**Item 2.05. Costs Associated with Exit or Disposal Activities**

In March, Bottomline Technologies (de), Inc. (the Company) and Intuit Inc. (Intuit) announced a strategic partnership in which they are using their core expertise and combined market strength to deliver innovative products and services for businesses to the banking and financial services industry. In connection with the partnership, the Company acquired the commercial banking business from Intuit's financial services segment.

During April, the Company realigned its overall global resources, with a particular focus on resources associated with the acquired commercial banking business. This process is substantially complete, and the Company estimates that it will record pre-tax restructuring charges arising from severance related benefits of approximately \$1.3 million during the quarter and fiscal year ending June 30, 2012.

**Cautionary Language**

Certain statements in this Current Report on Form 8-K, including statements regarding the pre-tax restructuring charges arising from the realignment, are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Actual results may differ materially from those indicated by such forward-looking statements as a result of various important factors. Among the important factors that could cause actual results to differ materially from those indicated by such forward-looking statements are any legal claims that may be asserted by persons affected by the restructuring, difficulties encountered in transitioning the duties of departing personnel to others, and general factors relating to our business, including those risk factors discussed in the Company's Form 10-K for year ended June 30, 2011 and any subsequently filed Form 10-Q's, Form 8-K's or amendments thereto. Any forward-looking statements represent our views only as of today and should not be relied upon as representing our views as of any subsequent date. We do not assume any obligation to update any forward-looking statements.
