Report of Independent Registered Public Accounting Firm

To: The North America Regional Benefits Committee and State Street Salary Savings Program Participants

We have audited the accompanying statements of net assets available for benefits of the State Street Salary Savings Program as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2010 and 2009, and the changes in its net assets available for benefits for the years then ended, in conformity with US generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2010 is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

State Street Salary Savings Program

Notes to Financial Statements

December 31, 2010

**1. Description of the Plan**

The description of the State Street Salary Savings Program (the Plan) is provided for general information purposes only. Employees should refer to the Summary Plan Description and Plan document for more complete information.

**General**

The Plan is a defined contribution plan. The Plan sponsor is State Street Corporation (Plan Sponsor or State Street). The Plan Sponsor is responsible for the general administration of the Plan. State Street Bank and Trust Company (Trustee) serves as the Trustee of the Plan. State Street Global Advisors (SSgA), a division of State Street Bank and Trust Company, is the Investment Manager of the State Street Bank and Trust Company Common and Collective Trust Funds in the Plan. Vanguard is the Investment Manager for the Prime Money Market Mutual Fund. ING is the participant record keeper for the Plan.

All State Street employees and certain related companies (collectively, the Company) are immediately eligible to participate in the Plan except for the following categories of employees:

Non-resident aliens with no U.S. source income

Student interns and co-op employees

Union employees

Leased employees and independent contractors

Employees of a non-participating affiliated company

Employees of a participating employer who are not on the U.S. payroll

**Contributions**

Active participants may elect to make tax-deferred contributions and/or Roth after-tax contributions to the Plan equal to 1% to 50% of their compensation, subject to certain limitations. Participants may also contribute amounts representing rollover distributions from other qualified defined benefit or defined contribution plans.

State Street provides for contributions (Matching Contributions) to the Plan in amounts equal to 100% of the first 6% of the employee's tax-deferred contributions or Roth after-tax contributions.

**Table of Contents**

State Street Salary Savings Program

Notes to Financial Statements (continued)

**1. Description of the Plan (continued)**

In 2008, State Street implemented a Supplemental Performance Based Contribution in addition to the Matching Contributions. This Performance Based Contribution is discretionary based on State Street's financial performance, up to a maximum of 5% employee's base pay earned. The Company did not achieve its goals in 2009 and therefore, no discretionary Performance Based Contribution was made. State Street achieved its performance goals in 2010 and elected to make a discretionary Performance Based Contribution to the Plan of \$11,838,716. The Plan Sponsor's recommended contribution was made in March, 2011 to eligible employees in the 401(k) Plans. This was recorded as a Contribution Receivable at December 31, 2010 and is included in the Employer's Contributions in the Statement of Changes in Net Assets Available for Benefits.

All contributions to the Plan are paid to the Trustee. The Trustee holds contributions in trust exclusively for participants and their beneficiaries, invests the contributions as instructed by the participants, and makes benefit payments as they become due.

**Investment Options**

Participant contributions and Employer contributions are allocated to various investment fund options at the participant's direction. A wide range of investment choices, including various State Street Bank and Trust Company common and collective trust funds, a mutual fund, a company stock fund (ESOP) and a Self-Managed Brokerage Account (SMBA), are available to participants. Limitations and restrictions apply to direct contributions to the ESOP and with respect to Roth contributions to the SMBA Funds.

In the event a participant does not make an investment election, and in the event of automatic enrollment, funds are invested in the Target Retirement Date Fund (a common and collective investment fund) that corresponds to the participant's assumed target retirement year based on the participant's date of birth.

**Participant Accounts**

Each participant's account is credited with the participant's contributions, Employer contributions, discretionary Performance Based Contributions, if any, and related earnings. The benefit to which a participant is entitled is the value of the participant's vested account balance, including earnings.

**Table of Contents**

State Street Salary Savings Program

Notes to Financial Statements (continued)

**1. Description of the Plan (continued)**

**Vesting**

Participant pre-tax deferral contributions and Roth after-tax contributions are always fully vested. Matching contributions and Performance Based contributions are 100% vested upon completion of one full year of employment with the Company except in the event of death, disability or retirement, in which case, Company contributions become fully vested.

**Forfeitures**

Upon termination of employment, participants forfeit their unvested balances. Forfeited balances of terminated participants' unvested accounts may be used to either pay Plan administrative expenses or offset future company contributions to the Plan. Unallocated forfeiture balances as of December 31, 2010 and 2009 were approximately \$1,408,659 and \$1,602,149, respectively. \$660,000 of forfeiture money was used to pay Plan administrative expenses during 2010. No forfeiture money was used to reduce employer contribution expense or to pay Plan administrative expenses during 2009. Plan forfeitures are invested in the Plan's Vanguard Prime Money Market Fund until the funds are otherwise allocated.

**In-Service Withdrawals**

The Plan provides that in-service withdrawals are available as follows:

Age 59-1/2 (all sources and any earnings)

Disability withdrawals (all sources and any earnings)

Rollover withdrawals (rollover account)

Post-tax withdrawals (Pre-1987 Thrift Incentive Plan (TIP) balances)

Hardship withdrawals (TIP (including earnings), Roth post-tax, rollover (including earnings) and employee pre-tax) Hardship withdrawals are available to satisfy an immediate and heavy financial need, provided the need cannot be satisfied with all other resources (as defined in the Plan).

**Table of Contents**

State Street Salary Savings Program

Notes to Financial Statements (continued)

**1. Description of the Plan (continued)**

**Payment of Benefits**

Upon retirement or other termination of employment, a participant eligible to receive a benefit may receive an immediate lump-sum distribution directly or in the form of a rollover. If the vested value of the participant's account balance is greater than \$5,000, the participant may elect to defer the payment of their benefits and remain in the Plan, at which time the participant becomes non-active. If the value of the participant's account balance is greater than \$1,000 but not more than \$5,000, a distribution in the form of an automatic rollover to an IRA will be made if the participant does not provide distribution instructions within 90 days of his or her termination date. Account balances of \$1,000 or less will be automatically distributed to the participant in cash (by check) if no distribution instruction is received within 90 days of the participant's termination.

Installment payments are also available to participants who are retiree eligible at the time of termination. In order to be retiree eligible, a participant must be at least age 55 with a minimum of five years of eligible service upon termination of employment. Installment periods available include monthly, quarterly, semi-annually and annually.

**Participant Loans**

Participants may borrow from their fund accounts a minimum of \$1,000, up to a maximum equal to the lesser of one-half of the participant's vested balance, or \$50,000. Loans are secured by the balance in the participant's accounts and bear interest at a rate comparable to a similar loan with a commercial institution. Repayment of principal plus interest is required within five years, unless the loan is for the purchase of a principal residence. Principal and interest are paid ratably through payroll deductions. In the event of termination of employment, participants with outstanding loans may elect to continue to repay their outstanding loan balance directly to the Trustee; such loan shall not become immediately due and payable until such time as there is an event of a default.

**Plan Termination**

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). In the event of termination of the Plan, all participants will become fully vested.

**Table of Contents**

State Street Salary Savings Program

Notes to Financial Statements (continued)

**1. Description of the Plan (continued)**

**Administrative Expenses**

The Plan's administrative expenses are paid by either the Plan or by State Street, according to the Plan's provisions, and include such expenses as recordkeeping fees. Expenses relating to investment management fees are charged to the particular investment fund to which the expenses relate. All other administrative expenses of the Plan are paid by State Street.

**Plan Amendments and Other Investment Strategy Changes**

During 2010, the following change occurred relative to the Plan:

The Plan was amended to include the optional provisions for participants in Military service as promulgated by the HEART ACT legislation.

During 2010, the following changes occurred relative to the Plan or the Plan's investment strategies:

Principal Preservation Fund assets continued to transition into the Vanguard Prime Money Market Fund in accordance with State Street's decision to reduce the number of stable value funds offered in the Plan. This process was completed by December 31, 2010. See Note 11 for further discussion of the Principal Preservation Fund.

The transition from securities lending funds to non-lending funds ceased in light of improved market conditions and State Street, as Plan Sponsor, made the decision to return to offering securities lending funds, where available.

During 2009, the following changes occurred relative to the Plan or the Plan's investment strategies:

The Principal Preservation Fund was frozen to new contributions effective September 4, 2009 and the applicable Target Retirement Date Fund was established as the default investment for participants who failed to elect an alternative investment as of the freeze date.

Principal Preservation Fund assets transitioned into Vanguard Prime Money Market Fund over time, starting in September 2009.

**Table of Contents**

State Street Salary Savings Program

Notes to Financial Statements (continued)

**1. Description of the Plan (continued)**

The Plan Sponsor voted to terminate all Guaranteed Investment Contracts (GICS) held in the Principal Preservation Fund that will not incur an early termination penalty.

State Street acquired Investors Bank and Trust Company (IBT) in 2007. The Investors Bank & Trust Company Savings Plan merged into the Plan as of December 10, 2009. Total assets merged into the Plan amounted to \$68,519,984. In 2010, the remaining IBT plan assets were transferred into the Plan.

In 2009, State Street was awarded an outsourcing contract relative to certain investment management operations for certain funds managed by an affiliate of Morgan Stanley. Employees of Morgan Stanley who became State Street employees were granted service credit with Morgan Stanley for the purpose of vesting in Matching and Performance Based Contributions under the Plan when they become eligible to participate in the Plan.

**2. Significant Accounting Policies**

**Basis of Accounting**

The accounting records of the Plan are in conformity with generally accepted accounting principles in the United States (GAAP) and are maintained on the accrual basis.

**Investment Valuation and Income Recognition**

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 5 for further discussion of fair value measurements.

During 2009, the Principal Preservation Fund (a Common and Collective Trust Fund managed by SSgA, also known as State Street Bank and Trust Company Stable Fixed Income Fund for Employee Benefit Trusts) invested in fully benefit-responsive investment contracts. These investment contracts were recorded at fair value (Note 5); however, since these contracts were fully benefit-responsive, an adjustment was reflected in the statement of net assets available for benefits to present these investments at contract value. Contract value was the relevant measurement attributable to fully benefit-responsive investment contracts because contract value was the amount participants would receive if they initiated permitted transactions under the terms of the Plan. The contract value represented contributions plus earnings, less participant withdrawals and administrative expenses. As of December 31, 2010, the Principal Preservation Fund is no longer investing in fully benefit-responsive investment contracts.

**Table of Contents**

State Street Salary Savings Program

Notes to Financial Statements (continued)

**2. Significant Accounting Policies (continued)**

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**New Accounting Pronouncements**

In September 2010, the FASB issued Accounting Standards Update (ASU) No.2010-25, *Plan Accounting - Defined Contribution Pension Plans Reporting Loans to Participants*. This changed the classification of participant loans from being classified as an Investment to Notes Receivable. The classification of participant loans as Notes Receivable from participants acknowledges that participant loans are unique from other investments, in that a participant obtaining such a loan essentially borrows against its own individual vested benefit balance. It is more meaningful to measure participant loans at their unpaid principal balance plus any accrued but unpaid interest, rather than at fair value. As such, the Plan is now carrying participant loans at the amount of unpaid principal balance plus accrued but unpaid interest at the reporting date.

In January 2010, the FASB issued ASU No.2010-06, *Fair Value Measurements and Disclosures (ASC Topic 820) - Improving Disclosures about Fair Value Measurements*. The amendment requires new disclosures for significant transfers of financial assets and liabilities into and out of level 1 and level 2 of the prescribed valuation hierarchy, and requires the disaggregation of information about purchases, sales, issuances and settlements for financial assets and liabilities categorized in level 3 of the valuation hierarchy. The amendment also provides several clarifications with respect to disclosures about valuation techniques and inputs. The requirement to disclose disaggregated information about purchases, sales, issuances and settlements for financial assets and liabilities categorized in level 3 of the valuation hierarchy was deferred, with respect to the Plan, to January 1, 2011.

**Use of Estimates**

The preparation of financial statements requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

**Reclassification**

Certain prior year amounts in the statements of net assets available for benefits have been reclassified to conform to the current year presentation.

**Table of Contents**

## State Street Salary Savings Program

## Notes to Financial Statements (continued)

**3. Investments**

During the year ended December 31, 2010 and 2009, the Plan's investments (including investments bought, sold, and held during the year) appreciated in value as follows:

	Year Ended December 31	
	2010	2009
Common and Collective Trust Funds	\$ 193,194,869	\$ 242,369,060
Self Managed Brokerage Accounts	3,494,116	5,833,178
State Street Corporation common stock	12,467,195	24,760,807
Net appreciation in fair value of investments	\$ 209,156,180	\$ 272,963,045

In 2008, SSgA placed restrictions on the amount of redemptions that could be made by or directed by the Plan Sponsors relative to Plan investments in certain securities lending funds. In December 2009, the Plan Sponsor made the decision to migrate, over time, participant investment funds from investment funds that participate in securities lending to investments funds that do not participate in securities lending funds. The process for accomplishing this migration to non-securities lending funds was completed through the development of unitized funds which combine the returns of the existing securities lending funds and their non-lending counterparts to the extent allowed by SSgA as the investment manager of the common and collective trust investment funds. An initial transfer of 40% of assets in each security lending fund (the maximum allowable under by SSgA as the investment manager of these funds) to a newly formed non-lending fund equivalent occurred on December 16, 2009. Beginning in January 2010, subsequent transfers of 4% of the assets in each securities lending fund to their non-lending equivalents occurred monthly. New contributions were directed to the non-lending funds through December 2010.

On December 20, 2010, the Plan Sponsor made the decision to direct new contributions from investment funds that do not participate in securities lending to securities lending funds.

**4. Fair Fund Settlement**

The Plan received \$6,566,198 from the Fair Fund settlement between State Street, the Securities and Exchange Commission (SEC), the Massachusetts Attorney General and the Massachusetts Securities Division of the Office of the Secretary of State to resolve their investigations into losses incurred by, and disclosures made with respect to, certain active fixed-income strategies managed by SSgA. The amount of the settlement was based on the Salary Saving Program's investment losses in the Daily Bond Market Fund in and around the third quarter of 2007. This money was allocated in 2010 to plan participants based on an allocation methodology approved by the Plan Sponsor.

---

**Table of Contents**

State Street Salary Savings Program

Notes to Financial Statements (continued)

**5. Fair Value Measurement**

ASC Topic 820, *Fair Value Measurements and Disclosures* (formerly SFAS 157, *Fair Value Measurements*) defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). ASC Topic 820 includes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

**Level 1** Financial assets and liabilities with values based on unadjusted quoted prices for identical assets or liabilities in an active market.

**Level 2** Financial assets and liabilities with values based on quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability. Level 2 inputs include the following:

Quoted prices for similar assets or liabilities in active markets;

Quoted prices for identical or similar assets or liabilities in non-active markets;

Pricing models whose inputs are observable for substantially the full term of the asset or liability; and

Pricing models whose inputs that are derived principally from, or corroborated by, observable market information through correlation or other means for substantially the full term of the asset or liability.

The fair value of the securities categorized in level 2 is measured primarily using information obtained from third parties. This third-party information is subject to review by management as part of a validation process, which includes obtaining an understanding of the underlying assumptions and the level of market participant information used to support those assumptions. In addition, management compares significant assumptions used by third parties to available market information. Such information may include known trades or, to the extent that trading activity is limited, includes comparisons to market research information pertaining to credit expectations, execution prices and the timing of cash flows. The securities categorized as level 2 primarily comprise Common and Collective Trust Funds.

**Level 3** Financial assets and liabilities with values based on prices or valuation techniques that require inputs that are both unobservable in the market and significant to the overall fair value measurement. These inputs reflect management's judgment about the assumptions that a market participant would use in pricing the asset or liability, and are based on the best available information, some of which is internally developed. There are no level 3 securities at December 31, 2010 or 2009.

## State Street Salary Savings Program

## Notes to Financial Statements (continued)

**5. Fair Value Measurement (continued)**

Following is a description of the valuation methodologies used by the Plan for assets measured at fair value:

Common and Collective Trust Funds: Valued at the net asset value per unit held by the Plan at year end as quoted by the funds. SSgA, as investment manager of the common and collective trust funds, determines the net asset value per unit of the respective funds.

Common Stocks and U.S. Government and Agency Securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual Funds: Valued at the net asset value of shares held by the Plan at year end as quoted in the active market.

Corporate Bonds: Valued at quoted prices in markets that are not active, broker dealer quotations, or other methods by which all significant inputs are observable, either directly or indirectly.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2010:

	Level 1	Level 2	Level 3	Total
Common and collective trust funds	\$	\$ 1,415,506,486	\$	\$ 1,415,506,486
Common stocks	211,442,932			211,442,932
Mutual funds	205,423,647			205,423,647
Self managed brokerage accounts:				
Common stocks	19,418,154			19,418,154
Mutual funds	12,981,200			12,981,200
Others (warrants or rights, government securities, bonds etc)	130,816			130,816
Total assets at fair value	\$ 449,396,749	\$ 1,415,506,486	\$	\$ 1,864,903,235

## State Street Salary Savings Program

## Notes to Financial Statements (continued)

**5. Fair Value Measurement (continued)**

Note: no significant transfers of financial assets or liabilities between levels 1 and 2 occurred during 2010.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2009:

	Level 1	Level 2	Level 3	Total
Common and collective trust funds	\$	\$ 1,142,110,465	\$	\$ 1,142,110,465
Common stocks	210,876,977			210,876,977
Mutual funds	180,490,213			180,490,213
Self managed brokerage accounts:				
Common stocks	16,819,355			16,819,355
Mutual funds	11,601,917			11,601,917
Others (warrants or rights, government securities, bonds etc)	192,109			192,109
Total assets at fair value	\$ 419,980,571	\$ 1,142,110,465	\$	\$ 1,562,091,036

**6. Transactions and Agreements with Parties-in-Interest**

The Plan holds units of State Street Bank and Trust Company Common and Collective Trust Funds managed by SSgA, a related party of State Street. The Plan also invests in the common stock of State Street. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA. During 2010 and 2009, the Plan received \$186,854 and \$271,665, respectively, of common stock dividends from State Street.

Investment fees and most costs and expenses associated with Plan administration and recordkeeping are paid by the Plan to certain related parties. These expenses are reported on the statements of changes in net assets available for benefits as administrative expenses.

**7. Risks and Uncertainties**

The Plan and its participants invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

**Table of Contents**

## State Street Salary Savings Program

## Notes to Financial Statements (continued)

**8. Income Tax Status**

The Plan has received a determination letter from the Internal Revenue Service (IRS), dated April 30, 2009 stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code), and therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended and restated. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Sponsor believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan, as amended and restated, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Sponsor has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Sponsor believes it is no longer subject to income tax examinations for years prior to 2007.

**9. Reconciliation of Financial Statements and Form 5500**

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2010 and 2009:

	2010	2009
Net assets available for benefits per the financial statements	\$ 1,917,052,159	\$ 1,593,764,379
Adjustment from contract value to fair value for fully benefit-responsive investment contracts		877,904
<b>Net assets available for benefits per the Form 5500</b>	<b>\$ 1,917,052,159</b>	<b>\$ 1,594,642,283</b>

The following is a reconciliation of benefits paid to participants per the financial statements to the Form 5500 for the year ended December 31, 2010:

Benefits paid to participants per the financial statements	\$ 87,300,402
Change in amounts allocated to withdrawing participants	(113,803)
<b>Benefits paid to participants per the Form 5500</b>	<b>\$ 87,186,599</b>

**Table of Contents**

State Street Salary Savings Program

Notes to Financial Statements (continued)

**9. Reconciliation of Financial Statements and Form 5500 (continued)**

Amounts allocated to withdrawing participants are recorded on the Form 5500 for benefit claims that have been processed and approved for payment prior to December 31, but not yet paid as of that date.

**10. Legal Matter**

Two participants in the Plan have filed class action complaints purportedly on behalf of participants and beneficiaries who invested in the Plan's State Street stock investment option. Those complaints were filed in May 2009 and February 2010. The complaints are against the Plan Sponsor as well as certain named individuals and allege violations of the federal securities laws and ERISA. The Plan Sponsor and the individual defendants intend to defend themselves vigorously against these claims. Although both lawsuits are still active, the Plan Sponsor does not believe that the ultimate resolution of these claims will have a material effect on the Plan's financial statements.

**11. Subsequent Events**

The Plan has evaluated the need for disclosures and/or adjustments resulting from subsequent events through the date the financial statements were issued.

Effective January 15, 2011, the 30% limit on all mutual fund and individual equity investments in the Self Managed Account was lifted, so that a participant may invest up to 100% of his or her pre-tax account balance directly into individual stocks (other than State Street Corporation Stock), bonds, mutual funds and other securities offered through the Self Managed Account. As of December 31, 2010, the Principal Preservation Fund became 100% invested in the Vanguard Prime Money Market Fund. Assets will be relabeled and/or merged into existing Vanguard positions in participant accounts by July 1, 2011.
