

WisdomTree Trust  
Form N-Q  
July 20, 2012

**UNITED STATES**  
**SECURITIES AND EXCHANGE COMMISSION**

Washington, DC 20549

**FORM N-Q**

**QUARTERLY SCHEDULE OF PORTFOLIO HOLDINGS OF REGISTERED**  
**MANAGEMENT INVESTMENT COMPANY**  
**Investment Company Act file number 811-21864**

**WisdomTree Trust**

(Exact name of Registrant as specified in charter)

**380 Madison Avenue, 21<sup>st</sup> Floor New York, NY 10017**

(Address of principal executive offices) (Zip code)

Edgar Filing: WisdomTree Trust - Form N-Q

**The Corporation Trust Company**

**1209 Orange Street**

**Wilmington, DE 19801**

(Name and address of agent for service)

**Registrant's telephone number, including area code: (866) 909-9473**

Date of fiscal year end: **August 31**

Date of reporting period: **May 31, 2012**

Form N-Q is to be used by management investment companies, other than small business investment companies registered on Form N-5 (§§ 239.24 and 274.5 of this chapter), to file reports with the Commission, not later than 60 days after the close of the first and third fiscal quarters, pursuant to rule 30b1-5 under the Investment Company Act of 1940 (17 CFR 270.30b1-5). The Commission may use the information provided on Form N-Q in its regulatory, disclosure review, inspection, and policymaking roles.

A registrant is required to disclose the information specified by Form N-Q, and the Commission will make this information public. A registrant is not required to respond to the collection of information contained in Form N-Q unless the Form displays a currently valid Office of Management and Budget (OMB) control number. Please direct comments concerning the accuracy of the information collection burden estimate and any suggestions for reducing the burden to the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW, Washington, DC 20549-0609. The OMB has reviewed this collection of information under the clearance requirements of 44 U.S.C. § 3507.

**Notes to Schedule of Investments** (unaudited)**1. ORGANIZATION**

WisdomTree Trust (the Trust) is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as an open-end management investment company. The Trust was established as a Delaware statutory trust pursuant to a Trust Instrument dated December 15, 2005. As of May 31, 2012, the Trust offered 48 investment funds (each a Fund, collectively, the Funds). These notes relate only to Funds listed in the table below:

| Fund Name   | Commencement<br>of<br>Operations |
|---|----------------------------------|
| WisdomTree Dreyfus Brazilian Real Fund ( Brazilian Real Fund )                            | May 14, 2008                     |
| WisdomTree Dreyfus Chinese Yuan Fund ( Chinese Yuan Fund )                                | May 14, 2008                     |
| WisdomTree Dreyfus Commodity Currency Fund ( Commodity Currency Fund )                    | September 24, 2010               |
| WisdomTree Dreyfus Emerging Currency Fund ( Emerging Currency Fund )                      | May 6, 2009                      |
| WisdomTree Dreyfus Indian Rupee Fund ( Indian Rupee Fund )                                | May 14, 2008                     |
| WisdomTree Dreyfus Japanese Yen Fund ( Japanese Yen Fund )                                | May 21, 2008                     |
| WisdomTree Dreyfus South African Rand Fund ( South African Rand Fund )                    | June 25, 2008                    |
| WisdomTree Asia Local Debt Fund ( Asia Local Debt Fund )                                  | March 17, 2011                   |
| WisdomTree Australia & New Zealand Debt Fund ( Australia & New Zealand Debt Fund )        | June 25, 2008                    |
| WisdomTree Emerging Markets Corporate Bond Fund ( Emerging Markets Corporate Bond Fund )  | March 8, 2012                    |
| WisdomTree Emerging Markets Local Debt Fund ( Emerging Markets Local Debt Fund )          | August 9, 2010                   |
| WisdomTree Euro Debt Fund ( Euro Debt Fund )  | May 14, 2008                     |
| WisdomTree Global Real Return Fund ( Global Real Return Fund ) (consolidated)             | July 14, 2011                    |
| WisdomTree Managed Futures Strategy Fund ( Managed Futures Strategy Fund ) (consolidated) | January 5, 2011                  |

**CONSOLIDATION OF SUBSIDIARIES**

The schedule of investments of the Managed Futures Strategy Fund and Global Real Return Fund each includes the investments of a wholly-owned and controlled Cayman Islands subsidiary (each, the Subsidiary, collectively, the Subsidiaries). For the Managed Futures Strategy Fund and Global Real Return Fund, the accompanying schedule of investments reflect the investments of each Fund on a consolidated basis with its respective Subsidiary. All intercompany transactions have been eliminated in consolidation. Each Fund seeks to gain exposure to commodity markets, in whole or in part, through investments in its Subsidiary. Each Fund's investment in its Subsidiary may not exceed 25% of the Fund's total assets at the end of each fiscal quarter.

**2. SIGNIFICANT ACCOUNTING POLICIES**

The Financial Accounting Standards Board ( FASB ) Accounting Standards Codification (the Codification) is the exclusive reference of authoritative U.S. generally accepted accounting principles ( GAAP ) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission ( SEC ) under authority of federal laws are also sources of authoritative GAAP for SEC registrants.

**Guarantees** - In the normal course of business the Funds may enter into contracts that contain a variety of representations or that provide indemnification for certain liabilities. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote. Therefore, no liabilities have been recorded in connection with these indemnifications.

**Investment Valuation** - The net asset value ( NAV ) of each Fund's shares is calculated each day the national securities exchanges are open for trading as of the close of regular trading on the New York Stock Exchange, generally 4:00 p.m. New York time. NAV per share is calculated by dividing a Fund's net assets by the number of Fund shares outstanding. In calculating each Fund's NAV, investments are valued under policies approved by the Board of Trustees. Fixed income securities generally are valued at current market quotations or mean prices obtained from dealers or independent pricing services. Dealers or independent pricing services, in determining the value of securities may consider such factors as recent transactions, indications from dealers, yields and prices on

**Notes to Schedule of Investments** (unaudited)(continued)

similar securities, and market sentiment for the type of security. Futures contracts generally are valued at settlement price on the primary exchange on which they trade. Swaps are generally valued on the basis of broker dealer quotations or independent pricing services. Short-term debt securities with remaining maturities of 60 days or less generally are valued on the basis of amortized cost, which approximates fair value. U.S. fixed income assets may be valued as of the announced closing time for such securities on any day that the Securities Industry and Financial Markets Association announces an early closing time.

Forward foreign currency contracts generally are valued daily using WM/Reuters closing spot and forward rates as of 4:00 p.m. London time for Europe and the Americas, and Tullett Prebon closing spot and forward rates as of 2:00 p.m. Singapore time for Asia. In certain instances, such as when reliable market valuations are not readily available or are not deemed to reflect current market values, a Fund's investments will be valued in accordance with the Fund's pricing policy and procedures approved by the Board of Trustees. For these purposes, a price based on amortized cost is considered a market valuation. In addition, securities may be valued using fair value pricing and may include, but are not limited to, securities for which there are no current market quotations, securities whose issuer is in default or bankruptcy, securities subject to corporate actions (such as mergers or reorganizations), securities subject to non-U.S. investment limits or currency controls, and securities affected by significant events. An example of a significant event is an event occurring after the close of the market in which a security trades but before a Fund's next NAV calculation time that may materially affect the value of a Fund's investment (e.g., government action, natural disaster, or significant market fluctuation). When fair value pricing is employed, the prices of securities used by a Fund to calculate its NAV may differ from quoted or published prices for the same securities. Each Fund may invest in money market funds which are valued at such money market fund's NAV per share.

**Fair Value Measurement** - In accordance with Codification Topic 820 (ASC 820), Fair Value Measurements and Disclosures, fair value is defined as the price that each Fund would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market of the investment. ASC 820 established a three-tier hierarchy to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classifications of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk - for example, the risk inherent in a particular valuation technique used to measure fair value (such as a pricing model) and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability. Observable inputs are based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. Unobservable inputs are based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad levels listed below:

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including each Fund's assumptions in determining the fair value of investments)

Investments that use Level 2 or Level 3 inputs may include, but are not limited to: (i) an unlisted security related to corporate actions; (ii) a restricted security (e.g., one that may not be publicly sold without registration under the Securities Act of 1933, as amended); (iii) a security whose trading has been suspended or which has been de-listed from its primary trading exchange; (iv) a security that is thinly traded; (v) a security in default or bankruptcy proceedings for which there is no current market quotation; (vi) a security affected by currency controls or restrictions; and (vii) a security affected by a significant event (e.g., an event that occurs after the close of the markets on which the security is traded but before the time as of which a Fund's NAV is computed and that may materially affect the value of the Fund's investments).

The inputs or methodology used for valuation are not necessarily an indication of the risk associated with investing in those investments.

### Notes to Schedule of Investments (unaudited)(continued)

The valuation techniques and significant inputs used in determining the fair market values of financial instruments are as follows:

Financial instruments are valued by pricing service providers that use broker dealer quotations, reported trades or valuation estimates from their internal pricing models. Depending on the type of financial instrument, the service providers' internal models use inputs that are observable such as issuer details, interest rates, yield curves, prepayment speeds, credit risks/spreads, default rates and quoted prices for similar assets. Securities that use similar valuation techniques and inputs as described above are categorized as Level 2 of the fair value hierarchy. Short-term investments having a maturity of 60 days or less are generally valued at amortized cost which approximates fair market value. These investments are categorized as Level 2 of the fair value hierarchy. Over-the-counter financial derivative instruments, such as forward foreign currency contracts or swaps agreements, derive their value from underlying asset prices, indices, reference rates, and other inputs or a combination of these factors. These contracts are normally valued on the basis of broker dealer quotations or pricing service providers. Depending on the product and the terms of the transaction, the value of the financial derivative contracts can be estimated by a pricing service provider using a series of techniques, including simulation pricing models. The pricing models use inputs that are observed from actively quoted markets such as issuer details, indices, spreads, interest rates, curves, dividends and exchange rates. Financial derivatives that use similar valuation techniques and inputs as described above are categorized as Level 2 of the fair value hierarchy.

In the event that a financial instrument cannot be valued based upon a price from a national securities exchange, pricing service provider or broker quotation, or such prices are deemed to not reflect current market value, WTAM may value the financial instrument in good faith under the policies and procedures approved by the Board of Trustees based on current facts and circumstances. Determination of this value may include significant unobservable inputs and therefore would be reflected as Level 3 of the fair value hierarchy.

The following is a summary of the inputs used as of May 31, 2012 in valuing each Fund's assets carried at fair value:

| Brazilian Real Fund   | Level 1   | Level 2               | Level 3   |
|---|-----------|-----------------------|-----------|
| <b>Investments in Securities</b>                              |           |                       |           |

Notes to Schedule of Investments (unaudited)(continued)

No transfers between Level 1 and Level 2 fair value measurements occurred during the period ended May 31, 2012.

The following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value. All transfers in or out of Level 3 are done using the beginning of period method.

| Asia Local Debt Fund                             | Supranational Bonds |
|--|---------------------|
| <b>Balance as of September 1, 2011</b>           | \$ 12,365,842       |
| Premium/discount amortization (accretion)        | (2,501)             |
| Realized gain (loss)                             | (357,988)           |
| Change in unrealized appreciation (depreciation) | (353,476)           |
| Sales  | (7,414,622)         |
| Transfers into Level 3 <sup>1</sup>              |                     |
| Transfers out of Level 3 <sup>2</sup>            | (4,237,255)         |
| <b>Balance as of May 31, 2012</b>                | \$                  |

| Emerging Markets Local Debt Fund                 | Supranational Bonds |
|--|---------------------|
| <b>Balance as of September 1, 2011</b>           | \$ 2,241,272        |
| Premium/discount amortization (accretion)        | (3,295)             |
| Realized gain (loss)                             | (114,888)           |
| Change in unrealized appreciation (depreciation) | (67,999)            |
| Sales  | (2,055,090)         |
| Transfers into Level 3 <sup>1</sup>              |                     |
| Transfers out of Level 3 <sup>2</sup>            |                     |
| <b>Balance as of May 31, 2012</b>                | \$                  |

<sup>1</sup> Transfers into Level 3 are as a result of the unavailability of a quoted price in an active market for an identical investment or the unavailability of other significant observable inputs.

<sup>2</sup> Transfers out of Level 3 are as a result of the availability of a quoted price in an active market for an identical investment or the availability of other significant observable inputs.

**Derivatives and Hedging Disclosure** - Codification Topic 815 ( ASC 815 ), Derivatives and Hedging, requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. The Funds have invested in derivatives, specifically forward foreign currency contracts, swaps contracts and futures contracts during the period ended May 31, 2012 which are detailed in the tables herein. The Funds' derivative agreements contain credit-risk related contingent features which include, but are not limited to, a percentage decline in the Funds' NAV or net assets over a specified time period. If an event occurred that triggered a contingent feature, the counterparty to the agreement may require the Funds to post additional collateral or terminate the derivative positions and demand payment. Any collateral posted with respect to the derivative positions would be used to offset or reduce the payment. The maximum exposure to derivatives agreements with credit-risk related contingent features would be the total value of derivatives in net liability positions for each Fund.

As of May 31, 2012, the following Funds posted securities and/or cash as collateral for derivative agreements as follows:

| Fund                | Value of Collateral<br>Posted |
|---------------------|-------------------------------|
| Brazilian Real Fund | \$ 1,970,000                  |

Edgar Filing: WisdomTree Trust - Form N-Q

|                               |           |
|-------------------------------|-----------|
| Chinese Yuan Fund             | 670,000   |
| Commodity Currency Fund       | 650,000   |
| Emerging Currency Fund        | 6,510,000 |
| Indian Rupee Fund             | 570,000   |
| Asia Local Debt Fund          | 380,000   |
| Global Real Return Fund       | 11,000    |
| Managed Futures Strategy Fund | 4,754,847 |

**Notes to Schedule of Investments** (unaudited)(continued)

**Investment Transactions** - Investment transactions are recorded as of the date that the securities are purchased or sold (trade date).

**Foreign Currency Translation** - The accounting records of the Funds are maintained in U.S. dollars. Foreign currencies, as well as investment securities and other assets and liabilities denominated in foreign currencies, are translated into U.S. dollars using exchange rates prevailing on the respective dates of such transactions that are deemed appropriate by WTAM.

**Repurchase Agreements** - Each Fund's custodian or a third party custodian under tri-party repurchase agreements may take possession of the collateral pledged for investments in repurchase agreements. The underlying collateral is valued on a daily basis at fair value to ensure that the value, including accrued interest, is at least equal to the repurchase price. In the event of default of the obligation to repurchase, a Fund has the right to liquidate the collateral and apply the proceeds in satisfaction of the obligations. Under certain circumstances, in the event of default or bankruptcy by the other party to the agreement, realization and/or retention of the collateral may be subject to legal proceedings.

**Forward Foreign Currency Contracts** - A forward foreign currency contract ( Forward Contract ) involves an obligation to purchase or sell a specific currency at a future date, which may be any fixed number of days from the date of the contract agreed upon by the parties, at a price set at the time of the contract. These contracts are principally traded in the inter-bank market conducted directly between currency traders (usually large, commercial banks) and their customers. A Forward Contract generally has no margin deposit requirement, and no commissions are charged at any stage for trades.

Risks may arise upon entering into Forward Contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of foreign currencies relative to the U.S. dollar or each other.

Fluctuations in the value of open Forward Contracts are recorded for book purposes as unrealized gains or losses on Forward Contracts by the Funds. Realized gains and losses on Forward Contracts include net gains or losses recognized by the Funds on contracts which have matured. Each Fund may enter into Forward Contracts to manage its foreign currency exposure or to facilitate settlement of foreign currency denominated portfolio transactions. A Fund may invest in both Forward Contracts and U.S. dollar denominated money market securities in an attempt to create a synthetic investment in a foreign currency denominated instrument.

Notes to Schedule of Investments (unaudited)(continued)

**Currency, Interest Rate and Total Return Swaps** - Each Fund may enter into swap agreements, including interest rate swaps, currency swaps and total return swaps. A typical interest rate swap involves the exchange of a floating interest rate payment for a fixed interest rate payment. A typical foreign currency swap involves the exchange of cash flows based on the notional difference among two or more currencies (e.g., the U.S. dollar and the Brazilian real). A typical total return swap involves the payment of the total return on a reference asset in return for payments equal to a rate of interest on another reference asset. The total return typically includes appreciation or depreciation on the reference asset, plus any interest or dividend payments. Swap agreements may be used to achieve exposure to, for example, currencies, interest rates, indexes and money market securities without actually purchasing such currencies or securities. The Managed Futures Strategy Fund and the Global Real Return Fund may enter into swaps transactions based on commodities or commodity indexes. Each Fund may use swap agreements to invest in a market without owning or taking physical custody of the underlying securities in circumstances in which direct investment is restricted for legal reasons or is otherwise impracticable. Swap agreements will tend to shift a Fund's investment exposure from one type of investment to another or from one payment stream to another. Depending on their structure, swap agreements may increase or decrease a Fund's exposure to long or short-term interest rates (in the United States or abroad), foreign currencies, corporate borrowing rates, or other factors, and may increase or decrease the overall volatility of a Fund's investments and its share price.

Detailed below is the interest rate swap agreement outstanding as of May 31, 2012:

| Fund                                   | Counterparty | Termination Date | Notional Amount (000) | Fund Receives Fixed Rate (per annum) | Fund Pays Floating Rate (per annum) | Unrealized Depreciation |
|--|--------------|------------------|-----------------------|--------------------------------------|-------------------------------------|-------------------------|
| Global Real Return Fund (consolidated) | UBS AG       | 7/14/16          | \$ 220                | 1.89%                                | 6-Month LIBOR                       | \$ (4,932)              |

Detailed below are total return swap agreements outstanding as of May 31, 2012:

| Fund   | Counterparty              | Termination Date | Notional Amount (000) | Fund Pays Fixed Rate (per annum)         | Fund Receives Total Return of Reference Entity        | Unrealized Depreciation |
|--|---------------------------|------------------|-----------------------|--|---|-------------------------|
| Global Real Return Fund (consolidated)       | JPMorgan Chase Bank, N.A. | 7/16/12          | \$ 416                | 0.30%                                    | Credit Suisse Commodity Benchmark Excess Return Index | \$                      |
| Managed Futures Strategy Fund (consolidated) | UBS AG                    | 12/14/12         | 754                   | 3-Month U.S. Treasury Bill Index + 0.80% | AFT CTI Modified Index                                | (17,753)                |
| Managed Futures Strategy Fund (consolidated) | UBS AG                    | 12/14/12         | 54,520                | 3-Month U.S. Treasury Bill Index + 0.45% | AFT CTI Modified Index                                | (1,274,383)             |

LIBOR - London Interbank Offered Rate

## Edgar Filing: WisdomTree Trust - Form N-Q

**Futures Contracts** - Each Fund may transact in currency futures contracts and U.S. Treasury futures contracts. The Managed Futures Strategy Fund and Global Real Return Fund may transact in commodity, currency and U.S. Treasury futures contracts. When a Fund purchases a listed futures contract, it agrees to purchase a specified reference asset (e.g., commodity, currency or Treasury security) at a specified future date. When a Fund sells a listed futures contract, it agrees to sell a specified reference asset (e.g., commodity, currency or Treasury security) at a specified future date. The price at which the purchase and sale will take place is fixed when the Fund enters into the contract. The exchange clearing corporation is the ultimate counterparty for all exchange-listed contracts, so credit risk is limited to the creditworthiness of the exchange's clearing corporation. Margin deposits are posted as performance bonds with the clearing broker and, in turn, with the exchange clearing corporation.

Each Fund may buy and sell index futures contracts. An index futures contract is a bilateral agreement pursuant to which two parties agree to take or make delivery of an amount of cash equal to a specified dollar amount times the difference between the index value at the close of trading of the contract and the price at which the futures contract is originally struck. No physical delivery of the securities comprising the index is made. Instead, settlement in cash must occur upon the termination of the contract, with the settlement being the difference between the contract price, and the actual level of the index at the expiration of the contract. Generally, contracts are closed out prior to the expiration date of the contract.

When a Fund purchases or sells a futures contract, the Fund is required to cover its position in order to limit the risk associated with the use of leverage and other related risks. To cover its position, the Fund will segregate assets consisting of cash or liquid securities that, when added to any amounts deposited with a futures commission merchant as margin, are equal to the market value of the futures contract or otherwise cover its position in a manner consistent with the 1940 Act or the rules and SEC interpretations thereunder. If the Fund continues to engage in the described securities trading practices and properly segregates assets, the segregated assets will function as a practical limit on the amount of leverage which the Fund may undertake and on the potential increase in the speculative character of the Fund's outstanding portfolio securities. Additionally, such segregated assets will generally ensure the availability of adequate funds to meet the obligations of the Fund arising from such investment activities.

**Securities Lending** - Each Fund may lend portfolio securities to certain creditworthy borrowers, including the Funds' securities lending agent. It is the Funds' policy that, at origination, all loans are secured by collateral of at least 102% of the value of U.S. securities loaned and 105% of the value of foreign securities loaned. Collateral in the form of cash and/or high-grade debt obligations, equivalent to at least 100% of the market value of securities, is maintained at all times. The collateral can be invested in certain money market mutual funds which also have exposure to the fluctuations of the market. Each Fund receives compensation for lending its securities from interest or dividends earned on the cash or U.S. government securities held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income. The borrower pays to the Funds an amount equal to any dividends or interest received on loaned securities. The Funds retain all or a portion of the interest received on investment of cash collateral or receive a fee from the borrower. Lending portfolio securities could result in a loss or delay in recovering each Fund's securities if the borrower defaults.

## Edgar Filing: WisdomTree Trust - Form N-Q

**Short-Term Investments** - Each Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments include short-term obligations issued by the U.S. Government, its agencies, non-U.S. Government agencies, negotiable certificates of deposit ( CDs ), fixed time deposits and bankers acceptances of U.S. and foreign banks and similar institutions, commercial papers, repurchase agreements and money market funds. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Banker s acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

**4. LEGAL MATTER**

On December 1, 2011, Research Affiliates, LLC filed a complaint in the United States District Court for the Central District of California, naming the Trust, its adviser, WisdomTree Asset Management, Inc. and its affiliates, along with other parties, as defendants. The complaint alleges that the fundamentally weighted investment methodology developed by WisdomTree Investments, Inc. ( WisdomTree Investments ) and employed by the Trust infringes three of plaintiff's patents. The complaint seeks both unspecified monetary damages to be determined and an injunction to prevent further infringement. The Trust filed its answer to the complaint on January 17, 2012. The Trust believes it has strong defenses to this lawsuit based on its belief that (i) the Trust's Funds do not practice the indexing methods as claimed in the asserted patents; and (ii) the patents should be declared invalid because, among other reasons, there is ample evidence that the concept of fundamentals based indexing was widely known and in commercial use by asset managers and index providers well before the patent applications at issue were filed by plaintiff. Specifically, the Currency Income, Fixed Income and Alternative Funds described herein, do not infringe upon plaintiff's patents since they are not managed using a fundamentally weighted investment methodology.

**Notes to Schedule of Investments** (unaudited)(continued)

While at this early stage of the proceedings it is not possible to determine the probability of any outcome or the probability or amount of any loss, the Trust is confident in the merits of its position. WisdomTree Asset Management and WisdomTree Investments have contractually agreed to indemnify the Trust and pay any losses, claims and damages (including legal fees) incurred by the Trust or a Fund in connection with the complaint. The Trust intends to vigorously defend against plaintiff's claims.

**Item 2. Controls and Procedures.**

- (a) Based on their evaluation of the Registrant's disclosure controls and procedures (as defined in Rule 30a-3 (c) under the Investment Company Act of 1940) as of a date within 90 days prior to the filing date of this report, the President and Treasurer of the Registrant have concluded that such disclosure controls and procedures are reasonably designed and effective to ensure that material information relating to the Registrant, including its consolidated subsidiaries, is made known to them by others within those entities.
- (b) There were no changes in the Registrant's internal control over financial reporting (as defined in Rule 30a-3 (d) under the Investment Company Act of 1940) that occurred during the Registrant's last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Registrant's internal control over financial reporting.

**Item 3. Exhibits.**

- (i) Certification of each principal executive officer and principal financial officer the Registrant as required by Rule 30a-2 (a) under the Investment Company Act of 1940 (17 CFR 270.30a-2) is attached hereto as a part of EX-99. CERT.

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

(Registrant) WisdomTree Trust
