- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

**Item 2.02 Results of Operations and Financial Condition.**

On August 5, 2010, Windstream Corporation ( "Windstream" or the "Company" ) issued a press release announcing the Company's second quarter 2010 unaudited consolidated results of operations. The press release presents the Company's consolidated results of operations measured under generally accepted accounting principles in the United States ( "GAAP" ) and certain unaudited pro forma results of operations from current businesses, which are not calculated in accordance with GAAP. A non-GAAP financial measure is defined as a numerical measure of a company's financial performance, financial position or cash flows that excludes (or includes) amounts that are included in (or excluded from) the most directly comparable measure calculated and presented in accordance with GAAP in the Company's financial statements. The non-GAAP financial measures used by the Company may not be comparable to similarly titled measures used by other companies and should not be considered in isolation or as a substitute for measures of performance or liquidity prepared in accordance with GAAP.

Windstream Corporation has completed the following transactions that may cause results reported under GAAP to be not necessarily indicative of future results:

Acquisitions

On June 1, 2010, Windstream completed the acquisition of Iowa Telecommunication Services, Inc. ( "Iowa Telecom" ).

On February 8, 2010, Windstream completed the acquisition of NuVox, Inc. ( "NuVox" ).

On December 1, 2009, Windstream completed the acquisition of Lexcom, Inc. ( "Lexcom" ).

On November 10, 2009, Windstream completed the acquisition of D&E Communications, Inc. ( "D&E" ).

Dispositions

On August 21, 2009, Windstream completed the sale of its out of territory product distribution operations to Walker and Associates of North Carolina, Inc.

The unaudited consolidated results from current businesses presented on a pro forma basis either include or exclude the following items when compared to measures prepared in accordance with GAAP:

Includes:

Preacquisition results of operations of acquired businesses.

Excludes:

Merger and integration costs associated with the transactions discussed above,

Results from disposed operations, and

A non-cash impairment charge totaling \$6.5 million on acquired assets held for sale.

Windstream's purpose for including the preacquisition results of D&E, Lexcom, NuVox and Iowa Telecom and for excluding non-recurring items and the results of the disposed operations is to improve the comparability of results of operations for periods in 2009 to the results of operations for the same periods of 2010 in order to focus on the true earnings capacity associated with providing telecommunication services.

## Edgar Filing: WINDSTREAM CORP - Form 8-K

The Company uses pro forma results from current businesses as a key measure of its operational performance. Windstream management, including the chief operating decision-maker, uses these measures consistently for all purposes, including internal reporting, the evaluation of business objectives, opportunities and performance, and the determination of management compensation.

The Company's press release, and other communications from time to time, include a non-GAAP measure titled operating income before depreciation and amortization, or OIBDA. OIBDA can be calculated directly from the Company's financial statements by taking operating income and adding back depreciation and amortization expense. The Company will also at times make reference to pro forma OIBDA from current businesses, which is also a non-GAAP measure. Pro forma OIBDA from current businesses adjusts OIBDA for the items that are either included or excluded from pro forma results from current businesses. Management considers OIBDA to be useful to investors because OIBDA provides information specific to the Company's operating performance.

In addition, from time to time the Company's communications will also include the following non-GAAP measures:

Pro forma adjusted OIBDA, defined as pro forma OIBDA from current businesses adjusted to exclude the impacts of pension expense, restructuring charges and stock-based compensation. Pro forma adjusted OIBDA is included to provide investors with useful information about the Company's operating performance before restructuring and the impacts of certain non-cash items and to enhance the comparability of operating results for the periods presented.

Adjusted free cash flow, defined as adjusted OIBDA, excluding merger and integration costs, less cash interest, cash taxes and capital expenditures. Adjusted free cash flow is calculated on a basis consistent with the Company's 2010 guided expectations and is useful to investors for assessing the Company's performance against such expectations.

Dividend payout ratio, defined as dividends paid on common shares divided by adjusted free cash flow. The Company believes the dividend payout ratio provides the investor useful information about the Company's operating performance after the payment of dividends to shareholders.
