ITEM 8.01 Other Events

On July 21, 2010, the Dodd Frank Wall Street Reform and Consumer Protection Act (the Act) was enacted. Section 1503 of the Act included new reporting requirements related to mine safety, including disclosing on a Current Report on Form 8-K the receipt of an imminent danger order under Section 107 (a) of the Federal Mine Safety and Health Act of 1977 (the Mine Act) issued by the Federal Mine Safety and Health Administration (MSHA).

On November 22, 2010, at approximately 8:40 P.M., Excel Mining, LLC (Excel), an operating subsidiary of Alliance Resource Partners, L.P., received an imminent danger order under Section 107(a) of the Mine Act at Excel s No. 3 Mine. The order was issued after Excel contacted MSHA to inform the agency that: (1) Excel had discovered a partial void between the mine roof and the top of the seal of two 120 psi seals used to close off inactive, previously mined areas; and (2) Excel had idled coal production and evacuated miners from the No. 3 Mine as precautionary measures. On November 24, 2010, work was completed to fill the partial void at each of these two seals and MSHA has terminated the order.
