**FORTUNE BRANDS, INC. AND SUBSIDIARIES**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**1. Background, Basis of Presentation and Principles of Consolidation**

References to we, our, us, Fortune Brands and the Company refer to Fortune Brands, Inc. and its consolidated subsidiaries as a whole, unless context otherwise requires.

The condensed consolidated balance sheet as of March 31, 2011, the related condensed consolidated statements of income for the three-month periods ended March 31, 2011 and 2010 and the related condensed consolidated statements of cash flows and equity for the three-month periods ended March 31, 2011 and 2010 are unaudited. In the opinion of management, all adjustments necessary for a fair statement of the financial statements have been included. Interim results may not be indicative of results for a full year.

The condensed consolidated financial statements and notes are presented as permitted by Form 10-Q and do not contain certain information included in our annual consolidated financial statements and notes. The year-end condensed consolidated balance sheet was derived from the audited financial statements, but does not include all disclosures required by generally accepted accounting principles (GAAP). This Form 10-Q should be read in conjunction with the consolidated financial statements and notes included in our Annual Report on Form 10-K for the year ended December 31, 2010.

On December 8, 2010, we announced that the Board of Directors approved in principle a separation of the Company's three business segments (the Proposed Separation). The broad plan includes: the continuation of Fortune Brands as an independent, publicly-traded company focused solely on the Spirits business; the tax-free spin-off to shareholders of the Home & Security business into an independent publicly-traded company; and exploring the sale or tax-free spin-off of the Golf business.

**2. Recently Issued Accounting Standards**

Revenue Arrangements with Multiple Deliverables

In October 2009, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2009-13, Multiple-Deliverable Revenue Arrangements a consensus of the FASB Emerging Issues Task Force. This guidance requires entities to allocate consideration in multiple deliverable arrangements in a manner that reflects a transaction's economics. The guidance requires expanded disclosure. It is effective for fiscal years beginning on or after June 15, 2010 (calendar year 2011 for Fortune Brands) and can be applied either prospectively or retrospectively. Adoption of this standard did not impact our financial statements and disclosures.

**3. Goodwill and Other Identifiable Intangible Assets**

We had goodwill of \$3.685.2 million as of March 31, 2011. The change in the net carrying amount of goodwill by segment was as follows:

(in millions)	Spirits	Home & Security	Golf	Total goodwill
<u>Balance at December 31, 2010</u>

Accumulated impairment losses		(451.3)		(451.3)
Total goodwill, net	\$ 2,218.3	\$ 1,456.3	\$ 10.6	\$ 3,685.2

We also had indefinite-lived intangible assets, principally tradenames, of \$2,625.1 million and \$2,565.3 million as of March 31, 2011 and December 31, 2010, respectively. The increase of \$59.8 million was due to changes in foreign currency translation adjustments.

Amortizable identifiable intangible assets, principally tradenames, are subject to amortization over their estimated useful life, 5 to 30 years, based on the assessment of a number of factors that may impact useful life. These factors include historical and tradename performance with respect to consumer name recognition, geographic market presence, market share, plans for ongoing tradename support and promotion, financial results and other relevant factors. The gross carrying value and accumulated amortization of amortizable intangible assets were \$884.6 million and \$401.9 million, respectively, as of March 31, 2011, compared to \$874.6 million and \$391.0 million, respectively, as of December 31, 2010. The gross carrying value increase of \$10.0 million was due to changes in foreign currency translation adjustments.

 Total identifiable intangibles	 \$ 3,564.6	 \$ (456.8)	 \$ 3,107.8	 \$ 3,494.8	 \$ (445.9)	 \$ 3,048.9

<sup>(1)</sup> Accumulated amortization prior to the adoption of revised authoritative guidance on goodwill and other intangibles assets (Accounting Standards Codification (ASC) 350).

Indefinite-lived tradenames as of March 31, 2011 were comprised of \$1,954.4 million in the Spirits segment, \$668.8 million in the Home & Security segment and \$1.9 million in the Golf segment.

The Company cannot predict the occurrence of certain events that might adversely affect the carrying value of goodwill and other intangible assets. Such events may include, but are not limited to, the impact of the economic environment; a material negative change in relationships with significant customers; or strategic decisions made in response to economic and competitive conditions.

**4. Acquisition**

In March 2011, we acquired the Skinnygirl ready-to-drink cocktail business. The purchase price allocation is preliminary and will be completed after asset valuations are finalized. Final adjustments will affect the fair value assigned to the assets, including intangible assets. The acquisition was not material for the purposes of supplemental disclosure (per ASC 805).

**5. Disposition**

In April 2010, we sold our Cobra golf product line to PUMA North America, Inc. for \$88.9 million. The asset sale included the Cobra golf brand and related inventory, intellectual property and endorsement contracts. The sale resulted in a pre-tax gain of \$11.3 million (\$10.0 million after tax).

## FORTUNE BRANDS, INC. AND SUBSIDIARIES

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

**6. Business Separation Costs**

Business separation costs are external costs directly related to implementing the Proposed Separation of the Company's three business segments. We recorded \$9.5 million of business separation costs in the first quarter of 2011 that predominately consisted of financial, legal and other separation related advisory fees.

**7. Income Taxes**

The effective income tax rates for the three months ended March 31, 2011 and 2010 were 26.1% and 27.9%, respectively. The effective tax rate in 2011 was unfavorably impacted by a higher proportion of domestic income, which is taxed at a higher rate relative to foreign income. The effective tax rate in 2010 was unfavorably impacted by a \$2.2 million tax expense associated with a change in the tax law related to Medicare Part D subsidies.

It is reasonably possible that, within the next 12 months, total unrecognized tax benefits may decrease in the range of \$5 million to \$20 million primarily as a result of the conclusion of U.S. federal, state and foreign income tax proceedings.

We do not provide for deferred income taxes on undistributed earnings of foreign subsidiaries that we expect to permanently reinvest. As a result of the Proposed Separation and related transactions, it is possible that the above tax assertion regarding permanent reinvestment of foreign earnings, as well as assumptions with respect to the realization of certain deferred assets, could change.

**8. Information on Business Segments**

Net sales and operating income for the three months ended March 31, 2011 and 2010 by segment were as follows:

On February 3, 2010, we made a voluntary contribution to our U.S. defined benefit pension plans of 1.56 million shares of our common stock, held as treasury stock, with a fair value of \$67.1 million.

**11. Debt and Financing Arrangements**

In January 2011, we repaid maturing notes of \$590.6 million using cash on hand. In addition, in the first quarter of 2011, we entered into uncommitted lines of credit totaling \$200 million for seasonal working capital and other needs. One of the uncommitted lines of credit is subject to the financial ratio covenant in our revolving credit agreement. There was \$200 million outstanding on these lines of credit at March 31, 2011. The interest rates under these lines of credit are variable based on LIBOR at the time of borrowing. Borrowings under these uncommitted lines of credit have maturities of one month or less.

On February 3, 2010, we executed a \$750 million, 3-year committed revolving credit agreement to be used for general corporate purposes. As of March 31, 2011, there was \$80 million outstanding under this facility. The interest rates under this credit facility are variable based on LIBOR at the time of the borrowing and the Company's long-term credit rating. The credit facility includes a minimum Consolidated Interest Coverage Ratio requirement of 3.0 to 1.0 through 2011 and 3.5 to 1.0 in 2012. The Consolidated Interest Coverage Ratio is defined as the ratio of adjusted EBITDA to Consolidated Interest Expense. Adjusted EBITDA is defined as consolidated net income before interest expense, income taxes, and depreciation and amortization of intangible assets, as well as noncash restructuring and nonrecurring charges, losses from asset impairments, and gains or losses resulting from the sale of assets not in the ordinary course of business. Consolidated Interest Expense is as disclosed in our financial statements. The credit facility also includes a maximum debt to total capital ratio of 0.55 to 1.0. Total capital is defined as debt plus equity and deferred taxes less any future impairment charges. None of our other debt instruments include financial ratio covenants. There were no events of default as of March 31, 2011.

**FORTUNE BRANDS, INC. AND SUBSIDIARIES**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**12. Financial Instruments**

Derivative financial instruments are either foreign exchange contracts recorded at fair value to hedge currency fluctuations for transactions denominated in foreign currencies, interest rate swaps or commodity swaps of forecasted commodity purchases. Deferred compensation programs assets and liabilities are for programs where select employees can defer compensation until death, disability or other termination of employment.

We do not enter into financial instruments for trading or speculative purposes. We principally use financial instruments to reduce the impact of changes in foreign currency exchange rates, interest rates and commodities used as raw materials in our products. The principal derivative financial instruments we enter into on a routine basis are foreign exchange contracts. In addition, from time to time, we enter into interest rate swaps and commodity swaps.

As of March 31, 2011, we had entered into fixed to floating interest rate swaps with an aggregate notional principal amount of \$900 million. These swap agreements hedge changes in the fair value of a portion of our existing fixed rate debt that result from changes in a benchmark interest rate (U.S. LIBOR). The swap agreements were designated and classified as fair value hedges in accordance with the authoritative guidance on derivatives and hedging (ASC 815). The unrealized gain on these interest rate swap contracts and the offsetting unrealized loss on the related debt was \$31.5 million as of March 31, 2011.

We enter into foreign exchange contracts primarily to hedge forecasted sales and purchases denominated in select foreign currencies, thereby limiting currency risk that would otherwise result from changes in exchange rates. The periods of the foreign exchange contracts correspond to the periods of the forecasted transactions, which generally do not exceed 12 to 15 months subsequent to the latest balance sheet date. We also enter into foreign exchange contracts to hedge our risk to changes in the fair value of recognized foreign currency denominated assets and liabilities and to hedge a portion of our net investments in certain foreign subsidiaries. The effective portions of cash flow hedges are reported in other comprehensive income and are recognized in the statement of income when the hedged item affects earnings. The ineffective portion of all hedges is recognized in current period earnings. In addition, changes in fair value of all economic hedge transactions are immediately recognized in current period earnings. Our primary foreign currency hedge contracts pertain to the U.S. dollar, the Canadian dollar, the Euro and the Australian dollar. The gross U.S. dollar equivalent notional amount of all foreign currency derivative hedges outstanding at March 31, 2011 was \$1,066.9 million.

We enter into commodity swaps to manage the price risk associated with forecasted purchases of materials used in our operations. We account for these commodity derivatives as economic hedges or cash flow hedges. Changes in the fair value of economic hedges are recorded directly into current period earnings. There were no material commodity swap contracts outstanding as of March 31, 2011.

## 12. Financial Instruments (Continued)

The counterparties to derivative contracts are major financial institutions. We are subject to credit risk on these contracts equal to the fair value of these instruments. As of the date of these financial statements, management believes that the risk of incurring material losses is unlikely and that the losses, if any, would be immaterial.

The fair values of foreign exchange derivative instruments on the condensed consolidated balance sheet as of March 31, 2011 and December 31, 2010 were:

(in millions)		Fair Value	
	Balance Sheet Location	March 31, 2011	December 31, 2010

**12. Financial Instruments (Continued)**

In the three months ended March 31, 2011 and 2010, the ineffective portion of cash flow hedges recognized in other expense (income), net, was insignificant. The Company has designated certain foreign currency denominated nonderivative financial instruments as hedges of the currency exposure of net investments in foreign operations in accordance with authoritative guidance on foreign currency translation (ASC 830) and derivatives and hedging (ASC 815). The changes in net unrealized (losses) gains for nonderivative financial instruments in accumulated other comprehensive loss in the three months ended March 31, 2011 and 2010 were \$(24.7) million and \$24.7 million, respectively.

**13. Fair Value Measurements**

Assets and liabilities measured at fair value on a recurring basis as of March 31, 2011 and December 31, 2010 were as follows:

(in millions)	March 31, 2011	Fair Value December 31, 2010
<u>Assets</u>		
Derivative financial instruments (level 2)	\$ 38.0	\$ 44.9
Deferred compensation program assets (level 1)	22.5	21.5
Total assets	\$ 60.5	\$ 66.4
<u>Liabilities</u>		
Derivative financial instruments (level 2)	\$ 33.6	\$ 17.2

Derivatives are either foreign exchange contracts recorded at fair value to hedge currency fluctuations for transactions denominated in foreign currency, interest rate swaps or commodity swaps of forecasted commodity purchases. Assets and liabilities for deferred compensation programs are for programs where select employees can defer compensation until death, disability or other termination of employment.

Assets and liabilities measured at fair value using unobservable inputs require a significant degree of judgment and estimates regarding assumptions, including, but not limited to, projected future levels of income based on management's plans, as well as business trends, prospects, and market and economic conditions. As a result, changes to the fair values could have a material impact on results of operations and liquidity when realized.

Authoritative guidance on fair value measurement (ASC 820) establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels. Level 1 inputs, the highest priority, are quoted prices in active markets for identical assets or liabilities. Level 2 inputs reflect other than quoted prices included in Level 1 that are either observable directly or through corroboration with observable market data. Level 3 inputs are unobservable inputs, due to little or no market activity for the asset or liability, such as internally-developed valuation models.

**13. Fair Value Measurements (Continued)**

The fair value of the Company's long-term debt (including current portion) was determined from quoted market prices, where available, and from investment bankers using current interest rates considering credit ratings and the remaining terms to maturity. The fair value of long-term debt at March 31, 2011 was approximately \$3,795.8 million, compared with the aggregate carrying value of \$3,671.3 million. The fair value of long-term debt at December 31, 2010 was approximately \$4,323.6 million compared with the aggregate carrying value of \$4,228.0 million.

**14. Guarantees and Commitments**

We guarantee 50% of certain credit facilities of Maxxium España S.L., in the amount of 9.0 million (approximately \$12.8 million), Denview Ltd., in the amount of 9.0 million (approximately \$12.8 million), and Maxxium Cyprus Ltd., in the amount of 4.0 million (approximately \$5.7 million), reflecting our ownership in the joint ventures with The Edrington Group (TEG). The liability related to these guarantees is not material. Beam Global Spirits & Wine, Inc. (BGSW) and TEG also have an uncommitted multi-currency Shareholder Loan Facility for BGSW/TEG joint ventures, of which our share is 50%, or 15 million (approximately \$21.3 million).

We also guarantee a lease for ACCO World Corporation, the office products business we divested in a spin-off in 2005. We will continue to guarantee payment of certain real estate leases, with lease payments totaling approximately \$14.4 million, through April 2013. The liability related to this guarantee was not material.

## 16. Pending Litigation

**Tobacco Litigation and Indemnification**

On December 22, 1994, we sold The American Tobacco Company (ATCO) subsidiary to Brown & Williamson Tobacco Corporation (B&W), at the time a wholly-owned subsidiary of B.A.T. Industries p.l.c. In connection with the sale, B&W and ATCO, which subsequently merged into B&W, agreed, under an Indemnification Agreement (the Indemnification Agreement), to indemnify Fortune Brands, Inc. against claims including legal expenses arising from smoking and health and fire safe cigarette matters relating to the tobacco business of ATCO.

On July 30, 2004, B&W and R.J. Reynolds Tobacco Holdings, Inc. announced that they had completed the combination of their respective U.S. tobacco businesses, previously conducted by B&W (and ATCO) and R.J. Reynolds Tobacco Co., by forming a new combined company known as R.J. Reynolds Tobacco Company. As a result of the combination and in accordance with the Indemnification Agreement, the new R.J. Reynolds Tobacco Company assumed the indemnification obligations under the Indemnification Agreement relating to the U.S. business previously conducted by B&W (and ATCO). B&W has not been released from any of its obligations under the Indemnification Agreement. We refer to B&W and the new R.J. Reynolds Tobacco Company as the Indemnitor under the Indemnification Agreement.

**16. Pending Litigation (Continued)**

**Tobacco Litigation and Indemnification (Continued)**

The Indemnitor has complied with the terms of the Indemnification Agreement since 1994, and we are not aware of any inability on the part of the Indemnitor to satisfy its indemnity obligations.

The Company is a defendant in a number of actions based upon allegations that human ailments have resulted from tobacco use. It is not possible to predict the outcome of the pending litigation, and, as with any litigation, it is possible that some of these actions could be decided unfavorably against us. We are unable to make a meaningful estimate of the amount or range of loss that could result from an unfavorable outcome of the pending litigation. However, we believe that there are a number of meritorious defenses to the pending actions, including the fact that the Company never made or sold tobacco, and these actions are being vigorously contested by the Indemnitor. We believe that the pending actions will not have a material adverse effect upon our results of operations, cash flows or financial condition because we believe we have meritorious defenses and the Company is indemnified under the Indemnification Agreement.

**Other Litigation**

**The 2006 Callaway Litigation**

On February 9, 2006, Callaway Golf Company (Callaway) filed a lawsuit seeking unspecified damages against the Company's subsidiary Acushnet Company (Acushnet) in the United States District Court for the District of Delaware (2006 Callaway Litigation). Callaway alleged that Pro V1 golf balls then manufactured by Acushnet infringed four of Callaway's patents. At a December, 2007 trial, the validity of nine claims contained in the four patents was tried to a jury which returned a mixed verdict, finding one claim invalid and eight claims valid. On November 10, 2008, the trial court issued an order enjoining sales of all 2007 Pro V1 golf balls as of January 1, 2009. Acushnet appealed to the United States Court of Appeals for the Federal Circuit.

On August 14, 2009, the Court of Appeals overturned the judgment, vacated the injunction and sent the case back to the District Court. The Court of Appeals also found that the District Court erred in rejecting an Acushnet defense before the trial.

On March 29, 2010, following the new trial, a jury found in favor of Acushnet on all counts. Specifically, the jury concluded that Acushnet was not liable because all of the patents asserted by Callaway were invalid both as obvious and anticipated by earlier patents. Following the trial, Callaway filed a motion asking the District Court to enter judgment as a matter of law in its favor or, alternatively, to grant a new trial on the validity of the Callaway patents. On April 21, 2011, the District Court denied the post-trial motions and issued an order declaring the patents invalid. Callaway may now appeal the verdict to the United States Court of Appeals for the Federal Circuit.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**16. Pending Litigation (Continued)**

**Other Litigation (Continued)**

The 2009 Callaway Litigation

In late 2008, Acushnet introduced what it believes to be non-infringing Pro V1 balls. In February 2009, Acushnet introduced new improved versions of the Pro V1 balls, which it also believes are non-infringing. On March 3, 2009, Callaway filed another lawsuit seeking unspecified damages against Acushnet in the United States District Court for the District of Delaware (2009 Callaway Litigation). Callaway alleged that Acushnet's modified Pro V1 balls and Acushnet's new 2009 versions of the Pro V1 balls infringe two additional patents owned by Callaway. On March 3, 2009, Acushnet also filed a lawsuit seeking unspecified damages against Callaway in the United States District Court for the District of Delaware. Acushnet alleged that several Callaway ball models infringe nine Acushnet patents.

Proceedings at the U.S. Patent and Trademark Office

In separate proceedings, on February 19, 2006, Acushnet filed requests with the U.S. Patent and Trademark Office (PTO) for reexamination of all four of the patents asserted by Callaway in the 2006 Callaway Litigation. The PTO issued final office actions finding that all four patents are invalid. Callaway subsequently filed appeals regarding all four of the patents with the Patent Board of Appeals. The Patent Board of Appeals conducted a hearing on January 19, 2011 and issued its decision on March 9, 2011 affirming the examiner's finding of invalidity. On March 15, 2011, Callaway filed a lawsuit against the PTO in the U.S. District Court for the Eastern District of Virginia seeking to have the reexaminations and the Patent Board of Appeals decision vacated and set aside. On April 11, 2011, Callaway also asked the Patent Board of Appeals to rehear the appeal.

With regard to the patents asserted by Callaway in the 2009 Callaway Litigation, Acushnet also filed requests for reexamination with the PTO. The PTO has accepted the reexaminations and has issued office actions that reject all of the claims of both patents as invalid on multiple grounds.

We believe that Acushnet has meritorious defenses to all of the litigation brought by Callaway, and Acushnet is vigorously contesting each of these matters. Given the favorable jury verdict in the first Callaway suit and the favorable developments at the PTO with respect to the validity of patents asserted in both Callaway patent suits, as well as the speculative nature of damages asserted by Callaway in both suits, it is not possible at this time to assess the likelihood of an adverse outcome or determine a reasonable estimate, or range of estimates, of potential damages. If decided unfavorably, however, the litigation could have a material adverse effect on the Company's results of operations, cash flows or financial condition.

**FORTUNE BRANDS, INC. AND SUBSIDIARIES**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**16. Pending Litigation (Continued)**

**Other Litigation (Continued)**

In addition to the lawsuits described above, the Company and its subsidiaries are defendants in lawsuits associated with the normal conduct of their businesses and operations. It is not possible to predict the outcome of the pending actions, and, as with any litigation, it is possible that some of these actions could be decided unfavorably. The Company believes that there are meritorious defenses to these actions and that these actions will not have a material adverse effect upon its consolidated results of operations, cash flow, or financial condition, and where appropriate, these actions are being vigorously contested.

**17. Environmental**

We are subject to laws and regulations relating to the protection of the environment. It is not possible to quantify with certainty the potential impact of actions relating to environmental matters, particularly remediation and other compliance efforts that our subsidiaries may undertake in the future due to uncertainties about the status of laws, regulations, technology and information related to individual sites. We are involved in numerous remediation actions to clean up hazardous wastes as required by federal and state laws. Based on our evaluation of the cleanup cost estimates and the compliance programs, we do not believe there is a reasonable possibility that a material loss exceeding the amounts already recognized may have been incurred. Liabilities for remediation costs at each site are based on our best estimate of undiscounted future costs, excluding possible insurance recoveries or recoveries from other third parties.

**OVERVIEW**

Fortune Brands, Inc. (Fortune Brands) is a holding company with subsidiaries that make and sell leading consumer branded products worldwide in the following markets: distilled spirits, home and security, and golf products. We strive to enhance shareholder value in a variety of ways, including:

profitably building leading consumer brands to drive sales and earnings growth and enhance returns on a long-term basis,

positioning our brands and businesses to outperform their respective markets by:

- developing innovative new products and effective marketing programs,
- expanding customer relationships,
- extending brands into adjacent categories, and
- developing international growth opportunities,

pursuing business improvements by operating lean and flexible supply chains and business processes,

promoting organizational excellence by developing winning cultures and associates, and

leveraging our breadth and balance and financial resources to drive shareholder value.

While our first priority is internal growth, we also strive to create shareholder value through add-on acquisitions, dispositions and joint ventures. In addition, we enhance shareholder value through other initiatives, such as using our financial resources to pay dividends and repurchase shares, when deemed appropriate. In 2011, we plan to continue to focus on paying down debt.

**FORTUNE BRANDS, INC. AND SUBSIDIARIES**

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF**

**FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)**

On December 8, 2010, we announced that the Board of Directors approved in principle a separation of the Company's three business segments (the Proposed Separation). The broad plan, which is subject to various regulatory, tax and Board approvals, includes: the continuation of Fortune Brands as an independent, publicly-traded company focused solely on the Spirits business; the tax-free spin-off to shareholders of the Home & Security business into an independent publicly-traded company; and exploring the sale or tax-free spin-off of the Golf business. The Company expects to complete the transactions by the end of 2011. While the benefits of breadth and balance of our portfolio supported the building of three leading and profitable consumer businesses, we believe that each business has emerged from the economic downturn with the strength and scale to complete effectively on its own and drive even greater value as a focused business. We believe that separating our businesses will significantly enhance each business's long-term growth and return prospects and offer substantially greater total long-term value to stockholders. We believe that focused capital structures and share ownership for each business will create even greater strategic flexibility to pursue profitable organic growth investments as well as to compete for high-return acquisitions. In addition, dedicated management teams and boards of directors for each business will enable faster and more effective operational and strategic decision-making. Lastly, as stand-alone companies concentrated on building brands and outperforming their respective consumer categories, each business will be able to provide targeted equity-based incentive compensation that will be a more effective management tool to attract, motivate and retain key employees.

For a description of certain factors that may have had, or may in the future have, a significant impact on our business, financial condition or results of operations, see Forward-Looking Statements.

Corporate expenses	(32.9)	(25.5)	(29.0)
Operating Income	\$ 160.5	\$ 156.4	2.6%

**Net Sales**

Net sales increased \$132.3 million, or 8%, primarily due to higher sales volume in all segments. In addition, net sales benefited from transitioning to a new Spirits distribution arrangement in Australia (approximately \$45 million), favorable foreign exchange (approximately \$35 million), and higher excise taxes (\$22.5 million). Net sales were unfavorably impacted by the sale of the Cobra brand last year (approximately \$45 million).

**Cost of products sold**

Cost of products sold increased \$93.1 million, or 11%, primarily due to higher sales across all segments and increased commodity costs (approximately \$15 million, in the Home & Security and Spirits segments), partially offset by the benefit of productivity initiatives.

**Excise taxes on spirits**

Excise taxes collected from customers are reflected in net sales, and the equal and corresponding payments to governments are reflected in expenses. Excise taxes are generally levied based on the alcohol content of spirits products and vary significantly by country. Excise taxes on spirits increased by \$22.5 million, primarily due to a change in selling terms with a major customer in Australia.

**Advertising, selling, general and administrative expenses**

Advertising, selling, general and administrative expenses increased \$2.4 million, or 0.5%, primarily due to increased sales and higher advertising and promotion spending, particularly in the Spirits and Home & Security businesses.

**FORTUNE BRANDS, INC. AND SUBSIDIARIES**

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF**

**FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)**

**RESULTS OF OPERATIONS (Continued)**

Amortization of intangible assets

Amortization of intangible assets was \$0.8 million lower due to changes in foreign currency rates and lack of amortization on a fully amortized customer relationship intangible asset.

Restructuring charges

For the three months ended March 31, 2011, we recorded restructuring charges of \$2.6 million, primarily related to distribution and supply-chain initiatives in the Spirits business. Restructuring charges of \$1.1 million in the three months ended March 31, 2010 related to previously announced projects in the Spirits and Home & Security businesses.

Business separation costs

We recorded \$9.5 million of business separation costs in the first quarter of 2011 related to financial, legal and other separation-related advisory fees. We expect these costs will be approximately \$60 million for the full year.

Operating income

Operating income increased \$4.1 million, or 3%, to \$160.5 million. Increased operating income in the Spirits business due to higher net sales was partially offset by lower operating income in the Home & Security business which was unfavorably impacted by higher commodity costs. In addition, operating income was unfavorably impacted by business separation costs.

Interest expense

Interest expense decreased \$8.6 million, or 16%, primarily due to lower average borrowings, as well as lower average interest rates.

Other expense (income), net

Other expense (income), net, was expense of \$1.3 million compared to income of \$2.0 million in the same period of 2010, primarily due to higher foreign currency transaction losses in the Spirits business. Other expense (income), net, also includes non-operating income and expense, such as interest income and transaction gains/losses related to foreign currency-denominated transactions.

Income taxes

The effective income tax rates for the three months ended March 31, 2011 and 2010 were 26.1% and 27.9%, respectively. The effective tax rate in 2011 was unfavorably impacted by a higher proportion of domestic income, which is taxed at a higher rate relative to foreign income. The effective tax rate in 2010 was unfavorably impacted by a \$2.2 million tax expense associated with a change in the tax law related to Medicare Part D subsidies.

Noncontrolling interests

Noncontrolling interest expense was \$2.0 million compared to \$2.2 million last year.

Net income attributable to Fortune Brands

## Edgar Filing: FORTUNE BRANDS INC - Form 10-Q

Income from continuing operations was \$81.2 million, or \$0.53 per basic share and \$0.52 per diluted share, for the three months ended March 31, 2011. These results compared to \$72.2 million, or \$0.48 per basic share and \$0.47 per diluted share, for the three months ended March 31, 2010. The \$9.0 million increase in income was primarily due to lower interest expense and higher operating income.

**FORTUNE BRANDS, INC. AND SUBSIDIARIES**

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF**

**FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)**

**RESULTS OF OPERATIONS (Continued)**

**Results of Operations By Segment**

**Spirits**

Net sales increased \$100.0 million, or 17%, to \$673.1 million. The increase was primarily due to the benefit of transitioning to a new distribution arrangement in Australia (approximately \$45 million), higher excise taxes primarily due to a change in selling terms with a major customer in Australia (\$22.5 million), and favorable foreign exchange (approximately \$20 million). In addition, net sales were higher on increased sales volume in the U.S. and certain international markets, as well as favorable product mix. These increases were partially offset by the unfavorable impact of divesting certain non-strategic brands (approximately \$10 million).

Operating income increased \$29.3 million, or 25%, to \$144.4 million, primarily due to higher sales, favorable mix and favorable foreign exchange (approximately \$10 million). Operating income was unfavorably impacted by higher advertising and promotional expense and increased commodity costs.

We expect to incur additional restructuring and other charges of approximately \$5 million to \$10 million over the next twelve to eighteen months related to our previously announced organizational repositioning and U.S. supply chain initiatives.

The long-term demographic trends are favorable for the continued growth of western premium spirits. We believe the continued focus on the best growth and return opportunities, as well as our increased investment in innovation, advertising, and more effective routes to market, position us well for long-term growth. Factors that could adversely affect future results in our Spirits business include competitive pricing and other activities, reductions in customer inventory levels, increases in commodity and energy prices, potential reduction of government financial incentives related to our rum production, future excise and other tax increases, continued consolidation in the distributor and retail tiers, increased regulatory enforcement, and potential impairment charges.

**Home & Security**

Net sales increased \$15.8 million, or 2%, to \$714.2 million. The increase was primarily due to expanding relationships with key customers and new product introductions. These increases were partially offset by the impact of expiring governmental tax incentives in the U.S. and Canada, as well as the 2010 impact of customers increasing their inventories in certain product categories.

Operating income decreased \$16.7 million to \$5.7 million, primarily due to higher commodity costs (approximately \$10 million), mainly for wood, brass, zinc, steel and resins. In addition, operating income decreased due to planned strategic spending to support growth initiatives and new product introductions. Operating income benefited from higher sales and productivity initiatives.

**RESULTS OF OPERATIONS (Continued)**

**Home & Security (Continued)**

We believe that the U.S. home products market recovery will continue to be gradual and uneven. We expect near term results will continue to be challenging as consumers remain cautious. The recovery of the U.S. home products market will depend on employment, home prices and credit availability, and the rate of foreclosures. In addition, we expect costs will be higher for raw materials and transportation, as well as strategic investments to support the growth and rollouts of new business. We are striving to offset as much of the increases as we can with productivity initiatives and price increases. Over the long term, we believe the market will benefit from favorable population and immigration trends that will drive demand for new housing units and that aging housing stock will continue to need to be remodeled or repaired.

**Golf**

Net sales increased \$16.5 million, or 5%, to \$370.1 million, primarily due to substantially higher Titleist and FootJoy brand sales in all major regions, in part due to new product introductions. In addition, net sales increased due to favorable foreign currency (approximately \$10 million). These increases more than offset the unfavorable impact of the sale of the Cobra brand last year (approximately \$45 million).

Operating income decreased \$1.1 million, or 2%, to \$43.3 million, primarily due to both the divestiture of the Cobra golf product line and higher strategic spending, including increased selling and promotional expense to support new products. Operating income benefited from higher sales.

While we expect golfers to remain cautious in their purchases of equipment, we expect the golf industry to benefit from favorable long-term demographic trends, including an aging U.S. population (rounds of play generally increase with age and retirement) and the increasing popularity of golf internationally. While we expect the near term results in Golf to be impacted by the recent earthquake and tsunami in Japan, the extent of impact is uncertain, and we believe that long-term impact on operating income of our Golf business will not be material. In 2010, Japan net sales were approximately 10% of the Golf businesses total net sales.

In April 2010, we sold our Cobra golf product line to PUMA North America, Inc. for \$88.9 million to concentrate our resources behind the growth of our Titleist and FootJoy brands. The asset sale included the Cobra golf brand and related inventory, intellectual property and endorsement contracts. In 2009, full year Cobra net sales were approximately \$130 million.

**Golf (Continued)**

The United States Golf Association (USGA) and the Royal and Ancient Golf Club (R&A) establish standards for golf equipment used in the United States and outside the United States, respectively. In recent years, both the USGA and the R&A have enacted new rules further restricting the dimensions or performance of golf clubs and golf balls. In March 2005, the USGA and R&A requested that manufacturers participate in a golf ball research project by manufacturing and submitting balls that would conform to an overall distance standard that is 15 to 25 yards shorter than the current standard of 317 yards. More recently, they adopted a rule change to allow greater adjustability in golf clubs, which went into effect on January 1, 2008. In August 2008, the USGA and R&A adopted a rule change, effective January 1, 2010, further restricting golf club grooves by reducing the groove volume and limiting the groove edge angle allowable on irons and wedges. This rule change will not apply to most golfers until January 1, 2024. However, it was implemented on professional tours beginning in 2010 and will be implemented in other elite amateur competitions beginning in 2014. All products manufactured after December 31, 2010 must comply with the new groove specification. Existing rules and any new rules could change the industry's ability to innovate and deploy new technologies, as well as impact the competitive dynamic among industry participants, potentially adversely impacting our Golf business.

**Corporate**

Corporate expenses of \$32.9 million, which include salaries, benefits and expenses related to corporate office employees, increased \$7.4 million, or 29%, predominantly due to business separation costs of \$9.5 million, partly offset by lower share-based compensation expense. We expect the business separation costs will be approximately \$60 million for the full year. In addition, in connection with the Proposed Separation, we may incur expenses associated with the modification of share-based compensation arrangements and losses from the early retirement of certain debt.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF**

**FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)**

**LIQUIDITY AND CAPITAL RESOURCES**

We believe that our internally generated funds, together with access to global credit markets and availability under our existing revolving credit agreement, are adequate to meet our long-term and short-term liquidity and capital needs. Our primary liquidity needs are to support working capital requirements, fund capital expenditures, service indebtedness and pay dividends, as well as finance acquisitions and share repurchases, when deemed appropriate. Our principal sources of liquidity are cash on hand, cash flows from operating activities and availability under our credit agreements. Our operating income is generated by our subsidiaries. There are no restrictions on the ability of our subsidiaries to pay dividends or make other distributions to Fortune Brands. We periodically review our portfolio of brands and evaluate strategic options to increase shareholder value. After funding internal growth, our priority is paying down debt. However, we cannot predict whether or when we may enter into acquisition, disposition, joint venture or other strategic transactions, or what impact any such transaction could have on our results of operations, cash flows or financial condition, whether as a result of the issuance of debt or equity securities, or otherwise. In addition, we cannot predict the impact that the Proposed Separation may have on our future liquidity or capitalization. Our cash flows from operations, borrowing availability and overall liquidity are subject to certain risks and uncertainties, including those described in the section of this Quarterly Report on Form 10-Q titled "Forward-Looking Statements."

**Liquidity and Capitalization**

Total debt decreased \$272.2 million during the three-month period ended March 31, 2011 to \$4.0 billion. The ratio of total debt to total capital decreased to 40.4% at March 31, 2011 from 43.0% at December 31, 2010, primarily due to the first quarter 2011 repayment of \$590.6 million of maturing notes using cash on hand, partly offset by the cash provided by revolving credit arrangements and new bank lines of credit (\$280 million in total).

On February 3, 2010, we executed a \$750 million, 3-year committed revolving credit agreement to be used for general corporate purposes. As of March 31, 2011, there was \$80 million outstanding under this facility. The interest rates under this credit facility are variable based on LIBOR at the time of the borrowing and the Company's long-term credit rating. The credit facility includes a minimum Consolidated Interest Coverage Ratio requirement of 3.0 to 1.0 through 2011 and 3.5 to 1.0 in 2012. The Consolidated Interest Coverage Ratio is defined as the ratio of adjusted EBITDA to Consolidated Interest Expense. Adjusted EBITDA is defined as consolidated net income before interest expense, income taxes, and depreciation and amortization of intangible assets, as well as noncash restructuring and nonrecurring charges, losses from asset impairments, and gains or losses resulting from the sale of assets not in the ordinary course of business. Consolidated Interest Expense is as disclosed in our financial statements. The credit facility also includes a maximum debt to total capital ratio of 0.55 to 1.0. Total capital is defined as debt plus equity and deferred taxes less any impairment charges. As of March 31, 2011, we were in compliance with these ratios by a wide margin. We believe the possibility of violating any of these financial covenants is remote. There were no events of default as of March 31, 2011.

We believe that our unused committed credit facility provides sufficient liquidity to fund our current operating and financing needs. We believe our credit facility was arranged with a strong and diversified group of financial institutions.

**FORTUNE BRANDS, INC. AND SUBSIDIARIES****MANAGEMENT'S DISCUSSION AND ANALYSIS OF****FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)****LIQUIDITY AND CAPITAL RESOURCES (Continued)****Liquidity and Capitalization (Continued)**

In the first quarter of 2011, the Company entered into uncommitted lines of credit totaling \$200 million for seasonal working capital and other needs. One of the uncommitted lines of credit is subject to the financial ratio covenants in our revolving credit agreement. There was \$200 million outstanding on these lines of credit at March 31, 2011. The interest rates under these lines of credit are variable based on LIBOR at the time of borrowing. Borrowings under these uncommitted lines of credit have maturities of one month or less.

We have an investment grade credit rating from three credit rating agencies. A downgrade of our credit ratings to non-investment grade or a renewed global economic decline or credit crisis may impact our access to long-term capital markets, increase interest rates on some of our corporate debt, and weaken operating cash flow and liquidity, potentially adversely impacting our ability to pay dividends, fund acquisitions and repurchase shares in the future.

As of March 31, 2011, we had total cash and cash equivalents of \$269.2 million, a majority of which was held in foreign currencies at non-U.S. subsidiaries. We manage our global cash requirements considering (i) available funds among the many subsidiaries through which we conduct business, (ii) the geographic location of our liquidity needs, and (iii) the cost to access international cash balances. The permanent repatriation of non-U.S. cash balances from certain subsidiaries could have adverse tax consequences as we may be required to pay and record income tax expense on those funds to the extent they were previously considered permanently reinvested.

**Cash Flows**

Below is a summary of cash flows for the three months ended March 31, 2011 and 2010.

<b>(In millions)</b>	<b>2011</b>	<b>2010</b>
Net cash used in operating activities	\$ (206.3)	\$ (72.0)
Net cash used in investing activities	(72.7)	(23.8)
Net cash used in financing activities	(318.1)	(24.8)
Effect of foreign exchange rate changes on cash	1.6	(6.9)
Net decrease in cash and cash equivalents	\$ (595.5)	\$ (127.5)

Management believes that free cash flow provides investors with useful supplemental information about our ability to fund internal growth, make acquisitions, repay debt, pay dividends and repurchase common stock. Free cash flow, as shown below, is cash from operating activities less net capital expenditures (capital expenditures less proceeds from the sale of assets, including property, plant and equipment). Free cash flow is not a measure derived in accordance with U.S. generally accepted accounting principles (GAAP) and may not be consistent with similar measures presented by other companies.

<b>(In millions)</b>	<b>2011</b>	<b>2010</b>

Capital expenditures	(37.3)	(32.0)
Proceeds from the disposition of assets	1.5	0.6

Free cash flow \$ (242.1) \$ (103.4)

Net cash used in operating activities was \$206.3 million for the three months ended March 31, 2011 compared to \$72.0 million for the same three-month period last year. The increase in cash used of \$134.3 million was principally due to increased accounts receivable at March 31, 2011 due to higher first quarter 2011 sales in the Spirits business.

Net cash used in investing activities for the three months ended March 31, 2011 increased by \$48.9 million to \$72.7 million, compared with \$23.8 million used in the same three-month period last year, primarily due the acquisition of the Skinnygirl cocktail business and the absence of the 2010 repayments of loans to affiliates of \$7.6 million.

Net cash used in financing activities for the three months ended March 31, 2011 was \$318.1 million, compared with \$24.8 million used in the same three-month period last year, primarily due to the repayment of long-term debt (\$590.6 million), partially offset by cash provided by revolving credit arrangements and new bank lines of credit (\$280 million in total).

**Dividends**

**FINANCIAL CONDITION AND RESULTS OF OPERATIONS (Continued)**

**LIQUIDITY AND CAPITAL RESOURCES (Continued)**

**Customer Credit Risk**

We routinely grant unsecured credit to customers in the normal course of business. Accounts receivable were \$1,078.9 million as of March 31, 2011 and are recorded at their stated amount less allowances for discounts, doubtful accounts and returns. Allowances for doubtful accounts include provisions for certain customers where a risk of default has been specifically identified as well as provisions determined on a general formula basis when it is determined that some default is probable and estimable but cannot yet be associated with specific customer. The assessment of likelihood of customer default is based on a variety of factors, including the length of time the receivables are past due, the historical collection experience and existing economic conditions. In accordance with our policy, our allowance for discounts, doubtful accounts and returns was \$76.3 million and \$71.5 million as of March 31, 2011 and 2010, respectively. The conditions in the global economy and credit markets may reduce our customer's ability to access sufficient liquidity and capital to fund their operations and make our estimation of customer defaults inherently uncertain. While we believe current allowances for doubtful accounts are adequate, it is possible that continued weak economic conditions may cause significantly higher levels of customer defaults and bad debt expense in future periods.

**Counterparty Risk**

The counterparties to our derivative contracts are major financial institutions. Although our theoretical risk is the replacement cost at the then estimated fair value of these instruments, we believe that the risk of incurring losses is unlikely and that the losses, if any, would be immaterial to our results of operations, cash flows or financial condition. The fair value of our derivative assets at March 31, 2011 was \$38.0 million. The estimated fair value of our derivative contracts represents the amount required to enter into offsetting contracts with similar remaining maturities based on quoted market prices.

**Pension Plans**

We sponsor defined benefit pension plans that are funded by a portfolio of investments maintained within benefit plan trusts. We have met all of our U.S. minimum funding requirements for 2011. For the foreseeable future, we believe that we have sufficient liquidity to meet the minimum funding that may be required by the Pension Protection Act of 2006. As of December 31, 2010, the fair value of our total pension plan assets was \$989.4 million, representing 93% of the accumulated benefit obligation liability.

We guarantee 50% of certain credit facilities of Maxxium España S.L., in the amount of 9.0 million (approximately \$12.8 million), Denview Ltd. in the amount of 9.0 million (approximately \$12.8 million), and Maxxium Cyprus Ltd., in the amount of 4.0 million (approximately \$5.7 million), reflecting our ownership in the joint ventures with The Edrington Group (TEG). The liability related to these guarantees is not material. Beam Global Spirits & Wine, Inc. (BGSW) and TEG also have an uncommitted multi-currency Shareholder Loan Facility for BGSW/TEG joint ventures, of which our share is 50%, or 15 million (approximately \$21.3 million).

We also guarantee a lease for ACCO World Corporation, the office products business we divested in a spin-off in 2005. We will continue to guarantee payment of certain real estate leases, with lease payments totaling approximately \$14.4 million, through April 2013. The liability related to this guarantee was not material.

**RECENTLY ISSUED ACCOUNTING STANDARDS**

*Revenue Arrangements with Multiple Deliverables*

In October 2009, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2009-13, Multiple-Deliverable Revenue Arrangements a consensus of the FASB Emerging Issues Task Force. This guidance requires entities to allocate consideration in multiple deliverable arrangements in a manner that reflects a transaction's economics. The guidance requires expanded disclosure. It is effective for fiscal years beginning on or after June 15, 2010 (calendar year 2011 for Fortune Brands) and can be applied either prospectively or retrospectively. Adoption of this standard did not impact our financial statements and disclosures.

**FORWARD-LOOKING STATEMENTS**

This Quarterly Report on Form 10-Q contains statements relating to future results. Readers are cautioned that these are forward-looking statements, as defined in the Private Securities Litigation Reform Act of 1995 that involve a number of risks and uncertainties. Readers are cautioned that these forward-looking statements speak only as of the date hereof, and the Company does not assume any obligation to update, amend or clarify them to reflect events, new information or circumstances occurring after the date of this Report. Actual results may differ materially from those projected as a result of certain risks and uncertainties, including but not limited to:

general economic conditions, including the U.S. housing and remodeling market,

expiration of government stimulus programs,

competitive market pressures (including pricing pressures),

successful development of new products and processes,

consolidation of customers,

customer defaults and related bad debt expense,

unanticipated developments that delay or negatively impact the Proposed Separation,

disruption to operations as a result of the Proposed Separation,

inability of one or more of the businesses to operate independently following the completion of the Proposed Separation,

risks pertaining to strategic acquisitions and joint ventures, including the potential financial effects and performance of such acquisitions or joint ventures, and integration of acquisitions and the related confirmation or remediation of internal controls over financial reporting,

any possible downgrades of the Company's credit ratings,

volatility of financial and credit markets, which could affect access to capital for the Company, its customers and consumers,

interest rate fluctuations,

commodity and energy price volatility,

risks associated with doing business outside the United States, including currency exchange rate risks,

ability to secure and maintain rights to intellectual property,

inability to attract and retain qualified personnel,

changes in golf equipment regulatory standards and other regulatory developments,

the status of the U.S. rum excise tax cover-over program,

the impact of excise tax increases on distilled spirits,

dependence on performance of distributors and other marketing arrangements,

costs of certain employee and retiree benefits and returns on pension assets,

tax law changes and/or interpretation of existing tax laws,

potential liabilities, costs and uncertainties of litigation,

historical consolidated financial statements that may not be indicative of future conditions and results,

impairment in the carrying value of goodwill or other acquired intangible assets, and

weather and natural disasters,

as well as other risks and uncertainties detailed from time to time in the Company's Securities and Exchange Commission filings.

**Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.**

There were no material changes in the information provided in Item 7A-Quantitative and Qualitative Disclosures about Market Risk of the Company's Annual Report on Form 10-K for the year ended December 31, 2010.

**Item 4. CONTROLS AND PROCEDURES.**

**(a) Evaluation of Disclosure Controls and Procedures.**

The Company's management has evaluated, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer have concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this report.

**(b) Changes in Internal Control Over Financial Reporting.**

There have not been any changes in the Company's internal control over financial reporting that occurred during the Company's fiscal quarter ended March 31, 2011 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting, except as discussed below.

**PART II. OTHER INFORMATION**

**Item 1. LEGAL PROCEEDINGS.**

**(a) Smoking and Health Proceedings.**

**Tobacco Overview**

On December 22, 1994, we sold The American Tobacco Company (ATCO) subsidiary to Brown & Williamson Tobacco Corporation (B&W), at the time a wholly-owned subsidiary of B.A.T. Industries p.l.c. In connection with the sale, B&W and ATCO, which subsequently merged into B&W, agreed, under an Indemnification Agreement (the Indemnification Agreement), to indemnify Fortune Brands, Inc. against claims including legal expenses arising from smoking and health and fire safe cigarette matters relating to the tobacco business of ATCO.

On July 30, 2004, B&W and R.J. Reynolds Tobacco Holdings, Inc. announced that they had completed the combination of their respective U.S. tobacco businesses, previously conducted by B&W (and ATCO) and R.J. Reynolds Tobacco Co., by forming a new combined company known as R.J. Reynolds Tobacco Company. As a result of the combination and in accordance with the Indemnification Agreement, the new R.J. Reynolds Tobacco Company assumed the indemnification obligations under the Indemnification Agreement relating to the U.S. business previously conducted by B&W (and ATCO). B&W has not been released from any of its obligations under the Indemnification Agreement. We refer to B&W and the new R.J. Reynolds Tobacco Company as the Indemnitor under the Indemnification Agreement.

The Indemnitor has complied with the terms of the Indemnification Agreement since 1994, and we are not aware of any inability on the part of the Indemnitor to satisfy its indemnity obligations.

Numerous legal actions, proceedings and claims are pending in various jurisdictions against leading tobacco manufacturers, including B&W both individually and as successor by merger to ATCO, based upon allegations that cancer and other ailments have resulted from tobacco use. The Company has been named as a defendant in some of these cases. These claims have generally fallen within three categories: (i) smoking and health cases alleging personal injury brought on behalf of individual plaintiffs, (ii) smoking and health cases alleging personal injury and other damages and purporting to be brought on behalf of classes of individual plaintiffs, and (iii) health care cost recovery cases, including class actions, brought by foreign governments, unions, health trusts, taxpayers and others seeking reimbursement for health care expenditures allegedly caused by cigarette smoking. Damages claimed in some of the cases range into the billions of dollars.

As of May 1, 2011, there were approximately five smoking and health cases pending on behalf of individual plaintiffs in which the Company has been named as one of the defendants. This number has not changed from the number reported in our Annual Report on Form 10-K for the year ended December 31, 2010. See Pending Cases below.

### Certain Developments Affecting the Indemnitor

On July 14, 2000, in *Engle v. R.J. Reynolds Tobacco Company, et al.*, a Florida state case brought against B&W (individually and as successor to ATCO) and other U.S. tobacco manufacturers on behalf of a class of Florida residents allegedly injured as a result of their alleged addiction to cigarettes containing nicotine, a jury awarded a total of \$144.87 billion in punitive damages against the defendants, including \$17.59 billion against B&W. On November 6, 2000, the Florida Circuit Court upheld this jury award, and held that the class of plaintiffs eligible to recover damages should be extended to smokers with illnesses diagnosed more than four years before the lawsuit was filed in 1994. On May 21, 2003, a Florida appellate court reversed the jury's verdict and damages award and decertified the class. On October 22, 2003, plaintiffs' counsel sought review of this decision in the Florida Supreme Court. On July 6, 2006, the Florida Supreme Court vacated the jury's \$145 billion punitive damage award and also decertified the class and reinstated compensatory damages to the two named plaintiffs, and permitted individual members of the former class to file separate lawsuits within one year of issuance of the mandate (which was ultimately issued January 11, 2007). On August 7, 2006, both parties filed motions for rehearing with the Florida Supreme Court. On December 21, 2006, the Florida Supreme Court denied plaintiffs' rehearing motion, and granted in part and denied in part defendants' rehearing motion. The December 21, 2006 ruling did not amend the July 6, 2006 decision's major holdings, but instead addressed the claims to which the Engle jury's phase one verdict will be applicable in the individual lawsuits that the Florida Supreme Court's decision has permitted. On October 1, 2007, the United States Supreme Court denied defendants' motion seeking review by that court. As of January 25, 2011, B&W and/or R.J. Reynolds Tobacco Company had been served in over 7,900 cases (the Engle progeny cases) brought by individual plaintiffs in state and federal courts in Florida. These cases include claims asserted by over 9,400 individual plaintiffs. The number of cases may increase as the Florida courts continue to sever cases with multiple plaintiffs. In 2009, trials in the Engle progeny cases began. Of the nine Engle progeny cases that were tried in 2009, several resulted in adverse judgments against tobacco companies, including four adverse judgments against the Indemnitor. All of these adverse judgments were appealed by the Indemnitor. Three of these appeals remain pending before Florida appellate courts, and one of them was affirmed by a Florida appellate court on December 14, 2010. Twenty-three Engle progeny cases were tried to verdict in 2010. Fourteen resulted in adverse judgments against tobacco companies, including twelve adverse judgments against the Indemnitor. Eleven of these twelve adverse judgments are currently being appealed by the Indemnitor. All of these appeals remain pending. The twelfth adverse judgment is currently stayed pending resolution of post-trial motions in the trial court. The Company is not a party to any of the Engle progeny cases.

In September 1999, the United States government filed a recoupment lawsuit in Federal Court in Washington, D.C. against the leading tobacco manufacturers (including the Indemnitor and B&W individually and as a successor to ATCO) seeking recovery of costs paid by the Federal government for claimed smoking-related illness. In this action, the U.S. District Court for the District of Columbia dismissed certain counts of the lawsuit, but also ruled that the government may proceed with two counts under the federal RICO statute. On February 4, 2005, the U.S. Circuit Court of Appeals for the District of Columbia held that the government may not, however, seek a disgorgement of defendants' profits from the sale of tobacco as a part of its RICO claim. The U.S. Supreme Court denied the government's petition to review this decision on October 17, 2005. The trial was concluded in June, 2005. On August 17, 2006, the Court issued its final judgment and remedial order, which found that the defendants violated federal civil RICO law by defrauding the public with regard to smoking and health issues. The court did not award monetary damages to the government, but did order the defendants to, among other things, remove descriptors such as low tar, light or ultra light from cigarette packages and to publish certain

corrective statements regarding smoking and health issues. The defendants and the government appealed this matter. On May 22, 2009, the U.S. Court of Appeals for the District of Columbia unanimously affirmed the district court's RICO liability judgment against several defendants, including the Indemnitor, ordered the dismissal of two defunct U.S. trade associations that were not covered by the district court's injunctive remedies, remanded for further proceeding on certain remedial issues, and remanded for further factual findings and clarification as to whether liability should be imposed against B&W. The government's cross-appeal seeking disgorgement of past profits and the funding of smoking education and cessation programs was denied. On June 28, 2010, the U.S. Supreme Court denied the defendants' petition for certiorari review, and denied the government's petition for certiorari review seeking to reinstate the government's claim for disgorgement of past profits. On July 7, 2010, the U.S. Court of Appeals for the District of Columbia issued its remand returning the case to the District Court for further proceedings. The District Court issued an order on December 22, 2010, on consent of the parties, ruling that Brown & Williamson Holding, Inc. (formerly known as Brown & Williamson Tobacco Corporation) is no longer subject to the injunctive remedies in the case. These remedies are still being litigated in the District Court. The Company is not a party to this action.

On March 21, 2003, a judgment for \$7.1 billion in compensatory and \$3 billion in punitive damages was entered by an Illinois state court against Philip Morris, Inc. in *Price, et al. v. Philip Morris, Inc.*, a class action alleging that certain advertising for light or low tar cigarettes was deceptive under the Illinois Consumer Fraud Act. On December 15, 2005, the Illinois Supreme Court reversed the judgment and remanded the case to the lower court with instruction to dismiss the case. On November 27, 2006, the U.S. Supreme Court refused to hear plaintiffs' appeal and ordered the lower court to dismiss plaintiffs' pending motion to vacate. On December 18, 2006, the trial court entered a final judgment in accordance with the Illinois Supreme Court's mandate. On January 17, 2007, the plaintiffs subsequently filed a motion in the lower court seeking to vacate or withhold judgment. On August 22, 2007, the Illinois Supreme Court issued a supervisory order directing the lower courts to dismiss the motion. On August 30, 2007, the trial court dismissed plaintiffs' motion. On December 18, 2008, plaintiffs filed a petition requesting the state court to vacate the Price judgment in light of the U.S. Supreme Court's December 15, 2008 decision in *Altria Group, Inc. v. Good* (in which the Court held that federal law did not preempt the plaintiffs' assertion of state-law consumer fraud claims which alleged that defendants' advertising and marketing fraudulently conveyed the message that light cigarettes deliver less tar and nicotine to smokers than regular cigarettes). On February 4, 2009, the trial court dismissed the plaintiffs' petition. On March 4, 2009, plaintiffs filed a notice of appeal to the intermediate appellate court. Oral argument was heard in the intermediate appellate court on February 2, 2010. Class actions involving similar allegations as Price (*Howard, et al. v. Brown & Williamson Tobacco Corp.* and *Turner v. R.J. Reynolds Tobacco Co.*) are pending against B&W and R.J. Reynolds Tobacco Company, respectively, in the same court. Proceedings in the Howard and Turner cases have been stayed or are otherwise inactive pending resolution of the Price litigation. The Company is not a party to the Price, Howard, Turner or Good litigation.

#### **Resolution of Health Care Cost Recovery Actions by State, U.S. Territories and the District of Columbia**

In 1998, certain U.S. tobacco companies, including B&W, entered into a Master Settlement Agreement (the "MSA") with certain state attorneys general that resulted in the dismissal of all remaining health care reimbursement lawsuits brought by 52 government entities, including 46 states, American Samoa, Guam, Puerto Rico, the U.S. Virgin Islands, the Northern Mariana Islands and the District of Columbia. Although the Company is not a party to the MSA and is not bound by any of its payment obligations or other restrictions, the Company understands that it is a released party under the terms of the

MSA, which provides for the release of claims not only against participating manufacturers, but also against their predecessors, successors, and past, present and future affiliates.

Under the MSA, participating manufacturers were required to make initial payments through 2003, with additional payments to the settling parties required to continue in perpetuity (starting at \$4.5 billion in 2000 and increasing to \$9 billion in 2018 and thereafter). Payments to a strategic contribution fund for individual states from 2008 to 2017, and a public health foundation until 2008, were also required. Ongoing payments are to be allocated according to market share and are subject to various credits and adjustments, depending on industry volume. The MSA also calls for the participating manufacturers to pay attorneys' fees for the states' attorneys in the settled litigation.

Prior to the MSA, health care cost recovery actions filed by the states of Minnesota, Texas, Florida and Mississippi were settled separately on terms that included monetary payments of several billion dollars. The Company was not a party to the Minnesota or Texas actions and was voluntarily dismissed from the Florida and Mississippi actions. The Company is not a party to any of these settlements nor is it required to pay any money under these settlements.

#### **Pending Cases**

There were no pending smoking and health proceedings in which the Company has been named as a defendant other than as previously reporting in Exhibit 99 of our Annual Report on Form 10-K for the year ended December 31, 2010.

#### **Terminated Cases**

No tobacco-related cases were terminated in the three months ended March 31, 2011.

#### **Other Litigation**

##### *The 2006 Callaway Litigation*

On February 9, 2006, Callaway Golf Company (Callaway) filed a lawsuit seeking unspecified damages against the Company's subsidiary Acushnet Company (Acushnet) in the United States District Court for the District of Delaware (2006 Callaway Litigation). Callaway alleged that Pro V1 golf balls then manufactured by Acushnet infringed four of Callaway's patents. At a December, 2007 trial, the validity of nine claims contained in the four patents was tried to a jury which returned a mixed verdict, finding one claim invalid and eight claims valid. On November 10, 2008, the trial court issued an order enjoining sales of all 2007 Pro V1 golf balls as of January 1, 2009. Acushnet appealed to the United States Court of Appeals for the Federal Circuit.

On August 14, 2009, the Court of Appeals overturned the judgment, vacated the injunction and sent the case back to the District Court. The Court of Appeals also found that the District Court erred in rejecting an Acushnet defense before the trial.

On March 29, 2010, following the new trial, a jury found in favor of Acushnet on all counts. Specifically, the jury concluded that Acushnet was not liable because all of the patents asserted by Callaway were invalid both as obvious and anticipated by earlier patents. Following the trial, Callaway filed a motion asking the District Court to enter judgment as a matter of law in its favor or, alternatively, to grant a new trial on the validity of the Callaway patents. On April 21, 2011, the District Court denied

the post-trial motions and issued an order declaring the patents invalid. Callaway may now appeal the verdict to the United States Court of Appeals for the Federal Circuit.

#### *The 2009 Callaway Litigation*

In late 2008, Acushnet introduced what it believes to be non-infringing Pro V1 balls. In February 2009, Acushnet introduced new improved versions of the Pro V1 balls, which it also believes are non-infringing. On March 3, 2009, Callaway filed another lawsuit seeking unspecified damages against Acushnet in the United States District Court for the District of Delaware (2009 Callaway Litigation). Callaway alleged that Acushnet's modified Pro V1 balls and Acushnet's new 2009 versions of the Pro V1 balls infringe two additional patents owned by Callaway. On March 3, 2009, Acushnet also filed a lawsuit seeking unspecified damages against Callaway in the United States District Court for the District of Delaware. Acushnet alleged that several Callaway ball models infringe nine Acushnet patents.

#### *Proceedings at the U.S. Patent and Trademark Office*

In separate proceedings, on February 19, 2006, Acushnet filed requests with the U.S. Patent and Trademark Office (PTO) for reexamination of all four of the patents asserted by Callaway in the 2006 Callaway Litigation. The PTO issued final office actions finding that all four patents are invalid. Callaway subsequently filed appeals regarding all four of the patents with the Patent Board of Appeals. The Patent Board of Appeals conducted a hearing on January 19, 2011 and issued its decision on March 9, 2011 affirming the examiner's finding of invalidity. On March 15, 2011, Callaway filed a lawsuit against the PTO in the U.S. District Court for the Eastern District of Virginia seeking to have the reexaminations and the Patent Board of Appeals decision vacated and set aside. On April 11, 2011, Callaway also asked the Patent Board of Appeals to rehear the appeal.

With regard to the patents asserted by Callaway in the 2009 Callaway Litigation, Acushnet also filed requests for reexamination with the PTO. The PTO has accepted the reexaminations and has issued office actions that reject all of the claims of both patents as invalid on multiple grounds.

#### *Conclusion*

We believe that Acushnet has meritorious defenses to all of the litigation brought by Callaway, and Acushnet is vigorously contesting each of these matters. Given the favorable jury verdict in the first Callaway suit and the favorable developments at the PTO with respect to the validity of patents asserted in both Callaway patent suits, as well as the speculative nature of damages asserted by Callaway in both suits, it is not possible at this time to assess the likelihood of an adverse outcome or determine a reasonable estimate, or range of estimates, of potential damages. If decided unfavorably, however, the litigation could have a material adverse effect on the Company's results of operations, cash flows or financial condition.

#### **Other Litigation**

In addition to the lawsuits described above, the Company and its subsidiaries are defendants in lawsuits associated with the normal conduct of their businesses and operations. It is not possible to predict the outcome of the pending actions, and, as with any litigation, it is possible that some of these actions could be decided unfavorably to the Company. We believe that there are meritorious defenses to these actions and that these actions will not have a material adverse effect upon our results of operations, cash flows or financial condition, and where appropriate, these actions are being vigorously contested.

**(b) Environmental Matters.**

We are subject to laws and regulations relating to protection of the environment. It is not possible to quantify with certainty the potential impact of actions relating to environmental matters, particularly remediation and other compliance efforts that our subsidiaries may undertake in the future. In our opinion, however, compliance with current environmental protection laws (before taking into account estimated recoveries from third parties) will not have a material adverse effect upon our results of operations, cash flows or financial condition.
