- ☐ Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

ITEM 8.01 Other Events

On July 21, 2010, the Dodd Frank Wall Street Reform and Consumer Protection Act (the Act) was enacted. Section 1503 of the Act included new reporting requirements related to mine safety, including disclosing on a Current Report on Form 8-K the receipt of an imminent danger order under Section 107 (a) of the Federal Mine Safety and Health Act of 1977 (the Mine Act) issued by the Federal Mine Safety and Health Administration (MSHA).

On Wednesday, May 4, 2011, at approximately 7:55 p.m., Gibson County Coal, LLC (Gibson), an operating subsidiary of Alliance Resource Partners, L.P., was issued an imminent danger order under Section 107(a) of the Mine Act. Approximately 20 to 30 minutes prior to the issuance of the order, a contractor s employee was positioning a dump truck near a refuse pile dumping area at Gibson s surface facilities. While positioning the truck, the contractor s employee reportedly noticed the truck sink down. After the contractor s employee removed himself from the truck safely and without incident, Gibson personnel used a bulldozer and steel cable to pull the truck to a more solid surface. At that time, the contractor s employee got back in the truck and operations resumed without incident. Gibson contends MSHA s issuance of an imminent danger order was inappropriate and the situation never constituted an imminent danger. Rather, mine personnel handled the situation safely and appropriately. Gibson intends to seek judicial review of the order s issuance.
