Item 2.02. Results of Operations and Financial Condition.

On February 7, 2012, The Scotts Miracle-Gro Company (the "Company") issued a news release reporting information regarding its results of operations for the three-month period ended December 31, 2011 and its financial condition as of December 31, 2011. The news release is included as Exhibit 99.1 to this Current Report on Form 8-K.

The news release includes the following non-GAAP financial measures as defined in Regulation G:

Adjusted loss from continuing operations and adjusted diluted loss per common share from continuing operations These measures exclude charges or credits relating to refinancings, impairments, restructurings, product registration and recall matters, discontinued operations and other unusual items such as costs or gains related to discrete projects or transactions that are apart from and not indicative of the results of the operations of the business. In compliance with Regulation G, the Company has provided a reconciliation of adjusted loss from continuing operations and adjusted diluted loss per common share from continuing operations to their most directly comparable financial measures calculated and presented in accordance with accounting principles generally accepted in the United States of America ("GAAP"). These non-GAAP financial measures are provided solely for the purpose of complying with Regulation G and are not intended to replace or serve as substitutes for any of the Company's GAAP financial measures.

Adjusted EBITDA This measure is provided as a convenience to the Company's lenders because adjusted EBITDA is a component of certain debt compliance covenants. This measure is calculated as net loss before interest, taxes, depreciation and amortization as well as certain other items such as the impact of the cumulative effect of changes in accounting, costs associated with debt refinancing and other non-recurring, non-cash items affecting net loss. In addition, non-recurring cash items affecting net income or loss that are incurred between April 3, 2011 and June 30, 2012 in an aggregate amount not to exceed \$40 million are also excluded from the determination of adjusted EBITDA. The presentation of adjusted EBITDA herein is intended to be consistent with the calculation of that measure as required by our borrowing arrangements, and used to calculate a leverage ratio (maximum of 3.50 at December 31, 2011) and an interest coverage ratio (minimum of 3.50 for the twelve months ended December 31, 2011). The Company's calculation of adjusted EBITDA does not represent and should not be considered as an alternative to net income or cash flow from operations as determined by GAAP. The Company makes no representation or assertion that adjusted EBITDA is indicative of its cash flows from operations or results of operations. The Company has provided a reconciliation of loss from continuing operations to adjusted EBITDA solely for the purpose of complying with Regulation G and not as an indication that adjusted EBITDA is a substitute measure for loss from continuing operations.

The Company's management believes that these non-GAAP financial measures are the most indicative of the Company's ongoing earnings capabilities and that disclosure of these non-GAAP financial measures therefore provides useful information to investors or other users of the financial statements, such as lenders. Non-GAAP financial measures should be viewed in addition to, and not as an alternative for, the Company's reported results prepared in accordance with GAAP.
