voted on at the meeting, assuming that a quorum is obtained. Abstentions are counted as shares present at the meeting for purposes of determining the presence of a quorum and with respect to any matters being voted upon at the meeting. Accordingly, abstentions will have no effect on the outcome of the election of directors but with respect to any other proposal, will operate to prevent the approval of such proposal to the same extent as a vote against such proposal. Proxies received but marked as abstentions and broker non-votes will be counted for quorum purposes.

Proxy Solicitation. We will bear all costs relating to the solicitation of proxies. Proxies may be solicited by officers, directors and employees personally, by mail, or by telephone, facsimile transmission or other electronic means. On request, we will pay brokers and other persons holding shares of stock in their names or in those of their nominees, which in each case are beneficially owned by others, for their reasonable expenses in sending soliciting material to, and seeking instructions from, their principals.

Submission of Stockholder Proposals. The deadline for submitting stockholder proposals for inclusion in our 2009 proxy statement and form of proxy for our annual meeting in 2009 is December 18, 2008. See Submission of Stockholder Proposals for Our 2009 Annual Meeting of Stockholders starting on page 46 below for additional information.

We will provide to any stockholder, without charge and upon the written request of the stockholder, a copy (without exhibits, unless otherwise requested) of our annual report on Form 10-K as filed with the United States Securities and Exchange Commission (the SEC) for our fiscal year ended December 31, 2007. Any such request should be directed to Joan Dunlap, Vice President, Investor Relations at 1000 Louisiana, Suite 5600, Houston, Texas 77002, telephone number: (832) 204-2700. The annual report to the stockholders enclosed herein including the annual report on Form 10-K for our fiscal year ended December 31, 2007 is not part of the proxy solicitation materials.

Table of Contents**SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS**

The following sets forth beneficial ownership of our common stock by beneficial owners of more than five percent of our common stock as of December 31, 2007, based solely upon statements they have filed with the SEC pursuant to Sections 13(g) or 13(d) of the Securities Exchange Act of 1934, as amended (the "1934 Act"). Unless otherwise indicated, the named person below has the sole voting and dispositive powers with respect to the shares of our common stock set forth opposite such person's name.

Name and Address of Beneficial Owner	Amount and Nature of Beneficial Ownership	Percent of Class
FMR LLC 82 Devonshire Boston, Massachusetts 02109	22,354,066 ⁽¹⁾	11.6%
Fidelity Management & Research Company 82 Devonshire Boston, Massachusetts 02109	21,518,066 ⁽²⁾ (part of the 22,354,066 shares disclosed with respect to FMR LLC above)	11.2%
Edward C. Johnson 3d 82 Devonshire Boston, Massachusetts 02109	21,518,066 ⁽³⁾ (part of the 22,354,066 shares disclosed with respect to FMR LLC and the same 21,518,066 shares disclosed with respect to Fidelity Management & Research Company above)	11.2%

- (1) According to Schedule 13G filed by FMR LLC (formerly known as FMR Corp.) with the SEC on February 14, 2008, FMR LLC has the sole power to vote or direct the vote with respect to 764,150 shares of Petrohawk common stock, and the sole power to direct the disposition of 22,354,066 shares of Petrohawk common stock. Various persons (other than FMR LLC) have the right to receive or the power to direct the receipt of dividends from, or the proceeds from the sale of the 22,354,066 shares of Petrohawk common stock beneficially owned by FMR LLC. No one such person's interest in Petrohawk common stock is more than five percent of the total number of Petrohawk common stock outstanding. Also see footnotes 2 and 3.
- (2) According to Amendment No. 1 to Schedule 13G filed by FMR LLC (formerly known as FMR Corp.) with the SEC on February 14, 2008, Fidelity Management & Research Company ("Fidelity"), a wholly-owned subsidiary of FMR LLC and an investment adviser registered under Section 203 of the Investment Advisers Act of 1940, is the beneficial owner of 21,518,066 shares of Petrohawk common stock outstanding as a result of acting as investment adviser to various investment companies registered under Section 8 of the Investment Company Act of 1940 (the "funds"). The funds have the sole power to dispose of the 21,518,066 shares owned by them. Also see footnotes 1 and 3.
- (3) According to Schedule 13G filed by FMR LLC with the SEC on February 14, 2008, Edward C. Johnson 3d and FMR LLC, through its control of Fidelity, and the funds to which Fidelity acts as investment adviser, each has sole power to dispose of the 21,518,066 shares owned by these funds. Members of the family of Edward C. Johnson 3d, Chairman of FMR LLC, are the predominant owners, directly or through trusts, of Series B shares of common stock of FMR LLC, representing 49% of the voting power of FMR LLC. The Johnson family group and all other Series B shareholders have entered into a shareholders' voting agreement under which all Series B shares will be voted in accordance with the majority vote of Series B shares. Accordingly, through their ownership of voting common stock and the execution of the shareholders' voting agreement, members of the Johnson family may be deemed, under the Investment Company Act of 1940, to form a controlling group with respect to FMR LLC. Schedule 13G filed by FMR LLC with the SEC on February 14, 2008 indicates that neither FMR LLC nor Edward C. Johnson 3d has the sole power to vote or direct the voting of the shares owned directly by the Fidelity funds, which power resides with the funds' Boards of Trustees. Fidelity carries out the voting of the shares under written guidelines established by the funds' Boards of Trustees. Pyramid Global Advisors Trust Company ("PGATC"), an indirect wholly-owned subsidiary of FMR LLC and a bank as defined in Section 3(a)(6) of

Table of Contents

the 1934 Act, is the beneficial owner of 828,700 shares or 0.43% of the outstanding common stock of Petrohawk as a result of its serving as investment manager of institutional accounts owning such shares. Edward C. Johnson 3d and FMR LLC, through its control of Pyramis Global Advisors Trust Company, each has sole dispositive power over 828,700 shares and sole power to vote or to direct the voting of 753,600 shares of common stock owned by the institutional accounts managed by PGATC as stated above. Fidelity International Limited (FIL) and various foreign-based subsidiaries provide investment advisory and management services to a number of non-U.S. investment companies and certain institutional investors. FIL, which is a qualified institution under Section 240.13d-1(b)(1) pursuant to an SEC No-Action letter dated October 5, 2000, is the beneficial owner of 7,300 shares of Petrohawk common stock. Partnerships controlled predominantly by members of the family of Edward C. Johnson 3d, Chairman of FMR LLC and FIL, or trusts for their benefit, own shares of FIL voting stock with the right to cast approximately 47% of the total votes which may be cast by all holders of FIL voting stock. FMR LLC and FIL are separate and independent corporate entities, and their Boards of Directors are generally composed of different individuals. FMR LLC and FIL are of the view that they are not acting as a group for purposes of Section 13(d) under the 1934 Act and that they are not otherwise required to attribute to each other the beneficial ownership of securities beneficially owned by the other corporation within the meaning of Rule 13d-3 promulgated under the 1934 Act. Therefore, they are of the view that the shares held by the other corporation need not be aggregated for purposes of Section 13(d). However, FMR LLC has made the Schedule 13G filing on a voluntary basis as if all of the shares are beneficially owned by FMR LLC and FIL on a joint basis. Also see footnotes 1 and 2.

Each committee conducts an annual evaluation of its duties, except that our reserves committee is not required to conduct an annual evaluation of its duties under its charter, and each committee is expected to conduct a review of its charter, except that our nominating and corporate governance committee is not required to conduct a review of its charter under the nominating and corporate governance committee charter. Furthermore, each committee has authority to retain, set the compensation for, and terminate consultants, outside counsel and other advisers as that committee determines to be appropriate.

The audit committee also reviews and discusses quarterly reports from independent auditors regarding critical accounting policies and practices, alternative treatments of financial information within generally accepted accounting principles, and other material written communication between the independent auditors and management.

The primary functions of the nominating and corporate governance committee are to recommend candidates to the board of directors as nominees for election at the annual meeting of stockholders or to fill vacancies as they may occur, and to perform an annual performance evaluation of the board of directors. This committee also reviews candidates suggested for nomination by the stockholders. Our board of directors adopted

Reserves Committee. The members of our reserves committee are Robert C. Stone, Jr., Robert G. Reynolds, and Thomas R. Fuller, with Mr. Stone serving as the chairman. Our reserves committee has been formed to assist our board with oversight in the preparation by independent petroleum engineers of annual and any special reserve reports and/or audits of the estimated amounts of our consolidated hydrocarbon reserves and related information. The reserves committee retains the independent petroleum engineers who evaluate our hydrocarbon reserves and determines their independence from Petrohawk. Our board of directors adopted an amended reserves committee charter on February 27, 2007.

Membership and Meetings of the Board of Directors and its Committees. During 2007, seven meetings of our board of directors were held. All directors who served on our board during 2007 attended at least 75% of the total meetings of the board (during the period in which he was a director) and each committee on which they served (during the period that he served on that committee). Director Independence. On February 28, 2007, we announced that we had applied to list our common stock on the NYSE under the new symbol **HK**. Our listing application was approved by the NYSE and our common stock began trading on the NYSE on March 13, 2007, and our common stock is no longer traded on NASDAQ effective at the closing of the market on March 12, 2007. Prior to March 13, 2007, we were subject to the rules of NASDAQ applicable to NASDAQ listed companies, including the NASDAQ corporate governance rules. As of March 13, 2007, we have become subject to the rules of NYSE applicable to NYSE listed companies, including the NYSE corporate governance rules.

The current listing standards of the NYSE require our board to affirmatively determine the independence of each director and to disclose such determination in the proxy statement for each annual meeting of our stockholders. The board, at its meeting held on February 26, 2008, affirmatively determined that each of Messrs. Bridwell, Fuller, Irish, Merriman, Reynolds, Stone and Viggiano is an independent director with respect to Petrohawk under the independence standards of our corporate governance guidelines, adopted as of February 27, 2008 and described below, and under the corporate governance rules of the NYSE codified in Section 303A of the NYSE Listed Company Manual.

Our board established the following standards for determining director independence in our corporate governance guidelines:

A majority of the directors on our board must be independent. No director qualifies as independent unless the board affirmatively determines that the director has no material relationship with Petrohawk, either directly, or as a partner, shareholder or officer of an organization that has a relationship with Petrohawk. A material relationship is a relationship that the board determines, after a consideration of all relevant facts and circumstances, compromises the director's independence from management. Our board's determination of independence must be consistent with all applicable requirements of the NYSE, the SEC, and any other applicable legal requirements. Our board may adopt specific standards or guidelines for independence in its discretion from time to time, consistent with those requirements. As set forth in the NYSE Listed Company Manual Section 303A.02, our board must consider the following factors that preclude a finding by the board of a member's or prospective member's independence from Petrohawk:

1. A director who is, or who has been within the last three years, an employee of Petrohawk (including in each case subsidiaries or parent entities in a consolidated group), or an immediate family member who is, or has been within the last three years, an executive officer, of Petrohawk;
2. A director who has received, or has an immediate family member who has received, during any twelve-month period within the last three years, more than \$100,000 in direct compensation from Petrohawk, other than director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service); provided, that, compensation received by a director for former service as an interim Chairman or CEO or other executive officer need not be considered in determining independence under this test, and compensation received by an immediate family member for service as an employee of Petrohawk need not be considered in determining independence under this test;
3. (A) A director or an immediate family member who is a current partner of a firm that is Petrohawk's internal or external auditor; (B) a director who is a current employee of such a firm; (C) a director who has an immediate family member who is a current employee of such a firm and who participates in the firm's audit, assurance or tax compliance (but not tax planning) practice; or (D) a director or an immediate family member who was within the last three years (but is no longer) a partner or employee of such a firm and personally worked on Petrohawk's audit within that time;

Table of Contents

4. A director or an immediate family member who is, or who has been within the last three years, employed as an executive officer of another company where any of Petrohawk's present executive officers at the same time serves or served on that company's compensation committee; and
5. A director who is a current employee, or an immediate family member who is a current executive officer, of a company that has made payments to, or received payments from, Petrohawk for property or services in an amount which, in any of the last three fiscal years, exceeds the greater of \$1 million, or 2% of such other company's consolidated gross revenues.

For purposes of determining independence of a director based on the tests set forth above, among other things, the following applies:

- A. In applying the test in section 5 above, both the payments and the consolidated gross revenues to be measured are those reported in the last completed fiscal year. The look-back provision for this test applies solely to the financial relationship between Petrohawk and the director or immediate family member's current employer; Petrohawk does not need to consider former employment of the director or the immediate family member.
- B. For purposes of section 5 above, contributions to the tax exempt organizations are not considered payments, although Petrohawk still considers the materiality of any such relationship in determining the independence of a director.
- C. For purposes of determining independence, an immediate family member includes a person's spouse, parents, children, siblings, mothers and fathers-in-law, sons and daughters-in-law, brothers and sisters-in-law, and anyone (other than a domestic employee) who shares such person's home, and does not include individuals who are no longer immediate family members as a result of legal separation or divorce, or those who have died or become incapacitated.

Our corporate governance guidelines set forth our policy with respect to qualifications of the members of the board, the standards of director independence, director responsibilities, board meetings, director access to management and independent advisors, director orientation and continuing education, management evaluation and succession, annual performance evaluation of the board, and executive sessions.

As discussed on page 10 of this proxy statement, our board determined that Mr. Irish is an independent director under our corporate governance guidelines and under NYSE rules and federal law. In determining that Mr. Irish is an independent director, our board considered that Mr. Irish is of counsel to Thompson & Knight LLP which we have engaged for the purpose of obtaining legal advice. In concluding that this relationship did not result in a material relationship between Petrohawk and Mr. Irish, our board considered, among other things, that Mr. Irish is no longer actively engaged in the practice of law at Thompson & Knight LLP, and that the fees and expenses paid with respect to Thompson & Knight's engagement by Petrohawk were not material to Thompson & Knight.

Nomination Process. Our nominating and corporate governance committee reviews possible candidates for nomination to the board of directors and recommends candidates for nomination to the board for approval. The committee and the board have adopted guidelines that describe specific traits, abilities, and experience which the committee and the board consider in selecting candidates for nomination as directors. Among the standards and qualifications the committee and the board seek are individuals of high ethical character who share our values and who possess varied backgrounds. The board is expected to have some members with specialized skills in the oil and gas exploration and development industry, including individuals with strong technical backgrounds. Absent special circumstances, we are generally of the view that the continuing service of qualified incumbents promotes stability and continuity in the board room, giving us the benefit of the familiarity and insight into our affairs that directors have accumulated during their tenure, while contributing to our board's ability to work as a collective body. Accordingly, it is the general policy of the committee to nominate qualified incumbent directors who continue to satisfy the committee's membership criteria, whom the committee believes will continue to

Table of Contents

make important contributions to the board and who consent to stand for reelection and continue their service on the board. The nominating and corporate governance committee is responsible for assessing the appropriate mix of skills and characteristics required of directors in the context of perceived needs of the board at any given point in time and reviews and updates the criteria for nomination as they determine to be necessary.

Stockholder Nomination Process. Our nominating and corporate governance committee considers suggestions from many sources, including management, directors, and stockholders regarding possible candidates for nomination to the board of directors. Any such suggestion by a stockholder should be submitted to the nominating and corporate governance committee in writing, c/o David S. Elkouri, Executive Vice President, General Counsel and Secretary, at 1000 Louisiana, Suite 5600, Houston, Texas, 77002. The information should include the name and address of the stockholder suggesting the individual as they appear on our books, the number and class of shares owned beneficially and of record by the stockholder, the suggested individual's name and address, a description of all arrangements or understandings (if any) between the stockholder and the individual being suggested for the committee's consideration, the information about the individual being suggested that would be required to be included in a proxy statement filed with the SEC, and an indication of the individual's willingness to be named as a nominee and to serve as a director of Petrohawk if nominated by the committee and the board. The recommendation must be accompanied by the candidate's written consent to being named in our proxy statement as a nominee for election to the board of directors and to serving as a director, if elected. The recommendation and the director candidate's written consent must be provided to us for an annual meeting of stockholders in accordance with the provisions of Submission of Stockholder Proposals for Our 2009 Annual Meeting of Stockholders starting on page 46 below and must otherwise comply with all the provisions set forth in Rule 14a-8 under the 1934 Act, and any other requirements of state law. We may also require any proposed nominee to furnish such other information as we or the committee may reasonably require to determine the eligibility of the nominee to serve as a director. For the deadline for stockholder suggestions of individuals to be considered by the committee for nomination as a candidate to be elected at the 2009 annual meeting of stockholders, see Submission of Stockholder Proposals for Our 2009 Annual Meeting of Stockholders. Candidates who have been suggested by stockholders are evaluated by the nominating and corporate governance committee in the same manner as are other candidates. Our nominating and corporate governance committee has not previously retained a third-party search firm to identify candidates, but may do so in the future in its discretion.

The nominating and corporate governance committee did not receive any stockholder recommendations for nomination to our board of directors in connection with this year's annual meeting. The nominating and corporate governance committee has recommended Messrs. Wilson, Bridwell and Merriman, who are current Class I directors, for reelection as the term of their class, Class I, is expiring on our classified board of directors.

Communications with the Board. Our stockholders may communicate concerns to any specific director, board committee or to the full board of directors by sending letters addressed to such directors, board committee or the full board of Petrohawk Energy Corporation at 1000 Louisiana, Suite 5600, Houston, Texas 77002, Attention: Chief Ethics Officer. The Chief Ethics Officer will then, as appropriate, forward the communication to the intended director or directors, board committee or the full board of directors. If the stockholder wishes the communication to be confidential, then the communication should be provided in a form that will maintain confidentiality such as stamping the envelope and the contents as confidential.

Communications with the Non-Management Directors. Interested parties may communicate concerns to the non-management members of our board of directors by sending a communication to the chairman of the audit committee, James L. Irish III, 1700 Pacific Avenue #3300, Dallas, Texas 75201. The chairman of the audit committee will then forward such communication to all of our other non-management directors.

Executive Sessions. Prior to being amended as of February 27, 2007, our corporate governance guidelines provided that non-employee directors may meet periodically in executive session without management present. The corporate governance guidelines adopted as of February 27, 2007 in connection with our listing with the

Table of Contents

NYSE currently provide that non-management directors must meet at regularly scheduled executive sessions without management, and if the group of non-management directors includes directors who are not independent under the NYSE rules, we must at least once a year schedule an executive session including only the independent directors. Our lead director, who is currently Mr. Irish and who is an independent and non-management director, presides over the executive sessions of our non-management directors. During 2007, our independent directors held four executive sessions without management present, and Mr. Irish presided over each executive session.

Board Attendance of Stockholder Meetings. Historically, we have informally encouraged our directors to attend the annual meeting of stockholders. We had no formal policy in this regard until the adoption of our corporate governance guidelines on June 3, 2004, as amended on February 27, 2007. Our corporate governance guidelines provide that our directors are strongly encouraged to attend annual meetings of our stockholders. Four members of our board attended last year's annual meeting of stockholders.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

Mr. James L. Irish III, an independent member of our board of directors, is of counsel to Thompson & Knight LLP, which we have engaged for the purpose of obtaining legal advice.

Mr. David S. Elkouri, our Executive Vice President, General Counsel and Secretary, is a founder and current uncompensated member of Hinkle Elkouri Law Firm L.L.C (Hinkle Elkouri). The Company paid Hinkle Elkouri legal fees of approximately \$1,359,577 during 2007.

RELATED PARTY TRANSACTION REVIEW POLICIES AND PROCEDURES

A transaction or series of similar transactions to which we are a party in which the amount involved exceeds \$120,000 and involves a director, executive officer, 5% holder or any immediate family members of these persons are generally evaluated by a special committee of disinterested directors formed by our board of directors to evaluate such transactions. In addition, our code of conduct provides that every employee should disclose any material transaction or relationship that could reasonably be expected to give rise to a conflict of interest to our Chief Ethics Officer, and every member of our board should disclose any material transaction or relationship that could be expected to give rise to a conflict of interest to the chairman of the audit committee. The audit committee has the authority to evaluate any such conflicts of interest and recommend actions to be taken by our board in connection with such conflicts of interest or to report the existence of any such conflicts of interest to the full board for it to take action.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the 1934 Act requires our directors, certain officers and holders of 10% or more of any class of our stock to report to the SEC, by a specified date, initial reports of ownership and reports of changes in ownership of our stock and other equity securities. To our knowledge based solely on a review of copies of reports filed under Section 16(a) furnished to us, our directors, executive officers and holders of 10% or more of our shares complied with these requirements, except that Robert C. Stone, Jr. was late filing a Form 4 related to one transaction.

Overview of the Compensation Committee

The compensation committee of the board of directors is comprised entirely of independent directors in accordance with the rules of the New York Stock Exchange governing listed companies. The current members of our compensation committee are Gary A. Merriman (Chairman), Christopher A. Viggiano, and Thomas R. Fuller.

The primary duties and responsibilities of the compensation committee are to establish and implement our compensation policies and programs for senior management, including the named executive officers. The compensation committee has the authority under its charter to engage the services of outside advisors, experts and others to assist it. A copy of our compensation committee charter is available on our website at www.petrohawk.com under the section *About Us Corporate Governance*. The compensation committee also periodically reviews and assesses the adequacy of its charter and recommends any proposed changes to our board of directors for approval.

The compensation committee works with our chief finance and administration officer and human resources department to establish an agenda for each meeting of the compensation committee and, with the assistance of outside advisors, to prepare meeting materials. Our chief executive officer, chief finance and administration officer and other members of our management and outside advisors may be invited to attend all or a portion of a

compensation committee meeting depending on the nature of the matters to be discussed. Only members of the compensation committee vote on items before the compensation committee; however, the compensation committee and board of directors often solicit the views of the chief executive officer on compensation matters, including as they relate to the compensation of the other members of senior management.

Objectives of Our Compensation Program

Our success depends on the continued contributions of our senior management and other key employees. Our compensation program is intended to attract, motivate and retain experienced and qualified personnel by providing compensation that is competitive in relation to our peers while recognizing overall business results and individual merit, and which supports the attainment of our strategic objectives by tying the interests of senior management and key employees to those of our stockholders through the use of equity-based compensation.

Design of Our Compensation Program

Our compensation program for senior management, including the named executive officers, is designed to:

provide compensation that is competitive with our compensation peer group;

balance short-term and long-term goals through the use of annual cash incentives and grants of long-term equity incentives; and

deliver a mix of fixed and at-risk compensation that is directly related to stockholder value and our overall performance.

Each element of compensation is reviewed and considered with the other elements of compensation to ensure that it is consistent with the goals and objectives of both that particular element of compensation and our overall compensation program. In designing the compensation program and in determining senior management compensation, including the compensation of the named executive officers, we also considered the following factors:

the external challenges to our ability to attract and retain strong management;

our operating and financial performance compared with targeted goals;

each individual's contributions to our overall results; and

our size and growth relative to companies in our compensation peer group.

In establishing compensation, the committee retains an independent compensation consultant, Longnecker & Associates, to assist us in evaluating the competitiveness of our executive compensation programs. We utilized the compensation data (Survey Data) provided by the consultant to establish 2007 salaries, annual cash incentives for 2007 that were paid in 2008 and long-term incentive compensation. The consultant reports directly to the committee and may work with management when preparing materials for the committee. Longnecker & Associates provides no other service for us.

We utilize Survey Data to ensure that our executive compensation program is competitive with our compensation peer group. The Survey Data is a compilation of compensation data prepared based upon data for our compensation peer group, set forth below, broad industry-specific compensation survey data for other companies that participate in energy and general industry surveys, as well as particularized data for industry participants to the extent the consultant determines that such additional data would prove useful in our compensation process.

In developing our compensation structure, we review the compensation and benefit practices, as well as levels of pay, of a compensation peer group of companies selected by the compensation committee from domestic oil and natural gas exploration and development companies of a similar size, with similar drilling

budgets and operations, and that compete with us for talent. We periodically review, evaluate and update our compensation peer group to provide on-going comparability on these bases. For the compensation structure developed for 2007 the compensation peer group consisted of the following ten companies:

Cabot Oil & Gas Corporation

Comstock Resources, Inc.

Cimarex Energy Corporation

Encore Acquisition Company

EXCO Resources, Inc.

Forest Oil Corporation

The Houston Exploration Company

Range Resources Corporation

St. Mary Land & Exploration Company

Whiting Petroleum Corporation

We target total compensation for our management that falls at the 75th percentile of our compensation peer group. We believe compensation at this level is required for us to attract and retain talented management capable of executing our rapid growth business plan and managing our business in a competitive environment. We also compete with much larger companies for management talent and, in certain circumstances, we may be required to provide compensation that deviates from the compensation peer group target.

2007 Compensation Program

Elements of Compensation

The principal elements of our executive compensation program are base salary, annual cash incentives, long-term equity incentives in the form of stock options, stock appreciation rights and restricted stock grants as well as post-termination severance (under certain circumstances), and other benefits and perquisites, consisting of life and health insurance benefits, a qualified 401(k) savings plan, the reimbursement of automobile expenses for our chief executive officer and the reimbursement of certain club dues for our chief executive officer and chief financial officer.

Base Salary

We review base salaries for our chief executive officer and other executives annually to determine if a change is appropriate. In reviewing base salaries, we consider several factors, including a comparison to base salaries paid for comparable positions in our compensation peer group and the compensation reflected in the Survey Data, the relationship among base salaries paid within our company and individual experience and

Edgar Filing: PETROHAWK ENERGY CORP - Form DEF 14A

contributions. Our intent is to fix base salaries at levels that we believe are consistent with our program design objectives, including the ability to attract, motivate and retain individuals in a competitive environment. During 2007, we increased the base salaries of the named executive officers based upon our analysis of competitive market practice.

Table of Contents

Base salaries for our named executive officers in 2007 were as follows:

Name	Amount of Base Salary Increase for 2007		2007 Base Salary
Floyd C. Wilson	\$	100,000	\$ 600,000
Larry L. Helm	\$	25,000	\$ 325,000
Mark J. Mize	\$	110,000	\$ 260,000
Stephen W. Herod	\$	25,000	\$ 275,000
Richard K. Stoneburner	\$	50,000	\$ 300,000

Subsequent to 2007, and effective March 1, 2008, we again increased the base salaries of the named executive officers based upon our annual analysis of competitive market practice. Information regarding the incremental increase for 2008 in the base salary of each of the named executive officers is set forth below under the heading *Compensation Adjustments and Long-term Incentive Awards Subsequent to Fiscal Year End*.

Annual Cash Incentives

Annual cash incentive compensation is intended to focus and reward individuals on measures identified as having a positive impact on our annual business results. For 2007, the following performance factors were utilized to determine annual cash incentives:

increases in annual production rates;

reserve replacement;

finding and development costs;

cash flow from operations per share

lease operating expenses per mcfe;

general and administrative expenses per mcfe; and

qualitative factors considered significant by the compensation committee.

At the beginning of 2007, the compensation committee established an annual target for each of the foregoing performance factors, but did not specifically allocate a particular weight to any of the elements considered in establishing incentive compensation. The targets established are intended to be challenging, but achievable. The target annual cash incentive compensation for each named executive is equal to 100% of their current annual base salary. Annual cash incentive compensation is discretionary and may vary greatly from year to year and from executive to executive as a consequence of corporate performance and individual contribution relative to the factors listed above and other factors that we may consider important, which may carry varying weight over time depending on the circumstances. The compensation committee may award cash bonuses that are in excess of the targeted annual cash incentive compensation. Annual cash incentives for each year are determined during the February following the end of the year, when our results for the preceding year become available.

Actual performance for 2007 met or exceeded all of the threshold performance targets established for 2007. In establishing annual cash incentive amounts for each of the named executive officers for 2007, we considered actual performance relative to the threshold performance targets as well as each executive's personal performance, current market conditions and cash incentives paid to senior management by our compensation

Edgar Filing: PETROHAWK ENERGY CORP - Form DEF 14A

peer group and as reflected in the Survey Data. We then determined whether additional compensation was warranted and, if so, how much and the manner in which it was to be allocated among members of senior management, including the named executive officers. We solicited the views of the chief executive officer in determining the manner in which incentive compensation should be allocated to other members of management.

Table of Contents

With respect to individual performance, for 2007 we also factored into awards each executive's role in the implementation of our strategic objectives. We significantly altered our strategic business plan when in June 2007 we announced our intention to divest our Gulf Coast division and concentrate on developing and expanding our Mid-Continent natural gas resource-style activities. By November 2007, we had divested our Gulf Coast division, and within approximately three months thereafter we had redeployed the proceeds in accordance with our new strategic focus, significantly ahead of schedule and upon terms that we considered attractive. For these contributions as well as performance that met or exceeded threshold performance targets for the year, and taking into account current market conditions and cash incentives paid to senior management by our compensation peer group and as reflected in the Survey Data, senior executives were awarded cash bonuses in excess of the targets established for them relative to base salary, with the specific amount varying based upon the compensation committee's assessment of the executive's relative contribution to our performance for the year.

Mr. Hahne, who joined us in July 2006 in conjunction with the KCS merger and subsequently retired on October 1, 2007, was paid bonuses that were based upon express criteria that were negotiated as part of his employment agreement, which was based on competitive market practice at the time the employment agreement was entered into. For more information see *Employment Contracts, Termination of Employment and Change in Control Agreements*.

The annual cash incentives awarded to the named executive officers for fiscal year 2007 performance are included in the Summary Compensation Table for 2007 on page 33. The table reflects awards for 2007 performance that were paid during February 2008. Footnote 1 to the Summary Compensation Table for 2007 also includes disclosure of annual cash incentive awards for 2007 performance that were paid during 2008.

Long-term Incentives

Long-term incentives comprise a significant portion of a senior executive's compensation package. Long-term incentives are consistent with our objective of providing an at-risk component of compensation. Our business strategy embraces the consolidation trend in our industry and providing long-term incentive award opportunities for senior executives and key employees both align their interests with those of our stockholders and help to offset the negative implications that such a strategy may have on our ability to attract and retain talented management and key employees. In establishing long-term incentive awards we endeavor to remain consistent with the Survey Data while taking into account each individual's performance.

In 2007, the compensation committee awarded grants of restricted stock and stock appreciation rights to senior executives, each of which is discussed in more detail below. For 2008, the compensation committee has approved a mix of long-term incentives awarded to senior executives that includes stock options and restricted stock. From time to time, the compensation committee may utilize a different mix of stock options, restricted stock and stock appreciation rights, each of which is permitted under our equity incentive plans, discussed in more detail below, depending upon the compensation committee's current view of the most efficacious method to provide incentives under current market conditions, taking into account the Survey Data. The compensation committee approves the total stock options, restricted stock and stock appreciation rights that will be made available to all employees as well as the size of individual grants for each member of senior management. All grants are made in accordance with our Equity-Based Incentive Grant Policy, which sets forth the timing of awards and the procedures for making awards and, in the case of stock options and stock appreciation rights, for determining the exercise price or grant value, respectively, of the award. The amounts granted vary each year and are based on management's performance, our analysis of compensation peer group data, the Survey Data and management's total compensation package. Previous awards and grants, whether vested or unvested, may be considered by the compensation committee in establishing the current year's awards and grants.

2004 Employee Incentive Plan

On June 3, 2004, our compensation committee and our board of directors approved the Petrohawk Energy Corporation 2004 Employee Incentive Plan, referred to, as amended, as the 2004 Petrohawk Plan in this proxy statement. On July 15, 2004, the 2004 Petrohawk Plan was approved by our stockholders. Increases to the number of shares available under the 2004 Petrohawk Plan were subsequently approved by our stockholders in November 2004, July 2005, July 2006 and July 2007. Subject to certain adjustments that may be required from time to time to prevent dilution or enlargement of the rights of participants under the 2004 Petrohawk Plan, currently a maximum of 12.55 million shares of common stock may be issued under the 2004 Petrohawk Plan. Out of the total number of shares available under the 2004 Petrohawk Plan, a maximum of 3.61 million shares of incentive stock, restricted stock and stock appreciation rights may be issued.

The 2004 Petrohawk Plan facilitates the issuance of future long-term incentive awards as part of our comprehensive compensation structure and is administered by a committee of non-employee directors of our board of directors, currently our compensation committee. For the year ended December 31, 2007, approximately 221 persons received awards under the 2004 Petrohawk Plan.

The 2004 Petrohawk Plan permits the granting of awards in the form of options to purchase our common stock, shares of restricted stock, shares of incentive stock (stock issued without restrictions) and stock appreciation rights. Recipients are not permitted to receive in any one year options or stock appreciation rights to purchase or receive in excess of 200,000 shares or grants of restricted or incentive stock in excess of 100,000 shares. As of December 31, 2007, no incentive stock had been issued, a total of 1,448,138 shares of common stock had been issued as restricted stock, 3,156,002 shares were issuable upon the exercise of outstanding stock options and stock appreciation rights covering 950,100 shares were outstanding.

The 2004 Petrohawk Plan will expire on June 2, 2014. No grants will be made under the 2004 Petrohawk Plan after that date, but all grants made on or prior to such date will continue in effect thereafter subject to the terms thereof and of the 2004 Petrohawk Plan. Our board of directors may, in its discretion, terminate the 2004 Petrohawk Plan at any time. The termination of the 2004 Petrohawk Plan would not affect the rights of participants or their successors under any awards outstanding and not exercised in full on the date of termination. The board may at any time and from time to time amend the 2004 Petrohawk Plan in whole or in part. Any amendment which must be approved by our stockholders in order to comply with the terms of the 2004 Petrohawk Plan, applicable law or the rules of the principal securities exchange, association or quotation system on which our common stock is then traded or quoted will not be effective unless and until such approval has been obtained. The board is not permitted, without the further approval of the stockholders, to make any alteration or amendment which would materially increase the benefits accruing to participants under the 2004 Petrohawk Plan, increase the aggregate number of shares which may be issued pursuant to the provisions of the 2004 Petrohawk Plan, change the class of individuals eligible to receive awards under the 2004 Petrohawk Plan or extend the term of the 2004 Petrohawk Plan.

1999 Incentive and Non-Statutory Stock Option Plan

On August 20, 1999, our board of directors approved the Petrohawk Energy Corporation 1999 Incentive and Non-Statutory Stock Option Plan (the 1999 Plan). On September 11, 2000, the 1999 Plan was approved by our stockholders. An amendment to the 1999 Plan to increase the number of shares available under the 1999 Plan was subsequently approved by our stockholders on June 20, 2003. As a consequence of the adoption of the 2004 Petrohawk Plan, we no longer issue grants under the 1999 Plan. As of December 31, 2007, a total of 177,500 shares of common stock were issuable upon the exercise of outstanding stock options under the 1999 Plan.

Incentive Plans Assumed in Connection with Acquisitions

In July 2006, as part of our merger with KCS, we assumed the KCS Energy, Inc. 2001 Employees and Directors Stock Plan (the 2001 KCS Plan) and the 2005 KCS Plan (together with the 2001 KCS Plan, the KCS Plans). As of July 18, 2007, no new awards are permitted to be issued under the 2005 KCS Plan.

Table of Contents

The KCS Plans are administered by our compensation committee. The 2005 KCS Plan permitted grants of awards of options to purchase common stock, shares of restricted stock, shares of incentive stock (stock issued without restrictions), and stock appreciation rights. On March 2, 2007, 172,850 shares of restricted stock and 397,400 shares of stock appreciation rights were granted under the 2005 KCS Plan to persons that were former employees of KCS and continued to be employed by us. All awards outstanding under the 2001 KCS Plan will expire on or before March 30, 2011. All awards outstanding under the 2005 KCS Plan will expire on or before March 2, 2017.

In July 2005, as part of our merger with Mission Resources Corporation, we also assumed the Mission Resources Corporation 2004 Incentive Plan (the Mission Plan). We do not issue new awards under the Mission Plan. As of December 31, 2007, there were options for the purchase of a total of 144,941 shares of our common stock outstanding under the Mission Plan. All awards outstanding under the Mission Plan will expire on or before April 12, 2015.

The long-term incentive information related to the named executive officers during fiscal year 2007 is included in the Summary Compensation Table for 2007 on page 33. Additional information on long-term incentive awards for 2007 is shown in the Grants of Plan-Based Awards Table on page 34 and the Outstanding Equity Awards at December 31, 2007 Table on page 35.

Stock Options

An important objective of the long-term incentive program is to strengthen the relationship between the long-term value of our stock price and the potential financial gain for employees. Stock options provide senior management and key employees with the opportunity to purchase our common stock at a price fixed on the grant date regardless of future market price. A stock option becomes valuable only if our common stock price increases above the option exercise price and the holder of the option remains employed during the period required for the option to vest, thus providing an incentive for an option holder to remain employed by us. Stock options link a portion of the option holder's compensation to stockholders' interests by providing an incentive to increase the market price of our stock.

Option grants to senior management are generally considered annually, at the same time as grants are considered for the general eligible employee population, in February, after our year-end results become available. Our practice is that the exercise price for each stock option is the market value on the date of grant, which is normally the date that our compensation committee approves the award at a meeting of the compensation committee or forty-eight hours after our release of earnings in accordance with our Insider Trading Policy. Our current policy provides for grants to be made or priced only during a trading window, as set forth in our Insider Trading Policy, and within such window only at such time as there is no material non-public information regarding the company. Under our 2004 Petrohawk Plan the option price may not be less than the fair market value (the closing market price) of the shares on the date of grant. With respect to employees who are not executive officers, the compensation committee may delegate its authority to make such grants to our Chief Executive Officer by specifying the grant date, the total number of shares that may be subject to grants and other material terms of the grants. All proposed stock options to new-hire employees are required to be approved by our compensation committee. Alternatively, our compensation committee may authorize in writing, in advance of any fiscal quarter, the number of shares underlying stock options that may be granted to new hire employees for the following fiscal quarter and provide that our Chief Executive Officer may allocate such stock options at his discretion. The grant date in this instance is generally the date of hire.

Stock options generally vest and become exercisable one-third annually after the original grant date. In certain instances, however, stock options may vest on an accelerated basis, such as in the event an executive's employment is terminated by us without cause or by the executive with good reason, in the event that the executive terminates his employment within a certain period following a transaction that effects a change in the control of our company, or in the event of the executive's death or disability while employed by us. Under these

Table of Contents

circumstances all stock options held by the executive may automatically vest and become exercisable in accordance with the terms outlined in the stock option award agreement or the employment agreement, if applicable. The employment agreements that we entered into with the named executive officers during 2006 and amended in 2007 provide for all stock options held by an executive to automatically vest and become exercisable in the event his employment is terminated by us without cause or by the executive with or without good reason within a two year period following a change of control of our company.

There is a limited term in which an executive can exercise stock options, known as the option term. The option term is generally ten years from the date of grant, which is the maximum term of an option permitted under the 2004 Petrohawk Plan, the Mission Plan and the KCS Plans. At the end of the option term, the right to purchase shares pursuant to any unexercised option expires.

The exercise prices of the stock options granted to the named executive officers during fiscal year 2007 are shown in the Grants of Plan-Based Awards in 2007 Table on page 34. Additional information on these grants, including the number of shares subject to each grant, also is shown in the Grants of Plan-Based Awards in 2007 Table.

Restricted Stock Awards

During 2007, we granted restricted stock awards to various officers (including our named executive officers) and key employees under the 2004 Petrohawk Plan. Restricted stock awards are shares of our common stock that are awarded with the restriction that the executive remain with us through certain vesting dates. Prior to the restrictions thereon lapsing, the participant may not sell, transfer, pledge, assign or take any similar action with respect to the shares of restricted stock which the participant owns. Once the restrictions lapse with respect to shares of restricted stock, the participant owning such shares will hold freely-transferable shares, subject only to any restrictions on transfer contained in our certificate of incorporation, bylaws and insider trading policies, as well as any applicable federal or state securities laws. Despite the restrictions, each participant will have full voting rights and will receive any dividends or other distributions, if any, with respect to the shares of restricted stock which the participant owns.

The compensation committee does take prior grants into account in the design of future programs and awards. Restricted stock awards to senior management are generally considered annually, in February, after our year-end results become available, and at the same time as grants to the general eligible employee population are considered.

Restricted stock awards provide the opportunity for capital accumulation and more predictable long-term incentive value. The purpose of granting restricted stock awards is to encourage ownership, encourage retention of our senior management and result in business decisions that may drive stock price appreciation. Recognizing that our business is subject to significant fluctuations in commodity prices that may cause the market value of our common stock to fluctuate, we also intended the awards to provide an incentive for senior management to remain with us throughout commodity price and business cycles.

Restricted stock awards generally vest one-third annually after the original award date. As a consequence, the recipients do not become unconditionally entitled to retain any of the shares of restricted stock until one year following the date of grant, subject to certain exceptions related to termination of employment. Any unvested restricted stock awards generally are forfeited if the executive terminates employment with us. In certain instances, however, restricted stock awards may vest on an accelerated basis, such as in the event of the executive's employment is terminated by us without cause or by the executive with good reason, in the event that the executive terminates his employment within a certain period following a transaction that effects a change in the control of our company, or in the event of the executive's death or disability while employed by us. Under these circumstances all restricted stock awards held by the executive may automatically vest in accordance with the terms outlined in the restricted stock award agreement or the employment agreement, if applicable. The

employment agreements that we entered into with the named executive officers during 2006 and amended in 2007 provide for all restricted stock awards held by an executive to automatically vest in the event his employment is terminated by us without cause or by the executive with or without good reason within a two year period following a change of control of our company.

The restricted stock grants to the named executive officers during fiscal year 2007 are shown in the Grants of Plan-Based Awards in 2007 Table on page 34.

Stock Appreciation Rights

The 2004 Petrohawk Plan permits awards of stock appreciation rights. A stock appreciation right is very similar to a stock option, in that it represents the right to realize the increase in market price, if any, of a fixed number of shares over the grant value of the right, which is equal to the market price of our common stock on the date of grant. However, whereas to realize the value of a stock option the holder must pay the exercise price in exchange for shares of stock underlying the option, the value embodied by the stock appreciation right, if any, may be settled in exchange for shares of common stock valued on the date of settlement.

Stock appreciation rights provide incentives for the recipient that are very similar to the incentives provided by stock options, in that the stock appreciation right becomes valuable only if our common stock price increases above the grant value of the right and the holder of the right remains employed during the period required for the right to vest, thus providing an incentive for the holder to remain employed by us. Stock appreciation rights link a portion of the holder's compensation to stockholders' interests by providing an incentive to increase the market price of our stock.

Grants of stock appreciation rights to senior management are generally considered annually, at the same time as grants are considered for the general eligible employee population, in February, after our year-end results become available. Our practice is that the grant value for each stock appreciation right is the market value of our common stock on the date of grant, which is normally the date that our compensation committee approves the award at a meeting of the compensation committee or forty-eight hours after our release of earnings in accordance with our Insider Trading Policy. Our current policy provides for grants to be made during a trading window, as set forth in our Insider Trading Policy, and within such window only at such time as there is no material non-public information regarding the company. With respect to employees who are not executive officers, the compensation committee may delegate its authority to make such grants to our Chief Executive Officer by specifying the grant date, the total number of shares that may be subject to grants and other material terms of the grants. All proposed grants of stock appreciation rights to new-hire employees are required to be approved by our compensation committee. Alternatively, our compensation committee may authorize in writing, in advance of any fiscal quarter, the number of shares underlying stock appreciation rights that may be granted to new hire employees for the following fiscal quarter and provide that our Chief Executive Officer may allocate such stock options at his discretion. The grant date in this instance is generally the date of hire.

Stock appreciation rights generally vest one-third annually after the original grant date. In certain instances, however, stock appreciation rights may vest on an accelerated basis, such as in the event an executive's employment is terminated by us without cause or by the executive with good reason, in the event that the executive terminates his employment within a certain period following a transaction that effects a change in the control of our company, or in the event of the executive's death or disability while employed by us. Under these circumstances all stock appreciation rights held by the executive may automatically vest in accordance with the terms outlined in the stock appreciation award agreement or the employment agreement, if applicable. The employment agreements that we entered into with the named executive officers during 2006 and amended in 2007 provide for all stock appreciation awards held by an executive to automatically vest in the event his employment is terminated by us without cause or by the executive with or without good reason within a two year period following a change of control of our company.

There is a limited term in which an executive can exercise a stock appreciation right, known as the term. The term is generally ten years from the date of grant, which is the maximum term permitted under the 2004 Petrohawk Plan. At the end of the term, the right to receive the value of the stock appreciation right expires.

Stock appreciation rights were granted in 2007, which included 1,039,100 shares from the 2004 Petrohawk Plan and 397,400 shares from the 2005 KCS Plan. The stock appreciation rights granted to the named executive officers during fiscal year 2007 are shown in the Grants of Plan-Based Awards in 2007 Table on page 34.

Retirement Benefits

We do not maintain a defined benefit pension plan or retiree medical program that covers members of senior management. Retirement benefits to our senior management, including the named executive officers, are currently provided principally through a tax-qualified profit sharing and 401(k) plan (our Savings Plan), in which eligible salaried employees may participate. Pursuant to the Savings Plan, employees may elect to reduce their current annual compensation up to the lesser of 75% or the statutorily prescribed limit of \$15,500 in calendar year 2007 (plus up to an additional \$5,000 in the form of catch-up contributions for participants age 50 and above), and have the amount of any reduction contributed to the Savings Plan. Our Savings Plan is intended to qualify under sections 401(a) and 401(k) of the Code, so that contributions by us or our employees to the Savings Plan and income earned on contributions are not taxable to employees until withdrawn from the Savings Plan and so that contributions will be deductible by us when made. We match 100% of the amount an employee contributes to the Savings Plan, subject to a 10% maximum based on the employee's compensation as defined in the Savings Plan. Executives participate in the Savings Plan on the same basis as other employees.

The Savings Plan provides for 36 different investment options, for which the participant has sole discretion in determining how both the employer and employee contributions are invested. The independent trustee of the Savings Plan then invests the assets of the Savings Plan as directed by participants. The Savings Plan does not provide our employees the option to invest directly in our securities. The Savings Plan offers in-service withdrawals in the form of after-tax account distributions and age 59.5 distributions.

We believe that the Savings Plan supports the objectives of our compensation structure, including the ability to attract and retain senior and experienced mid- to late-career executives for critical positions within our organization.

Employment Contracts, Termination of Employment and Change-in-Control Arrangements

On July 11, 2006, we entered into employment agreements with each of the named executive officers (other than Mr. Hahne whose employment agreement is effective as of July 12, 2006). During 2006 we faced increasing competition for management talent at the same time as anticipated changes to our board of directors and the constitution of our compensation committee as a consequence of our pending merger with KCS created greater uncertainty for management. Additionally, the management of KCS had employment agreements, including Mr. Hahne, and it was necessary for us to negotiate a new agreement with Mr. Hahne to secure his services following our merger with KCS. These factors led us to conclude that it was appropriate and in our best interests to enter into employment agreements with each of the named executive officers.

In September 2007, we amended the employment agreements for each named executive to clarify payment terms under change of control and employment termination scenarios and to comply with final 409(a) regulations. The following summarized the terms of the employment agreements as amended.

Term of Employment Agreements

The initial term of employment of each of our current named executive officers is two years from the effective date of their employment agreements. Each agreement with an executive provides for automatic one year extensions unless either party provides written notice six months prior to expiration of the initial term or any extension.

Table of Contents

Compensation and Benefits

The salary payable to each of the named executives during 2007 is the amount set forth under the heading *2007 Base Salary* in the table above. The salary of each executive is subject to periodic review and may be increased from time to time by the compensation committee. The base salary for each of the named executives during 2008 is set forth in under the heading *Compensation Adjustments and Long-Term Incentive Awards Subsequent to Fiscal Year End* below. Each executive is eligible to receive bonuses, grants of stock options, restricted stock or other equity awards as determined in the discretion of the compensation committee. Each of the executives is also entitled to reimbursement for reasonable business expenses and to participate in our life, health, and dental insurance programs, and all other employee benefit plans which we may, from time to time, make available.

Our chief executive officer is entitled under his employment agreement to receive a vehicle allowance and reimbursement for admission to, and the dues for, one club membership. Our chief financial officer is entitled under his employment agreement to be reimbursed for admission to, and the dues for, one club membership.

Our use of expense reimbursement and perquisites as an element of compensation is limited and is largely based on historical practices. We do not view these items as a significant element of our compensation structure but do believe that they can be used in conjunction with base salary to attract, motivate and retain individuals in a competitive environment. The compensation committee annually reviews these items provided to determine if they are appropriate and if any adjustments are warranted.

Termination Provisions and Severance Payments

We may terminate each executive's employment upon disability, for cause or without cause. Each executive may terminate his employment based on uncured material breaches of his employment agreement by us, a reduction in the base compensation or target bonus payable to him, a material reduction in the scope of his office and responsibilities, a failure by us to continue any compensation or benefit plan that is material to the executive's total compensation or the permanent relocation of the executive outside of the metropolitan area of Houston, Texas. If the employment of any of the executives is terminated by death or disability, such executive (or his or her personal representative in the event of death) is entitled to receive his accrued unpaid base compensation, plus an optional bonus to be determined by the compensation committee, and all stock options and other incentive awards held by the executive will become fully vested and immediately exercisable, and all restrictions on any shares of restricted stock will be removed. If the employment of any of the executives is terminated by us for cause, such executive (or his or her personal representative in the event of death) is entitled to receive his accrued unpaid base compensation.

If the employment of any executive is terminated by us without cause or by such executive with good reason, and such termination is not within two years after a change in control, such executive will be entitled to the accrued portion of unpaid salary, payment of a prorated amount of the executive's bonus for the year in which the termination occurs, a severance payment equal to one year's base salary plus the higher of the current year target bonus or the bonus paid for the preceding year, payment of the premiums for medical and dental insurance for him and his entire family for one year following termination, and the full vesting of all his unvested options and all restrictions removed from his shares of restricted stock. If such executive is terminated by us without cause or such executive terminates his employment with the Company *with or without* good reason, and such termination is within two years after a change in control, such executive will be entitled to receive the accrued portion of unpaid salary, a severance payment equal to two times his current base salary plus the higher of the current year target bonus or the bonus paid for the preceding year, payment of the premiums for medical and dental insurance for him and his entire family for two years following termination payment of a prorated bonus in the year of the change of control, and the full vesting of all his unvested options and all restrictions removed from his shares of restricted stock. If the employment of such executive is terminated by such executive without good reason and not within two years after a change in control, such executive is entitled to receive his accrued unpaid base compensation.

Table of Contents

The employment agreements with the named executive officers generally define a change of control to mean any of the following events:

any person or group becomes the beneficial owner (as defined in Rule 13d-3 under the Exchange Act), directly or indirectly, of more than 35% of the total voting power of our outstanding voting stock;

our merger with or consolidation into another entity and, immediately after giving effect to the merger or consolidation, one or both of the following occurs: (a) less than 50% of the total voting power of the outstanding voting stock of the surviving or resulting entity is then beneficially owned in the aggregate by our stockholders immediately prior to such merger or consolidation, or (b) the individuals who were members of our board of directors immediately prior to the execution of the agreement providing for the merger or consolidation do not constitute at least a majority of the members of the board of directors of the surviving or resulting entity;

we sell, assign, convey, transfer, lease or otherwise dispose of all or substantially all of our assets to a third party in one transaction or a series of related transactions;

individuals who constitute our board of directors cease for any reason to constitute at least a majority of our board of directors unless such persons were elected, appointed or nominated by a vote of at least a majority of our incumbent directors; or

the complete liquidation or dissolution of our company.

In our view, having the change of control and severance protections helps to maintain the named executive officer's objectivity in decision-making and provides another vehicle to align the interests of our named executive officer with the interests of our stockholders.

The following table sets forth the estimated amounts that would be payable to each of the named executives upon a termination under the scenarios outlined above, excluding termination for cause or on account of death or disability, assuming that such termination occurred on December 31, 2007 and using the closing price of our common stock at December 31, 2007 for purposes of the calculations as required by the SEC. The dollar amounts set forth under the column heading *Early Vesting of Restricted Stock/Options* correspond to the amounts that would be paid, in addition to accrued and unpaid salary through the date of death or disability, in the event of the death or disability at year-end of each of the executives. There can be no assurance that these scenarios would produce the same or similar results as those disclosed if a termination occurs in the future.

- (B) As stated above, the value of unvested restricted stock and stock options that would vest under each of these termination scenarios is based on our common stock price at December 31, 2007. Amounts do not include the dollar value of restricted stock or stock options that vested prior to December 31, 2007.
- (C) Includes an estimate of health insurance benefits to be provided under each of the scenarios based on actual amounts paid out in 2007.

Board Representation

Mr. Wilson's employment agreement provides that he will be nominated as a member of our board of directors, and that we will use our best efforts to cause him to be elected, appointed, or re-elected or re-appointed, as a director.

Mr. Hahne's Post-Employment Compensation

Effective July 12, 2006, in connection with our merger with KCS Energy, we entered into a one-year employment agreement with William N. Hahne pursuant to which he was entitled to certain contractual bonus payments, including a payment equal to \$350,000 if he remained employed by us at the end of the initial term of his employment. Further, if Mr. Hahne was employed by us at such time and our 2007 second quarter average daily production was greater (excluding the effects of acquisitions and divestitures) than our 2006 second quarter daily average production pro forma for our merger with KCS, Mr. Hahne became entitled to an additional bonus of \$17,500 per percentage point increase, up to \$350,000. Prior to his retirement in October 2007, Mr. Hahne was paid \$350,000 for his contractual bonus and \$304,500 of the production-based bonus. Mr. Hahne was also awarded a special bonus of \$50,000 for his work in integrating the operations groups after the merger. In addition, Mr. Hahne received 50,000 shares of our restricted common stock, restrictions on which will lapse in full two years after the date of the employment agreement (i.e., July 12, 2008) even though he is no longer employed by us.

Indemnification Agreements

We have entered into an indemnification agreement with each of our independent, non-management directors and senior executives. These agreements provide for us to, among other things, indemnify such persons against certain liabilities that may arise by reason of their status or service as directors or officers, to advance their expenses incurred as a result of a proceeding as to which they may be indemnified and to cover such person under any directors' and officers' liability insurance policy we choose, in our discretion, to maintain. These indemnification agreements are intended to provide indemnification rights to the fullest extent permitted under applicable indemnification rights statutes in the State of Delaware and are in addition to any other rights such person may have under our certificate of incorporation, bylaws and applicable law. We believe these indemnification agreements enhance our ability to attract and retain knowledgeable and experienced executives and independent, non-management directors.

Tax Deductibility

Section 162(m) of the Code limits the deductibility of compensation in excess of \$1 million paid to our chief executive officer and our four other highest-paid executive officers unless certain specific and detailed criteria are satisfied. We believe that it is often desirable and in our best interests to deduct compensation payable to our executive officers. However, we also believe that there are circumstances where our interests are best served by maintaining flexibility in the way compensation is provided, even if it might result in the non-deductibility of certain compensation under the Code. In this regard, we consider the anticipated tax treatment to our company and our executive officers in the review and establishment of compensation programs and payments; however, we may from time to time pay compensation to our executives that may not be deductible, including discretionary bonuses or other types of compensation outside of our plans.

Table of Contents

Although equity awards may be deductible for tax purposes by us, the accounting rules pursuant to FAS 123(R) require that the portion of the tax benefit in excess of the financial compensation cost be recorded to paid-in-capital.

- (1) Represents shares of restricted stock issued under our 2004 Petrohawk Plan. The shares of restricted stock vest in three equal installments on each anniversary of the date of grant, in each case provided that the recipient has been continuously employed at such date.
- (2) All of the awards reflected are in the form of stock appreciation rights and reflect the full amount of the award. To the extent the awards are stock settled, a lesser number of shares will be issued at settlement. The exercise price of each award is equal to the closing market price of our common stock on the date of grant.
- (3) Represents the full grant date fair value determined in accordance with FAS 123R. Please see the discussion of the assumptions made in the valuation of these awards in Note 1 Summary of Significant Accounting Policies to the audited consolidated financial statements included in the annual report accompanying this proxy statement. Generally, the full grant date fair value is the amount that we would expense in its financial statements over the award's vesting schedule. These amounts reflect our accounting expense, and do not correspond to the actual value that will be recognized by the named executive officers.

Table of Contents**Compensation Adjustments and Long-Term Incentive Awards Subsequent to Fiscal Year End**

Subsequent to December 31, 2007, as part of the analysis of executive compensation that is undertaken annually by our compensation committee, we approved increases in the base salaries of each of our named executive officers and granted awards to each executive officer of long-term equity incentives under our 2004 Petrohawk Plan. These incentives were in the form of grants of restricted stock and non-qualified stock options. The restricted stock grants and non-qualified stock options vest over a period of three years. The incremental increase in salary and the number of shares covered by the equity awards for each named executive officer are set forth in the table below. The exercise price per share for each stock option reflected in the following table is \$18.08, which was the closing stock price of our common stock on the date of grant, February 29, 2008.

- (1) Represents the dollar amount recognized for financial statement reporting purposes with respect to the 2007 fiscal year for the fair value of awards granted in 2007 as well as prior fiscal years, as determined in accordance with FAS 123R. Pursuant to SEC rules, the amounts shown exclude the impact of estimated forfeitures related to service-based vesting conditions. Please see the discussion of the assumptions made in the valuation of these awards in Note 8 Stockholders' Equity to the audited consolidated financial statements included in the annual report accompanying this proxy statement. These amounts reflect our accounting expense for these awards, and do not correspond to the actual value that will be recognized by our directors.
- (2) The grant date fair value of each of these awards, determined in accordance with FAS 123R, was:

- (3) Represents the numerical sum of the dollar amounts reflected in each other column for each director.
- (4) Prior to each calendar quarter, in lieu of cash fees for the quarter, directors may elect to receive shares of common stock in an amount equal to such fees, calculated on the closing price of shares of our common stock on the NYSE on the last day of such quarter. Messrs. Bridwell and Raynolds elected to receive substantially all of their board fees in shares of common stock. The total number of shares received by them in lieu of fees were 3,585 shares and 3,389 shares, respectively.

The aggregate number of restricted stock awards subject to vesting and option awards made to each of our directors for service as a director outstanding at December 31, 2007 was:

Table of Contents***Discussion of Director Compensation Table***

Employee directors receive no additional compensation for service on our board of directors or any committee of the board of directors. All directors receive actual expense reimbursements associated with attending board and committee meetings. Prior to August 11, 2006, our non-employee directors each received \$20,000 in cash per year (payable on a quarterly basis in the amount of \$5,000). The chairman of our audit committee received an additional \$5,000 per year (payable on a quarterly basis in the amount of \$1,250). Further, each member of our audit committee (other than the chairman) received an additional \$2,500 per year (payable on a quarterly basis in the amount of \$625). Directors are entitled to elect quarterly to be paid in shares of our common stock in lieu of cash, with the number of shares determined by dividing such fees by the trading price per share of our common stock on the last day of each calendar quarter.

In addition, under the 2004 Petrohawk Plan, we granted each non-employee director 7,500 shares of our restricted common stock at the time such non-employee director became a director. Each grant of 7,500 restricted shares vested fully after the non-employee director completed six months of service on our board. In addition, we granted 5,000 shares of our restricted common stock with the same vesting provisions annually to each non-employee member of the board on the anniversary of his or her appointment or election to the board.

Effective August 11, 2006, pursuant to a recommendation from our compensation committee, our board of directors increased the annual equity grant to non-employee directors from 5,000 shares of restricted stock to 10,000 shares of our restricted common stock, except that the vice chairman of our board of directors will receive grants of 15,000 shares of our restricted common stock annually. Also as recommended by our compensation committee, the number of shares of restricted common stock to be granted to new non-employee directors was increased from 7,500 shares to 10,000 shares.

Beginning on September 30, 2006, annual cash retainers paid to each non-employee director were also increased from \$20,000 to \$50,000, payable quarterly. Also beginning on September 30, 2006, additional annual compensation for board committee service, which is payable quarterly, was authorized, as follows:

Board Committee	Committee Chairperson Compensation	Committee Member (excluding Chairperson) Compensation
Audit	\$ 15,000	\$ 5,000
Compensation	\$ 7,500	\$ 2,500
Nominating and Corporate Governance	\$ 7,500	\$ 2,500
Reserves	\$ 5,000	\$ 2,000

Board members may elect to take all or a portion of the cash compensation mentioned above in our common stock, but such election must be made prior to the beginning of the quarter for which the compensation would be paid and shall be irrevocable for that quarter.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

Messrs. Merriman, Viggiano and Fuller served on the compensation committee of our board of directors throughout 2007. No member of the compensation committee served as one of our officers or employees or of any of our subsidiaries during that year. In addition, during 2007, none of our executive officers served as a director or as a member of the compensation committee of a company which employs any of our directors.

ACCOUNTANTS AND AUDIT COMMITTEE

Audit Committee Report

Dear Stockholder:

The Audit Committee has reviewed and discussed with management of Petrohawk and Deloitte & Touche LLP (Deloitte), the independent registered public accounting firm serving as the independent auditor of Petrohawk, the audited financial statements of Petrohawk as of, and for the fiscal year ended, December 31, 2007 (the Audited Financial Statements). In addition, we have discussed with Deloitte the matters required to be discussed by the statement on Auditing Standard No. 61, as amended (AICPA, *Professional Standards*, Vol. 1. AU section 380), as adopted by the Public Company Accounting Oversight Board in Rule 3200T.

The Audit Committee also has received the written disclosures and the letter from Deloitte required by Independence Standards Board Standard No. 1 (Independence Standards Board Standard No. 1, *Independence Discussions with Audit Committees*), as adopted by the Public Company Accounting Oversight Board in Rule 3600T, and the Committee has discussed with that firm its independence from Petrohawk. Upon such review, the Audit Committee has concluded that the independent auditors are independent from Petrohawk and its management. We have also discussed with management of Petrohawk and Deloitte such other matters and received such assurances from them as we deemed appropriate.

Management is responsible for Petrohawk's internal controls and the financial reporting process. Deloitte is responsible for performing an independent audit of Petrohawk's financial statements and of its internal control over financial reporting in accordance with generally accepted auditing standards and issuing a report thereon. The Audit Committee's responsibility is to monitor and oversee these processes.

Based on the foregoing monitoring and oversight process, discussions with management and a review of the report of Deloitte with respect to the Audited Financial Statements, and relying thereon, the Committee has recommended to the Board the inclusion of the Audited Financial Statements in Petrohawk's Annual Report on Form 10-K for the year ended December 31, 2007 for filing with the SEC.

The Audit Committee has considered the requirements of the Sarbanes-Oxley Act of 2002 with respect to the responsibilities of audit committees of public companies. The Audit Committee and the Board of Petrohawk are committed to compliance with all provisions of that statute and related regulations. Actions will be taken by the Audit Committee and the Board as statutory and regulatory provisions become effective for Petrohawk and for audit committees and independent auditors generally.

MEMBERS OF THE COMMITTEE:

James L. Irish III (Chairman)
Robert C. Stone, Jr.
Tucker S. Bridwell
Christopher A. Viggiano

(The foregoing Audit Committee Report does not constitute soliciting material and should not be deemed filed or incorporated by reference into any other filing of Petrohawk under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent that Petrohawk specifically incorporates the Report by reference therein.)

Audit Committee Pre-Approval Policy

All audit fees, audit related fees and tax fees as described above for the years ended December 31, 2007 and December 31, 2006, as applicable, were pre-approved by our audit committee, which concluded that the provision of such services by Deloitte was compatible with the maintenance of Deloitte's independence in the conduct of its auditing functions. Our audit committee's pre-approval policy provides that pre-approval of all such services must be approved separately by the audit committee. The audit committee has not delegated any such pre-approval authority to anyone outside the audit committee. Each member of the audit committee has the authority to pre-approve non-audit services up to \$50,000 to be performed by our auditors.

PROPOSALS FOR CONSIDERATION AT THE ANNUAL MEETING OF STOCKHOLDERS

PROPOSAL 1 ELECTION OF DIRECTORS

Our bylaws specify that we shall not have less than one nor more than eleven directors, and each director holds office until the annual stockholders meeting at which such director's class is up for re-election and until the director's successor is duly elected and qualified, or until such director's earlier death, resignation or removal. As of the date of this proxy statement, our board of directors consists of nine directors, seven of whom have been determined to be independent directors as forth in the corporate governance rules of the NYSE codified in Section 303A of the NYSE Listed Company Manual. Our certificate of incorporation provides that our board of directors is classified into three classes: Class I, Class II and Class III, each class being a three year term of office. As discussed more fully under Our Board of Directors and Its Committees starting on page 5, three of our current directors, Floyd C. Wilson, Tucker S. Bridwell and Gary A. Merriman have been nominated for reelection at the 2008 annual meeting of our stockholders because of the expiration of the term of their class, Class I, on our classified board of directors.

If any nominee should for any reason become unable to serve prior to the date of the annual meeting, the shares represented by all valid proxies will be voted for the election of such other person as the board may designate as a replacement following recommendation by the nominating and corporate governance committee, or the board may reduce the number of directors to eliminate the vacancy.

Directors are elected by a plurality vote of the shares present at the annual meeting, meaning that the director nominee with the most affirmative votes for a particular slot is elected for that slot. Any shares not voted (whether by withholding the vote, broker non-vote or otherwise) have no impact in the election of directors, except to the extent the failure to vote for an individual results in another candidate receiving a larger number of votes in person and represented by proxy at the annual meeting. If you sign your proxy card but do not give instructions with respect to the voting of directors, your shares will be voted for Messrs. Wilson, Bridwell and Merriman.

Additional information regarding Messrs. Wilson, Bridwell and Merriman and all of our other directors can be found under Our Board of Directors and Its Committees starting on page 5 of this proxy statement, under Security Ownership of Executive Officers and Directors starting on page 14, and under Director Compensation starting on page 38.

THE BOARD OF DIRECTORS UNANIMOUSLY PROPOSES AND RECOMMENDS THAT YOU VOTE FOR EACH OF THE NOMINEES FOR THE BOARD OF DIRECTORS.

PROPOSAL 2 RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITOR

The audit committee has appointed Deloitte & Touche LLP as the independent registered public accounting firm to serve as our independent auditor in respect of the fiscal year ending December 31, 2008. The audit committee recommends that our stockholders ratify this appointment.

During 2007, Deloitte & Touche LLP audited our annual consolidated financial statements and those of our subsidiaries, reviewed financial information in filings with the SEC and other regulatory agencies, audited our internal control over financial reporting for the fiscal year ended December 31, 2007 and provided various other services.

The affirmative vote of the majority of the shares present in person or represented by proxy at the annual meeting and voting on the proposal shall constitute ratification of the selection of Deloitte & Touche LLP. If our stockholders do not ratify the appointment of Deloitte & Touche LLP, the appointment of an independent registered public accounting firm to serve as the independent auditor for the fiscal year ending December 31, 2008 will be reconsidered by the audit committee.

Representatives of Deloitte & Touche LLP are expected to be present at the meeting and will have an opportunity to address the meeting and respond to appropriate questions.

THE BOARD OF DIRECTORS UNANIMOUSLY PROPOSES AND RECOMMENDS

THAT YOU VOTE FOR THE RATIFICATION OF THE APPOINTMENT OF

DELOITTE & TOUCHE LLP AS OUR INDEPENDENT AUDITOR

FOR THE FISCAL YEAR ENDING DECEMBER 31, 2008.
