PROXY STATEMENT

TO BE HELD ON JUNE 3, 2009

GENERAL

This Proxy Statement is being furnished to shareholders of Roper Industries, Inc. (the Company or Roper) in connection with the solicitation of proxies by the Board of Directors of the Company (the Board of Directors) for use at the Annual Meeting of Shareholders, and any adjournments thereof, to be held at the time and place set forth in the accompanying notice (Annual Meeting). It is anticipated that the mailing of this Proxy Statement and the enclosed proxy card will commence on or about April 29, 2009. All shareholders are urged to read this Proxy Statement carefully and in its entirety.

ANNUAL MEETING INFORMATION

The Annual Meeting will be held on June 3, 2009, at noon, local time, 6901 Professional Parkway East, Suite 200, Sarasota, Florida 34240.

SOLICITATION OF PROXIES

The enclosed proxy is solicited by the Board of Directors. Roper will bear the costs of proxy solicitation. In addition to soliciting proxies by use of the mail, its officers and regular employees may devote part of their time, without additional compensation, for solicitation by fax, telephone or personal calls. Arrangements may also be made with brokerage houses and other custodians, nominees and fiduciaries for the forwarding of solicitation material to beneficial owners and for reimbursement of their out-of-pocket and clerical expenses incurred in that connection. The Company has engaged Georgeson Shareholder Communications, Inc. as the proxy solicitor for the Annual Meeting for a fee of approximately \$9,000 plus reasonable expenses.

Where multiple shareholders share the same address, only one copy of this Proxy Statement will be mailed to that address unless Roper has been notified by such shareholders of their desire to receive multiple copies of the Proxy Statement. If you share an address with another shareholder and wish to receive a separate Proxy Statement, you may instruct Roper to provide a separate Proxy Statement by writing to the attention of the Secretary at the address set forth in the following paragraph, or by calling 941-556-2601. Shareholders who share the same address and already receive multiple copies of the Proxy Statement, but prefer to receive a single copy, may contact Roper at the same address and phone number to make such request.

The mailing address of the Company's principal executive office is Roper Industries, Inc., 6901 Professional Parkway East, Suite 200, Sarasota, Florida 34240. This Proxy Statement is accompanied by the Company's 2008 Annual Report to Shareholders, which includes our Annual Report on Form 10-K that was filed with the Securities and Exchange Commission (SEC) on March 2, 2009. Additional copies of the Annual Report are available upon written request mailed to the attention of the Secretary at the above address. In addition, the Form 10-K and exhibits are available on the internet at www.sec.gov. The Annual Report is not part of these proxy soliciting materials.

RECORD DATE; VOTING RIGHTS

Only shareholders of record of the Company's Common Stock at the close of business on April 6, 2009 (the Record Date) will be entitled to notice of and to vote at the Annual Meeting on all matters. We have one class of voting securities outstanding, which is designated as Common Stock, and each share of Common Stock is entitled to one vote upon all matters to be acted upon at the Annual Meeting. At the close of business on the Record Date, the Company had 90,485,064 shares of Common Stock outstanding and entitled to vote. The presence, in person or by proxy, of the holders of a majority of the outstanding shares of Common Stock entitled to vote is necessary to constitute a quorum for the transaction of business at the Annual Meeting. For purposes of the quorum and the discussion below regarding the vote necessary to take shareholders action, shareholders of record who are present at the meeting in person or by proxy and who abstain at the Annual Meeting, and broker non-votes, are considered shareholders who are present and count toward the quorum. If there are not sufficient votes for a quorum or to approve any proposal at the Annual Meeting, the Annual Meeting may be adjourned to permit the further solicitation of proxies.

Under the rules of the New York Stock Exchange (the NYSE), brokers who hold shares in street name have discretionary authority to vote on the election of directors and on other routine items when they have not received instructions from beneficial owners. In addition to the proposal for the election of directors, the proposal for the ratification of the appointment of independent auditors is also a routine matter. Therefore, if you do not vote your proxy, your brokerage firm may either vote your shares on these routine matters, or leave your shares unvoted. When a brokerage firm votes its customers' unvoted shares on routine matters, these shares are counted for purposes of determining the outcome of the vote on routine matters. Roper encourages you to provide instructions to your brokerage firm by signing and returning your proxy.

With regard to the election of directors, votes may be cast in favor of all nominees or withheld from all nominees or any particular nominee. Directors will be elected by a plurality of the votes entitled to be cast in person or represented by proxy at the Annual Meeting. Votes that are withheld and broker non-votes will be excluded entirely from the vote calculation and will have no effect on the outcome of the voting.

The appointment of PricewaterhouseCoopers LLP as the independent registered accounting firm of the Company will be ratified by the affirmative vote of a majority of the total votes present in person or represented by proxy and entitled to vote. An abstention will have the effect of a vote against this proposal.

The Board of Directors knows of no additional matters that will be presented for consideration at the Annual Meeting. Return of a valid proxy, however, confers on the designated proxy holders discretionary authority to vote the shares in accordance with their best judgment on such other business, if any, that may properly come before the Annual Meeting or any adjournment or postponement thereof. Proxies solicited hereby will be tabulated by inspectors of election designated by the Board of Directors.

You are urged to sign the enclosed proxy and return it promptly in the envelope enclosed for that purpose. Proxies will be voted in accordance with your directions. If a proxy is signed, but no directions are given, it will be voted (i) **FOR** the election of the nominees named herein for Director, and (ii) **FOR** the ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the year ending December 31, 2009.

REVOCATION OF PROXIES

You may revoke any proxy at any time prior to its exercise by the filing of a written notice of revocation with the Secretary of the Company or by delivering to the Company a duly executed proxy bearing a later date, or by attending the Annual Meeting and voting in person. However, if you are a shareholder whose shares are not registered in your own name, you will need documentation from your record holder stating your ownership to vote personally at the Annual Meeting.

PROPOSAL 1: ELECTION OF DIRECTORS

Roper's Certificate of Incorporation provides that the Board of Directors shall consist of such number of members as may be fixed, from time to time, by the Board of Directors, but not less than the minimum number required under Delaware law. The Board of Directors has currently fixed the number of directors at nine. The Certificate of Incorporation also provides that the Board of Directors shall be divided into three classes of directors, as nearly equal in number as possible, with the term of one class expiring at each annual meeting of shareholders and each class serving three-year terms.

The terms of office of Robert D. Johnson, Robert E. Knowling and Wilbur J. Prezzano expire at this Annual Meeting. Mr. Knowling was appointed a director on August 14, 2008 to fill a vacancy when the number of directors was expanded to nine. Upon recommendation of the Company's independent Nominating and Governance Committee, the Board of Directors has nominated Messrs. Johnson, Knowling and Prezzano to stand for election as directors for terms expiring at the 2012 Annual Meeting of Shareholders. Mr. Knowling is standing for election by the shareholders for the first time.

Our guidelines provide for directors to retire from the Board following the next annual meeting after attaining age 70. Mr. Banks has attained that age and it is expected that he will retire. If that occurs, then the size of the Board would be reduced to 8.

Proxies received without voting instructions will be voted FOR the nominees listed below. In the event any nominee is unable to serve (which is not anticipated), the proxy will be voted for a substitute nominee selected by the Board of Directors.

Certain information about the nominees, whose current terms will expire in 2009, and about the directors whose terms continue, is set forth below:

CORPORATE GOVERNANCE

Corporate Governance Guidelines

Roper's Corporate Governance Guidelines reflect the Board of Directors' commitment to monitor that the Board of Directors and its Committees are functioning effectively in the exercise of its responsibilities. The Corporate Governance Guidelines are available on Roper's website (www.ropersind.com) and also may be obtained upon request from the Secretary.

Nominating Process

The three directors standing for election at the Annual Meeting were unanimously nominated by the Board of Directors. Roper's independent Nominating and Governance Committee, acting under its charter, has determined the desired skills, ability, judgment, diversity and other criteria deemed appropriate for service as a director and is responsible for recommending new director candidates and re-nomination of existing directors based on those criteria, which includes, but is not limited to: high personal and professional ethics, integrity and values; knowledge of Company's business environment; sound judgment and analytical ability; skills and experience in the context of the needs of the Board of Directors; breadth of business experience; and whether the candidate meets the independence requirements of NYSE. The Company frequently engages a third party to assist in identifying potential nominees. The Board of Directors' process for identifying and evaluating potential nominees also includes soliciting recommendations from directors of the Company.

Neither the Board of Directors nor the Nominating and Governance Committee has a specific policy regarding consideration of shareholder director nominees. However, shareholder nominees submitted pursuant to the following procedures will be considered under the same criteria that are applied to other candidates. Under Roper's By-laws, nominations for director may be made by a shareholder of record entitled to vote. In order for a shareholder to make a nomination, the shareholder must provide a notice along with the additional information and materials required by the By-laws to Roper's Secretary not less than 90 days nor more than 120 days prior to the first anniversary of the preceding year's annual meeting. No shareholder director nominee proposal in connection with the 2009 Annual Meeting was received under the By-laws or otherwise from any shareholder or group of shareholders. For the 2010 Annual Meeting of Shareholders, Roper must receive this notice on or after February 3, 2010, and on or before March 5, 2010. A shareholder can obtain a copy of the full text of the By-law provision by writing to Roper Industries, Inc., 6901 Professional Parkway East, Suite 200, Sarasota, Florida 34240, Attention: Secretary. A copy of the By-laws has been filed with the SEC as an exhibit to Roper's Current Report on Form 8-K filed on February 19, 2009. A copy of the By-laws can also be viewed on Roper's website (www.ropersind.com).

Shareholder Communications

The Board of Directors provides a process for shareholders to send written communications to the Board of Directors. Shareholders may send written communications to the Board of Directors, or the non-management members of the Board of Directors, in care of Roper Industries, Inc., 6901 Professional Parkway East, Suite 200, Sarasota, Florida 34240, Attention: Secretary. The Secretary will compile all such communications from shareholders and submit them as addressed to the directors on a periodic basis. This process for shareholders to send such written communications also is set forth on Roper's website (www.ropersind.com).

Interested Party Communications

Any interested party (in accordance with NYSE Listing Standard 303A.03) who desires to contact the Company's Board of Directors, any Committee of the Board, or select Board members (including the non-management directors as a group) may send written communications in care of Roper Industries, Inc., 6901 Professional Parkway East, Suite 200, Sarasota, Florida 34240, Attention: Secretary.

Code of Business Conduct & Ethics

Roper has a Business Code of Ethics and Standards of Conduct (the "Code of Ethics"). The Code of Ethics addresses the professional, honest and candid conduct of each director, officer and employee; conflicts of interest, disclosure process, compliance with laws, rules and regulations, (including insider trading laws); corporate opportunities, confidentiality, fair dealing, protection and proper use of Company assets; and encourages the reporting of any illegal or unethical behavior. The Code of Ethics applies to Roper's directors and employees, including its executive officers. The Code of Ethics is available on Roper's website (www.ropерind.com) and also may be obtained upon request from the Secretary. Any amendments to, or waivers of, the Code of Ethics will be disclosed on Roper's website promptly following the date of such amendment or waiver.

Director Independence

The Board of Directors has a majority of independent directors as defined by the listing standards of the NYSE. As required by the director independence standards, the Board of Directors reviewed and analyzed the independence of each director in February 2009. The purpose of the review was to determine whether any particular relationships or transactions involving directors or their affiliates or immediate family members were inconsistent with a determination that the director is independent for purposes of serving on the Board of Directors and its Committees. During this review, the Board of Directors examined transactions and relationships between directors or their affiliates and Roper or Roper's management. As a result of this review, on February 12, 2009, the Board of Directors affirmatively determined that all directors are independent, except for Mr. Jellison, and that each member of the Audit, Compensation, and Nominating and Governance Committees is independent for purposes of serving on such Committees. In addition, although Mr. Devonshire serves on the audit committee of more than three publicly traded companies, the Board of Directors determined that such simultaneous service does not impair his ability to serve on Roper's Audit Committee. The Company's director independence standards are available on Roper's website (www.ropерind.com) and may also be obtained upon request from the Secretary.

Compensation Committee Interlocks and Insider Participation

No member of the Compensation Committee during fiscal year 2008 served as an officer, former officer, or employee of the Company or had a relationship discloseable under SEC rules as transactions with related persons. Furthermore, during 2008, no executive officer of the Company served as:

a member of the Compensation Committee (or equivalent) of any other entity, one of whose executive officers served as one of our directors or was an immediate family member of a director, or served on our Compensation Committee; or

director of any other entity, one of whose executive officers or their immediate family member served on our Compensation Committee.

Review and Approval of Related Party Transactions

The Company has operated under a Code of Ethics for many years. The Company's Code of Ethics requires all employees, officers and directors, without exception, to avoid engagement in activities or relationships that conflict, or would be perceived to conflict, with the Company's interests or adversely affect its reputation. It is understood, however, that certain relationships or transactions may arise that would be deemed acceptable and appropriate upon full disclosure of the transaction, following review and approval to ensure there is a legitimate business reason for the transaction and that the terms of the transaction are no less favorable to the Company than could be obtained from an unrelated person.

The Audit Committee is responsible for reviewing and approving, as appropriate, all transactions with related persons. The Company has not adopted written procedures for reviewing related person transactions. The

Company reviews all relationships and transactions in which the Company and our directors and executive officers or their immediate family members are participants to determine whether such persons have a direct or indirect material interest. As required under SEC rules, transactions, if any, that are determined to be directly or indirectly material to the Company or a related person are disclosed.

The Audit Committee determined there were no related party transactions during 2008.

BOARD COMMITTEES AND MEETINGS

The Board of Directors of the Company held seven meetings during the fiscal year ended December 31, 2008. Each of Roper's directors attended more than 75% of the meetings of the Board of Directors (held while such individual served as a director) and of any Committee on which he served. The Board of Directors has not implemented a formal policy regarding director attendance at the annual meeting. Seven of the eight continuing members of the Board of Directors attended the 2008 Annual Meeting of Shareholders either in person or telephonically.

Roper's non-management directors meet in executive session at each Board of Directors meeting. The non-management directors choose the director who presides at these meetings, and that role is rotated.

Board Committees

The Board of Directors of the Company has four standing committees: the Executive Committee, the Audit Committee, the Compensation Committee, and the Nominating and Governance Committee. Each of the Audit Committee, Compensation Committee, and Nominating and Governance Committee operates under a written charter, copies of which can be viewed on Roper's website (www.roperrind.com) and may be obtained upon request from the Secretary.

The Board of Directors has determined that based on his extensive background and expertise, particularly as the chief financial officer of various other public companies, Mr. Devonshire meets the criteria of an audit committee financial expert under SEC rules. The Board of Directors has determined that all Audit Committee members meet the NYSE standard of financial literacy and have accounting and related financial management expertise.

Report its activities to the full Board of Directors on a regular basis.

Compensation Committee: 4 Meetings Held in 2008

The Compensation Committee administers Roper's executive incentive compensation programs and determines, together with the other independent members of the Board of Directors, annual salary levels and incentive compensation awards for the Company's executive officers. The Compensation Committee also, at the direction of the Board, periodically reviews and determines the form and amounts of Director compensation and reviews and makes recommendations to the Board with respect to Director compensation and benefits. The Compensation Committee may delegate its duties and responsibilities to a subcommittee of the Committee. Information regarding the Compensation Committee's processes and procedures for the consideration and determination of executive compensation is set forth below in this Proxy Statement under "Compensation Discussion and Analysis."

Nominating and Governance Committee: 2 Meetings Held in 2008

The Nominating and Governance Committee assists the Board of Directors in identifying individuals qualified to become directors, determining the size and composition of the Board of Directors and its Committees, developing and implementing corporate governance guidelines, evaluating the qualifications and

independence of members of the Board on a periodic basis and evaluating the overall effectiveness of the Board of Directors and its committees.

Pursuant to its charter, the Nominating and Governance Committee has the authority and responsibility to:

Evaluate a candidate's qualification based on a variety of factors, including such candidate's integrity, reputation, judgment, knowledge, experience, and diversity as well as the Board's needs;

Recommend qualified individuals for board membership, including individuals suggested by management and/or shareholders;

Periodically review the size and responsibilities of the Board and its committees and recommend proposed changes to the Board;

Recommend to the Board directors to serve as members of each committee;

Annually review and recommend committee slates and recommend additional committee members as needed;

Develop and recommend to the Board a set of corporate governance guidelines and periodically review such guidelines and propose changes to the Board;

Annually review and approve the Chief Executive Officer's management succession plan to ensure continuity of management; and

Develop and recommend to the Board an annual self-evaluation process for the Board and its committees, and administer and oversee the evaluation process.

In assessing director candidates, the Nominating Committee considers a number of qualification factors. Appropriate criteria for Board membership include:

the highest personal and professional ethics, integrity and values;

an understanding the Company's business environment; and

the ability to make independent analytical inquiries and judgments.

The Nominating Committee also considers a candidate's skills and experience in the context of the entire Board as well as the diversity, depth and breadth of business and organizational skills, background and experience that a candidate possesses.

The Nominating Committee considers candidates for election as director suggested by our shareholders, provided that the recommendations are made according to the procedures required under our By-laws and described in this Proxy Statement under the caption "Shareholder Proposals for Presentation at the 2010 Annual Meeting of Shareholders." Shareholder nominees whose nominations comply with these procedures and who meet the criteria described above, in the Committee's charter, and in our Corporate Governance Guidelines, will be evaluated by the Nominating Committee in the same manner as the Nominating Committee's nominees.

Mr. Knowling was recommended for consideration as a director nominee by several of the Company's non-management directors.

DIRECTOR COMPENSATION

Compensation for our non-employee directors is governed by the Company's Director Compensation Plan, which is a sub-plan of the Company's 2006 Incentive Plan. The Director Compensation Plan was amended in August 2008 to provide for an annual grant of 4,000 restricted stock units (RSUs), which are issued the day after the Company's Annual Meeting of Shareholders. Unless the non-employee director has timely made a deferral election as provided in the Plan, each RSU represents the right to receive one share of Company Common Stock on the vesting date and the right to receive a dividend equivalent in the same amount and at the same time as any dividend or other cash distribution is paid on a share of Company Common Stock. RSUs do not have voting rights. During 2008, each non-employee director received a grant of 4,000 shares of restricted stock the day after the 2008 Annual Meeting of Shareholders (except Mr. Knowling, whose award was prorated when he joined the Board in August 2008). One-half of the restricted shares or RSUs (for awards granted during 2009) vest six months after the grant date and the remaining shares or units vest the day before the next Annual Meeting of Shareholders.

Under the Director Compensation Plan, each non-employee director also receives an annual cash retainer and fees for board and committee meetings as shown in the table below. The cash retainer and the number of restricted units granted will be prorated for any new director based on the number of full months such director serves as a non-employee director during the year.

<i>Annual Cash Retainer</i>	\$ 42,500
<i>Supplemental Annual Cash Retainers</i>	
Chair of Audit Committee	\$ 5,000
Chair of Compensation Committee	\$ 5,000
Chair of Nominating and Governance Committee	\$ 5,000
<i>Board Meeting Compensation⁽¹⁾</i>	
In-Person Attendance	\$ 2,000
Telephonic Attendance	\$ 1,000
<i>Committee Meeting Compensation⁽²⁾</i>	
In-Person Attendance	\$ 1,000
Telephonic Attendance	\$ 500

⁽¹⁾ An extended board meeting over multiple days is treated as a single board meeting for payment purposes.

⁽²⁾ Directors attending a board and a committee meeting on the same day will only receive a fee for the board meeting. The Company also reimburses its directors for reasonable travel expenses incurred in connection with attendance at board, committee and stockholder meetings and other Company business.

Donald Calder, who retired from the Board in June 2008, and Mr. Jellison were also employees of the Company and eligible to participate in (i) the Roper Industries, Inc. Employees' Retirement Savings 003 Plan, to which Roper contributed a minimum of 3% and up to a maximum of 7.5% of their eligible earnings and (ii) the 2000 Plan in which management and other employees participate. While a director, Mr. Calder received grants of restricted shares and cash compensation in the same amounts as directors who were eligible to participate in the Director Compensation Plan. Mr. Calder did not receive a grant of restricted shares in 2008. Mr. Jellison did not receive any additional compensation for his service as a Director of the Company, and his compensation is set forth in the Executive Compensation section below.

The table below shows the compensation of the Company's directors (other than Mr. Jellison) during fiscal year 2008.

- (5) The Company contributed to Mr. Calder's account in the Company's Employees' Retirement Savings 003 Plan. The Compensation Committee, which is charged by the Board of Directors with fixing director compensation, has established shareholder ownership and retention guidelines for our non-employee directors. Non-employee directors are required to own 4,000 shares of Company Common Stock. Until the share ownership guidelines are met, non-employee directors are required to retain 100% of any shares they receive (on a net after tax basis) under the Company's Director Compensation Plan.

AUDIT COMMITTEE REPORT

The Audit Committee of the Board of Directors is comprised of four non-employee directors, each of whom has been determined by the Board of Directors to be independent under the rules of the NYSE and the SEC. The Audit Committee's responsibilities are set forth in its charter.

The Audit Committee oversees and reviews with the full Board of Directors any issues with respect to the Company's financial statements, the structure of the Company's legal and regulatory compliance, the performance and independence of the Company's independent auditors and the performance of the Company's internal audit function. The Committee retains the Company's independent auditors to undertake appropriate reviews and audits of the Company's financial statements, determines the compensation of the independent auditors, and pre-approves all of their services. The Company's management is primarily responsible for the Company's financial reporting process and for the preparation of the Company's financial statements in accordance with accounting principles generally accepted in the United States. The Audit Committee maintains oversight of the independent public accountants by discussing the overall scope and specific plans for their audits, the results of their examinations, their evaluations of the Company's internal accounting controls, and the overall quality of the Company's financial reporting. The Audit Committee may delegate its duties and responsibilities to a subcommittee of the Committee.

The Audit Committee maintains oversight of the Company's internal audit function by evaluating the appointment and performance of the Company's director of internal auditing and periodically meeting with the director of internal auditing to receive and review reports of the work of the Company's internal audit department. The Audit Committee meets with management on a regular basis to discuss any significant matters, internal audit recommendations, policy or procedural changes, and risks or exposures, if any, that may have a material effect on the Company's financial statements.

The Audit Committee has: (i) appointed and retained PricewaterhouseCoopers LLP (PwC) as the Company's independent auditors for the fiscal year ended December 31, 2008; (ii) reviewed and discussed with the Company's management the Company's audited financial statements for the fiscal year ended December 31, 2008; (iii) discussed with the independent auditors the matters required to be discussed by the statements on Auditing Standards No. 61, as amended (AICPA, *Professional Standards*, Vol. 1. *AU Section 380*), as adopted by the Public Company Accounting Oversight Board in Rule 3200T; (iv) received the written disclosures and the letter from the independent accountant required by applicable requirements of the Public Company Accounting Oversight Board regarding the independence accountant's communications with the audit committee concerning independence, and has discussed with the independent accountants the independent accountant's independence; (v) discussed matters with PwC outside the presence of management; (vi) reviewed internal audit recommendations; (vii) discussed with PwC the quality of the Company's financial reporting; and (viii) reviewed and discussed with PwC the results of the audit of the effectiveness of internal controls over financial reporting in accordance with § 404 of the Sarbanes-Oxley Act.

In reliance on the reviews, reports and discussions referred to above, the Audit Committee recommended to the Company's Board of Directors, and the Board of Directors has approved, that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2008, for filing with the Securities and Exchange Commission.

COMPENSATION DISCUSSION AND ANALYSIS

This Compensation Discussion and Analysis (CD&A) provides information about our compensation objectives and policies for our Chief Executive Officer, our Chief Financial Officer and our three other most highly compensated executive officers (collectively, our named executive officers) that will place in perspective the information set forth in the Executive Compensation section that follows in this proxy statement. Our CD&A is organized as follows:

Objectives of Our Compensation Program. The objectives of our executive compensation program are based on our business model and the competitive pressures for executive talent. We structured our executive compensation program to reflect our compensation philosophy and related operating principles.

Elements of Compensation. There are several components of the compensation payable to our executive officers while they are employed by our company and on a post-termination basis. We emphasize elements that tie executive compensation to performance.

Compensation Process. We regularly review our compensation programs to assure that we meet our compensation objectives.

Analysis of 2008 Compensation. The compensation for our named executive officers in 2008 reflected our compensation objectives and was tied to performance.

Share Ownership and Retention Guidelines. We require our named executive officers to maintain a significant equity interest in our Company.

Regulatory Requirements. We consider the impact of Sections 162(m) and 409A of the Internal Revenue Code (the Code), the Statement of Financial Accounting Standards No. 123R (FAS 123R), and various other regulatory requirements in our decisions regarding our executive compensation.

Objectives of Our Compensation Program

Roper is a diversified growth company. Our goal is to create superior long-term value for our investors through a strategy of building high-performance businesses united by common metrics and governance systems. Two key elements are critical to successfully executing our strategy and driving sustained value creation:

operational excellence and reinvestment in our existing businesses to generate attractive cash returns, and

wisely deploying the cash generated from operations primarily by making acquisitions that can be successfully integrated into our portfolio of companies.

To achieve these objectives, we take a minimalist approach to corporate structure to create an entrepreneurial organization. By doing so, we maintain the nimbleness associated with smaller companies while realizing the scale benefits of larger organizations.

We operate in an intensely competitive business environment. From a business perspective, not only do we compete with numerous companies in many markets for customers, but we also compete with different types of organizations for potential acquisitions. In addition, we compete with many different types and sizes of organizations for senior leadership capable of executing our business strategies. Among other challenges, our business model requires leaders with operational and portfolio expertise who are capable of taking on high levels of personal responsibility without the infrastructure support typically provided in companies of similar size.

Our compensation program for executives is based on our business needs and challenges in creating shareholder value. To support the achievement of our business strategies and goals, we:

tie compensation to performance;

emphasize equity compensation to align executives' financial interests with those of shareholders;

maintain compensation and reward levels that are competitive in both publicly traded and privately held enterprises that enable us to recruit and retain seasoned leadership capable of driving and managing a diversified growth company;

simplify compensation design to facilitate ease of administration and communication;

maintain flexibility to adjust to changing business needs in a fast-paced business environment; and

adhere to the highest legal and ethical standards.

The Compensation Committee oversees our executive compensation programs to ensure that we appropriately compensate executives, to motivate executives to achieve our business objectives and to align our executive s interests with those long-term interests of our shareholders.

Elements of Compensation

Our executive compensation program consists of several different elements, each with an objective that fits into our overall compensation program. Although there is no specific formula for allocating among the components, we emphasize the link between performance and compensation and consider our equity programs to be a significant vehicle for achieving that objective. While stock is a major component of executive compensation, other elements are needed to provide an integrated and competitive total pay package.

Long-Term Stock Incentives

Equity compensation is the key element of the total compensation program for our named executive officers, and receives the heaviest weighting of all elements. It is intended to be a key element in driving the creation of value for investors and in attracting and retaining executives capable of effectively executing our business strategies. We emphasize equity compensation because it supports the achievement of many of our key compensation objectives:

Tie pay to performance by linking compensation to shareholder value creation.

Align executives interest with those of shareholders.

Attract executives, particularly those interested in building long-term value for shareholders, as equity compensation is a key element of competitive pay packages for executives.

Retain executives and reward future service, by providing for forfeiture of awards prior to satisfaction of multi-year service requirements.

Our long-term stock incentive program currently consists of two types of equity awards, both tied to stock price, since the value that an executive officer may ultimately receive depends on the value of our stock. These awards align our executive officers interests with those of our shareholders.

Stock Options The exercise price of stock options is set at the market closing price of our stock on the date of grant, with options generally vesting in installments over three years. This design gives executives an incentive to increase share price and requires continued service over several years to realize any potential gains.

Restricted Stock As with stock options, restricted shares generally vest in installments over three years. In some cases, however, restricted shares may fully vest at the end of three years without any annual installment vesting. Generally, the vesting of

Edgar Filing: ROPER INDUSTRIES INC - Form DEF 14A

installments is contingent on the Company attaining a specific level of performance. This reinforces the executive's commitment to long-term stock performance and preserves tax deductibility under the Code. Dividends are paid currently on restricted shares during the vesting period. Restricted stock is intended to encourage the retention of executives, while providing a continuing incentive to increase shareholder value.

To strengthen the alignment with shareholders, the size of awards has been generally expressed as a constant number of shares, which fluctuate in value from year to year with changes in stock price. We believe that this provides additional incentive for increasing the value of our shares and exposes the executive to the risks of share ownership.

Base Salary

Base salary is an important part of an executive's compensation, and the Compensation Committee reviews each executive officer's base salary annually as well as at the time of a promotion or other change in responsibility. Any salary adjustments are usually approved in February, effective as of January 1. The specific amount for each executive officer depends on the executive's role in the Company, scope of responsibilities, experience and skills. Market practices are also considered in setting salaries. Base salaries are intended to assist us in attracting executives and recognizing differing levels of responsibility and contribution among executives. For our more senior executives, particularly our Chief Executive Officer, fixed base salary represents a smaller percentage of the aggregate potential compensation (consisting of base salary, cash bonus and equity incentives), since we link a greater percentage of their potential compensation to performance and value creation.

Annual Incentive Bonus

In addition to equity compensation and salary, annual cash bonuses are another important piece of total compensation for our executives. Annual bonus opportunities are intended to support the achievement of our business strategies by tying a meaningful portion of compensation to the achievement of established financial objectives for the year. These targets are discussed below in the section captioned "Analysis of 2008 Compensation Annual Incentive Bonus." Annual bonus opportunities also are a key tool in attracting executives due to their market prevalence, and they add a variable component to our overall compensation structure.

Retirement Benefits

We do not have a traditional defined benefit pension program at this time, although our executives are eligible to participate in a 401(k) program, which is the same as for other eligible employees. This program provides for matching contributions capped at 7.5% of base salary, subject to limitations imposed by the Code. We periodically review the retirement benefit component of our total compensation program for executives.

To provide financial planning flexibility, we maintain a Non-Qualified Retirement Plan, pursuant to which our executive officers may elect to defer cash compensation and receive tax-deferred returns on those deferrals. This plan also provides deferred compensation benefits that would have been earned under the tax-qualified 401(k) program but for certain compensation and benefits limitations imposed by the Code. For more information on this plan, see the "Executive Compensation Nonqualified Deferred Compensation" section below.

Perquisites and Other Benefits

We have generally avoided the use of perquisites and other types of non-cash benefits, and our executive officers participate in our other employee benefit programs on the same terms as other employees. We have, however, established a Medical Reimbursement Plan that covers certain medical and dental expenses of our executive officers, and we provide an automobile allowance and club memberships when they have a business purpose. All of the named executive officers currently participate in these programs, and they are also eligible for reimbursement for financial planning.

Severance Arrangements and Change in Control Provisions

To assist in the recruitment of executives, we entered into severance and change-in-control arrangements with Messrs. Jellison, Humphrey, Liner and Winfrey when they joined the Company. These arrangements provide severance benefits in the event of termination of employment under certain circumstances, including a

change in control. During 2008, the Company amended these arrangements so that any amounts or benefits payable thereunder would be either exempt from or compliant with the requirements of Section 409A of the Code. For a description of these agreements and the payments that would be due under various termination scenarios, see the *Potential Payments upon Termination or Change in Control* section below.

Our stock award program provides for accelerated vesting of awards granted to all participants, including our named executive officers, in certain circumstances. Under our 2006 Incentive Plan, vesting will be accelerated for outstanding awards upon a change in control (as defined in the 2006 Incentive Plan) if the awards are not assumed or otherwise equitably converted into comparable awards by the acquiring company. If the awards are assumed by the acquirer and within two years after the change in control a participant's employment is terminated without cause or a participant resigns for good reason, the participant's awards will become vested (double trigger approach). We adopted this approach, rather than providing for vesting solely upon a change in control (single trigger approach) because we believe that the double trigger provides adequate employment protection and reduces potential costs associated with the agreements to an acquirer of the Company.

No Tax Gross-Ups

Under Section 280G of the Code, an executive may be subject to excise taxes on benefits received in relation to a change in control of the Company. While many companies provide excise-tax gross-ups to executives to place the executive in the same tax position as if the excise tax did not apply, we have not historically provided this protection to any executive.

Mix of Total Compensation

We emphasize long-term incentives that are tied to stock price over cash and other forms of compensation, although we do not use any formula or specific weightings or relationship for allocating the various compensation elements within our total compensation program. The annual cash bonus opportunity for our executive officers equals, or for our Chief Executive Officer and our Chief Financial Officer exceeds, base salary and is also performance-based to further emphasize pay for performance. Base salary is the other significant form of current compensation, although it receives the least emphasis when considering base salary, bonus opportunity and equity incentives. Only a small portion of total compensation is not paid in current cash or stock. As noted above, we offer perquisites and other types of non-cash benefits on a limited basis, and these represent a small portion of total compensation for executives. Our policies and practices are subject to periodic review and possible revision.

Compensation Process

The Compensation Committee oversees our compensation programs. It performs an extensive review of each element of compensation for each of our executive officers, including our named executive officers, at least once each year and makes a final determination regarding any adjustments to their current compensation structure and levels after considering a number of factors. The Compensation Committee generally takes into account the scope of the executive officer's responsibilities, performance and experience as well as competitive compensation levels. During the annual review process, the Compensation Committee also reviews our full-year financial results against financial performance in prior periods.

Consulting Assistance

Under its charter, the Compensation Committee has the authority to retain its own compensation consultants. Since 2007, the Compensation Committee has retained Frederic W. Cook & Co., Inc. (the Consultant) to provide the Compensation Committee with independent, objective analysis and professional opinions on executive compensation matters. This Consultant reports directly to the Chair of the Compensation

Committee and performs no other work for the Company. The Consultant generally attends all meetings of the Compensation Committee where evaluations of the effectiveness of overall executive compensation programs are conducted or where compensation for executive officers is analyzed or approved. The Consultant assists in gathering and analyzing market data for compensation paid for similar positions at companies with which we compete for executive talent. In addition, the Consultant provides expert knowledge of marketplace trends and best practices relating to competitive pay levels as well as developments in regulatory and technical matters.

Role of Our Chief Executive Officer

While the Compensation Committee is ultimately responsible for making all compensation decisions affecting our named executive officers, our Chief Executive Officer participates in the underlying process because of his close day-to-day association with the other executive officers and his knowledge of all of the Company's diverse business operations. Our Chief Executive Officer periodically discusses with the Compensation Committee the performance of the Company and of each executive officer, including himself. Although the Compensation Committee values the input of our Chief Executive Officer, he does not participate in the portion of the Compensation Committee meeting regarding the review of his own performance or the determination of the actual amounts of his compensation.

Market Benchmarking

We consider market pay level as just one of many factors in setting the compensation levels and equity participation for our executives. To provide a frame of reference, we obtain information on market pay levels from various sources, including published compensation surveys and publicly available information for our selected benchmark companies as well as for other publicly traded companies. In addition, we examine the compensation levels used by private equity companies to attract leadership teams and to share the rewards of value creation with their executives, since we believe that we compete with those businesses in attracting and retaining executive talent. In addition, we consider our own and others' marketplace experience in hiring executives.

Each year we gather information on pay levels and practices for a group of publicly traded benchmark companies selected based on their business focus. The companies included in the group are periodically reviewed and evaluated in light of our development and growth. The group of benchmark companies used in 2008 was jointly selected by our Consultant and management and approved by the Committee in January 2008. It is believed to be an appropriate group of comparable public companies with which we compete for customers, investors, and executives. Roper is in the middle of the group in terms of size, but it is in the upper quartile of the benchmark companies based on economic performance. The benchmark companies for 2008 included Danaher Corporation, Thermo Fisher Scientific Inc., Ingersoll-Rand Company, ITT Corporation, C.R. Bard, Inc., Dover Corporation, Cooper Industries, Inc., American Capital, Life Technologies, Inc., Rockwell Automation, Inc., Ametek, Inc., Waters Corporation, Millipore Corporation, Pentair, Inc., Flowserve Corporation, SPX Corporation, PerkinElmer, Inc., Allied Capital Corporation, IDEX Corporation, Crane Co., and Varian, Inc.

For each benchmark company, we gather information regarding the total compensation levels for their named executive officers, specifically noting base salary, annual bonus, long-term equity incentives and other compensation, including retirement benefits and perquisites. In addition, for each company we compile information on dilution from stock incentives, share usage under stock incentive plans (including the number of shares historically granted annually as a percentage of total shares outstanding and the expense of all stock awards granted as a percentage of market capitalization), retirement practices and other related items. This information is summarized and reviewed with the Compensation Committee. We also periodically gather information from leading published compensation surveys for industrial companies generally and review information related to compensation among private equity firms.

We have no formal policies or practices on specific relationships between compensation for our executives and statistics on market pay levels. Our goal is to provide compensation that allows us to attract and retain

executives capable of effectively leading a diversified growth company. Market pay levels are only one factor considered in evaluating the supply of and demand for executives, with the decision ultimately reflecting an evaluation of individual contribution and value to our Company.

CEO Compensation Relative to Other Executives

In addition to market pay information, the Committee considers our executive officers' scope of responsibilities, nature of duties, and experience in an effort to ensure that compensation levels are reasonable and equitable from an internal perspective. A fundamental principle underlying the structure of our compensation program is that the relative proportion of incentive and equity compensation as a percentage of total compensation should increase commensurate with responsibility level. The role of our CEO has, by definition, the highest level of responsibility and requires the broadest complement of skills. In addition to fundamental functional skills, CEO operational acuity is essential for effective management across all our businesses and segments, particularly since we do not have a Chief Operating Officer. Our CEO must also be skilled at asset allocation and investments to ensure that the cash generated by operations is effectively deployed. Further, we believe our strong performance and growth under the leadership of our CEO, coupled with his broad range of experience, are highly desired in the marketplace and make him very valuable to other potential employers. In light of these considerations, the Compensation Committee has set the compensation for our CEO at a much higher level than that for other executive officers, which the Committee believes is appropriate and equitable relative to compensation for our other named executive officers.

Analysis of 2008 Compensation

Consistent with our philosophy of linking compensation to performance, compensation for our named executive officers in 2008 was based on our business results. Despite the economic downturn during 2008, we again achieved another record year of growth and performance. Both net earnings and revenue grew substantially over 2007's record levels. Profit margins expanded and cash generation was exceptional. Consistent with market valuations generally, our stock price declined from prior year levels, which reduced the value of prior equity awards to executive officers. This section discusses the compensation actions that were taken in 2008 for our named executive officers, as reported in the Executive Compensation section below.

Base Salary

In February 2008, the Compensation Committee approved salary increases for the executive officers, effective at the start of the year, as follows: Mr. Jellison (5.3%), Mr. Humphrey (11.1%), Mr. Winfrey (9.5%), Mr. Wood (5.1%), and Mr. Liner (5.9%). These increases reflect our continued growth and the Committee's and Mr. Jellison's evaluation (except in regard to himself) of the responsibilities and performance of each officer.

Annual Incentive Bonus

Annual incentive bonus opportunities for our named executive officers are based on achieving financial performance targets that are established at the start of the year. Additional factors related to the creation of value for shareholders are also considered when deemed appropriate by the Compensation Committee. Under our program, each named executive officer is assigned an incentive opportunity expressed as a percentage of base salary. The percentages for 2008 were 200% of base salary for our Chief Executive Officer, 120% of base salary for our Chief Financial Officer and 100% of base salary for the other named executive officers, consistent with our philosophy that the at-risk portion of total compensation should increase with position level.

For 2008, the Committee linked incentive bonus opportunities for our executive officers to increases in adjusted net earnings, which the Compensation Committee believes is a good indication of our overall performance. An increase in adjusted net earnings of 20% over 2007 was set as the level at which the full bonus opportunity would be earned. The minimum threshold for any bonus was set at 4.5% growth in adjusted net

earnings over 2007. At this minimum threshold level, 35% of the full bonus opportunity would be earned. To the extent adjusted net earnings grew between 4.5% and 20%, the percentage of the bonus opportunity earned would be determined through straight-line interpolation. Adjusted net earnings for the Company grew by 19% in 2008 over 2007, and accordingly, the Compensation Committee approved payment of 96% of the bonus opportunity. The bonus opportunity for our named executive officers who are Group Vice Presidents is based two-thirds on the performance of their segment and one-third on corporate performance. For 2008, they received only the Company portion of their bonus opportunity. The bonuses to our named executive officers for 2008 are shown in the Summary Compensation Table below.

For 2009, the Committee has retained the approach to annual incentive bonuses used for 2008. In light of the global economic uncertainty, however, bonuses will be based on historical performance (rather than solely prior year) and earnings growth is not required to receive a partial bonus payment. Incentive opportunities as a percentage of salary have been increased for Mr. Jellison (225%), Mr. Humphrey (150%), and Mr. Winfrey (125%) in light of our continued growth. Mr. Humphrey's opportunity also reflects his expanded areas of responsibility and personal development and performance.

Long-Term Stock Incentives

In 2008, we continued our practice of awarding a combination of stock options and restricted shares to our executive officers. Consistent with our philosophy of aligning executive officer compensation with long-term shareholder value, the Committee awarded Mr. Jellison four years of awards in February 2008. From 2004 to 2007, the Committee awarded Mr. Jellison 110,000 stock options and 110,000 restricted shares each year, consistent with our general practice of expressing the size of equity awards as a constant number of shares which fluctuate in value from year to year based on changes in stock price. In 2008, Mr. Jellison was awarded 440,000 stock options and 440,000 restricted shares. This multi-year award was intended to provide clarity to Mr. Jellison and our investors that our historical grant practice for Mr. Jellison would continue. The award further reflected the Committee's views on Mr. Jellison's contributions to us during his tenure as CEO, our strong growth and performance under Mr. Jellison's leadership, and the importance of ensuring Mr. Jellison's continued employment in light of his experience and track record, which the Committee believes makes Mr. Jellison very valuable to other potential employers. The 2008 stock option award to Mr. Jellison vests over five years starting on the first anniversary of the grant in increments of 10% (2009), 15% (2010), and 25% (2011, 2012, and 2013). The restricted shares will vest over the same period subject to the achievement of specified performance objectives over the period. Due to the performance requirements and related accounting rules, more expense will be recognized in the early years and less expense will be recognized in later years under the award; in contrast, the vesting schedule was structured such that less of the award vests in early years and more vests in the later years in an effort to increase the potential that Mr. Jellison will remain with us throughout the entire award period. As a result, the amount of compensation reported in the stock award column of the Summary Compensation Table below reflects a much higher proportion of the total expense than indicated by the vesting percentages listed above; more precisely, 32% of the expense was recognized in 2008 and reported in the Summary Compensation Table although none of the award vested in 2008. During the twelve months of the award (February 2008 to February 2009), the expense recognized for the restricted stock awards to Mr. Jellison in 2008 represented 37% of the total expense, in contrast to only 10% of the award that vested. See the table below for detail on the cumulative expense recognition and vesting by year as a percentage of the total award.

Cumulative % of Total	Feb. 2008-09	Feb. 2009-10	Feb. 2010-11	Feb. 2011-12	Feb. 2012-13
Non-Cash Expense Recognition	37%	64%	84%	95%	100%
Vesting	10%	25%	50%	75%	100%

The number of stock options and restricted shares awarded in early 2008 to our named executive officers other than Mr. Jellison was the same as in prior years, except for (1) Mr. Humphrey, who received 2,500 more shares of restricted stock in light of his assumption of broader responsibilities and the Committee's and

Mr. Jellison's assessment of his performance and professional development, and (2) Mr. Wood, who received 3,000 fewer option shares to reflect an adjustment in his scope of responsibility. These awards are shown in the Grants of Plan-Based Awards Table below.

In February 2009, the Compensation Committee again granted stock options and restricted stock to our executive officers, except for Mr. Jellison who received no equity awards. Consistent with our philosophy of granting a constant number of shares, the number of shares awarded in 2009 was similar to 2008 awards, as adjusted to reflect individual considerations, even though the dollar value of the awards was lower than in prior years.

Share Ownership and Retention Guidelines

We believe that our executives should have a significant equity interest in the Company. To promote such equity ownership and further align the interests of our executives with our shareholders, we adopted share retention and ownership guidelines for our executive officers. The stock ownership requirements vary based upon the executive's level and are expressed as a number of shares, ranging from a minimum of 100,000 shares for the Chief Executive Officer to 15,000 shares for Group Vice Presidents. Until the stock ownership guidelines are met, an executive is required to retain 100% of any applicable shares received (on a net after tax basis) under our equity compensation program. Our key executives will have a substantial portion of their incentive compensation paid in the form of our Common Stock. The program is subject to periodic review by the Compensation Committee.

Our insider trading policy prohibits our executive officers from engaging in transactions involving derivative instruments with respect to Company securities, and other securities that are immediately convertible or exchangeable into such securities.

Regulatory Considerations

The Code contains a provision that limits the tax deductibility of certain compensation paid to our named executive officers. This provision disallows the deductibility of certain compensation unless it is considered performance-based compensation under the Code. Our stock options are designed to be performance based and fully deductible. The restricted stock awards granted to our named executive officers in 2008 are performance based in a manner that are designed to preserve their full deductibility. We have adopted policies and practices that should ensure the full deductibility of our annual incentive bonuses. However, we may forgo any or all of the tax deduction if we believe it to be in the best long-term interests of our shareholders.

In making decisions about executive compensation, we also consider the impact of other regulatory provisions, including the provisions of Section 409A of the Code regarding non-qualified deferred compensation and the change-in-control provisions of Section 280G of the Code. In making decisions about executive compensation, we also consider how various elements of compensation will impact our financial results. For example, we consider the impact of FAS 123R, which requires us to recognize the cost of employee services received in exchange for awards of equity instruments based upon the grant date fair value of those awards.

2008 Nonqualified Deferred Compensation

Pursuant to the Company's Non-Qualified Retirement Plan, named executive officers may defer base salary and payments earned under the annual incentive bonus plan. Deferral elections are made by eligible executives before the beginning of each year for amounts to be earned in the following year. The executive may invest such amounts in funds that are substantially similar to those available under the 401(k) Plan.

The following table sets forth certain information with respect to the Non-Qualified Retirement Plan for our named executive officers during the fiscal year ended December 31, 2008.

⁽¹⁾ Amounts reflect participant deferrals under the Non-Qualified Retirement Plan during the fiscal year; and all of these amounts are included in the Summary Compensation Table above in the Salary or Non-Equity Incentive Plan Compensation column as applicable.

⁽²⁾ The amounts are included in the Summary Compensation Table in the All Other Compensation column.

⁽³⁾ No portion of these earnings were included in the Summary Compensation Table because the Non-Qualified Retirement Plan does not provide for above-market or preferential earnings as defined in applicable SEC rules.

Potential Payments upon Termination or Change in Control

As described above in the CD&A, the employment agreement with Mr. Jellison and offer letters or separation agreements with other named executive officers provide for certain benefits in the event of the termination of the officer's employment under certain conditions. The amount of the benefits varies depending on the reason for termination, as explained below.

Employment Agreement with Mr. Jellison

Termination for Cause; Resignation Without Good Reason. If Mr. Jellison were terminated for cause or if he were to resign without good reason (as such terms are defined in his agreement), he would receive the salary and vested benefits that are accrued through the date of termination, plus a pro-rata portion of his annual bonus earned through the date of termination, assuming the Company achieved the level of performance for which a bonus is paid for that year. No special severance benefits would be payable.

Termination Due to Death or Disability. If Mr. Jellison were to die or terminate employment due to disability, he (or his estate) would receive salary and vested benefits accrued through the date of termination, plus a pro-rata portion of his annual bonus earned through the date of termination, assuming the Company achieved the level of performance for which a bonus is paid for that year. No special severance benefits would be payable.

Termination Without Cause; Resignation for Good Reason. If Mr. Jellison were terminated without cause or resigned for good reason, either before a change of control of the Company occurs or more than one year after a change of control, he would receive a severance payment, in addition to accrued salary, earned and unpaid bonus from the prior fiscal year and vested benefits, of two times his annual base salary. He would also receive a pro-rated target bonus for the year and continuation of health and welfare benefits for a period of two years. Any stock option that would have vested during the one-year period following termination would also become immediately exercisable.

In Connection with a Change of Control. If Mr. Jellison were terminated without cause or resigned for good reason within one year following a change of control of the Company, then in addition to accrued salary, prorated bonus and vested benefits, he would be entitled to:

a severance payment equal to two times the sum of (i) his then current base salary and (ii) the greater of the average of his last two years' annual bonuses or his target bonus for the year of termination,

accelerated vesting of all of his outstanding equity awards, and

continuation of health and welfare benefits for a period of two years.

Restrictive Covenants. Mr. Jellison has also agreed not to compete with the Company for a period of one year after his termination of employment for any reason.

Offer Letters to Messrs. Humphrey, Liner, and Winfrey

Mr. Humphrey. Pursuant to an offer letter dated April 24, 2006 as amended December 30, 2008, Mr. Humphrey would be entitled to receive consideration under the following termination scenarios:

Termination Without Cause: severance equal to his then current salary and payable for one year in monthly installments and one year of medical benefit coverage; in addition, any equity awards associated with his offer letter become immediately vested.

Change in Control: accelerated vesting of all his outstanding awards granted on the date of hire.

Mr. Liner. Pursuant to an offer letter dated July 21, 2005, as amended December 30, 2008, if Mr. Liner's employment is terminated without cause, he would be entitled to receive one year of medical benefit coverage and a severance payment equal to the sum of his then-current base salary and annual bonus earned with respect to the last year before the termination occurred.

Mr. Winfrey. Pursuant to an offer letter dated May 20, 2002 as amended December 30, 2008, Mr. Winfrey would be entitled to a severance payment of one year's salary and bonus if he were terminated by the Company for any reason other than gross misconduct.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires Roper's directors, officers and persons who own more than 10% of Roper Common Stock to file with the SEC initial reports of ownership and reports of changes in ownership. Officers, directors and greater than 10% shareholders are required by SEC regulation to furnish Roper with copies of all Section 16(a) forms they file. As a result of an administrative error, during 2008 each of our officers (Messrs. Crocker, Humphrey, Jellison, Liner, Soni, Winfrey and Wood) filed a Form 4 to report a Company grant one day late. In addition, Mr. Wood filed a late Form 4 reporting a sale, and Mr. Winfrey filed a late Form 4 reporting a discretionary transaction in his 401(k) account.

To Roper's knowledge, based solely on review of the copies of such reports furnished to the Company and written representations that no other reports were required, during the fiscal year ended December 31, 2008, except as set forth above, all of Roper's executive officers and directors complied with applicable Section 16(a) filing requirements.
