AMERIS BANCORP AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

JUNE 30, 2011

(Unaudited)

NOTE 1 BASIS OF PRESENTATION AND ACCOUNTING POLICIES

Ameris Bancorp (the Company or Ameris) is a financial holding company headquartered in Moultrie, Georgia. Ameris conducts substantially all of its operations through its wholly-owned banking subsidiary, Ameris Bank (the Bank). At June 30, 2011, the Bank operated 59 branches in select markets in Georgia, Alabama, Florida and South Carolina. Our business model capitalizes on the efficiencies of a large financial services company while still providing the community with the personalized banking service expected by our customers. We manage our Bank through a balance of decentralized management responsibilities and efficient centralized operating systems, products and loan underwriting standards. Ameris Board of Directors and senior managers establish corporate policy, strategy and administrative policies. Within Ameris established guidelines and policies, the banker closest to the customer responds to the differing needs and demands of their unique market.

The accompanying unaudited consolidated financial statements for Ameris have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and Regulation S-X. Accordingly, the financial statements do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statement presentation. The interim consolidated financial statements included herein are unaudited, but reflect all adjustments which, in the opinion of management, are necessary for a fair presentation of the consolidated financial position and results of operations for the interim periods presented. All significant intercompany accounts and transactions have been eliminated in consolidation. The results of operations for the period ended June 30, 2011 are not necessarily indicative of the results to be expected for the full year. These financial statements should be read in conjunction with the financial statements and notes thereto and the report of our registered independent public accounting firm included in the Company's Annual Report on Form 10-K for the year ended December 31, 2010.

Certain amounts reported for the periods ended December 31, 2010 and June 30, 2010 have been reclassified to conform to the presentation as of June 30, 2011. These reclassifications had no effect on previously reported net income or stockholders' equity.

Newly Adopted Accounting Pronouncements

ASU 2011-01 - *Deferral of the Effective Date of Disclosures about Troubled Debt Restructurings in Update No. 2010-20* (ASU 2011-01). ASU 2011-01 temporarily delays the effective date of the disclosures surrounding troubled debt restructurings in Update 2010-20 for public companies. The Financial Accounting Standards Board (FASB) is deliberating on what constitutes a troubled debt restructuring and will coordinate that guidance with the effective date of the new disclosures, which is anticipated to be effective for interim and annual periods ending after June 15, 2011. It is not expected to have a material impact on the Company's results of operations, financial position or disclosures.

ASU 2011-02 - *A Creditor's Determination of Whether a Restructuring Is a Troubled Debt Restructuring* (ASU 2011-02). ASU 2011-02 provides additional guidance to assist creditors in determining whether a restructuring of a receivable meets the criteria to be considered a troubled debt restructuring. ASU 2011-02 is effective for the first interim or annual period beginning on or after June 15, 2011, and is to be applied retrospectively to the beginning of the annual period of adoption. As a result of applying ASU 2011-02, an entity may identify receivables that are newly considered impaired. The Company is continuing to evaluate the impact of adoption of ASU 2011-02.

ASU 2011-04 - *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04). ASU 2011-04 generally represents clarifications of Topic 820, but also includes some instances where a particular principle or requirement for measuring fair value or disclosing information about fair value measurements has changed. ASU 2011-04 results in common principles and requirements for measuring fair value and for disclosing information about fair value measurements. ASU 2011-04 is to be applied prospectively and is effective during interim and annual periods beginning after December 15, 2011 for public companies. It is not expected to have a material impact on the Company's results of operations, financial position or disclosures.

ASU 2011-05 - *Amendments to Topic 220, Comprehensive Income* (ASU 2011-05). ASU 2011-05 grants an entity the option to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In both choices, an entity is required to present each component of net income along with total net income, each component of other comprehensive income along with a total for other

Edgar Filing: Ameris Bancorp - Form 10-Q

comprehensive income, and a total amount for comprehensive income. ASU 2011-05 eliminates the option to present the components of other comprehensive income as part of the statement of changes in stockholders' equity. ASU 2011-05 does not change the items that must be reported in other comprehensive income or when an item of other comprehensive income must be reclassified to net income. For public entities, ASU 2011-05 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011, and is to be applied retrospectively. It is not expected to have a material impact on the Company's results of operations, financial position or disclosures.

Table of Contents

Fair Value of Financial Instruments

The fair value of a financial instrument is the current amount that would be exchanged between willing parties, other than in a forced liquidation. Fair value is best determined based upon quoted market prices. However, in many instances, there are no quoted market prices for the Company's various financial instruments. In cases where quoted market prices are not available, fair value is based on discounted cash flows or other valuation techniques. These techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. Accordingly, the fair value estimates may not be realized in an immediate settlement of the instrument. The accounting standard for disclosures about the fair value of financial instruments excludes certain financial instruments and all nonfinancial instruments from its disclosure requirements. Accordingly, the aggregate fair value amounts presented may not necessarily represent the underlying fair value of the Company.

The fair value hierarchy describes three levels of inputs that may be used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The following methods and assumptions were used by the Company in estimating the fair value of its financial instruments and other accounts recorded based on their fair value:

Cash and Due From Banks, Federal Funds Sold and Interest-Bearing Accounts: The carrying amount of cash and due from banks, federal funds sold and interest-bearing accounts approximates fair value.

Investment Securities Available for Sale: The fair value of securities available for sale is determined by various valuation methodologies. Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics, or discounted cash flows. Level 2 securities include mortgage-backed securities issued by government sponsored enterprises and municipal bonds. The level 2 fair value pricing is provided by an independent third-party and is based upon similar securities in an active market. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy and include certain residual municipal securities and other less liquid securities.

Other Investments: Federal Home Loan Bank (FHLB) stock is included in other investments at its original cost basis, as cost approximates fair value and there is no ready market for such investments.

Loans: The carrying amount of variable-rate loans that reprice frequently and have no significant change in credit risk approximates fair value. The fair value of fixed-rate loans is estimated based on discounted contractual cash flows, using interest rates currently being offered for loans with similar terms to borrowers with similar credit quality. The fair value of impaired loans is estimated based on discounted expected future cash flows or underlying collateral values, where applicable. A loan is determined to be impaired if the Company believes it is probable that all principal and interest amounts due according to the terms of the loan will not be collected as scheduled. The fair value of impaired loans is determined in accordance with accounting standards and generally results in a specific reserve established through a charge to the provision for loan losses. Losses on impaired loans are charged to the allowance when management believes the uncollectability of a loan is confirmed. Management has determined that the majority of impaired loans are Level 2 assets due to the extensive use of market appraisals. To the extent that market appraisals or other methods do not produce reliable determinations of fair value, these assets are deemed to be Level 3.

Other Real Estate Owned: The fair value of other real estate owned (OREO) is determined using certified appraisals that value the property at its highest and best uses by applying traditional valuation methods common to the industry. The Company does not hold any OREO for profit purposes and all other real estate is actively marketed for sale. In most cases, management has determined that additional write-downs are required beyond what is calculable from the appraisal to carry the property at levels that would attract buyers. Because this additional write-down is not based on observable inputs, management has determined that other real estate owned should be classified as Level 3.

Covered Assets: Covered assets include loans and other real estate owned on which the majority of losses would be covered by loss-sharing agreements with the Federal Deposit Insurance Corporation (the FDIC). Management initially valued these assets at fair value using mostly

Edgar Filing: Ameris Bancorp - Form 10-Q

unobservable inputs and, as such, has classified these assets as Level 3.

Intangible Assets and Goodwill: Intangible assets consist of core deposit premiums acquired in connection with business combinations and are based on the established value of acquired customer deposits. The core deposit premium is initially recognized based on a valuation performed as of the consummation date and is amortized over an estimated useful life of three to ten years. Goodwill represents the excess of the purchase price over the fair value of the net identifiable assets acquired in a business combination. Goodwill and other intangible assets deemed to have an indefinite useful life are not amortized but instead are subject to an annual review for impairment.

Table of Contents

FDIC Loss-Share Receivable: Because the FDIC will reimburse the Company for certain acquired loans should the Company experience a loss, an indemnification asset is recorded at fair value at the acquisition date. The indemnification asset is recognized at the same time as the indemnified loans and measured on the same basis, subject to collectability or contractual limitations. The shared-loss agreements on the acquisition date reflect the reimbursements expected to be received from the FDIC, using an appropriate discount rate which reflects counterparty credit risk and other uncertainties. The shared-loss agreements continue to be measured on the same basis as the related indemnified loans, and the loss-share receivable is impacted by changes in estimated cash flows associated with these loans.

Deposits: The carrying amount of demand deposits, savings deposits and variable-rate certificates of deposit approximates fair value. The fair value of fixed-rate certificates of deposit is estimated based on discounted contractual cash flows using interest rates currently offered for certificates with similar maturities.

Securities Sold under Agreements to Repurchase and Other Borrowings: The carrying amount of variable rate borrowings and securities sold under repurchase agreements approximates fair value. The fair value of fixed rate other borrowings is estimated based on discounted contractual cash flows using the current incremental borrowing rates for similar borrowing arrangements.

Subordinated Deferrable Interest Debentures: The carrying amount of the Company's variable rate trust preferred securities approximates fair value.

Off-Balance-Sheet Instruments: Because commitments to extend credit and standby letters of credit are typically made using variable rates and have short maturities, the carrying value and fair value are immaterial for disclosure.

Derivatives: The Company has entered into derivative financial instruments to manage interest rate risk. The valuation of these instruments is determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of the derivatives. This analysis reflects the contractual terms of the derivative, including the period to maturity, and uses observable market-based inputs, including interest rate curves and implied volatilities. The fair value of the derivatives are determined using the market standard methodology of netting the discounted future fixed cash receipts and the discounted expected variable cash payments. The variable cash payments are based on an expectation of future interest rates (forward curves derived from observable market interest rate curves).

The Company incorporates credit valuation adjustments to appropriately reflect both its own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements. In adjusting the fair value of its derivative contracts for the effect of nonperformance risk, the Company has considered the impact of netting any applicable credit enhancements such as collateral postings, thresholds, mutual puts and guarantees.

Although the Company has determined that the majority of the inputs used to value its derivative fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with its derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by itself or the counterparty. However, as of June 30, 2011, December 31, 2010 and June 30, 2010, the Company has assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative positions and has determined that the credit valuation adjustment is not significant to the overall valuation of its derivatives. As a result, the Company has determined that its derivative valuation in its entirety is classified in Level 2 of the fair value hierarchy.

Table of Contents

The carrying amount and estimated fair value of the Company's financial instruments, not shown elsewhere in these financial instruments, were as follows:

	June 30, 2011		December 31, 2010		June 30, 2010	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value	Carrying Amount	Fair Value
			(Dollars in Thousands)			
Financial assets:

Table of Contents

The following table is a description of the valuation methodologies used for instruments measured at fair value on a nonrecurring basis, as well as the general classification of such instruments pursuant to the valuation hierarchy as of June 30, 2011 and 2010 and December 31, 2010 (dollars in thousands):

	Fair Value Measurements on a Nonrecurring Basis As of June 30, 2011			
	Fair Value	Level 1	Level 2	Level 3
Impaired loans carried at fair value	\$ 60,545	\$	\$ 60,545	\$
Other real estate owned	61,533			61,533
Covered loans	486,489			486,489
Covered other real estate owned	63,583			63,583
Total non-recurring assets at fair value	\$ 672,150	\$	\$ 60,545	\$ 611,605

	Fair Value Measurements on a Nonrecurring Basis As of December 31, 2010			
	Fair Value	Level 1	Level 2	Level 3
Impaired loans carried at fair value	\$ 79,289	\$	\$ 79,289	\$
Other real estate owned	57,915			57,915
Covered loans	554,991			554,991
Covered other real estate owned	54,931			54,931
Total nonrecurring assets at fair value	\$ 747,126	\$	\$ 79,289	\$ 667,837

	Fair Value Measurements on a Nonrecurring Basis As of June 30, 2010			
	Fair Value	Level 1	Level 2	Level 3
Impaired loans carried at fair value	\$ 82,071	\$	\$ 82,071	\$
Other real estate owned	41,079			41,079
Covered loans	192,545			192,545
Covered other real estate owned	25,845			25,845
Total nonrecurring assets at fair value	\$ 341,540	\$	\$ 82,071	\$ 259,469

Below is the Company's reconciliation of Level 3 assets as of June 30, 2011. Gains or losses on impaired loans are recorded in the provision for loan losses.

	Investment			
	Securities Available for Sale	Other Real Estate Owned	Covered Loans	Covered Other Real Estate
Beginning balance January 1, 2011	\$ 4,745	\$ 57,915	\$ 554,991	\$ 54,931
Total gains/(losses) included in net income		(3,649)		79
Purchases, sales, issuances, and settlements, net		(13,604)	(56,207)	(3,722)
Transfers in or out of Level 3	(2,745)	20,871	(12,295)	12,295
Ending balance June 30, 2011	\$ 2,000	\$ 61,533	\$ 486,489	\$ 63,583

Table of Contents**NOTE 2 INVESTMENT SECURITIES**

Ameris' investment policy blends the Company's liquidity needs and interest rate risk management with its desire to increase income and provide funds for expected growth in loans. The investment securities portfolio consists primarily of U.S. government sponsored mortgage-backed securities and agencies, state, county and municipal securities and corporate debt securities. Ameris' portfolio and investing philosophy concentrate activities in obligations where the credit risk is limited. For the small portion of Ameris' portfolio found to present credit risk, the Company has reviewed the investments and financial performance of the obligors and believes the credit risk to be acceptable.

The amortized cost and estimated fair value of investment securities available for sale at June 30, 2011, December 31, 2010 and June 30, 2010 are presented below:

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
(Dollars in Thousands)				
June 30, 2011:				
U. S. government agencies	\$ 24,056	\$ 203	\$	\$ 24,259
State, county and municipal securities	58,636	1,950	(40)	60,546
Corporate debt securities	11,637	242	(2,157)	9,722
Mortgage-backed securities	234,437	5,979	(567)	239,849
Total securities	\$ 328,766	\$ 8,374	\$ (2,764)	\$ 334,376
December 31, 2010:				
U. S. government agencies	\$ 35,128	\$ 448	\$ (108)	\$ 35,468
State, county and municipal securities	57,385	928	(617)	57,696
Corporate debt securities	13,540	123	(2,877)	10,786
Mortgage-backed securities	213,737	6,732	(1,838)	218,631
Total securities	\$ 319,790	\$ 8,231	\$ (5,440)	\$ 322,581
June 30, 2010:				
U. S. government agencies	\$ 19,329	\$ 585	\$	\$ 19,914
State, county and municipal securities	42,823	1,100	(13)	43,910
Corporate debt securities	12,635	92	(3,142)	9,585
Mortgage-backed securities	156,307	8,110	(62)	164,355
Total securities	\$ 231,094	\$ 9,887	\$ (3,217)	\$ 237,764

The amortized cost and fair value of available-for-sale securities at June 30, 2011 by contractual maturity are summarized in the table below. Expected maturities for mortgage-backed securities may differ from contractual maturities because in certain cases borrowers can prepay obligations without prepayment penalties. Therefore, these securities are not included in the following maturity summary:

	Amortized Cost	Fair Value
(Dollars in Thousands)		
Due in one year or less	\$ 13,491	\$ 13,543
Due from one year to five years	22,120	22,722
Due from five to ten years	35,564	37,000
Due after ten years	23,154	21,262

Edgar Filing: Ameris Bancorp - Form 10-Q

Mortgage-backed securities	234,437	239,849
	\$ 328,766	\$ 334,376

Securities with a carrying value of approximately \$200.2 million serve as collateral to secure public deposits and other purposes required or permitted by law at June 30, 2011.

Table of Contents

The following table details the gross unrealized losses and fair value of securities aggregated by category and duration of continuous unrealized loss position at June 30, 2011, December 31, 2010 and June 30, 2010.

Description of Securities	Less Than 12 Months		12 Months or More		Total

NOTE 3 LOANS

The Company engages in a full complement of lending activities, including real estate-related loans, agriculture-related loans, commercial and financial loans and consumer installment loans. Ameris concentrates the majority of its lending activities in real estate loans. While risk of loss in the Company's portfolio is primarily tied to the credit quality of the various borrowers, risk of loss may increase due to factors beyond Ameris control, such as local, regional and/or national economic downturns. General conditions in the real estate market may also impact the relative risk in the real estate portfolio.

Loans are stated at unpaid balances, net of unearned income and deferred loan fees. Balances within the major loans receivable categories are presented in the following table:

(Dollars in Thousands)	June 30, 2011	December 31, 2010	June 30, 2010
Commercial, financial and agricultural	\$ 150,377	\$ 142,312	\$ 171,060
Real estate construction and development	143,684	162,594	199,016
Real estate commercial and farmland	681,228	683,974	722,617
Real estate residential	336,485	344,830	359,370
Consumer installment	35,584	34,293	37,434

Edgar Filing: Ameris Bancorp - Form 10-Q

Other	12,705	6,754	3,629
	\$ 1,360,063	\$ 1,374,757	\$ 1,493,126

Covered loans are defined as loans that were acquired in FDIC-assisted transactions that are covered by a loss-sharing agreement with the FDIC. Covered loans totaling \$486.5 million, \$555.0 million and \$192.5 million at June 30, 2011, December 31, 2010 and June 30, 2010, respectively, are not included in the above schedule.

Table of Contents

Covered loans are shown below according to loan type as of the end of the periods shown:

(Dollars in Thousands)	\$486,489	\$486,489	\$486,489
	June 30, 2011	December 31, 2010	June 30, 2010
Commercial, financial and agricultural	\$ 42,494	\$ 47,309	\$ 18,771
Real estate construction and development	79,540	89,781	30,177
Real estate commercial and farmland	229,924	257,428	92,483
Real estate residential	129,721	149,226	43,995
Consumer installment	4,810	11,247	7,119
	\$ 486,489	\$ 554,991	\$ 192,545

Nonaccrual and Past Due Loans

A loan is placed on nonaccrual status when, in management's judgment, the collection of the interest income appears doubtful. Interest receivable that has been accrued and is subsequently determined to have doubtful collectability is charged to interest income. Interest on loans that are classified as non-accrual is recognized when received. Past due loans are loans whose principal or interest is past due 90 days or more. In some cases, where borrowers are experiencing financial difficulties, loans may be restructured to provide terms significantly different from the original contractual terms.

The following table presents an analysis of loans accounted for on a nonaccrual basis:

(Dollars in Thousands)	\$60,545	\$60,545	\$60,545
	June 30, 2011	December 31, 2010	June 30, 2010
Commercial, financial and agricultural	\$ 5,439	\$ 8,648	\$ 10,560
Real estate construction and development	13,714	7,887	9,280
Real estate commercial and farmland	24,205	55,170	63,871
Real estate residential	16,625	6,376	6,799
Consumer installment	562	1,208	1,826
	\$ 60,545	\$ 79,289	\$ 92,336

Table of Contents

The following table presents an analysis of past due loans as of June 30, 2011 and December 31, 2010:

There were no material amount of loans past due ninety days or more and still accruing interest at June 30, 2010.

Impaired Loans

Loans are considered impaired when, based on current information and events, it is probable the Company will be unable to collect all amounts due in accordance with the original contractual terms of the loan agreements. Impaired loans include loans on nonaccrual status and troubled debt restructurings. If a loan is deemed impaired, a specific valuation allowance is allocated, if necessary, so that the loan is reported net, at the present value of estimated future cash flows using the loan's existing rate or at the fair value of collateral if repayment is expected solely from the collateral. Interest payments on impaired loans are typically applied to principal unless collectability of the principal amount is reasonably assured, in which case interest is recognized on a cash basis.

Table of Contents

The following is a summary of information pertaining to impaired loans:

	As of and For the Period Ended		
	June 30, 2011	December 31, 2010	June 30, 2010

Credit Quality Indicators

The Company uses a nine category risk grading system to assign a risk grade to each loan in the portfolio. The following is a description of the general characteristics of the grades:

Grade 10 Prime Credit This grade represents loans to the Company's most creditworthy borrowers or loans that are secured by cash or cash equivalents.

Grade 15 Good Credit This grade includes loans that exhibit one or more characteristics better than that of a *Satisfactory Credit*. Generally, debt service coverage and borrower's liquidity is materially better than required by the Company's loan policy.

Grade 20 Satisfactory Credit This grade is assigned to loans to borrowers who exhibit satisfactory credit histories, contain acceptable loan structures and demonstrate ability to repay.

Table of Contents

Grade 25 Minimum Acceptable Credit This grade includes loans which exhibit all the characteristics of a *Satisfactory Credit*, but warrant more than normal level of banker supervision due to: (i) circumstances which elevate the risks of performance (such as start-up operations, untested management, heavy leverage, interim losses); (ii) adverse, extraordinary events that have affected, or could affect, the borrower's cash flow, financial condition, ability to continue operating profitability or refinancing (such as death of principal, fire, divorce); (iii) loans that require more than the normal servicing requirements (such as any type of construction financing, acquisition and development loans, accounts receivable or inventory loans and floor plan loans); (iv) existing technical exceptions which raise some doubts about the Bank's perfection in its collateral position or the continued financial capacity of the borrower; or (v) improvements in formerly criticized borrowers, which may warrant banker supervision.

Grade 28 Performing, Under-Collateralized Credit This grade is assigned to loans that are currently performing and supported by adequate financial information that reflects repayment capacity but exhibits a loan-to-value ratio greater than 110%, based on a documented collateral valuation.

Grade 30 Other Asset Especially Mentioned This grade includes loans that exhibit potential weaknesses that deserve management's close attention. If left uncorrected, these weaknesses may result in deterioration of the repayment prospects for the asset or in the Company's credit position at some future date.

Grade 40 Substandard This grade represents loans which are inadequately protected by the current sound worth and paying capacity of the borrower or of the collateral pledged, if any. These assets exhibit a well-defined weakness or are characterized by the distinct possibility that the Bank will sustain some loss if the deficiencies are not corrected. These weaknesses may be characterized by past due performance, operating losses or questionable collateral values.

Grade 50 Doubtful This grade includes loans which exhibit all of the characteristics of a substandard loan with the added provision that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions and values, highly questionable or improbable.

Grade 60 Loss This grade is assigned to loans which are considered uncollectible and of such little value that their continuance as active assets of the Bank is not warranted. This classification does not mean that the loss has absolutely no recovery or salvage value, but rather it is not practical or desirable to defer writing it off.

The following table presents the loan portfolio by risk grade as of June 30, 2011:

Risk Grade	Commercial, financial & agricultural	Real estate - construction & development	Real estate - commercial & farmland	Real estate - residential	Consumer installment loans	Other	Total
	(Dollars in Thousands)						
10	\$ 13,799	\$ 213	\$ 329	\$ 109	\$ 5,926	\$	\$ 20,376

60			1				1
Total	\$ 142,312	\$ 162,594	\$ 683,974	\$ 344,830	\$ 34,293	\$ 6,754	\$ 1,374,757

The allowance for loan losses represents a reserve for inherent losses in the loan portfolio. The adequacy of the allowance for loan losses is evaluated periodically based on a review of all significant loans, with a particular emphasis on non-accruing, past due and other loans that management believes might be potentially impaired or warrant additional attention. The Company segregates the loan portfolio by type of loan and utilizes this segregation in evaluating exposure to risks within the portfolio. In addition, based on internal reviews and external reviews performed by independent auditors and regulatory authorities, the Company further segregates the loan portfolio by loan grades based on an assessment of risk for a particular loan or group of loans. Certain reviewed loans are assigned specific allowances when a review of relevant data determines that a general allocation is not sufficient or when the review affords management the opportunity to fine tune the amount of exposure in a given credit. In establishing allowances, management considers historical loan loss experience but adjusts this data with a significant emphasis on data such as current loan quality trends, current economic conditions and other factors in the markets where the Company operates. Factors considered include, among others, current valuations of real estate in their markets, unemployment rates, the effect of weather conditions on agricultural related entities and other significant local economic events.

The Company has developed a methodology for determining the adequacy of the allowance for loan losses which is monitored by the Company's Senior Credit Officer. Procedures provide for the assignment of a risk rating for every loan included in the total loan portfolio, with the exception of credit card receivables and overdraft protection loans which are treated as pools for risk rating purposes. The risk rating schedule provides nine ratings of which five ratings are classified as pass ratings and four ratings are classified as criticized ratings. Each risk rating is assigned a percentage factor to be applied to the loan balance to determine the adequate amount of reserve. Many of the larger loans require an annual review by an independent loan officer or an independent third party loan review firm. As a result of these loan reviews, certain loans may be assigned specific reserve allocations. Other loans that surface as problem loans may also be assigned specific reserves. Past due loans are assigned risk ratings based on the number of days past due. The calculation of the allowance for loan losses, including underlying data and assumptions, is reviewed regularly by the Company's Chief Financial Officer and the Director of Internal Audit.

Activity in the allowance for loan losses for the six months ended June 30, 2011, for the year ended December 31, 2010 and for the six months ended June 30, 2010 is as follows:

(Dollars in Thousands)	June 30, 2011	December 31, 2010	June 30, 2010
Balance, January 1	\$ 34,576	\$ 35,762	\$ 35,762
Provision for loan losses charged to expense	14,554	48,839	29,378
Loans charged off	(15,626)	(52,623)	(32,002)
Recoveries of loans previously charged off	1,019	2,598	1,330
Ending balance	\$ 34,523	\$ 34,576	\$ 34,468

Edgar Filing: Ameris Bancorp - Form 10-Q

During the six months ended June 30, 2011 and the year ended December 31, 2010, the Company recorded provision for loan loss expense of \$1.6 million and \$1.7 million, respectively, to account for losses where the initial estimate of cash flows was found to be excessive on loans acquired in FDIC-assisted transactions. These amounts are excluded from the rollforwards above and below but are reflected in the Company's Consolidated Statements of Operations.

The following table details activity in the allowance for loan losses by portfolio segment for the six months ended June 30, 2011 and the year ended December 31, 2010. Allocation of a portion of the allowance to one category of loans does not preclude its availability to absorb losses in other categories.

Table of Contents**NOTE 4 ASSETS ACQUIRED IN FDIC-ASSISTED ACQUISITIONS**

From October 2009 through June 2011, the Company participated in six FDIC-assisted acquisitions whereby the Company purchased certain failed institutions out of the FDIC's receivership. These institutions include:

Bank Acquired	Location:	Branches:	Date Acquired
American United Bank (AUB)	Lawrenceville, Ga.	1	October 23, 2009
United Security Bank (USB)	Sparta, Ga.	2	November 6, 2009
Satilla Community Bank (SCB)	St. Marys, Ga.	1	May 14, 2010
First Bank of Jacksonville (FBJ)	Jacksonville, Fl.	2	October 22, 2010
Tifton Banking Company (TBC)	Tifton, Ga.	1	November 12, 2010
Darby Bank & Trust (DBT)	Vidalia, Ga.	7	November 12, 2010

The determination of the initial fair value of loans at the acquisition and the initial fair value of the related FDIC indemnification asset involves a high degree of judgment and complexity. The carrying values of the acquired loans and the FDIC indemnification asset reflect management's best estimate of the fair value of each of these assets as of the date of acquisition. However, the amount that the Company realizes on these assets could differ materially from the carrying values reflected in these financial statements, based upon the timing and amount of collections on the acquired loans in future periods. Because of the loss-sharing agreements with the FDIC on these assets, the Company does not expect to incur any significant losses. To the extent the actual values realized for the acquired loans are different from the estimates, the indemnification asset will generally be affected in an offsetting manner due to the loss-sharing support from the FDIC.

FASB ASC 310-30, *Loans and Debt Securities Acquired with Deteriorated Credit Quality* (ASC 310), applies to a loan with evidence of deterioration of credit quality since origination, acquired by completion of a transfer for which it is probable, at acquisition, that the investor will be unable to collect all contractually required payments receivable. ASC 310 prohibits carrying over or creating an allowance for loan losses upon initial recognition for loans which fall under the scope of this statement. At the acquisition dates, a majority of these loans were valued based on the liquidation value of the underlying collateral because the future cash flows are primarily based on the liquidation of underlying collateral. There was no allowance for credit losses established related to these ASC 310 loans at the acquisition dates, based on the provisions of this statement. Over the life of the acquired loans, the Company continues to estimate cash flows expected to be collected. If the expected cash flows expected to be collected increases, the Company adjusts the amount of accretable yield recognized on a prospective basis over the loan's remaining life. If the expected cash flows expected to be collected decreases, the Company records a provision for loan loss in its consolidated statement of operations. During the six months ended June 30, 2011 and the year ended December 31, 2010, the Company recorded provision for loan loss expense of \$1.9 million and \$1.7 million, respectively, to account for losses where the initial estimate of cash flows was found to be excessive on loans acquired in FDIC-assisted transactions.

On the acquisition date, the preliminary estimates of the contractually required payments receivable for all ASC 310 loans acquired in the acquisitions totaled \$505.1 million and the estimated fair values of the loans totaled \$273.1 million, net of an accretable yield of \$38.8 million, the difference between the value of the loans on the Company's balance sheet and the cash flows they are expected to produce. These amounts were determined based upon the estimated remaining life of the underlying loans, which includes the effects of estimated prepayments

Table of Contents

The following table summarizes components of all covered assets at June 30, 2011 and December 31, 2010 and their origin:

	SCB	FBJ	TBC	DBT	AUB	USB	Total
As of June 30, 2011:							
	(Dollars in thousands)						
Covered loans	\$ 61,958	\$ 45,011	\$ 99,529	\$ 326,991	\$ 48,309	\$ 67,203	\$ 649,001
Less adjustments related to credit risk	6,471	8,500	21,249	112,589	5,208	6,332	160,349
Less adjustments related to liquidity and yield	361	119	397	951	86	249	2,163

FDIC loss-share receivable	\$ 14,333	\$ 11,944	\$ 27,436	\$ 112,404	\$ 4,208	\$ 6,862	\$ 177,187

Table of Contents

On the dates of acquisition, the Company estimated the future cash flows on each individual loan and made the necessary adjustments to reflect the asset at fair value. At each quarter end subsequent to the acquisition dates, the Company revises the estimates of future cash flows based on current information and makes the necessary adjustments to continue reflecting the assets at fair value. The adjustments to fair value are performed on a loan-by-loan basis and have resulted in the following:

Total Amounts	June 30, 2011	December 31, 2010	June 30, 2010
	(Dollars in thousands)		
Adjustments needed where the Company's initial estimate of cash flows were underestimated: (recorded with a reclassification from non-accretable difference to accretable yield)	\$ 8,448	\$ 30,448	\$ 16,987
Adjustments needed where the Company's initial estimate of cash flows were overstated: (recorded through a provision for loan losses)	8,018	8,410	4,417
Amounts reflected in the Company's Statement of Operations	June 30, 2011	December 31, 2010	June 30, 2010
	(Dollars in thousands)		
Adjustments needed where the Company's initial estimate of cash flows were underestimated: (recorded with a reclassification from non-accretable difference to accretable yield)	\$ 1,689	\$ 4,245	\$ 2,353
Adjustments needed where the Company's initial estimate of cash flows were overstated: (recorded through a provision for loan losses)	1,604	1,682	883

A rollforward of acquired loans with deterioration of credit quality for the six months ended June 30, 2011, the year ended December 31, 2010 and the six months ended June 30, 2010 is shown below:

(Dollars in Thousands)	June 30, 2011	December 31, 2010	June 30, 2010
Balance, January 1	\$ 252,535	\$ 56,793	\$ 56,793
Change in estimate of cash flows, net of charge-offs or recoveries	(6,681)	(8,081)	(849)
Additions due to acquisitions		214,500	25,471
Other (loan payments, transfers, etc.)	(2,648)	(10,677)	(2,429)
Ending balance	\$ 243,206	\$ 252,535	\$ 78,986

The following is a summary of changes in the accretable yields of acquired loans during the six months ended June 30, 2011, the year ended December 31, 2010 and the six months ended June 30, 2010.

(Dollars in Thousands)	June 30, 2011	December 31, 2010	June 30, 2010
Balance, January 1	\$ 37,383	\$ 3,550	\$ 3,550
Additions due to acquisitions		35,245	1,508
Accretion	(10,073)	(7,502)	(2,353)
Other activity, net	(7,178)	6,090	3,398
Ending balance	\$ 20,132	\$ 37,383	\$ 6,103

Table of Contents

The shared-loss agreements are subject to the servicing procedures as specified in the agreement with the FDIC. The expected reimbursements under the shared-loss agreements were recorded as an indemnification asset at their estimated fair value of \$168.9 million and \$45.8 million on the 2010 and 2009 acquisition dates, respectively. Changes in the FDIC shared-loss receivable for the six months ended June 30, 2011, for the year ended December 31, 2010 and for the six months ended June 30, 2010 are as follows:

(Dollars in Thousands)	June 30, 2011	December 31, 2010	June 30, 2010
Balance, January 1	\$ 177,187	\$ 45,840	\$ 45,840
Indemnification asset recorded in acquisitions		168,918	22,400
Payments received from FDIC	(5,162)	(26,522)	
Effect of change in expected cash flows on covered assets	(11,098)	(11,049)	(9,061)
Ending balance	\$ 160,927	\$ 177,187	\$ 59,179

NOTE 5 WEIGHTED AVERAGE SHARES OUTSTANDING

Due to the net loss reported for the quarter and six month period ending June 30, 2010, the Company has excluded the effects of potential common shares as these would have been anti-dilutive. Earnings per share have been computed based on the following weighted average number of common shares outstanding:

	For the Three Months Ended June 30, 2011		For the Six Months Ended June 30, 2011	
	2011	2010	2011	2010
	(share data in thousands)		(share data in thousands)	
Basic shares outstanding	23,449	21,231	23,445	17,569
Plus: Dilutive effect of ISOs	34		34	
Plus: Dilutive effect of Restricted Grants	25		12	
Diluted shares outstanding	23,508	21,231	23,491	17,569

NOTE 6 OTHER BORROWINGS

The Company has, from time to time, utilized certain borrowing arrangements with various financial institutions to fund growth in earning assets or provide additional liquidity when appropriate spreads can be realized. At June 30, 2011 and 2010, there were no outstanding borrowings with the Company's correspondent banks, compared to \$43.5 million at December 31, 2010. The Company's success with attracting and retaining retail deposits has allowed for very low dependence on more volatile non-deposit funding.

Table of Contents**NOTE 7 COMMITMENTS**

The Company is a party to financial instruments with off-balance-sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit and standby letters of credit. These instruments involve, to varying degrees, elements of credit risk in excess of the amount recognized in the consolidated balance sheets.

The contract amounts of those instruments reflect the extent of involvement the Company has in particular classes of financial instruments. The Company uses the same credit policies in making commitments and conditional obligations as are used for on-balance-sheet instruments.

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements.

The Company issues standby letters of credit, which are conditional commitments issued to guarantee the performance of a customer to a third party. Those guarantees are primarily issued to support public and private borrowing arrangements and expire in decreasing amounts with varying terms. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers. The Company holds various assets as collateral supporting those commitments for which collateral is deemed necessary.

The Company evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Company upon extension of credit, is based on management's credit evaluation of the borrower. Collateral held may include accounts receivable, inventory, property, plant and equipment, residential real estate and income-producing commercial properties.

The Company's commitments to extend credit and standby letters of credit are presented in the following table:

(Dollars in Thousands)	June 30, 2011	December 31, 2010	June 30, 2010
Commitments to extend credit	\$ 124,528	\$ 166,845	\$ 143,437
Standby letters of credit	\$ 9,117	\$ 7,874	\$ 6,897

NOTE 8 SUBSEQUENT EVENT

Subsequent to June 30, 2011, the Company participated in two federally assisted acquisitions that will likely not have a material impact on the Company's operations and statement of condition. The acquisitions are described as follows:

High Trust Bank, Stockbridge, Georgia:

On July 15, 2011, the Bank purchased substantially all of the assets and assumed substantially all the liabilities of High Trust Bank (HTB) from the FDIC, as Receiver of HTB. HTB operated two branches in Stockbridge and Leary, Georgia. The Company's agreement with the FDIC included a loss-sharing agreement which affords the Bank significant protection from losses associated with loans and OREO. Under the terms of the loss-sharing agreements, the FDIC will absorb 80% of losses and share 80% of loss recoveries during the term of the agreements. The term for loss sharing on residential real estate loans is ten years, while the term for loss sharing on all other loans is five years.

The Company's bid to acquire HTB included a discount on the book value of the assets totaling \$33.5 million. The Bank's bid resulted in a cash payment from the FDIC totaling \$30.2 million. The Company's gain on the acquisition is estimated to be less than \$10.0 million, after tax.

One Georgia Bank, Atlanta, Georgia:

On July 15, 2011, the Bank purchased substantially all of the assets and assumed substantially all the liabilities of One Georgia Bank (OGB) from the FDIC, as Receiver of OGB. OGB operated one branch in Atlanta, Georgia. The Company's agreement with the FDIC included a loss-sharing agreement which affords the Bank significant protection from losses associated with loans and OREO. Under the terms of the loss-sharing agreements, the FDIC will absorb 80% of losses and share 80% of loss recoveries during the term of the agreements. The term for loss sharing on residential real estate loans is ten years, while the term for loss sharing on all other loans is five years.

Edgar Filing: Ameris Bancorp - Form 10-Q

The Company's bid to acquire OGB included a discount on the book value of the assets totaling \$22.5 million. The Bank's bid resulted in a cash payment to the FDIC totaling \$5.7 million. The Company's gain on the acquisition is estimated to be less than \$4.0 million, after tax.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Certain of the statements made in this report are forward-looking statements within the meaning of, and subject to the protections of, Section 27A of the Securities Act of 1933, as amended (the Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act). Forward-looking statements include statements with respect to our beliefs, plans, objectives, goals, expectations, anticipations, assumptions, estimates, intentions and future performance and involve known and unknown risks, uncertainties and other factors, many of which may be beyond our control and which may cause the actual results, performance or achievements of the Company to be materially different from future results, performance or achievements expressed or implied by such forward-looking statements.

All statements other than statements of historical fact are statements that could be forward-looking statements. You can identify these forward-looking statements through our use of words such as may, will, anticipate, assume, should, indicate, would, believe, continue, expect, estimate, continue, plan, point to, project, predict, could, intend, target, potential and other similar words and expressions. These forward-looking statements may not be realized due to a variety of factors, including, without limitation, legislative and regulatory initiatives; additional competition in Ameris markets; potential business strategies, including acquisitions or dispositions of assets or internal restructuring, that may be pursued by Ameris; state and federal banking regulations; changes in or application of environmental and other laws and regulations to which Ameris is subject; political, legal and economic conditions and developments; financial market conditions and the results of financing efforts; changes in commodity prices and interest rates; weather, natural disasters and other catastrophic events; and other factors discussed in Ameris filings with the SEC under the Exchange Act.

All written or oral forward-looking statements that are made by or are attributable to us are expressly qualified in their entirety by this cautionary notice. Our forward-looking statements apply only as of the date of this report or the respective date of the document from which they are incorporated herein by reference. We have no obligation and do not undertake to update, revise or correct any of the forward-looking statements after the date of this report, or after the respective dates on which such statements otherwise are made, whether as a result of new information, future events or otherwise.

The following table sets forth unaudited selected financial data for the previous five quarters. This data should be read in conjunction with the consolidated financial statements and the notes thereto and the information contained in this Item 2.

Table of Contents

Overview

The following is management's discussion and analysis of certain significant factors which have affected the financial condition and results of operations of the Company as reflected in the unaudited consolidated balance sheet as of June 30, 2011 as compared to December 31, 2010 and operating results for the three- and six-month periods ended June 30, 2011 and 2010. These comments should be read in conjunction with the Company's unaudited consolidated financial statements and accompanying notes appearing elsewhere herein.

Results of Operations for the Three Months Ended June 30, 2011

Consolidated Earnings and Profitability

Ameris reported net income available to common shareholders of \$1.3 million, or \$0.06 per diluted share, for the quarter ended June 30, 2011, compared to a net loss for the same quarter in 2010 of \$4.2 million, or \$0.20 per diluted share. The Company's return on average assets and average shareholders' equity increased in the second quarter of 2011 to 0.18% and 2.31%, respectively, compared to (0.69%) and (6.34%) in the second quarter of 2010. The increase in earnings and profitability during the quarter was primarily due to increased net interest income and reduced credit costs.

Net Interest Income and Margins

On a tax equivalent basis, net interest income for the second quarter of 2011 was \$29.0 million, an increase of \$4.4 million compared to \$24.6 reported in the same quarter in 2010. This increase includes \$3.8 million of accretion on covered loans during the second quarter from improvements in the expected cash flows from recent FDIC acquisitions. The Company's net interest margin has also been positively affected by flat yields on all other classes of earning assets complemented by steady decreases in the Company's cost of funds. The Company's net interest margin increased as well in the current quarter, to 4.79% compared to 4.43% in the second quarter of 2010. Increases in earning assets over the past year have been in covered loans with favorable yields compared to the Company's low cost of funds.

During the second quarter of 2011, interest income, on a tax equivalent basis, totaled \$36.1 million compared to \$31.8 million in the same quarter of 2010. Yields on earning assets increased to 5.98% in the second quarter of 2011 compared to 5.74% reported in the second quarter of 2010, due to the additional accretion on covered loans. During the second quarter of 2011, short-term assets averaged 11.2% of total earning assets compared to 12.9% in the same quarter in 2010. Current opportunities to invest a portion of the short-term assets in the bond market have been limited by the Company's inability to maintain certain portfolio characteristics with current yields and structures being offered. Efforts to increase lending activities have been slow to generate increases in outstanding loans due to the current economic conditions in the Company's markets. Management anticipates continued participation in FDIC-assisted acquisitions as well as improving economic conditions and increased loan demand which will provide opportunities to invest a portion of the short-term assets at higher yields.

Total funding costs declined to 1.10% in the second quarter of 2011 compared to 1.34% during the second quarter of 2010. Deposit costs decreased from 1.35% in the second quarter of 2010 and 1.17% in the first quarter of 2011 to 1.08% in the second quarter of 2011. Ongoing efforts to maintain the percentage of funding from transaction deposits have succeeded such that non-CD deposits averaged 60.1% of total deposits in the second quarter of 2011 compared to 58.1% during the second quarter of 2010. Local customer deposits in the second quarter of 2011 comprised 93.5% of total funding compared to 90.8% of total funding in the same quarter in 2010. Lower costs on deposits were due mostly to the lower rate environment and the Company's ability to be less competitive on higher priced CDs due to its larger than normal position in short-term assets. Further opportunity to realize savings on deposits exists but may be limited due to current costs. Average balances of interest bearing deposits and their respective costs for the second quarter of 2011 and 2010 are shown below:

(Dollars in Thousands)	June 30, 2011		June 30, 2010

Table of Contents
Provision for Loan Losses and Credit Quality

The Company's provision for loan losses during the second quarter of 2011 amounted to \$9.1 million compared to \$7.0 million in the first quarter of 2011 and \$18.6 million in the second quarter of 2010. Although the Company has experienced improving trends in criticized and classified assets for several quarters, higher levels of provision for loan losses have been required to account for continued devaluation of real estate collateral. At June 30, 2011, classified loans still accruing totaled \$40.0 million compared to \$32.7 million at June 30, 2010. Non-accrual loans at June 30, 2011 totaled \$60.5 million, an 11.5% decrease from the \$68.4 million reported at March 31, 2011 and a 34.4% decrease from the \$92.3 million reported at June 30, 2010.

At June 30, 2011, other real estate owned (excluding covered OREO) totaled \$61.5 million, compared to \$62.3 million at March 31, 2011 and \$41.1 million at June 30, 2010. Management regularly assesses the valuation of OREO through periodic reappraisal and through inquiries received in the marketing process. The Company has found that with a marketing window of 3-6 months, the liquidation of properties vary from 85% to 100% of current book value. Certain properties, mostly raw land and subdivision lots, have extended marketing periods because of excessive inventory and record low home building activity. At the end of the second quarter of 2011, total non-performing assets decreased to 4.27% of total assets compared to 5.51% at June 30, 2010. Management continues to aggressively identify and resolve problem assets while seeking quality credits to grow the loan portfolio.

Net charge-offs on loans during the second quarter of 2011 were \$8.4 million or 2.50% of loans on an annualized basis, compared to \$17.7 million or 4.2% of loans in the second quarter of 2010. The Company's allowance for loan losses at June 30, 2011 was \$34.5 million, or 2.54% of total loans, compared to \$34.5 million, or 2.31% of total loans, at June 30, 2010.

Non-interest Income

Total non-interest income for the second quarter of 2011 was \$6.0 million, compared to \$13.0 million in the second quarter of 2010. During the second quarter of 2010, the Company reported a gain of \$8.2 million on an FDIC-assisted transaction. Excluding this gain, total non-interest income increased by \$1.1 million, or 23.4%, in the second quarter of 2011, when compared to the same period in 2010. Service charges on deposit accounts in the second quarter of 2011 were \$4.7 million, compared to \$3.6 million in the second quarter of 2010. Increases in service charges related to the acquired deposits in FDIC-assisted transactions, along with increased retention of fees related to insufficient funds were the primary reason for the increase over prior period levels.

Non-interest Expense

Total non-interest expenses for the second quarter of 2011 decreased to \$22.6 million, compared to \$23.4 million in the same quarter in 2010. Salaries and benefits increased \$1.4 million when compared to the second quarter of 2010; however, this increase is in proportion to the Company's asset growth. Occupancy and equipment expenses for the second quarter of 2011 amounted to \$2.8 million, representing an increase of \$727,000 from the same quarter in 2010. Data processing and telecommunications expenses increased \$375,000 to \$2.5 million for the second quarter of 2011 from \$2.1 million for the same period in 2010. Both of these increases are directly correlated to the increase in the number of branch locations from the second quarter of 2010 to the second quarter of 2011. Credit related expenses, including problem loan and OREO expense and OREO write-downs and losses, decreased to \$3.9 million in the second quarter of 2011 compared to \$6.2 million in the second quarter of 2010.

Income Taxes

Income tax expense is influenced by the amount of taxable income, the amount of tax-exempt income and the amount of non-deductible expenses. For the second quarter of 2011, the Company reported an income tax expense of \$896,000. This compares to an income tax benefit of \$1.7 million in the same period of 2010. The Company's effective tax rate for the three months ending June 30, 2011 and 2010 was 29.8% and 32.7%, respectively.

Results of Operations for the Six Months Ended June 30, 2011***Interest Income***

Interest income for the six months ended June 30, 2011 was \$68.5 million on a tax equivalent basis, an increase of \$8.5 million when compared to \$60.0 million for the same period in 2010. Average earning assets for the six-month period increased \$261.9 million to \$2.44 billion as of June 30, 2011 compared to \$2.18 billion as of June 30, 2010. Yield on average earning assets improved slightly to 5.66% in the first six months of 2011 compared to 5.56% in the first six months of 2010. Earning assets acquired in connection with the Company's FDIC-assisted acquisitions

Edgar Filing: Ameris Bancorp - Form 10-Q

have allowed the Company to maintain rather level amounts of earning assets while interest rate floors on individual customer loans have allowed the Company to keep the yield on loans from falling precipitously in the current rate environment. Additionally, yields on the acquired assets have been much stronger than the Company's other earning assets, helping boost the Company's overall yield on earning assets.

Table of Contents***Interest Expense***

Total interest expense for the six months ended June 30, 2011 amounted to \$15.1 million, reflecting a slight increase of \$289,000 from the same period of 2010. During the six-month period ended June 30, 2011, the Company's funding costs declined to 1.16% from 1.37% reported in the previous year. The majority of the decline in interest expense and costs relates to improvements in the cost of the Company's retail time deposits which fell to 1.60% in the six-month period ending June 30, 2011 compared to 1.87% in the same period in 2010. In addition to lower costs on deposits, the Company's mix of deposits has improved over the past year. At the end of the second quarter of 2011, the Company had \$1.53 billion in non-CD deposits compared to \$1.23 billion at the same time in 2010. Non-interest bearing deposits increased 45.8% from \$218.0 million and 10.4% of total deposits at June 30, 2010 to \$318.0 million and 12.7% of total deposits at June 30, 2011.

Net Interest Income

Higher levels of earning assets with generally level yields have combined with reduced funding costs to have resulted in material improvements in net interest income. For the year-to-date period ending June 30, 2011, the Company reported \$53.4 million of net interest income on a tax equivalent basis, compared to \$45.2 million of net interest income for the same period in 2010. The Company's net interest margin increased to 4.41% in the six month period ending June 30, 2011 compared to 4.19% in the same period in 2010.

Provision for Loan Losses

The provision for loan losses decreased to \$16.2 million for the six months ended June 30, 2011 compared to \$29.4 million in the same period in 2010. Non-performing assets totaled \$122.1 million at June 30, 2011, compared to \$133.4 million at June 30, 2010. For the six-month period ended June 30, 2011, Ameris had net charge-offs totaling \$14.6 million compared to \$30.7 million for the same period in 2010. Annualized net charge-offs as a percentage of loans improved from 3.64% during the first six month of 2010 to 2.17% during the first six months of 2011.

Non-interest Income

Non-interest income for the first six months of 2011 was \$12.2 million compared to \$17.9 million in the same period in 2010. Excluding non-recurring gains on investment securities and an FDIC-assisted acquisition, the Company's non-interest income totaled \$11.9 million, an increase of 25.2% compared to the same period in 2010. Service charges on deposit accounts increased approximately \$1.9 million to \$8.9 million in the first six months of 2011 compared to the same period in 2010. The increases in service charges are related to higher numbers of deposit accounts subject to fees and charges as well as incremental revenue from the deposit accounts acquired in the Company's FDIC-assisted acquisitions. Income from mortgage banking activity declined from \$1.2 million in the first six months of 2010 to \$826,000 in the first half of 2011. The accretion of the discount of the FDIC indemnification asset also attributed to the increase of non-interest income during the first six months of 2011 compared to the same period in 2010.

Non-interest Expense

Total operating expenses for the first six months of 2011 increased to \$43.8 million compared to \$40.3 million in the same period in 2010. Salaries and benefits increased \$3.4 million when compared to the first half of 2010; however, this increase is in proportion to the Company's asset growth. Occupancy and equipment expenses for the first six months of 2011 amounted to \$5.5 million, representing an increase of \$1.4 million from the same period in 2010. Data processing and telecommunications expenses increased \$1.0 million to \$4.8 million for the first six months of 2011 from \$3.8 million for the same period in 2010. Both of these increases are directly correlated to the increase in the number of branch locations from June 30, 2010 to the June 30, 2011. Credit related expenses, including problem loan and OREO expense and OREO write-downs and losses, decreased to \$5.7 million in the first six months of 2011 compared to \$8.2 million in the first half of 2010.

Income Taxes

In the first six months of 2011, the Company recorded an income tax expense totaling approximately \$1.7 million, representing an effective tax rate of 33.0%. This compares to a benefit of \$2.5 million in the first six months of 2010 representing an effective rate of 33.8%.

Table of Contents**Financial Condition as of June 30, 2011****Securities**

Debt securities with readily determinable fair values are classified as available for sale and recorded at fair value with unrealized gains and losses excluded from earnings and reported in accumulated other comprehensive income, net of the related deferred tax effect. Equity securities, including restricted equity securities, are classified as other investments and are recorded at cost.

The amortization of premiums and accretion of discounts are recognized in interest income using methods approximating the interest method over the life of the securities. Realized gains and losses, determined on the basis of the cost of specific securities sold, are included in earnings on the settlement date. Declines in the fair value of securities below their cost that are deemed to be other-than-temporary are reflected in earnings as realized losses.

In determining whether other-than-temporary impairment losses exist, management considers: (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer and (3) the intent and ability of the Company to retain its investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value.

Management evaluates securities for other-than-temporary impairment at least on a quarterly basis, and more frequently when economic or market concerns warrant such evaluation. Substantially all of the unrealized losses on debt securities are related to changes in interest rates and do not affect the expected cash flows of the issuer or underlying collateral. All unrealized losses are considered temporary because each security carries an acceptable investment grade and the Company has the intent and ability to hold to maturity. Therefore, at June 30, 2011, these investments are not considered impaired on an other-than temporary basis.

The following table illustrates certain information regarding the Company's investment portfolio with respect to yields, sensitivities and expected cash flows over the next twelve months assuming constant prepayments and maturities:

	Book Value	Fair Value	Yield	Modified Duration	Estimated Cash Flows 12 months
	Dollars in Thousands

Loans and Allowance for Loan Losses

At June 30, 2011, gross loans outstanding (including covered loans) were \$1.85 billion, an increase from \$1.69 billion reported at June 30, 2010. When compared to December 31, 2010, gross loans declined approximately \$83.2 million, or 4.3%. The Company's participation in FDIC-assisted acquisitions was integral to being able to maintain a certain level of loans because management does not believe that enough loan opportunities with acceptable quality and profitability existed in our current market areas to cause loan footings to stabilize and increase. Decreases in legacy loans over the past year reflect this trend, with legacy loans declining 8.9% from \$1.49 billion at June 30, 2010 to \$1.36

billion at June 30, 2011.

Table of Contents

The decline in loans also reflects management's focus on reducing higher risk loans within the Bank's loan portfolio as well as the slower economic environment that persisted throughout 2009 and 2010. The Company regularly monitors the composition of the loan portfolio to evaluate the adequacy of the allowance for loan losses in light of the impact that changes in the economic environment may have on the loan portfolio.

The Company focuses on the following loan categories: (1) commercial, financial and agricultural; (2) residential real estate; (3) commercial and farmland real estate; (4) construction and development related real estate; and (5) consumer. The Company's management has strategically located its branches in select markets in south and southeast Georgia, north Florida, southeast Alabama and throughout South Carolina to take advantage of the growth in these areas.

The Company's risk management processes include a loan review program designed to evaluate the credit risk in the loan portfolio and ensure credit grade accuracy. Through the loan review process, the Company conducts: (1) a loan portfolio summary analysis; (2) charge-off and recovery analysis; (3) trends in accruing problem loan analysis; and (4) problem and past due loan analysis. This analysis process serves as a tool to assist management in assessing the overall quality of the loan portfolio and the adequacy of the allowance for loan losses. Loans classified as "substandard" are loans which are inadequately protected by the current sound worth and paying capacity of the borrower or of the collateral pledged. These assets exhibit a well-defined weakness or are characterized by the distinct possibility that the Company will sustain some loss if the deficiencies are not corrected. These weaknesses may be characterized by past due performance, operating losses and/or questionable collateral values. Loans classified as "doubtful" are those loans that have characteristics similar to substandard loans but have an increased risk of loss. Loans classified as "loss" are those loans which are considered uncollectible and are in the process of being charged-off.

The allowance for loan losses is a reserve established through charges to earnings in the form of a provision for loan losses. The provision for loan losses is based on management's evaluation of the size and composition of the loan portfolio, the level of non-performing and past due loans, historical trends of charged-off loans and recoveries, prevailing economic conditions and other factors management deems appropriate. The Company's management has established an allowance for loan losses which it believes is adequate for the risk of loss inherent in the loan portfolio. Based on a credit evaluation of the loan portfolio, management presents a monthly review of the allowance for loan losses to the Company's Board of Directors. The review that management has developed primarily focuses on risk by evaluating individual loans in certain risk categories. These categories have also been established by management and take the form of loan grades. By grading the loan portfolio in this manner the Company's management is able to effectively evaluate the portfolio by risk, which management believes is the most effective way to analyze the loan portfolio and thus analyze the adequacy of the allowance for loan losses.

The allowance for loan losses is established by examining: (1) the large classified loans, nonaccrual loans and loans considered impaired and evaluating them individually to determine the specific reserve allocation; and (2) the remainder of the loan portfolio to allocate a portion of the allowance based on past loss experience and the economic conditions for the particular loan category. The Company also considers other factors such as changes in lending policies and procedures; changes in national, regional, and/or local economic and business conditions; changes in the nature and volume of the loan portfolio; changes in the experience, ability and depth of either the bank president or lending staff; changes in the volume and severity of past due and classified loans; changes in the quality of the Company's corporate loan review system; and other factors management deems appropriate.

For the six month period ended June 30, 2011, the Company recorded net charge-offs totaling \$14.6 million compared to \$30.7 million for the period ended June 30, 2010. The provision for loan losses for the six months ended June 30, 2011 decreased to \$16.2 million compared to \$29.4 million during the six-month period ended June 30, 2010. At the end of the second quarter of 2011, the allowance for loan losses totaled \$34.5 million, or 2.54% of total legacy loans, compared to \$34.6 million, or 2.52% of total legacy loans, at December 31, 2010 and \$34.5 million, or 2.31% of total legacy loans, at June 30, 2010.

Table of Contents

The following table presents an analysis of the allowance for loan losses for the six months ended June 30, 2011 and 2010:

(Dollars in Thousands)	June 30, 2011	June 30, 2010
Balance of allowance for loan losses at beginning of period	\$ 34,576	\$ 35,762
Provision charged to operating expense	14,554	29,378
Charge-offs:		
Commercial, financial and agricultural	3,241	2,711
Real estate residential	1,944	5,663
Real estate commercial and farmland	4,889	9,616
Real estate construction and development	5,247	13,778
Consumer installment	305	234
Other		
Total charge-offs	15,626	32,002
Recoveries:		
Commercial, financial and agricultural	68	508
Real estate residential	59	112
Real estate commercial and farmland	6	266
Real estate construction and development	829	204
Consumer installment	57	240
Other		
Total recoveries	1,019	1,330
Net charge-offs	14,607	30,672
Balance of allowance for loan losses at end of period	\$ 34,523	\$ 34,468
Net annualized charge-offs as a percentage of average loans	2.17%	3.64%
Allowance for loan losses as a percentage of loans at end of period	2.54%	2.31%

Assets Covered by Loss-Sharing Agreements with the FDIC

Loans that were acquired in FDIC-assisted transactions that are covered by the loss-sharing agreements with the FDIC (covered loans) totaled \$486.5 million, \$555.0 million and \$192.5 million at June 30, 2011, December 31, 2010 and June 30, 2010, respectively. OREO that is covered by the loss-sharing agreements with the FDIC totaled \$63.6 million, \$54.9 million and \$25.8 million at June 30, 2011, December 31, 2010 and June 30, 2010, respectively. The loss-sharing agreements are subject to the servicing procedures as specified in the agreements with the FDIC. The expected reimbursements under the loss-sharing agreements were recorded as an indemnification asset at their estimated fair value of \$168.9 million and \$45.8 million on the 2010 and 2009 acquisition dates, respectively. The FDIC loss-share receivable reported at June 30, 2011, December 31, 2010 and June 30, 2010 was \$160.9 million, \$177.2 million and \$59.2 million, respectively.

The Bank recorded the loans at their fair values, taking into consideration certain credit quality, risk and liquidity marks. The Company is confident in its estimation of credit risk and its adjustments to the carrying balances of the acquired loans. If the Company determines that a loan or group of loans has deteriorated from its initial assessment of fair value, a reserve for loan losses will be established to account for that difference. During the six months ended June 30, 2011 and the year ended December 31, 2010, the Company recorded provision for loan loss expense of \$1.6 million and \$1.7 million, respectively, to account for losses where the initial estimate of cash flows was found to be excessive on loans acquired in FDIC-assisted transactions. If the Company determines that a loan or group of loans has improved from its initial assessment of fair value, the increase in cash flows over those expected at the acquisition date are recognized as interest income prospectively.

Table of Contents

Covered loans are shown below according to loan type as of the end of the periods shown:

(Dollars in Thousands)	June 30, 2011	December 31, 2010	June 30, 2010
Commercial, financial and agricultural	\$ 42,494	\$ 47,309	\$ 18,771
Real estate construction and development	79,540	89,781	30,177
Real estate commercial and farmland	229,924	257,428	92,483
Real estate residential	129,721	149,226	43,995
Consumer installment	4,810	11,247	7,119
	\$ 486,489	\$ 554,991	\$ 192,545

Non-Performing Assets

Non-performing assets include nonaccrual loans, accruing loans contractually past due 90 days or more, repossessed personal property and other real estate owned. Loans are placed on nonaccrual status when management has concerns relating to the ability to collect the principal and interest and generally when such loans are 90 days or more past due. Management performs a detailed review and valuation assessment of impaired loans on a quarterly basis and recognizes losses when permanent impairment is identified. A loan is considered impaired when it is probable that not all principal and interest amounts will be collected according to the loan contract. When a loan is placed on nonaccrual status, any interest previously accrued but not collected is reversed against current income.

As of June 30, 2011, nonaccrual or impaired loans totaled \$60.5 million, a decrease of approximately \$18.7 million since December 31, 2010. The decrease in nonaccrual loans is due to success in the foreclosure and resolution process as well as a significant slowdown in the formation of new problem credits. Non-performing assets as a percentage of total assets were 4.27%, 4.62% and 5.51% at June 30, 2011, December 31, 2010 and June 30, 2010, respectively.

Non-performing assets at June 30, 2011, December 31, 2010 and June 30, 2010 were as follows:

(Dollars in Thousands)	June 30, 2011	December 31, 2010	June 30, 2010
Total nonaccrual loans	\$ 60,545	\$ 79,289	\$ 92,336
Other real estate owned and repossessed collateral	61,533	57,915	41,079
Total non-performing assets	\$ 122,078	\$ 137,204	\$ 133,415

Table of Contents

Commercial Lending Practices

On December 12, 2006, the Federal Bank Regulatory Agencies released guidance on *Concentration in Commercial Real Estate Lending*. This guidance defines commercial real estate (CRE) loans as loans secured by raw land, land development and construction (including 1-4 family residential construction), multi-family property and non-farm nonresidential property where the primary or a significant source of repayment is derived from rental income associated with the property, excluding owner occupied properties (loans for which 50% or more of the source of repayment is derived from the ongoing operations and activities conducted by the party, or affiliate of the party, who owns the property) or the proceeds of the sale, refinancing or permanent financing of the property. Loans for owner occupied CRE are generally excluded from the CRE guidance.

The CRE guidance is applicable when either:

- (1) total loans for construction, land development, and other land, net of owner occupied loans, represent 100% or more of a bank's total risk-based capital; or
- (2) total loans secured by multifamily and nonfarm nonresidential properties and loans for construction, land development, and other land, net of owner occupied loans, represent 300% or more of a bank's total risk-based capital.

Banks that are subject to the CRE guidance's criteria are required to implement enhanced strategic planning, CRE underwriting policies, risk management and internal controls, portfolio stress testing, risk exposure limits, and other policies, including management compensation and incentives, to address the CRE risks. Higher allowances for loan losses and capital levels may also be appropriate.

As of June 30, 2011, the Company exhibited a concentration in CRE loan category based on Federal Reserve Call codes. The primary risks of CRE lending are:

- (1) within CRE loans, construction and development loans are somewhat dependent upon continued strength in demand for residential real estate, which is reliant on favorable real estate mortgage rates and changing population demographics;
- (2) on average, CRE loan sizes are generally larger than non-CRE loan types; and
- (3) certain construction and development loans may be less predictable and more difficult to evaluate and monitor.

The following table outlines CRE loan categories and CRE loans as a percentage of total loans as of June 30, 2011 and December 31, 2010. The loan categories and concentrations below are based on Federal Reserve Call codes and include covered loans.

(Dollars in Thousands)	June 30, 2011		December 31, 2010	
	Balance	% of Total Loans	Balance	% of Total Loans
Construction and development loans	\$ 223,225	12%	\$ 250,211	13%
Multi-family loans	56,245	3%	55,121	3%
Nonfarm non-residential loans	725,415	39%	760,598	39%
Total CRE Loans	\$ 1,004,885	54%	\$ 1,065,930	55%
All other loan types	841,667	46%	863,818	45%

Edgar Filing: Ameris Bancorp - Form 10-Q

Total Loans	\$ 1,846,552	100%	\$ 1,929,748	100%
--------------------	--------------	------	--------------	------

The following table outlines the percent of total CRE loans, net owner occupied loans to total risk-based capital, and the Company's internal concentration limits as of June 30, 2011 and December 31, 2010:

	Internal Limit	June 30, 2011 Actual	December 31, 2010 Actual
Construction and development	100%	69%	79%
Commercial real estate	300%	243%	257%

Short-Term Investments

The Company's short-term investments are comprised of federal funds sold and interest bearing balances. At June 30, 2011, the Company's short-term investments were \$218.3 million, compared to \$261.3 million and \$240.1 million at December 31, 2010 and June 30, 2010, respectively. At June 30, 2011, approximately 45.5% of the balance was comprised of interest bearing balances at the FHLB.

Table of Contents**Derivative Instruments and Hedging Activities**

The Company had cash flow hedges with notional amounts totaling \$35.0 million at June 30, 2011, December 31, 2010 and June 30, 2010, for the purpose of converting floating rate loans to fixed rate. The Company had a cash flow hedge with notional amount of \$37.1 million at June 30, 2011 and December 31, 2010 for the purpose of converting the variable rate on the junior subordinated debentures to fixed rate. The fair value of these instruments amounted to approximately \$243,000, \$936,000 and \$1.5 million as of June 30, 2011, December 31, 2010 and June 30, 2010, respectively, and was recorded as an asset. No hedge ineffectiveness from cash flow hedges was recognized in the statement of operations. All components of each derivative's gain or loss are included in the assessment of hedge effectiveness.

Capital

Capital management consists of providing equity to support both current and anticipated future operations. The Company is subject to capital adequacy requirements imposed by the Federal Reserve Board (the "FRB") and the Georgia Department of Banking and Finance (the "GDBF"), and the Bank is subject to capital adequacy requirements imposed by the FDIC and the GDBF.

The FRB, the FDIC and the GDBF have adopted risk-based capital requirements for assessing bank holding company and bank capital adequacy. These standards define and establish minimum capital requirements in relation to assets and off-balance sheet exposure, adjusted for credit risk. The risk-based capital standards currently in effect are designed to make regulatory capital requirements more sensitive to differences in risk profiles among bank holding companies and banks and to account for off-balance sheet exposure. The regulatory capital standards are defined by the following three key measurements:

- a) The **Leverage Ratio** is defined as Tier 1 capital to average assets. To be considered adequately capitalized under this measurement, a bank must maintain a leverage ratio greater than or equal to 4.00%. For a bank to be considered well capitalized a bank must maintain a leverage ratio greater than or equal to 5.00%.
- b) The **Core Capital Ratio** is defined as Tier 1 capital to total risk weighted assets. To be considered adequately capitalized under this measurement, a bank must maintain a core capital ratio greater than or equal to 4.00%. For a bank to be considered well capitalized a bank must maintain a core capital ratio greater than or equal to 6.00%.
- c) The **Total Capital Ratio** is defined as total capital to total risk weighted assets. To be considered adequately capitalized under this measurement, a bank must maintain a total capital ratio greater than or equal to 8.00%. For a bank to be considered well capitalized a bank must maintain a total capital ratio greater than or equal to 10.00%.

As of June 30, 2011, under the regulatory capital standards, the Bank was considered well capitalized under all capital measurements. The following table sets forth the regulatory capital ratios of Ameris at June 30, 2011, December 31, 2010 and June 30, 2010.

	June 30, 2011	December 31, 2010	June 30, 2010
Leverage Ratio (tier 1 capital to average assets)			
Consolidated	10.68%	11.34%	12.65%
Ameris Bank	10.39	11.05	12.19
Core Capital Ratio (tier 1 capital to risk weighted assets)			
Consolidated	18.64	18.19	18.68
Ameris Bank	18.19	17.62	18.08
Total Capital Ratio (total capital to risk weighted assets)			
Consolidated	19.90	19.45	19.94
Ameris Bank	19.45	18.88	19.34

Table of Contents

Capital Purchase Program

On November 21, 2008, the Company, elected to participate in the Capital Purchase Program (CPP) established under the Emergency Economic Stabilization Act of 2008 (EESA). Accordingly, on such date, the Company issued and sold to the United States Treasury (Treasury), for an aggregate cash purchase price of \$52 million, (i) 52,000 shares (the Preferred Shares) of the Company's fixed rate Cumulative Perpetual Preferred Stock, Series A, having a liquidation preference of \$1,000 per share, and (ii) a ten-year warrant (the Warrant) to purchase up to 679,443 shares of the Common Stock at an exercise price of \$11.48 per share. The issuance and sale of these securities was a private placement exempt from registration pursuant to Section 4(2) of the Securities Act.

Cumulative dividends on the Preferred Shares will accrue on the liquidation preference at a rate of 5% per annum for the first five years and at a rate of 9% per annum thereafter, but such dividends will be paid only if, as and when declared by the Company's Board of Directors. The Preferred Shares have no maturity date and rank senior to the Common Stock (and pari passu with the Company's other authorized preferred stock, of which no shares are currently designated or outstanding) with respect to the payment of dividends and distributions and amounts payable upon liquidation, dissolution and winding up of the Company. Subject to the approval of the Board of Governors of the Federal Reserve System, the Preferred Shares are redeemable at the option of the Company at 100% of their liquidation preference.

The Purchase Agreement pursuant to which the Preferred Shares and the Warrant were sold contains limitations on the payment of dividends on the Common Stock (including with respect to the payment of cash dividends in excess of \$0.05 per share, which was the amount of the last regular dividend declared by the Company prior to October 14, 2008) and on the Company's ability to repurchase its Common Stock, and subjects the Company to certain of the executive compensation limitations included in the EESA.

Interest Rate Sensitivity and Liquidity

The Company's primary market risk exposures are credit risk, interest rate risk, and to a lesser degree, liquidity risk. The Bank operates under an Asset Liability Management Policy approved by the Company's Board of Directors and the Asset and Liability Committee (the ALCO Committee). The policy outlines limits on interest rate risk in terms of changes in net interest income and changes in the net market values of assets and liabilities over certain changes in interest rate environments. These measurements are made through a simulation model which projects the impact of changes in interest rates on the Bank's assets and liabilities. The policy also outlines responsibility for monitoring interest rate risk, and the process for the approval, implementation and monitoring of interest rate risk strategies to achieve the Bank's interest rate risk objectives.

The ALCO Committee is comprised of senior officers of Ameris and two outside members of the Company's Board of Directors. The ALCO Committee makes all strategic decisions with respect to the sources and uses of funds that may affect net interest income, including net interest spread and net interest margin. The objective of the ALCO Committee is to identify the interest rate, liquidity and market value risks of the Company's balance sheet and use reasonable methods approved by the Company's Board of Directors and executive management to minimize those identified risks.

The normal course of business activity exposes the Company to interest rate risk. Interest rate risk is managed within an overall asset and liability framework for the Company. The principal objectives of asset and liability management are to predict the sensitivity of net interest spreads to potential changes in interest rates, control risk and enhance profitability. Funding positions are kept within predetermined limits designed to properly manage risk and liquidity. The Company employs sensitivity analysis in the form of a net interest income simulation to help characterize the market risk arising from changes in interest rates. In addition, fluctuations in interest rates usually result in changes in the fair market value of the Company's financial instruments, cash flows and net interest income. The Company's interest rate risk position is managed by the ALCO Committee.

The Company uses a simulation modeling process to measure interest rate risk and evaluate potential strategies. Interest rate scenario models are prepared using software created and licensed from an outside vendor. The Company's simulation includes all financial assets and liabilities. Simulation results quantify interest rate risk under various interest rate scenarios. Management then develops and implements appropriate strategies. The ALCO Committee has determined that an acceptable level of interest rate risk would be for net interest income to decrease no more than 5.00% given a change in selected interest rates of 200 basis points over any 24-month period.

Liquidity management involves the matching of the cash flow requirements of customers, who may be either depositors desiring to withdraw funds or borrowers needing assurance that sufficient funds will be available to meet their credit needs, and the ability of Ameris to manage those requirements. The Company strives to maintain an adequate liquidity position by managing the balances and maturities of interest-earning assets and interest-bearing liabilities so that the balance it has in short-term investments at any given time will adequately cover any reasonably anticipated immediate need for funds. Additionally, the Bank maintains relationships with correspondent banks, which could provide funds on

Edgar Filing: Ameris Bancorp - Form 10-Q

short notice, if needed. The Company has invested in FHLB stock for the purpose of establishing credit lines with the FHLB. The credit availability to the Bank is equal to 20% of the Bank's total assets as reported on the most recent quarterly financial information submitted to the regulators subject to the pledging of sufficient collateral. At June 30, 2011, there were no advances outstanding on any of the Company's lines of credit.

Table of Contents

The following liquidity ratios compare certain assets and liabilities to total deposits or total assets:

	June 30, 2011	March 31, 2011	December 31, 2010	September 30, 2010	June 30, 2010
Investment securities available for sale to total deposits	13.31%	11.76%	12.72%	11.25%	11.44%
Loans (net of unearned income) to total deposits ⁽¹⁾	54.16%	52.32%	54.22%	69.36%	81.04%
Interest-earning assets to total assets	83.97%	83.63%	84.57%	89.99%	89.65%
Interest-bearing deposits to total deposits	87.34%	87.71%	88.09%	88.77%	89.52%

(1) Loans exclude covered assets where appropriate

The liquidity resources of the Company are monitored continuously by the ALCO Committee and on a periodic basis by state and federal regulatory authorities. As determined under guidelines established by these regulatory authorities, the Company's and the Bank's liquidity ratios at June 30, 2011 were considered satisfactory. The Company is aware of no events or trends likely to result in a material change in liquidity.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

The Company is exposed only to U.S. dollar interest rate changes, and, accordingly, the Company manages exposure by considering the possible changes in the net interest margin. The Company does not have any trading instruments nor does it classify any portion of the investment portfolio as held for trading. The Company's hedging activities are limited to cash flow hedges and are part of the Company's program to manage interest rate sensitivity. At June 30, 2011, the Company had one effective interest rate floor with a notional amount totaling \$35 million and one effective LIBOR rate swap with a notional amount of \$37.1 million. The floor is hedging specific cash flows associated with variable rate loans, has a strike rate of 7.00% and matures August 2011. The LIBOR rate swap exchanges fixed rate payments of 4.15% for floating rate payments based on the three month LIBOR and matures December 2018. Finally, the Company has no exposure to foreign currency exchange rate risk, commodity price risk and other market risks.

Interest rates play a major part in the net interest income of a financial institution. The sensitivity to rate changes is known as interest rate risk. The repricing of interest-earning assets and interest-bearing liabilities can influence the changes in net interest income. As part of the Company's asset/liability management program, the timing of repriced assets and liabilities is referred to as Gap management.

The Company uses simulation analysis to monitor changes in net interest income due to changes in market interest rates. The simulation of rising, declining and flat interest rate scenarios allows management to monitor and adjust interest rate sensitivity to minimize the impact of market interest rate swings. The analysis of the impact on net interest income over a twelve-month period is subjected to a gradual 200 basis point increase or decrease in market rates on net interest income and is monitored on a quarterly basis.

Additional information required by Item 305 of Regulation S-K is set forth under Part I, Item 2 of this report.

Item 4. Controls and Procedures.

The Company's Chief Executive Officer and Chief Financial Officer have evaluated the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) or 15d-15(e) promulgated under the Exchange Act), as of the end of the period covered by this report, as required by paragraph (b) of Rules 13a-15 or 15d-15 of the Exchange Act. Based on such evaluation, such officers have concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures are effective.

During the quarter ended June 30, 2011, there were no changes in the Company's internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Rules 13a-15 or 15d-15 of the Exchange Act that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
